

1992

Department of the Treasury
Internal Revenue Service

Instructions for Form 990-T

Exempt Organization Business Income Tax Return

(Section references are to the Internal Revenue Code unless otherwise noted.)

General Instructions

Paperwork Reduction Act Notice

We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us this information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated average time is:

Recordkeeping 60 hr., 59 min.

Learning about the law or the form 20 hr., 20 min.

Preparing the form 32 hr., 28 min.

Copying, assembling, and sending the form to the IRS 2 hr., 57 min.

If you have comments concerning the accuracy of these time estimates or suggestions for making this form more simple, we would be happy to hear from you. You can write to both the **Internal Revenue Service**, Washington, DC 20224, Attention: IRS Reports Clearance Officer, T:FP; and the **Office of Management and Budget**, Paperwork Reduction Project (1545-0687), Washington, DC 20503. **DO NOT** send the tax form to either of these offices. Instead, see **Where To File** on page 2.

Changes To Note

- The new format of Form 990-T for 1992 is similar to that of other business tax returns. It should be easier to complete. Please study the form and instructions carefully before completing it.
- The Signature section, previously on page 1, is now on page 2. Be sure to sign your return on page 2 before filing it.
- Tax rates for trusts have been revised for tax years beginning in 1992. See the Tax Rate Schedule for Trusts on page 4 for details.
- See the instructions for Part I, line 12 on page 4 for information about unrelated business income from certain outside use of property financed with a tax-exempt bond.
- **Deduction for clean-fuel vehicles and certain refueling property.**—New section 179A allows a deduction for part of the cost of qualified clean-fuel vehicle property and qualified clean-fuel vehicle refueling property placed in service after June 30, 1993. For more details, see section 179A.
- See **Pub. 553**, Highlights of 1992 Tax Changes, for other changes in the tax laws that may affect your organization.

Purpose of Form

In general, **Form 990-T**, Exempt Organization Business Income Tax Return, is used by tax-exempt organizations and by certain individual retirement arrangements (IRAs) to report their unrelated business income and to

figure their income tax liability. In addition, the form is used by IRAs and other tax-exempt shareholders of a regulated investment company (RIC) to obtain a refund of income tax paid under section 852(b).

Who Must File Form 990-T

Any domestic or foreign organization exempt under section 501(a) must file Form 990-T if it has gross income from an unrelated trade or business of \$1,000 or more. See Regulations section 1.6012-2(e). Gross income is gross receipts minus the cost of goods sold. (See Regulations section 1.61-3.)

Colleges and universities of states and other governmental units, as well as subsidiary corporations wholly owned by such colleges and universities, are also subject to the Form 990-T filing requirements. However, a section 501(c)(1) corporation that is an instrumentality of the United States and both organized and exempted from tax by an Act of Congress does not have to file.

Fiduciaries for IRAs described in section 408(a) that have \$1,000 or more of unrelated trade or business gross income must file Forms 990-T.

IRAs and other tax-exempt shareholders in a regulated investment company (RIC) filing Form 990-T only to obtain a refund of income tax paid on undistributed long-term capital gains should complete the heading and signature areas, and enter the amount of the credit on line 44e. See the **Specific Instructions**. At the top of the return, write "Claim for Refund."

If you are a trustee of more than one IRA invested in a RIC, you may file a composite Form 990-T to claim a refund of tax under section 852(b) instead of filing a separate Form 990-T for each IRA. Complete the heading and signature areas and enter the amount of the credit on line 44e. At the top of the form, write "Composite Return per Notice 90-18." For more information, see Notice 90-18, 1990-1 C.B. 327.

Definitions

Unrelated Trade or Business.— An unrelated trade or business is **(a)** any trade or business that is regularly carried on, and not substantially related to, the organization's exempt purpose or function (aside from the organization's need for income or funds or the use it makes of the profits); or **(b)** for a section 511(a)(2)(B) state college or university, not substantially related to exercising or performing any purpose or function described in section 501(c)(3).

An unrelated trade or business does **not** include a trade or business:

1. In which substantially all the work in carrying on the trade or business is performed for the organization without compensation; or
2. That is carried on by a section 501(c)(3) or 511(a)(2)(B) organization mainly for the convenience of its members, students, patients, officers, or employees; or
3. That sells items of work-related equipment and clothes, and items normally sold through vending machines, food dispensing facilities or by snack bars, by a local association of employees described in section 501(c)(4), organized before May 27, 1969, if the sales are for the convenience of its members at their usual place of employment; or
4. That sells merchandise substantially all of which was received by the organization as gifts or contributions; or
5. That consists of qualified public entertainment activities regularly carried on by a section 501(c)(3), (4), or (5) organization as one of its substantial exempt purposes (see section 513(d)(2) for the meaning of qualified public entertainment activities); or
6. That consists of qualified convention or trade show activities regularly conducted by a section 501(c)(3), (4), (5), or (6) organization as one of its substantial exempt purposes (see section 513(d)(3) for the meaning of qualified convention and trade show activities); or
7. That furnishes one or more services described in section 501(e)(1)(A) by a hospital to

one or more hospitals subject to conditions in section 513(e); or

8. That consists of qualified pole rentals (as defined in section 501(c)(12)(D)), by a mutual or cooperative telephone or electric company; or

9. That includes activities relating to the distribution of low-cost articles, each costing \$6.01 or less by an organization described in section 501 and contributions to which are deductible under section 170(c)(2) or (3) if the distribution is incidental to the solicitation of charitable contributions; or

10. That includes the exchange or rental of donor or membership lists between organizations described in section 501 and contributions to which are deductible under section 170(c)(2) or (3); or

11. That consists of bingo games as defined in section 513(f). Generally, a bingo game is not included in any unrelated trade or business if:

a. Wagers are placed, winners determined, and prizes distributed in the presence of all persons wagering in that game, and

b. The game does not compete with bingo games conducted by for-profit businesses in the same jurisdiction, and

c. The game does not violate state or local law; or

12. That consists of conducting any game of chance by a nonprofit organization in the state of North Dakota, and the conducting of the game does not violate any state or local law.

A "trade or business" is any activity carried on for the production of income from selling goods or performing services. An activity does not lose its identity as a trade or business merely because it is carried on within a larger group of similar activities which may or may not be related to the exempt purpose of the organization. If, however, an activity carried on for profit is an unrelated trade or business, no part of it can be excluded from this classification merely because it does not result in profit.

"Not substantially related" means that the activity that produces the income does not contribute importantly to the exempt purposes of the organization, other than the need for funds, etc. Whether an activity contributes importantly depends in each case on the facts involved.

For more information, see **Pub. 598**, Tax on Unrelated Business Income of Exempt Organizations.

When To File

Generally, the organization must file Form 990-T by the 15th day of the 5th month after the end of the tax year. However, an employees' trust defined in section 401(a) and an IRA must file Form 990-T by the 15th day of the 4th month after the end of the tax year. If the return is filed late, see the discussion of interest and penalties on this page.

Extension.—Corporations may request an automatic 6-month extension of time to file Form 990-T by using **Form 7004**, Application for Automatic Extension of Time To File Corporation Income Tax Return.

Trusts may request an extension of time to file by using **Form 2758**, Application for Extension of Time To File Certain Excise, Income, Information, and Other Returns. Trusts are not granted an automatic extension of time to file.

Amended Return.—To correct errors or change a previously filed return, write "Amended Return" at the top of the return. Generally, the amended return must be filed within 3 years after the date the original return was due or 3 years after the date the organization filed it, whichever is later.

Period Covered.—File the 1992 return for calendar year 1992 and fiscal years that begin in 1992 and end in 1993. For a fiscal year, fill in the tax year space at the top of the form.

Note: *The 1992 Form 990-T may also be used if (a) the organization has a tax year of less than 12 months that begins and ends in 1993, and (b) the 1993 Form 990-T is not available by the time the organization is required to file its return. However, the organization must show its 1993 tax year on the 1992 Form 990-T and incorporate any tax law changes that are effective for tax years beginning after December 31, 1992.*

Where To File

| If the principal office of the organization is located in | Use the following Internal Revenue Service Center address |
|--|---|
| Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee | Atlanta, GA 39901 |
| Arizona, Colorado, Kansas, New Mexico, Oklahoma, Texas, Utah, Wyoming | Austin, TX 73301 |
| Indiana, Kentucky, Michigan, Ohio, West Virginia | Cincinnati, OH 45999 |
| Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, Vermont | Holtsville, NY 00501 |
| Illinois, Iowa, Minnesota, Missouri, Montana, Nebraska, North Dakota, South Dakota, Wisconsin | Kansas City, MO 64999 |
| Alaska, California, Hawaii, Idaho, Nevada, Oregon, Washington | Fresno, CA 93888 |
| Delaware, District of Columbia, Maryland, New Jersey, Pennsylvania, Virginia, any U.S. possession or foreign country | Philadelphia, PA 19255 |

Estimated Taxes.—Generally, an organization filing Form 990-T must make installment payments of estimated tax if its estimated tax (tax minus credits) is expected to be \$500 or more. Both corporate and trust organizations use **Form 990-W**, Estimated Tax on Unrelated Business Taxable Income for Tax-Exempt Organizations, to figure their estimated tax liability. Do not claim the jobs credit when computing your estimated tax liability.

To compute their estimated tax, trusts and corporations must take the alternative minimum tax into account. See Form 990-W for more information.

Interest and Penalties

Your organization may be subject to interest and penalty charges if it files a late return or fails to pay tax when due.

