Introduction

This publication highlights some special tax rules that may apply to you if you have your own fishing trade or business. Those who have their own fishing trade or business include the following persons.

- Fishing boat owners or operators who use their boats to fish for profit.
- Certain fishermen who work for a share of the catch.
- Other individuals who receive gross income from fishing.

Generally you report your profit or loss from fishing on Schedule C or Schedule C-EZ of Form 1040. An example with a filled-in Schedule C shown near the end of this publication provides details on how to complete this form.

This publication **does not contain** all of the tax rules that may apply to your fishing trade or business. For general information about the federal tax laws that apply to individuals who file Schedule C or C-EZ, see Publication 334, *Tax Guide for Small Business*. If your trade or business is a partnership or corporation, see Publication 541, *Partnerships*, or Publication 542, *Corporations*.

If you are just starting out in a fishing business or you need information on keeping books and records, also see Publication 583, *Starting a Business and Keeping Records*.

Please note that this publication uses the term "fisherman" because it is the commonly accepted term in the fishing industry. In the following discussions it represents both men and women.

Important Change for 1999

Photographs of missing children. The Internal Revenue Service is a proud partner with the National Center for Missing and Exploited Children. Photographs of missing children selected by the Center may appear in this publication on pages that would otherwise be blank. You can help bring these children home by looking at the photographs and calling 1-800-THE-LOST (1-800-843-5678) if you recognize a child.

Important Dates for 2000

This section highlights important due dates for fishermen for the 2000 calendar year. For other important dates, see Publication 509, *Tax Calendars for 2000*.

January 18

Fishermen. If at least two-thirds of your gross income for either 1998 or 1999 was from fishing, you may want to pay at least two-thirds of your 1999 tax by this date. This will allow you to wait until April 17 to file your 1999 Form 1040 and pay the rest of the tax without penalty. See *March 1*, later, if you do not pay two-thirds of your tax by this date.

If less than two-thirds of your gross income is from fishing, you generally must make quarterly estimated tax payments. See *Due Dates for Nonqualified Fishermen*, later.

January 31

Fishing boat operators. Fishing boat operators must give a 1999 Form 1099-MISC, *Miscellaneous Income*, to certain crew members who were self-employed.

February 28

Fishing boat operators. Use Form 1096, *Annual Summary and Transmittal of U.S. Information Returns*, to send Copy A of Forms 1099-MISC to IRS.

March 1

Fishermen. If at least two-thirds of your gross income for either 1998 or 1999 was from fishing, you can file your 1999 Form 1040 by March 1 and pay your tax in full without penalty.

April 17

Fishermen. If you have not filed your Form 1040, you should file it by April 17 and pay your tax in full. If you need more time to file, you can request an extension of time to file with Form 4868, *Application for Automatic Extension of Time To File U.S. Individual Income Tax Return*.

More information. For more information on important dates, see *Due Dates for Qualified Fishermen* and *Due Dates for Nonqualified Fishermen*, later.

Useful Items

You may want to see:

Publication

- 15-A Employer's Supplemental Tax Guide
- 334 Tax Guide for Small Business
- 378 Fuel Tax Credits and Refunds
- 463 Travel, Entertainment, Gift, and Car Expenses
- 505 Tax Withholding and Estimated Tax
- 533 Self-Employment Tax
- 535 Business Expenses
- 583 Starting a Business and Keeping Records
- 946 How To Depreciate Property

Form (and Instructions)

- Schedule C (Form 1040) Profit or Loss From Business
- Schedule C-EZ (Form 1040) Net Profit From Business
- 1040-ES Estimated Tax for Individuals
- 1099-MISC Miscellaneous Income
- 2210-F Underpayment of Estimated Tax by Farmers and Fishermen
- 4136 Credit for Federal Tax Paid on Fuels
- 8849 Claim for Refund of Excise Taxes

See *How To Get More Information* near the end of this publication for information about getting publications and forms.

What Is Gross Income From Fishing?

Gross income from fishing includes amounts you receive from catching, taking, harvesting, cultivating, or farming any of the following aquatic resources.

- Fish
- Shellfish (such as clams and mussels)
- Crustacea (such as lobsters, crabs, and shrimp)
- Sponge
- Seaweed
- Other aquatic forms of animal or vegetable life

You will generally figure your gross income from fishing in Part I of Schedule C (Form 1040). For more information on Schedule C, see *Schedule C (Form 1040) under What Forms Must You File?*, later.

Wages. Wages you receive as an employee in a fishing business are not gross income from fishing. This includes wages you receive from a corporation even if you are a shareholder in the corporation.

If you work on a boat with an operating crew that is normally made up of fewer than 10 individuals, you may be considered a

self-employed individual instead of an employee. As a self-employed individual you may receive gross income from fishing. For more information, see *Certain fishermen considered self-employed* under *Form 1099-MISC*, later.

Patronage dividends. Patronage dividends you receive from your fishing business activities are generally included in your gross income from fishing. However, do not include in gross income amounts you receive from a cooperative association that are used to adjust the basis of items you have purchased at the cooperative.

Fuel tax credits and refunds. You may have to include fuel tax credits and refunds you receive from your fishing business activities in your gross income from fishing. For more information, see *Including the Credit or Refund in Income* under *How To Claim Fuel Tax Credits and Refunds*, later.

Which Fishing Expenses Can You Deduct?

You can generally deduct your ordinary and necessary fishing expenses as business expenses in Part II of the Schedule C (Form 1040). An **ordinary** fishing expense is one that is common and accepted in a fishing trade or business. A **necessary** fishing expense is one that is helpful and appropriate for a fishing trade or business. An expense does not have to be indispensable to be considered necessary.

The following discussions give a brief overview of three types of business expenses that are of special interest to fishermen: depreciation, travel, and transportation expenses. Business expenses that most small businesses share are listed in Part II of Schedule C. For more information on business expenses, see Publication 535. You may also find general information on specific business expenses in Publication 334.

