2001 Instructions for Form 6251

(Rev. April 2002)

Alternative Minimum Tax—Individuals

Section references are to the Internal Revenue Code.

General Instructions

Changes To Note
- An 8% capital gains tax rate applies to qualified 5-year gain that would otherwise be taxed at 10%.
- The alternative minimum tax (AMT) exemption amounts have been increased.
- Under the Act, your 2001 alternative tax net operating loss deduction (ATNOLD) is generally limited to your alternative minimum taxable income (figured without regard to the ATNOLD). For details and exceptions, see the instructions for line 20 on page 6.

Note: As a result of the two changes made by the Act, these two instructions for Form 6251 have been revised. No changes have been made to the 2001 Form 6251. If either change made by the Act affects your 2001 AMT liability and you already filed your tax return, you must file an amended return.

Purpose of Form

The tax laws give special treatment to some types of income, allow special deductions for some types of expenses, and allow credits to certain taxpayers. These laws enable some preferences from the partnership or S corporation to include on Form 6251. If you are a partner in a partnership, see section 59(e) for more details.

Who Must File

Attach Form 6251 to your return if:
- Line 24 is greater than line 27,
- You claim any general business credit, the qualified electric vehicle credit, the nonconventional source fuel credit, or the credit for prior year minimum tax, or
- The total of lines 7 through 14 is negative and line 24 would exceed line 27 if you did not take lines 7 through 14 into account.

Recordkeeping

For the AMT, certain items of income, deductions, etc., receive different tax treatment than for the regular tax. Therefore, you need to refigure items for the AMT that you figured for the regular tax. In some cases, you may wish to do this by completing the applicable form a second time. If you do complete another form, do not attach it to your tax return (except for Form 1116, Foreign Tax Credit—see the instructions for line 25 on page 7), but keep it for your records.

For the regular tax, some deductions and credits may result in carrybacks or carryforwards to other tax years. Examples are investment interest expense, a net operating loss, a capital loss, and the foreign tax credit. Because you may have to refigure these items for the AMT, the carryback or carryforward amount may be different for the AMT than for the regular tax. Therefore, you must keep records of these different amounts.

Partners and Shareholders

If you are a partner in a partnership or a shareholder in an S corporation, see Schedule K-1 and its instructions to figure your adjustments or preferences from the partnership or S corporation to include on Form 6251.

Nonresident Aliens

If you are a nonresident alien and you disposed of U.S. real property interests at a gain, you must make a special computation. Fill in Form 6251 through line 23. If your net gain from the disposition of U.S. real property interests and the amount on line 21 are both greater than the tentative amount you figured for line 23, replace the amount on line 23 with the smaller of that net gain or the amount on line 21. Also, write “RPI” on the dotted line next to line 23. Otherwise, do not change line 23.

Credit for Prior Year Minimum Tax

See Form 8801, Credit for Prior Year Minimum Tax—Individuals, Estates, and Trusts, if you paid AMT for 2000 or you had a minimum tax credit carryforward on your 2000 Form 8801. If you pay AMT for 2001, you may be able to take a credit on Form 8801 for 2002.

Optional Write-Off for Certain Expenditures

There is no AMT adjustment for the following items if you elect for the regular tax to deduct them ratably over the period of time shown.
- Circulation expenditures—3 years (section 173).
- Research and experimental expenditures—10 years (section 174(a)).
- Intangible drilling costs—60 months (section 263(c)).

See section 59(e) for more details.

Specific Instructions

You may claim a standard deduction on Form 1040 instead of itemizing deductions. However, if you claim the amount of your total tax (regular tax plus AMT) may be smaller if you itemize your deductions on both Form 1040 and Form 6251. You may not use the standard deduction to complete Form 1040 and also use itemized deductions to complete Form 6251.
Part I—Alternative Minimum Taxable Income (AMTI)

To avoid duplication, any adjustment or preference for line 5, 11, 14h, or 14n must not be taken into account in figuring the amount to enter for any other adjustment or preference.

Line 3—Taxes
Do not include any adjustment to or preference for transfer taxes on income distributions.

Line 4—Certain Home Mortgage Interest
Include on this line home mortgage interest from line 10, 11, or 12 of Schedule A (Form 1040) except for interest on a mortgage whose proceeds were used to:
1. Buy, build, or substantially improve (a) your main home or (b) your second home that is a qualified dwelling (as defined below) or
2. Refinance a mortgage that meets the requirements of (1) above, but only to the extent that the refinanced amount did not exceed the balance of that mortgage immediately before the refinancing.

Exception. If the mortgage was taken out before July 1, 1982, do not include interest on the mortgage if it was secured by property that was your main home or a qualified dwelling used by you or a member of your family at the time the mortgage was taken out. See section 56(e)(9).

A qualified dwelling is any house, apartment, condominium, or mobile home not used on a transient basis.

Line 6—Refund of Taxes
Include any refund from line 10 of Form 1040 that is attributable to state or local income taxes deducted after 1986.