Interest.—Interest is charged on taxes not paid by the due date even if an extension of time to file is granted. Interest is also charged on penalties imposed for failure to file, negligence, fraud, gross valuation overstatements, and substantial understatements of tax from the due date (including extensions) to the date of payment. The interest charge is figured at a rate determined under section 6621.

Late Filing of Return.—An organization that fails to file its return when due (including extensions of time for filing) is subject to a penalty of 5% of the unpaid tax for each month or part of a month the return is late, up to a maximum of 25% of the unpaid tax unless it can show

reasonable cause for the delay. Those filing late (after the due date, including extensions) must attach an explanation to the return. The minimum penalty for a return that is more than 60 days late is the smaller of the tax due or \$100.

Late Payment of Tax.—The penalty for late payment of taxes is usually 1/2 of 1% of the unpaid tax for each month or part of a month the tax is unpaid. The penalty cannot exceed 25% of the amount due. This penalty may also apply to any additional tax not paid within 10 days of the date of the notice and demand for payment.

Underpayment of Estimated Tax.—An organization that fails to make estimated tax payments when due may be subject to an underpayment penalty for the period of underpayment. Generally, an organization is subject to the penalty if its tax liability is \$500 or more and it did not timely pay the smaller of (a) 93% of its tax liability for 1992 (97% of its tax liability for a tax year beginning after June 30, 1992), or (b) 100% of its prior year's tax. See section 6655 for details and exceptions.

Form 2220, Underpayment of Estimated Tax by Corporations, is used by corporations and trusts filing Form 990-T to see if the organization owes a penalty and to figure the amount of the penalty. Generally, the organization is not required to file this form because the IRS can figure the amount of any penalty and bill the organization for it. However, you must complete and attach Form 2220 even if the organization does not owe the penalty if:

- The annualized income or adjusted seasonal installment method is used, or
- The organization is a "large organization" computing its first required installment based on the prior year's tax.

If you attach Form 2220, be sure to check the box on line 46, page 2, Form 990-T, and enter the amount of any penalty on this line.

Other Penalties.—There are also penalties that can be imposed for negligence, substantial understatement of tax, and fraud. See sections 6662 and 6663.

Which Parts of Form 990-T To Complete.—Complete Part I, column (A), lines 1 through 13, on page 1. If the amount on line 13, column (A), is \$10,000 or less, you may complete only line 13 of columns (B) and (C), lines 29 through 34 of Part II, and Parts III through V and the signature area on page 2. These filers do not have to complete Schedules A through K (however, refer to applicable schedules when completing column (A) and in determining the deductible expenses to include on line 13 of column (B)). If the amount on line 13, column (A), Part I, is more than \$10,000, complete all lines and schedules that apply.

Consolidated Returns.—The consolidated return provisions of section 1501 do not apply to exempt organizations, except for organizations having title holding companies. If a title holding corporation described in section 501(c)(2) pays any amount of its net income for a tax year to an organization exempt from tax under section 501(a) (or would except that the expenses of collecting its income exceeded that income), and the corporation and organization file a consolidated return as described below, then treat the title holding corporation as being organized and operated for the same purposes as the other exempt organization (in addition to the purposes described in section 501(c)(2)).

Two organizations exempt from tax under section 501(a), one a title holding company, and the other earning income from the first, will be includible corporations for purposes of section

1504(a). If the organizations meet the definition of an affiliated group, and the other relevant provisions of Chapter 6 of the Code, then these organizations may file a consolidated return. The parent organization must attach **Form 851**, Affiliations Schedule, to the consolidated return. For the first year a consolidated return is filed, the title holding company must attach **Form 1122**, Authorization and Consent of Subsidiary Corporation To Be Included in a Consolidated Income Tax Return. See Regulations section 1.1502-100 for more information on consolidated returns.

Other Forms You May Need To File

Form 720—Quarterly Federal Excise Tax Return.—Use Form 720 to report a 10% excise tax that applies to the following items, to the extent the sales price exceeds the amounts shown: (a) passenger vehicles, \$30,000; (b) boats and yachts, \$100,000; (c) aircraft, \$250,000; and (d) jewelry and furs, \$10,000. Form 720 is also used to report environmental excise taxes, communications and air transportation taxes, fuel taxes, manufacturers taxes, ship passenger tax, and certain other excise taxes.

Information Returns.—Organizations engaged in an unrelated trade or business may be required to file an information return on **Forms 1099-A, B, DIV, INT, MISC, OID, R, S, 1096, W-2, and W-3** to report abandonments, acquisitions through foreclosures, proceeds from broker and barter exchange transactions, dividends, interest, medical and health care payments, miscellaneous income payments, nonemployee compensation, original issue discount, total distributions from profit-sharing, retirement plans, individual retirement arrangements, insurance contracts, proceeds from real estate transactions, and wages, tips, and other compensation.

Form 1098.—File **Form 1098**, Mortgage Interest Statement, if the organization in the course of its trade or business received from any individual \$600 or more of mortgage interest during any calendar year.

Form 5498.—Use **Form 5498**, Individual Retirement Arrangement Information, to report contributions (including rollover contributions) to an IRA and the value of an IRA or simplified employee pension account.

Form 5713.—File **Form 5713**, International Boycott Report, if the organization had operations in or related to an international boycott.

Form 6198.—File **Form 6198**, At-Risk Limitations, if the organization has a loss from an at-risk activity carried on as a trade or business or for the production of income.

Form 8300.—File **Form 8300**, Report of Cash Payments Over \$10,000 Received in a Trade or Business, if the organization received more than \$10,000 in cash or foreign currency in one transaction or in a series of related transactions.

After February 2, 1992, cashier's checks, bank drafts, and money orders with face amounts of \$10,000 or less are considered cash under certain circumstances. For more information, see Form 8300 and Regulations section 1.6050I-1(c).

Form 8697.—Use **Form 8697**, Interest Computation Under the Look-Back Method for Completed Long-Term Contracts, to figure the interest due or to be refunded under the look-back method of section 460(b)(2) on certain long-term contracts that are accounted for under either the percentage of completion-capitalized cost method or the percentage of completion method.

Accounting Methods.—Taxable income must be computed using the method of accounting

regularly used in keeping the organization's books and records. In all cases, the method adopted must clearly reflect taxable income. See section 446.

Unless the law specifically permits otherwise, the organization may change the method of accounting used to report income in earlier years (for income as a whole or for any material item) only by first getting consent on **Form 3115**, Application for Change in Accounting Method. Also see **Pub. 538**, Accounting Periods and Methods.

Generally, organizations are required to use the accrual method of accounting for their unrelated trade or business activities if their average annual gross receipts are more than \$5 million. See section 448(c). An organization changing to the accrual method because of this provision must complete Form 3115 and attach it to Form 990-T for the year of change. An organization must also show on a statement accompanying Form 3115 the period over which the section 481(a) adjustment will be taken into account and the basis for that conclusion. See section 448 and Temporary Regulations sections 1.448-1T(g) and 1.448-1T(h) for more information. Include the amount reportable as income in 1992 under section 481(a) on line 12, page 1.

The percentage of completion method, including the look-back method under section 460(b), is generally the only permissible method of accounting for long-term contracts entered into after July 10, 1989.

See section 460 for general rules on long-term contracts.

Accounting Periods.—To change an accounting period, some organizations may attach a statement to a timely filed Form 990-T and print or type at the top of page 1 of the return, "FILED UNDER SECTION 1.442-2T(f)(1)." Others may be required to file **Form 1128**, Application to Adopt, Change, or Retain a Tax Year. For more information on which procedure applies to your organization, see Temporary Regulations section 1.442-2T.

Reporting Form 990-T Information on Other Returns.—Organizations required to file an annual information return on **Form 990**, Return of Organization Exempt From Income Tax, **Form 990EZ**, Short Form Return of Organization Exempt From Income Tax, **Form 990-PF**, Return of Private Foundation or Section 4947(a)(1) Trust Treated as a Private Foundation, or any of the Form 5500 series returns (except certain Forms 5500-C/R and Form 5500EZ) must include on that information return the unrelated business gross income and expenses (but not including the specific deduction claimed on line 33, page 1, or any expense carryovers from prior years) reported on Form 990-T for the same tax year.

Rounding Off to Whole-Dollar Amounts.—The organization may show the money items on the return and accompanying schedules as whole-dollar amounts. To do so, drop any amount less than 50 cents and increase any amount from 50 cents through 99 cents to the next higher dollar.

Attachments.—If you need more space on the form or schedules, attach separate sheets. On the attachment, write the corresponding form or schedule number or letter and follow the same format. **Show totals on the printed form.** Also include the organization's name and employer identification number (EIN). The separate sheets should be the same size as the printed form and should be attached after the printed form.

Specific Instructions

Name and Address.—The name and address on Form 990-T should be the same as the name and address shown on the mailing label on Package 990 (or 990-PF). If any information on the label is incorrect or missing, cross out any errors, print the correct information and add any missing information.

Include the suite, room, or other unit number after the street address. If the Post Office does not deliver mail to the street address and the organization has a P.O. box, show the box number instead of the street address.

Block A.—**Form 8822**, Change of Address, can be filed to notify the IRS of a change of address that occurs after the return is filed.

Block B.—If the return is filed for an IRA trust, check the box marked "408(e)."

Block C.—An employees' trust described in section 401(a) and exempt under section 501(a) should enter its trust identification number in this block. An IRA trust enters its employer identification number (EIN) in this block. An EIN is obtained by filing **Form SS-4**, Application for Employer Identification Number.

