

1991

Department of the Treasury
Internal Revenue Service

Instructions for Form 1120F

U.S. Income Tax Return of a Foreign Corporation

(Section references are to the Internal Revenue Code unless otherwise noted.)

Paperwork Reduction Act Notice

We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated average time is:

Recordkeeping102 hr., 7 min.

Learning about the law or the form36 hr., 47 min.

Preparing the form64 hr., 16 min.

Copying, assembling, and sending the form to the IRS6 hr., 58 min.

If you have comments concerning the accuracy of these time estimates or suggestions for making this form more simple, we would be happy to hear from you. You can write to both the **Internal Revenue Service**, Washington, DC 20224, Attention: IRS Reports Clearance Officer, T:FP; and the **Office of Management and Budget**, Paperwork Reduction Project (1545-0126), Washington, DC 20503. **DO NOT** send the tax form to either of these offices. Instead, see General Instruction B4 for information on where to file it.

Changes To Note:

1. A foreign corporation is generally allowed the deductions and credits listed in Section II, relating to taxable income that is effectively connected with the conduct of a trade or business in the U.S., only if it timely files Form 1120F in a true and accurate manner. See the last section of General Instruction B3 for details.

2. Enhanced Oil Recovery Credit.—Corporations may take a credit on **Form 8830**, Enhanced Oil Recovery Credit, for 15% of qualified enhanced oil recovery costs paid or incurred in tax years beginning after 1990. These costs generally include amounts paid or incurred in connection with a qualified enhanced oil recovery project for:

a. Certain tangible personal property for which the corporation can claim a deduction for depreciation or amortization;

b. Intangible drilling costs eligible for the election under section 263(c) or required to be capitalized under section 291(b)(1); and

c. Qualified tertiary injectant expenses for which a deduction is allowed under section 193.

If a corporation takes this credit, limitations apply to amounts otherwise deductible (or required to be capitalized and recovered through depreciation, depletion, or amortization), that were used in figuring the credit.

For more information, see section 43 and Form 8830.

General Instructions

A. Purpose of Form

Form 1120F is used to report a foreign corporation's income, gains, losses, deductions, and credits, and to figure its income tax liability. If a refund is due, Form 1120F may be used to claim it.

B. Filing Form 1120F

1. Who Must File.—Except for corporations described in General Instruction B2, every foreign corporation must file this form if, during the tax year, it:

- Had income from any U.S. source (even if its income is tax-exempt under an income tax treaty or code section).
- Engaged in a trade or business in the U.S., whether or not it had income from that trade or business.
- Had income, gains, or losses treated as if they were effectively connected with a U.S. trade or business.
- Overpaid income tax that it wants refunded.

A Mexican or Canadian branch of a U.S. mutual life insurance company must file Form 1120F on the same basis as a foreign corporation if the U.S. company elects to exclude the branch's income and expenses from its own gross income.

A receiver, assignee, or trustee in dissolution or bankruptcy must file Form 1120F if that person has or holds title to virtually all of a foreign corporation's property or business. Form 1120F is due whether or not the property or business is being operated.

An agent in the U.S. must file the return if the foreign corporation has no office or place of business in the U.S. when the return is due.

Consolidated returns.—A foreign corporation cannot belong to an affiliated group of corporations that files a consolidated return unless it is a Canadian or Mexican

corporation maintained solely for the purpose of complying with the laws of Canada or Mexico as to title and operation of property.

2. Who Does Not File Form 1120F.—A foreign corporation does not need to file Form 1120F in any of the following cases:

- Its only income is of a type that is not subject to U.S. taxation under section 881(d).
- It is a beneficiary of an estate or trust engaged in a trade or business in the U.S., but would itself otherwise not need to file.
- It files **Form 1120L**, U.S. Life Insurance Company Income Tax Return, as a foreign life insurance company or **Form 1120-PC**, U.S. Property and Casualty Insurance Company Income Tax Return, as a foreign property and casualty insurance company.
- It did not engage in a trade or business in the U.S. during the year, and its full U.S. tax was withheld at source.
- It has filed **Form 8279**, Election To Be Treated as a FSC or as a Small FSC. These corporations must file **Form 1120-FSC**, U.S. Income Tax Return of a Foreign Sales Corporation.

3. When To File.—A foreign corporation's filing requirements depend on whether it has an office or place of business in the U.S.

a. A foreign corporation that **does not** maintain an office or place of business in the U.S. has until the 15th day of the 6th month after the end of its tax year to file Form 1120F. The corporation may use **Form 7004**, Application for Automatic Extension of Time To File Corporation Income Tax Return, to request an automatic 6-month extension of time to file. However, this extension does not extend the time for payment of the tax. Therefore, if the tax is paid after the 15th day of the 6th month after the end of its tax year, the corporation must pay interest on the late payment and **is subject to** the penalty for late payment of tax described in General Instruction D3.

b. A foreign corporation that **does** maintain an office or place of business in the U.S. has until the 15th day of the 3rd month after the end of its tax year to file Form 1120F. However, the corporation may get an extension of time to file Form 1120F in one of two ways:

(1) It may utilize the 3-month extension of time to file described in Regulations section 1.6081-5 by attaching to Form 1120F the statement described in those regulations. If this option is chosen, the corporation is not required to file Form 7004. The corporation is still required to pay the tax due by the 15th day of the 3rd month after the end of its tax year; however, if it does not, the corporation

must pay the interest on the late payment but **is not subject to** the penalty for late payment of tax described in General Instruction D3.

(2) It may file Form 7004 by the 15th day of the 3rd month after the end of its tax year to obtain a 6-month extension of time to file. However, the 6-month extension that is granted by the timely filing of Form 7004 does not extend the time for payment of the tax. Therefore, if the tax is paid after the 15th day of the 3rd month following the close of the corporation's tax year, the corporation must pay interest on the late payment and **is subject to** the penalty for late payment of tax described in General Instruction D3.

Form 1120F must be filed on a timely basis or else the foreign corporation may be denied the benefit of certain deductions and credits.—A foreign corporation is

generally allowed the deductions and credits listed in Section II, relating to taxable income that is effectively connected with the conduct of a trade or business in the U.S., only if it timely files Form 1120F in a true and accurate manner.

For these purposes, Form 1120F is generally considered to be timely filed if it is filed no later than 18 months after the due date of the current year's return. An exception may apply to foreign corporations that have yet to file Form 1120F for the preceding tax year.

A foreign corporation is allowed the following deductions and credits regardless of whether Form 1120F is timely filed:

- a. The contributions deduction (line 19, Section II, on page 3 of Form 1120F);
 - b. The credit from regulated investment companies (line 6f on page 1 of Form 1120F);
 - c. The credit for Federal tax on fuels (line 6g on page 1 of Form 1120F); and
 - d. U.S. income tax paid or withheld at source (line 6h on page 1 of Form 1120F).
- See Regulations section 1.882-4 for details.

4. Where To File.—File Form 1120F with the Internal Revenue Service Center, Philadelphia, PA 19255.

5. Who Must Sign.—The return must be signed and dated by the president, vice president, treasurer, assistant treasurer, chief accounting officer, or any other corporate officer (such as tax officer) authorized to sign. A receiver, trustee, or assignee must sign and date any return required to be filed on behalf of a corporation.

If a corporate officer filled in Form 1120F, the Paid Preparer's space under "Signature of officer" should remain blank. If someone prepares Form 1120F and does not charge the corporation, that person should not sign the return. Certain others who prepare Form 1120F should not sign the return. For example, a regular, full-time employee of the corporation, such as a clerk, secretary, etc., should not sign.

Generally, anyone who is paid to prepare Form 1120F must sign the return and fill in the other blanks in the Paid Preparer's Use Only area of the return.

The preparer required to sign the return **must** complete the required preparer information and:

- Sign it, by hand, in the space provided for the preparer's signature. (Signature stamps or labels are not acceptable.)
- Give a copy of Form 1120F to the taxpayer in addition to the copy filed with the IRS.

C. Figuring and Paying the Tax

1. Accounting

a. Accounting Methods.—Taxable income must be computed using the method of accounting regularly used in keeping the corporation's books and records. In all cases, the method adopted must clearly reflect taxable income. See section 446.

Generally, corporations engaged in farming operations must use the accrual method of accounting. See section 447 for exceptions.

Generally, corporations (other than qualified personal service corporations) are required to use the accrual method of accounting if their average annual gross receipts are more than \$5 million. See section 448(c). A corporation changing to the accrual method because of this provision must complete **Form 3115, Application for Change in Accounting Method**, and attach it to Form 1120F for the year of change. The corporation must also show on a statement accompanying Form 3115 the period over which the section 481(a) adjustment will be taken into account and the basis for that conclusion. See section 448 and Temporary Regulations sections 1.448-1T(g) and (h) for more information. Include the amount reportable as income in 1991 under section 481(a) on line 10, page 3.

Unless the law specifically permits otherwise, a corporation may change the method of accounting used to report taxable income in earlier years (for income as a whole or for any material item) only by first getting consent on Form 3115. Also see **Pub. 538, Accounting Periods and Methods**.

The percentage of completion method, including the look-back method under section 460(b), is generally the only permissible method of accounting for long-term contracts entered into after July 10, 1989.

Certain contracts, including real property construction contracts, may continue to be accounted for under the permissible methods of accounting for long-term contracts under prior law. However, an election can be made not to recognize income under a long-term contract and not to take into account any costs allocable to the long-term contract if less than 10% of the estimated total contract costs have been incurred as of the end of the tax year. See section 460(b)(5) for more details. An election to use the 10% method will apply to all long-term contracts entered into during the tax year the election is made and to any later tax year.

See section 460; Notice 87-61, 1987-2 C.B. 370; Notice 88-66, 1988-1 C.B. 552; and Notice 89-15, 1989-1 C.B. 634 for more information.

b. Change in Accounting Period.—

Generally, before changing an accounting period, the Commissioner's approval must be obtained (Regulations section 1.442-1) by filing **Form 1128, Application To Adopt, Change, or Retain a Tax Year**. Also see Pub. 538.

(1) Certain Controlled Foreign Corporations and Certain Foreign Personal Holding Companies

The tax year of a "specified foreign corporation" (defined below) is generally required to be the tax year of its "majority U.S. shareholder" (see section 898(c) for details).

A "specified foreign corporation" is any foreign corporation: (i) that is treated as a controlled foreign corporation for any purpose under subpart F (sections 951 through 964) or is a foreign personal holding company (as defined in section 552); and (ii) with respect to which the 50% U.S. ownership requirements of section 898(b)(2) are met.

(2) Foreign Corporations That Are Personal Service Corporations

Personal service corporations, as defined in Temporary Regulations section 1.441-4T (see the instructions for Item M on page 5), must adopt a calendar year unless: (i) the corporation can establish to the satisfaction of the Commissioner that there is a business purpose for having a different tax year, or (ii) the corporation elects under section 444 to have a tax year other than a calendar year.

Personal service corporations that wish to establish a business purpose for having a different tax year should see Rev. Rul. 87-57, 1987-2 C.B. 117, for more information. Also see Rev. Proc. 87-32, 1987-2 C.B. 396, for procedures to use in adopting, retaining, or changing the corporation's tax year. Personal service corporations that wish to adopt or retain a non-calendar tax year must file requests to do so on Form 1128 in accordance with the procedures outlined in Rev. Proc. 87-32.

Personal service corporations that wish to elect under section 444 to have a tax year other than a calendar year must file **Form 8716, Election To Have a Tax Year Other Than a Required Tax Year**. Generally, Form 8716 must be filed by the earlier of: (1) the 15th day of the 5th month following the month that includes the 1st day of the tax year for which the election will be effective, or (2) the due date (not including extensions) of the income tax return resulting from the section 444 election.

Electing corporations are subject to minimum distribution requirements under section 280H(c) for each year the election is in effect. If the corporation fails to make the required minimum distributions, the deduction allowable for certain amounts paid to employee-owners is limited to a maximum deductible amount under section 280H(d). Amounts not allowed as a deduction for the tax year are carried over to the following tax year. Complete **Schedule H (Form 8716), Section 280H Limitations for a Personal Service Corporation (PSC)**, to figure the required minimum distributions and the maximum deductible amount, if applicable.

2. Rounding Off to Whole-Dollars

The corporation may show the money items on the return and accompanying schedules as whole-dollar amounts. To do so, drop any amount less than 50 cents and increase any amount from 50 cents through 99 cents to the next higher dollar.

3. Payment of Tax Due

The requirements for payment of tax depend on whether the foreign corporation has an office or place of business in the U.S.

a. Foreign corporations that **do not** maintain an office or place of business in the U.S. must pay the tax due in full when they file their tax return, but not later than the 15th day of the 6th month after the end of the tax year.

The tax must be paid directly to the IRS (i.e., do not use the depository method of tax payment described in 3b below). The tax may be paid by check or money order, payable to the Internal Revenue Service. To help ensure proper crediting to your account, write your employer identification number, "Form 1120F," and the tax period to which the payment applies on your check or money order. Enclose the payment when you file Form 1120F with the Internal Revenue Service Center, Philadelphia, PA 19255.

b. Foreign corporations that **do** maintain an office or place of business in the U.S. must pay the tax due in full when they file their tax return, but not later than the 15th day of the 3rd month after the end of the tax year.