Also include any refunds received in 2001 and included in income on Form 1040, line 21, that are attributable to state or local personal property taxes, foreign income taxes, or state, local, or foreign real property taxes deducted after 1986. If you include such amounts, you must write a description and the amount next to the entry space for line 6. For example, if you include a refund of real property taxes, write “real property” and the amount next to the entry space.

Line 7—Investment Interest
If you completed Form 4952, Investment Interest Expense Deduction, figure your AMT investment interest expense on another Form 4952 as follows.

Step 1. Follow the Form 4952 instructions for line 1, but also include the following amounts when completing line 1:
- Any interest expense on line 4 of Form 6251 that was paid or accrued on indebtedness attributable to property held for investment within the meaning of section 163(d)(5).

Example. Interest on a home equity loan whose proceeds were invested in stocks or bonds.
- Any interest that would have been deductible if interest earned on private activity bonds issued after August 7, 1986, had been includible in gross income.

Step 2. Enter your AMT disallowed investment interest expense from 2000 on line 2. Complete line 3.

Step 3. When completing Part II, refigure the following amounts, taking into account all adjustments and preferences.
- Gross income from property held for investment.
- Net gain from the disposition of property held for investment.
- Investment expenses. Include any interest income and investment expenses from private activity bonds issued after August 7, 1986.

Step 4. Complete Part III.

Enter on line 7 the difference between line 8 of your AMT Form 4952 and line 8 of your regular tax Form 4952. If your AMT expense is greater, enter the difference as a negative amount.

Note: If you did not itemize deductions and you had investment interest expense, do not enter an amount on line 7 unless you reported investment interest expense on Schedule E. If you did, follow the steps above for completing Form 4952. Allocate the investment interest expense allowed on line 8 of the AMT Form 4952 in the same way you did for the regular tax. Enter on line 7 the difference between the amount allowed on Schedule E for the regular tax and the amount allowed on Schedule E for the AMT.

Line 8—Post-1986 Depreciation
This section describes when depreciation must be refigured for the AMT and how to figure the amount to enter on line 8.

Do not use line 8 for depreciation related to the following:
- Employee business expenses claimed on line 20 of Schedule A (Form 1040). Take this adjustment into account on line 5.
- Passive activities. Take this adjustment into account on line 11.
- An activity for which you are not at risk or income or loss from a partnership or an S corporation.

Step 1. Follow the Form 4952 instructions for line 1, but also include the following amounts when completing line 1:
- Any interest expense on line 4 of Form 6251 that was paid or accrued on indebtedness attributable to property held for investment within the meaning of section 163(d)(5).

Example. Interest on a home equity loan whose proceeds were invested in stocks or bonds.
- Any interest that would have been deductible if interest earned on private activity bonds issued after August 7, 1986, had been includible in gross income.

Step 2. Enter your AMT disallowed investment interest expense from 2000 on line 2. Complete line 3.

Step 3. When completing Part II, refigure the following amounts, taking into account all adjustments and preferences.
- Gross income from property held for investment.
- Net gain from the disposition of property held for investment.
- Investment expenses. Include any interest income and investment expenses from private activity bonds issued after August 7, 1986.

Step 4. Complete Part III.

Enter your AMT depreciation expense from line 8 of your AMT Form 4952 and line 8 of your regular tax Form 4952 in the same way you did for the regular tax. Enter on line 7 the difference between the amount allowed on Schedule E for the regular tax and the amount allowed on Schedule E for the AMT.

Line 8—Post-1986 Depreciation
This section describes when depreciation must be refigured for the AMT and how to figure the amount to enter on line 8.

Do not use line 8 for depreciation related to the following:
- Employee business expenses claimed on line 20 of Schedule A (Form 1040). Take this adjustment into account on line 5.
- Passive activities. Take this adjustment into account on line 11.
- An activity for which you are not at risk or income or loss from a partnership or an S corporation.

Step 1. Follow the Form 4952 instructions for line 1, but also include the following amounts when completing line 1:
- Any interest expense on line 4 of Form 6251 that was paid or accrued on indebtedness attributable to property held for investment within the meaning of section 163(d)(5).

Example. Interest on a home equity loan whose proceeds were invested in stocks or bonds.
- Any interest that would have been deductible if interest earned on private activity bonds issued after August 7, 1986, had been includible in gross income.

Step 2. Enter your AMT disallowed investment interest expense from 2000 on line 2. Complete line 3.

Step 3. When completing Part II, refigure the following amounts, taking into account all adjustments and preferences.
- Gross income from property held for investment.
- Net gain from the disposition of property held for investment.
- Investment expenses. Include any interest income and investment expenses from private activity bonds issued after August 7, 1986.

Step 4. Complete Part III.

Enter on line 7 the difference between line 8 of your AMT Form 4952 and line 8 of your regular tax Form 4952 in the same way you did for the regular tax. Enter on line 7 the difference between the amount allowed on Schedule E for the regular tax and the amount allowed on Schedule E for the AMT.

Line 8—Post-1986 Depreciation
This section describes when depreciation must be refigured for the AMT and how to figure the amount to enter on line 8. Any part of the cost of any property for which you made the election under section 203(a)(11)(B) of the Tax Reform Act of 1986, this rule applies to property placed in service after July 31, 1986.

