Use Schedule F (Form 1040) to report farm income and expenses. File it with Form 1040, 1041, 1065, or 1065-B.

This activity may subject you to state and local taxes and other requirements such as business licenses and fees. Check with your state and local governments for more information.

Additional information. Pub. 225 has samples of filled-in forms and schedules, and lists important dates that apply to farmers.

Section references are to the Internal Revenue Code unless otherwise noted.

What’s New

Employee retention credit for employers affected by Hurricane Katrina. If you had employees in the Hurricane Katrina disaster area, you may be eligible for a credit against the wages you paid them while your business was inoperative. For more information, see Form 8884-A.

Biodiesel and renewable diesel fuels credit. If you claimed the biodiesel and renewable diesel fuels credit on Form 8864, you must include the credit in your income on line 10 if you use the cash method or line 44 if you use the accrual method. See the instructions for line 10 on page F-3.

General Instructions

Other Schedules and Forms You May Have To File

• Schedule E, Part I, to report rental income from pastureland that is based on a flat charge. Report on Schedule F, line 10, pasture income received from taking care of someone else’s livestock.
• Schedule J to figure your tax by averaging your farm income over the previous 3 years. Doing so may reduce your tax.
• Schedule SE to pay self-employment tax on income from your farming business.
• Form 4562 to claim depreciation on assets placed in service in 2005, to make an election under section 179 to expense certain property, or to report information on vehicles and other listed property.
• Form 4684 to report a casualty or theft loss involving farm business property including livestock held for draft, breeding, sport, or dairy purposes.
• If you received cash of more than $10,000 in one or more related transactions in your farming business, you may have to file Form 8300. For details, see Pub. 1544.

Reportable transaction disclosure statement. If you entered into a reportable transaction in 2005, you must file Form 8886 to disclose information if your federal income tax liability is affected by your participation in the transaction. You may have to pay a penalty if you are required to file Form 8886 but do not do so. You may also have to pay interest and penalties on any reportable transaction understatement. For more information on reportable transactions, see Reportable Transaction Disclosure Statement that begins on page C-1 of the Instructions for Schedule C.

Estimated Tax

If you had to make estimated tax payments in 2005 and you underpaid your estimated tax, you will not be charged a penalty if both of the following apply.

• Your gross farming or fishing income for 2004 or 2005 is at least two-thirds of your gross income.
• You file your 2005 tax return and pay the tax due by March 1, 2006. For details, see Pub. 225.

Specific Instructions

Filers of Forms 1041, 1065, and 1065-B

Do not complete the block labeled “Social security number (SSN).” Instead, enter your employer identification number (EIN) on line D.

Line B

On line B, enter one of the 14 principal agricultural activity codes listed in Part IV on page 2 of Schedule F. Select the code that best describes the source of most of your income.

Line C

If you use the cash method, check the box labeled “Cash.” Complete Schedule F, Parts I and II. Generally, report income in the year in which you actually or constructively received it and deduct expenses in the year you paid them. However, if the payment of an expenditure creates an asset having a useful life that extends substantially beyond the close of the year, it may not be deductible or may be deductible only in part for the year of the payment. See Pub. 225.

If you use an accrual method, check the box labeled “Accrual.” Complete Schedule F, Parts II, III, and Part I, line 11. Generally, report income in the year in which you earned it and deduct expenses in the year you incurred them, even if you did not pay them in that year. Accrual basis taxpayers are put on a cash basis for deducting business expenses owed to a related cash-basis taxpayer. Other rules determine the timing of deductions based on economic performance. See Pub. 538.

Cat. No. 17152R
Farming syndicates cannot use the cash method of accounting. A farming syndicate may be a partnership, any other noncorporate group, or an S corporation if:

- The interests in the business have ever been for sale in a way that would require registration with any federal or state agency, or
- More than 35% of the loss during any tax year is shared by limited partners or limited entrepreneurs. A limited partner is one who can lose only the amount invested or required to be invested in the partnership. A limited entrepreneur is a person who does not take any active part in managing the business.