Block D.—Insert the applicable unrelated business activity code(s) from the list on the last page of these instructions.

Block E.—Check the box that describes your organization.

Section 408(a) trusts (IRAs) with \$1,000 or more of gross income from an unrelated trade or business should check the "Section 408(a) trust" box. Section 408(e) provides that income from an IRA is exempt from tax with certain exceptions. For example, the IRA is subject to tax under section 511 relating to income from an unrelated trade or business.

If you check "Corporation," leave line 37 blank. If you check "Trust," "Section 401(a) trust," or "Section 408(a) trust," leave lines 36a, b, and c blank.

Block F.—If the organization is covered by a group exemption, enter the group exemption number.

Block G.—Describe the unrelated business activity of your organization which is the largest in terms of unrelated income. Attach a schedule if more space is needed.

Block H.—Check the "Yes" box if your organization is a corporation and either 1 or 2 below applies:

1. The corporation is a subsidiary in an affiliated group (defined in section 1504) but is not filing a consolidated return for the tax year with that group.

2. The corporation is a subsidiary in a parent-subsidiary controlled group (defined in section 1563).

Note: If the corporation is an "excluded member" of a controlled group (see section 1563(b)(2)), it is still considered a member of a controlled group for this purpose.

Part I—Unrelated Trade or Business Income

Note: Complete column (A), lines 1 through 13. If the amount on line 13 is \$10,000 or less, you may complete only line 13 of columns (B) and (C). These filers do not have to complete Schedules A through K (however, refer to applicable schedules when completing column (A)). If the amount on line 13, column (A), is more than \$10,000, complete all lines and schedules that apply.

Line 1a—Gross receipts or sales.—Enter the gross income from any unrelated trade or

business regularly carried on that involves the sale of goods or performance of services.

Note: A section 501(c)(7) social club would report its restaurant and bar receipts from nonmembers on line 1, but would report its investment income on Schedule G and on line 9 of Part I.

For reporting advance payments, see Regulations section 1.451-5. To report income from long-term contracts, see section 460.

Generally, the installment method cannot be used for dealer dispositions of property. See section 453(l) for details and exceptions. For dealer dispositions of property before March 1, 1986, dispositions of property used or produced in the trade or business of farming, and certain dispositions of timeshares and residential lots reported under the installment method, enter on line 1a the gross profit on collections from installment sales and carry the same amount to line 3. Attach a schedule showing the following for the current year and the 3 preceding years: (1) gross sales, (2) cost of goods sold, (3) gross profits, (4) percentage of gross profits to gross sales, (5) amount collected, and (6) gross profit on amount collected. For sales of timeshares and residential lots reported under the installment method, the organization's income tax is increased by the interest payable under section 453(l)(3). Report this addition to the tax in a manner similar to "Sec. 1291 interest," described in the instructions for lines 36c and 37, page 2, Form 990-T.

Accrual basis taxpayers need not accrue certain amounts to be received from the performance of services which, on the basis of their experience, will not be collected (section 448(d)(5)). This provision does not apply to any amount if interest is required to be paid on the amount or if there is any penalty for failure to pay the amount on time. Organizations that fall under this provision should attach a schedule showing total gross receipts, amounts not accrued as a result of the application of section 448(d)(5), and the net amount accrued. The net amount should be entered on line 1a. For more information and guidelines on this "nonaccrual experience method," see Temporary Regulations section 1.448-2T.

Line 4a—Capital gain net income.—Generally, organizations required to file Form 990-T (except organizations described in sections 501(c)(7), (9), (17), and (20)) are not taxed on the net gains from the sale, exchange, or other disposition of property. However, net capital gains on debt-financed property, capital gains on cutting timber, and ordinary gains on sections 1245, 1250, 1252, 1254, and 1255 property are taxed. Refer to **Form 4797**, Sales of Business Property, and its instructions for additional information.

Capital gains and losses should be reported by a trust on **Schedule D (Form 1041)**, Capital Gains and Losses, and by a corporation on **Schedule D (Form 1120)**.

An organization that transfers securities it owns for the contractual obligation of the borrower to return identical securities recognizes no gain or loss. To qualify for this treatment, the organization must lend the securities under an agreement that requires:

1. The return of identical securities;
2. The payment of amounts equivalent to the interest, dividends, and other distributions that the owner of the securities would normally receive; and
3. The risk of loss or opportunity for gain not be lessened.

See section 512(a)(5) for more information.

The amount of gain or loss to be reported on the sale, exchange, or other disposition of

debt-financed property is the same percentage as the highest acquisition indebtedness for the property for the 12-month period before the date of disposition is to the average adjusted basis of the property. The percentage may not be more than 100%. See the instructions for Schedule E, column 5, to determine adjusted basis and average adjusted basis.

Example.—On January 1, 1991, an exempt educational corporation purchased an office building for \$608,000 using \$288,000 of borrowed funds. The only adjustment to basis was \$37,800 for depreciation (straightline method under MACRS over the 31.5-year recovery period for nonresidential real property). The corporation sold the building on December 31, 1992, for \$640,000. At the date of sale, the adjusted basis of the building was \$570,200 (\$608,000 less \$37,800) and the indebtedness remained at \$288,000. The adjusted basis of the property on the first day of the year of disposition was \$589,505. The average adjusted basis would be \$579,853 $(\$589,505 + \$570,200 \div 2)$. The debt/basis percentage would be 50% $(\$288,000 \div \$579,853)$.

The taxable gain is \$34,900 $(50\% \times (\$640,000 - \$570,200))$. This is a long-term capital gain. A corporation should enter the gain on line 6, Part II, Schedule D (Form 1120); a trust should use line 7, Part II, Schedule D (Form 1041). Both should attach a statement to the return showing how the gain was figured.

If debt-financed property is depreciable or depletable property, the provisions of sections 1245, 1250, 1252, 1254, and 1255 must be considered first.

Line 4b—Net gain or (loss).—Show gains and losses on other than capital assets on Form 4797. Enter on this line the net gain or (loss) from Part II, line 20, Form 4797.

An exempt organization using Form 4797 to report ordinary gain on sections 1245, 1250, 1252, 1254, and 1255 property will include only depreciation, amortization, or depletion allowed or allowable in figuring unrelated business taxable income or taxable income of the organization (or a predecessor organization) for a period when it was not exempt.

Line 4c—Capital loss deduction for trusts.—If a trust has a net capital loss, it is subject to the limitations in Schedule D (Form 1041). Enter on this line the loss figured on Schedule D (Form 1041).

Line 5—Income or (loss) from partnerships.—If the organization is a partner in a partnership carrying on an unrelated trade or business, enter on an attachment the organization's share (whether or not distributed) of the partnership's gross income from the unrelated trade or business, and its share of the partnership deductions directly connected with the unrelated gross income. An organization's share of gross income from a publicly traded partnership interest acquired after December 17, 1987, is unrelated trade or business income from the partnership, regardless of whether the income is distributed. The organization may deduct its share of the partnership's deductions in computing unrelated business taxable income.

Figure the gross income and deductions of the partnership in the same way you figure unrelated trade or business income the organization earns directly. Attach a separate statement to this return showing how you figured the income or loss. See Forms 6198 and 8582 (for trusts) or Form 8810 (for corporations), and sections 465 and 469 for limitations on losses for certain activities.

Line 12—Other income.—Enter on line 12 any item of unrelated business income that is not reportable elsewhere on the return. Include

recoveries of bad debts deducted in earlier years under the specific charge-off method. Attach a separate schedule of any items of other income to your return.

Organizations described in section 501(c)(19).—Enter the net income from insurance business that was not properly set aside. These organizations may set aside income from payments received for life, sick, accident, or health insurance for members of the organization or their dependents:

1. To provide for the payment of insurance benefits; or
2. For a purpose specified in section 170(c)(4) (religious, charitable, scientific, literary, educational, etc.); or
3. For administrative costs directly connected with benefits described in 1 and 2 above.

Amounts set aside and used for purposes other than those in 1, 2, or 3 above, must be included in unrelated business taxable income for the tax year if they were previously excluded from taxable income.

Any amount spent for a purpose described in section 170(c)(4) is first considered paid from funds earned by the organization from insurance activities if the income is not used for the insurance activities.

Expenditures for lobbying are not considered section 170(c)(4) expenses.

Income from property financed with qualified 501(c)(3) bonds.—If any part of the property is used in a trade or business of any person other than a section 501(c)(3) organization or a governmental unit, your section 501(c)(3) organization is considered to have received unrelated business income in the amount of the greater of the actual rental income or the fair rental value of the property for the period it is used. No deduction is allowed for interest on the private activity bond. Report the greater of the actual rent or the fair rental value on line 12, Part I. Report allowable deductions in Part II. See section 150(b)(3) for more information.

Passive foreign investment company (PFIC) shareholders.—If your organization is a direct or indirect shareholder of a PFIC within the meaning of section 1296, it may have income tax consequences under section 1291 on the disposition of the PFIC stock or on receipt of an excess distribution from the PFIC, described in section 1291(a). Your organization may have current income under section 1293 if the PFIC is a qualified electing fund (QEF) with respect to the organization.

Include on line 12 the portion of an excess distribution or section 1293 inclusion that is taxable as unrelated business taxable income. See **Form 8621**, Return by a Shareholder of a Passive Foreign Investment Company or Qualified Electing Fund, for more information on reporting excess distributions and current income inclusions.

See the instructions for Part III, lines 36c and 37 for reporting the deferred tax amount that may be owed by your organization with respect to an excess distribution.