The tax must be paid using the depository method of tax payment. Under this method, the corporation deposits its income tax payments (and estimated tax payments) with a Federal Tax Deposit Coupon (**Form 8109**). In doing so, do not submit deposits directly to an IRS office. Mail or deliver the completed Federal Tax Deposit Coupon (Form 8109) and the payment to a qualified depository for Federal taxes or to the Federal Reserve Bank (**FRB**) servicing your geographic area. Make checks or money orders payable to that depository or FRB. To help ensure proper crediting to your account, write your employer identification number, "Form 1120F," and the tax period to which the deposit applies on your check or money order. Be sure to darken the "1120" box on the coupon. Records of deposits will be sent to the IRS for crediting to the foreign corporation's account.

A penalty may be imposed for failure to deposit the required amount of tax. See section 6656. This penalty may also apply if you mail or deliver deposits to IRS offices rather than to authorized depositories or FRBs.

For more information about deposits, see the instructions contained in the coupon book (Form 8109) and **Pub. 583**, Taxpayers Starting a Business.

4. Backup Withholding

If the corporation has had income tax withheld from any payments it received because, for example, it failed to give the payer its correct employer identification number, it may claim a credit on Form 1120F for the total amount withheld. This type of withholding is called "backup withholding." Show the amount withheld in the blank space in the righthand column between lines 5 and 6i, page 1, and label the amount as "backup withholding." Also include the amount in the total for line 6i. **Note:** "Backup withholding" does not include amounts reportable on line 6h for taxes paid or withheld at source.

5. Estimated Tax Payments

Generally, a foreign corporation must make installment payments of estimated tax if it expects its "estimated tax" (as defined in Regulations section 1.882-1(e)) to be \$500 or more. For a calendar or fiscal year corporation, the installments are due by the 15th day of the 4th, 6th, 9th, and 12th months of the tax year. If any date falls on a Saturday, Sunday, or legal holiday, substitute the next regular workday. Use **Form 1120-W**, Corporation Estimated Tax, as a worksheet to compute estimated tax. Foreign corporations that maintain an office or place of business in the U.S. must use the deposit coupons (Forms 8109) in making deposits of estimated tax.

If the corporation overpaid estimated tax, it may be able to get a "quick refund" by filing **Form 4466**, Corporation Application for Quick Refund of Overpayment of Estimated Tax. The overpayment must be at least 10% of expected income tax liability and at least \$500. To apply for a quick refund, file Form 4466 before the 16th day of the 3rd month after the end of the tax year, but before Form 1120F is filed. Do not file Form 4466 before the end of the corporation's tax year.

6. Timing Change in Deducting Accrued Expenses

Generally, an accrual basis taxpayer can deduct accrued expenses in the tax year that all events have occurred that determine the liability, and the amount of the liability can be figured with reasonable accuracy. However, generally all the events that establish liability for the amount are treated as occurring only when economic performance takes place. There are exceptions for recurring items. See section 461(h).

D. Interest and Penalties

1. Interest.—Interest is charged on taxes not paid by the due date, even if an extension of time to file is granted. Interest is also charged on penalties imposed for failure to file, negligence, fraud, gross valuation overstatements, and substantial understatements of tax from the due date (including extensions) to the date of payment. The interest charge is figured at a rate determined under section 6621.

2. Penalty for Late Filing of Return.—A corporation that fails to file its return when due (including any extensions of time for filing) may be subject to a penalty of 5% of the unpaid tax for each month or part of a month the return is late, up to a maximum of 25% of the unpaid tax. The minimum penalty for a return that is more than 60 days late is the smaller of the tax due or \$100. The penalty will not be imposed if the taxpayer can show that failure to file a timely tax return is due to reasonable cause. Those filing late (after the due date, including extensions), must attach to the return a statement explaining the reasonable cause.

3. Penalty for Late Payment of Tax.—The penalty for late payment of taxes is usually $\frac{1}{2}$ of 1% of the unpaid tax for each month or part of a month the tax is unpaid. The penalty cannot exceed 25% of the amount due. This penalty may also apply to any additional tax not paid within 10 days of the date of the notice and demand for payment.

4. Penalty for Underpayment of Estimated Tax.

—A corporation that fails to make estimated tax payments when due may be subject to an underpayment penalty for the period of underpayment. In general, to avoid the estimated tax penalty, the corporation must make estimated tax payments of at least the smaller of 90% of the tax shown on the return or 100% of its prior year's tax. See section 6655 for details and exceptions.

Form 2220, Underpayment of Estimated Tax by Corporations, is used to see if the corporation owes a penalty and to figure the amount of the penalty. Generally, the corporation does not have to file this form because the IRS can figure the amount of any penalty and bill the corporation for it. However, you must complete and attach Form 2220 even if the corporation does not owe the penalty if: (a) the annualized income or adjusted seasonal installment method is used, or (b) the corporation is a "large corporation" computing its first required installment based on the prior year's tax. (See the Instructions for Form 2220 for the definition of a "large corporation.")

If you attach Form 2220, be sure to check the box on line 7, page 1, Form 1120F and enter the amount of any penalty on that line.

5. Other Penalties.—Other penalties can be imposed for negligence, substantial understatement of tax, and fraud. See sections 6662 and 6663.

E. Other Forms, Returns, Schedules, and Statements That May Be Required

1. Forms, Returns, and Schedules

Form 5471.—Information Return of U.S. Persons With Respect To Certain Foreign Corporations. This form is filed by certain officers, directors, or U.S. shareholders of foreign corporations.

Form 5472.—Information Return of a Foreign-Owned U.S. Corporation or a Foreign Corporation Engaged in a U.S. Trade or Business. This form is filed by a foreign corporation engaged in a U.S. trade or business that had certain reportable transactions with a related party. See section 6038A and the related regulations, section 6038C, and the instructions for Form 5472 for additional information.

Form 720.—Quarterly Federal Excise Tax Return. This form is used to report a 10% excise tax that applies to the first retail sale of the following items sold after December 31, 1990, to the extent the sales price exceeds the amounts shown: (1) passenger vehicles, \$30,000; (2) boats and yachts, \$100,000; (3) aircraft, \$250,000; and (4) jewelry and furs, \$10,000. Form 720 is also used to report environmental excise taxes, communications and air transportation taxes, fuel taxes, manufacturers taxes, ship passenger tax, and certain other excise taxes.

Forms 1042 and 1042S.—Annual Withholding Tax Return for U.S. Source Income of Foreign Persons; and Foreign Person's U.S. Source Income Subject to Withholding. These forms are used to report and transmit withheld tax on payments or distributions made to nonresident alien individuals, foreign partnerships, or foreign corporations, to the extent such payments or distributions constitute gross income from sources within

the U.S. (see sections 861 through 865). For more information, see sections 1441 and 1442, and **Pub. 515**, Withholding of Tax on Nonresident Aliens and Foreign Corporations.

Form 1096.—Annual Summary and Transmittal of U.S. Information Returns.

Form 1098.—Mortgage Interest Statement. This form is used to report the receipt from any individual of \$600 or more of mortgage interest and points in the course of the corporation's trade or business for any calendar year.

Forms 1099-A, B, DIV, INT, MISC, R, and S.—These are some of the information returns that must be filed to report certain payments, such as dividends and interest. For more information, see the **Instructions for Forms 1099, 1098, 5498, and W-2G** and **Pub. 937**, Business Reporting.

Form 5713.—International Boycott Report. This form is filed by persons having operations in or related to "boycotting" countries. In addition, persons who participate in or cooperate with an international boycott may have to complete Schedule A or Schedule B and Schedule C of Form 5713 to compute their loss of the following items: the foreign tax credit, the deferral of earnings of a controlled foreign corporation, DISC benefits, and FSC benefits.

Form 8264.—Application for Registration of a Tax Shelter. This form is used by tax shelter organizers to register tax shelters with the IRS for the purpose of receiving a tax shelter registration number.

Form 8271.—Investor Reporting of Tax Shelter Registration Number. This form is used by taxpayers who have acquired an interest in a tax shelter, which is required to be registered, to report the tax shelter's registration number. Form 8271 must be attached to any tax return (including an application for tentative refund (Form 1139) and an amended return) on which a deduction, credit, loss, or other tax benefit attributable to a tax shelter is taken or any income attributable to a tax shelter is reported.

Form 8300.—Report of Cash Payments Over \$10,000 Received in a Trade or Business. Generally, this form is used to report the receipt of more than \$10,000 in cash or foreign currency in one transaction or in a series of related transactions.

Form 8594.—Asset Acquisition Statement. This form is filed by both the purchaser and seller of a group of assets constituting a trade or business if goodwill or a going concern value attaches, or could attach, to such assets and if the purchaser's basis in the assets is determined only by the amount paid for the assets.

Form 8621.—Return by a Shareholder of a Passive Foreign Investment Company or Qualified Electing Fund. This form is used by a corporation that was a shareholder in a passive foreign investment company (as defined in section 1296) at any time during the tax year.

Form 8697.—Interest Computation Under the Look-Back Method for Completed Long-Term Contracts. This form is used to figure the interest due or to be refunded under the look-back method of section 460(b)(2) on certain long-term contracts entered into after February 28, 1986, that are accounted for

under either the percentage of completion-capitalized cost method or the percentage of completion method.

The look-back method also applies to the new 10% method for long-term contracts entered into after July 10, 1989, and accounted for under the percentage of completion method. Attach Form 8697 to the tax return if the corporation owes interest but not if interest is to be refunded. See the instructions for Form 8697.

Form 8810.—Corporate Passive Activity Loss and Credit Limitations. Closely held corporations and personal service corporations, which are subject to the passive activity limitations of section 469, use this form to compute their allowable passive activity loss and credit.

Schedule PH (Form 1120).—U.S. Personal Holding Company Tax. See General Instruction H.

2. Statements

Transfers to a corporation controlled by the transferor.—If a person receives stock of a corporation in exchange for property, and no gain or loss is recognized under section 351, the person (transferor) and the transferee must attach to their respective tax returns the information required by Regulations section 1.351-3.

Statements in lieu of schedules.—If the foreign corporation has no gross income for the tax year, do not complete the Form 1120F schedules. Instead, attach a statement to the return showing the types and amounts of income excluded from gross income.

3. Attachments

Attach **Form 4136**, Credit for Federal Tax on Fuels, after page 6, Form 1120F. Attach schedules in alphabetical order and other forms in numerical order after Form 4136.

Please complete every applicable entry space on Form 1120F. **Do not** attach statements and write "See attached" in lieu of completing the entry spaces on Form 1120F.

If more space is needed on the forms or schedules, attach separate sheets and indicate at the top of each attachment the form number or schedule letter of the form or schedule being completed. Also, show the same information called for on the form in the same order as on the printed forms. **Be sure to show totals on the printed forms.** Please use sheets that are the same size as the forms and schedules. Attach these separate sheets after all the schedules and forms. Also, put the corporation's name and employer identification number (**EIN**) on each sheet.

F. Claim for Refund

If a foreign corporation has only income that is not effectively connected with the conduct of a trade or business in the U.S. and Form 1120F is being used as a claim for refund, include all income from sources in the U.S. even though all tax on it was paid at the source.

If the refund results from tax that was withheld at the source, attach a statement to Form 1120F. The statement should show:

- The amounts of tax withheld;
- The names and post office addresses of withholding agents;

- The name in which the tax was withheld, if different from the taxpayer's name; and

- If applicable, enough information to show that the taxpayer was entitled to a reduced tax rate under a treaty.

G. Special Rules for Foreign Corporations

1. Source Rules

a. Source Rules for Personal Property

Income from sales of personal property by a foreign corporation will generally be foreign source income. However, see sections 865(b), (c), and (d) for exceptions for inventory, depreciable personal property, and intangibles. If the foreign corporation has an office or fixed place of business in the U.S., see section 865(e) for special rules for sales of personal property attributable to such office or fixed place of business. See section 988 for rules for determining the source of income from certain foreign currency transactions.

b. Source Rules for Interest Income and Dividend Income Received From Certain Domestic Persons

Interest income received by a foreign corporation from a domestic corporation or a resident alien individual will be considered to be foreign source income if it is shown to the satisfaction of the Commissioner that 80% or more of the domestic corporation's (or resident alien individual's) income is "active foreign business income" (defined below) during the "testing period" (also defined below).

Active foreign business income is income that is derived from sources outside the U.S. and that is attributable to the active conduct of a trade or business in a foreign country or U.S. possession.

The testing period is the 3-year period ending with the close of the tax year of the domestic corporation or resident alien individual preceding the payment. If the domestic corporation or resident alien individual had no gross income during the 3-year period, the testing period is the tax year during which payment is made.

Dividend income received by a foreign corporation from a domestic corporation will be considered to be foreign source income if it is shown to the satisfaction of the Commissioner that 80% or more of the domestic corporation's income is active foreign business income during the 3-year testing period described above.

2. Special Rules for Determining Whether Certain Types of Income Are Effectively Connected With the Conduct of a Trade or Business in the U.S.

a. Treatment of Certain Deferred Payments, Etc.

