Instructions for Form 1045

Application for Tentative Refund

General Instructions

Future developments. For the latest information about developments related to Form 1045 and its instructions, such as legislation enacted after they were published, go to IRS.gov/Form1045.

What’s New Disaster tax relief was enacted for those impacted by Hurricane Harvey, Irma, or Maria, including provisions that modified the limit on the deduction for charitable contributions and the calculation of casualty and theft losses. See Publication 976, Disaster Relief, for more information.

Purpose of Form

Form 1045 is used by an individual, estate, or trust to apply for a quick tax refund resulting from:

• The carryback of a Net Operating Loss (NOL),
• The carryback of an unused general business credit,
• The carryback of a net section 1256 contracts loss, or
• An overpayment of tax due to a claim of right adjustment under section 1341(b)(1).

When carrying back an NOL to an earlier tax year, an alternative minimum tax (AMT) liability may be created for that earlier year. This may be true even if there was no AMT liability when the tax return for that earlier year was filed.

Waiving the carryback period. You can elect to carry an NOL forward only, instead of first carrying it back. To make this election for an NOL incurred in your 2017 tax year, attach to your 2017 tax return filed on or before the due date (including extensions) a statement that you are electing under section 172(b)(3) to relinquish the entire carryback period for any 2017 NOL. If you filed your return on time without making the election, you can still make the election on an amended return filed within 6 months of the due date of the return (excluding extensions). Attach the election to the amended return, and write "Filed pursuant to section 301.9100-2" on the election statement.

Once made, the election is irrevocable for the tax year.

Definitions

Eligible loss. For an individual, an eligible loss is any loss of property arising from fire, storm, shipwreck, other casualty, or theft.

For a small business (as defined in section 172(b)(1)(E)(iii)) or a farming business (as defined in section 263A(e)(4)), an eligible loss is any loss attributable to a federally declared disaster (as defined in section 165(i)(5)).

An eligible loss doesn’t include a farming loss.

Farming loss. A farming loss is the smaller of:

• The amount that would be the NOL for the tax year if only income and deductions attributable to farming businesses (as defined in section 263A(e)(4)) were taken into account, or
• The NOL for the tax year.

Qualified disaster loss. A qualified disaster loss is the smaller of:

1. The sum of:
   a. Any losses occurring in a disaster area (as defined in section 165(i)(5)) and attributable to a federally declared disaster occurring before January 1, 2010, plus
   b. Any qualified disaster expenses that were allowable under section 198A (even if you didn’t elect to treat such expenses as qualified disaster expenses), or
2. The NOL for the tax year.

Excluded losses. A qualified disaster loss doesn’t include any losses from property used in connection with any private or commercial golf course, country club, massage parlor, hot tub facility, suntan facility, or any store for which the principal business is the sale of alcoholic beverages for consumption off premises.

A qualified disaster loss also doesn’t include any losses from any gambling or animal racing property. Gambling or animal racing property is any equipment, furniture, software, or other property used directly in connection with gambling, the racing of animals, or the on-site viewing of such racing, and the portion of any real property (determined by square footage) that is dedicated to gambling, the racing of animals, or the on-site viewing of such racing, unless this portion is less than 100 square feet.

Qualified GO Zone loss. A qualified GO Zone loss is the smaller of:

1. The excess of the NOL for the year over the specified liability loss for the year to which a 10-year carryback applies, or
2. The total of any special GO Zone depreciation or amortization allowable for specified GO Zone extension property for the tax year such property is placed in service (even if you elected not to claim the special GO Zone depreciation allowance for such property).

Specified liability loss. Generally, a specified liability loss is a loss arising from:

• Product liability, or
• An act (or failure to act) that occurred at least 3 years before the beginning of the loss year and resulted in a liability under a federal or state law requiring:
   1. Reclamation of land,
   2. Dismantling of a drilling platform,
   3. Remediation of environmental contamination,
   4. Payment under any workers compensation act, or
   5. Decommissioning of a nuclear power plant (or any unit thereof).

Any loss from a liability arising from (1) through (5) above can be taken into account as a specified liability loss only if you used an accrual method of accounting throughout the period in which the act (or failure to act) occurred. For details, see section 172(f).