Part II—Deductions Not Taken Elsewhere

Note: If the amount on Part I, line 13, column (A), is \$10,000 or less, **do not** complete lines 14 through 28 of Part II. Instead, complete only lines 29 through 34 of Part II. Complete Parts III through V and the signature area on page 2. Part II, lines 14 through 34, must be completed by all organizations with unrelated trade or business gross income (Part I, line 13, column (A)) over \$10,000.

Only expenses **directly** connected with unrelated trade or business income (except contributions) may be deducted on these lines. Contributions may be deducted, whether or not directly connected. Do not separately include in Part II any expenses that are reported in Schedules A through J, other than excess exempt expenses entered on line 26 and excess readership costs entered on line 27. For example, officers' compensation allocable to advertising income is reported in Schedule J only, and should not be included in Schedule K or line 14 of Part II.

Limits on Deductions

The following items discuss certain areas in which the amount of the deduction may to some extent be limited:

1. Transactions between related taxpayers. See section 267 for limit on deductions for unpaid expenses and interest.
2. Tax preference items. Corporations may be required to adjust deductions for depletion of iron ore and coal, intangible drilling and exploration and development costs, and the amortizable basis of pollution control facilities. See section 291 to determine the amount of the adjustment.
3. Section 263A uniform capitalization rules. These rules require organizations to capitalize or include in inventory certain costs incurred in connection with the production of real and personal tangible property held in inventory or held for sale in the ordinary course of business. Tangible personal property produced by an organization includes a film, sound recording, videotape, book, or similar property. The rules also apply to personal property (tangible and intangible) acquired for resale. Organizations subject to the rules are required to capitalize not only direct costs but an allocable portion of most indirect costs (including taxes) that relate to the assets produced or acquired for resale. Interest expense paid or incurred during the production period of certain property must be capitalized and is governed by special rules. For more details, see Notice 88-99, 1988-2 C.B. 422. The uniform capitalization rules also apply to the production of property constructed or improved by an organization for use in its unrelated trade or business.

Section 263A does not apply to personal property acquired for resale if the organization's annual average gross receipts are \$10 million or less. It does not apply to timber or to most property produced under a long-term contract. Special rules apply for farmers. The rules do not apply to property that is produced for use by the organization if substantial construction had occurred before March 1, 1986.

In the case of inventory, some of the indirect costs that must be capitalized are administration expenses; taxes; depreciation; insurance; compensation paid to officers attributable to services; rework labor; and contributions to pension, stock bonus, and certain profit-sharing, annuity, or deferred compensation plans.

The costs that must be capitalized under section 263A are not deductible until the property to which the costs relate is sold, used, or otherwise disposed of by the organization.

Current deductions may still be claimed for reasonable research and experimental costs under section 174, intangible drilling costs for oil and gas and geothermal property, and mining and exploration and development costs. Temporary Regulations section 1.263A-1T specifies other indirect costs that may be currently deducted and those that must be capitalized with respect to production or resale

activities. For more information, see Temporary Regulations section 1.263A-1T.

4. Meals, travel, and entertainment expenses. The amount deductible for meals and entertainment expenses is generally limited to 80% of the amount otherwise allowable. In addition, meals must not be lavish or extravagant; a bona fide business discussion must occur during, immediately before, or immediately after the meal, and an employee of the organization must be present at the meal. See section 274 for more information.

Line 16—Repairs.—Enter the cost of incidental repairs not claimed elsewhere on the return, such as labor and supplies, that do not add to the value or appreciably prolong the life of the property.

Line 17—Bad debts.—Enter the total receivables from unrelated business activities that were previously included in taxable income and that became worthless in whole or in part during the tax year.

Line 18—Interest.—Attach a separate schedule listing the interest being claimed on this line.

If the proceeds of a loan were used for more than one purpose (e.g., to purchase a portfolio investment and to acquire an interest in a passive activity), an interest allocation must be made. See Temporary Regulations section 1.163-8T for the interest allocation rules.

Do not include interest on indebtedness incurred or continued to purchase or carry obligations on which the interest income is totally exempt from income tax. For exceptions, see section 265(b).

Generally, a cash basis taxpayer cannot deduct prepaid interest allocable to years following the current tax year. For example, a cash basis calendar year taxpayer who in 1992 prepaid interest allocable to any period after 1992 can deduct only the amount allocable to 1992.

Generally, the interest and carrying charges on straddles cannot be deducted and must be capitalized. See section 263(g).

See section 163(e)(5) for special rules for the disqualified portion of original issue discount on a high yield discount obligation.

Certain interest paid or accrued by the organization (directly or indirectly) to a related person may be limited if no tax is imposed on such interest. See section 163(j) for more details.

Do not deduct interest on debt allocable to the production of qualified property. Interest that is allocable to such property produced by an organization for its own use or for sale must be capitalized. An organization must also capitalize any interest on debt allocable to an asset used to produce the above property. See section 263A and Notice 88-99 for definitions and more information.

See section 7872 for special rules regarding the deductibility of foregone interest on certain below-market-rate loans.

Line 19—Taxes.—Enter taxes paid or accrued during the year. Do not include Federal income taxes, excise taxes imposed by Chapter 41, 42, or 43, foreign or U.S. possession income taxes if a foreign or possession income tax credit is claimed, or taxes not imposed on your organization. Taxes, including state or local sales taxes, paid or incurred in connection with an acquisition or disposition of property must be treated as part of the cost of the acquired property or, in the case of a disposition, as a reduction in the amount realized on the disposition.

If a corporation is liable for environmental tax under section 59A, see **Form 4626**, Alternative

Minimum Tax—Corporations, for the computation of the environmental tax deduction.

See section 164(d) for apportionment of taxes on real property between the buyer and seller.

Line 20—Charitable Contributions.—If a contribution is in property other than money and the total claimed deduction of all property contributed exceeds \$500, attach a schedule describing the kind of property contributed and the method used in determining its fair market value. If the total claimed deduction for all property contributed was more than \$5,000, attach **Form 8283**, Noncash Charitable Contributions, to the return.

If the organization made a qualified conservation contribution under section 170(h), also include the fair market value of the underlying property before and after the donation, the type of legal interest contributed, and describe the conservation purpose furthered by the donation.

For a special rule for certain contributions of ordinary income and capital gain property, see section 170(e).

If a charitable contribution deduction is taken for property sold to a charitable organization, the adjusted basis for determining gain from the sale is an amount that is in the same ratio to the adjusted basis as the amount realized is to the fair market value of the property.

Corporations.—If the organization is taxed at corporate rates, enter contributions or gifts actually paid to another organization within the tax year for the use of charitable and governmental organizations described in section 170(c). Also, enter any unused contributions carried over from earlier years.

The total amount claimed may not be more than 10% of the unrelated business taxable income figured without any deduction for contributions but taking into account:

- a. The deduction for dividends received on unrelated debt-financed income (Schedule E); and
- b. Any net operating loss carryback to the tax year under section 172; and
- c. Any capital loss carryback to the tax year under section 1212(a)(1).

Therefore, if the organization carries back a 1992 net operating loss or capital loss to the 1989 tax year, the maximum allowable deduction for contributions in 1989 must be refigured at that time.

Charitable contributions over the 10% limitation may not be deducted for the tax year, but may be carried over to the next 5 tax years.

Taxable income is modified in order to determine the amount of a net operating loss used in an intervening year (i.e., a year to which a net operating loss is carried but not fully absorbed). For this purpose, taxable income is computed by determining the net operating loss deduction for the year without regard to the net operating loss for the loss year or any later year. See section 172(b)(2). To the extent charitable contributions are used to reduce taxable income for this purpose and increase a net operating loss carryover, a contributions carryover is not allowed. See section 170(d)(2)(B).

This deduction for contributions will be allowed whether or not directly connected with the carrying on of a trade or business. Organizations on the accrual basis may elect to deduct contributions paid by the 15th day of the 3rd month after the end of the tax year if the contributions are authorized by the board of directors during the tax year. A declaration, signed by an officer, stating that the resolution authorizing the contributions was adopted by the

board of directors during the tax year and a copy of the resolution must both be attached to the return.

Trusts.—Organizations taxed at trust rates under section 1(e) should enter charitable contributions or gifts actually paid to another organization within the tax year for the use of a charitable or governmental organization described in section 170(c).

In general:

1. For contributions to organizations described in section 170(b)(1)(A), the amount claimed may not be more than 50% of the unrelated business taxable income figured without this deduction; and,

2. For contributions to other organizations, the amount claimed may not be more than the smaller of:

a. 30% of unrelated business taxable income figured without this deduction; or

b. The amount by which 50% of the unrelated business taxable income is more than the contributions allowed in 1 above.

Note: Contributions not allowable in whole or in part because of the limitations may not be deducted as a business expense.

Line 21—Depreciation.—Besides depreciation, include on line 21 the part of the cost (up to \$10,000) that the organization elected to expense for certain tangible property placed in service during tax year 1992 or carried over from 1991. See **Form 4562**, Depreciation and Amortization, and its instructions.

Line 23—Depletion.—See sections 613 and 613A for percentage depletion rates for natural deposits. Attach **Form T (Timber)**, Forest Industries Schedules, if a deduction is taken for depletion of timber.

Line 24—Contributions to deferred compensation plans.—Employers who maintain pension, profit-sharing, or other funded deferred compensation plans are generally required to file one of the 5500 series forms specified in the following paragraph. This requirement applies whether or not the plan is qualified under the Internal Revenue Code and whether or not a deduction is claimed for the current tax year. Section 6652(e) imposes a penalty for late filing of these forms. In addition, there is a penalty for overstating the pension plan deduction. See section 6662(f).

