What’s New

Contributions of cars, boats, and airplanes. If you donate a car, boat, or airplane to a quali-

fied organization after 2004, your deduction generally is limited to the gross proceeds from

its sale by the organization. This rule applies if the claimed value of the donated vehicle is more

than $500. For exceptions and more informa-
tion, see Cars, Boats and Airplanes under Con-
tributions of Property.

Contributions of patents and other intellec-
tual property. If you donate a patent or other

intellectual property to a qualified organization

after June 3, 2004, your deduction is limited to

the basis of the property or the fair market value

of the property, whichever is less. You also may

be able to claim additional charitable contribu-
tion deductions in the year of the contribution

and years following, based on the income, if any,

from the donated property. For more informa-
tion, see Patents and Other Intellectual Property

under Contributions of Property.

Contributions of property over $500,000. If

you claim a deduction of more than $500,000 for

a contribution of property made after June 3,

2004, you generally must attach a qualified ap-

praisal of the property to your return. Previously,

the appraisal was required for your records but
did not have to be attached to your return. For

more information, see Deduction over $500,000

under How To Report.

Contributions of food inventory. New rules

apply to certain contributions of food inventory

made after August 27, 2005, and before January 1,

2006, See Food Inventory.

Temporary suspension of 50% limit. If you

paid a charitable contribution in cash after Au-
gust 27, 2005, and before January 1, 2006, to
certain 50% limit organizations, you can elect to

The type and rule above prints on all proofs including departmental reproduction proofs. MUST be removed before printing.
have the 50% limit not apply. See Temporary Suspension of 50% Limit.

Standard mileage rate increased for Hurricane Katrina. The standard mileage rate is higher if you used your car in giving services to a charitable organization to provide relief related to Hurricane Katrina. See Car expenses related to Hurricane Katrina under Out-of-Pocket Expenses in Giving Services.

Mileage reimbursements related to Hurricane Katrina. You may not have to pay tax on any mileage reimbursements you received from a charitable organization for the costs of using your car to provide relief related to Hurricane Katrina. See Reimbursements related to Hurricane Katrina under Out-of-Pocket Expenses in Giving Services.

Reminders

Disaster relief. You can deduct contributions earmarked for food relief, hurricane relief, or other disaster relief, to a qualified organization (defined under Organizations That Qualify To Receive Deductible Contributions). However, you cannot deduct contributions earmarked for relief of a particular individual or family.

Introduction

This publication explains how to claim a deduction for your charitable contributions. It discusses organizations that are qualified to receive deductible charitable contributions, the types of contributions you can deduct, how much you can deduct, what records to keep, and how to report charitable contributions. A charitable contribution is a donation or gift to or for the use of a qualified organization. It is voluntary and is made without getting, or expecting to get, anything of equal value.

Qualified organizations. Qualified organizations include nonprofit groups that are religious, charitable, educational, scientific, or literary in purpose, or that work to prevent cruelty to children or animals. You will find descriptions of these organizations under Organizations That Qualify To Receive Deductible Contributions.

Form 1040 required. To deduct a charitable contribution, you must file Form 1040 and itemize deductions on Schedule A. The amount of your deduction may be limited if certain rules and limits explained in this publication apply to you.

Comments and suggestions. We welcome your comments about this publication and your suggestions for future editions. You can write to us at the following address:

Internal Revenue Service
Individual Forms and Publications Branch
SE:W:CAR:MP:T1
1111 Constitution Ave, NW, IR-6406
Washington, DC 20224

We respond to many letters by telephone. Therefore, it would be helpful if you would include your daytime phone number, including the area code, in your correspondence.

You can email us at taxforms@irs.gov. (The asterisk must be included in the address.) Please put “Publications Comment” on the subject line. Although we cannot respond individually to each email, we do appreciate your feedback and will consider your comments as we revise our tax products.

Tax questions. If you have a tax question, visit www.irs.gov or call 1-800-829-1040. We cannot answer tax questions at either of the addresses listed above.

Ordering forms and publications. Visit www.irs.gov/formspubs to download forms and publications, call 1-800-829-3676, or write to the National Distribution Center at the address shown under How To Get Tax Help in the back of this publication.

Organizations That Qualify To Receive Deductible Contributions

You can deduct your contributions only if you make them to a qualified organization. To become a qualified organization, most organizations other than churches and governments, as described below, must apply to the IRS.

Publication 78. You can ask any organization whether it is a qualified organization, and most will be able to tell you. Or you can check IRS Publication 78, which lists most qualified organizations. You may find Publication 78 in your local library’s reference section. Or you can find it on the Internet at www.irs.gov. You can also

Page 2 of 20 of Publication 526 14:36 - 22-DEC-2005

The type and rule above prints on all proofs including departmental reproduction proofs. MUST be removed before printing.
Examples. The following list gives some examples of qualified organizations.

- Churches, a convent or association of churches, temples, synagogues, mosques, and other religious organizations.
- Most nonprofit charitable organizations such as the Red Cross and the United Way.
- Most nonprofit educational organizations, including the Boy (and Girl) Scouts of America, colleges, museums, and day-care centers if substantially all the child care provided is to enable individuals (the parents) to be gainfully employed and the services are available to the general public. However, if your contribution is a substitute for tuition or other enrollment fee, it is not deductible as a charitable contribution, as explained later under Contributions You Cannot Deduct.
- Nonprofit hospitals and medical research organizations.
- Utility company emergency energy programs, if the utility company is an agent for a charitable organization that assists individuals with emergency energy needs.
- Nonprofit volunteer fire companies.
- Public parks and recreation facilities.
- Civil defense organizations.

Canadian charities. You may be able to deduct contributions to certain Canadian charitable organizations covered under an income tax treaty with Canada.

To deduct your contribution to a Canadian charity, you generally must have income from sources in Canada. See Publication 597, Information on the United States – Canada Income Tax Treaty, for information on how to figure your deduction.

Mexican charities. You may be able to deduct contributions to certain Mexican charitable organizations under an income tax treaty with Mexico.

The organization must meet tests that are essentially the same as the tests that qualify U.S. organizations to receive deductible contributions. The organization may be able to tell you if it meets these tests.

If not, you can get general information about the tests the organization must meet by writing to the: Internal Revenue Service International Returns Section P.O. Box 920 Bensalem, PA 19020 – 8518.

To deduct your contribution to a Mexican charity, you must have income from sources in Mexico. The limits described in Limits on Deductions, later, apply and are figured using the computer program used to report your income from Mexican sources. Those limits also apply to all your charitable contributions, as described in that discussion.

Israel charities. You may be able to deduct contributions to certain Israeli charitable organizations under an income tax treaty with Israel. To qualify for the deduction, your contribution must be made to an organization created and recognized as a charitable organization under the laws of Israel. The deduction will be allowed in the amount that would be allowed if the organization was created under the laws of the United States, but is limited to 25% of your adjusted gross income from Israeli sources.

Contributions You Can Deduct

Generally, you can deduct your contributions of money or property that you make to, or for the use of, a qualified organization. A gift or contribution is "for the use of" a qualified organization when it is held in a legally enforceable trust for the qualified organization or in a similar legal arrangement. The contributions must be made to a qualified organization and not set aside for use by a specific person.

If you give property to a qualified organization, you generally can deduct the fair market value of the property at the time of the contribution. See Contributions of Property, later.

Your deduction for charitable contributions is generally limited to 50% of your adjusted gross income, but in some cases 20% and 30% limits may apply. In addition, the total of your charitable contributions deduction and certain other itemized deductions may be limited. See Limits on Deductions, later.

Table 1 in this publication lists some examples of contributions you can deduct and some that you cannot deduct.

Contributions From Which You Benefit

If you receive a benefit as a result of making a contribution to a qualified organization, you can deduct only the amount of your contribution that is more than the value of the benefit you receive. Also see Contributions From Which You Benefit under Contributions You Cannot Deduct, later.

If you pay more than fair market value to a qualified organization for merchandise, goods, or services, the amount you pay that is more than the value of the item can be a charitable contribution. For the excess amount to qualify, you must pay it with the intent to make a charitable contribution.

Example 1. You pay $65 for a ticket to a dinner-dance at a church. All the proceeds of the function go to the church. The ticket to the dinner-dance has a fair market value of $25. When you buy your ticket, you know that its value is less than your payment. To figure the amount of your charitable contribution, you subtract the value of the benefit you receive ($25) from your total payment ($65). You can deduct $40 as a charitable contribution to the church.

Example 2. At a fund-raising auction conducted by a charity, you pay $600 for a week’s stay at a beach house. The amount you pay is no more than the fair rental value. You have not made a deductible charitable contribution.
Athletic events. If you make a payment to, or for the benefit of, a college or university and, as a result, you receive the right to buy tickets to an athletic event in the athletic stadium of the college or university, you can deduct 80% of the payment as a charitable contribution.

If any part of your payment is for tickets (rather than the right to buy tickets), that part is not deductible. In that case, subtract the price of the tickets from your payment. 80% of the remaining amount is a charitable contribution.

Example 1. You pay $300 a year for membership in an athletic scholarship program maintained by a university (a qualified organization). The only benefit of membership is that you have the right to buy one season ticket for a seat in a designated area of the stadium at the university’s home football games. You can deduct $240 (80% of $300) as a charitable contribution.

Example 2. The facts are the same as in Example 1 except that your $300 payment included the purchase of one season ticket for the stated ticket price of $120. You must subtract the usual price of a ticket ($120) from your $300 payment. The result is $180. Your deductible charitable contribution is $144 (80% of $180).

Charity benefit events. If you pay a qualified organization more than fair market value for the right to attend a charity ball, banquet, show, sporting event, or other benefit event, you can deduct only the amount that is more than the value of the privileges or other benefits you receive.

If there is an established charge for the event, that charge is the value of your benefit. If there is no established charge, your contribution is that part of your payment that is more than the reasonable value of the right to attend the event. Whether you use the tickets or other privileges has no effect on the amount you can deduct. However, if you return the ticket to the qualified organization for resale, you can deduct the entire amount you paid for the ticket.

Even if the ticket or other evidence of payment indicates that the payment is a “contribution,” this does not mean you can deduct the entire amount. If the ticket shows the price of admission and the amount of the contribution, you can deduct the contribution amount.

Example. You pay $40 to see a special showing of a movie for the benefit of a qualified organization. Printed on the ticket is “Contribution—$40.” If the regular price for the movie is $8, your contribution is $32 ($40 payment — $8 regular price).