When To File

You must file Form 1045 within 1 year after the end of the year in which an NOL, unused credit, net section 1256 contracts loss, or claim of right adjustment arose.
Be sure to file your 2017 income tax return no later than the date you file Form 1045.

If you carry back any portion of an NOL or an unused general business credit to tax years before the 3 years preceding the 2017 tax year, you may need to use additional Forms 1045. Complete lines 1 through 9 and Schedule A on only one Form 1045. Use this Form 1045 for the earliest preceding tax years. You must sign this Form 1045, but don't need to sign the other Forms 1045.

Where To File
File Form 1045 with the Internal Revenue Service Center for the place where you live as shown in the instructions for your 2017 income tax return.

Don't include Form 1045 in the same envelope as your 2017 income tax return.

What To Attach
Attach copies of the following, if applicable, to Form 1045 for the year of the loss or credit.

- If you are an individual, pages 1 and 2 of your 2017 Form 1040 and Schedules A, D, and J (Form 1040), if applicable.
- Any Form 4952, Investment Interest Expense Deduction, attached to your 2017 income tax return.
- All Schedules K-1 you received from partnerships, S corporations, estates, or trusts that contribute to the carryback.
- Any application for extension of time to file your 2017 income tax return.
- All Forms 8886, Reportable Transaction Disclosure Statement, attached to your 2017 income tax return.
- Forms 8302, Electronic Deposit of Tax Refund of $1 Million or More.
- Alternative Minimum Tax Net Operating Loss (AMTNOL) or Alternative Tax Net Operating Loss Deduction (ATNOLD) calculation.
- Form 6251, Alternative Minimum Tax—Individuals for each loss year.
- Any detailed allocation schedules for a filing status change or for different spouses between the gain and loss years, see Pub. 536.
- Any applicable election statement.
- All other forms and schedules from which a carryback results, such as Schedule C or F (Form 1040); Form 3800, General Business Credit; Form 6478, Biofuel Producer Credit (for years 2008, 2009, 2010, 2011, 2012, Alcohol and Cellulosic Biofuel Fuels Credit; for years before 2008, Credit for Alcohol Used as Fuel); Form 6781, Gains and Losses From Section 1256 Contracts and Straddles; or Form 3468, Investment Credit.

Also attach to Form 1045 copies of all forms or schedules for items figured in the carryback years, such as Form 3800; Form 6251 (original and revised for each gain year); Form 6781; Form 8960; and Form 8962.

You must attach copies of all required forms listed above and complete all lines on Form 1045 that apply to you. Otherwise, your application may be delayed or disallowed.

Processing the Application
The IRS will process your application within 90 days from the later of:
- The date you file the complete application, or
- The last day of the month that includes the due date (including extensions) for filing your 2017 income tax return (or, for a claim of right adjustment, the date of the overpayment under section 1341(b)(1)).

The processing of Form 1045 and the payment of the requested refund doesn't mean the IRS has accepted your application as correct. If the IRS later determines that the claimed deductions or credits are due to an overstatement of the value of property, negligence, disregard of rules, or substantial understatement of income tax, you may have to pay penalties. Any additional tax also will generate interest compounded daily.

The IRS may need to contact you or your authorized representative (for example, your accountant or tax return preparer) for more information so we can process your application. If you want to designate a representative for us to contact, attach a copy of your authorization to Form 1045. For this purpose, you can use Form 2848, Power of Attorney and Declaration of Representative.

Disallowance of the Application
Your application isn't treated as a claim for credit or refund. It may be disallowed if it has material omissions or math errors that aren't corrected within the 90-day period. If the application is disallowed in whole or in part, no suit challenging the disallowance can be brought in any court. But you can file a regular claim for credit or refund before the limitation period expires, as explained later under "Form 1040X or Other Amended Return."

Excessive Allowances
Any amount applied, credited, or refunded based on this application that the IRS later determines to be excessive may be billed as if it were due to a math or clerical error on the return.