What Depreciation Must Be Refigured for the AMT?
Do not refigure depreciation for the AMT for the following:
- Nonresidential real property with a class life of 27.5 years or more placed in service after 1998 that is depreciated for the regular tax using the straight line method.
- Other section 1250 property placed in service after 1998 that is depreciated for the regular tax using the straight line method.
- Property (other than section 1250 property placed in service after 1998) that is depreciated for the regular tax using the 150% declining balance method, the straight line method, or the alternative depreciation system (MACRS).
- Property for which an election is in effect under section 168(k)(2)(C)(iii) to not have the special allowance applicable to qualified property. See the instructions for Form 4562 for the definition of qualified property.
- Any part of the cost of any property for which you made the election under section 179 to treat the cost of the property as a deductible expense. The reduction to the depreciable basis of section 179 property by the amount of the section 179 expense.
determination is the same for the regular tax and the AMT.

- Motion picture films, videotapes, or sound recordings.
- Property depreciated under the unit-of-production method or any other method not expressed in a term of years.
- Qualified Indian reservation property.

**How Is Depreciation Figured for the AMT?**

**Property placed in service before 1999.** Figurative depreciation for the AMT using AOS, with the same convention used for the regular tax. See the table below for the method and recovery period to use.

| Property Placed in Service Before 1999 | THEN use the...
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>IF the property is...</td>
<td>Section 1250 property.</td>
</tr>
</tbody>
</table>
| Tangible property (other than section 1250 property) depreciated using straight line for the regular tax. | Straight line method.
| Any other tangible property. | 150% declining balance method, switching to straight line the first tax year it gives a larger deduction, over the property's AMT class life. |

**Property placed in service after 1998.** Use the same convention and recovery period used for the regular tax. For property other than section 1250 property, use the 150% declining balance method, switching to straight line the first tax year it gives a larger deduction. For section 1250 property, use the straight line method.

**Note:** If you did not make this adjustment in 1999 or 2000 for section 1250 property placed in service after 1998 that was not depreciated for the regular tax using the straight line method, you must file an amended return if you are required to file Form 6251 for that year (after taking this adjustment into account).

**How Is the AMT Class Life Determined?**

The class life used for the AMT is not necessarily the same as the recovery period used for the regular tax. The class lives for the AMT are listed in Rev. Proc. 87-56, 1987-2 C.B. 674, and in Pub. 946, How To Depreciate Property. Use 12 years for any tangible personal property not assigned a class life.

**See Pub. 946 for optional tables that may be used to figure AMT depreciation.** Rev. Proc. 89-15, 1989-1 C.B. 816, has special rules for short years and for property disposed of before the end of the recovery period.

**How Is the Adjustment To Enter on Line 8 Figured?**

Subtract the AMT deduction for depreciation from the regular tax deduction and enter the result. If the AMT deduction is more than the regular tax deduction, enter the difference as a negative amount.

In addition to the AMT adjustment to the depreciation for the regular tax, you must also adjust the amount of depreciation that was capitalized, if any, to account for the difference between the rules for the regular tax and the AMT. Include on this line the current year adjustment to taxable income, if any, resulting from the difference.

**Line 9—Adjusted Gain or Loss**

Use this line to report any AMT adjustment resulting from refiguring:

- Gain or loss from the sale, exchange, or involuntary conversion of property reported on Form 4797, Sales of Business Property;
- Casualty gain or loss to business or income-producing property reported on Form 4864, Casualties and Thefts; or
- Capital gain or loss (including any carryover that is different for the AMT) reported on Form 4797, Sales of Business Property.

```
Line 9
Adjusted Gain or Loss  
```

The $3,000 capital loss limitation for the regular tax applies separately to any capital loss as refigured for the AMT. See the example below.

Refiugre the gain or loss reported on your return from the above forms by taking into account any AMT adjustments you made this year or in previous years that affect your adjusted basis. Enter on line 9 the difference between the gain or loss, if any, reported for the regular tax and that figured for the AMT. If (a) the AMT gain is less than the regular tax gain, (b) the AMT loss is more than the regular tax loss, or (c) you have an AMT loss and a regular tax gain (or no gain or loss for the regular tax), enter the difference as a negative amount.

**Example.** In January 2000, Victor Ash exercised an incentive stock option. He paid $10,000 for stock worth $100,000. The $90,000 difference between his cost and the value of the stock is not taxable for the regular tax. His regular tax basis in the stock at the end of the year is $10,000. For the AMT, however, the $90,000 difference is an adjustment that must be included on line 10 of Form 6251: How to Adjust Basis. If Victor sells the stock at the end of 2000, the AMT basis in the stock at the end of 2000 is $100,000.

In February 2001, the stock’s value had dropped, and Victor sold it for $60,000. For the regular tax, he has a capital gain of $50,000 ($60,000 sales price minus his regular tax basis of $10,000). For the AMT, Victor has a capital loss of $40,000 ($60,000 sales price minus his AMT basis of $100,000). The $3,000 capital loss allowed for the year, however, is limited to $3,000. Victor has no other capital transactions for 2001. He includes on line 9 an adjusted loss of $53,000, which is the difference between the ($3,000) capital loss he is allowed for the AMT and the $50,000 capital gain net income reported on Schedule D for the regular tax.

