

2010

Department of the Treasury
Internal Revenue Service

Instructions for Schedule I (Form 1041)

Alternative Minimum Tax—Estates and Trusts

Section references are to the Internal Revenue Code unless otherwise noted.

General Instructions

What's New

If you received a Form 3921, it may help you figure any adjustment for incentive stock options on line 10.

Reminder

Interest on private activity bonds issued in 2009 or 2010 is not a tax preference item. See the line 8 instructions.

Purpose of Schedule

Use Schedule I (Form 1041) to compute:

- The estate's or trust's alternative minimum taxable income;
- The income distribution deduction on a minimum tax basis; and
- The estate's or trust's AMT.

Who Must Complete Schedule I (Form 1041)

- Complete Parts I and II if the estate or trust is required to complete Form 1041, Schedule B, Income Distribution Deduction.
- Complete Schedule I if the estate's or trust's share of alternative minimum taxable income (Part I, line 29) exceeds \$22,500.
- Complete Schedule I if the estate or trust claims any general business credit and line 8 or 24 of Form 3800 is more than zero.

Recordkeeping

Schedule I contains adjustments and tax preference items that are treated differently for regular tax and AMT purposes. If you, as fiduciary for the estate or trust, completed a form to figure an item for regular tax purposes, you may have to complete it a second time for AMT purposes. Generally, the difference between the amounts on the two forms is the AMT adjustment or tax preference item to enter on Schedule I. Except for Form 1116, Foreign Tax Credit, any additional form completed for AMT purposes does not have to be filed with Form 1041.

For regular tax purposes, some deductions and credits may result in carrybacks or carryforwards to other tax years. Examples are investment interest expense, a net operating loss deduction (NOLD), a capital loss, and the foreign tax credit. Because these items may be refigured for the AMT, the carryback or carryforward amount may be different for regular and AMT purposes. Therefore, you should keep records of these different carryforward and carryback amounts for the AMT and regular tax. The AMT carryforward will be important in completing Schedule I for 2011.

Credit for Prior Year Minimum Tax

Estates and trusts that paid AMT in 2009, or had a minimum tax credit carryforward from the 2009 Form 8801, Credit for Prior Year Minimum Tax—Individuals, Estates, and Trusts, may be eligible for a minimum tax credit in 2010. See Form 8801.

Partners and Shareholders

An estate or trust that is a partner in a partnership or a shareholder in an S corporation must take into account its share of items of income and deductions that enter into the computation of its adjustments and tax preference items.

Allocation of Deductions to Beneficiaries

The distributable net alternative minimum taxable income (DNAMTI) of the estate or trust does not include amounts of depreciation, depletion, and amortization that are allocated to the beneficiaries, just as the distributable net income of the estate or trust does not include these items for regular tax purposes.

Report separately in box 12 of Schedule K-1 (Form 1041) any adjustments or tax preference items attributable to depreciation (code G), depletion (code H), and amortization (code I) that were allocated to the beneficiaries.

Optional Write-Off for Certain Expenditures

There is no AMT adjustment for the following items if the estate or trust

elects to deduct them ratably over the period of time shown for the regular tax.

- Circulation expenditures—3 years (section 173).
- Research and experimental expenditures—10 years (section 174).
- Intangible drilling costs—60 months (section 263(c)).
- Mining exploration and development costs—10 years (sections 616(a) and 617(a)).

The election must be made in the year the expenditure was made and may be revoked only with IRS consent. See section 59(e) and Regulations section 1.59-1 for more details.

Specific Instructions

Part I—Estate's or Trust's Share of Alternative Minimum Taxable Income

Line 2—Interest

In determining the alternative minimum taxable income, qualified residence interest (other than qualified housing interest defined in section 56(e)) is not allowed.

If you completed Form 4952, Investment Interest Expense Deduction, for regular tax purposes, you may have an adjustment on this line. Refigure your investment interest expense on a separate AMT Form 4952 as follows.

Step 1. On line 1 of the AMT Form 4952, follow the instructions for that line, but also include the following amounts.

- Any qualified residence interest (other than qualified housing interest) that was paid or accrued on a loan or part of a loan that is allocable to property held for investment as defined in section 163(d)(5) (for example, interest on a home equity loan whose proceeds were invested in stocks or bonds).
- Any interest that would have been deductible if interest on specified private activity bonds had been included in income. See the instructions

for line 8 for the definition of specified private activity bonds.

Step 2. On line 2, enter the AMT disallowed investment interest expense from 2009.

Step 3. When completing Part II of the AMT Form 4952, refigure gross income from property held for investment, any net gain from the disposition of property held for investment, net capital gain from the disposition of property held for investment, and any investment expenses, taking into account all AMT adjustments and tax preference items that apply. Include any interest income and investment expenses from private activity bonds issued after August 7, 1986.

When completing line 4g of the AMT Form 4952, enter the smaller of:

- The amount from line 4g of the regular tax Form 4952, or
- The total of lines 4b and 4e of the AMT Form 4952.

Step 4. Complete Part III.

Enter on Schedule I, line 2 the difference between line 8 of the AMT Form 4952 and line 8 of the regular tax Form 4952. If the AMT deduction is greater, enter the difference as a negative amount.

Line 3—Taxes

Enter any state, local, or foreign real property taxes; state or local personal property taxes; state and local general sales taxes; and any state, local, or foreign income taxes that were included on Form 1041, page 1, line 11.

Do not include any new motor vehicle taxes.

Line 5—Refund of Taxes

Enter any refunds received in 2010 of taxes described for line 3 above and included in income.