Any current year income or gain of a foreign corporation that is attributable to a sale or exchange of property or the performance of services (or any other transaction) in any other tax year, is treated as income effectively connected with the conduct of a trade or business in the U.S. for the current tax year if the current year income or gain would have been income effectively connected with the conduct of a trade or

business in the U.S. in that other tax year. (See section 864(c)(6).)

b. Income or Gain From Certain Property Transactions

Any current year income or gain of a foreign corporation from the disposition of property that had ceased to be used or held for use in connection with the conduct of a trade or business in the U.S. within the 10-year period before the disposition of property is treated as income effectively connected with the conduct of a trade or business in the U.S. for the current tax year (regardless of whether the corporation is engaged in a trade or business in the U.S. during the current tax year) if the current year income or gain would have been income effectively connected with the conduct of a trade or business in the U.S. immediately before such property ceased to be used or held for use in connection with the conduct of a trade or business in the U.S. (See section 864(c)(7).)

c. Election To Treat Real Property Income as Income Effectively Connected With the Conduct of a Trade or Business in the U.S.

If a foreign corporation has income from real property in the U.S. or from an interest in such property, the corporation may elect to treat the income as effectively connected with the conduct of a trade or business in the United States. Income affected by this election includes:

- Gains from the sale or exchange of real property or an interest therein;
- Rents or royalties from mines, wells, or other natural deposits; and
- Gain described in sections 631(b) or (c).

The election may be made whether or not the corporation is engaged in a trade or business in the U.S. during the tax year for which the election is made or whether or not the corporation has income from real property that, for the tax year, is effectively connected with the conduct of a trade or business in the U.S.

To make the election, attach a statement that includes the information required in Regulations section 1.871-10(d)(1)(ii) to Form 1120F for the first tax year for which the election is to apply. Use Section II to figure the tax on this income.

d. Disposition of U.S. Real Property Interest by a Foreign Corporation

A foreign corporation that disposes of a "U.S. real property interest" (see section 897(c) for definition) must treat the gain or loss from the disposition as income that is effectively connected with the conduct of a trade or business in the U.S., even if the corporation is not otherwise engaged in a U.S. trade or business. This income must be reported in Section II of Form 1120F and must be reflected on **Schedule D (Form 1120)**, Capital Gains and Losses.

Example

Foreign corporation X disposes of a U.S. real property interest on May 15, 1991, and receives \$50,000 for it. X purchased the real property interest on June 20, 1986. X's basis in the property is \$20,000 and the cost of selling the property is \$3,000.

Foreign corporation X would report the sale of its real property interest as follows:

a. It would enter a description of the property in column (a), Part II, Schedule D (Form 1120);

b. It would enter "6/20/86" (date property was acquired) in column (b);

c. It would enter "5/15/91" (date property was sold) in column (c);

d. It would enter "\$50,000" (gross amount received from the sale) in column (d);

e. It would enter "\$23,000" (sum of its basis in the property and the cost of sale) in column (e);

f. It would enter "\$27,000" (gross sales price for the property of \$50,000 minus its basis in the property of \$20,000 and its costs of sale of \$3,000) in column (f);

g. It would then carry the \$27,000 gain to line 8, page 3, Form 1120F.

See Temporary Regulations section 1.897-5T for the applicability of section 897 to reorganizations and liquidations.

If the corporation had income tax withheld on **Form 8288-A**, Statement of Withholding on Dispositions by Foreign Persons of U.S. Real Property Interests, include the amount withheld as part of line 6h, page 1.

3. Other Special Rules

a. Basis of Property and Inventory Costs for Property Imported by a Related Person

If property is imported into the U.S. by a related person in a transaction and the property has a customs value, the basis or inventory cost to the importer cannot exceed the customs value. For more information, see section 1059A.

b. Income of Foreign Governments and International Organizations

Income of foreign governments and international organizations from the following sources is generally not subject to taxation: (1) investments in the U.S. in stocks, bonds, or other domestic securities owned by such foreign government or international organization; (2) interest on deposits in banks in the U.S. of moneys belonging to such foreign government or international organization; or (3) investments in the U.S. in financial instruments held (by a foreign government) in the execution of governmental financial or monetary policy. However, the types of income described in section 892(a)(2) that are "received" directly or indirectly from commercial activities **are** subject to tax. (They are also subject to withholding.)

H. Filing Requirements of Foreign Personal Holding Companies and Personal Holding Companies

If the corporation is a "foreign personal holding company" (as defined in section 552), Regulations section 1.551-4 requires certain shareholders of the corporation to attach a statement to their personal returns containing the information required by section 551(c). Furthermore, section 6035 (and the related regulations) requires certain officers, directors, and shareholders of a foreign personal holding company to file **Schedule N (Form 5471)** and the appropriate schedules of Form 5471 (see the **Instructions for Form 5471** for additional information).

If the corporation is a "personal holding company" (as defined in section 542) but **not** a foreign personal holding company, it must file Schedule PH (Form 1120) with Form 1120F and it must report the personal holding company tax on line 4, page 1, Form 1120F. See section 542 and Schedule PH (Form 1120) for details.

Specific Instructions

Period covered.—File the 1991 return for calendar year 1991 and fiscal years that begin in 1991 and end in 1992. For a fiscal year, fill in the tax year space at the top of the form.

Note: *The 1991 Form 1120F may also be used if: (1) the corporation has a tax year of less than 12 months that begins and ends in 1992; and (2) the 1992 Form 1120F is not available by the time the corporation is required to file its return. However, the corporation must show its 1992 tax year on the 1991 Form 1120F and incorporate any tax law changes that are effective for tax years beginning after December 31, 1991.*

Address.—Enter the location of the books and records used in the preparation of the return. For foreign corporations engaged in a trade or business in the U.S., this will generally be a U.S. address. Include the suite, room, or other unit number after the street address.

If the Post Office does not deliver mail to the street address and the corporation has a P.O. box, show the P.O. box number instead of the street address.

If the corporation's address has changed from the last time Form 1120F was filed, check the box at the top of page 1.

Note: *If a change in address occurs after the return is filed, the foreign corporation can use **Form 8822, Change of Address**, to notify the IRS of the new address.*

Item M. Personal service corporation.—A "personal service corporation" is a corporation whose principal activity during the testing period for the tax year is the performance of personal services that are substantially performed by employee-owners who own more than 10% of the fair market value of the corporation's outstanding stock as of the last day of the testing period for the tax year.

The testing period for a tax year is the tax year preceding such tax year, except for a new corporation. The testing period for a new corporation (one in its first tax year) is the period beginning on the first day of its first tax year and ending on the earlier of the last day of its first tax year or the last day of the calendar year in which the first tax year began.

Activities of the taxpayer that are treated as the performance of personal services are limited to activities of the taxpayer that involve the performance of services in the fields of health, law, engineering, architecture, accounting, actuarial science, performing arts, or consulting (as such fields are defined in Temporary Regulations section 1.448-1T(e)).

Personal services are substantially performed by employee-owners if more than 20% of the corporation's compensation cost for the testing period attributable to the performance of personal services is

attributable to personal services performed by employee-owners.

A person is considered to be an employee-owner if the person is an employee of the corporation on any day of the testing period and owns any outstanding stock of the corporation on any day of the testing period. Stock ownership is determined under the attribution rules of section 318 (except that "any" is substituted for "50%" in section 318(a)(2)(C)).

For more information, see Temporary Regulations section 1.441-4T.

Section I.—Certain Gains, Profits, and Income From U.S. Sources That Are NOT Effectively Connected With the Conduct of a Trade or Business in the U.S.

Include in Section I the following types of U.S. source **gross** income (i.e., no deductions are allowed), but only to the extent such income received is **not** effectively connected with the conduct of a trade or business in the U.S. (see the first "note" under the specific instructions for Section II):

1. Interest (other than original issue discount (**OID**) as defined in section 1273), dividends, rents, royalties, salaries, wages, premiums, annuities, compensation, and other fixed or determinable annual or periodic gains, profits, and income. Certain portfolio interest is not taxable for obligations issued after July 18, 1984. See section 881(c) for more details.

2. Gains described in section 631(b) or (c), relating to disposal of timber, coal, or domestic iron ore with a retained economic interest.

3. On a sale or exchange of an OID obligation, the amount of OID accruing while the obligation was held by the foreign corporation, unless the amount was taken into account on a payment.

4. On a payment received on an OID obligation, the amount of OID accruing while the obligation was held by the foreign corporation, to the extent such OID was not previously taken into account and to the extent that the tax imposed on the OID does not exceed the payment received less the tax imposed on any interest included in the payment received. This rule applies to payments received with respect to OID obligations issued after March 31, 1972.

Certain OID is not taxable for OID obligations issued after July 18, 1984. See section 881(c) for more details.

For rules that apply to other OID obligations, see Pub. 515.

5. Gains from the sale or exchange of patents, copyrights, and other intangible property to the extent the gains are from payments that are contingent on the productivity, use, or disposition of the property or interest sold or exchanged.

For more information, see section 881(a).

Note: A corporation created or organized in Guam, American Samoa, the Northern Mariana Islands, or the Virgin Islands will not be treated as a foreign corporation for purposes of determining whether its income is

taxable under section 881(a) if it meets the rules of section 881(b).

Line 9. Gross Transportation Tax.—A tax of 4% is imposed on a foreign corporation's "U.S. source gross transportation income" for the tax year. "U.S. source gross transportation income" is generally any gross income that is "transportation income" (defined below) to the extent such income is treated as from sources in the U.S. (as explained below). However, the term U.S. source gross transportation income does not include income that is effectively connected with the conduct of a trade or business in the U.S. (as explained below) or income that is taxable in a possession of the United States under the provisions of the Internal Revenue Code as applied to that possession.

"Transportation income" is any income derived from, or in connection with: (a) the use (or hiring or leasing for use) of a vessel or aircraft, or (b) the performance of services directly related to the use of a vessel or aircraft. For purposes of the preceding sentence, the term "vessel or aircraft" includes any container used in connection with a vessel or aircraft.

Generally, 50% of all transportation income that is attributable to transportation that either begins or ends in the U.S. is treated as from sources in the U.S. However, see section 863(c)(2)(B) for a special rule for personal service income.

Transportation income of the corporation will not be treated as income that is effectively connected with the conduct of a trade or business in the U.S. unless: (a) the corporation has a fixed place of business in the U.S. involved in the earning of transportation income, and (b) substantially all of the corporation's U.S. source gross transportation income (determined without regard to the rule that such income does not include income that is effectively connected with the conduct of a U.S. trade or business) is attributable to regularly scheduled transportation (or, in the case of income from the leasing of a vessel or aircraft, is attributable to a fixed place of business in the U.S.). For more information, see section 887.

Enter the foreign corporation's U.S. source gross transportation income on line 9, column (b). Also, attach a statement to Form 1120F showing the dates the vessels or aircraft entered or left the U.S. and the amount of gross income for each trip.

Section II.—Income Effectively Connected With the Conduct of a Trade or Business in the U.S.

Foreign corporations engaged in a trade or business in the U.S. are taxed at regular corporate rates on all of the following income:

1. Income, gain, or loss from U.S. sources derived in the conduct of the trade or business.

2. The types of foreign source income described in sections 864(c)(4)(B) and (C) subject to the exceptions described in section 864(c)(4)(D).

3. The types of U.S. source income listed in the specific instructions for Section I or gain or loss from U.S. sources from the sale or exchange of capital assets—to the extent one or both of the following tests are met:

a. Asset-use test.—The income, gain, or loss is derived from assets used in, or held for use in, the conduct of the U.S. trade or business; or

b. Business-activities test.—The activities of the trade or business conducted in the U.S. were a material factor in the realization of the income, gain, or loss.

Note: If neither the asset-use test nor the business-activities test is met, the income is to be reported in Section I (and as such, no deductions are allowed against it). If either test is met, the income is to be reported in Section II, net of allowable deductions.

For more information, see section 864(c)(2) and Regulations section 1.864-4(c), and the examples therein.

Gains on disposition of stock in a DISC or former DISC and distributions from accumulated DISC income, including deemed distributions, are treated as derived from a trade or business conducted through a permanent establishment in the U.S.

A foreign corporation not engaged in a trade or business in the U.S. will not report income in Section II unless it:

- Has current year income or gain that is attributable to a sale or exchange of property or the performance of services (or any other transaction) in any other tax year and that would have been income effectively connected with the conduct of a trade or business in the U.S. in that other tax year (see General Instruction G2a);

- Has current year income or gain from the disposition of property that had ceased to be used or held for use in connection with the conduct of a trade or business in the U.S. within the 10-year period before the disposition of property and that would have been income effectively connected with the conduct of a trade or business in the U.S. immediately before such cessation (see General Instruction G2b);

- Elects to treat real property income as effectively connected income (see General Instruction G2c);

- Was created or organized and is carrying on a banking business in a U.S. possession, and receives interest on U.S. obligations (in which case, the interest is treated as effectively connected income); or

- Has gain or loss from the disposition of a U.S. real property interest (see General Instruction G2d).