Membership fees or dues. You may be able to deduct membership fees or dues you pay to a qualified organization. However, you can deduct only the amount that is more than the value of the benefits you receive. You cannot deduct dues, fees, or assessments paid to country clubs and other social organizations. They are not qualified organizations.

Certain membership benefits can be disregarded. Both you and the organization can disregard certain membership benefits you get in return for an annual payment of $75 or less to the qualified organization. You can pay more than $75 to the organization if the organization does not require a larger payment for you to get the benefits. The benefits covered under this rule are:

1. Any rights or privileges, other than those discussed under Athletic events, earlier, that you can use frequently while you are a member, such as:
   a. Free or discounted admission to the organization’s facilities or events,
   b. Free or discounted parking,
   c. Preferred access to goods or services, and
   d. Discounts on the purchase of goods and services.

2. Admission, while you are a member, to events that are open only to members of the organization if the organization reasonably projects that the cost per person (excluding any allocated overhead) is not more than a specified amount, which may be adjusted annually for inflation. (This is the amount for low-cost articles given in the annual revenue procedure with inflation adjusted amounts for the current year. You can get this figure from the IRS.)

Token items. You can deduct your entire payment to a qualified organization as a charitable contribution if both of the following are true:

1. You get a small item or other benefit of token value.
2. The qualified organization correctly determines that the value of the item or benefit you received is not substantial and informs you that you can deduct your payment in full.

The organization determines whether the value of an item or benefit is substantial by using Revenue Procedures 90–12 and 92–49 and the revenue procedure with the inflation adjusted amounts for the current year.

Written statement. A qualified organization must give you a written statement if you make a payment to it that is more than $75 and is partly a contribution and partly for goods or services. The statement must tell you that you can deduct only the amount of your payment that is more than the value of the goods or services you received. It must also give you a good faith estimate of the value of those goods or services.

The organization can give you the statement either when it solicits or when it receives the payment from you.

Exception. An organization will not have to give you this statement if one of the following is true.

1. The organization is:
   a. The type of organization described in (5) under Types of Qualified Organizations, earlier, or
   b. Formed only for religious purposes, and the only benefit you receive is an intangible religious benefit (such as admission to a religious ceremony) that generally is not sold in commercial transactions outside the donor-context.

Expenses Paid for Student Living With You

You may be able to deduct some expenses of having a student live with you. You can deduct qualifying expenses for a foreign or American student who:

1. Lives in your home under a written agreement between you and a qualified organization (defined later) as part of a program of the organization to provide educational opportunities for the student.
2. Is not your relative (defined later) or dependent, and
3. Is a full-time student in the twelfth or any lower grade at a school in the United States.

You can deduct up to $50 a month for each full calendar month the student lives with you. Any month when conditions (1) through (3) above are met for 15 or more days counts as a full month.

Qualified organization. For these purposes, a qualified organization can be any of the organizations described earlier under Organizations That Qualify To Receive Deductible Contributions, except those in (4) and (5). For example, if you are providing a home for a student through a state or local government agency, you cannot deduct your expenses as charitable contributions.

Relative. The term “relative” means any of the following persons:

- Your child, stepchild, eligible foster child, or a descendant of any of them (for example, your grandchild). A legally adopted child is considered your child.
- Your brother, sister, half brother, half sister, stepbrother, or stepsister.
- Your father, mother, grandparent, or other direct ancestor.
- Your stepfather or stepmother.
- A son or daughter of your brother or sister.
- A brother or sister of your father or mother.

Qualifying expenses. Expenses that you may be able to deduct include the cost of books, tuition, food, clothing, transportation, medical and dental care, entertainment, and other amounts you actually spend for the well-being of the student.

</tbody>
</table>

Expenses that do not qualify. Depreciation on your home, the fair market value of lodging, and similar items are not considered amounts spent by you. In addition, general household expenses, such as taxes, insurance, repairs, etc., do not qualify for the deduction.

Reimbursed expenses. If you are compensated or reimbursed for any part of the costs of having a student living with you, you cannot deduct any of your costs. However, if you are reimbursed for only an extraordinary or a one-time item, such as a hospital bill or vacation trip, that you paid in advance at the request of the student’s parents or the sponsoring organization, you can deduct your expenses for the student for which you were not reimbursed.

Mutual exchange program. You cannot deduct the costs of a foreign student living in your home under a mutual exchange program through which your child will live with a family in a foreign country.

Reporting expenses. For a list of what you must file with your return if you deduct expenses for a student living with you, see Reporting expenses for living with you under How To Report, later.

Out-of-Pocket Expenses in Giving Services

You may be able to deduct some amounts you pay in giving services to a qualified organization. The amounts must be:

- Unreimbursed,
- Directly connected with the services,
- Expenses you had only because of the services you gave, and
- Not personal, living, or family expenses.

Table 2 contains questions and answers that apply to some individuals who volunteer their services.

Underprivileged youths selected by charity. You can deduct reasonable unreimbursed out-of-pocket expenses you pay to allow underprivileged youths to attend athletic events, movies, or dinners. The youths must be selected by a charitable organization whose goal is to reduce juvenile delinquency. Your own similar expenses in accompanying the youths are not deductible.

Examples. You can deduct as a charitable contribution any unreimbursed expenses you have while in a permanent diaconate program established by your church. These expenses include the cost of vestments, books, and transportation required in order to serve in the program as either a deacon candidate or as an ordained deacon.

Car expenses. You can deduct unreimbursed out-of-pocket expenses, such as the cost of gas and oil, that are directly related to the use of your car in giving services to a charitable organization. You cannot deduct general repair and maintenance expenses, depreciation, registration fees, or the cost of tires or insurance.

Church deacon. You can deduct as a charitable contribution your unreimbursed expenses if you have while in a permanent diaconate program established by your church. These expenses include the cost of vestments, books, and transportation required in order to serve in the program as either a deacon candidate or as an ordained deacon. You must keep reliable written records of your car expenses. For more information, see Car expenses under Records To Keep, later.

Car expenses related to Hurricane Katrina. If you used your car in giving services to a charitable organization to provide relief related to Hurricane Katrina, the standard mileage rate is 29 cents a mile for miles driven after August 24, 2005, and before September 1, 2005. The rate is 34 cents a mile for miles driven after August 31, 2005. The rate for 2006 is 32 cents a mile.

Reimbursements related to Hurricane Katrina. You may not have to pay tax on any mileage reimbursement you received from a charitable organization for the costs of using your car to provide relief related to Hurricane Katrina. This applies to volunteer services only. If you were given compensation for the performance of your services, this does not apply to you. For details, see Publication 525, Taxable and Nontaxable Income, and Publication 4492, In-
formations for Taxpayers Affected by Hurricanes Katrina, Rita, and Wilma.

Travel. Generally, you can claim a charitable contribution deduction for travel expenses neces-

sarily incurred while you are away from home

performing services for a charitable organization only if there is no significant element of personal

pleasure, recreation, or vacation in the travel.

This applies whether you pay the expenses di-

rectly or indirectly. You are paying the expenses indirectly if you make a payment to the charita-

ble organization and the organization pays for

your travel expenses.

The deduction for travel expenses will not be
denied simply because you enjoy providing

services to the charitable organization. Even if

you enjoy the trip, you can take a charitable

contribution deduction for your travel expenses

if you are on duty in a genuine and substantial

sense throughout the trip. However, if you have

only some duties, you must pay for the significant parts of the trip you do not have any duties, you cannot deduct your travel expenses.

Example 1. You are a troop leader for a

tax-exempt youth group and you help take the

group on a camping trip. You are responsible for

overseeing the setup of the camp and for provid-

ing adult supervision for other activities during the entire trip. You participate in the activities of the group and really enjoy your time with them. You oversee the breaking of camp and you help transport the group home. You can deduct your travel expenses.

Example 2. You sail from one island to an-

other and spend 8 hours a day counting whales and other forms of marine life. The project is

sponsored by a charitable organization. In most circumstances, you cannot deduct your ex-
penses.

Example 3. You work for several hours

each morning on an archeological dig spon-

sored by a charitable organization. The rest of

the day is free for recreation and sightseeing.

You cannot take a charitable contribution deduc-
tion even though you work very hard during these few hours.

Example 4. You spend the entire day at-
tending a charitable organization’s regional meeting as a chosen representative. In the eve-
ing you go to the theater. You can claim your travel expenses as charitable contributions, but you cannot claim the cost of your evening at the theater.

Daily allowance (per diem). If you provide services for a charitable organization and re-
cieve a daily allowance to cover reasonable travel expenses, including meals and lodging

while away from home overnight, you must in-
clude in income the amount of the allowance

that is more than your deductible travel ex-
penses. You can deduct your necessary travel expenses that are more than the allowance.

Deductible travel expenses. These in-
clude:

• Air, rail, and bus transportation,

• Out-of-pocket expenses for your car,

• Taxi fares or other costs of transportation

between the airport or station and your

hotel,

• Lodging costs, and

• The cost of meals.

Because these travel expenses are not business-related, they are not subject to the

same limits as business related expenses. For

information on business travel expenses, see

Travel Expenses in Publication 463, Travel, En-
tertainment, Gift, and Car Expenses.

Expenses of Whaling Captains

Beginning in 2005, you may be able to deduct as

a charitable contribution the reasonable and

necessary whaling expenses paid during the

year in carrying out sanctioned whaling activi-
ties. The deduction is limited to $10,000 a year.

To claim the deduction, you must be recognized by the

Alaska Eskimo Whaling Commission as a

whaling captain charged with the responsibility of maintaining and carrying out sanctioned whal-
ing activities.

Sanctioned whaling activities are subsis-
tence bowhead whale hunting activities con-
ducted under the management plan of the

Alaska Eskimo Whaling Commission.

Whaling expenses include expenses for:

• Acquiring and maintaining whaling boats, weapons, and gear used in sanctioned whaling activities,

• Supplying food for the crew and other pro-

visions for carrying out these activities, and

• Storing and distributing the catch from these activities.

To deduct these expenses, you will be re-
quired to keep records showing the time, place, date, amount, and nature of the expenses.

Contributions to Individuals

You cannot deduct contributions to specific indi-

viduals, including:

• Contributions to fraternal societies made for the purpose of paying medical or burial expenses of deceased members.

• Contributions to individuals who are needy or worthy. This includes contributions to a qualified organization if you indicate that your contribution is for a specific person.