Victor has an AMT long-term capital loss carryover from 2001 to 2002 of $37,000. If Victor has no other Schedule D transactions for 2002, his adjusted loss reported on line 9 of Form 6251 will be ($3,000). Victor will then have an AMT long-term capital loss carryover from 2002 to 2003 of $34,000.

**Line 10—Incentive Stock Options**

For the regular tax, no income is recognized when an incentive stock option (ISO), as defined in section 422(b), is exercised. However, this rule does not apply for the AMT. Instead, you generally must include on line 10 the excess, if any, of:

- The fair market value of the stock acquired through exercise of the option (determined without regard to any lapse restriction) when your rights in the acquired stock first become transferable or when these rights are no longer subject to a substantial risk of forfeiture over the amount you paid for the stock, including any amount you paid for the ISO used to acquire the stock.

**Note:** Even if your rights in the stock are not transferable and are subject to a substantial risk of forfeiture, you may elect to include in AMT income the excess of the stock’s fair market value (determined without regard to any lapse restriction) over the exercise price upon the transfer to you of the stock acquired through exercise of the option. You must make the election by the 30th day after the date of the transfer. See Pub. 525 for more details.

If you acquired stock by exercising an ISO and you disposed of that stock in the same year, the tax treatment under the regular tax and the AMT is the same, and no adjustment is required.
Increase your AMT basis in any stock acquired through the exercise of an option. The limit differs by the amount of the adjustment. Keep adequate records for both the AMT and regular tax so that you may figure your adjusted gain or loss in the year you sell the stock. See the instructions for line 9.

**Line 11 — Passive Activities**

Your passive activity gains and losses must be refigured for the AMT by taking into account all adjustments and preferences and any AMT prior year unallowed losses that apply to that activity. You may fill out a second Form 8582, Passive Activity Loss Limitations, and the other forms or schedules on which your passive activities are reported, to determine your passive activity loss allowed for the AMT, but do not file the second set of forms and schedules with your tax return.

**Example.** Assume you are a partner in a partnership and the Schedule K-1 (Form 1065) you received shows the following.

- A passive activity loss of $4,125.
- A depreciation adjustment of $500 on post-1986 property, and
- An adjustment of $225 for adjusted gain or loss.

Because the two adjustments above are not allowed for the AMT, you must first reduce the passive activity loss by those amounts. The result is a passive activity loss for the AMT of $3,400. You then enter this amount on Worksheet 2 of the AMT Form 8582 and refigure the allowable passive activity loss for the AMT.

**Note:** The amount of any AMT passive activity loss that is not deductible and is carried forward is limited to the regular tax amount, if any. Therefore, keep adequate records for both the AMT and regular tax.

Enter the difference between the amount that would be reported for the activity on Schedule C, C-EZ, E, or F or Form 4835, Farm Rental Income and Expenses, for the AMT and the regular tax amount. If (a) the AMT loss is more than the regular tax loss, (b) the AMT gain is less than the regular tax gain, or (c) you have an AMT loss and a regular tax gain, enter the adjustment as a negative amount.

Enter any adjustment for amounts reported on Schedule D, Form 4684, or Form 4797 for the activity on line 9 instead of line 11. See the instructions for line 9.

**Publicly Traded Partnership (PTP)**

If you had a loss from a PTP, refigure the loss using any AMT adjustments and preferences and any AMT prior year unallowed loss.

**Tax Shelter Passive Farm Activities**

Refigure any gain or loss from a tax shelter passive farm activity taking into account all AMT adjustments and preferences and any AMT prior year unallowable loss. If the amount is a gain, include it on the AMT Form 8582. If the amount is a loss, do not include it on the AMT Form 8582. Carry the loss forward to 2002 to see if you have a gain or loss from tax shelter passive farm activities for 2002.

**Insolvency**

If at the end of the tax year your liabilities exceed the fair market value of your assets, increase your passive activity loss allowed by that excess (but not by more than your total loss). See section 58(c)(1).

**Line 13 — Tax-Exempt Interest Income From Private Activity Bonds**

Enter on line 13 interest you earned on "specified private activity bonds" reduced (but not below zero) by any deduction that would have been allowable if the interest were includible in gross income for the regular tax. Generally, the term "specified private activity bond" means any private activity bond (as defined in section 141) issued after August 7, 1986. See section 57(a)(5) for exceptions and more details.

Exempt-interest dividends paid by a regulated investment company are treated as interest income from specified private activity bonds to the extent the dividends are attributable to specified private activity bonds received by the company, minus an allocable share of the expenses paid or incurred by the company in earning the interest.

If you are filing Form 8814, Parents' Election To Report Child's Interest and Dividends, any tax-exempt interest income from line 1b of that form that is a preference item must be included on this line.

**Line 14 — Other Adjustments and Preferences**

Enter the amounts of any other adjustments or preferences that apply to you on lines 14a through 14c. Enter the total on line 14.

**Line 14a — Circulation Expenditures**

**Note:** Do not make this adjustment for expenditures for which you elected the optional 3-year write-off for the regular tax.

