Section references are to the Internal Revenue Code unless otherwise noted.

Future Developments

For the latest information about developments related to Form 4136 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/form4136.

What’s New

Alternative liquid fuel and compressed natural gas (CNG) gasoline gallon equivalent (GGE) and diesel gallon equivalent (DGE). For sales or uses of fuel after December 31, 2015, for tax accounting under section 4041, liquefied petroleum gas (LPG) has a GGE of 5.75 pounds or 1.353 gallons of LPG, liquefied natural gas (LNG) has a DGE of 6.06 pounds or 1.71 gallons of LNG, and CNG has a GGE of 5.66 pounds or 123.57 cubic feet of CNG. See Claim rates under Line 12, Alternative Fuel Credit, later.

Expiring fuel credits. The biodiesel and renewable diesel fuels credit and the alternative fuel credit are scheduled to expire for fuel sold or used after 2016. Don’t claim a credit for fuel sold or used after 2016 on Form 4136 unless the credits are extended.

General Instructions

Purpose of Form

Use Form 4136 to claim the following:

- A credit for certain nontaxable uses (or sales) of fuel during your income tax year.
- The alternative fuel credit.
- The biodiesel or renewable diesel mixture credit.
- A credit for blending a diesel-water fuel emulsion.
- A credit for exporting dyed fuels or gasoline blendstocks.

Attach Form 4136 to your tax return.

Instead of waiting to claim an annual credit on Form 4136, you may be able to file:

- Form 8849, Claim for Refund of Excise Taxes, to claim a periodic refund; or
- Form 720, Quarterly Federal Excise Tax Return, to claim a credit against your excise tax liability.

Recordkeeping

You must keep records to support any credits claimed on this return for at least 3 years from the date the return is due or filed, whichever is later.

You can’t claim any amounts on Form 4136 that you claimed on Form 8849 or Form 720, Schedule C. If you report a tax liability on Form 720, you may be required to offset your tax liability with any credits you claim before claiming a credit on Form 4136 or a refund on Form 8849.

Form 4136 can’t be used by ultimate vendors to make gasoline claims.

Partnerships. Partnerships (other than electing large partnerships) can’t file this form. Instead, they must include a statement on Schedule K-1 (Form 1065) showing the allocation to each partner specifying the number of gallons of each fuel used during the tax year, the applicable credit per gallon, the nontaxable use or sale, and any additional information required to be submitted.

Additional Information

- Pub. 510, Excise Taxes.
- Pub. 225, Farmer’s Tax Guide.

Cat. No. 48249T
Including the Fuel Tax Credit in Income
You must include in your gross income the amount of the credit from line 17 if you took a deduction on your tax return that included the amount of the taxes and that deduction reduced your income tax liability. See Pub. 510.

Specific Instructions

How To Make a Claim
Complete all information requested for each claim you make. You must enter the number (when requested) from the Type of Use Table, the number of gallons, or gasoline or diesel gallon equivalents (GGE or DGE) (compressed natural gas (CNG), liquefied petroleum gas (LPG), and liquefied natural gas (LNG) only), and the amount of credit. If you need more space for any line (for example, for more types of use), prepare a separate statement using the same format as the line.

Attach a separate statement showing any additional information required for your claim, such as the computation of the amount to be credited. Write your name and taxpayer identification number (TIN) on each statement.

Amount of credit. Generally, multiply the rate by the number of gallons. For lines 11 and 12, enter the number of gallons, or gasoline or diesel gallon equivalents (CNG, LPG, and LNG only). Enter the result (or the combined result as indicated by the brackets) in the Amount of credit column. Include amounts from any separate statement.

Exported taxable fuel. The claim rates for exported taxable fuel are listed on lines 1d, 2c, 3e, 4d, 14b, 16a, and 16b. Taxpayers making a claim for exported taxable fuel must keep proof of exportation with their records. Proof of exportation includes:

- A copy of the export bill of lading issued by the delivering carrier,
- A certificate by the agent or representative of the export carrier showing actual exportation of the fuel,
- A certificate of lading signed by a customs officer of the foreign country to which the fuel is exported, or
- A statement of the foreign consignee showing receipt of the fuel.

Type of Use Table
The following table lists the nontaxable uses of fuels. You must enter the number from the table in the Type of use column on Form 4136.

Types of use 13 and 14. Generally, claims for sales of diesel fuel, kerosene, kerosene for use in aviation, gasoline, or aviation gasoline for the exclusive use of a state or local government (or nonprofit educational organization for gasoline or aviation gasoline) must be made in the following order.

1. By the registered credit card issuer if the state or local government (or nonprofit educational organization, if applicable) used a credit card and the credit card issuer meets the four requirements discussed in Line 13, Registered Credit Card Issuers, later. If the credit card issuer isn’t registered, only the ultimate purchaser may make this claim.