Depreciation

If property you acquire to use in your business has a useful life substantially beyond the year it is placed in service, you generally cannot deduct the entire cost as a business expense in the year you acquire it. You must spread the cost over more than one tax year and deduct part of it each year. This method of deducting the cost of business property is called depreciation.

Publication 946 contains the rules you will use to depreciate certain property. The following list highlights items that are of special interest to fishermen.

- **Fishing boats.** You can generally depreciate a fishing boat in your fishing trade or business as 7-year property using Modified Accelerated Cost Recovery System (MACRS) depreciation.
- **Nets, pots, and traps.** You can generally depreciate a net, pot, or trap in your fishing trade or business as 7-year property using MACRS depreciation. However, if based on your own experience, you determine that any of these items

will not be used for more than one year in your business, you may be able to deduct the cost as a business expense.

- **Repairs and replacements.** If a repair or replacement increases the value of your property, makes it more useful, or lengthens its life, you must depreciate its cost. If the repair or replacement does not increase the value of your property, make it more useful, or lengthen its life, deduct the cost as a business expense.

Travel and Transportation

This section briefly explains some of the rules for deducting travel and transportation expenses. For more information about travel and transportation expenses, see Publication 463. That publication also explains what records to keep.

Local transportation expenses. Local transportation expenses include the ordinary and necessary costs of getting from one workplace to another in the course of your business when you are traveling within your tax home.

Tax home. Generally, your tax home is your regular place of business, regardless of where you maintain your family home. It includes the **entire city or general area** in which your fishing business is located.

 **Commuting expenses.** You cannot deduct the costs of traveling between your home and your main or regular place of business. These costs are personal commuting expenses. You cannot deduct commuting expenses no matter how far your home is from your regular place of business. You cannot deduct commuting expenses even if you work during the trip.

Travel expenses. For tax purposes, travel expenses are the ordinary and necessary costs of traveling away from home for your business, profession, or job. You are traveling away from home if you meet the following requirements.

- 1) Your duties require you to be away from the general area of your tax home (defined earlier) substantially longer than an ordinary day's work.
- 2) You need to get sleep or rest to meet the demands of your work while away from home.

Meals – limited deduction. You can generally deduct only 50% of the costs of the following meals that you provide.

- Meals to either employees or self-employed individuals who provide services to your fishing trade or business.
- Your own meals while you are traveling away from home for business.

Exceptions to meal deduction limit. You can deduct the full costs of the following meals.

- Meals that qualify as a de minimis fringe benefit as discussed in chapter 4 of Publication 535. This generally includes meals you provide to employees at your place of business if more than half of

these employees are provided the meals for your convenience.

- Meals whose value you include in an employee's wages. For more information, see chapter 2 in Publication 535.
- Meals whose value you include in the income of a self-employed individual who performs services for your business. You must generally include the value of meals you furnish to that individual in his or her income. To deduct 100% of these meals, you must report their value on any Form 1099-MISC you must file to report your payments for services.
- Meals you are required by federal law to furnish to crew members of certain commercial vessels (or would be required to provide if the vessels were operated at sea).

For more information, see chapter 2 in Publication 535.

 The federal law that generally requires meals to be furnished to crew members of commercial vessels does not apply to fishing vessels.

What Forms Must You File?

If you have a fishing trade or business, you may need to file the following forms.

Schedule C (Form 1040)

Use Schedule C (Form 1040) to figure your net profit or loss from a fishing business you operate or a trade you practice as a self-employed individual. To figure your net profit or loss, subtract your deductible fishing expenses from your gross income from fishing. File Schedule C with your Form 1040.

 You may be able to use **Schedule C-EZ (Form 1040)** if you made a profit and had fishing expenses of \$2,500 or less. For more information, see the **Schedule C-EZ instructions**.

Who is self-employed? You are self-employed if you own an unincorporated business or practice a trade by yourself. You do not have to carry on regular full-time business activities to be self-employed. Your trade or business may consist of part-time work, including work you do on the side in addition to your regular job.

If you work on a fishing boat with an operating crew that is normally made up of fewer than 10 individuals, you may be considered self-employed. For more information, see *Which fishermen are considered self-employed?* under **Form 1099-MISC**, later.

What is a trade or business? A trade or business is generally an activity that is your livelihood or that you do in good faith to make a profit. The facts and circumstances of each case determine whether or not an activity is a trade or business. Regularity of activities and transactions and the production of income are important elements. You do not need to actually make a profit to be in a trade or business as long as you have a profit motive. You do need, however, to make ongoing

efforts to further the interests of your business.

Husband and wife partners. You and your spouse may operate a fishing business as a partnership. If you and your spouse join together in the conduct of a business and share in the profits and losses, you have created a partnership. You and your spouse must report the business income on a partnership return, Form 1065. For more information, see Publication 541, *Partnerships*.

However, if your spouse is not your partner, but your employee, you must pay employment taxes for him or her. For more information, see *Employment Tax Forms*, later.

 **Not-for-profit fishing.** You must fish to make a profit for you to report your fishing income and expenses on Schedule C. You do not need to actually make a profit as long as you are making a good faith effort. If you are not fishing for profit, report your fishing income and expenses as explained under **Not-for-Profit Activities** in chapter 1 of Publication 535.

Schedule SE (Form 1040)

Use Schedule SE (Form 1040) to report and figure your self-employment tax (SE tax). Most fishermen can use *Short Schedule SE* (Section A) to figure their SE tax. You must file Schedule SE with your Form 1040 if you were self-employed and your net earnings from self-employment were \$400 or more.

 Even if you do not have to file Schedule SE, it may be to your benefit to file it and use an optional method in Part II of *Long Schedule SE* (Section B). For more information, see *Optional methods, later*.

Self-employment tax. The SE tax is a social security and Medicare tax for individuals who work for themselves. It is similar to the social security and Medicare taxes withheld from the pay of wage earners.