For the regular tax, circulation expenditures may be deducted in full when paid or incurred. For the AMT, these expenditures must be capitalized and amortized over 3 years. Enter the difference between the regular tax and AMT deduction. If the AMT deduction is greater, enter the difference as a negative amount.

If you had a loss on property for which circulation expenditures have not been fully amortized for the AMT, your AMT deduction is the smaller of (a) the amount of the loss allowable for the expenditures had they remained capitalized or (b) the remaining expenditures to be amortized for the AMT.

**Line 14b — Depletion**

You must figure your depletion deduction for the AMT. To do so, use only income and deductions allowed for the AMT when refiguring the limit based on taxable income from the property under section 613A(a) and the limit based on taxable income, with certain adjustments, under section 613A(d)(1). Also, your depletion deduction for mines, wells, and other natural deposits under section 611 is limited to the property’s adjusted basis at the end of the year, as refigured for the AMT, unless you are an independent producer or royalty owner claiming percentage depletion for oil and gas wells under section 613A(c). Figure this limit separately for each property. When refiguring the property’s adjusted basis, take into account any AMT adjustments you made this year or in previous years that affect basis (other than current year depletion).

Enter the difference between the regular tax and AMT depletion. If the AMT deduction is greater, enter the difference as a negative amount.

**Line 14c — Depreciation (Pre-1987)**

For the AMT, you must use the straight line method to figure depreciation on real property for which accelerated depreciation was determined using pre-1987 rules. Use a recovery period of 19 years for 19-year real property and 15 years for low-income housing.

For leased personal property other than recovery property, enter the amount by which your regular tax depreciation exceeds the depreciation allowable using the straight line method.

For leased 10-year recovery property and leased 15-year public utility property, enter the amount by which your regular tax depreciation exceeds the depreciation allowable using the straight line method with a half-year convention, no salvage value, and a recovery period of 15 years (22 years for 15-year public utility property).

Figure the excess of the regular tax depreciation over the AMT depreciation separately for each property and include on line 14c only positive amounts.
Line 14d—Installment Sales
The installment method does not apply for the AMT to any nondealer disposition of property after August 16, 1986, but before January 1, 1987, if an installment obligation to which the proportionate disallowance rule applied arose from the disposition. Enter as a negative amount on line 14d the amount of installment sale income reported for the regular tax.

Line 14e—Intangible Drilling Costs (IDCs)

Note: Do not make this adjustment for costs for which you elected the optional 60-month write-off for the regular tax.

IDCs from oil, gas, and geothermal wells are a preference to the extent that the excess IDCs exceed 65% of the net income from the wells. Figure the preference for all oil and gas properties separately from the preference for all geothermal properties.

Figure excess IDCs as follows.

Step 1. Determine the amount of your regular tax preference for IDCs under section 263(c), but do not include any section 263(c) deduction for nonproductive wells.

Step 2. Subtract the amount that would have been allowed had you amortized these IDCs over a 120-month period starting with the month the well was placed in production.

Note: If you prefer not to use the 120-month period, you may elect to use any method that is permissible in determining cost depletion.

Determine net income by reducing the gross income that you received or accrued during the tax year from all oil, gas, and geothermal wells by the deductions allocable to those wells (reduced by the excess IDCs). When figuring net income, use only income and deductions allowed for the AMT.

Exception. The preference for IDCs from oil and gas wells does not apply to taxpayers who are independent producers (that is, not integrated oil companies as defined in section 291(b)(4)). However, this benefit may be limited. First, figure the IDC preference as if this exception did not apply. Then, for purposes of this exception, complete Form 6251 through line 19, including the IDC preference.

If the amount of the IDC preference exceeds 40% of the amount figured for line 19, enter an amount on line 14e (your benefit from this exception is not limited).

Line 14f—Large Partnerships
If you were a partner in an electing large partnership, enter the amount from Schedule K-1 (Form 1065-B), box 6. Take into account any amount from box 5 on Form 6251, line 11.

Line 14g—Long-Term Contracts
For the AMT, you generally must use the percentage-of-completion method described in section 460(b) to determine your income from any long-term contract (defined in section 460(f)). However, this rule does not apply to any home construction contract (as defined in section 460(e)(6)). For contracts excepted from the percentage-of-completion method for the regular tax by section 460(e)(1), you must use the simplified procedures for allocating costs outlined in section 460(b)(3) to determine the percentage of completion.

Enter the difference between the AMT and regular tax income. If the AMT income is smaller, enter the difference as a negative amount.

Note: If you are required to use the percentage-of-completion method for either the regular tax or the AMT, you may owe or be entitled to a refund of interest for the tax year the contract is completed or adjusted. For details, see Form 8697, Interest Computation Under the Look-Back Method for Completed Long-Term Contracts.

Line 14h—Loss Limitations
For passive activities, see the line 11 instructions on page 4 instead. For tax years before 1999, figure the AMT deduction using ADS. For facilities placed in service before 1999, figure the AMT deduction using MACRS using the straight line method. Enter the difference between the regular tax and AMT deduction. If the AMT amount is greater, enter the difference as a negative amount.