Income

Line 1

Enter gross income that is effectively connected with the conduct of a trade or business in the U.S. except those income items that must be reported on lines 4 through 10. For reporting advance payments, see Regulations section 1.451-5. To report income from long-term contracts, see section 460.

Generally, the installment method cannot be used for dealer dispositions of property. See section 453(l) for details and exceptions. For dealer dispositions of property before March 1, 1986, dispositions of property used or produced in the trade or business of farming, and certain dispositions of timeshares and residential lots reported under the installment method, enter on line 1 the

gross profit on collections from installment sales and carry the same amount to line 3. Attach a schedule showing the following for the current year and the 3 preceding years: (a) gross sales, (b) cost of goods sold, (c) gross profits, (d) percentage of gross profits to gross sales, (e) amount collected, and (f) gross profit on amount collected. For sales of timeshares and residential lots reported under the installment method, the corporation's income tax is increased by the interest payable under section 453(l)(3). To report this addition to the tax, see the instructions for line 9, Schedule J.

Accrual basis taxpayers need not accrue certain amounts to be received from the performance of services that, on the basis of their experience, will not be collected (section 448(d)(5)). This provision does not apply to any amount if interest is required to be paid on that amount or if there is any penalty for failure to timely pay that amount. Corporations to which this provision applies should attach a schedule showing total gross receipts, the amount not accrued as a result of the application of section 448(d)(5), and the net amount accrued. Enter the net amount on line 1a. For more information and guidelines on this "non-accrual experience method," see Temporary Regulations section 1.448-2T.

Line 2. Cost of goods sold.—See instructions for Schedule A.

Line 4. Dividends.—See instructions for Schedule C.

Line 5. Interest.—Enter taxable interest on U.S. obligations and loans, notes, mortgages, bonds, bank deposits, corporate bonds, tax refunds, etc.

Do not offset interest expense against interest income.

Line 6. Gross rents.—Enter the gross amount received for the rent of property. Deduct expenses such as repairs, interest, taxes, and depreciation on the proper lines for deductions. A rental activity held by a closely-held corporation or a personal service corporation may be subject to the passive activity loss rules. See Form 8810 and the related instructions.

Line 8. Capital gain net income.—Every sale or exchange of a capital asset must be reported in detail on **Schedule D (Form 1120)**, Capital Gains and Losses, even though no gain or loss is indicated. For purposes of computing the adjustments to the accumulated earnings tax under section 535(b)(6), foreign corporations must only include capital gains and losses that are effectively connected with a trade or business in the U.S.

Line 9. Net gain or (loss).—Enter the net gain or (loss) from line 18, Part II, **Form 4797**, Sales of Business Property.

Line 10. Other income.—Enter any other taxable income not listed above, and explain its nature on an attached schedule. Examples of other income are: any adjustment under section 481(a) required to be included in income during the current tax year due to a change in a method of accounting; recoveries of bad debts deducted in prior years under the specific charge-off method; the amount of credit for alcohol used as fuel (determined without regard to the limitation based on tax) that was entered on **Form 6478**, Credit for Alcohol Used as Fuel; and refunds of taxes

deducted in prior years to the extent they reduced income subject to tax in the year deducted (see section 111). Do not offset current year taxes with tax refunds.

If "other income" consists of only one item, describe it in parentheses on line 10.

Deductions

In computing the taxable income of a foreign corporation engaged in a trade or business in the U.S., deductions are allowed only to the extent they are connected with income that is effectively connected with the conduct of a trade or business in the United States. Charitable contributions, however, may be deducted whether or not they are so connected. See section 882(c) and Regulations section 1.882-4(b) for more information.

Apportionment of Expenses

Expenses that are directly related to a class of gross income (including tax-exempt income) must be allocated to that class of gross income. Expenses, not directly related to a class of gross income, should be allocated to all classes of income on the basis of gross income in each class of income to total gross income, or some other ratio that clearly relates to the classes of income.

Attach a schedule to Form 1120F showing classes of gross income and expenses directly allocable to each class of gross income. For expenses that are not directly allocable to a class of gross income, show the computation of the expense to each class of gross income.

Limitations on Deductions

1. Section 263A Uniform Capitalization

Rules.—The uniform capitalization rules of section 263A require corporations to capitalize or include in inventory certain costs incurred in connection with the production of real and personal tangible property held in inventory or held for sale in the ordinary course of business. Tangible personal property produced by a taxpayer includes a film, sound recording, video tape, book, or similar property. The rules also apply to personal property (tangible and intangible) acquired for resale. Taxpayers subject to these rules are required to capitalize not only direct costs but an allocable portion of most indirect costs (including taxes) that relate to the assets produced or acquired for resale. Interest expense paid or incurred during the production period must be capitalized and is governed by special rules. For more information, see Notice 88-99, 1988-2 C.B. 422. The uniform capitalization rules also apply to the production of property constructed or improved by a taxpayer for use in its trade or business or in an activity engaged in for profit.

Section 263A does not apply to personal property acquired for resale if the taxpayer's annual average gross receipts are \$10 million or less. It does not apply to timber or to most property produced under a long-term contract. Special rules apply for farmers. The rules do not apply to property that is produced for use by the taxpayer if substantial construction occurred before March 1, 1986.

In the case of inventory, some of the indirect costs that must be capitalized are:

administration expenses; taxes; depreciation; insurance; compensation paid to officers attributable to services; rework labor; and contributions to pension, stock bonus, and certain profit-sharing, annuity, or deferred compensation plans.

The costs that must be capitalized under section 263A are not deductible until the property to which the costs relate is sold, used, or otherwise disposed of by the corporation.

Current deductions may still be claimed for reasonable research and experimental costs under section 174, intangible drilling costs for oil and gas and geothermal property, and mining and exploration and development costs incurred in the conduct of a trade or business in the United States. Temporary Regulations section 1.263A-1T specifies other indirect costs that may be currently deducted and those that must be capitalized with respect to production or resale activities. For more information, see Temporary Regulations section 1.263A-1T.

2. Transactions between related

taxpayers.—Generally, an accrual basis taxpayer may only deduct business expenses and interest owed to a related party in the year the payment is included in the income of the related party. See sections 163(j) and 267 for limitation on deductions for unpaid expenses and interest.

3. Section 291 limitations.—Corporations may be required to adjust deductions for depletion of iron ore and coal, intangible drilling and exploration and development costs, certain deductions for financial institutions, and the amortizable basis of pollution control facilities. See section 291 to determine the amount of adjustment. Also see section 43.

4. Golden parachute payments.—A portion of the payments made by a corporation to key personnel that exceeds their usual compensation may not be deductible. This occurs when the corporation has an agreement (golden parachute) with these key employees to pay them these excessive amounts if control of the corporation changes. See section 280G.

5. Business startup expenses.—Business startup expenses are required to be capitalized unless an election is made to amortize them over a period of 60 months. See section 195.

6. Passive activity limitations.—Limitations on passive activity losses and credits under section 469 apply to closely held corporations (defined below) and personal service corporations as defined in Temporary Regulations section 1.441-4T (see the instructions for Item M on page 5). A corporation is a closely held corporation for this purpose if at any time during the last half of the tax year more than 50% in value of its outstanding stock is owned, directly or indirectly, by or for not more than five individuals, and the corporation is not a personal service corporation. Certain organizations are treated as individuals for purposes of this test. (See section 542(a)(2).) For rules of determining stock ownership, see section 544 (as modified by section 465(a)(3)).

There are two kinds of passive activities: trade or business activities in which the corporation did not materially participate for the tax year, and rental activities regardless

of its participation. An activity is a trade or business activity if the activity involves the conduct of a trade or business (i.e., deductions from the activity would be allowable under section 162 if other limitations, such as the passive loss rules, did not apply), or the activity involves research or experimental expenditures that are deductible under section 174 (or would be deductible if the corporation chose to deduct rather than capitalize them), and the activity is not a rental activity. Temporary Regulations section 1.469-1T(g)(3) defines material participation of corporations.

Corporations subject to the passive activity limitations must complete **Form 8810**, Corporate Passive Activity Loss and Credit Limitations, to compute their allowable passive activity loss and credit. Before completing Form 8810, see Temporary Regulations section 1.163-8T, which provides rules for allocating interest expense among activities. If a passive activity is also subject to the at-risk rules of section 465, the at-risk rules apply before the passive loss rules. For more information, see section 469, the temporary regulations thereunder, and **Pub. 925**, Passive Activity and At-Risk Rules.

Line 12. Compensation of officers.—Besides entering deductible officers' compensation on line 12, complete Schedule E on page 4 if total receipts (line 1a, plus lines 4 through 10, page 3, Form 1120F) are \$500,000 or more. Do not include compensation claimed elsewhere on the return, such as amounts included in cost of goods sold, elective contributions to a section 401(k) cash or deferred arrangement, or amounts contributed under a salary reduction SEP agreement.

Complete Schedule E, line 1, columns (a) through (f), for all officers. The corporation determines who is an officer under the laws where incorporated.

In a consolidated return, each member of an affiliated group must furnish this information.

Line 13. Salaries and wages.—Enter on line 13a the amount of total salaries and wages paid or incurred for the tax year. Do not include salaries and wages deductible elsewhere on the return, such as amounts included in cost of goods sold, elective contributions to a section 401(k) cash or deferred arrangement, or amounts contributed under a salary reduction SEP agreement.

Caution: *If the corporation provided taxable fringe benefits to its employees, such as personal use of a car, do not deduct as wages the amount allocated for depreciation and other expenses claimed on lines 20 and 27.*

Enter on line 13b the amount of jobs credit from **Form 5884**, Jobs Credit.

Line 14. Repairs.—Enter the cost of incidental repairs not claimed elsewhere on the return, such as labor and supplies, that do not add to the value of the property or appreciably prolong its life.

Line 15. Bad debts.—Enter the total debts that became worthless in whole or in part during the tax year. A small bank or thrift institution using the reserve method should attach a schedule showing how it arrived at the current year's provision.

Caution: *A cash basis taxpayer may not claim a bad debt deduction unless the amount was previously included in income.*

Line 16. Rents.—If the corporation rented or leased a vehicle, enter the total annual rent or lease expense paid or incurred during the year. Also complete Part V of **Form 4562**, Depreciation and Amortization. If the corporation leased a vehicle for a term of 30 days or more, the deduction for vehicle lease expense may have to be reduced by the "inclusion amount." You may have an inclusion amount if:

The lease term began:	And the vehicle's fair market value on the first day of the lease exceeded:
After 12/31/90	\$13,400
After 12/31/86 but before 1/1/91	\$12,800
After 4/2/85 but before 1/1/87	\$28,000
After 6/18/84 but before 4/3/85	\$40,500

See **Pub. 917**, Business Use of a Car, for instructions on how to figure the inclusion amount.

Line 17. Taxes.—Enter taxes paid or accrued during the tax year, but do not include the following:

1. Federal income taxes (except the environmental tax under section 59A);
2. Foreign or U.S. possession income taxes if a tax credit is claimed;
3. Taxes not imposed on the corporation; or
4. Taxes, including state or local sales taxes, that are paid or incurred in connection with an acquisition or disposition of property (such taxes must be treated as a part of the cost of the acquired property or, in the case of a disposition, as a reduction in the amount realized on the disposition).

See section 164(d) for apportionment of taxes on real property between seller and purchaser.

If the corporation is liable for the environmental tax under section 59A, see **Form 4626**, Alternative Minimum Tax—Corporations, for computation of the environmental tax deduction.

See section 906(b)(1) for rules concerning certain foreign taxes imposed on income from U.S. sources that may not be deducted or credited.

Line 18. Interest.—See section 882(c) and Regulations section 1.882-5 for rules for interest deductions allowed to foreign corporations.

Line 19. Contributions.—Enter contributions or gifts actually paid within the tax year to or for the use of charitable and governmental organizations described in section 170(c) and any unused contributions carried over from prior years. **Note:** *This deduction is allowed for all contributions, whether or not connected with income that is effectively connected with the conduct of a trade or business in the U.S. (see section 882(c)(1)).*

The total amount claimed may not exceed 10% of taxable income (line 31, Section II) computed without regard to the following:

1. Any deduction for contributions;
2. The special deductions on line 30b;
3. The deduction allowed under section 249;

4. Any net operating loss (NOL) carryback to the tax year under section 172; and

5. Any capital loss carryback to the tax year under section 1212(a)(1).

Charitable contributions over the 10% limitation may not be deducted for the tax year but may be carried over to the next 5 tax years.

Taxable income is modified in order to determine the amount of an NOL used in an intervening year (i.e., a year to which an NOL is carried but not fully absorbed). For this purpose, taxable income is computed by determining the NOL deduction for the year without regard to the NOL for the loss year or later year. See section 172(b)(2). To the extent charitable contributions are used to reduce taxable income for this purpose and increase an NOL carryover, a contributions carryover is not allowed. See section 170(d)(2)(B).

Corporations on the accrual basis may elect to deduct contributions paid on or before the 15th day of the 3rd month after the end of the tax year if the contributions are authorized by the board of directors during the tax year. Attach to the return a declaration, signed by an officer, stating that the resolution authorizing the contributions was adopted by the board of directors during the tax year. Also attach a copy of the resolution.