But you can deduct a contribution that you give to a qualified organization that in turn helps needy or worthy individuals if you do not indicate that your contribution is for a specific person.

Example. You can deduct contributions earmarked for flood relief, hurricane relief, or other disaster relief to a qualified organi-

zation. However, you cannot deduct contrib-

utions earmarked for relief of a particular individual or family.

• Payments to a member of the clergy that can be spent as he or she wishes, such as for personal expenses.

• Expenses you paid for another person who provided services to a qualified organiza-

Example. Your son does missionary work. You pay his expenses. You cannot claim a deduction for your son’s unreimbursed ex-
penses related to his contribution of serv-

ices.

• Payments to a hospital that are for a spe-
cific patient’s care or for services for a

specific patient. You cannot deduct these payments even if the hospital is operated by a city, state, or other qualified organiza-

Example. You cannot deduct contributions to Nonqualified Organizations

You cannot deduct contributions to organiza-
tions that are not qualified to receive tax-deduct-

able contributions, including the following.

1. Certain state bar associations if:

a. The state bar is not a political subdivi-

sion of a state,

b. The bar has private, as well as public,

purposes, such as promoting the pro-

fessional interests of members, and

c. Your contribution is unrestricted and

can be used for private purposes.

2. Chambers of commerce and other busi-

ness leagues or organizations.

3. Civic leagues and associations.

4. Communist organizations.

5. Country clubs and other social clubs.

6. Foreign organizations other than

a. A U.S. organization that transfers funds to a charitable foreign organization if

the U.S. organization controls the use of the funds or if the foreign organiza-

The type and rule above prints on all proofs including departmental reproduction proofs. MUST be removed before printing.
Contributions You Can Deduct,

• economic benefit as a result of making a contribution, or
• a donation to a qualified organization.

Which You Benefit

8. Labor unions. But you may be able to deduct union dues as a miscellaneous itemized deduction, subject to the 2%-of-adjusted-gross-income limit, on Schedule A (Form 1040). See Publication 529, Miscellaneous Deductions.

9. Political organizations and candidates.

Contributions From Which You Benefit

If you receive or expect to receive a financial or economic benefit as a result of making a contribution to a qualified organization, you cannot deduct the part of the contribution that represents the value of the benefit you receive. See Contributions From Which You Benefit under Contributions You Can Deduct, earlier. These contributions include:

• Contributions for lobbying. This includes amounts that you earmark for use in, or in connection with, influencing specific legislation.
• Contributions to a retirement home that are clearly for room, board, maintenance, or admittance. Also, if the amount of your contribution depends on the type or size of apartment you will occupy, it is not a charitable contribution.
• Costs of raffles, bingo, lottery, etc. You cannot deduct as a charitable contribution amounts you pay to buy raffle or lottery tickets or to play bingo or other games of chance. For information on how to report gambling winnings and losses, see Distributions Not Subject to the 2% Limit in Publication 529.
• Dues to fraternal orders and similar groups. However, see Membership fees or dues under Contributions From Which You Benefit, earlier.
• Tuition, or amounts you pay instead of tuition, even if you pay them for children to attend parochial schools or qualifying nonprofit day-care centers. You also cannot deduct any fixed amount you may be required to pay in addition to the tuition fee to enroll in a private school, even if it is designated as a “donation.”
• Contributions connected with split-dollar insurance arrangements. You cannot deduct any part of a contribution to a charitable organization if, in connection with the contribution, the organization directly or indirectly pays, has paid, or is expected to pay any premium on any life insurance, annuity, or endowment contract for which you, any member of your family or any other person chosen by you (other than a qualified charitable organization) is a beneficiary. Example. You donate money to a charitable organization. The charity uses the money to purchase a cash value life insurance policy. The beneficiaries under the insurance policy include members of your family. Even though the charity may eventually get some benefit out of the insurance policy, you cannot deduct any part of the donation.

Value of Time or Services

You cannot deduct the value of your time or services, including:
• Blood donations to the Red Cross or to blood banks, and
• The value of income lost while you work as an unpaid volunteer for a qualified organization.

Personal Expenses

You cannot deduct personal, living, or family expenses, such as the following items:
• The cost of meals you eat while you perform services for a qualified organization, unless it is necessary for you to be away from home overnight while performing the services.
• Adoption expenses, including fees paid to an adoption agency and the costs of keeping a child in your home before adoption is final. However, you may be able to claim a tax credit for these expenses. Also, you may be able to exclude from your gross income amounts paid or reimbursed by your employer for your adoption expenses. See Form 8839, Qualified Adoption Expenses, and its instructions, for more information. You also may be able to claim an exemption for the child. See Exemptions for Dependents in Publication 501 for more information.

Appraisal Fees

Fees that you pay to find the fair market value of donated property are not deductible as contributions. You can claim them, subject to the 2%-of-adjusted-gross-income limit, as a miscellaneous itemized deduction on Schedule A (Form 1040). See Deductions Subject to the 2% Limit in Publication 529 for more information.

Partial Interest in Property

Generally, you cannot deduct a contribution of less than your entire interest in property. For details, see Partial Interest in Property under Contributions of Property, later.

Contributions of Property

If you contribute property to a qualified organization, the amount of your charitable contribution is generally the fair market value of the property at the time of the contribution. However, if the property has increased in value, you may have to make some adjustments to the amount of your deduction. See Giving Property That Has Increased in Value, later.

For information about the records you must keep and the information you must furnish with your return if you donate property, see Records To Keep and How To Report, later.

Contributions Subject to Special Rules

Special rules apply if you contributed:
• A car, boat, or airplane,
• Property subject to a debt,
• A partial interest in property,
• A future interest in tangible personal property,
• Inventory from your business, or
• A patent or other intellectual property.

These special rules are described next.

Cars, Boats, and Airplanes

The following rules apply to any donation of a car to a qualified organization after December 31, 2004. These rules also apply to any donation of a boat, airplane, or any motor vehicle manufactured mainly for use on public streets, roads, and highways.

Deduction more than $500. If the qualified organization sells the car and you claim a deduction of more than $500, the following rules apply.

1. You can deduct the smaller of:
   a. The gross proceeds from the sale of the car by the organization, or
   b. The car’s fair market value on the date of the contribution. If the car’s fair market value was more than your cost or other basis, you may have to reduce the fair market value to get the deductible amount, as described under Giving Property That Has Increased in Value, later.

2. You must attach to your return the copy of the Form 1098-C, Contributions of Motor Vehicles, Boats, and Airplanes, (or other statement containing the same information as Form 1098-C) you received from the organization. The Form 1098-C (or other statement) will show the gross proceeds from the sale of the car.

However, different rules apply if exception 1 or exception 2 (described next) applies.
If you do not attach Form 1098-C (or other statement), you cannot deduct your contribution.

You must get Form 1098-C (or other statement) within 30 days of the sale of the car. However, if you donated the car before September 2, 2005, you must get Form 1098-C (or other statement) within 30 days of the sale of the car or, if later, October 1, 2005.

**Exception 1 — vehicle used or improved by organization.** If the qualified organization makes a significant intervening use of or material improvement to the car before transferring it and you claim a deduction of more than $500, the following rules apply.

- You generally can deduct the car’s fair market value at the time of the contribution. But if the car’s fair market value was more than your cost or other basis, you may have to reduce the fair market value to get the deductible amount, as described under *Giving Property That Has Increased in Value*, later.

- You must attach to your return a copy of Form 1098-C (or other statement containing the same information as Form 1098-C).

The Form 1098-C (or other statement) will show whether the qualified organization makes a significant intervening use of or material improvement to the car.

If you do not attach Form 1098-C (or other statement), you cannot deduct your contribution.

You must get Form 1098-C (or other statement) within 30 days of your donation. However, if you donated the car before September 2, 2005, you have until October 1, 2005, to get Form 1098-C (or other statement).

**Exception 2 — vehicle given or sold to needy individual.** If the qualified organization will give the car, or sell it for a price well below fair market value, to a needy individual to further the organization’s charitable purpose, and you claim a deduction of more than $500, the following rules apply.

- You generally can deduct the car’s fair market value at the time of the contribution. But if the car’s fair market value was more than your cost or other basis, you may have to reduce the fair market value to get the deductible amount, as described under *Giving Property That Has Increased in Value*, later.

- You must attach to your return a copy of Form 1098-C (or other statement containing the same information as Form 1098-C).

The Form 1098-C (or other statement) will show whether this exception applies.

If you do not attach Form 1098-C (or other statement), you cannot deduct your contribution.

You must get Form 1098-C (or other statement) within 30 days of your donation. However, if you donated the car before September 2, 2005, you have until October 1, 2005, to get Form 1098-C (or other statement).

---

**Example.** Anita donates a used car to a qualified organization. She bought the car 3 years ago for $9,000. A used car guide shows the fair market value for this type of car is $6,000. However, Anita gets a Form 1098-C from the organization showing the car was sold for $900. Neither exception 1 nor exception 2 applies. If Anita itemizes her deductions, she can deduct $900 for her donation. She must attach the Form 1098-C to her return.

**Deduction $900 or less.** If the qualified organization sells the car for $500 or less and exceptions 1 and 2 (described earlier) do not apply, the following rules apply:

1. You can deduct the smaller of:
   a. $500, or
   b. The car’s fair market value on the date of the contribution. But if the car’s fair market value was more than your cost or other basis, you may have to reduce the fair market value to get the deductible amount, as described under *Giving Property That Has Increased in Value*, later.

2. If the car’s fair market value is $250 or more, you must have a written statement from the qualified organization acknowledging your donation. The statement must contain the information and meet the tests for an acknowledgement described under *Deductions of At Least $250 But Not More Than $500 under Records To Keep*, later.

**Fair market value.** To determine a car’s fair market value, use the rules described under *Determining Fair Market Value*, later.

**Donations of inventory.** The car donation rules just described do not apply to donations of inventory. For example, these rules do not apply if you are a car dealer who donates a car you had been holding for sale to customers. See *Inventory*, later.

---

**Property Subject to a Debt.**

If you contribute property subject to a debt (such as a mortgage), you must reduce the fair market value of the property by:

1. Any allowable deduction for interest that you paid (or will pay) attributable to any period after the contribution, and
2. The property is a bond, the lesser of:
   a. Any allowable deduction for interest you paid (or will pay) to buy or carry the bond that is attributable to any period before the contribution, or
   b. The interest, including bond discount, receivable on the bond that is attributable to any period before the contribution, and that is not includible in your income due to your accounting method.