Line 14i—Patron’s Adjustment
Distributions you received from a cooperative may be included in your AMT income. Unless the distributions are nontaxable, enter on line 14j the total AMT patronage dividend adjustment reported to you by the cooperative.

Line 14k—Pollution Control Facilities
The section 169 election to amortize the basis of a certified pollution control facility for a pollution control period is not available for the AMT. For facilities placed in service before 1999, figure the AMT deduction using ADS. For facilities placed in service after 1999, figure the AMT deduction under MACRS using the straight line method. Enter the difference between the regular tax and AMT deduction. If the AMT amount is greater, enter the difference as a negative amount.

Line 14l—Research and Experimental

Note: Do not make this adjustment for costs paid or incurred in connection with an activity in which you materially participated under the passive activity rules or for costs for which you elected the optional 10-year write-off for the regular tax.

Research and experimental costs deducted in full in the tax year they were paid or incurred for the regular tax must be capitalized and amortized over 10 years for the AMT. Enter the difference between the regular tax and AMT deduction. If the AMT deduction is greater, enter the difference as a negative amount.
If you had a loss on property for which research and experimental costs have not been fully amortized for the AMT, your AMT deduction is the smaller of (a) the loss allowable for the costs had they remained capitalized or (b) the remaining costs to be amortized for the AMT.

Line 14m—Tax Shelter Farm Activities

Figure this adjustment only if you have a gain or loss from a tax shelter farm activity (as defined in section 58(a)(2)) that is not a passive activity. If the activity is passive, you must include it with your other passive activities on line 14a through 14n.

Refregie all gains and losses you reported for the regular tax from tax shelter farm activities by taking into account any AMT adjustments and preferences. Determine your tax shelter farm activity gain or loss for the AMT using the same rules you used for the regular tax with the following modifications. No refugiered loss is allowed, except to the extent you are insolvent (see section 58(c)(1)). A refugiered loss may not be using only nonbusiness income and you are insolvent (see section be separately figured for the ATNOL, loss is allowed, except to the extent amount of nonbusiness income must be used for the regular tax with the For example, the limitation of

Line 14n—Related Adjustments

If you have an entry on line 7 (because you deducted investment interest allocable to an interest in a trade or business), 8 through 11, or 14a through 14n, you may have to refigure any item of income or deduction based on a limit of income other than AGI or modified AGI.

Affected items include the following.

- Section 179 expense deduction (Form 4562, line 12).
- Expenses for business or rental use of your home.
- Conservation expenses (Schedule F, line 14).
- Taxable IRA distributions (Form 1040, line 15b), if prior year IRA deductions were different for the AMT and the regular tax.
- Self-employed health insurance deduction (Form 1040, line 28).
- Self-employed SEP, SIMPLE, and qualified plans deduction (Form 1040, line 29).
- IRA deduction (Form 1040, line 23), affected by the earned income limitation of section 219(b)(1)(B).

Note: Do not include on line 14o any adjustment for an item you refigured or line 14b).

If the activity is passive, you must include it with your other passive activities on line 14a through 14n. If the activity is passive, you must include it with your other passive activities on line 14a through 14n.

Example. On your Schedule C (Form 1040) you have a net profit of $9,000. The $1,000 excess is a section 179 deduction for the AMT. You have a section 179 deduction carryforward of $300 for other assets depreciated on your Schedule C.

Your section 179 deduction for the regular tax is limited to your net profit (before any section 179 deduction) of $9,000. The $1,000 excess is entered on another line of this form (for example, line 14b).

The ATNOL carryforward is only $300. Interest allocable to an interest in a tax shelter farm activity (as defined in section 58(a)(2)) that is not a passive activity. If the activity is passive, you must include it with your other passive activities on line 14a through 14n.

Refregie all gains and losses you reported for the regular tax from tax shelter farm activities by taking into account any AMT adjustments and preferences. Determine your tax shelter farm activity gain or loss for the AMT using the same rules you used for the regular tax with the following modifications. No refugiered loss is allowed, except to the extent you are insolvent (see section 58(c)(1)). A refugiered loss may not be using only nonbusiness income and you are insolvent (see section be separately figured for the ATNOL, loss is allowed, except to the extent amount of nonbusiness income must be used for the regular tax with the For example, the limitation of

Line 14n—Related Adjustments

If you have an entry on line 7 (because you deducted investment interest allocable to an interest in a trade or business), 8 through 11, or 14a through 14n, you may have to refigure any item of income or deduction based on a limit of income other than AGI or modified AGI.

Affected items include the following.

- Section 179 expense deduction (Form 4562, line 12).
- Expenses for business or rental use of your home.
- Conservation expenses (Schedule F, line 14).
- Taxable IRA distributions (Form 1040, line 15b), if prior year IRA deductions were different for the AMT and the regular tax.
- Self-employed health insurance deduction (Form 1040, line 28).
- Self-employed SEP, SIMPLE, and qualified plans deduction (Form 1040, line 29).
- IRA deduction (Form 1040, line 23), affected by the earned income limitation of section 219(b)(1)(B).