Line 6—Depletion

Refigure the depletion deduction for AMT purposes by using only the income and deductions allowed for the AMT when refiguring the limit based on taxable income from the property under section 613(a) and the limit based on taxable income, with certain adjustments, under section 613A(d)(1). Also, the depletion deduction for mines, wells, and other natural deposits under section 611 is limited to the property's adjusted basis at the end of the year, as refigured for the AMT, unless the estate or trust is an independent producer or royalty owner claiming percentage depletion for oil and gas wells. Figure this limit separately for each property. When refiguring the property's adjusted basis, take into account any AMT adjustments made this year or in previous years that affect

basis (other than the current year's depletion).

Enter on line 6 the difference between the regular tax and AMT deduction. If the AMT deduction is more than the regular tax deduction, enter the difference as a negative amount.

Line 7—Net Operating Loss Deduction

Enter any NOLD from line 15a of page 1 of the Form 1041 as a positive amount.

Line 8—Interest From Specified Private Activity Bonds Exempt From the Regular Tax

Enter the interest earned from specified private activity bonds reduced (but not below zero) by any deduction that would have been allowable if the interest were includible in gross income for regular tax purposes. Each payer of this type of interest should send a Form 1099-INT, Interest Income, to the estate or trust showing the amount of this interest in box 9. Generally, specified private activity bonds are any qualified bonds (as defined in section 141) issued after August 7, 1986, and before 2009 or after 2010, the interest on which is not includible in gross income for the regular tax. See section 57(a)(5) for more information.

Do not include interest on qualified Gulf Opportunity Zone bonds described in section 1400N(a) or qualified Midwestern disaster area bonds.

Exempt-interest dividends paid by a regulated investment company are treated as interest from specified private activity bonds to the extent the dividends are attributable to interest on the bonds received by the company, minus an allocable share of the expenses paid or incurred by the company in earning the interest. This amount should also be reported to the estate or trust on Form 1099-INT in box 9.

Line 9—Qualified Small Business Stock

If the estate or trust claimed the exclusion under section 1202 for gain on qualified small business stock held more than 5 years, multiply the excluded gain (as shown on Schedule D (Form 1041)) by 7% (.07). Enter the result on line 9 as a positive amount.

Line 10—Exercise of Incentive Stock Options

For regular tax purposes, no income is recognized when an incentive stock option (as defined in section 422(b)) is exercised. However, this rule does not apply for AMT purposes. Instead, the

estate or trust must generally include on line 10 the excess, if any, of:

1. The fair market value (FMV) of the stock acquired through exercise of the option (determined without regard to any lapse restriction) when its rights in the acquired stock first become transferable or when these rights are no longer subject to a substantial risk of forfeiture, over

2. The amount paid for the stock, including any amount paid for the option used to acquire the stock.

Even if the estate's or trust's rights in the stock are not transferable and are subject to a substantial risk of forfeiture, you may elect to include in AMT income the excess of the stock's FMV (determined without regard to any lapse restriction) over the exercise price upon the transfer to the estate or trust of the stock acquired through exercise of the option. See section 83(b) for more details. The election must be made no later than 30 days after the date of transfer.

If the estate or trust acquired stock by exercising an option and it disposed of that stock in the same year, the tax treatment under the regular tax and the AMT is the same, and no adjustment is required.

Increase the AMT basis of any stock acquired through the exercise of an incentive stock option by the amount of the adjustment.

Note. If a Form 3921, Exercise of an Incentive Stock Option Under Section 422(b), was received, it may help you figure the adjustment.

Line 11—Other Estates and Trusts

If the estate or trust is the beneficiary of another estate or trust, enter the adjustment for minimum tax purposes from box 12, code A, Schedule K-1 (Form 1041).

Line 12—Electing Large Partnerships

If the estate or trust is a partner in an electing large partnership, enter on line 12 the amount from Schedule K-1 (Form 1065-B), box 6. Take into account any amount from Schedule K-1 (Form 1065-B), box 5, when figuring the amount to enter on line 15.

Line 13—Disposition of Property

Use this line to report any AMT adjustment related to the disposition of property resulting from refiguring:

1. Gain or loss from the sale, exchange, or involuntary conversion of property reported on Form 4797, Sales of Business Property;

2. Casualty gain or loss to business or income-producing property reported on Form 4684, Casualties and Thefts;

3. Ordinary income from the disposition of property not taken into account in 1 or 2 above or on any other line on Schedule I, such as a disqualifying disposition of stock acquired in a prior year by exercising an incentive stock option; and

4. Capital gain or loss (including any carryover that is different for the AMT) reported on Schedule D (Form 1041).

The \$3,000 capital loss limitation for the regular tax applies separately for the AMT.

First, figure any ordinary income adjustment related to 3 above. Then, refigure Form 4684, Form 4797, and Schedule D for the AMT, if applicable, by taking into account any adjustments you made this year or in previous years that affect the estate's or trust's basis or otherwise result in a different amount for AMT. If the estate or trust has a capital loss after refiguring Schedule D for the AMT, apply the \$3,000 capital loss limitation separately to the AMT loss. For each of the four items listed above, figure the difference between the amount included in taxable income for the regular tax and the amount included in income for the AMT. Treat the difference as a negative amount if (a) both the AMT and regular tax amounts are zero or more and the AMT amount is less than the regular tax amount or (b) the AMT amount is a loss, and the regular tax amount is a smaller loss, or zero or more.

Enter on line 13 the combined adjustments for the four items earlier.

Line 14—Depreciation on Assets Placed in Service After 1986

This section describes when depreciation must be refigured for the AMT and how to figure the amount to enter on line 14.