Social security coverage. Your payments of SE tax contribute to your coverage under the social security system. Social security coverage provides you with retirement benefits, disability benefits, survivor benefits, and hospital insurance (Medicare) benefits. Social security benefits are available to self-employed persons just as they are to wage earners.

You must be insured under the social security system before you begin receiving social security benefits. You are insured if you have the required number of credits (also called quarters of coverage).

Credits. For 1999, you receive one credit (up to a maximum of four credits) for each \$740 (\$780 for 2000) of income subject to social security. The maximum number of credits you can receive for the year is four. Therefore, for 1999, if you had income (self-employment income and wages) of \$2,960 that was subject to social security taxes, you received four credits (740×4).

For an explanation of the number of credits you must have to be insured and the benefits available to you and your family under the social security program, consult your nearest Social Security Administration (SSA) office.

Table 1. Employment Tax Treatment of Fishing and Related Activities

Activity	Income Tax Withholding	Social Security and Medicare Taxes	Federal Unemployment Tax (FUTA)
a. Catching salmon or halibut.	Withhold unless c. applies.	Taxable unless c. applies.	Taxable unless c. applies.
b. Catching other fish, sponges, etc.	Withhold unless c. applies.	Taxable unless c. applies.	Taxable if vessel is more than 10 net tons and c. does not apply.
c. Individual considered self-employed (see <i>Certain fishermen considered self-employed</i> , below).	Exempt	Exempt	Exempt
d. Native Americans exercising fishing rights.	Exempt	Exempt	Exempt

Optional methods. You can generally use one of the optional methods in Part II of Long Schedule SE (Section B) when you have a loss or a small amount of net income from self-employment and any of the following apply.

- You want to receive credit for social security benefit coverage.
- You incurred child or dependent care expenses for which you could claim a credit (this method will increase your earned income, which could increase your credit).
- You are entitled to the earned income credit (this method will increase your earned income, which could increase your earned income credit).

Estimated tax. You may have to pay estimated tax. This depends on how much income and SE taxes you expect for the year and how much of your income will be subject to withholding tax. The SE tax is treated, and collected, as part of the income tax. For more information, see *When Do Fishermen Pay Estimated Tax and File Tax Returns?*, later.

Reporting self-employment tax. Figure your SE tax on Schedule SE. Then report the tax on line 50 of Form 1040 and attach Schedule SE to Form 1040. If you file a joint return and you both have SE income, each of you must complete a separate Schedule SE. However, you are both liable for the total SE tax due on the return.

Self-employment tax deduction. You can deduct one-half of your SE tax as a business expense in figuring your adjusted gross income. This deduction only affects your income tax. It does not affect either your net earnings from self-employment or your SE tax.

To deduct the tax, enter on Form 1040, line 27, the amount shown on the "Deduction for one-half of self-employment tax" line of the Schedule SE.

More information. For more information on self-employment tax, see Publication 533.

Form 1099-MISC

File Form 1099-MISC for each person to whom you have paid the following.

- A share of your catch (or a share of the proceeds from the sale of your catch) to an individual who is not your employee.

- At least \$600 in rents, services, and other income payments in your fishing trade or business to an individual who is not your employee (self-employed).

Trade or business of purchasing fish for resale. If you are in the trade or business of purchasing fish for resale and pay \$600 or more to a commercial fisherman for fish or other forms of aquatic life, file Form 1099-MISC. For more information, including a discussion of the recordkeeping requirements that apply to resale buyers, see the instructions for Form 1099-MISC.

Which fishermen are considered self-employed? Certain fishermen who work on a fishing boat are considered to be self-employed for purposes of employment and self-employment taxes. A fisherman is considered self-employed if he meets **all** of the following conditions.

- 1) He receives a share of the catch or a share of the proceeds from the sale of the catch.
- 2) His share depends on the amount of the catch.
- 3) He receives his share from a boat (or from each boat in the case of a fishing operation involving more than one boat) with an operating crew that is normally made up of fewer than 10 individuals. This requirement is considered to be met if the average number of crew members on trips the boat made during the last 4 calendar quarters was less than 10.
- 4) He does not get any money for his work (other than his share of the catch or of the proceeds from the sale of the catch), unless the pay meets all of the following conditions.
 - a) He does not get more than \$100 per trip.
 - b) He is paid only if there is some minimum catch.
 - c) He is paid solely for additional duties (such as mate, engineer, or cook) for which additional cash payments are traditional in the fishing industry.

Example 1. You hire a captain, a mate, an engineer, a cook, and five other crew members to work on your fishing boat. The proceeds from the sale of the catch offset boat operating expenses such as bait, ice, and fuel. You divide 60% of the balance be-

tween the captain, the mate, and the crew members. You divide the other 40% between yourself and the captain. The mate, the engineer, and the cook also each receive an extra \$100 for each trip that brings back a certain minimum catch. The crew members do not receive any additional pay between voyages, but they must do certain work, such as repairing nets, splicing cable, and transporting the catch.

For purposes of employment and self-employment taxes, each crew member (including the captain, mate, engineer, and cook) is considered self-employed. You must file Form 1099-MISC to report amounts you pay to them.

Example 2. The facts are the same as in Example 1 except that all the crew members but the captain receive an extra \$100 for each trip that brings back a certain minimum catch.

For purposes of employment and self-employment taxes, the captain, the mate, the engineer, and the cook are self-employed individuals. The other five crew members who receive this extra payment in addition to the proceeds from the sale of the catch are employees. They are employees because the \$100 payment is not paid solely for additional duties for which additional cash pay is traditional in the fishing industry.

Employment Tax Forms

If you have employees, you will need to file forms to report employment taxes. For more information, see Publication 15. That publication explains your tax responsibilities as an employer.

To help you determine whether the people working for you are your employees, see Publication 15-A. That publication has information to help you determine whether an individual is an independent contractor or an employee.

 **If you incorrectly classify an employee as an independent contractor, you can be held liable for employment taxes for that worker plus a penalty.**

An **independent contractor** is someone who is self-employed. You do not generally have to withhold or pay any taxes on payments to an independent contractor.