If a contribution is in property other than money and the total claimed deduction of all such property contributed exceeds \$500, corporations (other than closely held and personal service corporations) must attach a schedule describing the kind of property contributed and the method used to determine its fair market value. Closely held corporations and personal service corporations must complete **Form 8283**, Noncash Charitable Contributions, and attach it to Form 1120F. All other corporations must generally complete and attach Form 8283 to Form 1120F for contributions of property other than money if the total claimed deduction for all property contributed was more than \$5,000.

Also, a corporation must keep records, as required by the regulations for section 170, for all of its charitable contributions.

If the corporation made a "qualified conservation contribution" under section 170(h), also include the fair market value of the underlying property before and after the donation, as well as the type of legal interest contributed, and describe the conservation purpose furthered by the donation.

If a contribution carryover is included, show the amount and how it was determined.

Special rule for contributions of certain property. For a charitable contribution of property, reduce the contribution by the sum of:

1. The ordinary income, short-term capital gain that would have resulted if the property were sold at its fair market value; and
2. For certain contributions, all of the long-term capital gain that would have resulted if the property were sold at its fair market value.

The reduction for the long-term capital gain applies to:

1. Contributions of tangible personal property for use by an exempt organization for a purpose or function unrelated to the basis for its exemption, and

2. Contributions of any property (except stock for which market quotations are readily available—see section 170(e)(5)) to or for the use of certain private foundations. See section 170(e) and Regulations section 1.170A-4.

For special rules for contributions of inventory and other property to certain organizations, see section 170(e)(3) and Regulations section 1.170A-4A.

Charitable contributions of scientific property used for research. A corporation (other than a personal holding company or a service organization) can receive a larger deduction for contributing scientific property used for research to an institution of higher education. See section 170(e).

Line 20. Depreciation.—Besides depreciation, include on line 20 the part of the cost (up to \$10,000) that the corporation elected to expense for certain tangible property placed in service during tax year 1991, or carried over from 1990. See the instructions for **Form 4562**, Depreciation and Amortization.

Line 23. Depletion.—See sections 613 and 613A for percentage depletion rates applicable to natural deposits. Also, see section 291 for the limitation on the depletion deduction for iron ore and coal (including lignite).

Foreign intangible drilling costs and foreign exploration and development costs must either be added to the corporation's basis for cost depletion purposes or be deducted ratably over a 10-year period. See sections 263(i), 616, and 617 for more information.

Attach **Form T (Timber)**, Forest Industries Schedules, if a deduction for depletion of timber is claimed.

Line 25. Pension, profit-sharing, etc., plans.—Enter the amount of contributions to pension, profit-sharing, or other funded deferred compensation plans. Employers who maintain any such plan are generally required to file one of the forms listed below, even if the plan is not a "qualified plan" under the Internal Revenue Code. The filing requirement applies even if no deduction is claimed for the current tax year. There are penalties for failure to file these forms on time and for overstating the pension plan deduction. For more information, see sections 6652(e) and 6662(f).

Form 5500.—Complete this form for each plan with 100 or more participants.

Form 5500-C/R.—Complete this form for each plan with fewer than 100 participants.

Form 5500EZ.—Complete this form for a one-participant plan.

Line 26. Employee benefit programs.—Enter the amount of contributions to employee benefit programs not claimed elsewhere on the return (e.g., insurance, health, and welfare programs) that are not an incidental part of a pension, profit-sharing, etc., plan included on line 25.

Line 27. Other deductions.—Attach a separate sheet listing all allowable deductions that are not deductible elsewhere on Form 1120F.

Include on this line the deduction taken for amortization of pollution control facilities, organization expenses, etc. See Form 4562.

A corporation may deduct dividends it pays in cash on stock held by an employee stock ownership plan. However, a deduction may only be taken if, according to the plan, the dividends are:

1. Paid in cash directly to the plan participants or beneficiaries;

2. Paid to the plan, which distributes them in cash to the plan participants or their beneficiaries, no later than 90 days after the end of the plan year in which the dividends are paid; or

3. Used to make payments on a loan described in section 404(a)(9).

See section 404(k) for more information and the limitation on certain dividends.

Generally, a deduction may not be taken for the amount of any item or part thereof allocable to a class of exempt income. See section 265(b) for exceptions.

Generally, the corporation can deduct only 80% of the amount otherwise allowable for meals and entertainment expenses paid or incurred in its trade or business. In addition, meals must not be lavish or extravagant; a bona fide business discussion must occur during, immediately before, or immediately after the meal; and your employee must be present at the meal. See section 274(k)(2) for exceptions. If the corporation claims a deduction for unallowable meal expenses, it may have to pay a penalty.

Additional limitations apply to deductions for gifts, skybox rentals, luxury water travel, convention expenses, and entertainment tickets. See section 274 and **Pub. 463**, Travel, Entertainment, and Gift Expenses, for details.

Generally, a corporation can deduct all other ordinary and necessary travel and entertainment expenses paid or incurred in its trade or business. It cannot, however, deduct an expense paid or incurred for a facility (such as a yacht or hunting lodge) that is used for an activity that is usually considered amusement, entertainment, or recreation. **Note:** *The corporation may be able to deduct the expense if the amount is treated as compensation and reported on Form W-2 for an employee or on Form 1099-MISC for an independent contractor.*

Note: *Do not deduct penalties imposed on corporations such as those included in General Instruction D.*

Line 29. Taxable income before NOL deduction and special deductions

"At-risk" rules.—Special "at-risk" rules under section 465 generally apply to closely held corporations (defined under "passive activity limitations" on page 7) engaged in any activity as a trade or business, or for the production of income. Such corporations may have to adjust the amount on line 29. However, the at-risk rules do not apply to: (1) holding real property placed in service by the taxpayer before 1987; (2) equipment leasing under sections 465(c)(4), (5), and (6); and (3) any qualifying business of a qualified corporation described in section 465(c)(7). However, the at-risk rules do apply to the holding of mineral property.

If the at-risk rules apply, adjust the amount on line 29 for section 465(d) losses. These losses are limited to the amount for which such corporation is at risk for each separate activity at the close of the tax year. If the corporation is involved in one or more activities, one or more of which incurs a loss for the year, report the loss for each activity separately. Attach **Form 6198**, At-Risk Limitations, showing the amount at risk and gross income and deductions for the activities with losses.

If the corporation sells or otherwise disposes of an asset or its interest (either total or partial) in an activity to which the at-risk rules apply, determine the net profit or loss from the activity by combining the gain or loss on the sale or disposition with the profit or loss from the activity. If the corporation has a net loss, it may be limited because of the at-risk rules.

Treat any loss from an activity not allowed for the tax year as a deduction allocable to the activity in the next tax year.

Line 30a. Net operating loss deduction.—The "net operating loss deduction" is the amount of the net operating loss (NOL) carryovers and carrybacks that can be deducted in the tax year. See section 172(a). If this deduction is taken, explain its computation on an attached schedule.

Generally, a corporation may carry an NOL back to each of the 3 years preceding the year of the loss and carry it over to each of the 15 years following the year of the loss. Personal service corporations are not permitted to carry back an NOL to or from any tax year to which a section 444 election applies.

A corporation may carry back 10 years that part of the NOL attributable to a product liability loss (section 172(b)(1)(C)). See Regulations section 1.172-13(c) for the required statement that must be attached to Form 1120F when claiming the 10-year carryback on product liability losses.

There is also an available election to carry an NOL over to just each of the 15 years following the year of loss. The election may be made by attaching a statement to a return that is filed on time (including extensions). The election is irrevocable. Section 172(b)(1) describes types of losses for which the 15-year carryforward period does not apply.

After applying the NOL to the first tax year to which it may be carried, the portion of the loss the corporation may carry to each of the remaining tax years is the excess, if any, of the loss over the sum of the modified taxable income for each of the prior tax years to which the corporation may carry the loss. See section 172(b).

If there is a carryback of an NOL, net capital loss, or an unused credit, file **Form 1139**, Corporation Application for Tentative Refund, within 12 months after the close of the tax year for a "quick refund" of taxes. See section 6411.

Caution: *Do not attach Form 1139 to Form 1120F. Mail it in a separate envelope and file it with the Internal Revenue Service Center, Philadelphia, PA 19255.*

For carryback claims filed later than 12 months after the end of the tax year, file amended Form 1120F instead of Form 1139.

See section 172 for special rules, limitations, and definitions pertaining to NOL carrybacks and carryovers. Also see **Pub. 536, Net Operating Losses**.

See section 382 for the limitation on the amount of taxable income of a loss corporation for any tax year ending after a post-1986 ownership change that may be offset by pre-change NOL carryovers. Also see Temporary Regulations section 1.382-2T(a)(2)(ii), which requires that a loss corporation file an information statement with its income tax return for each tax year that it is a loss corporation.

See section 384 for the limitation on the use of preacquisition losses of one corporation to offset recognized built-in gains of another corporation.

Line 30b. Special deductions.—See instructions for Schedule C below.

Schedule A—Cost of Goods Sold

Section 263A Uniform Capitalization Rules. These rules are discussed in the instructions for **Limitations on Deductions** on page 7. See those instructions before proceeding.

Line 4a.—An entry is required on this line only for corporations that have elected a simplified method of accounting. In the case of a corporation that has elected the simplified production method, additional section 263A costs are generally those costs, other than interest, that were not capitalized or included in inventory costs under the corporation's method of accounting immediately prior to the effective date in Temporary Regulations section 1.263A-1T, but that are now required to be capitalized under section 263A. In the case of corporations that have elected a simplified resale method, additional section 263A costs are generally those costs incurred with respect to the following categories: off-site storage or warehousing; purchasing; handling, processing, assembly, and repackaging; and general and administrative costs (mixed service costs). Enter on line 4a the balance of section 263A costs paid or incurred during the tax year not included on lines 2 and 3. See Temporary Regulations section 1.263A-1T for more information.

Line 4b.—Enter on line 4b any costs paid or incurred during the tax year not entered on lines 2 through 4a.

Line 6.—See Temporary Regulations section 1.263A-1T for more information on computing the amount of additional section 263A costs to be capitalized and added to ending inventory.

Line 8a. Inventory valuation methods.—Inventories can be valued at: (1) cost, (2) cost or market value (whichever is lower), or (3) any other method approved by the Commissioner, and that conforms to the provisions of the applicable regulations cited below.

Taxpayers using erroneous valuation methods must change to a method permitted for Federal income tax purposes. Such a change should be made by filing Form 3115. For more information about the change, see Regulations section 1.446-1(e)(3) and Rev. Proc. 84-74, 1984-2 C.B. 736, as modified by Rev. Proc. 88-15, 1988-1 C.B. 683.

On line 8a, check the method(s) used for valuing inventories. Under "lower of cost or

market," the term *market* generally applies to normal market conditions where there is a current bid price prevailing at the date the inventory is valued. When no regular open market exists or when quotations are nominal because of inactive market conditions, use fair market prices from the most reliable sales or purchase transactions that occurred near the date the inventory is valued. See Regulations section 1.471-4.

Inventory may be valued below cost when the merchandise is: (1) unsalable at normal prices, or (2) unusable in the normal way because the goods are "subnormal" (i.e., because of damage, imperfections, shop wear, etc.) within the meaning of Regulations section 1.471-2(c). Such goods may be valued at a current bona fide selling price, minus direct cost of disposition (but not less than scrap value) if such a price can be established. See Regulations section 1.471-2(c) for more requirements.

If this is the first year the "Last-in First-out" (LIFO) inventory method was either adopted or extended to inventory goods not previously valued under the LIFO method provided in section 472, attach **Form 970, Application To Use LIFO Inventory Method**, or a statement with the information required by Form 970. Also check the LIFO box on line 8b. Enter the amount or percent of total closing inventories covered under section 472 on line 8c. Estimates are acceptable.

If the corporation changed or extended its inventory method to LIFO and had to "write-up" its opening inventory to cost in the year of election, report the effect of this write-up as income (in Section II, line 10, page 3) proportionately over a 3-year period that begins with the year of the LIFO election (see section 472(d)).

Schedule C—Dividends and Special Deductions

For purposes of the 20% ownership test on lines 1 through 7, the percentage of stock owned by the corporation is based on voting power and value of the stock. Preferred stock described in section 1504(a)(4) is not taken into account.

Line 1, Column (a)

Enter dividends (except those received on debt-financed stock acquired after July 18, 1984—see section 246A) that are received from less-than-20%-owned domestic corporations subject to income tax and that are subject to the 70% deduction under section 243(a)(1). Include on this line taxable distributions from an IC-DISC or former DISC that are designated as being eligible for the 70% deduction and certain dividends of Federal Home Loan Banks. See section 246(a)(2).

For dividends received from a regulated investment company, see section 854 for the amount subject to the 70% deduction.

So-called dividends or earnings received from mutual savings banks, etc., are really interest. Do not treat them as dividends.

Line 2, Column (a)

Enter dividends (except those received on debt-financed stock acquired after July 18, 1984) that are received from 20%-or-more-owned domestic corporations subject to income tax and that are subject to the 80% deduction under section 243(c). Include on

this line taxable distributions from an IC-DISC or former DISC that are designated as being eligible for the 80% deduction.