Do not include on this line any depreciation adjustment from:

- An activity for which the estate or trust is not at risk or income or loss from a partnership or an S corporation if the basis limitations under section 704(d) or 1366(d) apply. Take this adjustment into account on line 16;
- A tax shelter farm activity. Take this adjustment into account on line 23; or
- A passive activity. Take this adjustment into account on line 15.

What depreciation must be refigured for the AMT? Generally, you must refigure depreciation for the AMT, including depreciation allocable to inventory costs, for:

- Property placed in service after 1998 that is depreciated for the regular tax using the 200% declining balance

method (generally 3-, 5-, 7-, or 10-year property under the modified accelerated cost recovery system (MACRS)),

- Section 1250 property placed in service after 1998 that is not depreciated for the regular tax using the straight line method, and
- Tangible property placed in service after 1986 and before 1999. If the transitional election was made under section 203(a)(1)(B) of the Tax Reform Act of 1986, this rule applies to property placed in service after July 31, 1986.

What depreciation is not refigured for the AMT? Do not refigure depreciation for the AMT for the following items.

- Residential rental property placed in service after 1998.
- Nonresidential real property with a class life of 27.5 years or more placed in service after 1998 that is depreciated for the regular tax using the straight line method.
- Other section 1250 property placed in service after 1998 that is depreciated for the regular tax using the straight line method.
- Property (other than section 1250 property) placed in service after 1998 that is depreciated for the regular tax using the 150% declining balance method or the straight line method.
- Property for which you elected to use the alternative depreciation system (ADS) of section 168(g) for the regular tax.
- Qualified property that is or was eligible for the special depreciation allowance if the depreciable basis of the property for the AMT is the same as for the regular tax. This applies to any special depreciation allowance, including those for qualified disaster assistance property, qualified reuse and recycling property, qualified cellulosic biofuel plant property, qualified New York Liberty Zone property, qualified Gulf Opportunity Zone property, and Kansas disaster area qualified recovery assistance property. The special allowance is deductible for the AMT, and there also is no adjustment required for any depreciation figured on the remaining basis of the qualified property if the depreciable basis of the property for the AMT is the same as for the regular tax. Property for which an election is in effect to not have the special allowance apply is not qualified property.
- Motion picture films, videotapes, or sound recordings.
- Property depreciated under the unit-of-production method or any other method not expressed in a term of years.
- Qualified Indian reservation property.
- A natural gas gathering line placed in service after April 11, 2005.

How is depreciation refigured for the AMT?

Property placed in service before 1999. Refigure depreciation for the AMT using ADS with the same convention used for the regular tax. See the table below for the method and recovery period to use.

Property Placed in Service Before 1999	
IF the property is...	THEN use the...
Section 1250 property.	Straight line method over 40 years.
Tangible property (other than section 1250 property) depreciated using straight line for the regular tax.	Straight line method over the property's AMT class life.
Any other tangible property.	150% declining balance method, switching to straight line the first tax year it gives a larger deduction, over the property's AMT class life.

Property placed in service after 1998. Use the same convention and recovery period used for the regular tax. For property other than section 1250 property, use the 150% declining balance method, switching to straight line the first tax year it gives a larger deduction. For section 1250 property, use the straight line method.

How is the AMT class life determined? The class life used for the AMT is not necessarily the same as the recovery period used for the regular tax. The class lives for the AMT are listed in Rev. Proc. 87-56, 1987-2 C.B. 674, and in Pub. 946, How To Depreciate Property. Use 12 years for any tangible personal property not assigned a class life.

See Pub. 946 for optional tables that can be used to figure AMT depreciation. Rev. Proc. 89-15, 1989-1 C.B. 816, has special rules for short tax years and for property disposed of before the end of the recovery period.

How is the line 14 adjustment figured? Subtract the AMT deduction for depreciation from the regular tax deduction and enter the result. If the AMT deduction is more than the regular tax deduction, enter the difference as a negative amount.

In addition to the AMT adjustment to your deduction for depreciation, you must also adjust the amount of depreciation that was capitalized, if any, to account for the difference between the rules for the regular tax and the AMT. Include on this line the current

year adjustment to taxable income, if any, resulting from the difference.

Line 15—Passive Activities

Do not enter again elsewhere on this schedule any AMT adjustment or tax preference item included on this line.

For AMT purposes, the rules described in section 469 apply, except that in applying the limitations, minimum tax rules apply.

Refigure passive activity gains and losses on an AMT basis. Refigure a passive activity gain or loss by taking into account all AMT adjustments or tax preference items that pertain to that activity.

You may complete a second Form 8582, Passive Activity Loss Limitations, to determine the passive activity losses allowed for AMT purposes, but do not send this AMT Form 8582 to the IRS.

Enter the difference between the loss reported on page 1 and the AMT loss, if any.

The amount of any passive activity loss that is not deductible (and is therefore carried forward) for AMT purposes is likely to differ from the amount (if any) that is carried forward for regular tax purposes. Therefore, it is essential that you retain adequate records for both AMT and regular tax purposes.

Publicly traded partnerships (PTPs).

If the estate or trust had a loss from a PTP, refigure the loss using any AMT adjustments, tax preference items, and any AMT prior year unallowed loss.

Line 16—Loss Limitations

If the loss is from a passive activity, use line 15 instead. If the loss is from a tax shelter farm activity (that is not passive), use line 23.

Refigure your allowable losses for AMT purposes from activities for which you are not at risk and basis limitations applicable to interests in partnerships and stock in S corporations by taking into account your AMT adjustments and tax preference items. See sections 59(h), 465, 704(d), and 1366(d).