Individuals you employ to work on a boat that normally has an operating crew of fewer than 10 individuals may be considered self-employed. For more information, see *Which fishermen are considered self-employed?* under *Form 1099-MISC*, earlier.

Table 1. See Table 1 for information on the special employment tax treatment of fishing and related activities.

When Do Fishermen Pay Estimated Tax and File Tax Returns?

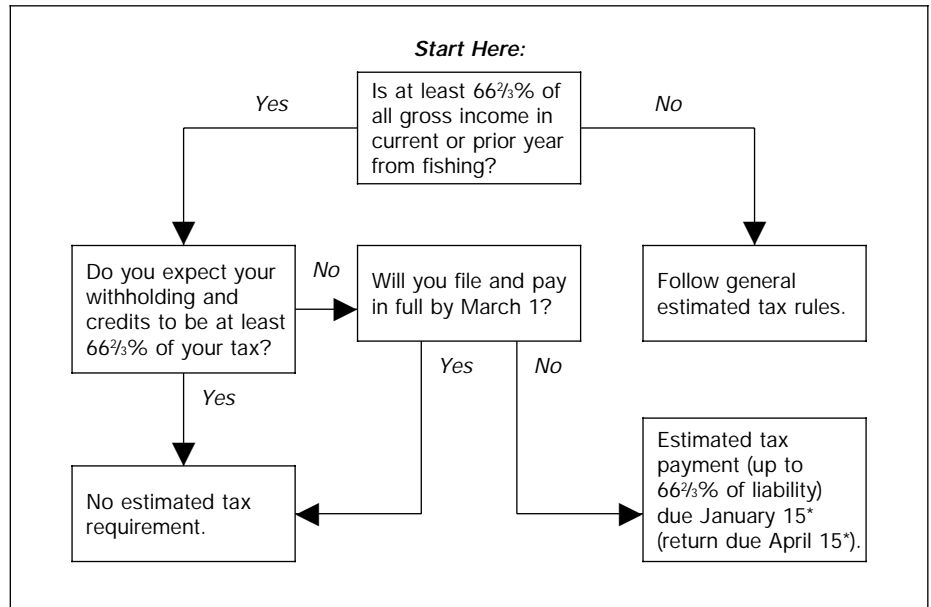

When you must pay estimated tax and file your tax return depends on whether you receive at least two-thirds of your total gross income from fishing in the current or prior year. Gross income is discussed next.

What Is Gross Income?

Gross income is all income you receive in the form of money, property, and services that is not exempt from tax. **Gross income is not the same as total income** shown on line 22 of Form 1040. On a joint return, you must add your spouse's gross income to your gross income. To decide whether two-thirds of your gross income for 1999 was from fishing, use as your gross income the total amount of the following income (**not loss**) items from your tax return.

- Wages, salaries, tips, etc.
- Taxable interest.
- Ordinary dividends.
- Taxable refunds of state and local taxes.
- Alimony received.
- Gross business income from Schedule C (Form 1040), line 7 (includes gross fishing income).
- Gross receipts from Schedule C-EZ (Form 1040), line 1 (includes gross fishing income).
- Capital gains from Schedule D (Form 1040). Losses cannot be netted against gains.
- Gains on sales of business property from Form 4797.
- Taxable IRA distributions, pensions, annuities, and social security benefits.
- Gross rental income from Schedule E (Form 1040), line 3.
- Gross royalty income from Schedule E (Form 1040), line 4.
- Your taxable net income from an estate or trust, Schedule E (Form 1040), line 36.
- Income from a REMIC reported on Schedule E (Form 1040), line 38.
- Gross farm rental income from Form 4835, line 7 (includes gross fishing income from Schedule E (Form 1040)).
- Farm income from Schedule F (Form 1040), line 11.
- Your distributive share of gross income from a partnership or limited liability company treated as a partnership from Schedule K-1 (Form 1065).
- Your pro rata share of gross income from an S corporation from Schedule K-1 (Form 1120S).
- Unemployment compensation as reported on Form 1099-G.

Table 2. Estimated Tax for Fishermen

*If the due date for making an estimated tax payment falls on a Saturday, Sunday, or legal holiday, the payment will be on time if you make it on the next day that is not a Saturday, Sunday, or legal holiday.

- Other income reported on Form 1040, line 21, not reported with any of the items listed above.

Percentage From Fishing

Total your gross income from all sources as listed earlier. Then total your gross income from fishing. Divide your fishing gross income by your total gross income to determine the percentage of gross income from fishing.

Example 1. James Smith had the following total gross income and fishing gross income in 1999.

	Total	Fishing
Taxable interest	\$43,000	
Dividends	500	
Rental income (Sch E)	1,500	
Fishing income (Sch C)	75,000	\$75,000
Schedule D	5,000	
Total	\$125,000	\$75,000

Schedule D showed gain from the sale of a rental house carried over from Form 4797 (\$5,000) in addition to a loss from the sale of corporate stock (\$2,000). However, that loss is not netted against the gain to figure Mr. Smith's total gross income or his gross fishing income. His gross fishing income is 60% of his total gross income (\$75,000 ÷ \$125,000 = .60). Therefore, based on his 1999 income, he does not qualify to use the special estimated tax payment and return due dates for 1999. However, he does qualify if at least two-thirds of his 1998 gross income was from fishing.

Example 2. Assume the same facts as in Example 1 except that Mr. Smith received only \$23,000, instead of \$43,000, taxable interest. This made his total gross income \$105,000. He qualifies to use the special estimated tax payment and return due dates since at least two-thirds of his gross income is from fishing [\$75,000 ÷ \$105,000 = .714 (71.4%)].

Due Dates for Qualified Fishermen

If at least two-thirds of your gross income for 1998 or 1999 was from fishing, you are a qualified fisherman and have only one payment due date for 1999 estimated tax—January 18, 2000.

For your 1999 tax, you may choose either of the following options.