Form 5500.—Complete this form for each plan with 100 or more participants.

Form 5500-C/R.— Complete this form for each plan with fewer than 100 participants.

Line 25—Employee benefit programs.— Enter the amount of contributions to employee benefit programs (e.g., insurance, health and welfare programs) that are not an incidental part of a deferred compensation plan included on line 24.

Line 28—Other deductions.—Enter on this line the deduction taken for amortization (see Form 4562) as well as other authorized deductions for which no space is provided on the return. Attach a separate schedule listing the deductions claimed on this line. Deduct only items directly connected with the unrelated trade or business for which income is reported in Part I.

Line 31—Net operating loss deduction.—The “net operating loss deduction” is the total of the net operating loss carryovers and carrybacks that can be deducted in the tax year. See section 172(a).

An organization may have available a net operating loss deduction derived from its unrelated business taxable income. The amount of a net operating loss carryback or carryover is

determined under section 172. See Regulations section 1.512(b)-1(e).

Line 33—Specific deduction.—A specific deduction of \$1,000 is allowed except for computing the net operating loss and the net operating loss deduction under section 172.

Only one specific deduction may be taken, regardless of the number of unrelated businesses conducted. However, a diocese, province of a religious order, or convention or association of churches is allowed one specific deduction for each parish, individual church, district, or other local unit that regularly conducts an unrelated trade or business. This applies only to those parishes, districts, or other local units that are not separate legal entities, but are components of a larger entity (diocese, province, convention, or association). Each specific deduction will be the smaller of \$1,000 or the gross income from any unrelated trade or business the local unit conducts. If you claim a total specific deduction larger than \$1,000, attach a schedule showing how you figured the amount.

The diocese, province of a religious order, or convention or association of churches must file a return reporting the gross income and deductions of all its units that are not separate legal entities. These local units cannot file separate returns because they are not separately incorporated. Local units that are separately incorporated must file their own returns and cannot be included with any other entity except for a title holding company. See the instructions under **Consolidated Returns** on page 2.

For details on the specific deduction, see section 512(b)(12) and the related regulations.

Part III—Tax Computation

Lines 36a and 36b.—Corporate members of a controlled group, as defined in section 1563, are entitled to one \$50,000 and one \$25,000 taxable income bracket amount (in that order) on line 36a.

When a controlled group adopts or later amends an apportionment plan, each member must attach to its tax return a copy of its consent to this plan. The copy (or an attached statement) must show the part of the amount in each taxable income bracket apportioned to that member. There are other requirements as well. See Regulations section 1.1561-3(b) for the requirements and for the time and manner of making the consent.

Equal Apportionment Plan.—If no apportionment plan is adopted, the members of the controlled group must divide the amount in each taxable income bracket equally among themselves. For example, Controlled Group AB consists of Corporation A and Corporation B. They do not elect an apportionment plan. Therefore, both Corporation A and Corporation B are entitled to \$25,000 (one-half of \$50,000) in the \$50,000 taxable income bracket on line 36a(i) and to \$12,500 (one-half of \$25,000) in the \$25,000 taxable income bracket on line 36a(ii).

Unequal Apportionment Plan.—Members of a controlled group may elect an unequal apportionment plan and divide the taxable income brackets as they wish. There is no need for consistency between taxable income brackets. Any member of the controlled group may be entitled to all, some, or none of the taxable income bracket. However, the total amount for all members of the controlled group cannot be more than the total amount in each taxable income bracket.

Worksheet for Members of a Controlled Group (keep for your records)

Each member of a controlled group must compute the tax using the computation below:

1. Enter taxable income (line 34, page 1, Form 990-T) _____
2. Enter line 1 or the corporation's share of the \$50,000 taxable income bracket, whichever is less _____
3. Subtract line 2 from line 1 _____
4. Enter line 3 or the corporation's share of the \$25,000 taxable income bracket, whichever is less _____
5. Subtract line 4 from line 3 _____
6. Enter 15% of line 2 _____
7. Enter 25% of line 4 _____
8. Enter 34% of line 5 _____
9. If the taxable income of the controlled group exceeds \$100,000, enter this member's share of the **smaller** of:
(a) 5% of the excess over \$100,000, or
(b) \$11,750. (See instructions for additional 5% tax, below.) _____
10. Total of lines 6 through 9. Enter this amount on line 36c, page 2, Form 990-T _____

Additional 5% tax.—Members of a controlled group are treated as one corporation for purposes of figuring the applicability of the additional 5% tax that must be paid by corporations with taxable income in excess of \$100,000. If the additional tax applies, each member of the controlled group will pay that tax based on the part of the amount that is used in each taxable income bracket to reduce that member's tax. See section 1561(a). Each member must enter its share of the additional 5% tax on line 36b and attach to its tax return a schedule that shows the taxable income of the entire group, as well as how its share of the additional tax was figured.

Lines 36c and 37

Deferred tax amount under section 1291.—If your organization has an excess distribution from a passive foreign investment company (PFIC) that is taxable as unrelated business taxable income, the organization may owe the deferred tax amount defined in section 1291(c)(1). The portion of the deferred tax amount that is the aggregate increases in taxes (described in section 1291(c)(2)) must be included in the amount entered on line 36c or 37. Write to the left of line 36c or 37, “Sec. 1291” and the amount. Do not include on line 36c or 37 the portion of the deferred tax amount that is the aggregate amount of interest determined under section 1291(c)(3). Instead, write “Sec. 1291 interest” and the amount in the bottom margin of page 1, Form 990-T. See **Form 8621**, Return by a Shareholder of a Passive Foreign Investment Company or Qualified Electing Fund, Part III.

Line 36c—Corporations.—A corporation must compute the tax on its taxable income using the Tax Rate Schedule for Corporations on page 7 (members of a controlled group should see the instructions above for lines 36a and b). If the organization is a trust, skip to line 37 to figure the tax.

Line 37—Trusts.—Trusts exempt under section 501(a), which otherwise would be subject to subchapter J (estates, trusts, etc.), are taxed at trust rates. This rule also applies to employees' trusts that qualify under section 401(a). Trusts figure the tax on the amount on line 35 using the Tax Rate Schedule for Trusts on page 7. Enter this amount on line 37.

**Tax Rate Schedule for Corporations
(Section 11 of the Internal Revenue Code)**

| If the amount on line 35, page 2 is: | | Enter on line 36c, page 2: |
|--------------------------------------|---------------|--|
| Over— | but not over— | |
| \$0 | \$50,000 | 15% of the amount over \$0 |
| 50,000 | 75,000 | \$7,500 plus 25% of the amount over \$50,000 |
| 75,000 | 100,000 | \$13,750 plus 34% of the amount over \$75,000 |
| 100,000 | 335,000 | \$22,250 plus 39% of the amount over \$100,000 |
| 335,000 | - - - - | 34% of the amount on line 35 |

**Tax Rate Schedule for Trusts
(Section 1(e) of the Internal Revenue Code)**

| If the amount on line 35, page 2 is: | | Enter on line 37, page 2: |
|--------------------------------------|--|--|
| Not over \$3,600 | | 15% of the amount on line 35, page 2 |
| Over \$3,600 but not over \$10,900 | | \$540.00, plus 28% of the amount over \$3,600 |
| Over \$10,900 | | \$2,584.00, plus 31% of the amount over \$10,900 |

If you are eligible for the maximum 28% rate on net capital gains, complete Schedule D (Form 1041) and enter the tax from Part VI of Schedule D (Form 1041) on page 2, line 37. Check the "Schedule D" box on line 37 and attach Schedule D (Form 1041) to Form 990-T.

Enter the amount of the general business credit on line 38c and check the Form 3800 box on that line. Attach Form 3800 and the other applicable credit forms to Form 990-T.

Form 3800 is not required if the organization has only one of the general business credits (and items 2 and 3 above do not apply). Instead, attach the applicable credit form to the return, check the appropriate box, and specify the form number.

Part IV—Tax and Payments

Line 38a—Foreign tax credit.—

• **Corporations.**—See **Form 1118**, Foreign Tax Credit—Corporations, for an explanation of when a corporation can take this credit for payment of income tax to a foreign country or U.S. possession.

• **Trusts.**—See **Form 1116**, Foreign Tax Credit (Individual, Fiduciary, or Nonresident Alien Individual), for rules on how the trust computes the foreign tax credit.

Complete the form that applies to the organization and attach the form to its Form 990-T. Enter the credit on this line.

Note: If the organization had operations in or related to an international boycott, it may be required to report these operations. See **Form 5713**, International Boycott Report.

Line 38b—Other credits.—

• **Possessions tax credit.**—See **Form 5712**, Election To Be Treated as a Possessions Corporation Under Section 936, for rules on how to elect to claim the possessions tax credit (section 936). Compute the credit on **Form 5735**, Possessions Corporation Tax Credit Allowed Under Section 936.

• **Credit for fuel produced from a nonconventional source.**—A credit is allowed for the sale of qualified fuels produced from a nonconventional source. Section 29 contains a definition of qualified fuels, provisions for figuring the credit, and other special rules. Attach a separate schedule to the return showing the computation of the credit. Also, see **Form 8801**, Credit for Prior Year Minimum Tax—Individuals and Fiduciaries or **Form 8827**, Credit for Prior Year Minimum Tax—Corporations, if any of the 1991 nonconventional source fuel credit is disallowed solely because of the tentative minimum tax limitation. See section 53(d).

