### 2011 Partnership Returns Line Item Estimates

The line item estimates in this publication are taken from the Statistics of Income (SOI) 2011 Partnership Returns sample and subject to data limitations that occur in statistical sampling. The 2011 sample is only one of many SOI could have randomly selected using the same design. The estimates are not actual line item counts or money amounts. Below are the coefficients of variation (CV) and the lower and upper bounds of computed 95% confidence intervals for selected variable totals SOI estimated from the 2011 sample.

**Note:** Estimates constructed from different samples usually vary. The standard error of an estimate is a measure of its variation among all possible samples. The standard error is used to measure the precision with which an estimate from a particular sample approximates the average result of all the possible samples. The sample estimate and an estimate of its standard error are used to construct an interval estimate with prescribed confidence that the interval includes the actual population value. The coefficients of variations (CV) allow for the comparison of variables. The CV is often presented as a percent, the ratio multiplied by 100.

All money amounts and frequencies were subject to rounding errors. All values on the money amount pages were rounded to the nearest \$1,000. Amounts of \$500 or more were rounded up to the next thousand. Total amounts between +\$500 and -\$500 were marked with a [1] to indicate that an amount greater than zero was present.

Whenever a cell frequency was less than 5, the estimate was deleted and marked with a [d] in order to avoid disclosure of information about specific partnerships. An estimate based on fewer than 10 returns, not selected at the 100-percent rate, was indicated by an asterisk (\*) and considered statistically unreliable. Researchers typically should use these estimates in combination with other tabulated values due to the small sample size.

Six attachments to the Form 1065 are included in the 2011 study but were not represented in enough quantity in the sample to include in this publication. These forms include the following: Form 8820, Orphan Drug Credit; Form 8834, Qualified Plug-in Electric and Electric Vehicle Credit; Form 8881, Credit for Small Employer Pension Plan Startup Costs; Form 8896, Low Sulfur Diesel Fuel Production Credit; Form 8910, Alternative Motor Vehicle Credit; and Form 8936, Qualified Plug-in Electric Drive Motor Vehicle Credit.

The data for Form 1065-B, U.S. Return of Income for Electing Large Partnerships, are included in the line item counts and money amounts where equivalent fields existed. They are not broken out separately from the Form 1065 data.

#### What's New

- The work opportunity credit is scheduled to expire for employees who begin work after 2011. Do not report wages paid or incurred to these employees on Form 5884 unless the credit is extended. See <a href="https://www.irs.gov/form5884">www.irs.gov/form5884</a> for the latest information about this credit.

#### **Purpose of Form**

Employers of American Indians who are qualified employees use Form 8845 to claim the Indian employment credit.

Taxpayers that are not partnerships, S corporations, cooperatives, estates, or trusts, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1g of Form 3800.

#### **Definitions**

**Qualified wages** means any wages paid or incurred by an employer for services performed by an employee while such employee is a qualified employee (see below). It does not include wages attributable to services rendered during the 1-year period beginning with the day the employee starts work for the employer if any portion of such wages is used in figuring the work opportunity credit on Form 5884. Wages has the same meaning given in section 51.

Qualified employee health insurance costs means any amount paid or incurred by an employer for health insurance coverage for an employee while the employee is a qualified employee. Do not include amounts paid or incurred for health insurance under a salary reduction arrangement.

 $\mbox{\bf Qualified employee}$  means, for any tax period, any employee who meets all three of the following tests.

- 1. The employee is an enrolled member, or the spouse of an enrolled member, of an Indian tribe. Each tribe determines who qualifies for enrollment and what documentation, if any, is issued as proof of enrollment status. Examples of appropriate documentation will vary from one tribe to another and may include a tribal membership card, Certified Degree of Indian Blood (CDIB) card, or letter from the tribe or tribal enrollment office. Employers should retain a copy of the proof of enrollment status provided by the employee.
- **2.** Substantially all the services performed by the employee for the employer are performed within an Indian reservation (defined on page 2).
- **3.** The employee's principal residence while performing such services is on or near the reservation where the services are performed.

However, the employee shall be treated as a qualified employee for any tax year only if more than 50% of the wages paid or incurred by the employer to the employee during the tax year are for services performed in the employer's trade or business. Each member of a controlled group must meet this requirement independently. Also, see the instructions for lines 1 and 2.

The following are not qualified employees.

- Any individual who bears any of the relationships described in sections 152(d)(2)(A) through 152(d)(2)(G) to, or is a dependent described in section 152(d)(2)(H) of, the employer.
- If the employer is a corporation, any individual who bears any of the relationships described in sections 152(d)(2)(A) through 152(d)(2)(G) to, or is a dependent described in section 152(d)(2)(H) of, an individual who owns (or is considered to own under section 267(c)) more than 50% in value of the outstanding stock of the corporation.
- If the employer is an estate or trust, any individual who is a grantor, beneficiary, or fiduciary of the estate or trust (or a dependent, as described in section 152(d)(2)(H), of that individual), or any individual who is a relative, as described in sections 152(d)(2)(A) through 152(d)(2)(G), of the grantor, beneficiary, or fiduciary of the estate or trust.
- If the employer is other than a corporation, estate, or trust, any individual who owns directly or indirectly more than 50% of the capital and profits interest, including constructive ownership, in the entity.
- If the employer is a corporation, any person who owns (or is considered to own under section 318) more than 5% of the outstanding or voting stock of the employer or, if not a corporate employer, more than 5% of the capital or profits interest in the employer.
- Any individual who performs services involving the conduct of Class I, II, or III gaming, as defined in section 4 of the Indian Gaming Regulatory Act, and any individual performing any services in a building housing such gaming activity.

Indian tribe means any Indian tribe, band, nation, pueblo, or other organized group or community, including any Alaska Native village or regional or village corporation, as defined in, or established under, the Alaska Native Claims Settlement Act, that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians. See the Federal Register dated October 1, 2010 (75 FR 60810), for the most recent listing of federally recognized Indian tribes.