- Pay all your estimated tax (figured on **Form 1040-ES**) by January 18, 2000, and file your Form 1040 by April 17, 2000.
- File your Form 1040 by March 1, 1999, and pay all the tax due. You are not required to make an estimated tax payment. If you pay all the tax due, you will not be penalized for failure to pay estimated tax.

TIP If at least two-thirds of your gross income for 1999 or 2000 is from fishing, for your 2000 tax, you may choose either of the following options.

- Pay all your estimated tax by January 16, 2001, and file your Form 1040 by April 16, 2001.
- File your Form 1040 by March 1, 2001, and pay all the tax due.

Required annual payment. If at least two-thirds of your gross income for 1998 or 1999 was from fishing, the required annual payment due January 18, 2000, is the **smaller** of the following amounts.

- 66 2/3% (.6667) of your total tax for 1999.
- 100% of the total tax shown on your 1998 return. (The return must cover all 12 months.)

TIP If at least two-thirds of your gross income for 1999 or 2000 is from fishing, the required annual payment due January 16, 2001, is the **smaller** of the following.

- 66 2/3% (.6667) of your total tax for 2000.

- 100% of the total tax shown on your 1999 return. (The return must cover all 12 months.)

Fiscal year fishermen. If you qualify to use these special rules but your tax year does not start on January 1, you may file your return and pay the tax by the first day of the 3rd month after the close of your tax year. Or you may pay your required estimated tax within 15 days after the end of your tax year. Then file your return and pay any balance due by the 15th day of the 4th month after the end of your tax year.

Due Dates for Nonqualified Fishermen

If less than two-thirds of your gross income for 1998 and 1999 was from fishing, you cannot use these special estimated tax payment and return due dates for your 1999 tax year. In this case, you generally must make quarterly estimated tax payments on April 15, June 15, and September 15, 1999, and on January 18, 2000. You must file your return by April 17, 2000.

If less than two-thirds of your gross income for 1999 and 2000 is from fishing, you cannot use these special estimated tax payment and return due dates for your 2000 tax year. You generally must make quarterly estimated tax payments on April 17, June 15, and September 15, 2000, and on January 16, 2001. You must file your return by April 16, 2001.

For more information on estimated taxes, see Publication 505.

Estimated Tax Penalty for 1999

If you did not pay all your required estimated tax for 1999 by January 18, 2000, and do not file your 1999 return and pay the tax by March 1, 2000, use **Form 2210-F, Underpayment of Estimated Tax by Farmers and Fishermen**, to determine if you owe a penalty. If you owe a penalty but do not file Form 2210-F with your return and pay the penalty, you will get a notice from the IRS. You should pay the penalty as instructed by the notice.

TIP If you file your return by April 17 and pay the bill within 21 days (10 days if the bill is \$100,000 or more) after the notice date, the IRS will not charge you interest on the penalty.

Do not ignore a penalty notice, even if you think it is in error. Occasionally, you may get a penalty notice even though you filed your return on time, attached Form 2210-F, and met the gross income test. If you receive a penalty notice for underpaying estimated tax that you think is in error, write to the address on the notice and explain why you think the notice is in error. Include a computation, similar to the one in Example 1 (under Percentage From Fishing, earlier), showing that you meet the gross income test.

Other Filing Information for 1999

Payment date on holiday or weekend. If the last day for filing your return or making a payment falls on a Saturday, Sunday, or legal holiday, your return or payment will be on time if it is filed or made on the next business day.

Automatic extension of time to file Form 1040. If you do not choose to file your 1999 return by March 1, 2000, the due date for your return will be April 17, 2000. However, you can get an automatic 4-month extension of time to file your return. Your Form 1040 would then be due by August 15, 2000. To get this extension, file Form 4868, *Application for Automatic Extension of Time To File U.S. Individual Income Tax Return*, by April 17, 2000. Form 4868 does not extend the time to pay the tax. For more information, see the instructions for Form 4868.

This extension does not extend the March 1, 2000, filing date for fishermen who did not make an estimated tax payment and want to avoid an estimated tax penalty. Therefore, if you did not make an estimated tax payment by January 18, 2000, and you file your tax return after March 1, 2000, you will be subject to a penalty for underpaying your estimated tax, even if you file Form 4868.

What Is the Capital Construction Fund?

The Capital Construction Fund (CCF) is a special investment program administered by the National Marine Fisheries Service (NMFS) and the Internal Revenue Service (IRS). This program allows fishermen to defer income tax on certain income they invest in a CCF account and later use to acquire, build, or rebuild fishing vessels.

The following sections discuss CCF accounts and the types of bookkeeping accounts that you must maintain when you invest in a CCF account. They also discuss the income tax treatment of CCF deposits, earnings, and withdrawals.

CCF Accounts

This section explains who can open a CCF account and how to use the account to defer income tax.

Opening a CCF account. If you are a U.S. citizen and you own or lease an eligible vessel (defined later), you can open a CCF account. Before you open your CCF account, you must enter into an agreement with the Secretary of Commerce through the NMFS. This agreement will establish the following.

- **Agreement vessels.** These vessels will be the basis for the deferral of income tax.
- **Planned use of withdrawals.** The use of the money in your CCF account to

acquire, build, or rebuild a vessel is a planned use of withdrawals.

- **CCF depository.** This is where you will set up your CCF account.

You can request an application kit or get additional information from NMFS at the following address.

CCF Program
Financial Services Division (F/SF2)
NOAA/National Marine Fisheries Service
1315 East-West Highway, 13th Floor
Silver Spring, MD 20910-3282

You can call NMFS to request an application kit or get additional information at **(301) 713-2393**. The fax number is **(301) 713-1306**.

Eligible vessel – weighing 5 tons or more. An eligible vessel is one that meets all the following requirements.

- The vessel was built or rebuilt in the United States.
- The vessel is documented under the laws of the United States.
- The vessel is used commercially in the fisheries of the United States.
- The vessel is operated in the foreign or domestic commerce of the United States.