### Line D
You need an employer identification number (EIN) only if you had a qualified retirement or disability. Also, a surviving spouse actively manages the farm. These amounts are government payments you are treated as materially participating in a farming business if you materially participated 5 of the 8 years preceding your retirement or disability. Also, a surviving spouse is treated as materially participating in a farming activity if the real property used for farming meets the estate tax rules for special valuation of farm property passed from a qualifying decedent, and the surviving spouse actively manages the farm.

Check the “No” box if you did not materially participate. If you checked “No” and you have a loss from this business, see **Limit on passive losses below.** If you have a profit from this business activity but have current year losses from other passive activities or prior year unallowed passive activity losses, see the Instructions for Form 8582.

**Limit on passive losses.** If you checked the “No” box and you have a loss from this business, you may have to use Form 8582 to figure your allowable loss, if any, to enter on Schedule F, line 36. Generally, you can deduct losses from passive activities in the extent of income from passive activities. For details, see Pub. 925.

### Part I. Farm Income—Cash Method

In Part I, show income received for items listed on lines 1 through 10. Generally, include both the cash actually or constructively received and the fair market value of goods or other property received for these items. Income is constructively received when it is credited to your account or set aside for you to use. However, direct payments or counter-cyclical payments received under the Farm Security and Rural Investment Act of 2002 are required to be included as income only in the year of actual receipt.

If you ran the farm yourself and received rents based on crop shares or farm production, report these rents as income on line 4.

### Sales of Livestock Because of Weather-Related Conditions

If you sold livestock because of drought, flood, or other weather-related conditions, you can elect to report the income from the sale in the year after the year of sale if all of the following apply:

- Your main business is farming.
- You can show that you sold the livestock only because of weather-related conditions.
- Your area qualified for federal aid. See Pub. 225 for details.

### Forms 1099 or CCC-1099-G

If you received Forms 1099 or CCC-1099-G showing amounts paid to you, first determine if the amounts are to be included with farm income. Then, use the following chart to determine where to report the income on Schedule F. Include the Form 1099 or CCC-1099-G amounts in the total amount reported on that line.

<table>
<thead>
<tr>
<th>Form</th>
<th>Where to report</th>
<th>Line</th>
</tr>
</thead>
<tbody>
<tr>
<td>1099-PATR</td>
<td>Line 5a</td>
<td></td>
</tr>
<tr>
<td>1099-A</td>
<td>Line 7b</td>
<td></td>
</tr>
<tr>
<td>1099-MISC</td>
<td>(for crop insurance)</td>
<td>Line 8a</td>
</tr>
<tr>
<td></td>
<td>(for disaster payments)</td>
<td>Line 8a</td>
</tr>
<tr>
<td></td>
<td>(for other agricultural program payments)</td>
<td>Line 6a</td>
</tr>
</tbody>
</table>

You may also receive Form 1099-MISC for other types of income. In this case, report it on whichever line best describes the income. For example, if you received a Form 1099-MISC for custom farming work, include this amount on line 9, “Custom hire (machine work) income.”

### Lines 5a and 5b

If you received distributions from a cooperative in 2005, you should receive Form 1099-PATR. On line 5a, show your total distributions from cooperatives. This includes patronage dividends, nonparticipation distributions, per-unit retain allocations, and redemption of nonqualified notices and per-unit retain allocations.

Show patronage dividends received in cash and the dollar amount of qualified written notices of allocation. If you received property as patronage dividends, report the fair market value of the property as income. Include cash advances received from a marketing cooperative. If you received per-unit retains in cash, show the amount of cash. If you received qualified per-unit retain certificates, show the stated dollar amount of the certificates.

Do not include as income on line 5b: patronage dividends from buying personal or family items, capital assets, or depreciable assets. Enter these amounts on line 5a only. If you do not report patronage dividends from these items as income, you must subtract the amount of the dividend from the cost or other basis of these items.