Line 3, Column (a)

Enter dividends on debt-financed stock acquired after July 18, 1984, that are received from domestic and foreign corporations subject to income tax and that would otherwise be subject to the dividends-received deduction under section 243(a)(1), 243(c), or 245(a). Generally, debt-financed stock is stock that the corporation acquired by incurring a debt (e.g., it borrowed money to buy the stock).

Line 3, Columns (b) and (c)

Dividends received on debt-financed stock acquired after July 18, 1984, are not entitled to the full 70% or 80% dividends-received deduction. The 70% or 80% deduction is reduced by a percentage that is related to the amount of debt incurred to acquire the stock. See section 246A. Also see section 245(a) before making this computation for an additional limitation that applies to dividends received from foreign corporations. Attach a schedule that shows how the amount on line 3, column (c) was figured.

Line 4, Column (a)

Enter dividends received on the preferred stock of a less-than-20%-owned public utility that is subject to income tax and is allowed the deduction provided in section 247 for dividends paid.

Line 5, Column (a)

Enter dividends received on preferred stock of a 20%-or-more-owned public utility that is subject to income tax and is allowed the deduction provided in section 247 for dividends paid.

Line 6, Column (a)

Enter the U.S.-source portion of dividends that are received from less-than-20%-owned foreign corporations and that qualify for the 70% deduction under section 245(a). To qualify for the 70% deduction, the corporation must own at least 10% of the stock of the foreign corporation by vote and value.

Line 7, Column (a)

Enter the U.S.-source portion of dividends that are received from 20%-or-more-owned foreign corporations and that qualify for the 80% deduction under section 245(a).

Line 8, Column (c)

Limitation on dividends-received deduction. Generally, line 8 of column (c) may not exceed the amount from the worksheet below. However, in a year in which an NOL occurs, this limitation does not apply even if the loss is created by the dividends-received deduction. See sections 172(d) and 246(b). Certain financial institutions to which section 593(a) applies should see section 596 for the special limitation on the dividends-received deduction.

1. Refigure line 29, Section II without regard to any adjustment under section 1059 and without regard to any capital loss carryback to the tax year under section 1212(a)(1) _____

2. Multiply line 1 by 80% . . . _____
3. Enter the sum of lines 2, 5, and 7 of column (c) and the portion of the deduction on line 3 of column (c) that is attributable to dividends received from 20%-or-more-owned corporations _____
4. Enter the lesser of line 2 or line 3. (Do not complete the rest of this worksheet if line 3 is greater than line 2. Instead, enter the amount from this line (line 4 of this worksheet) on line 8, column (c).) _____
5. Enter the total amount of dividends received from 20%-or-more-owned corporations and included on lines 2, 3, 5, and 7 of column (a) _____
6. Subtract line 5 from line 1 . . . _____
7. Multiply line 6 by 70% _____
8. Subtract line 3 of this worksheet from line 8, column (c) _____
9. Enter the lesser of line 7 or line 8 _____
10. Dividends-received deduction after limitation (sec. 246(b)). Add lines 4 and 9 and enter the result here and on line 8, column (c) . _____

Line 9, Column (a)

Enter all other dividends received from foreign corporations that are not reportable on lines 3, 6, or 7 of column (a). Exclude distributions of amounts constructively taxed in the current year or in prior years under subpart F (sections 951 through 964).

Line 10, Column (a)

If the corporation claims the foreign tax credit, enter the tax that is deemed paid under sections 902 and 960. See sections 78 and 906(b)(4).

Line 11, Column (a)

Enter taxable distributions from an IC-DISC or former DISC that are designated as not being eligible for a dividends-received deduction.

No deduction is allowed under section 243 for a dividend from an IC-DISC or former DISC (as defined in section 992(a)) to the extent the dividend:

1. Is paid out of the corporation's accumulated IC-DISC income or previously taxed income, or
2. Is a deemed distribution under section 995(b)(1).

Line 12, Column (a)

Include the following:

1. Dividends (other than capital gain dividends and exempt-interest dividends) received from regulated investment companies and that are not subject to the 70% deduction.
2. Dividends from tax-exempt organizations.
3. Dividends (other than capital gain dividends) received from a real estate investment trust that qualifies, for the tax year of the trust in which the dividends are paid, under sections 856 through 860.
4. Dividends not eligible for a dividends-received deduction because of the holding period of the stock or an obligation to make corresponding payments with respect to similar stock.

Two situations in which the dividends-received deduction will not be allowed on any share of stock are:

- (a) If the corporation held it 45 days or less (see section 246(c)(1)(A)), or
- (b) To the extent the corporation is under an obligation to make related payments for substantially similar or related property.

5. Any other taxable dividend income not properly reported above (including distributions under section 936(h)(4)). If patronage dividends or per-unit retain allocations are included in Schedule C, line 12, column (a), identify the total of these amounts in a schedule and attach it to Form 1120F.

Line 13, Column (c)

Section 247 allows public utilities a deduction of 41.176% of the lesser of:

1. Dividends paid on their preferred stock during the tax year, or
 2. Taxable income computed without regard to this deduction.
- In a year in which an NOL occurs, compute the deduction without regard to section 247(a)(1)(B). See section 172(d).

Schedule J—Tax Computation

Lines 1 and 2

Members of a controlled group, as defined in section 1563, are entitled to one \$50,000 and one \$25,000 taxable income bracket amount (in that order) on line 2a.

When a controlled group adopts or later amends an apportionment plan, each member must attach to its tax return a copy of its consent to this plan. The copy (or an attached statement) must show the part of the amount in each taxable income bracket apportioned to that member. There are other requirements as well. See Regulations section 1.1561-3(b) for the requirements and for the time and manner of making the consent.

Equal Apportionment Plan. If no apportionment plan is adopted, the members of the controlled group must divide the amount in each taxable income bracket equally among themselves. For example, controlled group AB consists of corporation A and corporation B. They do not elect an apportionment plan. Therefore, both corporation A and corporation B are entitled to \$25,000 (one-half of \$50,000) in the \$50,000 taxable income bracket on line 2a(i) and to \$12,500 (one-half of \$25,000) in the \$25,000 taxable income bracket on line 2a(ii).

Unequal Apportionment Plan. Members of a controlled group may elect an unequal apportionment plan and divide the taxable income bracket amounts as they wish. There is no need for consistency between taxable income brackets. Any member of the controlled group may be entitled to all, some, or none of the taxable income bracket. However, the total amount for all members of the controlled group cannot be more than the total amount in each taxable income bracket.

Each member of a controlled group must compute its tax as follows (except qualified personal service corporations):

1. Taxable income from line 31, Section II _____

2. Enter line 1 or the corporation's share of the \$50,000 taxable income bracket, whichever is less _____
3. Subtract line 2 from line 1 . . . _____
4. Enter line 3 or the corporation's share of the \$25,000 taxable income bracket, whichever is less _____
5. Subtract line 4 from line 3 . . . _____
6. Enter 15% of line 2 _____
7. Enter 25% of line 4 _____
8. Enter 34% of line 5 _____
9. If the taxable income of the controlled group exceeds \$100,000, enter this member's share of the lesser of: (a) 5% of the excess over \$100,000, or (b) \$11,750. (See instructions for "additional 5% tax" below.) . _____
10. Total of lines 6 through 9. Enter this amount on line 3, Schedule J _____

Additional 5% tax. Members of a controlled group are treated as one corporation for purposes of figuring the applicability of the additional 5% tax that must be paid by corporations with taxable income in excess of \$100,000. If the additional tax applies, each member of the controlled group will pay that tax based on the part of the amount that is used in each taxable income bracket to reduce that member's tax. See section 1561(a). Each member of the group must enter its share of the additional 5% tax on line 2b and attach to its tax return a schedule that shows the taxable income of the entire group as well as how its share of the additional tax was figured.

Line 3

A corporation that is not a member of a controlled group must compute its tax on its taxable income as follows:

- (1) Corporations **that are not** qualified personal service corporations (defined below):
If its taxable income (line 31, Section II) is:

<i>Over—</i>	<i>But not over—</i>	<i>Its tax is:</i>	<i>Of the amount over—</i>
\$0	\$50,000	15%	\$0
50,000	75,000	\$7,500 + 25%	50,000
75,000	100,000	13,750 + 34%	75,000
100,000	335,000	22,250 + 39%	100,000
335,000	- - - - -	34%	0

- (2) **Qualified personal service corporations:**

A qualified personal service corporation is taxed at a flat rate of 34% on its taxable income. For this purpose, a qualified personal service corporation is any corporation: (a) substantially all of the activities of which involve the performance of services in the fields of health, law, engineering, architecture, accounting, actuarial science, performing arts, or consulting; and (b) at least 95% of the stock of which is owned by employees performing the services, retired employees who had performed the services listed above, any estate of an employee or retiree described above, or any person who acquired the stock of the corporation as a result of the death of an employee or retiree described above, if the acquisition occurred within 2

years of death. See Temporary Regulations section 1.448-1T(e) for details.

Note: If the corporation is a qualified personal service corporation, be sure to check the box on line 3, Schedule J.

Line 4a. Foreign tax credit.—A foreign corporation engaged in a trade or business in the U.S. during the tax year can take a credit for income, war profits, and excess profits taxes paid, accrued, or deemed paid to any foreign country or U.S. possession with respect to income effectively connected with the conduct of a trade or business in the U.S. See section 906 and **Form 1118**, Foreign Tax Credit—Corporations, for additional information.

Line 4b. Credit for fuel produced from a nonconventional source.—A credit is allowed for the sale of qualified fuels produced from a nonconventional source. Section 29 contains a definition of qualified fuels, provisions for figuring the credit, and other special rules. Attach a separate schedule to the return showing the computation of the credit. Also see Form 8827 if any of the 1990 credit is disallowed solely because of the tentative minimum tax limitation. See section 53(d).

Line 4c. Orphan drug credit.—See section 28 and **Form 6765**, Credit for Increasing Research Activities (or for claiming the orphan drug credit), for an explanation of when a corporation can take this credit, as well as how it is figured. Generally, the corporation must reduce its deduction for qualified research or basic research expenses by the amount of any research credit determined under section 41(a). However, this rule does not apply if the corporation elects to take the reduced credit under section 280C(c). See that section for more information.

Line 4d. General business credit.—Complete this line if the corporation can take any of the credits listed below. Complete **Form 3800**, General Business Credit, if the corporation has: **(1)** more than one of the credits listed below, **(2)** a credit carryforward or carryback (including an ESOP credit), OR **(3)** a passive activity credit. Enter the amount of the general business credit on line 4d, and check the box for Form 3800.

Form 3800 is not required if the corporation has only one of the credits listed below and items (2) and (3) above do not apply. Instead, attach the applicable credit form to the return and enter on line 4d the amount of the credit from the form. Also be sure to check the appropriate box for that form.

Investment credit. The investment credit was generally repealed for property placed in service after 1985. See **Form 3468**, Investment Credit, for exceptions.

Jobs credit. The jobs credit, if elected, is allowed for hiring members of targeted groups during the tax year. See **Form 5884**, Jobs Credit, for definitions, special rules, and limitations.

Do not take an expense deduction for the part of the wages or salaries paid or incurred that is equal to the amount of the jobs credit (determined without regard to the limitation based on the tax (section 38(c))).

Alcohol fuel credit. A corporation may be able to take a credit for alcohol used as fuel. Use **Form 6478**, Credit for Alcohol Used As Fuel, to figure the credit.

Credit for increasing research activities. See **Form 6765**, Credit for Increasing Research Activities, and section 41.

Low-income housing credit. See **Form 8586**, Low-Income Housing Credit, and section 42.

Enhanced oil recovery credit. A corporation may claim a credit for 15% of its qualified enhanced oil recovery costs. Use Form 8830 to figure the credit.

Disabled access credit. A corporation may be able to take a credit for certain expenditures paid or incurred to assist individuals with disabilities. See **Form 8826**, Disabled Access Credit, and section 44.

Line 4e. Credit for prior year minimum tax.—Use **Form 8827**, Credit for Prior Year Minimum Tax—Corporations, to figure the minimum tax credit and any carryforward of that credit.

Line 7. Recapture taxes.—**Recapture of investment credit.** If property is disposed of or ceases to be qualified property before the end of the life-years used in computing the regular or energy investment credit, there may be a recapture of the credit. See **Form 4255**, Recapture of Investment Credit.

Recapture of low-income housing credit. If you must recapture part of the low-income housing credit because there has been a decrease in the qualified basis of a building from the prior year or if you disposed of the building or an ownership interest in it, see **Form 8611**, Recapture of Low-Income Housing Credit, and section 42(j).

Line 8a. Alternative minimum tax.—Attach **Form 4626**, Alternative Minimum Tax—Corporations, if the corporation's taxable income or loss before the NOL deduction (line 29, Section II less line 30b, Section II) when combined with its adjustments and tax preference items (including the adjusted current earnings adjustment) totals more than the lesser of: **(a)** \$40,000, or **(b)** the corporation's allowable exemption amount. See Form 4626 for details.