Line 38c—General business credit.—

• **Form 3800**, General Business Credit.—Complete Form 3800 if the organization has:

1. More than one of the credits listed below; OR
2. A credit carryforward or carryback (including one from an ESOP credit); OR
3. A passive activity credit.

Form 3800 is not required if the organization has only one of the general business credits (and items 2 and 3 above do not apply). Instead, attach the applicable credit form to the return, check the appropriate box, and specify the form number.

• *The general business credit includes:*

1. **Investment credit.** The investment credit was generally repealed for property placed in service after 1985. See **Form 3468**, Investment Credit, for exceptions.

2. **Alcohol fuel credit.** The organization may be able to take a credit for alcohol used as fuel. Use **Form 6478**, Credit for Alcohol Used As Fuel, to figure the credit and attach to Form 990-T.

3. **Credit for increasing research activities.** See **Form 6765**, Credit for Increasing Research Activities, and section 41.

4. **Low-Income Housing Credit.** See section 42 and **Form 8586**, Low-Income Housing Credit.

5. **Disabled access credit.** An organization may be able to take a credit for certain expenses paid or incurred to assist disabled individuals. Use **Form 8826**, Disabled Access Credit, to figure the credit and attach it to Form 990-T.

6. **Enhanced oil recovery credit.** An organization may claim a credit of 15% of qualified enhanced oil recovery costs. Use **Form 8830**, Enhanced Oil Recovery Credit, to figure the credit.

Line 38d—Credit for prior year minimum tax.—Use **Form 8801**, Credit for Prior Year Minimum Tax—Individuals and Fiduciaries, to figure the minimum tax credit and any carryforward of that credit for trusts. For corporations, use **Form 8827**, Credit for Prior Year Minimum Tax—Corporations.

Line 41—Recapture Taxes.—Recapture of investment credit. If property is disposed of or ceases to be qualified property before the end of the life-years used in computing the regular or energy investment credit, there may be a recapture of the credit. See **Form 4255**, Recapture of Investment Credit.

Recapture of low-income housing credit. If you must recapture part of the low-income housing credit because there has been a decrease in the qualified basis of a building from the prior year or if you disposed of the building or an ownership interest in it, see **Form 8611**, Recapture of Low-Income Housing Credit, and section 42(j).

Line 42a—Alternative minimum tax.— Organizations liable for tax on unrelated business taxable income may be liable for alternative minimum tax on tax preference items. Trusts attach **Schedule H**, Alternative Minimum Tax of Form 1041 and enter any tax from Schedule H on this line. Corporations attach **Form 4626**, Alternative Minimum Tax—Corporations, and enter any tax from Form 4626 on this line.

Reduce alternative minimum tax by any credit allowed under section 38(c)(2) on line 34 of Schedule A, Form 3800. Write in the margin to the left of line 42a, "Sec. 38(c)(2)" and the amount.

Line 42b—Environmental tax.—Corporations should attach Form 4626 and enter any environmental tax on this line. Corporations may be liable for the environmental tax even if there is no alternative minimum tax due.

Line 42c.—Enter the total of lines 42a and 42b.

Line 43—Total tax.—Interest on tax attributable to payments received on installment sales of certain timeshares and residential lots.—If the organization elected to pay interest on the amount of tax attributable to payments received on installment obligations from the disposition of certain timeshares and residential lots under section 453(l)(3), it must include the interest due in the amount to be entered on line 43, Form 990-T. Write on the dotted line to the left of line 43, "Sec. 453(l)(3) interest" and the amount. Attach a schedule showing the computation.

Interest on tax deferred under the installment method for certain nondealer installment obligations.—If an obligation from the disposition of property to which section 453A applies is outstanding at the close of the year, the organization must include the interest due under section 453A(c) in the amount to be entered on line 43, Form 990-T. Write on the dotted line to the left of line 43, "Sec. 453A(c) interest" and the amount. Attach a schedule showing the computation.

Interest under the look-back method for completed long-term contracts.—Include the interest due under the look-back method of section 460(b)(2) on line 43. Write on the dotted line to the left of the entry space, "From Form 8697" and the amount of interest due.

Line 44b—Estimated tax.—Enter the total estimated tax payments made for the tax year.

If an organization is the beneficiary of a trust, and the trust makes a section 643(g) election to credit its estimated tax payments to its beneficiaries, include the organization's share of the estimated tax payment in the total amount entered here. In the entry space to the left of line 44b, write "T" and the amount attributable to it.

Line 44d—Foreign organizations.—Enter the tax withheld on unrelated business taxable income from U.S. sources that is not effectively connected with the conduct of a trade or business within the United States.

Line 44e—Other credits and payments.—Enter on this line the following:

• **Credit from regulated investment company (RIC).**—Attach **Form 2439**, Notice to Shareholder of Undistributed Long-Term Capital Gains. If you are filing a composite Form 990-T, attach Form 2439 for each RIC.

• **Credit for Federal tax paid on fuels.**—Attach **Form 4136**, Credit for Federal Tax Paid on Fuels.

• **Credit for ozone-depleting chemicals.**—Include on line 44e any credit the organization is claiming for ozone-depleting chemicals used in

the manufacture of rigid foam insulation under section 4682(g)(3).

• **Refunds of erroneous backup withholding.**—Recipients of dividend or interest payments must generally certify their correct tax identification number to the bank or other payer on Form W-9. If the payer does not get this information, it must withhold part of the payments as “backup withholding.” If your organization files Form 990 and was subject to erroneous backup withholding because the payer did not realize you were an exempt organization and not subject to this withholding, you can claim credit for the amount withheld by including it on line 44e and writing “ERRONEOUS BACKUP WITHHOLDING” to the left of the entry space.

If your only reason for filing a Form 990-T is to claim a refund of this withholding, complete only the year, name, address, and employer identification number at the top of the form. Enter zero on lines 13a, 34, and 43 and complete line 44e as described above. Also, complete lines 45 and 48. Fill in the signature and Paid Preparer’s areas, and attach a copy of the Form 1099 statement(s) showing the withholding.

Line 47—Tax due.—All organizations must pay the tax due in full when the return is filed, but no later than the 15th day of the 5th month after the end of the tax year.

Domestic organizations and foreign organizations with an office or place of business in the United States must deposit income tax payments and estimated tax payments with a Federal Tax Deposit Coupon (Form 8109). Make these tax deposits with either a financial institution qualified as a depository for Federal taxes or the Federal Reserve bank or branch servicing the geographic area where the organization is located. Do not submit deposits directly to an IRS office; otherwise, the organization may be subject to a failure to deposit penalty. Records of deposits will be sent to the IRS for crediting to the organization’s account. See the instructions in the coupon book (Form 8109) for details.

All foreign organizations that do not have an office or place of business in the United States may pay the tax by check or money order (in U.S. dollars) payable to the Internal Revenue Service. The tax due must be paid in full when the return is filed.

Part V—Statements Regarding Certain Activities and Other Information

Be sure to complete all items in Part V.

Question 1.—Check the “Yes” box if either 1 or 2 below applies:

1. At any time during the year the organization had an interest in or signature or other authority over a financial account in a foreign country (such as a bank account, securities account, or other financial account); AND

a. The combined value of the accounts was more than \$10,000 at any time during the year; AND

b. The accounts were NOT with a U.S. military banking facility operated by a U.S. financial institution.

2. The organization owns more than 50% of the stock in any corporation that would answer the question “Yes” to item 1 above.

If “Yes” is checked to question 1, write the name of the foreign country or countries. Attach a separate sheet if more space is needed.

Get Form TD F 90-22.1, Report of Foreign Bank and Financial Accounts, to see if the organization is considered to have an interest in or signature or other authority over a financial

account in a foreign country (such as a bank account, securities account, or other financial account). The organization can obtain Form TD F 90-22.1 from the IRS Forms Distribution Center. If the organization is required to file this form, file it by June 30, 1993, with the Department of the Treasury at the address shown on the form. Do not file it with the IRS or attach it to Form 990-T.

Question 2.—Check the “Yes” box if the organization was ever a grantor of, or transferor to, a foreign trust that existed during this tax year.

Item 3.—Report any tax-exempt interest received or accrued in the space provided. Include any exempt-interest dividends received as a shareholder in a mutual fund or other regulated investment company.

Signature

Corporations.—The return must be signed and dated by the president, vice president, treasurer, assistant treasurer, chief accounting officer, or by any other corporate officer (such as tax officer) authorized to sign. Receivers, trustees, or assignees must also sign and date any return filed on behalf of the organization.

Trusts.—The return must be signed and dated by the individual fiduciary, or by the authorized officer of the trust receiving or having custody, or control and management of the income of the trust. If two or more individuals act jointly as fiduciaries, any one of them may sign.

Paid preparer.—If an officer of the organization filled in its return, the Paid Preparer’s space should remain blank. Anyone who prepares the return but does not charge the organization should not sign the return. Certain others who prepare the return should not sign. For example, a regular, full-time employee of the organization, such as a clerk, secretary, etc., should not sign.

Generally, anyone who is paid to prepare the organization’s tax return must sign it and fill in the Paid Preparer’s Use Only area of the return.

The paid preparer **must** complete the required preparer information and:

- Sign the return, by hand, in the space provided for the preparer’s signature. (Signature stamps or labels are not acceptable.)
- Give a copy of the return to the organization.

Schedule A—Cost of Goods Sold

Note: *If an organization is using Schedule A, page 2, to figure cost of goods sold where inventories are not an income-determining factor, it should enter a zero on lines 1 and 6 of the schedule.*

See the instructions below before completing Schedule A.