### Lines 6a and 6b

Enter on line 6a the total of the following amounts:

- Direct payments.
- Counter-cyclical payments.
- Price support payments.
- Market gain from the repayment of a secured Commodity Credit Corporation (CCC) loan for less than the original loan amount.
- Diversion payments.
- Cost-share payments (sight drafts).
- Payments in the form of materials (such as fertilizer or lime) or services (such as grading or building dams).

These amounts are government payments you received, usually reported to you on Form 1099-G. You may also receive Form CCC-1099-G from the Department of Agriculture showing the amounts and types of payments made to you.

On line 6b, report only the taxable amount. For example, do not report the market gain shown on Form CCC-1099-G on line 6b if you elected to report CCC loan proceeds as income in the year received (see Lines 7a Through 7c on page F-3). No gain results from redemption of the commodity because you previously reported the CCC loan proceeds as income. You are treated as repurchasing the commodity for the amount of the loan repayment. However, if you did not report the CCC loan proceeds under the election, you must report the market gain on line 6b.
Lines 7a Through 7c
Commodity Credit Corporation (CCC) loans. Generally, you do not report CCC loan proceeds as income. However, if you pledge part or all of your production to secure a CCC loan, you can elect to report the loan proceeds as income in the year you receive them, instead of the year you sell the crop. If you do not make this election (or make the election in a prior year), report loan proceeds you received in 2005 on line 7a. Attach a statement to your return showing the details of the loan(s).

Forfeited CCC loans. Include the full amount forfeited on line 7b, if you reported the loan proceeds as income.

If you did not elect to report the loan proceeds as income, also include the forfeited amount on line 7c.

If you did elect to report the loan proceeds as income, you generally will not have an entry on line 7c. But if the amount forfeited is different from your basis in the commodity, you may have an entry on line 7c.

See Pub. 225 for details on the tax consequences of electing to report CCC loan proceeds as income or forfeiting CCC loans.

Lines 8a Through 8d
In general, you must report crop insurance proceeds in the year you receive them. Federal crop disaster payments are treated as crop insurance proceeds. However, if 2005 was the year of damage, you can elect to include certain proceeds in income for 2006. To make this election, check the box on line 8c and attach a statement to your return. See Pub. 225 for a description of the proceeds for which an election can be made and for what you must include in your statement.

Generally, if you elect to defer any eligible crop insurance proceeds, you must defer all such crop insurance proceeds (including federal crop disaster payments). Enter on line 8a the total crop insurance proceeds you received in 2005, even if you elect to include them in income for 2006.

Enter on line 8b the taxable amount of the proceeds you received in 2005. Do not include proceeds you elect to include in income for 2006.

Enter on line 8d the amount, if any, of crop insurance proceeds you received in 2004 and elected to include in income for 2005.

Line 10
Use this line to report income not shown on lines 1 through 9, such as the following:

• Illegal federal irrigation subsidies. See Pub. 225.
• Bartering income.
• Income from cancellation of debt. Generally, if a debt is canceled or forgiven, you must include the canceled amount in income. If a federal agency, financial insti-

Part II. Farm Expenses
Do not deduct the following:

• Personal or living expenses (such as taxes, insurance, or repairs on your home) that do not produce farm income.
• Expenses of raising anything you or your family used.
• The value of animals you raised that died.
• Inventory losses.

If you were repaid for any part of an expense, you must subtract the amount you were repaid from the deduction.

Capitalizing costs of property. If you produced real or tangible personal property or acquired property for resale, certain expenses must be included in inventory costs or capitalized. These expenses include the direct costs of the property and the share of any indirect costs allocable to that property. However, these rules generally do not apply to expenses for:

1. Producing any plant that has a preproductive period of 2 years or less.
2. Raising animals, or
3. Replanting certain crops if they were lost or damaged by reason of freezing temperatures, disease, drought, pests, or casualty.