Enter the difference between the loss reported for regular tax purposes and the AMT loss. If the AMT loss is more than the loss reported for regular tax purposes, enter the adjustment as a negative amount.

Line 17—Circulation Costs

Do not make this adjustment for expenditures for which you elected the optional 3-year write-off period for regular tax purposes.

Circulation expenditures deducted under section 173(a) for regular tax purposes must be amortized for AMT purposes over 3 years beginning with the year the expenditures were paid or incurred.

Enter the difference between the regular tax and AMT deduction. If the AMT deduction is greater, enter the difference as a negative amount.

If the estate or trust had a loss on property for which circulation expenditures have not been fully amortized for the AMT, the AMT deduction is the smaller of (a) the amount of the loss allowable for the expenditures had they remained capitalized or (b) the remaining expenditures to be amortized for the AMT.

Line 18—Long-Term Contracts

For AMT purposes, the percentage of completion method of accounting described in section 460(b) generally must be used. However, this rule does not apply to any home construction contract (as defined in section 460(e)(6)).

Note. Contracts described in section 460(e)(1)(B) are subject to the simplified method of cost allocation of section 460(b)(4).

Enter the difference between the AMT and regular tax income. If the AMT income is smaller, enter the difference as a negative amount.

Line 19—Mining Costs

Do not make this adjustment for costs for which you elected the optional 10-year write-off period under section 59(e) for regular tax purposes.

Expenditures for the development or exploration of a mine or certain other mineral deposits (other than an oil, gas, or geothermal well) deducted under sections 616(a) and 617(a) for regular tax purposes must be amortized for AMT purposes over 10 years beginning with the year the expenditures were paid or incurred.

Enter the difference between the amount allowed for AMT purposes and the amount allowed for regular tax purposes. If the amount allowed for AMT purposes exceeds the amount deducted for regular tax purposes, enter the difference as a negative amount.

If the estate or trust had a loss on property for which mining expenditures have not been fully amortized for the AMT, the AMT deduction is the smaller of (a) the amount of the loss allowable for the expenditures had they remained capitalized or (b) the remaining

expenditures to be amortized for the AMT.

Line 20—Research and Experimental Costs

Do not make this adjustment for costs paid or incurred in connection with an activity in which the estate or trust materially participated under the passive activity rules or for costs for which you elected the optional 10-year write-off for research and experimental expenditures under section 59(e) for regular tax purposes.

Research and experimental expenditures deducted under section 174(a) for regular tax purposes generally must be amortized for AMT purposes over 10 years beginning with the year the expenditures were paid or incurred.

Enter the difference between the amount allowed for AMT purposes and the amount allowed for regular tax purposes. If the amount for AMT purposes exceeds the amount allowed for regular tax purposes, enter the difference as a negative amount.

If the estate or trust had a loss on property for which research and experimental costs have not been fully amortized for the AMT, the AMT deduction is the smaller of (a) the loss allowable for the costs had they remained capitalized or (b) the remaining costs to be amortized for the AMT.

Line 21—Income From Certain Installment Sales Before January 1, 1987

The installment method does not apply for AMT purposes to any nondealer disposition of property that occurred after August 16, 1986, but before the first day of your tax year that began in 1987, if an installment obligation to which the proportionate disallowance rule applied arose from the disposition. Enter on line 21 the amount of installment sale income that was reported for regular tax purposes.

Line 22—Intangible Drilling Costs Preference (IDCs)

Do not make this adjustment for costs for which you elected the optional 60-month write-off under section 59(e) for regular tax purposes.

IDCs from oil, gas, and geothermal wells are a preference to the extent that the excess IDCs exceed 65% of the net income from the wells. Figure the preference for all oil and gas properties separately from the preference for all geothermal properties.

Figure excess IDCs as follows:

1. Determine the amount of the estate's or trust's IDCs allowed for the regular tax under section 263(c), but do not include any section 263(c) deduction for nonproductive wells, then
2. Subtract the amount that would have been allowed had you amortized these IDCs over a 120-month period starting with the month the well was placed in production.

Cost depletion can be substituted for the amount allowed using amortization over 120 months.

Net income. Determine net income by reducing the gross income that the estate or trust received or accrued during the tax year from all oil, gas, and geothermal wells by the deductions allocable to those wells (reduced by the excess IDCs). When refiguring net income, use only income and deductions allowed for the AMT.

Exception. The preference for IDCs from oil and gas wells does not apply to taxpayers who are independent producers (that is, not integrated oil companies as defined in section 291(b)(4)). However, this benefit may be limited. First, figure the IDC preference as if this exception did not apply. For purposes of this exception, complete and combine lines 1 through 23, including the IDC preference. If the amount of the IDC preference exceeds 40% of the total of lines 1 through 23, enter the excess on line 22 (the benefit of this exception is limited). Otherwise, do not enter an amount on line 22 (the estate's or trust's benefit from this exception is not limited).

Line 23—Other Adjustments

Enter on line 23 the total of any other adjustments that apply including the following.

- **Depreciation figured using pre-1987 rules.** For AMT purposes, use the straight line method to figure depreciation on real property. Use a recovery period of 19 years for 19-year real property and 15 years for low-income housing. Enter the excess of depreciation claimed for regular tax purposes over depreciation refigured using the straight line method. Figure this amount separately for each property and include on line 23 only positive amounts.