2. By the registered ultimate vendor if the ultimate purchaser didn’t use a credit card and waives their right to make the claim and the registered credit card issuer can’t make the claim.

Additional requirements that must be met are in Pub. 510.
An income tax credit for gasoline and aviation gasoline can be claimed on Form 4136 by the ultimate purchaser only. Claims by registered credit card issuers and registered ultimate vendors for gasoline and aviation gasoline sold to a state or local government or nonprofit educational organization must be made on Form 8849 or Form 720, Schedule C.

Line 1. Nontaxable Use of Gasoline

Claimant. The ultimate purchaser of the gasoline is the only person eligible to make this claim.

Allowable uses. A claim can’t be made for personal use of any fuel on line 1. Also, for lines 1a and 1c, a claim can’t be made for any use in a motorboat, other than commercial fishing.

For line 1a, the gasoline must have been used during the period of claim for a business use other than in a highway vehicle registered (or required to be registered) for highway use (type of use 2).

For line 1b, the gasoline must have been used during the period of claim on a farm for farming purposes (type of use 1).

For line 1c, the gasoline must have been used during the income tax year for type of use 4, 5, 7, 11, 13, 14, or 15. For type of use 13 or 14, the claimant must not have waived the right to make a claim. See Types of use 13 and 14, earlier.

For line 1d, the gasoline must have been exported during the period of claim (type of use 3). See Exported taxable fuel, earlier.

Line 2. Nontaxable Use of Aviation Gasoline

Claimant. The ultimate purchaser of the aviation gasoline is the only person eligible to make this claim.

Allowable uses. For line 2b, the aviation gasoline must have been used during the period of claim for type of use 1, 2, 9, 10, 11, 13, 14, or 15. For type of use 13 or 14, the claimant must not have waived the right to make a claim. See Types of use 13 and 14, earlier.

Use line 2b to make a claim for aviation gasoline used outside the propulsion system of an aircraft.

For line 2c, the aviation gasoline must have been exported during the period of claim (type of use 3). See Exported taxable fuel, earlier.

For line 2d, the aviation fuel must have been used in foreign trade to claim a credit for the LUST tax paid (type of use 9).

Line 3. Nontaxable Use of Undyed Diesel Fuel

For lines 4e and 4f, the kerosene must have been used during the period of claim for type of use 2.

TIP You can claim a credit for the tax on undyed kerosene you purchased (other than from a blocked pump) and used in your home during 2015 for heating, lighting, or cooking.

To claim the credit on line 4a for home use, complete the following steps.

1. Enter 8 in col. (a).
2. Enter the number of gallons of kerosene in col. (c).
3. Multiply the gallons in col. (c) by $.243. Enter the result in col. (d).
4. If this is the only fuel tax credit you are claiming, enter the amount from col. (d) on:
   a. Form 4136, line 17; and
   b. Form 1040, line 72.

Line 5. Kerosene Used in Aviation

Claimant. For lines 5a and 5b, the ultimate purchaser of kerosene used in commercial aviation (other than foreign trade) is eligible to make this claim. For lines 5c, 5d, and 5e, the ultimate purchaser of kerosene used in noncommercial aviation (other than nonexempt, noncommercial aviation and exclusive use by a state, political subdivision of a state, or the District of Columbia) is eligible to make this claim. By making this claim, the claimant is certifying that it hasn’t waived the right to make the claim.

Allowable uses. For lines 5a and 5b, the kerosene must have been used during the period of claim in commercial aviation. If the claimant buys kerosene partly for use in commercial aviation and partly for use in noncommercial aviation, see the rules in Notice 2005-80, section 3(e)(3).

For lines 5c and 5d, the kerosene must have been used during the period of claim for type of use 1, 9, 11, 10, 13, 15, or 16.

For line 5e, the kerosene must have been used during the period of claim for type of use 9. This claim is made in
addition to the claim made on lines 5c and 5d for type of use 9. Depending on the tax rate of the kerosene, use line 4a, 4e, or 4f to make a claim for kerosene used outside the propulsion system of an aircraft.

• Certifies that it has repaid or agreed to repay the amount of tax to the ultimate vendor, has obtained the written consent of the ultimate vendor to make the claim, or has otherwise made arrangements which directly or indirectly provide the ultimate vendor with reimbursement of the tax; and
• Has in its possession an unexpired certificate from the ultimate purchaser and has no reason to believe any of the information in the certificate is false. See Model Certificate R in Pub. 510.

If any of these conditions isn’t met, the credit card issuer must collect the tax from the ultimate purchaser and only the ultimate purchaser can make the claim.

Allowable sales. The diesel fuel, kerosene, or kerosene for use in aviation must have been purchased with a credit card issued to the ultimate purchaser during the period of claim for the exclusive use by a state or local government (including essential government use by an Indian tribal government).