Note: Do not include on line 14o any adjustment for an item you refigured or line 14b).

If the activity is passive, you must include it with your other passive activities on line 14a through 14n. If the activity is passive, you must include it with your other passive activities on line 14a through 14n.

Example. On your Schedule C (Form 1040) you have a net profit of $9,000. The $1,000 excess is a section 179 deduction for the AMT. You have a section 179 deduction carryforward of $300 for other assets depreciated on your Schedule C.

Your section 179 deduction for the regular tax is limited to your net profit (before any section 179 deduction) of $9,000. The $1,000 excess is a section 179 deduction for the AMT. You have a section 179 deduction carryforward of $300 for other assets depreciated on your Schedule C.

The ATNOL carryforward is only $300. Interest allocable to an interest in a tax shelter farm activity (as defined in section 58(a)(2)) that is not a passive activity. If the activity is passive, you must include it with your other passive activities on line 14a through 14n. If the activity is passive, you must include it with your other passive activities on line 14a through 14n.
amount for line 14b by treating line 20 as if it were zero. Next, figure a tentative amount for line 19 using the tentative line 14b amount and treating line 20 as if it were zero. The tentative amount for line 19 is your AMTI figured without regard to the ATNOLD.

Enter on line 20 the smaller of the ATNOLD or the ATNOLD limitation. Any ATNOL not carried back or forward may be carried forward or backward and treated as if it were earned income for the carryback or carryforward period for the regular tax. The election applies for the AMT.

Note: If you elected under section 172(b)(3) to forego the carryback period for the regular tax, the election applies to the AMT.

Line 21 — Alternative Minimum Taxable Income
If your filing status is married filing jointly or qualifying widow(er) and your AMTI is $166,500 or more, enter $173,000 instead of the amount on line 21. If line 21 is $173,000 or more, include all of the child's earned income.

Special Rule for Holders of a Residual Interest in a REMIC
If you held a residual interest in a real estate mortgage investment conduit (REMIC) in 2001, the amount you enter on line 21 may not be less than the amount on Schedule E, line 37, column (c). If the amount in column (c) is larger than the amount you would otherwise enter on line 21, enter the amount from column (c) instead and write “Sch. O” on the dotted line next to line 21.

Part II — Alternative Minimum Tax

Line 22 — Exemption Amount
If line 21 is more than the amount shown for your filing status in the middle column of the chart on line 22, see the worksheet on this page to figure the amount to enter on line 22.

Child Under Age 14
If this form is for a child under age 14, complete the worksheet on this page.

A child under age 14 is a child who was under age 14 on January 1, 2002, and at least one of whose parents was alive at the end of 2001.

Line 8 of the worksheet. Earned income includes wages, tips, and other amounts received for personal services performed. The child is engaged as a sole proprietor or as a partner in a trade or business in which both personal services and capital are material income-producing factors, earned income also includes a reasonable allowance for compensation for personal services rendered by the child, but not more than 30% of his or her share of the net profits from that trade or business (after subtracting the deduction for one-half of self-employment tax). However, the 30% limit does not apply if there are no net profits from the trade or business. If capital is not an income-producing factor and the child's personal services produced the business income, all of the child's gross income from the trade or business is considered earned income.

Line 25 — Alternative Minimum Tax Foreign Tax Credit (AMTFTC)

TIP
To see if you need to figure your AMTFTC, fill in line 27 of Form 6251 as instructed (you will first need to figure your tentative taxable income. See section 172(b)) if any (see instructions). If the election applies, complete Part I and lines 14 through 20 on Form 6251 to your return. If the election does not apply, complete Part I using only income and deductions that are allowed for the AMT and attributable to sources outside the United States. If the election applies to you, you must complete Part I, following the instructions on the next page.

Your AMTFTC is your foreign tax credit figured as follows.

1. Use a separate AMT Form 1116 for each separate limitation category specified at the top of Form 1116. Write "AMT" in the top margin of each Form 1116.

Note: When applying the separate limitation calculations in this worksheet, use the AMT FTTC rate that is applicable for each category.

2. If you previously made or are making the simplified limitation election, skip Part I and enter on the AMT Form 1116, line 16, the same amount you entered on that line for the regular tax. If you did not complete Form 1116 for the regular tax and you previously made or are making the simplified limitation election, complete Part I and lines 14 through 16 of the AMT Form 1116 using regular tax amounts.

The election does not apply, complete Part I using only income and deductions that are allowed for the AMT and attributable to sources outside the United States. If the election applies to you, you must complete Part I, following the instructions under 5 on the next page.

3. Complete Part II and lines 9 through 11 of the AMT Form 1116. Use your AMTFTC carryover, if any, on line 10.
4. If the simplified limitation election does not apply, complete lines 1 through 16 of the AMT Form 1116.