Exceptions 1 and 2 above do not apply to tax shelters, farming syndicates, or partnerships required to use the accrual method of accounting under section 447 or 466.

But you may be able to currently deduct rather than capitalize the expenses of producing a plant with a preproductive period of more than 2 years. See Election to deduct certain preproductive period expenses below.

Do not reduce your deductions on lines 12 through 34e by the preproductive period expenses you must capitalize. Instead, enter the total amount capitalized in parentheses on line 34f. See Preproductive period expenses on page F-6 for details.

If you revoked an election made before 1989 to deduct preproductive period expenses for animals, you must continue to apply the alternative depreciation rules to property placed in service while your election was in effect. Also, the expenses you previously chose to deduct will have to be recaptured as ordinary income when you dispose of the animals.

Election to deduct certain preproductive period expenses. If the preproductive period of any plant you produce is more than 2 years, you can elect to currently deduct the expenses rather than capitalize them. But you cannot make this election for the costs of planting or growing citrus or almond groves that are incurred before the end of the 4th tax year beginning with the tax year you planted them in their permanent grove. By deducting the preproductive period expenses for which you can make this election, you are treated as having made the election.

In the case of a partnership or S corporation, the election must be made by the partner or shareholder. This election cannot be made by tax shelters, farming syndicates, or partners in partnerships required to use
the accrual method of accounting under section 447 or 448.

If you make the election to deduct preproductive expenses for plants, any gains you realize when disposing of the plants is ordinary income up to the amount of the preproductive expenses you deducted. Also, the allocative depreciation for hire or apply to property placed in service in any tax year your election is in effect. Unless you obtain IRS consent, you must make this election for the first tax year in which you engage in a farming business involving the production of property subject to the capitalization rules. You cannot revoke this election without IRS consent.

For details, see Pub. 225.

Prepaid farm supplies. Generally, if you use the cash method of accounting and your prepaid farm supplies are more than 50% of your other deductible farm expenses, your deduction for those supplies may be limited. Prepaid farm supplies include expenses for feed, seed, fertilizer, and similar farm supplies not used or consumed during the year. They also include the cost of poultry that would be allowable as a deduction in a later tax year if you were to (a) capitalize the cost of poultry bought for use in your farming business and deduct it ratably over the lesser of 12 months or the useful life of the poultry, and (b) deduct the cost of poultry bought for resale in the year you sell or otherwise dispose of it.

If the limit applies, you can deduct prepaid farm supplies that do not exceed 50% of your other deductible farm expenses in the year of payment. You can deduct the excess only in the year you use or consume the supplies (other than poultry, which is deductible as explained above). For details and exceptions to these rules, see Pub. 225.

Line 12
You can deduct the actual expenses of running your car or truck or take the standard mileage rate. You must use actual expenses if you used the car or truck for hire for more than four vehicles simultaneously in your farming business (such as in fleet operations). You cannot use actual expenses for a leased vehicle if you previously used the standard mileage rate for that vehicle.

You can take the standard mileage rate for 2005 only if you:
- Owned the vehicle and use the standard mileage rate for the first year you placed the vehicle in service, or
- Leased the vehicle and are using the standard mileage rate for the entire lease period (except the period, if any, before 1998).

If you deduct actual expenses:
- Include on line 12 the business portion of expenses for gasoline, oil, repairs, insurance, tires, license plates, etc., and
- Show depreciation on line 16 and rent or lease payments on line 26a.

If you take the standard mileage rate, multiply the number of business miles driven by 40.5 cents (48.5 cents for business miles driven after August 31, 2005). Add to this amount your parking fees and tolls. Enter the total on line 12. Do not deduct depreciation, rent or lease payments, or your actual operating expenses.

If you claim any car or truck expenses (actual or the standard mileage rate), you must provide the information requested on Form 4562, Part V. Be sure to attach Form 4562 to your return.

For details, see Pub. 463.