For leased personal property other than recovery property, enter the amount by which the regular tax depreciation using the pre-1987 rules exceeds the depreciation allowable using the straight line method. For leased 10-year recovery property and leased 15-year public utility property, enter the amount by which the depreciation deduction determined for regular tax purposes is more than the deduction allowable using the straight

line method with a half-year convention, no salvage value, and a recovery period of 15 years (22 years for 15-year public utility property). Figure this amount separately for each property and include on line 23 only positive amounts.

- **Patron's adjustment.** Distributions the estate or trust received from a cooperative may be includible in income. Unless the distributions are nontaxable, include on line 23 the total AMT patronage dividend adjustment reported to the estate or trust from the cooperative.

- **Amortization of pollution control facilities.** The amortization deduction under section 169 must be refigured for the AMT. For facilities placed in service after 1986 and before 1999, figure the amortization deduction for the AMT using the ADS described in section 168(g). For facilities placed in service after 1998, figure the AMT deduction under MACRS using the straight line method. Enter the difference between the regular tax and AMT deduction. If the AMT amount is greater, enter the difference as a negative amount.

- **Tax shelter farm activities.** Figure this adjustment only if the tax shelter farm activity (as defined in section 58(a)(2)) is not a passive activity. If the activity is passive, include it with any other passive activities on line 15.

Refigure all gains and losses reported for the regular tax from tax shelter farm activities by taking into account any AMT adjustments and preferences. Determine tax shelter farm activity gain or loss for the AMT using the same rules used for the regular tax with the following modifications. No refigured loss is allowed, except to the extent an estate or trust is insolvent (see section 58(c)(1)). A refigured loss may not be used in the current tax year to offset gains from other tax shelter farm activities. Instead, any refigured loss must be suspended and carried forward indefinitely until (a) the estate or trust has a gain in a subsequent tax year from the same activity or (b) the activity is disposed of.

The AMT amount of any tax shelter farm activity loss that is not deductible and is carried forward is likely to differ from the regular tax amount. Keep adequate records for both the AMT and regular tax.

Enter the difference between the amount that would be reported for the activity on Schedule E or F for the AMT and the regular tax amount. If (a) the AMT loss is more than the regular tax loss, (b) the AMT gain is less than the regular tax gain, or (c) there is an AMT loss and a regular tax gain, then enter the adjustment as a negative amount.

Enter any adjustment for amounts reported on Schedule D, Form 4684, or

Form 4797 for the activity on line 13 instead.

- **Alcohol and cellulosic biofuel fuels credit and biodiesel and renewable diesel fuels credit.** If the adjusted total income (Form 1041, page 1, line 17) includes the amount of the alcohol and cellulosic biofuel fuels credit or biodiesel and renewable diesel fuels credit, include that amount as a negative amount on line 23.

- **Related adjustments.** AMT adjustments and tax preference items may affect deductions that are based on an income limit other than adjusted gross income (AGI) or modified AGI (for example, farm conservation expenses). Refigure these deductions using the income limit as modified for the AMT. Include the difference between the regular tax and AMT deduction on line 23. If the AMT deduction is more than the regular tax deduction, include the difference as a negative amount.

Do not make an adjustment on line 23 for an item you refigured on another line of Schedule I (for example, line 6).

Line 24—Alternative Tax Net Operating Loss Deduction

The ATNOLD is the sum of the alternative tax net operating loss (ATNOL) carryovers and carrybacks to the tax year, subject to the limitation explained below.

The net operating loss (NOL) under section 172(c) is modified for alternative tax purposes by (a) taking into account the adjustments made under sections 56 and 58 and (b) reducing the NOL by any item of tax preference under section 57. For an estate or trust that held a residual interest in a real estate mortgage investment conduit (REMIC), figure the ATNOLD without regard to any excess inclusion.

If this estate or trust is the beneficiary of another estate or trust that terminated in 2010, include any ATNOL carryover that was reported in box 11, code E of Schedule K-1 (Form 1041).

The estate's or trust's ATNOLD may be limited. To figure the ATNOLD limitation, first figure alternative minimum taxable income (AMTI) without regard to the ATNOLD and any domestic production activities deduction. For this purpose, figure a tentative amount for line 6 of Schedule I (Form 1041) by treating line 24 as if it were zero. Then, figure a tentative total by combining lines 1–23 of Schedule I (Form 1041) using the line 6 tentative amount. Add any domestic production activities deduction to this tentative total. The ATNOLD limitation is 90% of the result.

However, the 90% limit does not apply to an ATNOL that is attributable

to qualified disaster losses (as defined in section 172(j)), qualified Gulf Opportunity Zone losses as defined in section 1400N(k)(2), qualified recovery assistance losses (as defined in Pub. 4492-A, Information for Taxpayers Affected by the May 4, 2007, Kansas Storms and Tornadoes), qualified disaster recovery assistance losses (as defined in Pub. 4492-B, Information for Affected Taxpayers in the Midwestern Disaster Areas) or a 2008 or 2009 loss that you elected to carryback more than 2 years under section 172(b)(1)(H). If an ATNOL that is carried back or carried forward to a tax year is attributable to any of those losses, the ATNOLD for the tax year is limited to the sum of:

1. The smaller of:
 - a. The sum of the ATNOL carrybacks and carryforwards to the tax year attributable to NOLs other than the losses described in 2a below, or
 - b. 90% of AMTI for the tax year (figured without regard to the ATNOLD and any domestic production activities deduction, as discussed earlier), plus
2. The smaller of:
 - a. The sum of the ATNOL carrybacks and carryforwards to the tax year attributable to qualified disaster losses, qualified Gulf Opportunity Zone losses, qualified recovery assistance losses, qualified disaster recovery assistance losses, and any 2008 or 2009 loss that you elected to carry back more than 2 years under section 172(b)(1)(H), or
 - b. 100% of AMTI for the tax year (figured without regard to the ATNOLD and any domestic production activities deduction, as discussed earlier) reduced by the amount determined under 1, above.