This prevents a double deduction of the same amount as investment interest and also as a charitable contribution.

If the debt is assumed by the recipient (or another person), you must also reduce the fair market value of the property by the amount of the outstanding debt.

If you sold the property to a qualified organization at a bargain price, the amount of the debt is also treated as an amount realized on the sale or exchange of property. For more information, see *Bargain Sales under Giving Property That Has Increased in Value*, later.

---

**Partial Interest in Property.**

Generally, you cannot deduct a charitable contribution (not made by a transfer in trust) of less than your entire interest in property.

**Right to use property.** A contribution of the right to use property is a contribution of less than your entire interest in that property and is not deductible.

**Example 1.** You own a 10-story office building and donate rent-free use of the top floor to a charitable organization. Since you still own the building, you have contributed a partial interest in the property and cannot take a deduction for the contribution.

**Example 2.** Mandy White owns a vacation home at the beach that she sometimes rents to others. For a fund-raising auction at her church, she donated the right to use the vacation home for 1 week. At the auction, the church received and accepted a bid from Lauren Green equal to the fair rental value of the home for 1 week. Mandy cannot claim a deduction because of the partial interest rule. Lauren cannot claim a deduction either, because she received a benefit equal to the amount of her payment. See *Contributions From Which You Benefit*, earlier.

**Exceptions.** You can deduct a charitable contribution of a partial interest in property only if that interest represents one of the following listed items.

1. A remainder interest in your personal home or farm. A remainder interest is one that passes to a beneficiary after the end of an earlier interest in the property.

**Example.** You keep the right to live in your home during your lifetime and give the remainder interest that begins upon your death.

2. An undivided part of your entire interest. This must consist of a part of every substantial interest or right you own in the property and must last as long as your interest in the property lasts.

**Example.** You contribute voting stock to a qualified organization but keep the right to vote the stock. The right to vote is a substantial right in the stock. You have not contributed an undivided part of your entire interest and cannot deduct your contribution.

3. A partial interest that would be deductible if transferred in trust.

4. A qualified conservation contribution (defined under *Qualified conservation contribution* in Publication 561).

For information about how to figure the value of a contribution of a partial interest in property,
Future Interest in Tangible Personal Property

You can deduct the value of a charitable contribution in the form of a future interest in tangible personal property only after all intervening interests in and to the actual possession or enjoyment of the property have either expired or been turned over to someone other than yourself, a related person, or a related organization.

Related persons include your spouse, children, grandchildren, brothers, sisters, and their spouses. Related organizations may include a partnership or corporation that you have an interest in, or an estate or trust that you have a connection with.

Tangible personal property. This is any property, other than land or buildings, that can be seen or touched. It includes furniture, books, jewelry, paintings, and cars.

Future interest. This is any interest that is to begin at some future time, regardless of whether it is designated as a future interest under state law.

Example. You own an antique car that you contribute to a museum. You give up ownership, but retain the right to keep the car in your garage with your personal collection. Since you keep an interest in the property, you cannot deduct the contribution. If you turn the car over to the museum in a later year, giving up all rights to its use, possession, and enjoyment, you can take a deduction for the contribution in that later year.

Inventory

If you contribute inventory (property that you sell in the course of your business), the amount you can claim as a contribution deduction is the smaller of its fair market value on the day you contributed it or its basis. The basis of donated inventory is any cost incurred for the inventory in an earlier year that you would otherwise include in your opening inventory for the year of the contribution. You must remove the amount of your contribution deduction from your opening inventory. It is not part of the cost of goods sold.

If the cost of donated inventory is not included in your opening inventory, the inventory’s basis is zero and you cannot claim a charitable contribution deduction. Treat the inventory’s cost as you would ordinarily treat it under your method of accounting. For example, include the purchase price of inventory bought and donated in the same year in the cost of goods sold for that year.

A special rule applies to certain donations of food inventory made after August 27, 2005, and before January 1, 2006. See Food Inventory, later.

Patents and Other Intellectual Property

If you donate a patent or other intellectual property to a qualified organization after June 3, 2004, your deduction is limited to the basis of the property or the fair market value of the property, whichever is less. Intellectual property means any of the following:

- Patents
- Copyrights (other than a copyright described in Internal Revenue Code sections 1221(a)(3) or 1231(b)(1)(C)).
- Trademarks
- Trade names
- Trade secrets
- Know-how
- Software (other than software described in Internal Revenue Code section 197(e)(3)(A)(i)).
- Other similar property or applications or registrations of such property.

Additional deduction based on income. You also may be able to claim additional charitable contribution deductions in the year of the contribution and years following, based on the income, if any, from the donated property.

The following table shows the percentage of the organization’s income from the property that you can deduct for each of your tax years ending on or after the date of the contribution. In the table, “tax year 1,” for example, means your first tax year ending on or after the date of the contribution. However, you can take the additional deduction only to the extent the total of the amounts figured using this table is more than the amount of the deduction claimed for the original donation of the property.

</table>

After the legal life of the patent or other intellectual property ends or after the 10th anniversary of the donation, no additional deduction is allowed.

The additional deductions cannot be taken for patents or other intellectual property donated to certain private foundations.

Reporting requirements. You are required to inform the organization at the time of the donation that you intend to treat the donation as a contribution subject to the provisions discussed above.

The organization is required to file an information return showing the income from the property, with a copy to you. This is done on Form 8899, Notice of Income From Donated Intellectual Property.

Determining Fair Market Value

This section discusses general guidelines for determining the fair market value of various types of donated property. Publication 561 contains a more complete discussion.

Fair market value is the price at which property would change hands between a willing buyer and a willing seller, neither having to buy or sell, and both having reasonable knowledge of all the relevant facts.

Used clothing. The fair market value of used clothing and other personal items is usually far less than the price you paid for them. There are no fixed formulas or methods for finding the value of items of clothing.

You should claim as the value the price that buyers of used items actually pay in used clothing stores, such as consignment or thrift shops.

Household goods. The fair market value of used household goods, such as furniture, appliances, and linens, is usually much lower than the price paid when new. These items may have little or no market value because they are in a worn condition, out of style, or no longer useful.

For these reasons, formulas (such as using a percentage of the cost to buy a replacement item) are not acceptable in determining value.

You should support your valuation with photographs, canceled checks, receipts from your purchase of the items, or other evidence. Magazine or newspaper articles and photographs that describe the items and statements by the recipients of the items are also useful. Do not include any of this evidence with your tax return.

If the property is valuable because it is old or unique, see the discussion under Paintings, Antiques, and Other Objects of Art in Publication 561.

Cars, boats, and airplanes. If you contribute a car, boat, or airplane to a charitable organization, you must determine its fair market value.

Boats. Except for inexpensive small boats, the valuation of boats should be based on an appraisal by a marine surveyor because the physical condition is critical to the value.

Cars. Certain commercial firms and trade organizations publish used car pricing guides, commonly called "blue books," containing complete dealer sale prices or dealer average prices for recent model years. The guides may be published monthly or seasonally, and for different regions of the country. These guides also provide estimates for adjusting for unusual equipment, unusual mileage, and physical condition. The prices may not be "official" and these publications are not considered an appraisal of any specific donated property. But they do provide clues for making an appraisal and suggest relative prices for comparison with current sales and offerings in your area.

These publications are sometimes available from public libraries, or from the loan officer at a bank, credit union, or finance company. You can also find used car pricing information on the Internet.

To find the fair market value of a car donated after June 3, 2005, use the price listed in a used car guide.
car guide for a private party sale, not the dealer retail value. However, the fair market value may be less than that amount if the car has engine trouble, body damage, high mileage, or any type of excessive wear. The fair market value of a donated car is the same as the price listed in a used car guide for a private party sale only if the guide lists a sales price for a car that is the same make, model, and year, sold in the same area, in the same condition, with the same or similar options or accessories, and with the same or similar warranties as the donated car.

Example. You donate a used car in poor condition to a local high school for use by students studying car repair. A used car guide shows the dealer retail value for this type of car in poor condition is $1,600. However, the guide shows the price for a private party sale of the car is only $750. The fair market value of the car is considered to be $750.

Large quantities. If you contribute a large number of the same item, fair market value is the price at which comparable numbers of the item are being sold.

Example. You purchase 500 bibles for $1,000. The person who sells them to you says the retail value of these bibles is $3,000. If you contribute the bibles to a qualified organization, you can claim a deduction only for the price at which similar numbers of the same bible are currently being sold. Your charitable contribution is $1,000, unless you can show that similar numbers of that bible were selling at a different price at the time of the contribution.

Giving Property That Has Decreased in Value

If you contribute property with a fair market value that is less than your basis in it, your deduction is limited to its fair market value. You cannot claim a deduction for the difference between the property’s basis and its fair market value.

Your basis in property is generally what you paid for it. If you need more information about basis, get Publication 551, Basis of Assets. You may want to get Publication 551 if you contribute property that you:

• Received as a gift or inheritance,
• Used in a trade, business, or activity conducted for profit, or
• Claimed a casualty loss deduction for.

Common examples of property that decreases in value include clothing, furniture, appliances, and cars.

Giving Property That Has Increased in Value

If you contribute property with a fair market value that is more than your basis in it, you may have to reduce the fair market value by the amount of appreciation (increase in value) when you figure your deduction.

Your basis in property is generally what you paid for it. If you need more information about basis, get Publication 551.

Different rules apply to figuring your deduction, depending on whether the property is:

1. Ordinary income property, or
2. Capital gain property.

A special rule applies to certain donations of food inventory made after August 27, 2005, and before January 1, 2006. See Food Inventory, later.

Ordinary Income Property

Property is ordinary income property if its sale at fair market value on the date it was contributed would have resulted in ordinary income in or in short-term capital gain. Examples of ordinary income property are inventory, works of art created by the donor, manuscripts prepared by the donor, and capital assets (defined later, under Capital Gain Property) held 1 year or less.

Property used in a trade or business. Property used in a trade or business is considered ordinary income property to the extent of any gain that would have been treated as ordinary income because of depreciation had the property been sold at its fair market value at the time of contribution. See chapter 3 of Publication 544, Sales and Other Dispositions of Assets, for the kinds of property to which this rule applies.

Amount of deduction. The amount you can deduct for a contribution of ordinary income property is its fair market value minus the amount that would be ordinary income or short-term capital gain if you sold the property for its fair market value. Generally, this rule limits the deduction to your basis in the property.