Form 1040X or Other Amended Return
Individuals can get a refund by filing Form 1040X, Amended U.S. Individual Income Tax Return, instead of Form 1045. An estate or trust can file an amended Form 1041, U.S. Income Tax Return for Estates and Trusts. In most cases, you must file an amended return no later than 3 years after the due date of the return for the applicable tax year.

If you use Form 1040X or other amended return, follow the instructions for that return. Attach to the amended return a copy of Schedule A of Form 1045 showing the computation of the NOL and, if applicable, a copy of Schedule B of Form 1045 showing the computation of the NOL carryover. Complete a separate Form 1040X or other amended return for each year for which you request an adjustment.

The procedures for Form 1040X and Form 1045 are different. The IRS isn't required to process your Form 1040X within 90 days. However, if we don't process it within 6 months from the date you file it, you can file suit in court. If the IRS disallows your claim on Form 1040X and you disagree with that determination, you must file suit no later than 2 years after the date we disallow it.

Additional Information
For more details on NOLs, see Pub. 536.

Specific Instructions

Address
P.O. box. Enter your box number only if your post office doesn't deliver mail to your street address.

Foreign address. Enter the information in the following order: city, province or state, and country. Follow the country's practice for entering the postal code. Don't abbreviate the country name.
Line 1b—Unused General Business Credit
If you claim a tentative refund based on the carryback of an unused general business credit, attach a detailed computation showing how you figured the credit carryback and a recomputation of the credit after you apply the carryback. Generally, an unused general business credit must be carried back 1 year.

If you filed a joint return (or separate return) for some but not all of the tax years involved in figuring the unused credit carryback, special rules apply to figuring the carryback. See the Instructions for Form 3800.

Line 1c—Net Section 1256 Contracts Loss
An individual can elect to carry back a net section 1256 contract loss to each of the 3 tax years preceding the loss year. An estate or trust isn't eligible to make this election. To make the election, check box D at the top of Form 6781. The amount which can be used in any prior tax year can't exceed the net section 1256 contract gain in that year and can't increase or create an NOL for that year. Reflect the carryback as a reduction to your adjusted gross income in the “After carryback” column on line 11. Attach to Form 1045 a copy of Form 6781 and Schedule D (Form 1040) for the year of the net section 1256 contracts loss and an amended Form 6781 and an amended Schedule D (Form 1040) for each carryback year. For more details, see section 1212(c).

Line 9
If an NOL or net section 1256 contract loss carryback eliminates or reduces a prior year foreign tax credit, you can't use Form 1045 to carry the released foreign tax credits to earlier years. Also, if the released foreign tax credits result in the release of general business credits, you can't use Form 1045 to carry the released general business credits to earlier years. Instead, you must file Form 1040X or other amended return to claim refunds for those years. For details, see Rev. Rul. 82-154, 1982-2 C.B. 394.

Lines 10 Through 32—Computation of Decrease in Tax
Figure the amount of decrease, attributable to the carryback, in tax previously determined for each tax year before the tax year of the NOL, net capital loss, or unused credit. The tax previously determined will be the tax shown on the return as filed, increased by any amounts assessed (or collected without assessment) as deficiencies before the date of the filing of the application for a tentative carryback adjustment, and decreased by any amounts abated, credited, refunded, or otherwise repaid prior to that date. Any items over which you and the IRS are in disagreement at the time of the filing of the application shall, for purposes of computing the tentative carryback adjustment, be taken into account in ascertaining the tax previously determined only if, and to the extent that, they were reported on the return, or were reflected in any amounts assessed (or collected without assessment) as deficiencies, or in any amounts abated, credited, refunded, or otherwise repaid, before the date of filing the application.

After figuring the tax previously determined, figure the decrease in tax previously determined attributable to the carryback and any related adjustments on the basis of the items of tax taken into account in computing the tax previously determined. In determining any decrease attributable to the carryback or any related adjustment, items shall be taken into account only to the extent that they were reported on the return, or were reflected in amounts assessed (or collected without assessment) as deficiencies, or in amounts abated, credited, refunded, or otherwise repaid, before the date of filing the application for a tentative carryback adjustment. If you and the IRS are in disagreement as to the proper treatment of any item, it shall be assumed, for purposes of determining the decrease in the tax previously determined, that you reported the item correctly unless, and to the extent that, the disagreement has resulted in the assessment of a deficiency (or the collection of an amount without an assessment), or the allowing or making of an abatement, credit, refund, or other repayment, before the date of filing the application.