Enter on line 24 the smaller of the ATNOLD or the ATNOLD limitation.

Any ATNOL not used may be carried back 2 years or forward up to 20 years (15 years for loss years beginning before 1998). In some cases, the carryback period is longer than 2 years; for details, see Pub. 536, Net Operating Losses (NOLs) for Individuals, Estates, and Trusts. If you elect to carry back a 2008 or 2009 ATNOL 5 years under section 172(b)(1)(H) as amended by Public Law 111-92, the 50% taxable income limit is applied separately based on the previously determined AMTI for that carryback year. So, the ATNOLD in that 5th preceding year is limited to 50% of the estate's or trust's AMTI for that year which is determined without using the ATNOL for the loss year or any later tax year.

The treatment of ATNOLs does not affect your regular tax NOL.

If you elected under section 172(b)(3) to forego the carryback period for regular tax purposes, the election will also apply for the AMT.

Line 29—Estate's or Trust's Share of Alternative Minimum Taxable Income

For an estate or trust that held a residual interest in a REMIC, line 29 may not be less than the estate's or trust's share of the amount on Schedule E (Form 1040), line 38, column (c). If that amount is larger than the amount you would otherwise enter on line 29, enter that amount instead and write "Sch. Q" on the dotted line next to line 29.

Part II—Income Distribution Deduction on a Minimum Tax Basis

Line 30—Adjusted Alternative Minimum Taxable Income

Generally, enter on line 30, Schedule I, the amount from line 25, Schedule I. However, if Form 1041, page 1, line 4 and line 25 are losses, enter on line 30 the smaller of those losses. If Form 1041, line 4 is zero or a gain and line 25 is a loss, enter zero on line 30.

Line 31—Adjusted Tax-Exempt Interest

To figure the adjusted tax-exempt interest (including exempt-interest dividends received as a shareholder in a mutual fund or other regulated investment company), subtract the total of any:

1. Tax-exempt interest from Form 1041, Schedule A, line 2 figured for AMT purposes, and
2. Section 212 expenses allowable for AMT purposes allocable to tax-exempt interest, from the amount of tax-exempt interest received.

Do not subtract any deductions reported on lines 2 through 4.

Section 212 expenses that are directly allocable to tax-exempt interest are allocated only to tax-exempt interest. A reasonable proportion of section 212 expenses that are indirectly allocable to both tax-exempt interest and other income must be allocated to each class of income.

Line 33

Reduce the amount on line 33 by any allocable section 1202 exclusion (as refigured for AMT purposes).

Line 34

Enter any capital gains that were paid or permanently set aside for charitable purposes from the current year's income included on line 1 of Form 1041, Schedule A. Reduce the amount on line 34 by any allocable section 1202 exclusion (as refigured for AMT purposes).

Lines 35 and 36

Capital gains and losses must take into account any basis adjustments from line 13, Part I.

Line 41—Adjustment for Tax-Exempt Income

In figuring the income distribution deduction on a minimum tax basis, the estate or trust is not allowed a deduction for any item of DNAMTI (line 37) that is not included in the gross income of the estate or trust figured on an AMT basis. Thus, for purposes of figuring the allowable income distribution deduction on a minimum tax basis, the DNAMTI is figured without regard to any tax-exempt interest (except for amounts from line 8).

If tax-exempt interest is the only tax-exempt income included in the total distributions (line 40), and the DNAMTI (line 37) is less than or equal to line 40, then enter on line 41 the amount from line 31.

If tax-exempt interest is the only tax-exempt income included in the total distributions (line 40), and the DNAMTI is more than line 40 (that is, the estate or trust made a distribution that is less than the DNAMTI), then figure the adjustment by multiplying line 31 by a fraction, the numerator of which is the total distributions (line 40), and the denominator of which is the DNAMTI (line 37). Enter the result on line 41.

If line 40 includes tax-exempt income other than tax-exempt interest (except for amounts from line 8), figure line 41 by subtracting the total expenses allocable to tax-exempt income that are allowable for AMT purposes from tax-exempt income included on line 40.

Expenses that are directly allocable to tax-exempt income are allocated only to tax-exempt income. A reasonable proportion of expenses indirectly allocable to both tax-exempt income and other income must be allocated to each class of income.

Line 44—Income Distribution Deduction on a Minimum Tax Basis

Allocate the income distribution deduction figured on a minimum tax basis among the beneficiaries in the same manner as income was allocated for regular tax purposes. You need the

allocated income distribution deduction figured on a minimum tax basis to figure the beneficiary's adjustment for minimum tax purposes, as explained under Box 12—AMT Items in the Schedule K-1 instruction section of the Instructions for Form 1041 and Schedules A, B, G, J, and K-1.

Part III—AMT Computation

Line 53—Alternative Minimum Foreign Tax Credit

To see if you need to figure the estate's or trust's AMT foreign tax credit, fill in line 55 of Schedule I as instructed. If the amount on line 55 is greater than or equal to the amount on line 52, the estate or trust does not owe the AMT. Enter zero on line 56 and see Who Must Complete on page 1 to find out if you must file Schedule I with Form 1041. However, even if the estate or trust does not owe AMT, you may need to complete line 53 to see if you have an AMT foreign tax credit carryback or carryforward to other tax years.

To figure the AMT foreign tax credit, follow the steps discussed below.