Example. You donate stock that you held for 5 months to your church. The fair market value of the stock on the day you donate it is $1,000, but you paid only $600 (your basis). Because the $200 of appreciation would be short-term capital gain if you sold the stock, your deduction is limited to $800 (fair market value minus the appreciation).

Exception. Do not reduce your charitable contribution if you include the ordinary or capital gain income in your gross income in the same year as the contribution. See Ordinary or capital gain income included in gross income under Capital Gain Property, next, if you need more information.

Capital Gain Property

Property is capital gain property if its sale at fair market value on the date of the contribution would have resulted in long-term capital gain. Capital gain property includes capital assets held more than 1 year.

Capital assets. Capital assets include most items of property that you own and use for personal purposes or investment. Examples of capital assets are stocks, bonds, jewelry, coin or stamp collections, and cars or furniture used for personal purposes.

For purposes of figuring your charitable contribution, capital assets also include certain real property and depreciable property used in your trade or business and, generally, held more than 1 year. (You may have to treat this property as partly ordinary income property and partly capital gain property.)

Real property. Real property is land and generally anything that is built on, growing on, or attached to land.

Depreciable property. Depreciable property is property used in business or held for the production of income and for which a depreciation deduction is allowed. For more information about what is a capital asset, see chapter 2 of Publication 544.

Amount of deduction — general rule. When figuring your deduction for a gift of capital gain property, you usually can use the fair market value of the gift.

Exceptions. However, in certain situations, you must reduce the fair market value by any amount that would have been long-term capital gain if you had sold the property for its fair market value. Generally, this means reducing the fair market value to the property’s cost or other basis. You must do this if:

1. The property (other than qualified appreciated stock) is contributed to certain private nonoperating foundations,
2. The contributed property is tangible personal property that is put to an unrelated use by the charity,
3. You choose the 50% limit instead of the 30% limit, discussed later, or
4. The contributed property is qualified intellectual property (as defined earlier under Patents and Other Intellectual Property) donated after June 3, 2004.

Contributions to private nonoperating foundations. The reduced deduction applies to contributions to all private nonoperating foundations other than those qualifying for the 50% limit, discussed later.

However, the reduced deduction does not apply to contributions of qualified appreciated stock. Qualified appreciated stock is any stock in a corporation that is capital gain property and for which market quotations are readily available on an established securities market on the day of the contribution. But stock in a corporation does not count as qualified appreciated stock to the extent you and your family contributed more than 10% of the value of all the outstanding stock in the corporation.

Contributions of tangible personal property. The term “tangible personal property” means any property, other than land or buildings, that can be seen or touched. It includes furniture, books, jewelry, paintings, and cars.

The term “unrelated use” means a use that is unrelated to the exempt purpose or function of the charitable organization. For a governmental unit, it means the use of the contributed property for other than exclusively public purposes.

Example. If a painting contributed to an educational institution is used by that organization for educational purposes by being placed in its library for display and study by art students, the use is not an unrelated use. But if the painting is sold and the proceeds are used by the organization for educational purposes, the use is an unrelated use.

Ordinary or capital gain income included in gross income. You do not reduce your chari-
**Worksheet instructions.** Enter on line 8 of the worksheet 10% of your net income for the year from all sole proprietorships, S corporations, or partnerships (or other entity that is not a C corporation) from which contributions of food inventory were made. Figure net income before any deduction for a charitable contribution of food inventory.

If you made more than one contribution of food inventory, complete a separate worksheet for each contribution. Complete lines 8 and 9 on only one worksheet. On that worksheet, complete line 8. Then compare line 8 and the total of the line 7 amounts on all worksheets and enter the smaller of those amounts on line 9.

**Contributions before August 28, 2005, or after 2005.** If you made a charitable contribution of food inventory before August 28, 2005, or after December 31, 2005, these rules do not apply. Instead, figure your deduction as described under Ordinary Income Property, earlier.

**More information.** See Inventory, earlier, for information about determining the basis of donated inventory and the effect on cost of goods sold. For additional details, see section 170(e)(3) of the Internal Revenue Code.

**Bargain Sales**

A bargain sale of property to a qualified organization is a sale or exchange for less than the property's fair market value. The part of the bargain sale that is a sale or exchange may result in a taxable gain. For more information on determining the amount of any taxable gain, see Bargain sales to charity in chapter 1 of Publication 544.

**Part that is a charitable contribution.** Figure the amount of your charitable contribution in three steps.

**Step 1.** Subtract the amount you received for the property from the property's fair market value at the time of sale. This gives you the fair market value of the contributed part.  

- Adjusted basis of entire property  
- Fair market value of contributed part

**Step 2.** Find the adjusted basis of the contributed part. It equals:

\[
\text{Adjusted basis of entire property} \times \frac{\text{Fair market value of contributed part}}{\text{Fair market value of entire property}}
\]

**Step 3.** Determine whether the amount of your charitable contribution is the fair market value of the contributed part (which you found in Step 1) or the adjusted basis of the contributed part (which you found in Step 2). Generally, if the property sold was capital gain property, your charitable contribution is the fair market value of the contributed part. If it was ordinary income property, your charitable contribution is the adjusted basis of the contributed part. See the ordinary income property and capital gain property rules (discussed earlier) for more information.

**Example.** You sell ordinary income property with a fair market value of $10,000 to a church for $2,000. Your basis is $4,000 and your adjusted gross income is $20,000. You make no other contributions during the year. The fair market value of the contributed part of the property is $8,000 ($10,000 − $2,000). The adjusted basis of the contributed part is $3,200 ($4,000 × ($8,000 ÷ $10,000)).

**Penalty**

You may be liable for a penalty if you overstate the value or adjusted basis of donated property.

- **20% penalty.** The penalty is 20% of the amount by which you underpaid your tax because of the overstatement, if:
  - The value or adjusted basis claimed on your return is 200% or more of the correct amount, and
  - You underpaid your tax by more than $5,000 because of the overstatement.

- **40% penalty.** The penalty is 40%, rather than 20%, if:
  - The value or adjusted basis claimed on your return is 400% or more of the correct amount, and
  - You underpaid your tax by more than $5,000 because of the overstatement.

**When To Deduct**

You can deduct your contributions only in the year you actually make them in cash or other property (or in a succeeding carryover year, as explained under How To Figure Your Deduction When Limits Apply, later). This applies whether you use the cash or an accrual method of accounting.

**Tsunami donations deducted in 2004.** If you made a cash contribution in January 2005 for the relief of victims of the December 26, 2004, Indian Ocean tsunami and chose to deduct it on your 2004 return, you cannot deduct it on your 2005 return.

**Time of making contribution.** Usually, you make a contribution at the time of its unconditional delivery.

**Checks.** A check that you mail to a charity is considered delivered on the date you mail it.
The type and rule above prints on all proofs including departmental reproduction proofs. MUST be removed before printing.

Credit card. Contributions charged on your bank credit card are deductible in the year you make the charge.

Pay-by-phone account. If you use a pay-by-phone account, the date you make a contribution is the date the financial institution pays the amount. This date should be shown on the statement the financial institution sends to you.

Stock certificate. The gift to a charity of a properly endorsed stock certificate is completed on the date of mailing or other delivery to the charity or to the charity’s agent. However, if you give a stock certificate to your agent or to the issuing corporation for transfer to the name of the charity, your gift is not completed until the date the stock is transferred on the books of the corporation.

Promissory note. If you issue and deliver a promissory note to a charitable organization as a contribution, it is not a contribution until you make the note payments.

Option. If you grant an option to buy real property at a bargain price to a charitable organization, you cannot take a deduction until the organization exercises the option.

Borrowed funds. If you make a contribution with borrowed funds, you can deduct the contribution in the year you make it, regardless of when you repay the loan.

Conditional gift. If your contribution is a conditional gift that depends on a future act or event that may not take place, you cannot take a deduction. But if there is only a negligible chance that the act or event will not take place, you can take a deduction.

Example 1. You donate cash to a local school board, which is a political subdivision of a state, to help build a school gym. The school board will refund the money to you if it does not collect enough to build the gym. You cannot deduct your gift as a charitable contribution until there is no chance of a refund.

Example 2. You donate land to a city for as long as the city uses it for a public park. The city does plan to use the land for a park, and there is no chance (or only a negligible chance) of the land being used for any different purpose. You can deduct your charitable contribution.

Limits on Deductions

If your total contributions for the year are 20% or less of your adjusted gross income, you do not need to read this section. The limits discussed here do not apply to you.

The amount of your deduction is limited to 50% of your adjusted gross income, and may be limited to 30% or 20% of your adjusted gross income, depending on the type of property you give and the type of organization you give it to. These limits are described below.

Temporary Suspension of 50% Limit

The 50% limit is suspended for certain contributions made in 2005. See Temporary Suspension of 50% Limit, later.

50% Limit

The 50% limit applies to the total of all charitable contributions you make during the year. This means that your deduction for charitable contributions cannot be more than 50% of your adjusted gross income for the year. But see Temporary Suspension of 50% Limit, later.

50% Limit Organizations

You can ask any organization whether it is a 50% limit organization, and most will be able to tell you. Or you may check IRS Publication 78 (described earlier).

Only the following types of organizations are 50% limit organizations:

1. Churches, and conventions or associations of churches.
2. Educational organizations with a regular faculty and curriculum that normally have a regularly enrolled student body attending classes on site.
3. Hospitals and certain medical research organizations associated with these hospitals.
4. Organizations that are operated only to receive, hold, invest, and administer property and to make expenditures to or for the benefit of state and municipal colleges and universities and that normally receive substantial support from the United States or any state or their political subdivisions, or from the general public.

The United States or any state, the District of Columbia, a U.S. possession (including Puerto Rico), a political subdivision of a state or U.S. possession, or an Indian tribal government or any of its subdivisions that perform substantial government functions.

5. Corporations, trusts, or community chests, funds, or foundations organized and operated only for charitable, educational, scientific, or literary purposes, or to prevent cruelty to children or animals, or to foster certain national or international amateur sports competition. These organizations must be “publicly supported,” which means they normally must receive a substantial part of their support, other than income from their exempt activities, from direct or indirect contributions from the general public or from governmental units.

6. Organizations that may not qualify as “publicly supported” under (6) but that meet other tests such as showing need to read this section. The limits discussed in contributions “disqualified persons.”

Most organizations operated or controlled by, and operated for the benefit of, those organizations described in (1) through (7).