Use one pair of columns to enter amounts before and after carryback for each year to which the loss or credit is being carried. Start with the earliest carryback year. A net section 1256 contracts loss can be carried back 3 years. See the instructions for line 10, later, to figure the tax years to which you can carry an NOL. Use the remaining pairs of columns for each consecutive preceding tax year until the loss is fully absorbed. Enter the ordinal number of years the loss is being carried back and the date the carryback year ends in the spaces provided in the headings above line 10 for each pair of columns.

Example. Your tax year is the 2017 calendar year and you are carrying an NOL back 2 years. You enter “2nd” and “12/31/15” in the left column heading in the spaces provided. The column heading now reads “2nd preceding tax year ended 12/31/15.”

For each carryback year, enter in the column labeled “Before carryback” the amounts for the carryback year as shown on your original or amended return. If the amounts were previously adjusted by you or the IRS, enter the amounts after adjustment.

Line 10—NOL Deduction After Carryback
Use the following rules to figure the tax years to which you must carry an NOL shown on Schedule A, line 25. If an NOL isn’t fully absorbed in a year to which it is carried, complete Schedule B to figure the amount to carry to the next carryback year.

Note. You may need to use additional Forms 1045 to carry back an NOL. Complete lines 1 through 9 and Schedule A on only one Form 1045. Use this Form 1045 for the earliest preceding tax years. You must sign this Form 1045 but don’t need to sign the other Forms 1045.

General rule. You generally must carry back the entire NOL to the 2nd tax year before the loss year. Any loss not used in the 2nd preceding year is then carried to the 1st preceding year. Any loss not applied in the 2 preceding years can be carried forward up to 20 years. The 2-year carryback period doesn’t apply to the portion of an NOL attributable to an eligible loss, a farming loss, a qualified disaster loss, or a specified liability loss.

Eligible losses. To the extent the NOL is an eligible loss (defined earlier), it is carried back to the 3rd tax year before the loss year. Any such loss not used in that year is carried to the 2nd and then the 1st preceding year. Any such loss that isn’t applied in the 3 preceding years can be carried forward up to 20 years.

Only the eligible loss portion of the NOL can be carried back 3 years.

Example. You have a $20,000 NOL of which only $5,000 is an eligible loss. The $5,000 eligible loss is carried back 3 years, but the remaining $15,000 loss is carried back only 2 years, even if you
had modified taxable income of more than $5,000 in the 3rd preceding year.

**Farming losses.** To the extent the NOL is a farming loss (defined earlier), that part of the loss is carried back to the 5th tax year before the loss. Any such loss not used in that year is carried to the 4th preceding year and then applied consecutively forward through the 1st preceding year. Any such loss not applied in the 5 preceding years can be carried forward up to 20 years.

Only the farming loss portion of the NOL can be carried back 5 years.

**Example.** You operate a farming business and incur an NOL of $50,000 for 2017. $25,000 of the NOL is attributable to income and deductions of your farming business; $10,000 is attributable to a fire in your personal residence (an eligible loss); and the remaining $15,000 is attributable to your spouse’s work as an employee. The $25,000 farming loss is carried back 5 years; the $10,000 eligible loss is carried back 3 years; and the remaining $15,000 is carried back 2 years. Any unused portion of this NOL can be carried forward up to 20 years.

You can make an election to figure the carryback period for a farming loss without regard to the special 5-year carryback rule. To make this election for 2017, attach to your 2017 income tax return filed by the due date (including extensions) a statement that you are electing to treat any 2017 farming losses without regard to the special 5-year carryback rule. If you filed your original return on time, you can make the election on an amended return filed within 6 months after the due date of the return (excluding extensions). Attach the election to the amended return and write “Filed pursuant to section 301.9100-2” on the election statement. Once made, the election is irrevocable for the tax year.