Reduce alternative minimum tax by the amount on Form 3800, Schedule A, line 34. Write on the dotted line to the left of the entry space on line 8a, Schedule J, "Section 38(c)(2)—\$(amount)."

Line 8b. Environmental tax.—The corporation may be liable for the environmental tax if its modified alternative minimum taxable income exceeds \$2 million. See Form 4626 for details.

Line 9. Interest on tax attributable to payments received on installment sales of certain timeshares and residential lots. If the corporation elected to pay interest on the amount of tax attributable to payments received on installment obligations arising from the disposition of certain timeshares and residential lots under section 453(l)(3), it must include the interest due in the amount to be entered on line 9, Schedule J. Write on the dotted line to the left of line 9, Schedule J, "Section 453(l)(3) interest—\$(amount)." Attach a schedule showing the computation.

Interest on tax deferred under the installment method for certain nondealer installment obligations. If an obligation arising from the disposition of property to which section 453A applies is outstanding at the close of the year, the corporation must include the interest due under section 453A(c) in the amount to be entered on line 9,

Schedule J. Write on the dotted line to the left of line 9, Schedule J, "Section 453A(c) interest—\$(amount)." Attach a schedule showing the computation.

Interest under the look-back method for completed long-term contracts. Include the interest due under the look-back method of section 460(b)(2) on line 9, Schedule J. Write on the dotted line to the left of the entry space, "From Form 8697" and the amount of interest due.

Section III—Branch Profits Tax and Tax on Excess Interest

Part I—Computation of Branch Profits Tax

In general, section 884(a) imposes a 30% branch profits tax on the after-tax earnings of a foreign corporation's U.S. trade or business ("effectively connected earnings and profits") that are not reinvested in a U.S. trade or business by the close of the tax year, or are disinvested in a later tax year. Changes in the value of the equity of the foreign corporation's U.S. trade or business ("U.S. net equity") are used as a measure of whether earnings have been reinvested in, or disinvested from, a U.S. trade or business. An increase in U.S. net equity during the tax year is generally treated as a reinvestment of earnings for the current tax year, and a decrease in U.S. net equity is generally treated as a disinvestment of prior year's earnings that have not previously been subject to the branch profits tax. The amount subject to the branch profits tax for the tax year is the dividend equivalent amount.

Line 2.—The following types of adjustments (which are based on the principles of section 312) must be made to effectively connected taxable income (before the NOL deduction and special deductions) to arrive at effectively connected earnings and profits:

a. Positive adjustments for certain income items (that are effectively connected with a trade or business in the U.S.) that are excluded from your line 1 effectively connected taxable income but that must be included in computing earnings and profits (such as tax-exempt interest income);

b. Positive adjustments for certain items deducted in computing your line 1 effectively connected taxable income but that cannot be deducted in computing earnings and profits. Include adjustments for certain deductions claimed in computing your line 1 effectively connected taxable income, such as: **(1)** excess of percentage depletion over cost depletion, **(2)** excess of accelerated depreciation over straight line depreciation (but only if 20% or more of the foreign corporation's gross income from all sources is U.S. source), and **(3)** capital loss carrybacks and carryovers;

c. Negative adjustments for certain deductible items (that are allocable to income that is effectively connected with a trade or business in the U.S.) that cannot be deducted in computing taxable income but that must be deducted in computing earnings and profits (such as Federal income taxes, capital losses in excess of capital gains, and interest and expenses that are not deductible under section 265).

Note: Do not reduce effectively connected earnings and profits by any dividends or other

distributions made by the foreign corporation to its shareholders during the year.

See Temporary Regulations section 1.884-2T for any adjustments to effectively connected earnings and profits due to a reorganization, liquidation, or incorporation.

Exceptions: Do not include the following types of income when computing effectively connected earnings and profits:

1. Income from the operation of ships or aircraft that is exempt from taxation under section 883(a)(1) or (2);

2. FSC income and distributions treated as effectively connected with the conduct of a trade or business in the U.S. under section 921(d) or section 926(b) that are not otherwise effectively connected with a trade or business in the U.S.;

3. Gain on the disposition of an interest in a domestic corporation that is a U.S. real property interest under section 897(c)(1)(A)(ii) if the gain is not otherwise effectively connected with a trade or business in the U.S.;

4. Related person insurance company income that a taxpayer elects to treat as effectively connected with a trade or business in the U.S. under section 953(c)(3)(C) if the income is not otherwise effectively connected with a trade or business in the U.S.;

5. Income that is exempt from tax under section 892; and

6. Interest income derived by a possession bank from U.S. obligations if the interest is treated as effectively connected with the conduct of a trade or business in the U.S. under section 882(e) and is not otherwise effectively connected with the conduct of a trade or business in the U.S.

Note: *Deductions and other adjustments attributable (under the principles of Regulations section 1.861-8) to the types of income not includible in effectively connected earnings and profits listed above do not reduce effectively connected earnings and profits.*

Line 3. Reporting requirements for historical summary.—Attach a historical summary of effectively connected earnings and profits for each tax year beginning after 1986. The summary should indicate whether the corporation was a qualified resident for each of the tax years.

Lines 4a and 4b. U.S. net equity.—“U.S. net equity” is “U.S. assets” reduced by “U.S. liabilities.” U.S. net equity may be less than zero. See Temporary Regulations section 1.884-2T for specific rules regarding the computation of the foreign corporation’s U.S. net equity in the event of a reorganization, liquidation, or incorporation.

The term “U.S. assets” is defined in Temporary Regulations section 1.884-1T(d). In general, property is a U.S. asset if all the income from its use and all gain from its disposition (if used or sold on the last day of the tax year) are or would be effectively connected with the conduct of a trade or business in the United States. Special rules exist for specific types of property, such as depreciable property, inventory, marketable securities, and U.S. real property interests. Under certain circumstances, a foreign corporation may elect to treat a limited amount of marketable securities as U.S.

assets. The amount of property taken into account as a U.S. asset is the adjusted basis (for purposes of computing earnings and profits) of the property.

The term “U.S. liabilities” is defined in Temporary Regulations section 1.884-1T(e). In general, the term means: (1) the foreign corporation’s U.S. assets as of the close of the tax year, times (2) the ratio of the foreign corporation’s worldwide liabilities as of the close of the tax year to its worldwide assets as of the close of the tax year OR if the foreign corporation computes its interest deduction using a fixed ratio of liabilities to assets (as determined under Regulations section 1.882-5(b)(2)(i)), such fixed ratio. For these purposes, the foreign corporation must use the same asset valuation method it uses for determining the amount of its interest deduction that is apportioned to effectively connected income under Regulations section 1.882-5.

Reporting requirements for supporting schedules for lines 4a and 4b.—Report U.S. assets in a manner that conforms to the categories of U.S. assets set forth in Temporary Regulations section 1.884-1T(d), including a line for expansion capital, if the election described in Temporary Regulations section 1.884-1T(d)(11) was made. **Note:** *U.S. assets must be reported at their adjusted bases (as computed for purposes of determining earnings and profits).* For U.S. liabilities, show either the foreign corporation’s worldwide assets and worldwide liabilities or the fixed ratio used to compute U.S. liabilities.

Line 5. Reporting requirements for historical summary.—Attach a historical summary of dividend equivalent amounts for each tax year beginning after 1986.

Line 6. Branch profits tax

Qualification for treaty benefits.—In general, a foreign corporation must be a qualified resident (as defined below) in the tax year in which it has a dividend equivalent amount in order to obtain treaty benefits with respect to the branch profits tax. It must also meet the requirements of any limitation on benefits article in the treaty. However, a foreign corporation is not required to be a qualified resident if it meets the requirements of a limitation on benefits article that entered into force after December 31, 1986. Treaties other than income tax treaties do not exempt a foreign corporation from the branch profits tax. **Note:** *If a foreign corporation claims to be a “qualified resident” based on the “two-part stock ownership and base erosion test” (see definitions below), a special rule governs when a foreign corporation must be a qualified resident.*

Rate of tax.—If treaty benefits apply, the rate of tax is the rate on branch profits specified in the treaty. If the treaty does not specify a rate for branch profits, the rate of tax is the rate specified in the treaty for dividends paid by a wholly-owned domestic corporation to the foreign corporation. See Temporary Regulations section 1.884-1T(h) for applicable rates of tax. Benefits other than a rate reduction may be available under certain treaties, such as the Canadian income tax treaty.

Definition of qualified resident.—A foreign corporation is a qualified resident of a country if it meets one of the following three tests:

(a) a two-part ownership and base erosion test; (b) a publicly-traded test; or (c) an active trade or business test. The regulations under section 884 give detailed rules for these tests. Those regulations also describe certain circumstances under which a foreign corporation that does not meet these tests may obtain a ruling that it will be treated as a qualified resident.

(a) A foreign corporation meets the two-part ownership and base erosion test if: (1) more than 50% of its stock (by value) is owned (directly or indirectly) during at least half the number of days in the tax year by individuals who are residents of such country or who are U.S. citizens or residents, and (2) less than 50% of its income is used (directly or indirectly) to meet liabilities to persons who are not residents of such foreign country or U.S. citizens or residents. For purposes of this test, governments of foreign countries and foreign corporations that meet the publicly-traded test described in (b) below are treated as individuals.

In general, stock owned by a corporation, partnership, trust, or estate is treated as proportionately owned by the individual owners of such entities.

In order to satisfy the 50% stock ownership test described in (a)(1) above, a foreign corporation must, before filing Form 1120F for the tax year, obtain certain written documentation from the requisite number of its direct and indirect shareholders to show that it meets the test, including a certificate of residency from each foreign individual resident signed by the Competent Authority of the individual’s country of residence.

If a foreign corporation is a qualified resident under this test and a portion of its dividend equivalent amount for the tax year is attributable to effectively connected earnings and profits earned in prior tax years, the foreign corporation will be entitled to treaty benefits with respect to the entire dividend equivalent amount only if: (1) the foreign corporation was a qualified resident for all tax years within the 36-month period that includes the tax year of the dividend equivalent amount, or (2) the foreign corporation was a qualified resident for the tax year of the dividend equivalent amount and for the years in which the effectively connected earnings and profits that are included in the dividend equivalent amount were earned. If the foreign corporation fails the 36-month test but is a qualified resident for the tax year, the portion of the dividend equivalent amount attributable to effectively connected earnings and profits from any prior tax year will not be entitled to treaty benefits if the foreign corporation was not a qualified resident for the tax year in which the effectively connected earnings and profits were earned. Thus, in some instances, more than one rate of tax may apply to the dividend equivalent amount reported on line 5.

(b) A foreign corporation meets the publicly-traded test if: (1) its stock is primarily and regularly traded on one or more established securities markets in its country of residence or the U.S., or (2) 90% or more of its stock is owned (directly or indirectly) by another corporation that meets the requirements of (1) and is a resident of the same country or is a domestic corporation.

(c) In general, a foreign corporation meets the active trade or business test if it has a substantial presence in its country of residence and its U.S. trade or business is an integral part of an active trade or business conducted by the foreign corporation in its country of residence.

Effect of complete termination.—If the foreign corporation has completely terminated its U.S. trade or business (within the meaning of Temporary Regulations section 1.884-2T(a)) during the tax year, enter zero on line 6, and complete Item R. In general, a foreign corporation has terminated its U.S. trade or business if it no longer has any U.S. assets, except those retained to pay off liabilities. The foreign corporation (or a related corporation) may not use assets from the terminated U.S. trade or business or the proceeds from their sale in a U.S. trade or business within 3 years after the complete termination.

Coordination With Withholding Tax

In general, if a foreign corporation is subject to the branch profits tax in a tax year, it will not be subject to withholding at source (sections 871(a), 881(a), 1441, or 1442) on dividends paid out of earnings and profits for the tax year.

Part II—Computation of Tax on Excess Interest

If a foreign corporation is engaged in a trade or business in the U.S. or has gross income that is treated as effectively connected with the conduct of a trade or business in the U.S., or has U.S. assets, it is subject to the tax on excess interest. Excess interest is defined as the amount of interest allowable to the foreign corporation as a deduction in computing its effectively connected taxable income under Regulations section 1.882-5 less the amount of interest paid by the U.S. trade or business of the foreign corporation (other than nondeductible interest).

Line 2. Interest paid

Banks.—In general, interest paid by a U.S. branch of a foreign bank is limited to: (a) interest paid with respect to branch liabilities that are reported to bank regulatory authorities; (b) interest paid with respect to offshore shell branches, if the U.S. branch performs substantially all the activities required to incur the liability; and (c) interest on liabilities that are secured predominantly by U.S. assets or that give rise to certain nondeductible interest (such as capitalized interest) related to U.S. assets.