Step 1. Complete and attach a separate AMT Form 1116, with the notation at the top "Alt Min Tax" for each separate limitation category specified at the top of Form 1116.

Note. When applying the separate limitation categories, use the applicable AMT rate instead of the regular tax rate to determine if any income is "high-taxed."

Step 2. If you (on behalf of the estate or trust) previously made or are making the *Simplified limitation election* (see page 8), skip Part I and enter on the AMT Form 1116, line 16, the same amount you entered on that line for the regular tax. If you did not complete Form 1116 for the regular tax and you previously made or are making the simplified limitation election (on behalf of the estate or trust), complete Part I and lines 14 through 16 of the AMT Form 1116 using regular tax amounts.

If the election does not apply, complete Part I, using only income and deductions allowed for the AMT that are attributable to sources outside the United States. If the estate or trust has any foreign source qualified dividends or foreign source capital gains or losses, use the instructions under *Step 3* to determine whether you must make adjustments to those amounts before you include the amounts on line 1a or line 5 of the AMT Form 1116.

Step 3. Follow the instructions below, if applicable, to determine the amount of foreign source qualified dividends

and foreign source capital gains and losses to include on line 1a and line 5 of the AMT Form 1116.

Foreign qualified dividends. You must adjust the estate's or trust's foreign source qualified dividends before you include those amounts on line 1a of the AMT Form 1116 if:

- Line 62 is greater than zero,
- Line 73 is smaller than line 74, and
- The exception for foreign qualified dividends below does not apply.

But, you do not need to make any adjustments if:

- The estate or trust qualifies for the adjustment exception under *Qualified Dividends Tax Worksheet (Estates and Trusts)* or *Schedule D Filers* in the Instructions for Form 1116 and
- Line 62 of Schedule I (Form 1041) is not more than \$175,000.

Note. Use the estate's or trust's capital gains and losses as refigured for the AMT to determine whether your total amounts are less than the \$20,000 threshold under the adjustment exception.

To adjust foreign source qualified dividends, multiply the estate's or trust's foreign source qualified dividends in each separate category by 0.5357 if the foreign source qualified dividends are taxed at a rate of 15%. Include the results on line 1a of the AMT Form 1116.

You adjust the estate's or trust's foreign source qualified dividends taxed at the 0% rate by not including them on line 1a of Form 1116. Amounts taxed at the 0% rate are on line 8 of the *Qualified Dividends Tax Worksheet* in the Instructions for Form 1041, line 26 of Schedule D (Form 1041), or line 19 of Schedule D Tax Worksheet in the Instructions for Schedule D (Form 1041).

Do not adjust the amount of any foreign source qualified dividends you elected to include on line 4g of the AMT Form 4952.

Foreign capital gains or losses. If any capital gain or loss from U.S. or foreign sources is different for the AMT, use the refigured amounts to complete this step.

To figure the adjustment for the estate's or trust's foreign source capital gains or losses, you must first determine whether you can use *Worksheet A* or *Worksheet B* in the Instructions for Form 1116. Otherwise, you must use the instructions for *Capital Gains and Losses* in Pub. 514, *Foreign Tax Credit for Individuals*, to figure the adjustments you must make to the estate's or trust's foreign source capital gains and losses.

Use Worksheet A if the estate or trust has foreign source capital gains or losses in no more than two separate

categories, and any of the following apply.

- You were not required to make adjustments to the estate's or trust's foreign source qualified dividends under the rules described earlier (or if the estate or trust had foreign source qualified dividends, you would not have been required to make those adjustments).
- Schedule D, line 14a, column (2) or line 15, column (2), as refigured for the AMT if necessary, is zero or a loss.
- On the AMT Schedule D Tax Worksheet for Form 1041, a) line 17 is zero, b) line 9 is zero, or c) line 34 is equal to or greater than line 35.
- On the AMT Part V of Schedule D (Form 1041), a) line 18 of that AMT Part V minus the amount on Form 4952, line 4e, that you elected to include on Form 4952, line 4g, is zero or less, b) line 23 of that AMT Part V is zero, or c) line 32 of that AMT Part V is equal to or greater than line 33.

Use Worksheet B if you:

- Cannot use Worksheet A,
- Have foreign source capital gains and losses in no more than two separate categories,
- Did not have any item of unrecaptured section 1250 gain or any item of 28% rate gain or loss for either regular tax or AMT, and
- Did not have any capital gains taxed at a rate of 0%.

Instructions for Worksheets A and B. When you complete Worksheet A or B, use foreign source capital gains and losses as refigured for the AMT, if necessary, and do not use any foreign source capital gains that you elected to include on line 4g of the AMT Form 4952. If you must complete a Schedule D for the AMT, use line 15 of that AMT Schedule D to complete line 3 of Worksheet A or Line 4 or the Line 2 Worksheet for Worksheet B. Use 0.5357 instead of 0.4286 to complete lines 11, 13, and 15 of Worksheet B and to complete lines 8, 11, and 17 of the Line 15 Worksheet for Worksheet B.

If the estate or trust does not qualify to use Worksheet A or Worksheet B, use the instructions for *Capital Gains and Losses* in Pub. 514 to determine the adjustments you make.

Step 4. Complete Part II and lines 9 through 13 of the AMT Form 1116. Use the estate's or trust's AMT foreign tax credit carryover, if any, on line 10.

Step 5. If the simplified limitation election does not apply, complete lines 14 through 16 of the AMT Form 1116.

Step 6. If you did not complete Part IV of Schedule I, enter the amount from Schedule I, line 29 on line 17 of the AMT Form 1116 and go to Step 7 later.