**Specified liability losses.** To the extent an NOL is a specified liability loss (defined earlier), that part of the loss is carried back to the 10th tax year before the loss. Any such loss not used in that year is carried to the 9th preceding year and then applied consecutively forward through the 1st preceding year. Any such loss that isn’t applied in the 10 preceding years can be carried forward up to 20 years.

Only the specified liability loss portion of the NOL can be carried back 10 years.

You can make an election to figure the carryback period for a specified liability loss without regard to the special 10-year carryback rule. To make this election for 2017, attach to your 2017 income tax return filed by the due date (including extensions) a statement that you are electing to treat any 2017 specified liability losses without regard to the special 10-year carryback rule. If you filed your original return on time, you can make the election on an amended return filed within 6 months after the due date of the return (excluding extensions). Attach the election to the amended return and write “Filed pursuant to section 301.9100-2” on the election statement. Once made, the election is irrevocable for the tax year.

**Qualified disaster losses.** To the extent the NOL is a qualified disaster loss, that part of the loss is carried back to the 5th tax year before the loss. Any such loss not used in that year is carried to the 4th preceding year and then applied consecutively forward through the 1st preceding year. Any such loss not applied in the 5 preceding years can be carried forward up to 20 years.

Only the qualified disaster loss portion of the NOL can be carried back 5 years.

You can make an election to figure the carryback period for a qualified disaster loss without regard to the special 5-year carryback rule. To make this election for 2017, attach to your 2017 income tax return filed by the due date (including extensions) a statement that you are electing to treat any 2017 qualified disaster losses without regard to the special 5-year carryback rule. If you filed your original return on time, you can make the election on an amended return filed within 6 months after the due date of the return (excluding extensions). Attach the election to the amended return and write “Filed pursuant to section 301.9100-2” on the election statement. Once made, the election is irrevocable for the tax year.

**Special rules.** Special rules apply if you filed a joint return (or a separate return) for some but not all of the tax years involved in figuring an NOL carryback. For details, see Pub. 536. Attach a computation showing how you figured the carryback.

**Line 11—Adjusted Gross Income**

Enter in the column labeled “Before carryback” your adjusted gross income (AGI) for the carryback year as shown on your original or amended return.

Enter in the column labeled “After carryback” your AGI figured after you apply the NOL or net section 1256 contracts loss carryback and after you refigure any items of income and deductions that are based on or limited to a percentage of your AGI. Amounts to refigure may include:

- The special allowance for passive activity losses from rental real estate activities,
- Taxable social security benefits,
- IRA deductions,
- The student loan interest deduction,
- The tuition and fees deduction,
- Excludable savings bond interest, and
- The exclusion of amounts received under an employer’s adoption assistance program.

**Line 12—Deductions**

**Individuals.** Enter in the column labeled “Before carryback” for each applicable carryback year the amount shown (or as previously adjusted) on Form 1040:

- $6,300 for 2016 ($12,600 if married),
- $6,200 for 2014 ($12,400 if married),
- $6,100 for 2013 ($12,200 if married),

- $5,400 for 2008 ($10,900 if married),
- $5,350 for 2007 ($10,700 if married).
After carryback. If you itemized deductions in the carryback year, enter in the column labeled “After carryback” the total of your deductions after refiguring any that are based on, or limited to a percentage of, your adjusted gross income. To refigure your deductions, use your refigured adjusted gross income (Form 1045, line 11, using the “After carryback” column). Amounts you may have to refigure include:

- Medical expenses,
- Mortgage insurance premiums,
- Personal casualty and theft losses, and
- Miscellaneous deductions subject to the 2% limit.

Don't refigure your charitable contributions deduction.

If you have an NOL, see Pub. 536 for more information and examples.

If you didn't itemize deductions in the carryback year, enter your standard deduction for that year.

Line 14—Exemptions

Individuals. Enter in the column labeled “Before carryback” for each applicable carryback year, the amount shown (or as previously adjusted) on Form 1040, Line 42.

If you filed Form 1040NR, enter the amount shown (or as previously adjusted) on:
- Line 40 for 2010 – 2016, or

If you filed Form 1040A, enter the amount shown (or as previously adjusted) on, Line 26.