9. Private operating foundations.

10. Private operating foundations that make qualifying distributions of 100% of contributions within 2½ months following the year they receive the contribution. A deduction for charitable contributions to any of these private nonoperating foundations must be supported by evidence from the foundation confirming that it made the qualifying distributions timely. Attach a copy of this supporting data to your tax return.

11. A private foundation whose contributions are pooled into a common fund, if the foundation would be described in (8) above but for the right of the substantial contributors to name the public charities that receive contributions from the fund. The foundation must distribute the common fund’s income within 2½ months following the tax year in which it was realized and must distribute the corpus not later than 1 year after the donor’s death (or after the death of the donor’s surviving spouse if the spouse can name the recipients of the corpus).

Temporary Suspension of 50% Limit

The 50% limit does not apply to your “qualified contributions.” A qualified contribution is a charitable contribution paid in cash after August 27, 2005, and before January 1, 2006, to a 50% limit organization (other than a section 509(a)(3) organization) if you make an election to have the 50% limit not apply to these contributions.

Your deduction for qualified contributions is limited to your adjusted gross income minus...
your deduction for all other charitable contributions. You can carry over any contributions you are not able to deduct for 2005 because of this limit. In 2006, the carryover of your unused qualified contributions like a carryover of contributions subject to the 50% limit.

Exception. You cannot make this election for a contribution to establish a new, or maintain an existing, segregated fund or account for which you (or any person you appoint or designate) has or expects to have advisory privileges with respect to distributions or investments because of being a donor.

Partners and shareholders. Each partner in a partnership and each shareholder in an S corporation makes this election separately.

Worksheet. You may want to use the worksheet on page 14 to figure your deduction if:

- You made qualified contributions,
- You also made charitable contributions that are not qualified contributions, and
- Your total contributions are more than 20% of your adjusted gross income.

30% Limit

A 30% limit applies to the following gifts.

- Gifts to all qualified organizations other than 50% limit organizations. This includes gifts to veterans’ organizations, fraternal societies, nonprofit cemeteries, and certain private nonoperating foundations.
- Gifts for the use of any organization.

However, if these gifts are of capital gain property, they are subject to the 20% limit, described later, rather than the 30% limit.

Student living with you. Amounts you spend on behalf of a student living with you are subject to the 30% limit. These amounts are considered a contribution for the use of a qualified organization.

Special 30% Limit for Capital Gain Property

A special 30% limit applies to gifts of capital gain property to 50% limit organizations. (For gifts of capital gain property to other organizations, see 20% Limit, next.) However, the special 30% limit does not apply when you choose to reduce the fair market value of the property by the amount that would have been long-term capital gain if you had sold the property. Instead, only the 50% limit applies. See Capital Gain Property, earlier, and Capital gain property election under How To Figure Your Deduction When Limits Apply.

Two separate 30% limits. This special 30% limit for capital gain property is separate from the other 30% limit. Therefore, the deduction of a contribution subject to one 30% limit does not reduce the amount you can deduct for contributions subject to the other 30% limit. However, the total you deduct cannot be more than 50% of your adjusted gross income.

Example. Your adjusted gross income is $50,000. During the year, you gave capital gain property with a fair market value of $15,000 to a 50% limit organization. You do not choose to reduce the property’s fair market value by its appreciation in value. You also gave $10,000 cash to a qualified organization that is not a 50% limit organization. The $15,000 gift of property is subject to the special 30% limit. The $10,000 cash gift is subject to the other 30% limit. Both gifts are fully deductible because neither is more than the 30% limit that applies ($15,000 in each case) and together they are not more than the 50% limit ($25,000).

20% Limit

The 20% limit applies to all gifts of capital gain property to or for the use of qualified organizations, including contributions of capital gain property subject to the special 30% limit.

How To Figure Your Deduction When Limits Apply

If your contributions are subject to more than one of the limits just discussed, you can deduct them as follows.

1. Contributions subject only to the 50% limit, up to 50% of your adjusted gross income.
2. Contributions subject to the 30% limit, up to the lesser of:
   a. 30% of adjusted gross income, or
   b. 50% of adjusted gross income minus your contributions to 50% limit organizations, including contributions of capital gain property subject to the special 30% limit.
3. Contributions of capital gain property subject to the special 30% limit, up to the lesser of:
   a. 30% of adjusted gross income, or
   b. 50% of adjusted gross income minus your other contributions to 50% limit organizations.
4. Contributions subject to the 20% limit, up to the lesser of:
   a. 20% of adjusted gross income, or
   b. 30% of adjusted gross income minus your contributions subject to the 30% limit, or
   c. 30% of adjusted gross income minus your contributions of capital gain property subject to the special 30% limit, or
   d. 50% of adjusted gross income minus the total of your contributions to 50% limit organizations and your contributions subject to the 30% limit.

If more than one of the limits described above limit your deduction for charitable contributions, you may want to use Worksheet 2 on page 14 to figure your deduction and your carryover.

Example. Your adjusted gross income is $50,000. In May, you gave your church $2,000 cash and land with a fair market value of $28,000 and a basis of $22,000. You held the land for investment purposes. You do not choose to reduce the fair market value of the land by the appreciation in value. You also gave $5,000 cash to a private foundation to which the 30% limit applies.

The $2,000 cash donated to the church is considered first and is fully deductible. Your contribution to the private foundation is considered next. Because your contributions to 50% limit organizations ($2,000 + $28,000) are more than $25,000 (50% of $50,000), your contribution to the private foundation is not deductible for the year. It can be carried over to later years. See Carryovers, later. The gift of land is considered next. Your deduction for the land is limited to $15,000 (50% of $30,000). Because the gift of land ($13,000) can be carried over. For this year, your deduction is limited to $17,000 ($2,000 + $15,000).

A Filled-In Worksheet 2 on page 15 shows this computation in detail.

Capital gain property election. You may choose the 50% limit for gifts of capital gain property to 50% limit organizations instead of the 30% limit that would otherwise apply. If you make this choice, you must reduce the fair market value of the property contributed by the appreciation in value that would have been long-term capital gain if the property had been sold.

This choice applies to all capital gain property contributed to 50% limit organizations during a tax year. It also applies to carryovers of this type of contribution from an earlier tax year. For details, see Carryover of capital gain property.

You must make the choice on your original return or on an amended return filed by the due date for filing the original return.

Example. In the previous example, if you choose to have the 50% limit apply to the land (the 30% capital gain property) given to your church, you must reduce the fair market value of the property by the appreciation in value. Therefore, the amount of your charitable contribution for the land would be its basis to you of $22,000. You add this amount to the $2,000 cash contributed to the church. You can now deduct $1,000 of the amount donated to the private foundation because your contributions to 50% limit organizations ($2,000 + $22,000) are $1,000 less than the 50% of-adjusted-gross-income limit. Your total deduction for the year is $25,000 ($2,000 cash to your church, $22,000 for property donated to your church, and $1,000 cash to the private foundation). You can carry over to later years the part of your contribution to the private foundation that you could not deduct ($4,000).

Instructions for Worksheet 2

You can use Worksheet 2 if you made charitable contributions during the year, and one or more of the limits described in this publication under Limits on Deductions apply to you. You cannot use this worksheet if you have a carryover of a charitable contribution from an earlier year.

The following list gives some helpful instructions on completing the worksheet.
Worksheet 2. Applying the Deduction Limits

If the result on any line is less than zero, enter zero. For other instructions, see page 13.

### Step 1. Enter any qualified contributions.
1. Enter your qualified contributions. These are cash contributions you paid after August 27, 2005, and before January 1, 2006, to a 50% limit organization (other than a section 509(a)(3) organization) for which you are electing to have the 50% limit not apply. **Do not** include this amount on line 2 below.

### Step 2. List your other charitable contributions made during the year.
2. Enter your contributions to 50% limit organizations. **Include contributions of capital gain property if you reduced the property’s fair market value. Do not include contributions of capital gain property deducted at fair market value.** **Do not** include any contributions you entered on line 1.
3. Enter your contributions to 50% limit organizations of capital gain property deducted at fair market value.
4. Enter your contributions (other than of capital gain property) to qualified organizations that are not 50% limit organization.
5. Enter your contributions “for the use of” any qualified organization. (But do not enter here any amount that must be entered on line 7.)
6. Enter your contributions to 50% limit organizations of capital gain property deducted at fair market value.
7. Enter your contributions to qualified organizations that are not 50% limit organization.

**Add lines 4 and 5.**

### Step 3. Figure your deduction for the year and your carryover to the next year.
8. Enter your adjusted gross income.
9. Multiply line 8 by 0.5. This is your 50% limit.

# Filled-in Worksheet 2. Applying the Deduction Limits

If the result on any line is less than zero, enter zero. For other instructions, see page 13.

## Step 1. Enter any qualified contributions.

1. Enter your qualified contributions. These are cash contributions you paid after August 27, 2005, and before January 1, 2006, to a 50% limit organization (other than a section 509(a)(3) organization) for which you are electing to have the 50% limit not apply. Do not include this amount on line 2 below.

2. Enter your contributions to 50% limit organizations. (Include contributions of capital gain property if you reduced the property’s fair market value. Do not include contributions of capital gain property deducted at fair market value.) Do not include any contributions you entered on line 1.

3. Enter your contributions to 50% limit organizations of capital gain property deducted at fair market value.

4. Enter your contributions (other than of capital gain property) to qualified organizations that are not 50% limit organization.

5. Enter your contributions “for the use of” any qualified organization. (But do not enter here any amount that must be entered on line 7.)

6. Add lines 4 and 5.

7. Enter your contributions of capital gain property to or for the use of any qualified organization. (But do not enter here any amount entered on line 2 or 3.)

## Step 2. List your other charitable contributions made during the year.

8. Enter your adjusted gross income.

9. Multiply line 8 by 0.5. This is your 50% limit.

## Step 3. Figure your deduction for the year and your carryover to the next year.

8. Enter your adjusted gross income.

9. Multiply line 8 by 0.5. This is your 50% limit.

</tbody>
</table>
The terms used in the worksheet are explained earlier in this publication.

If the result on any line is less than zero, enter zero.

For contributions of property, enter the property's fair market value unless you elected (or were required) to reduce the fair market value as explained under Giving Property That Has Increased in Value. In that case, enter the reduced amount.