All other foreign corporations.—In general, interest paid by other foreign corporations includes: (a) interest on liabilities shown on the books and records of the U.S. trade or business for purposes of Regulations section 1.882-5; (b) interest on liabilities that are secured predominantly by U.S. assets or that give rise to certain nondeductible interest (such as capitalized interest) related to U.S. assets; and (c) interest on liabilities identified

as liabilities of the U.S. trade or business on or before the earlier of the date on which the first interest payment is made or the due date (including extensions) of the foreign corporation's income tax return for the tax year. However, a liability may not be identified under (c) if the liability is incurred in the ordinary course of the foreign corporation's trade or business, or if the liability is secured predominantly by assets that are not U.S. assets. The amount of interest on liabilities identified in (c) that will be treated as interest paid by the U.S. trade or business is capped at 85% of the amount of interest of the foreign corporation that would be excess interest before taking into account interest on liabilities identified in (c) above. See Notice 89-80, 1989-2 C.B. 394.

Eighty percent rule.—Notwithstanding the above rules for "interest paid," if 80% or more of a foreign corporation's assets are U.S. assets, the interest paid by the foreign corporation's U.S. trade or business will generally equal the amount of interest allowable to it as a deduction under Regulations section 1.882-5 (which is the amount on line 1). If this 80% rule applies, check the box on line 2.

Note: *Interest paid by the U.S. trade or business of a foreign corporation is treated as if it were paid by a domestic corporation. A foreign corporation is thus required to withhold on interest paid by its U.S. trade or business to foreign persons (unless the interest is exempt from withholding under a treaty or the Code) and is required to file Forms 1042 and 1042S with respect to the payments as required under Regulations sections 1.1461-2 and 35a.9999-5.*

Caution: *Special treaty shopping rules apply if the recipient of the interest paid by the U.S. trade or business is a foreign corporation.*

Line 3b.—A foreign bank may treat a percentage of its excess interest as if it were interest on deposits and thus exempt from tax. Multiply the amount on line 3a by the greater of 85% or the ratio of the foreign bank's worldwide interest-bearing deposits to its worldwide interest-bearing liabilities as of the close of the tax year.

Line 4. Tax on excess interest.—See the instructions to line 6, Part I for the requirements that must be met in order to qualify for treaty benefits and the definition of qualified resident. If treaty benefits apply, the rate of tax on excess interest is the same rate that would apply to interest paid to the foreign corporation by a wholly-owned domestic corporation. The tax on excess interest is not prohibited by any provision in any treaty to which the U.S. is a party.

Additional Information Required on Page 5

Item P

Report any tax-exempt interest received or accrued in the space provided. Include any exempt-interest dividends received as a

shareholder in a mutual fund or other regulated investment company.

Item Q

Foreign corporations that "adopt a return position" (see Regulations section 301.6114-1(a)(2)) that any treaty of the U.S. (including, but not limited to, an income tax treaty, estate and gift tax treaty, or friendship, commerce and navigation treaty) overrides or modifies any provision of the Internal Revenue Code and thereby effects (or potentially effects) a reduction of any tax incurred at any time generally must disclose such return position on a statement (in the manner required in Regulations section 301.6114-1(d)). Attach such statement to Form 1120F. See section 6114 and Regulations section 301.6114-1 for details.

Failure to attach such statement may result in a penalty of \$10,000.

Schedules L, M-1, and M-2

A foreign corporation, other than a corporation subject to the branch profits tax, may limit Schedules L, M-1, and M-2 to:

- The corporation's assets in the U.S. and its other assets effectively connected with its trade or business in the U.S.; and
- Its income effectively connected with the conduct of a trade or business in the U.S. and its other income from sources in the U.S.

Do not complete Schedules M-1 and M-2 if total assets at the end of the tax year (line 15, column (d) of Schedule L) are less than \$25,000.

Schedule L—Balance Sheets

Line 5. Tax-exempt securities.—Include on this line:

- State and local government obligations, the interest on which is excludible from gross income under section 103(a); and
- Stock in a mutual fund or other regulated investment company that distributed exempt-interest dividends during the tax year of the corporation.

Schedule M-1

Reconciliation of Income per Books With Income per Return

Line 5c. Travel and entertainment expenses.—Include on line 5c: 20% of meals and entertainment not allowed under section 274(n); expenses for the use of an entertainment facility; the part of business gifts in excess of \$25; expenses of an individual allocable to conventions on cruise ships in excess of \$2,000; employee achievement awards larger than \$400; the cost of entertainment tickets in excess of face value (also subject to the 20% disallowance); the cost of skyboxes in excess of the face value of non-luxury box seat tickets; the part of the cost of luxury water travel not allowed under section 274(m); expenses for travel as a form of education; and other travel and entertainment expenses not allowed as a deduction.

Codes for Principal Business Activity

These codes for the Principal Business Activity are designed to classify enterprises by the type of activity in which they are engaged to facilitate the administration of the Internal Revenue Code. Though similar in format and structure to the Standard Industrial Classification (SIC) codes, they should not be used as SIC codes.

Using the list below, enter on page 5, under Question N, the code number for the

specific industry group from which the largest percentage of "total receipts" is derived.

"Total receipts" means gross receipts (line 1a, page 3) plus all other income (lines 4 through 10, page 3).

Also, on page 5, under Question N, state the principal business activity and principal product or service that account for the largest percentage of total receipts. For example, if the principal business activity is "Grain mill

products," the principal product or service may be "Cereal preparations."

If, as its principal business activity, the corporation: (1) purchases raw materials, (2) subcontracts out for labor to make a finished product from the raw materials, and (3) retains title to the goods, the corporation is considered to be a manufacturer and must enter one of the codes (2010-3998) under "Manufacturing."

Agriculture, Forestry, and Fishing <i>Code</i>	<i>Code</i>	Transportation and Public Utilities <i>Code</i>	Finance, Insurance, and Real Estate <i>Code</i>
0400 Agricultural production. 0600 Agricultural services (except veterinarians), forestry, fishing, hunting, and trapping.	Chemicals and allied products: 2815 Industrial chemicals, plastics materials and synthetics. 2830 Drugs. 2840 Soap, cleaners, and toilet goods. 2850 Paints and allied products. 2898 Agricultural and other chemical products.	Transportation: 4000 Railroad transportation. 4100 Local and interurban passenger transit. 4200 Trucking and warehousing. 4400 Water transportation. 4500 Transportation by air. 4600 Pipe lines, except natural gas. 4700 Miscellaneous transportation services.	Banking: 6030 Mutual savings banks. 6060 Bank holding companies. 6090 Banks, except mutual savings banks and bank holding companies.
Mining Metal mining: 1010 Iron ores. 1070 Copper, lead and zinc, gold and silver ores. 1098 Other metal mining. 1150 Coal mining.	Petroleum refining and related industries (including those integrated with extraction): 2910 Petroleum refining (including integrated). 2998 Other petroleum and coal products.	Communication: 4825 Telephone, telegraph, and other communication services. 4830 Radio and television broadcasting.	Credit agencies other than banks: 6120 Savings and loan associations. 6140 Personal credit institutions. 6150 Business credit institutions. 6199 Other credit agencies.
Oil and gas extraction: 1330 Crude petroleum, natural gas, and natural gas liquids. 1380 Oil and gas field services. Nonmetallic minerals, except fuels: 1430 Dimension, crushed and broken stone: sand and gravel. 1498 Other nonmetallic minerals, except fuels.	Rubber and misc. plastics products: 3050 Rubber products, plastics footwear, hose and belting. 3070 Miscellaneous plastics products.	Electric, gas, and sanitary services: 4910 Electric services. 4920 Gas production and distribution. 4930 Combination utility services. 4990 Water supply and other sanitary services.	Security, commodity brokers and services: 6210 Security brokers, dealers, and flotation companies. 6299 Commodity contracts brokers and dealers; security and commodity exchanges; and allied services.
Construction General building contractors and operative builders: 1510 General building contractors. 1531 Operative builders. 1600 Heavy construction contractors. Special trade contractors: 1711 Plumbing, heating, and air conditioning. 1731 Electrical work. 1798 Other special trade contractors.	Leather and leather products: 3140 Footwear, except rubber. 3198 Other leather and leather products. Stone, clay, and glass products: 3225 Glass products. 3240 Cement, hydraulic. 3270 Concrete, gypsum, and plaster products. 3298 Other nonmetallic mineral products.	Wholesale Trade Durable: 5008 Machinery, equipment, and supplies. 5010 Motor vehicles and automotive equipment. 5020 Furniture and home furnishings. 5030 Lumber and construction materials. 5040 Sporting, recreational, photographic, and hobby goods, toys and supplies. 5050 Metals and minerals, except petroleum and scrap. 5060 Electrical goods. 5070 Hardware, plumbing and heating equipment and supplies. 5098 Other durable goods.	Insurance: 6355 Life insurance. 6356 Mutual insurance, except life or marine and certain fire or flood insurance companies. 6359 Other insurance companies. 6411 Insurance agents, brokers, and service.
Manufacturing Food and kindred products: 2010 Meat products. 2020 Dairy products. 2030 Preserved fruits and vegetables. 2040 Grain mill products. 2050 Bakery products. 2060 Sugar and confectionary products. 2081 Malt liquors and malt. 2088 Alcoholic beverages, except malt liquors and malt. 2089 Bottled soft drinks, and flavorings. 2096 Other food and kindred products. 2100 Tobacco manufacturers. Textile mill products: 2228 Weaving mills and textile finishing. 2250 Knitting mills. 2298 Other textile mill products.	Primary metal industries: 3370 Ferrous metal industries; misc. primary metal products. 3380 Nonferrous metal industries. Fabricated metal products: 3410 Metal cans and shipping containers. 3428 Cutlery, hand tools, and hardware; screw machine products, bolts, and similar products. 3430 Plumbing and heating, except electric and warm air. 3440 Fabricated structural metal products. 3460 Metal forgings and stampings. 3470 Coating, engraving, and allied services. 3480 Ordnance and accessories, except vehicles and guided missiles. 3490 Misc. fabricated metal products.	Nondurable: 5110 Paper and paper products. 5129 Drugs, drug proprietaries, and druggists' sundries. 5130 Apparel, piece goods, and notions. 5140 Groceries and related products. 5150 Farm-product raw materials. 5160 Chemicals and allied products. 5170 Petroleum and petroleum products. 5180 Alcoholic beverages. 5190 Miscellaneous nondurable goods.	Real estate: 6511 Real estate operators and lessors of buildings. 6516 Lessors of mining, oil, and similar property. 6518 Lessors of railroad property and other real property. 6530 Condominium management and cooperative housing associations. 6550 Subdividers and developers. 6599 Other real estate. Holding and other investment companies, except bank holding companies: 6744 Small business investment companies. 6749 Other holding and investment companies except bank holding companies.
Apparel and other textile products: 2315 Men's and boys' clothing. 2345 Women's and children's clothing. 2388 Other apparel and accessories. 2390 Miscellaneous fabricated textile products. Lumber and wood products: 2415 Logging, sawmills, and planing mills. 2430 Millwork, plywood, and related products. 2498 Other wood products, including wood buildings and mobile homes. 2500 Furniture and fixtures. Paper and allied products: 2625 Pulp, paper, and board mills. 2699 Other paper products.	Machinery, except electrical: 3520 Farm machinery. 3530 Construction and related machinery. 3540 Metalworking machinery. 3550 Special industry machinery. 3560 General industrial machinery. 3570 Office, computing, and accounting machines. 3598 Other machinery except electrical.	Retail Trade Building materials, garden supplies, and mobile home dealers: 5220 Building materials dealers. 5251 Hardware stores. 5265 Garden supplies and mobile home dealers. 5300 General merchandise stores. Food stores: 5410 Grocery stores. 5490 Other food stores. Automotive dealers and service stations: 5515 Motor vehicle dealers. 5541 Gasoline service stations. 5598 Other automotive dealers. 5600 Apparel and accessory stores. 5700 Furniture and home furnishings stores. 5800 Eating and drinking places. Misc. retail stores: 5912 Drug stores and proprietary stores. 5921 Liquor stores. 5995 Other retail stores.	Services 7000 Hotels and other lodging places. 7200 Personal services. Business services: 7310 Advertising. 7389 Business services, except advertising. Auto repair; miscellaneous repair services: 7500 Auto repair and services. 7600 Misc. repair services. Amusement and recreation services: 7812 Motion picture production, distribution, and services. 7830 Motion picture theaters. 7900 Amusement and recreation services, except motion pictures.
Printing and publishing: 2710 Newspapers. 2720 Periodicals. 2735 Books, greeting cards, and miscellaneous publishing. 2799 Commercial and other printing, and printing trade services.	Electrical and electronic equipment: 3630 Household appliances. 3665 Radio, television, and communication equipment. 3670 Electronic components and accessories. 3698 Other electrical equipment. 3710 Motor vehicles and equipment. Transportation equipment, except motor vehicles: 3725 Aircraft, guided missiles and parts. 3730 Ship and boat building and repairing. 3798 Other transportation equipment, except motor vehicles.		Other services: 8015 Offices of physicians, including osteopathic physicians. 8021 Offices of dentists. 8040 Offices of other health practitioners. 8050 Nursing and personal care facilities. 8060 Hospitals. 8071 Medical laboratories. 8099 Other medical services. 8111 Legal services. 8200 Educational services. 8300 Social services. 8600 Membership organizations. 8911 Architectural and engineering services. 8930 Accounting, auditing, and bookkeeping. 8980 Miscellaneous services (including veterinarians).