If you filed Form 1040EZ and checked the “You” or “Spouse” box on Form 1040EZ, line 5, enter zero (or the amount from line F of the 1040EZ worksheet if married). If you didn't check any box, enter:
- $4,050 for 2016 ($8,100 if married),
- $4,000 for 2015 ($8,000 if married),
- $3,950 for 2014 ($7,900 if married),

- $3,700 for 2011 ($7,400 if married),
- $3,650 for 2010 ($7,300 if married),
- $3,650 for 2009 ($7,300 if married),
- $3,500 for 2008 ($7,000 if married), or
- $3,400 for 2007 ($6,800 if married).

After carryback. If your deduction for personal exemptions in the carryback year was limited based on your adjusted gross income, enter in the column labeled “After carryback” the deduction for personal exemptions refigured using your refigured adjusted gross income (Form 1045, line 11, using the “After carryback” column).

Estates and trusts. Enter in the columns labeled “Before carryback” and “After carryback” for each applicable carryback year the amount shown (or as previously adjusted) on Form 1041, line 20.

Line 16—Income Tax

Use your refigured taxable income (Form 1045, line 15, using the “After carryback” column) to refigure your tax for each carryback year. Include any tax from Form 4970, Tax on Accumulation Distribution of Trusts, and Form 4972, Tax on Lump-Sum Distributions. Attach any schedule used to figure your tax or an explanation of the method used to figure the tax and, if necessary, a detailed computation.

For example, write “Tax Computation Worksheet—2014” if this is the method used for that year. You don't need to attach a detailed computation of the tax in this case.

Line 17—Excess Advance Premium Tax Credit Repayment

Advance payments of the premium tax credit (APTC) may have been made in 2014, 2015, or 2016 to help pay for your insurance coverage or that of your spouse or dependent. If so, complete Form 8962 using your refigured household income to see if you have excess APTC and must repay the excess. If the advance payments were more than the refigured premium tax credits, enter the refigured amount from line 29 of your 2014, 2015, or 2016 Form 8962, in the column labeled “After carryback” for the applicable year.

If your refigured household income is less than 100% of the federal poverty line for 2014, 2015, or 2016, you can still claim the premium tax credit if you satisfy the requirements under Estimated household income at least 100% of the federal poverty line in the 2014, 2015, or 2016 Instructions for Form 8962.

Line 22—Other Credits

See your tax return for the carryback year for any additional credits such as the earned income credit, credit for child and dependent care expenses, child tax credit, education credits, foreign tax credit, retirement savings contributions credit, etc., that will apply in that year. If you make an entry on this line, identify the credit(s) claimed.

After carryback. Refigure any credits included on this line that are based on or limited by your adjusted gross income (AGI), modified adjusted gross income (MAGI), or tax liability. Use your refigured AGI, MAGI, or tax liability to refigure your credits for each carryback year.

Line 25—Self-Employment Tax

Don't adjust self-employment tax because of any carryback.

Line 26—Additional Medicare Tax

Don't adjust Additional Medicare Tax because of any carryback.
Line 27—Net Investment Income Tax
Enter in the column labeled “After carryback” for each affected carryback year any netted and reported Net Investment Income Tax (NIIT) using Form 8960 for the applicable carryback year. See section 1411 and the related regulations for information on the use of an NOL for NIIT purposes.

Line 28—Health Care: Individual Responsibility
Enter in the column labeled “After carryback” for each affected carryback year any netted and reported shared responsibility payment using the Shared Responsibility Payment Worksheet in the Instructions for Form 8965 for the applicable carryback year. For information on health care coverage exemptions or calculating a shared responsibility payment, see the Instructions for Form 8965.

Line 29—Other Taxes
See your tax return for the carryback year for any other taxes not mentioned above, such as recapture taxes, tax on an IRA, etc., that will apply in that year. If you make an entry on this line, identify the taxes that apply.

Line 33—Overpayment of Tax Under Section 1341(b)(1)
If you apply for a tentative refund based on an overpayment of tax under section 1341(b)(1), enter it on this line. Also, attach a computation showing the information required by Reg. section 5.6411-1(d).