Carryovers
You can carry over your contributions that you are not able to deduct in the current year because they exceed your adjusted gross-income limits. You can deduct the excess in each of the next 5 years until it is used up, but not beyond that time. Your total contributions deduction for the year to which you carry your contributions cannot exceed 50% of your adjusted gross income for that year.

Contributions you carry over are subject to the same percentage limits in the year to which they are carried. For example, contributions subject to the 20% limit in the year in which they are made are 20% limit contributions in the year to which they are carried.

For each category of contributions, you deduct carryover contributions only after deducting all allowable contributions in that category for the current year. If you have carryovers from 2 or more prior years, use the carryover from the earlier year first.

Note. A carryover of a contribution to a 50% limit organization must be used before contributions in the current year to organizations other than 50% limit organizations. See Example 2 on this page.

Example 1. Last year, you contributed $11,000 to a 50% limit organization, but because of the limit you deducted only $10,000 and carried over $1,000 to this year. This year, your adjusted gross income is $20,000 and in June you contribute $9,500 to a 50% limit organization. You can deduct $10,000 (50% of $20,000) this year. Consequently, in addition to your contribution of $9,500 for this year, you can deduct $500 of your carryover contribution from last year. You can carry over the $500 balance of your carryover from last year to next year.

Note. A carryover of a contribution to a 50% limit organization must be used before contributions in the current year to organizations other than 50% limit organizations. See Example 2 on this page.

Example 2. This year, your adjusted gross income is $24,000. You make cash contributions of $6,000 to which the 50% limit applies and $3,000 to which the 30% limit applies. You have a contribution carryover from last year of $5,000 for capital gain property contributed to a 50% limit organization and subject to the special 30% limit for contributions of capital gain property.

Your contribution deduction for this year is limited to $12,000 (50% of $24,000). Your 50% limit cash contributions of $6,000 are fully deductible.

The deduction for your 30% limit contributions of $3,000 is limited to $1,000. This is the lesser of:

1. $7,200 (30% of $24,000), or
2. $1,000 ($12,000 minus $11,000).

(The $12,000 amount is 50% of $24,000, your adjusted gross income. The $11,000 amount is the sum of your current and carryover contributions to 50% limit organizations, $6,000 + $5,000.)

The deduction for your $5,000 carryover is subject to the special 30% limit for contributions of capital gain property. This means it is limited to the smaller of:

1. $7,200 (your 30% limit), or
2. $6,000 ($12,000, your 50% limit, minus $6,000, the amount of your cash contributions to 50% limit organizations this year).

Since your $5,000 carryover is less than both $7,200 and $6,000, you can deduct it in full.

Your deduction is $12,000 ($6,000 + $6,000 + $5,000). You carry over the $2,000 balance of your 30% limit contributions for this year to next year.

Carryover of capital gain property. If you carry over contributions of capital gain property subject to the special 30% limit and you choose in the next year to use the 50% limit and take appreciation into account, you must refigure the carryover. You reduce the fair market value of the property by the appreciation and reduce that result by the amount actually deducted in the previous year.

Example. Last year, your adjusted gross income was $50,000 and you contributed capital gain property valued at $27,000 to a 50% limit organization and did not choose to use the 50% limit. Your basis in the property was $20,000. Your deduction was limited to $15,000 (30% of $50,000), and you carried over $12,000. This year, your adjusted gross income is $60,000 and you contribute capital gain property valued at $25,000 to a 50% limit organization. Your basis in the property is $24,000 and you choose to use the 50% limit. You must refigure your carryover as if you had taken appreciation into account last year as well as this year. Because the amount of your contribution last year would have been $20,000 (the property’s basis) instead of the $15,000 you actually deducted, your refigured carryover is $5,000 ($20,000 − $15,000). Your total deduction this year is $29,000 ($24,000 current contribution plus your $5,000 carryover).

Additional rules for carryovers. Special rules exist for computing carryovers if you:

- Were married in some years but not others,
- Had different spouses in different years,
- Change from a separate return to a joint return in a later year,
- Change from a joint return to a separate return in a later year,
- Had a net operating loss,
- Claim the standard deduction in a carryover year, or
- Become a widow or widower.

Because of their complexity and the limited number of taxpayers to whom these additional rules apply, they are not discussed in this publication. If you need to compute a carryover and you are in one of these situations, you may want to consult with a tax practitioner.

Records To Keep
You must keep records to prove the amount of the cash and noncash contributions you make during the year. The kind of records you must keep depends on the amount of your contributions and whether they are cash or noncash contributions.

Note. An organization generally must give you a written statement if it receives a payment from you that is more than $75 and is partly a contribution and partly for goods or services. (See Contributions From Which You Benefit under Contributions You Can Deduct, earlier.) Keep the statement for your records. It may satisfy all or part of the recordkeeping requirements explained in the following discussions.

Cash Contributions
Cash contributions include those paid by cash, check, credit card, or payroll deduction. They also include your out-of-pocket expenses when donating your services.

For a contribution in cash, the records you must keep depend on whether the contribution is:

1. Less than $250, or
2. $250 or more.

Amount of contribution. In figuring whether your contribution is $250 or more, do not combine separate contributions. For example, if you gave your church $25 each week, your weekly payments do not have to be combined. Each payment is a separate contribution.

If contributions are made by payroll deduction, the deduction from each paycheck is treated as a separate contribution. If you made a payment that is partly for goods and services, as described earlier under Contributions From Which You Benefit, your contribution is the amount of the payment that is more than the value of the goods and services.

Contributions of Less Than $250
For each cash contribution that is less than $250, you must keep one of the following.

1. A canceled check, or a legible and readable account statement that shows:
   a. If payment was by check — the check number, amount, date posted, and to whom paid,
   b. If payment was by electronic funds transfer — the amount, date posted, and to whom paid,
   c. If payment was charged to a credit card — the amount, transaction date, and to whom paid.

2. A receipt (or a letter or other written communication) from the charitable organization showing the name of the organization.
the date of the contribution, and the amount of the contribution.

3. Other reliable written records that include the information described in (2). Records may be considered reliable if they were made at or near the time of the contribution, were regularly kept by you, or if, in the case of small donations, you have buttons, emblems, or other tokens, that are regularly given to persons making small cash contributions.

**Car expenses.** If you claim expenses directly related to use of your car in giving services to a qualified organization, you must keep reliable written records of your expenses. Whether your records are considered reliable depends on all the facts and circumstances. Generally, they may be considered reliable if you made them regularly and at or near the time you had the expenses.

Your records must show the name of the organization you were serving and the date each time you used your car for a charitable purpose. If you use the standard mileage rate, your records must show the miles you drove your car for the charitable purpose. If you deduct your actual expenses, your records must show the costs of operating the car that are directly related to a charitable purpose.

See **Car expenses under Out-of-Pocket Expenses in Giving Services, earlier, for the expenses you can deduct.**

**Contributions of $250 or More**

You can claim a deduction for a contribution of $250 or more only if you have an acknowledgement of your contribution from the qualified organization or certain payroll deduction records. If you make more than one contribution of $250 or more, you must have either a separate acknowledgement for each or one acknowledgement that shows your total contributions.

**Acknowledgement.** The acknowledgement must meet these tests.

1. It must be written.
2. It must include:
   a. The amount of cash you contributed.
   b. Whether the qualified organization gave you any goods or services as a result of your contribution (other than certain token items and membership benefits), and
   c. A description and good faith estimate of the value of any goods or services described in (b). If the only benefit you received was an intangible religious benefit (such as admission to a religious ceremony) that generally is not sold in a commercial transaction, outside the donative context, the acknowledgement must say so and does not need to describe or estimate the value of the benefit.
3. You must get it on or before the earlier of:
   a. The date you file your return for the year you made the contribution, or
   b. The due date, including extensions, for filing the return.

**Payroll deductions.** If you make a contribution by payroll deduction, you do not need an acknowledgement from the qualified organization. But if your employer deducted $250 or more from a single paycheck, you must keep:

1. A pay stub, Form W-2, or other document furnished by your employer that proves the amount withheld, and
2. A pledge card or other document from the qualified organization that states the organization does not provide goods or services in return for any contribution made to it by payroll deduction.

**Out-of-pocket expenses.** If you render services to a qualified organization and have unreimbursed out-of-pocket expenses related to those services, you can satisfy the written acknowledgment requirement just discussed if:

1. You have adequate records to prove the amount of the expenses, and
2. By the required date, you get an acknowledgement from the qualified organization related to a charitable purpose.

**Additional records.** You must also keep reliable written records for each item of donated property. Your written records must include the following information.

1. The name and address of the organization to which you contributed.
2. The date and location of the contribution.
3. A description of the property in detail relating to a charitable purpose. If you use the standard mileage rate, you must keep records showing the name of the organization you were serving and the date each time you used your car for a charitable purpose. If you deduct your actual expenses, your records must show the costs of operating the car that are directly related to a charitable purpose.

See **Car expenses under Out-of-Pocket Expenses in Giving Services, earlier, for the expenses you can deduct.**

**Contributions From Which You Benefit**

For a contribution not made in cash, the records you keep must meet these tests:

1. Less than $250,
2. At least $250 but not more than $500,
3. Over $500 but not more than $5,000, or
4. Over $5,000.

**Amount of deduction.** In figuring whether your deduction is $500 or more, combine your claimed deductions for all similar items of property donated to any charitable organization during the year. If you got goods or services in return, as described earlier in **Contributions From Which You Benefit,** reduce your contribution by the value of those goods or services. If you figure your deduction by reducing the fair market value of the donated property by its appreciation, as described earlier in **Giving Property That Has Increased in Value,** your contribution is the reduced amount.

**Deductions of Less Than $250**

If you make any noncash contribution, you must get and keep a receipt from the charitable organization showing:

1. The name of the charitable organization,
2. The date and location of the charitable contribution, and
3. A reasonably detailed description of the property.

A letter or other written communication from the charitable organization acknowledging receipt of the contribution and containing the information in (1), (2), and (3) will serve as a receipt. You are not required to have a receipt where it is impractical to get one (for example, you leave property at a charity's unattended drop site).