Inventory valuation methods.—Inventories can be valued at (1) cost, (2) cost or market value (whichever is lower), or (3) any other method that is approved by the IRS, and that conforms to the provisions of the applicable regulations cited below.

Organizations using erroneous valuation methods must change to a method permitted for Federal income tax purposes. Such a change should be made by filing Form 3115, Application for Change in Accounting Method. For more information about the change, see Regulations section 1.446-1(e)(3) and Rev. Proc. 84-74, 1984-2 C.B. 736, as modified by Rev. Proc. 88-15, 1988-1 C.B. 683.

Inventory may be valued below cost when the merchandise is (1) unsalable at normal prices, or (2) unusable in the normal way because the goods are “subnormal” (because of damage,

imperfections, shop wear, etc.) within the meaning of Regulations section 1.471-2(c). The goods may be valued at a current bona fide selling price, minus direct cost of disposition (but not less than scrap value), if such a price can be established. See Regulations section 1.471-2(c) for more requirements.

If this is the first year the “Last-in First-out” (LIFO) inventory method was either adopted or extended to inventory goods not previously valued under the LIFO method provided in section 472, attach Form 970, Application To Use LIFO Inventory Method, or a statement with the information required by Form 970.

If the organization changed or extended its inventory method to LIFO and had to “write up” its opening inventory to cost in the year of election, report the effect of this write up as income (line 12, page 1) proportionately over a 3-year period that begins in the tax year the election was made (section 472(d)).

Section 263A uniform capitalization rules.—The uniform capitalization rules of section 263A are discussed in general in the instructions for **Limits on deductions** on page 5. See those instructions before proceeding.

Schedule A, line 4a.—An entry is required on this line only for organizations that have elected a simplified method of accounting. For organizations that have elected the simplified production method, additional section 263A costs are generally those costs, other than interest, that were not capitalized or included in the inventory costs under the organization’s method of accounting immediately prior to the effective date in Temporary Regulations section 1.263A-1T, but that are now required to be capitalized under section 263A. In the case of organizations that have elected a simplified resale method, additional section 263A costs are generally those costs incurred with respect to the following categories: off-site storage or warehousing; purchasing; handling, processing, assembly, and repackaging; and general and administrative costs (mixed service costs). Enter on line 4a the balance of section 263A costs paid or incurred during the tax year not included on lines 2 and 3. See Temporary Regulations section 1.263A-1T for details.

Schedule A, line 4b.—Enter on line 4b any costs paid or incurred during the tax year not entered on lines 2 through 4a.

Schedule A, line 6.—See Temporary Regulations section 1.263A-1T for details on computing the amount of additional section 263A costs to be capitalized and added to ending inventory.

Schedule C—Rent Income

Sections 501(c)(7), (9), (17), and (20) organizations, enter gross rents on Part I, line 6, and applicable expenses on Part II, lines 14 through 28. All rents except those that are exempt function income must be included.

All organizations other than sections 501(c)(7), (9), (17), and (20) organizations should complete Schedule C on page 3 of the return. For organizations other than sections 501(c)(7), (9), (17), and (20) organizations, only the following rents are taxable in Part I, line 6:

1. Rents from personal property leased with real property, if the rents from the personal property are more than 10% of the total rents received or accrued under the lease, determined at the time the personal property is placed in service.

2. Rents from real and personal property if:

a. More than 50% of the total rents received or accrued under the lease are for personal property; or

b. The amount of the rent depends on the income or profits derived by any person from the property leased (except an amount based on a fixed percentage of receipts or sales).

A redetermination of the percentage of rent for personal property is required when either:

1. There is an increase of 100% or more by the placing of additional or substitute personal property in service; or
2. There is a modification of the lease that changes the rent charged.

Rents from both real and personal property not taxable in Part I, line 6 may be taxable on line 8 if the income is from a controlled organization or on line 7 if the property is debt-financed. Taxability of the rents must be considered in that order; that is, rents not taxed on line 6 may be taxed on line 8 and rents not taxed on line 6 or line 8 may be taxed on line 7.

See Form 8582 (for trusts) or Form 8810 (for corporations) and section 469 for limitations on losses on rental activities.

Schedule E—Unrelated Debt-Financed Income

All organizations except sections 501(c)(7), (9), (17), and (20) organizations should complete Schedule E.

When debt-financed property is held for exempt purposes and other purposes, the organization must allocate the basis, debt, income, and deductions among the purposes for which the property is held. Do not include in Schedule E amounts allocated to exempt purposes.

Column 1—Description of debt-financed property.—Any property held to produce income is debt-financed property if at any time during the tax year there was acquisition indebtedness outstanding for the property. When any property held for the production of income by an organization is disposed of at a gain during the tax year, and there was acquisition indebtedness outstanding for that property at any time during the 12-month period before the date of disposition, the property is debt-financed property. Securities purchased on margin are considered debt-financed property if the liability incurred in purchasing them remains outstanding.

Acquisition indebtedness is the outstanding amount of principal debt incurred by the organization to acquire or improve the property:

1. Before the property was acquired or improved, if the debt was incurred because of the acquisition or improvement of the property; or
2. After the property was acquired or improved, if the debt was incurred because of the acquisition or improvement, and the organization could reasonably foresee the need to incur the debt at the time the property was acquired or improved.

With certain exceptions, acquisition indebtedness does not include debt incurred by:

1. A qualified (section 401) trust in acquiring or improving real property. See section 514(c)(9) for more information.
2. A tax-exempt school (section 170(b)(1)(A)(ii)) and its affiliated support organizations (section 509(a)(3)) for indebtedness incurred after July 18, 1984.
3. An organization described in section 501(c)(25) in tax years beginning after December 31, 1986.

See Pub. 598 for additional exceptions to the rules for debt-financed property.

Column 2.—Income is not unrelated debt-financed income if it is otherwise included in unrelated business taxable income. For example, do not include rents from personal property shown in Schedule C, or rents and interest from controlled organizations shown in Schedule F.

Column 4.—Average acquisition indebtedness for any tax year is the average amount of the outstanding principal debt during the part of the tax year the property is held by the organization. To figure the average amount of acquisition debt, determine the amount of the outstanding principal debt on the first day of each calendar month during that part of the tax year that the organization holds the property. Add these amounts together, and divide the result by the total number of months during the tax year that the organization held the property. See section 514(a) and the related regulations for property acquired for an indeterminate price.

Column 5.—Determine the adjusted basis of property under section 1011. The average adjusted basis for debt-financed property is the average of the adjusted basis of the property on the first and last days during the tax year that the organization holds the property.

The adjusted basis is not affected if the organization was exempt from tax for earlier tax years. An adjustment must be made under section 1011 for the entire period since the acquisition of the property. Adjust the basis of the property by the depreciation for all earlier tax years, whether or not the organization was exempt from tax for any of these years. Similarly, for tax years during which the organization is subject to tax on unrelated business taxable income, adjust the basis of the property by the entire amount of allowable depreciation, even though only a part of the deduction for depreciation is taken into account in figuring unrelated business taxable income.

If no adjustments to the basis of property under section 1011 apply, the basis of the property is cost.

See section 514(d) and the related regulations for the basis of debt-financed property acquired in a complete or partial liquidation of a corporation in exchange for its stock.

Column 7.—The amount of income from debt-financed property included in unrelated trade or business income is figured by multiplying the property's gross income by the percentage obtained from dividing the property's average acquisition indebtedness for the tax year by the property's average adjusted basis during the period it is held in the tax year. This percentage cannot be more than 100%.

Column 8.—For each debt-financed property, deduct the same percentage (as determined above) of the total deductions that are directly connected to the income (including the dividends-received deductions allowed by sections 243, 244, and 245). However, if the debt-financed property is depreciable property, figure the depreciation deduction by the straight line method only, and enter the amount in column 3(a).

For each debt-financed property, attach schedules showing separately a computation of the depreciation deduction (if any) reported in column 3(a) and a breakdown of the expenses included in column 3(b). Corporations owning stock that is unrelated debt-financed property should see Schedule C (Dividends and Special Deductions) of Form 1120, U.S. Corporation Income Tax Return, to determine the dividends-received deductions to include in column 3(b).

Enter on the last line of Schedule E, the total dividends-received deductions (after reduction,

when applicable, by the debt-basis percentage(s)) included in column 8.

When a capital loss for the tax year may be carried back or carried over to another tax year, the amount to carry over or back is figured by using the percentage determined above. However, in the year to which the amounts are carried, do not apply the debt-basis percentage to determine the deduction for that year.

Example 1.—An exempt organization owns a four-story building. Two floors are used for an exempt purpose and two floors are rented (as an unrelated trade or business) for \$10,000. Expenses are \$1,000 for depreciation and \$5,000 for other expenses that relate to the entire building. The average acquisition indebtedness is \$6,000, and the average adjusted basis is \$10,000. Both apply to the entire building.

To complete Schedule E for this example, describe the property in column 1. Enter \$10,000 in column 2 (since the entire amount is for debt-financed property), \$500 and \$2,500 in columns 3(a) and 3(b), respectively (since only one-half of the expenses are for the debt-financed property), \$3,000 and \$5,000 in columns 4 and 5, respectively (since only one-half of the acquisition indebtedness and the average adjusted basis are for debt-financed property), 60% in column 6, \$6,000 in column 7, and \$1,800 in column 8.