5. If you did not complete Schedule D (Form 1040) for the regular tax and did not complete Part III of Form 6251, enter the AMT from Form 1040, line 21, on line 17 of the AMT Form 1116 and go to 6 below. Otherwise, follow these steps to complete, for the AMT, the Worksheet 17 in the Form 1116 instructions.

a. Enter the amount from Form 6251, line 21, on line 1 of the AMT Worksheet for Line 17.

b. Complete a Schedule D for the AMT as explained in the instructions for line 39, 31, 33, and 37 below (or, if you already completed an AMT Schedule D to complete Part III of Form 6251, use that Schedule D). Next, enter the amount from Form 6251, line 23, on line 20 of your AMT Schedule D or line 1 of the AMT Schedule D Tax Worksheet. Then, complete lines 24 through 36 of the AMT Schedule D (you may skip lines 25, 31, and 33) or lines 10 through 33 of the AMT Schedule D Tax Worksheet (you may skip lines 15, 19, 21, 25, and 31).

c. Complete the rest of the AMT Worksheet for Line 17 using amounts from the AMT Schedule D or AMT Schedule D Tax Worksheet.

6. Enter the amount from Form 6251, line 24, on the AMT Form 1116, line 19. Complete lines 18, 20, and 21 of the AMT Form 1116.

7. Complete Part IV of the first AMT Form 1116 only.

Follow the instructions below to figure the amount to enter on Form 6251, line 25.

If you have no entry on Form 6251, line 20, and no intangible drilling costs (IDCs) (or the exception for IDCs does not apply to you—see the instructions for line 14e on page 5), enter on Form 6251, line 25, the smaller of:

• 90% of Form 6251, line 24, or
• The amount from line 33 of the first AMT Form 1116.

If you have an entry on line 20 or the exception for IDCs applies to you:

1. Figure the amount of tax that would be on line 24 if line 20 were zero and the exception did not apply.

2. Multiply the amount from 1 above by 10%.

3. Subtract the amount from 2 above from the tax on line 24, and enter on Form 6251, line 25, the smaller of the amount from 2 above or the amount from line 33 of the first AMT Form 1116.

Attach to your tax return, after Form 6251, all AMT Forms 1116 you used to figure your AMTFTC.

AMTFTC Carryback and Carryforward

If your AMTFTC is limited, the unused amount may be carried back or forward according to sections 59(a)(2)(B) and 904(c).

Simplified Limitation Election

You may elect to use a simplified section 984 limitation to figure your AMTFTC. If you do, use your regular tax income for Form 1116, Part I, instead of refiguring your foreign source income for the AMT, as described earlier. You must make the election for the first tax year after 1997 for which you claim an AMTFTC. If you do not make the election for that year, you may not make it for a later year. Once made, the election applies to all later tax years, and may be revoked only with IRS consent.

Part III—Line 24

Computation Using Maximum Capital Gains Rates

Lines 30, 31, 33, and 37

If you did not complete Schedule D (Form 1040) because you reported capital gain distributions directly on Form 1040, line 13, then:

• Enter the amount of your capital gain distributions on Form 6251, lines 30 and 33.

• Enter zero on Form 6251, line 31, and

• Enter on Form 6251, line 37, the amount, if any, from line 7 of the Capital Gain Tax Worksheet in the instructions for line 40 of Form 1040. If you did complete Schedule D, you generally may enter the amounts from Schedule D or the Schedule D Tax Worksheet as instructed on Form 6251, lines 30, 31, and 33. But do not use those amounts if either of the following applies.

1. Any gain or loss on Schedule D is different for the AMT (for example, because of a different basis for the AMT due to depreciation adjustments, an incentive stock option adjustment, or a different AMT capital loss carryover from 2000).

2. You did not complete Part IV of Schedule D because Form 1040, line 39, is zero.

If 1 or 2 above applies, complete a Schedule D for the AMT as follows. If 1 applies, refigure the amounts for Schedule D, Parts I, II, and III for the AMT; otherwise, use the regular tax amounts. Next, complete line 19 of the AMT Schedule D and lines 21 through 23 (or lines 7 through 9 of an AMT Schedule D Tax Worksheet, if applicable). Use amounts from the AMT Schedule D or AMT Schedule D Tax Worksheet to complete lines 30, 31, and 33 of Form 6251. Keep the AMT Schedule D and worksheet for your records, but do not attach the AMT Schedule D to your tax return.

If you have completed Schedule D for the regular tax but not Part IV, enter zero on Form 6251, line 37.

Note: Do not decrease your section 1202 exclusion by the amount, if any, on line 14m.

Line 39

Generally, you may enter the amount from Schedule D, Part III of Form 6251, line 39. However, if your qualified 5-year gain is different for the AMT (for example, because of a different basis), you must complete an AMT Qualified 5-Year Gain Worksheet (on page D-8 of the Schedule D instructions). If the amount on any line of the worksheet is different for the AMT, use the AMT amount instead of the regular tax amount. Enter the amount from line 7 of that worksheet on Form 6251, line 39.

Paperwork Reduction Act Notice.

We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by section 6103.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated average time is:

Recordkeeping, 2 hr., 10 min.; Learning about the law or the form, 1 hr., 10 min.; Preparing the form, 1 hr., 55 min.; Copying, assembling, and sending the form to the IRS, 27 min.

If you have comments concerning the accuracy of these time estimates or suggestions for making this form simpler, we would be happy to hear from you. See the instructions for the tax return with which this form is filed.