**Noncash Contributions**

For a contribution not made in cash, the records you keep must depend on whether your deduction for the contribution is:

1. Less than $250,
2. At least $250 but not more than $500, or
3. Over $500 but not more than $5,000, or
4. Over $5,000.

**Amount of deduction.** In figuring whether your deduction is $500 or more, combine your claimed deductions for all similar items of property donated to any charitable organization during the year. If you got goods or services in return, as described earlier in **Contributions From Which You Benefit,** reduce your contribution by the value of those goods or services. If you figure your deduction by reducing the fair market value of the donated property by its appreciation, as described earlier in **Giving Property That Has Increased in Value,** your contribution is the reduced amount.
Deductions of At Least $250 But Not More Than $500

If you claim a deduction of at least $250 but not more than $500 for a noncash charitable contribu-
tion, you must get and keep an acknowledge-
ment of your contribution from the qualified
organization. If you made more than one contrib-
tion of $250 or more, you must have either a separate acknowledgment for each or one ac-
knowledgment that shows your total contribu-
tions.

The acknowledgment must contain the in-
formation in items (1) through (3) listed under
Deductions of Less Than $250, earlier, and your
written records must include the information
listed in that discussion under Additional rec-
ords.

The acknowledgment must also meet these
tests.

1. It must be written.

2. It must include:
   a. A description (but not necessarily the value)
of any property you contributed,
   b. Whether the qualified organization gave
      you any goods or services as a result of
      your contribution (other than certain to-
      ken items and membership benefits),
   and
c. A description and good faith estimate of the
      value of any goods or services de-
scribed in (b). If the only benefit you received
      was an intangible religious benefit (such as admission to a relig-
      ious ceremony) that generally is not sold in a commercial transaction
      outside the donative context, the ac-
      knowledgment must say so and does
      not need to describe or estimate the value of the benefit.

3. You must get it on or before the earlier of:
   a. The date you file your return for the
      year you make the contribution, or
   b. The due date, including extensions, for
      filing the return.

Deductions Over $500 But Not Over $5,000

If you claim a deduction over $500, but not over
$5,000 for a noncash charitable contribution,
you must have the acknowledgment and writ-
ten records described under Deductions of At
Least $250 But Not More Than $500. Your rec-
ords must also include:

1. How you got the property, for example, by
   purchase, gift, bequest, inheritance, or ex-
   change.

2. The approximate date you got the property
   or, if created, produced, or manufactured
   by or for you, the approximate date the
   property was substantially completed.

3. The cost or other basis, and any adjust-
   ments to the basis, of property held less
   than 12 months and, if available, the cost
   or other basis of property held 12 months
   or more. This requirement, however, does
   not apply to publicly traded securities.

If you are not able to provide information on
either the date you got the property or the cost
basis of the property and you have a reasonable
cause for not being able to provide this informa-
tion, attach a statement of explanation to your
return.

Deductions Over $5,000

If you claim a deduction of over $5,000 for a
charitable contribution of one property item or a
group of similar property items, you must have
the acknowledgment and the written records
described under Deductions Over $500, But Not
Over $5,000. In figuring whether your deduction
is over $5,000, combine your claimed deduc-
tions for all similar items donated to any charita-
bale organization during the year.

Generally, you must also obtain a qualified
written appraisal of the donated property from a
qualified appraiser. See Deductions of More
Than $5,000 in Publication 561 for more infor-

Qualified Conservation Contribution

If the gift was a “qualified conservation contribu-
tion,” your records must also include the fair
market value of the underlying property before
and after the gift and the conservation purpose
furthered by the gift. See Qualified conservation
contribution in Publication 561 for more informa-
tion.

How To Report

Report your charitable contributions on Sched-
ule A of Form 1040. If you made noncash contribu-
tions, you may also be required to fill out parts of Form 8283. See Noncash contributions, later.

Reporting expenses for student living with
you. If you claim amounts paid for a student
who lives with you, as described earlier under
Expenses Paid for Student Living With You, you
must submit with your return:

1. A copy of your agreement with the organi-
zation sponsoring the student placed in
   your household.
2. A summary of the various items you paid
   to maintain the student, and
3. A statement that gives:
   a. The date the student became a mem-
      ber of your household,
   b. The dates of his or her full-time attend-
      ance at school, and
   c. The name and location of the school.

Noncash contributions. If your total deduc-
tion for all noncash contributions for the year
is over $500, you must complete Section A of
Form 8283, and attach it to your Form 1040.
However, do not complete Section A for items
you must report on Section B. See Deduction
over $5,000 for one item, next, for the items you
must report on Form 8283.

The Internal Revenue Service can disallow
your deduction for noncash charitable contribu-
tions if it is over $500, and you do not sub-
mit a required Form 8283 with your return.

Deduction over $5,000 for one item. You
must complete Section B of Form 8283 for each
item or group of items for which you claim a
deduction of over $5,000. (However, if you con-
tributed certain publicly traded securities, com-
plete Section A instead.) In figuring whether your
deduction is over $5,000, combine the claimed
deductions for all similar items donated to any
charitable organization during the year.

If you claim a deduction of over $5,000, combine the claimed
deductions for all similar items donated to any charitable
organization during the year.

If you do not attach the appraisal, you cannot
credit your contribution, unless your failure to
attach it is due to reasonable cause and not to
willful neglect.

Vehicle donations. If you donated a car,
boat, airplane, or other vehicle after 2004, you
generally must attach a copy of Form 1098-C (or
other statement) to your return. For details, see
Cars, Boats, and Airplanes, earlier.

How To Get Tax Help

You can get help with unresolved tax issues,
order free publications and forms, ask tax ques-
tions, and get information from the IRS in sev-
eral ways. By selecting the method that is best
for you, you will have quick and easy access to
tax help.

Contacting your Taxpayer Advocate. If you
have attempted to deal with an IRS problem
unsuccessfully, you should contact your Tax-
payer Advocate.

The Taxpayer Advocate independently rep-
resents your interests and concerns within the
IRS by protecting your rights and resolving
problems that have not been fixed through nor-
mal channels. While Taxpayer Advocates can-
not change the tax law or make a technical tax
decision, they can clear up problems that re-
sulted from previous contacts and ensure that your
case is given a complete and impartial review.
To contact your Taxpayer Advocate:
• Call the Taxpayer Advocate toll free at 1-
877-777-4778.
• Call, write, or fax the Taxpayer Advocate
to your area.
• Call 1-800-829-4059 if you are a TTY/TDD user.
• Visit www.irs.gov/advocate.

For more information, see Publication 1546,
How To Get Help With Unresolved Tax
Problems (now available in Chinese, Korean,
Russian, and Vietnamese, in addition to English
and Spanish).

Free tax services. To find out what services are available, get Publication 910, IRS Guide to
Free Tax Services. It contains a list of free tax
publications and an index of tax topics. It also
describes other free tax information services,
including tax education and assistance pro-
grams and a list of TeleTax topics.

Internet. You can access the IRS
website 24 hours a day, 7 days a week,
at www.irs.gov to:
• E-file your return. Find out about com-
mercial tax preparation and e-file serv-
cices available free to eligible taxpayers.
• Check the status of your 2005 refund.
Click on Where’s My Refund. Be sure to wait
at least 6 weeks from the date you filled your
return (3 weeks if you filed electronically).
Have your 2005 tax return available because you will need to know your social security number, your filing
status, and the exact whole dollar amount of your refund.
• Download forms, instructions, and publi-
cations.
• Order IRS products online.
• Research your tax questions online.
• Search publications online by topic or
keyword.
• View Internal Revenue Bulletins (IRBs)
published in the last few years.
• Figure your withholding allowances using our
Form W-4 calculator. Cumulative Bulletins available for re-
and publications needed to successfully
manage a business.
• Products. You can walk in to many post toll free offices, libraries, and IRS offices to pick
up certain forms, instructions, and publi-
cations. Some IRS offices, libraries, gro-
cery stores, copy centers, credit unions, and
office supply stores have a collection of
products available to print from a
CD-ROM or photocopy from reproducible
proofs. Also, some IRS offices and librar-
ies have the Internal Revenue Code, reg-
ulations, Internal Revenue Bulletins, and
Cumulative Bulletins available for re-
search purposes.
• Services. You can walk to your local
Taxpayer Assistance Center every busi-
ness day for personal, face-to-face tax
help. An employee can explain IRS let-
ters, request adjustments to your tax ac-
count, or help you set up a payment plan.
If you need to resolve a tax problem, have
questions about how the tax law applies
to your individual tax return, or you’re more comfortable talking with
someone in person, visit your local Tax-
payer Assistance Center where you can
spread out your records and talk with an
IRS representative face-to-face. No ap-
pointment is necessary, but if you prefer,
you can call your local Center and leave
a message requesting an appointment to
resolve a tax account issue. A represen-
tative will call you back within 2 business
days to schedule an in-person appoint-
ment at your convenience. To find the
number, go to www.irs.gov/localcontacts
or look in the phone book under United
States Government, Internal Revenue
Service.

Mail. You can send your order for forms,
instructions, and publications to the address below and receive a
response within 10 business days after your
request is received.

National Distribution Center
P.O. Box 8903
Bloomington, IL 61702-8903

CD-ROM for tax products. You can order Publication 1796, IRS Tax Products CD-ROM, and obtain:
• A CD that is released twice so you have
the latest products. The first release
ships in late December and the final re-
lease ships in late February.
• Current-year forms, instructions, and
publications.
• Prior-year forms, instructions, and publi-
cations.
• Tax Map: an electronic research tool and
finding aid.
• Tax law frequently asked questions
FAQs).
• Tax Tips from the IRS telephone re-
sponse system.
• Fill-in, print, and save features for most
tax forms.
• Internal Revenue Bulletins.
• Toll-free and email technical support.
Buy the CD-ROM from National Technical Infor-
mation Service (NTIS) at www.irs.gov/cdorders
for $25 (no handling fee) or call 1-877-233-6767
toll free to buy the CD-ROM for $25 (plus a
$5 handling fee).

CD-ROM for small businesses.
Publication 3207, The Small Business
Resource Guide CD-ROM for 2005, has
a new look and enhanced navigation fea-
tures. This year’s CD includes:
• Helpful information, such as how to pre-
pare a business plan, find financing for
your business, and much more.
• All the business tax forms, instructions, and
publications needed to successfully
manage a business.
• Tax law changes for 2005.
• IRS Tax Map to help you find forms, in-
structions, and publications by searching
on a keyword or topic.
• Web links to various government agen-
cies, business associations, and IRS or-
ganizations.
• “Rate the Product” survey — your oppor-
tunity to suggest changes for future edi-
tions.

An updated version of this CD is available each
year in early April. You can get a free copy by
calling 1-800-829-3676 or by visiting
To help us develop a more useful index, please let us know if you have ideas for index entries. See “Comments and Suggestions” in the “Introduction” for the ways you can reach us.