Line 14
Deductible soil and water conservation expenses generally are those that are paid to conserve soil and water or to prevent erosion of land used for farming. These expenses include (but are not limited to) the cost of leveling, grading and terracing, contour furrowing, the construction, control, and protection of diversion channels, drainage ditches, earthen dams, watercourses, outlets and ponds, the eradicating of brush, and the planting of windbreaks.

These expenses can be deducted only if they are consistent with a conservation plan approved by the Natural Resources Conservation Service of the Department of Agriculture for the area in which your land is located. If no plan exists, the expenses must be consistent with a plan of a comparable state agency. You cannot deduct the expenses if they were paid or incurred for land used in farming in a foreign country. Do not deduct expenses you paid or incurred for tilling or grading land, or other land preparation expenses. If the limit applies, you can deduct prepaid feed that does not exceed 50% of your other deductible farm expenses in the year you sell or otherwise dispose of it.

If the limit applies, you can deduct the excess only in the year you use or consume the supplies (other than poultry, which is deductible as explained above). For details and exceptions to these rules, see Pub. 225.

Line 15
Enter amounts paid for custom hire or machine work (the machine operator furnished the equipment).

Do not include amounts paid for rental or lease of equipment that you operated yourself. Instead, report those amounts on line 26a.

Line 16
You can deduct depreciation of buildings, improvements, cars and trucks, machinery, and other farming equipment of a permanent nature.

Do not deduct depreciation on your home, furniture or other personal items, land, livestock you bought or raised for resale, or other property in your inventory.

You can also elect under section 179 to expense a portion of the cost of certain property you bought in 2005 for use in your farming business.

For details, including when you must complete and attach Form 4562, see the instructions for Schedule C, line 13, on page C-4.

Line 17
Deduct contributions to employee benefit programs that are not an incidental part of a pension or profit-sharing plan included on line 25. Examples are accident and health plans, group-term life insurance, and dependent care assistance programs. If you made contributions on your behalf as a self-employed person to a dependent care assistance program, complete Form 2441, Parts I and II, to figure your deductible contributions to that program.

Do not include on line 17 any contributions you made on your behalf as a self-employed person to an accident and health plan or for group-term life insurance. You may be able to deduct on Form 1040, line 29, the amount you paid for health insurance on behalf of yourself, your spouse, and dependents even if you do not itemize your deductions. See the instructions for Form 1040, line 29, for details.

Line 18
If you use the cash method, you cannot deduct when paid the cost of feed your livestock will consume in a later year unless all of the following apply.
- The payment was for the purchase of feed rather than a deposit
- The prepayment had a business purpose and was not made merely to avoid tax.
- The prepayment will not materially distort your income.

If all of the above apply, you can deduct the prepaid feed, which is subject to the overall limit for Prepaid farm supplies explained on this page. If all of the above do not apply, you can deduct the prepaid feed only in the year it is consumed.

Line 20
Do not include the cost of transportation incurred in purchasing livestock held for resale as freight paid. Instead, add these costs to the cost of the livestock, and deduct them when the livestock is sold.

Line 22
Deduct on this line premiums paid for farm business insurance. Deduct on line 17 amounts paid for employee accident and health insurance. Amounts credited to a reserve for self-insurance or premiums paid for a policy that pays for your lost earnings.
Lines 23a and 23b
Interest allocation rules. The tax treatment of interest expense differs depending on its type. For example, home mortgage interest and investment interest are treated differently. “Interest allocation” rules require you to allocate (classify) your interest expense so it is deducted on the correct line of your return and receives the right tax treatment. These rules could affect how much interest you are allowed to deduct on Schedule F.

Generally, you allocate interest expense by tracing how the proceeds of the loan are used. See Pub. 535 for details.

If you paid interest on a debt secured by your main home and any of the proceeds from that debt were used in your farming business, see Pub. 535 to figure the amount to include on lines 23a and 23b.