Example 2.—Assume the same facts as in Example 1, except the entire building is rented out as an unrelated trade or business for \$20,000. To complete Schedule E for this example, enter \$20,000 in column 2, \$1,000 and \$5,000 in columns 3(a) and 3(b), respectively (since the entire amount is for debt-financed property), \$6,000 and \$10,000 in columns 4 and 5 (since the entire amount is for debt-financed property), 60% in column 6, \$12,000 in column 7, and \$3,600 in column 8.

Schedule F—Interest, Annuities, Royalties, and Rents From Controlled Organizations

Interest, annuities, royalties, and rents received by a controlling organization from a controlled organization are subject to tax, whether or not the activity conducted by the controlling organization to earn these amounts is a trade or business or is regularly carried on.

Control means: (a) for a stock corporation, the ownership of stock possessing at least 80% of the total combined voting power of all classes of stock entitled to vote and at least 80% of the total number of shares of all other classes of stock of the corporation, or (b) at least 80% of the directors or trustees of a nonstock organization are either representatives of, or directly or indirectly controlled by, an exempt organization.

Controlling organizations complete columns 1 through 7 of Schedule F as follows:

Column 2.—Enter total gross interest, annuities, royalties, and rents from each controlled organization during the year.

Column 3.—Enter the total deductions directly connected with the column 2 income for each controlled organization.

Column 4.—If the controlled organization is exempt from tax under section 501(a), enter in column 4(c) the percentage that is figured by dividing the unrelated business taxable income of the controlled organization by the greater of:

- The taxable income of the controlled organization (figured as though it were not exempt from tax under section 501(a)); or
- Its unrelated business taxable income.

Both are figured without any amount paid directly or indirectly to the controlling organization.

Column 5.—If the controlled organization is not exempt from tax under section 501(a), enter in column 5(c) the percentage that is figured by dividing the excess taxable income (defined below) of the controlled organization by the greater of:

- The taxable income of the controlled organization, or
- Its excess taxable income.

Both are figured without any amount paid directly or indirectly to the controlling organization.

Excess taxable income is the amount by which the controlled organization's taxable income is more than the taxable income that, if earned directly by the controlling organization, would not be unrelated business taxable income.

Schedule G—Investment Income of a Section 501(c)(7), (9), (17), or (20) Organization

All sections 501(c)(7), (9), (17), and (20) organizations figure their investment income using Schedule G. Do not include interest on state and local governmental obligations described in section 103(a).

Investment income includes all income from debt-financed property whether or not the income is subject to unrelated business income tax.

Deduct only those expenses that are directly connected to the net investment income. Allocate deductions between exempt activities and other activities where necessary. The organization may not take the dividends-received deductions in figuring net investment income because they are not treated as directly connected with the production of gross income.

Sections 501(c)(7), (9), (17), and (20) organizations may set aside income that would otherwise be taxable under section 512(a)(3). However, income derived from an unrelated trade or business may not be set aside and thus cannot be exempt function income. In addition, any income set aside and later expended for other purposes must be included in income.

Sections 501(c)(7), (9), (17), and (20) organizations will not be taxed on income set aside for:

1. Religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals;
2. The payment of life, sick, accident, or other benefits by a section 501(c)(9), (17), or (20) organization. The amount allowed as a set-aside may not exceed a limit determined using section 419A. See sections 419A and 512(a)(3)(E) for details;
3. Reasonable administration costs directly connected with 1 and 2 above.

Report income set aside in column 4 of Schedule G. Amounts set aside are not deductible under section 170 or any other section of the Code.

The organization may elect to treat income set aside by the date for filing the return, including any extensions of time, as income set aside in the tax year for which the return is filed. The income set aside must have been includible in gross income for that earlier tax year.

Although set-aside income may be accumulated, any accumulation that is unreasonable will be evidence that the set-aside was not for the purposes described above.

Net investment income set aside must be specifically earmarked as such, or placed in a separate account or fund (except for an employees' association which by the terms of its governing instrument must use its net investment income for the purposes stated in 2 above).

These rules apply to a corporation described in section 501(c)(2) (title holding company) whose income is payable to an organization described in section 501(c)(7), (9), (17), or (20) if it files a consolidated return with the section 501(c)(7), (9), (17), or (20) organization.

If a section 501(c)(7), (9), (17), or (20) organization (or a title holding company described above) sells property that was used for the exempt function of the section 501(c)(7), (9), (17), or (20) organization, and buys other property used for the organization's exempt function within a period beginning 1 year before the date of the sale, and ending 3 years after the date of the sale, the gain from the sale will be recognized only to the extent that the sales price of the old property is more than the cost of the other property. The other property need not be similar in type or use to the old property. The organization must notify the IRS of the sale by a statement attached to the return, or other written notice.

To compute the gain on the sale of depreciable property, see the instructions for column 5 of Schedule E to determine the adjusted basis of the property.

Schedule I—Exploited Exempt Activity Income, Other Than Advertising Income

A section 501(c)(7), (9), (17), or (20) organization does not report exploited exempt activity income in Schedule I. Report the income in Part I, line 1a instead or the appropriate line for the particular kind of income.

Exempt organizations (other than section 501(c)(7), (9), (17), or (20) organizations) that have gross income from an unrelated trade or business activity that exploits an exempt activity (other than advertising income) should complete Schedule I. See Regulations section 1.513-1(d)(4)(iv) for a definition of exploited exempt activity.

An organization may take all deductions directly connected with the gross income from the unrelated trade or business activity. In addition, the organization may take into account all deductible items attributable to the exploited exempt activity, with the following limitations:

1. Reduce the deductible items of the exempt activity by the income from the activity;
2. Limit the net amount of deductible items arrived at in 1 above for the exempt activity to the net unrelated business income from the exploited exempt activity;
3. Exclude income and expenses of the exempt activity in figuring a loss carryover or carryback from the unrelated trade or business activity exploiting the exempt activity; and
4. Exclude deductible items of the exempt activity in figuring unrelated trade or business income from an activity that is not exploiting the same exempt activity.

Therefore, the net includible exploited exempt activity income is the unrelated business taxable income minus the excess of the exempt activity expenses over the exempt activity income. If the income from the exempt activity exceeds the exempt activity expenses, do not add that profit to the net income from the unrelated business activity. If two or more unrelated trade or business activities exploit the same exempt

activity, treat those activities as one on Schedule I. Attach a separate schedule showing the computation.

Schedule J—Advertising Income

A section 501(c)(7), (9), (17), or (20) organization does not report advertising income in Schedule J. Instead report that income in Part I, line 1a.

An exempt organization (other than a section 501(c)(7), (9), (17), or (20) organization) that earned gross income from the sale of advertising in an exempt organization periodical must complete Schedule J. The part of the advertising income taken into account is determined as follows:

1. If direct advertising costs (expenses directly connected with advertising income) are more than advertising income (unrelated business income), deduct that excess in figuring unrelated business taxable income from any other unrelated trade or business activity carried on by the organization.

2a. If advertising income is more than direct advertising costs, and circulation income (exempt activity income) equals or exceeds readership costs (exempt activity expenses), then unrelated business taxable income is the excess of advertising income over direct advertising costs.

b. If advertising income is more than direct advertising costs, and readership costs are more than circulation income, then unrelated business taxable income is the excess of total income (advertising income and circulation income) over total periodical costs (direct advertising costs and readership costs).

c. If the readership costs are more than the circulation income, and the net readership costs are more than the excess of advertising income over direct advertising costs, no loss is allowable. See Regulations section 1.512(a)-1(f)(2)(ii)(b).

For allocating membership receipts to circulation income, see Rev. Rul. 81-101, 1981-1 C.B. 352.

Consolidated periodicals

Note: If you had income from periodicals reported on a separate basis in Part I of Schedule J, **do not use the same Schedule J to report income from periodicals on a consolidated basis in Part II. Instead, use a separate Schedule J to report consolidated periodicals. Combine the totals of both Schedules J, enter them on page 1, Parts I and II and attach the second Schedule J to Form 990-T.**

If an organization publishes two or more periodicals, it may elect to treat the gross income for all (but not less than all) periodicals, and deductions directly connected with those periodicals (including excess readership costs), as if the periodicals were one to determine its unrelated business taxable income. This rule only applies to periodicals published for the production of income. A periodical is considered published for the production of income if gross advertising income of the periodical is at least 25% of the readership costs, and the periodical is an activity engaged in for profit.

Schedule K—Compensation of Officers, Directors, and Trustees

Complete columns 1 through 4, Schedule K, for those officers, directors, and trustees whose salaries or other compensation are allocable to unrelated business gross income. Do not include

in column 4 compensation that is deducted in Schedules A through J of the return.

Include on Schedule K (and elsewhere on the return) only compensation that is directly attributable to the unrelated trade or business activities of the organization. If personnel is used both to carry on exempt activities and to conduct unrelated trade or business activities, the salaries and wages of those individuals will

be allocated between the activities. For example, assume an exempt organization derives gross income from the conduct of certain unrelated trade or business activities. The organization pays its president a salary of \$65,000 a year. Ten percent of the president's time is devoted to the unrelated business activity. On Form 990-T, the organization enters \$6,500 (10% of \$65,000) on Schedule K for the part of the president's

salary allocable to the unrelated trade or business activity. However, no further deduction is allowable for the salary elsewhere on the return (i.e., Schedule A or Schedule J).

If taxable fringe benefits are provided to your employees, such as personal use of a car, do not deduct as salaries and wages the amounts you deducted for depreciation and other deductions.

Codes for Unrelated Business Activity

(If engaged in more than one unrelated business activity, select up to three codes for the principal activities. List first the largest in terms of unrelated income, then the next largest, etc.)