Eligible vessel – weighing less than 5 tons. A small vessel, one weighing at least 2 net tons but less than 5 net tons, must meet all of the following requirements to be considered an eligible vessel.

- The vessel was built or rebuilt in the United States.
- The vessel is owned by a U.S. citizen.
- The vessel has a home port in the United States.
- The vessel is used commercially in the fisheries of the United States.

Deferring tax on CCF deposits and earnings. You can use a CCF account to defer income tax by taking the following actions.

- Making deposits to your CCF account.
- Excluding from income tax deposits that are assigned to certain accounts (discussed later).
- Making withdrawals from your CCF account when you acquire, build, or rebuild fishing vessels.
- Reducing the tax basis of fishing vessels you acquire, build, or rebuild to "recapture" the amounts that were previously excluded from tax.

Report deposit or withdrawal activity. After you have opened your CCF account, you must report annual deposit and withdrawal activity to the NMFS on NOAA Form 34-82. This form is due within 30 days after you file your federal income tax return. For more information, contact the NMFS at the address or phone number given earlier.

Types of Accounts You Must Maintain Within a CCF

This section discusses the three types of bookkeeping accounts you must maintain when you invest in a CCF account. Your total CCF deposits and earnings for any given year are limited to the amount that can be attributed for that year to these three accounts.

Capital account. The capital account consists of amounts attributable to the following items.

- 1) Allowable depreciation deductions for agreement vessels.
- 2) Any nontaxable return of capital from either (a) or (b), below.
 - a) The sale or other disposition of agreement vessels.
 - b) Insurance or indemnity proceeds attributable to agreement vessels.
- 3) Any tax-exempt interest earned on state or local bonds in your CCF account.

Capital gain account. The capital gain account consists of amounts attributable to the following items reduced by any capital losses from assets held in your CCF account for more than 6 months.

- 1) Any capital gain from either of the following sources.
 - a) The sale or other disposition of agreement vessels held for more than 6 months.
 - b) Insurance or indemnity proceeds attributable to agreement vessels held for more than 6 months.
- 2) Any capital gain from assets held in your CCF account for more than 6 months.

Ordinary income account. The ordinary income account consists of amounts attributable to the following items.

- 1) Any earnings (without regard to the carryback of any net operating or net capital loss) from the operation of agreement vessels in the fisheries of the United States or in the foreign or domestic commerce of the United States.
- 2) Any capital gain from the following sources reduced by any capital losses from assets held in your CCF account for 6 months or less.
 - a) The sale or other disposition of agreement vessels held for 6 months or less.
 - b) Insurance or indemnity proceeds attributable to agreement vessels held for 6 months or less.
 - c) Any capital gain from assets held in your CCF account for 6 months or less.
- 3) Any ordinary income (such as depreciation recapture) from either of the following sources.
 - a) The sale or other disposition of agreement vessels.
 - b) Insurance or indemnity proceeds attributable to agreement vessels.

- 4) Any interest (not including tax-exempt interest from state and local bonds), dividends, or other ordinary income earned on the assets in your CCF account.

Tax Treatment of CCF Deposits

This section explains the tax treatment of income that you use as the basis for CCF deposits.

Capital gains. Do not report on your income tax return any transaction that produces a capital gain if you deposit the net proceeds into your CCF account. This treatment applies to either of the following transactions.

- The sale or other disposition of an agreement vessel.
- The receipt of insurance or indemnity proceeds attributable to an agreement vessel.

Depreciation recapture. Do not report on your income tax return any transaction that produces depreciation recapture if you deposit the net proceeds into your CCF account. This treatment applies to either of the following transactions.

- The sale or other disposition of an agreement vessel.
- The receipt of insurance or indemnity proceeds attributable to an agreement vessel.

Earnings from operations. Report earnings from the operation of agreement vessels on your Schedule C or C-EZ (Form 1040) even if you deposit part of these earnings into your CCF account. Subtract any part of the earnings that you deposited into your CCF account from the amount that you would normally enter as taxable income on line 39 (Form 1040). In the margin to the left of line 39, write "CCF" and the amount of these deposits. Do not deduct these CCF deposits on Schedule C or C-EZ (Form 1040).

If you deposit earnings from operations into your CCF account and you must complete other forms such as Form 6251 or the worksheets for Schedule D, you will need to make an extra computation. When the other form instructs you to use an amount from line 37, Form 1040, do not use that amount. Instead, add lines 38 and 39, Form 1040, and use that amount.

Self-employment tax. You must use your net profit or loss from your fishing business to figure your self-employment tax. Do **not** reduce your net profit or loss by any earnings from operations you deposit to your CCF account.

Partnerships and S corporations. The deduction for partnership earnings from operations that are deposited into a CCF account is separately stated on Schedule K (Form 1065), line 11, and allocated to the partners on Schedule K-1 (Form 1065), line 11.

The deduction for S corporation earnings that are deposited is separately stated on Schedule K (Form 1120S), line 10, and allocated to the shareholders on Schedule K-1 (Form 1120S), line 10.

Nontaxable return of capital. Do not report on your income tax return any transaction that produces a nontaxable return of capital if you deposit the net proceeds into your CCF account. This treatment applies to either of the following transactions.

- The sale or other disposition of an agreement vessel.
- The receipt of insurance or indemnity proceeds attributable to an agreement vessel.

Tax Treatment of CCF Earnings

This section explains the tax treatment of the earnings from the assets in your CCF account when the earnings are redeposited or left in your account. However, if you choose to withdraw the earnings in the year earned, you must generally pay income tax on them.

Capital gains. Do not report on your income tax return any capital gains from the sale of capital assets held in your CCF account. This includes capital gains distributions reported to you on Form 1099-DIV or a substitute statement. However, you should attach a statement to your tax return to list the payers and the amounts and identify the capital gains as "CCF account earnings."

Interest and dividends. Do not report on your income tax return any ordinary income (such as interest and dividends) you earn on the assets in your CCF account. However, you should attach a statement to your return to list the payers and the amounts and to identify them as "CCF account earnings."