How to report. If you have a mortgage on real property used in your farming business (other than your main home), enter on line 23a the interest you paid for 2005 to banks or other financial institutions for which you received a Form 1098 (or similar statements). If you did not receive a Form 1098, enter the interest on line 23b.

If you paid more mortgage interest than is shown on Form 1098, see Pub. 535 to find out if you can deduct the additional interest. If you can, include the amount on line 23a. Attach a statement to your return explaining the difference and enter “See attached” in the margin next to line 23a.

If you and at least one other person (other than your spouse if you file a joint return) were liable for and paid interest on the mortgage and the other person received the Form 1098, include your share of the interest on line 23b. Attach a statement to your return showing the name and address of the person who received the Form 1098. In the margin next to line 23b, enter “See attached.”

Do not deduct interest you prepaid in 2005 for later years; include only the part that applies to 2005.

Line 24
Enter the amounts you paid for farm labor. Do not include amounts paid to yourself. Reduce your deduction by the amounts claimed on:

- Form 5884, Work Opportunity Credit, line 2;
- Form 8844-A, Hurricane Katrina Employee Retention Credit, line 2;
- Form 8844, Empowerment Zone and Renewal Community Employment Credit, line 2;
- Form 8845, Indian Employment Credit, line 4; and
- Form 8861, Welfare-to-Work Credit, line 2.

Include the cost of boarding farm labor but not the value of any products they used from the farm. Include only what you paid household help to care for farm laborers. If you provided taxable fringe benefits to your employees, such as personal use of a car, do not include in farm labor the amounts you depreciated or deducted elsewhere.

Line 25
Enter your deduction for contributions to employee pension, profit-sharing, or annuity plans. If the plan included you as a self-employed person, enter contributions made as an employer on your behalf on Form 1040, line 28, not on Schedule F.

Generally, you must file the applicable form listed below if you maintain a pension, profit-sharing, or other funded-deferred compensation plan. The filing requirement is not affected by whether or not the plan qualified under the Internal Revenue Code, or whether or not you claim a deduction for the cost of qualified clean-fuel vehicle refueling property.

Form 5900. File this form for a plan that is not a one-participant plan (see below). Form 5500-EZ. File this form for a one-participant plan. A one-participant plan is a plan that only covers you (or you and your spouse).

For details, see Pub. 560.

Lines 26a and 26b
If you rented or leased vehicles, machinery, or equipment, enter on line 26a the business portion of your rental cost. But if you leased a vehicle for a term of 30 days or more, you may have to reduce your deduction by an inclusion amount. See Leasing a Car in Pub. 463 to figure your inclusion amount.

Enter on line 26b amounts paid to rent or lease other property such as pasture or farmland.

Line 27
Enter amounts you paid for repairs and maintenance of farm buildings, machinery, or equipment. You can also include what you paid for tools of short life or minimal cost, such as shovels and rakes.

Do not deduct repairs or maintenance on your home.

Line 31
You can deduct the following taxes on this line:

- Real estate and personal property taxes on farm business assets.
- Social security and Medicare taxes you paid if you must pay them to withhold from farm employees’ wages and any federal unemployment tax paid.
- Federal highway use tax.

Do not deduct the following taxes on this line:

- Federal income taxes, including your self-employment tax. However, you can deduct one-half of your self-employment tax on Form 1040, line 27.
- Estate and gift taxes.
- Taxes assessed for improvements, such as paving and sewers.
- Taxes on your home or personal use property.
- State and local sales taxes on property purchased for use in your farming business. Instead, treat these taxes as part of the cost of the property.
- Other taxes not related to your farming business.

Line 32
Enter amounts you paid for gas, electricity, water, etc., for business use on the farm. Do not include personal utilities. You cannot deduct the base rate (including taxes) of the first telephone line into your residence, even if you use it for years farming business. But you can deduct expenses you paid for your farming business that are more than the cost of the base rate for the first phone line. For example, if you had a second phone line, you can deduct the business percentage of the charges for that line, including the base rate charges.