Estates. All executors or administrators must sign and date Form 1045.

For estates and trusts, see the instructions for Form 1041, line 22, for more information about taxable income and NOLs.

Line 2—Nonbusiness Capital Losses
Don't include on this line any section 1222 exclusion amounts (even if entered as a loss on Schedule D (Form 1041)).

Line 6—Nonbusiness Deductions
Enter as a positive number deductions that aren't connected with a trade or business. They include:
- IRA deductions;
- Health savings account deduction;
- Archer MSA deduction;
- Deductions for payments on behalf of a self-employed individual to a SEP, SIMPLE, or qualified plan;
- Alimony paid;
- Most itemized deductions (except for casualty and theft losses, any employee business expenses, and state income tax on trade or business income); and
- Standard deduction.

Don't include on line 6 the deduction for personal exemptions for you, your spouse, or your dependents.

Don't include on line 6 any business deductions. These are deductions that are connected with a trade or business. They include:
- State income tax on income attributable to trade or business (including wages, salary, and unemployment compensation);
- Educator expenses;
- Moving expenses:
- The deduction for the deductible part of self-employment tax;
- Domestic production activities deduction;
- Rental losses;
- Loss on the sale or exchange of business real estate or depreciable property;
- Your share of a business loss from a partnership or an S corporation;
- Ordinary loss on the sale or exchange of section 1244 (small business) stock;
- Ordinary loss on the sale or exchange of stock in a small business investment company operating under the Small Business Investment Act of 1958;
- Loss from the sale of accounts receivable if such accounts arose under the accrual method of accounting; and
- If you itemized your deductions, casualty or theft losses (even if they involve nonbusiness property) and employee business expenses (such as union dues, uniforms, tools, and educational expenses).

Line 7—Nonbusiness Income Other Than Capital Gains
Enter income that isn't from a trade or business. Examples are ordinary dividends, annuities, and interest on investments.

Don't enter business income on line 7. This is income from a trade or business and includes:
- Salaries and wages,
- Self-employment income,
- Unemployment compensation,
- Rental income,
- Gain on the sale or exchange of business real estate or depreciable property, and
- Your share of business income from a partnership or an S corporation.

For more details on business and nonbusiness income and deductions, see Pub. 536.

Schedule B—NOL Carryover
Complete and file this schedule to determine the NOL deduction for each carryback year and the amount to be carried forward, if not fully absorbed. Make the same entries in each column heading as on page 1 of Form 1045 (see the instructions for Lines 10 Through 32, earlier).

In most cases, if an NOL is more than the modified taxable income for the earliest year to which it is carried, you must file Schedule B to figure the amount of the NOL to be carried to the next tax year. The amount of the carryback is in most cases the excess, if any, of the NOL carryback over the modified taxable income for that earlier year. Modified taxable income is the amount figured on line 9 of Schedule B.

If you carry two or more NOLs to a tax year, figure your modified taxable income by deducting the NOLs in the order in which they were incurred. First, deduct the NOL from the earliest year, then the NOL from the next earliest year, etc. After you deduct each NOL, there will be a new, smaller, modified taxable income to compare to any remaining NOL.
Line 2
Don't take into account on this line any NOL carryback from 2017 or later. However, do take into account NOLs that occurred in tax years before 2017 and are otherwise allowable as carrybacks or carryforwards.

Note. If your taxable income is shown as zero on your tax return (or as previously adjusted) for any carryback year, refigure it without limiting the result to zero, and enter it on line 2 as a negative number.

Line 3—Net Capital Loss Deduction
Individuals. Enter as a positive number the amount, if any, shown (or as previously adjusted) on Schedule D (Form 1040), line 21.

Estates and trusts. Enter as a positive number the amount, if any, shown (or as previously adjusted) on Schedule D (Form 1041), line 16.

Line 4—Section 1202 Exclusion
Enter as a positive number any gain excluded under section 1202 on the sale or exchange of qualified small business stock.

Line 5—Domestic Production Activities Deduction
Enter as a positive number the amount of any domestic production activities deduction claimed on your return.