If you are required to file Schedule B (Form 1040), you can add these earnings to the list of payers and amounts on line 1 and identify them as "CCF earnings." Then subtract the same amounts from the list and identify them as "CCF deposits."

Tax-exempt interest. Do not report on your federal income tax return tax-exempt interest from state or local bonds you held in your CCF account. You are not required to report this interest on line 8b of Form 1040.

Tax Treatment of CCF Withdrawals

This section discusses the tax treatment of amounts you withdraw from your CCF account during the year.

Qualified Withdrawals

A qualified withdrawal from a CCF account is one that is approved by NMFS for either of the following uses.

- Acquiring, building, or rebuilding qualified fishing vessels.
- Making principal payments on the mortgage of a qualified fishing vessel.

How to determine the source of qualified withdrawals. When you make a qualified withdrawal, the amount you withdraw is treated as being made in the following order from your accounts.

- First, from the capital account.
- Second, from the capital gain account.
- Third, from the ordinary income account.

Excluding qualified withdrawals from tax. Do not report on your income tax return any qualified withdrawals from your CCF account.

Reducing the tax basis of acquired, built, or rebuilt vessels. You must reduce the depreciable basis of fishing vessels you acquire, build, or rebuild by a withdrawal that is treated as made from either the capital gain account or the ordinary income account. For more information, see *How to determine the source of qualified withdrawals*, and *Deferring tax on CCF deposits and earnings*, earlier.

Nonqualified Withdrawals

A nonqualified withdrawal from a CCF account is any withdrawal that is not a qualified withdrawal. Qualified withdrawals are defined under *Qualified Withdrawals*, earlier.

Examples. Examples of nonqualified withdrawals include the following amounts from the ordinary income account or the capital gain account.

- Amounts remaining in a CCF account upon termination of your agreement with NMFS.
- Amounts you withdraw and use to make principal payments on the mortgage of a vessel with a basis that has already been reduced to zero.
- Amounts determined by IRS to cause your CCF account balance to exceed the amount that is appropriate to meet your planned use of withdrawals. (You will generally be given 3 years to revise your plans to cover this excess balance.)
- Amounts you leave in your account for more than 25 years. (There are percentages beginning with year 26 and later that determine the amount of the nonqualified withdrawal.)

How to determine the source of nonqualified withdrawals. When you make a nonqualified withdrawal from your CCF account, the amount you withdraw is treated as being made in the following order from your accounts.

- First, from the ordinary income account.
- Second, from the capital gain account.
- Third, from the capital account.

Paying tax on nonqualified withdrawals. Nonqualified withdrawals that are treated as made from either the ordinary income account or the capital gain account are taxed separately from your other gross income at the highest marginal ordinary income or capital gain tax rate.

 **Partnerships and S corporations.** Taxable nonqualified partnership withdrawals are separately stated on Schedule K (Form 1065), line 24, and allocated to the partners on Schedule K-1 (Form 1065), line 25. Taxable nonqualified withdrawals by an S corporation are separately stated on Schedule K (Form 1120S), line 21, and allocated to the shareholders on Schedule K-1 (Form 1120S), line 23.

Interest. You must pay interest on the additional tax due to a nonqualified withdrawal. The interest period begins on the last date for paying tax for the tax year for which you deposited the amount that you withdrew from your CCF account. The period ends on the last date for paying tax for the tax year in which you make the nonqualified withdrawal. The interest rate on the nonqualified withdrawal is simple interest. The rate is subject to change annually and published in the Federal Register.

The current interest rate can also be obtained by calling NMFS at (301) 713-2393.

Interest deduction. You can deduct the interest you pay on a nonqualified withdrawal as a trade or business expense.

Reporting the additional tax and interest. Attach a statement to your income tax return to show your computation of both the tax and interest on a nonqualified withdrawal. Include the tax and interest on the nonqualified withdrawal on line 56 of Form 1040. To the left of line 56, write the amount of tax and interest and "CCF."

Tax benefit rule. If any portion of your nonqualified withdrawal is properly attributable to contributions (not earnings on the contributions) you made to the fund that did not reduce your tax liability for any tax year prior to the withdrawal year, the following tax treatment applies.

- The portion that did not reduce your tax liability for any year prior to the withdrawal year is not taxed.
- An amount equal to that portion is allowed as a net operating loss deduction.

More Information

This section briefly discussed the CCF program. For more detailed information, see the following legislative authorities.

- Section 607 of the Merchant Marine Act of 1936, as amended (46 U.S.C. 1177).
- Chapter 2, Part 259 of title 50 of the Code of Federal Regulations (50 C.F.R., Part 259).
- Subchapter A, Part 3 of title 26 of the Code of Federal Regulations (26 C.F.R., Part 3).
- Section 7518 of the Internal Revenue Code (IRC 7518).

The application kit you can obtain from NMFS at the address or phone number given earlier may contain copies of some of these sources of additional information.

How To Claim Fuel Tax Credits and Refunds

You may be eligible to claim a credit on your income tax return for federal excise tax imposed on certain fuels used for a nontaxable use. You may also be eligible to claim a

quarterly refund of the fuel taxes during the year, instead of waiting to claim a credit on your income tax return.

Instead of paying the fuel tax and filing for a credit or refund, you may be able to buy certain fuel tax free. For more information, see *How To Buy Fuel Tax Free*, later.

Nontaxable Uses

This section discusses the nontaxable uses that are of particular interest to fishermen. For information about credits and refunds for fuels used for nontaxable uses not discussed in this section, see Publication 378.

Gasoline used in commercial fishing boats. You may be eligible to claim a credit or refund of excise tax on gasoline used in a boat engaged in commercial fishing.

Boats engaged in commercial fishing include only watercraft used in taking, catching, processing, or transporting fish, shellfish, or other aquatic life for commercial purposes, such as selling or processing the catch, on a specific trip basis. They include boats used in both fresh and salt water fishing. They do not include boats used for both sport fishing and commercial fishing on the same trip.