Lines 34a Through 34f
Include all ordinary and necessary farm expenses not deducted elsewhere on Schedule F, such as advertising, office supplies, etc. Do not include fines or penalties paid to a government for violating any law.

At-risk loss deduction. Any loss from this activity that was not allowed as a deduction last year because of the at-risk rules is treated as a deduction allocable to this activity in 2005.

Bad debts. See Pub. 535.

Business start-up costs. If your business began in 2005, you may elect to deduct up to $5,000 for certain business start-up costs. This limit is reduced by the amount by which your start-up costs exceed $50,000. You can elect to amortize any remaining qualified business start-up costs over 15 years. For details, see Pub. 225. For amortization that begins in 2005, you must complete and attach Form 4562.

Business use of your home. You may be able to deduct certain expenses for business use of your home, subject to limitations. Use the worksheet in Pub. 587 to figure your allowable deduction. Do not use Form 8829.

Clean-fuel vehicles and clean-fuel vehicle refueling property. You may be able to deduct part of the cost of qualifying clean-fuel vehicle property used in your farming business and qualified clean-fuel vehicle refueling property. See Pub. 535.

Forestation and reforestation costs. You can elect to amortize certain forestation and reforestation costs over 84 months. You
can also elect to expense up to $10,000 ($5,000 if married filing separately) of cer-
tain forestation and reforestation costs. However, there is an exception for certain nonre-
course financing borrowed by you in con-
nection with holding real property. The amortization election
does not apply to trusts and the expense
must be removed before printing.

Travel, meals, and entertainment. Gener-
ally, you can deduct expenses for farm
business travel and 50% of your business
meals and entertainment. But there are ex-
ceptions and limitations. See the instruc-
tions for Schedule C, lines 24a and 24b,
that begin on page C-5.

Preproductive period expenses. If you had
preproductive period expenses in 2005 and
you decided to capitalize them, you must
take a capital loss on the entire amount of your loss.

At-risk rules. Generally, if you have a loss
from a farming activity and amounts in the
activity for which you are not at risk, you
will have to complete Form 6198 to figure
your allowable loss. The at-risk rules gen-
erally limit the amount of loss (including loss on the disposition of assets) you can
claim to the amount you could actually lose
in the activity.

Part III. Farm
Income—Accrual
Method

If you use an accrual method, report farm
income when you earn it, not when you
receive it. Generally, you must include ani-
mais and crops in your inventory if you use
this method. See Pub. 225 for exceptions,
inventory methods, how to change methods
of accounting, and for rules that require
certain costs to be capitalized or included in

Lines 39a Through 41c
See the instructions for lines 5a through 7c
that begin on page F-2.

Line 44
See the instructions for line 10 on page F-3.

Paperwork Reduction Act Notice. We ask
for the information on this form to carry out the
Internal Revenue laws of the United States. You are required to give us the in-
formation. We need it to ensure that you are
complying with these laws and to allow us
to figure and collect the right amount of tax.

You are not required to provide the in-
formation requested on a form that is sub-
ject to the Paperwork Reduction Act unless
the form displays a valid OMB control number. Books or records relating to a form
or its instructions must be retained as long
as their contents may become material in the
administration of any Internal Revenue law.
Generally, tax returns and return infor-
mation are confidential, as required by sec-

The time needed to complete and file this
form will vary depending on individual
circumstances. The estimated burden for
individual taxpayers filing this form is in-
cluding in the estimates shown in the in-
structions for their individual income tax
return. The estimated burden for all other
taxpayers who file this form is approved
under OMB control numbers 1545–1975
and 1545–1976 and is shown below.

Copy, assembling, and
sending the form to the IRS

If you have comments concerning the
accuracy of these time estimates or sugges-
tions for making this form simpler, we
would be happy to hear from you. See the
instructions for the tax return with which this
form is filed.