If you completed Part IV of Schedule I, complete an AMT Worksheet for line

17 in the Instructions for Form 1116 to figure the amount to enter on Form 1116, line 17, if:

- Line 62 of Schedule I is greater than zero, and
- Line 73 of Schedule I is smaller than line 74.

But you do not need to complete the Worksheet for Line 17 if:

- The estate or trust qualifies for the adjustment exception discussed in the Instructions for Form 1116 and
- Line 62 is not more than \$175,000.

Note. Use the estate's and trust's capital gains and losses as refigured for the AMT to determine if its total amounts are less than the \$20,000 threshold under the adjustment exception.

If you do not have to complete an AMT Worksheet for line 17, enter the amount from line 29 of Schedule I on line 17 of the AMT Form 1116.

Instructions for completing an AMT Worksheet for line 17. To complete an AMT Worksheet for line 17 in the Instructions for Form 1116, follow these instructions.

1. Enter the amount from Schedule I, line 29 on line 1 of the worksheet.
2. Skip lines 2 and 3 of the worksheet.
3. Enter the amount from Schedule I, line 71 on line 4 of the worksheet.
4. Multiply line 4 of the worksheet by 0.1071 (instead of 0.2857) and enter the results on line 5 of the worksheet.
5. Enter the amount from Schedule I, line 69 on line 6 of the worksheet.
6. Multiply line 6 of the worksheet by 0.4643 (instead of 0.5714) and enter the result on line 7 of the worksheet.
7. Enter the amount from Schedule I, line 68 on line 8 of the worksheet.
8. Complete lines 9 and 10 of the worksheet as instructed on the worksheet.

Step 7. Enter the amount from Schedule I, line 52 on the AMT Form 1116, line 19. Complete lines 18, 20, and 21 of the AMT Form 1116.

Step 8. Complete Part IV of the first AMT Form 1116 only.

Enter on line 53 of Schedule I the amount from line 29 of the first AMT Form 1116.

Attach to the estate's or trust's return all AMT Forms 1116 you used to figure your AMT Foreign Tax Credit.

AMT foreign tax credit carryback and carryforward. If the AMT foreign tax credit is limited, any unused amount

can be carried back or forward under section 904(c). The election to forego the carryback period for regular tax purposes also applies for the AMT.

Simplified limitation election. The estate or trust may elect to use a simplified section 904 limitation to figure its AMT foreign tax credit. To do so, use the estate's or trust's regular tax income for Form 1116, Part I, instead of refiguring the estate's or trust's foreign source income for the AMT, as described in Step 2 on page 7. The estate or trust must make the election for the first tax year after 1997 for which it claims an AMT foreign tax credit. If it does not make the election for that year, it may not make it for a later year. Once made, the election applies to all later tax years and may be revoked only with IRS consent.

Part IV—Line 52 Computation Using Maximum Capital Gains Rates

Lines 58, 59, and 60

If you used Schedule D (Form 1041), the Schedule D Tax Worksheet, or the Qualified Dividend Tax Worksheet, you generally may enter the amounts as instructed on Schedule I, lines 58, 59, and 60. But do not use those amounts if any of the following apply.

1. Any gain or loss on Schedule D (Form 1041) is different for the AMT (for example, because the AMT basis was different due to depreciation adjustments or an incentive stock option adjustment or the AMT capital loss carryover from 2009 was different).
2. You did not complete Part V of Schedule D (Form 1041), the Schedule D Tax Worksheet, or the Qualified Dividends Tax Worksheet because Form 1041, line 22, was zero or less.
3. The estate or trust received a Schedule K-1 (Form 1041) that shows an amount in box 12 with code B, C, D, E, or F. If this applies, see *If the estate or trust is a beneficiary of another estate or trust*.

If 1 or 3 above applies, complete Parts I through IV of an AMT Schedule D (Form 1041) by refiguring the amounts of your gains and losses for the AMT. Next, if 1, 2, or 3 above applies, complete the following lines of the applicable schedule or worksheet:

- Lines 18 through 22 of an AMT Schedule D (Form 1041),
- Lines 2 through 13 of an AMT Schedule D Tax Worksheet, or
- Lines 2 through 4 of a Qualified Dividends Tax Worksheet.

If you were required to complete an AMT Form 4952, use it to figure the amount to enter on line 21 of the AMT Schedule D (Form 1041), lines 3 and 4 of the AMT Schedule D Tax Worksheet, and line 3 of the Tax Worksheet. Use amounts from the AMT Schedule D (Form 1041), AMT Schedule D Tax Worksheet, or Qualified Dividends Tax Worksheet to complete Schedule I, lines 58, 59, and 60. Keep the AMT Schedule D (Form 1041) and worksheet for your records. Do not attach the AMT Schedule D (Form 1041) to Form 1041.

Do not decrease the estate's or trust's section 1202 exclusion by the amount, if any, included on line 9.

If the estate or trust is a beneficiary of another estate or trust. If the estate or trust received a Schedule K-1 (Form 1041) from another estate or trust that shows an amount in box 12 with code B, C, D, E, or F, follow the instructions in the table below.

IF the code in box 12 is...	THEN include that amount in the total on...
B	line 2 of an AMT Qualified Dividends Tax Worksheet; line 19 of an AMT Schedule D (Form 1041); or line 2 of an AMT Schedule D Tax Worksheet, whichever applies.
C	line 3, column (f), of an AMT Schedule D (Form 1041).
D	line 8, column (f), of an AMT Schedule D (Form 1041).
E	line 11 of an AMT Unrecaptured Section 1250 Gain Worksheet.
F	line 4 of an AMT 28% Rate Gain Worksheet.