Line 6—Adjustments to Adjusted Gross Income
If you entered an amount on line 3 or line 4, you must refigure certain income and deductions based on adjusted gross income. These include:

- The special allowance for passive activity losses from rental real estate activities,
- Taxable social security benefits,
- IRA deductions,
- Excludable savings bond interest,
- The exclusion of amounts received under an employer’s adoption assistance program,
- The student loan interest deduction, and
- The tuition and fees deduction.

For purposes of figuring the adjustment to each of these items, your adjusted gross income is increased by the total of the amounts on line 3 and line 4. Don't take into account any NOL carryback from 2017 or later.

In most cases, figure the adjustment to each item of income or deduction in the order listed above and, when figuring the adjustment to each subsequent item, increase or decrease adjusted gross income by the total adjustments you figured for the previous items. However, a special rule applies if you received social security benefits and deducted IRA contributions. Use the worksheets in Pub. 590-A, Contributions to Individual Retirement Arrangements (IRAs), to refigure your taxable social security benefits and IRA deductions under the special rule.

Enter on line 6 the total adjustments made to the listed items. Attach a computation showing how you figured the adjustments.

Line 7—Adjustment to Itemized Deductions
Individuals. Skip this line if, for the applicable carryback year:

- You didn't itemize deductions, or
- The amounts on Schedule B, lines 3 through 5, are zero.

Otherwise, complete lines 11 through 38 and enter on line 7 the amount from line 38 (or, if applicable, line 14 of the worksheet).

Estates and trusts. Recompute the miscellaneous itemized deductions shown (or as previously adjusted) on Form 1041, line 15c (line 15b for 2007 through 2012), and any casualty or theft losses shown (or as previously adjusted) on Form 4684, Casualties and Thefts, line 18 (line 21 for 2010; line 22 for 2009; line 24 for 2008) by substituting modified adjusted gross income (see below) for the adjusted gross income of the estate or trust.

Subtract the recomputed deductions and losses from the deductions and losses previously shown, and enter the difference on line 7.

Modified adjusted gross income for estates and trusts. For purposes of figuring miscellaneous itemized deductions subject to the 2% limit, figure modified adjusted gross income by adding the following amounts to the adjusted gross income previously used to figure these deductions:

- The total of the amounts from lines 3 through 6 of Form 1045, Schedule B.
- The exemption amount shown (or as previously adjusted) on Form 1041, line 20.
- The income distribution deduction shown (or as previously adjusted) on Form 1041, line 18.

For purposes of figuring casualty or theft losses, figure modified adjusted gross income by adding the total of the amounts from lines 3 through 6 of Form 1045, Schedule B, to the adjusted gross income previously used to figure these losses.

Line 10—NOL Carryover
Generally, subtract line 9 from line 1. If zero or less, enter -0-. After completing all applicable columns, carry forward to 2018 the amount, if any, on line 10 of the column for the 1st preceding tax year.

Line 20—Refigured Mortgage Insurance Premiums
Is your modified adjusted gross income from Form 1045, Schedule B, line 13, more than $100,000 ($50,000 if married filing separately)?

☐ Yes. Your deduction is limited. Refigure your deduction using the Mortgage Insurance Premiums Deduction Worksheet.

☐ No. Your deduction isn't limited. Enter the amount from line 19 on line 20 and enter -0- on line 21.

- You entered an amount other than zero on line 23, and
- You had any items of income or deductions based on adjusted gross income which are listed in the instructions for line 6 of Schedule B.

If you can't use the amount from line 24 as your adjusted gross income, figure your adjusted gross income as follows.

1. Figure the adjustment to each item of income or deduction in the same manner as explained in the instructions for line 6 of Schedule B, except don't take into account any NOL carrybacks when figuring adjusted gross income. Attach a computation showing how you figured the adjustments.

2. Add lines 3, 4, 5, 11, and 23 of Schedule B to the total adjustments you figured in (1) above. Use the result as your adjusted gross income to refigure charitable contributions.

For NOL carryover purposes, you must reduce any charitable contributions carryover to the extent that the NOL carryover on line 10 is increased by any adjustment to charitable contributions.

Line 38