Fuel used in aircraft to locate fish is not fuel used in commercial fishing.

Off-highway business use. You may be eligible to claim a credit or refund of excise tax on fuel if you use the fuel in an off-highway business use.

What is off-highway business use? Off-highway business use is any use of fuel in a trade or business or in any income-producing activity. It does not include use in a highway vehicle registered or required to be registered for use on public highways. Off-highway business use includes fuels used in the following ways.

- In stationary engines to operate generators, compressors, and similar equipment.
- For cleaning purposes.

Do not consider any use in a boat as an off-highway business use.

How To Claim a Credit or Refund

This section tells you when and how to claim a credit or refund of excise taxes on fuels you use for a nontaxable use.

Credit or refund. A credit is an amount that reduces the tax on your income tax return when you file it at the end of the year. If you meet certain requirements (discussed later), you can claim a refund during the year instead of waiting until you file your tax return.

Credit only. The following taxes can only be claimed as a credit.

- Tax on fuels used for nontaxable uses if the total for the tax year is less than \$750.
- Tax on fuel that was not included in any claim for refund previously filed for the tax year.

Claiming a Credit

You make a claim for credit on **Form 4136** and attach it to your income tax return. Do not claim a credit for any amount for which you have filed a refund claim.

When to claim a credit. You can claim a fuel tax credit on your income tax return for the year you used the fuels. Also, you may be able to make a fuel tax claim on an amended return for that year. Generally, you must file an amended return by the **later** of 3 years from the date you filed your original income tax return or within 2 years from the time you paid the income tax. A return filed early is considered to have been filed on the due date.

Once you have filed a Form 4136, you cannot file an amended return to show an increase in the number of gallons of fuel reported on a line. See the following discussion for when you can file a claim on an amended return.

Fuel tax claim on amended return. You can file an amended return to claim a fuel tax credit if any of the following apply.

- You did not claim any credit for fuel taxes on Form 4136 for the tax year.
- Your credit is for gasohol blending, as discussed in Publication 378.
- Your credit is for a claim group, explained next, for which you did not previously file a claim on Form 4136 for the tax year.

Claims on Form 4136 (other than for gasohol blending) are separated into seven **claim groups** based on the type of fuel and the use of that fuel. Once you file Form 4136 with a claim for a group, you cannot file an amended return with another claim for that group. However, you can file an amended return with a claim for another group.

Claim group table. The following table shows which claims are in each group. The numbers in the second column refer to the line numbers on Form 4136. The numbers in the third column are from the Type of Use Table in the Form 4136 instructions.

Group	Line No.	Type of Use
I	1b, 1d-f, 2b	1
II	1a, 1d-f, 2a	2
III	1c-f	5, 7
IV	1c-f, 2b	3, 4, 9
V	3c, 7	5, 7
VI	3a-b, 4, 5, 6	See line instructions
VII	2b	10

For each tax year, you can make only one claim for each group.

Example. You file your income tax return and claim a fuel tax credit. Your Form 4136 shows an amount on line 1c for use of gasohol in a boat engaged in commercial fishing. This is a Group IV claim. You cannot amend your return to claim a credit for an amount on line 1d for use of gasohol in a boat engaged in commercial fishing (Type of Use 4), since that is also a Group IV claim. However, if you used the gasohol in an off-highway business use, you can amend your return to claim the credit for that fuel tax because that would be a Group II claim reported on line 1d, Type of Use 2.

How to claim a credit. As an individual, you claim the credit on line 63 of Form 1040. Check box "b" on line 63. If you would not otherwise have to file an income tax return, you must do so to get a fuel tax credit.

Claiming a Refund

You can file a claim for refund for any quarter of your tax year for which you can claim \$750 or more. This amount is the excise tax on all fuels used for any nontaxable use during that quarter or any prior quarter (for which no other claim has been filed) during the tax year.

If you cannot claim at least \$750 at the end of a quarter, you carry the amount over to the next quarter of your tax year to determine if you can claim at least \$750 for that quarter. If you cannot claim at least \$750 at the end of the fourth quarter of your tax year, you must claim a credit on your income tax return.

Form 8849. You make a claim for a refund Form 8849. File the claim by filling out Schedule 1 (Form 8849) and attaching it to Form 8849. Send it to the address shown in the instructions.

When to file a quarterly claim. You must file a quarterly claim by the last day of the first quarter following the last quarter included in the claim. If you do not file a timely refund claim for the fourth quarter of your tax year, you will have to claim a credit for that amount on your income tax return, as discussed earlier.

Including the Credit or Refund in Income

Include any credit or refund of excise taxes on fuels in your gross income if you included the cost of the fuel as an expense deduction that reduced your income tax liability.

If you use the cash method of accounting and file a claim for **refund**, include the refund in your gross income for the tax year in which you receive the refund. If you claim a **credit** on your income tax return, include the credit in gross income for the tax year in which you file Form 4136. If you file an **amended return** and claim a credit, include the credit in gross income for the tax year in which you receive it.

Example. Ed Brown, a cash basis fisherman, filed his 1998 Form 1040 on March 2, 1999. On his Schedule C, Ed deducted the total cost of gasoline (including \$110 of excise taxes) used in his commercial fishing vessel. Then, on Form 4136, Ed claimed the \$110 as a credit. Ed reports the \$110 as additional income on his 1999 Schedule C.

How To Buy Fuel Tax Free

Instead of paying the fuel tax and filing a claim for credit or refund when the fuel is used for a nontaxable use, you may be eligible to buy it tax free.

Gasoline. Your supplier may be able to sell you gasoline at a tax-free price only for use in a **boat engaged in commercial fishing**.

Your supplier may be eligible to claim a credit or refund of the excise tax on the gasoline sold to you at a tax-free price. Refer your supplier to *Credits and Refunds* under *Fuel Taxes* in Publication 510 for details.

To buy gasoline at a tax-free price, give your supplier a signed certificate identifying you and stating how you will use the gasoline. You do not need to renew the certificate as long as the information it contains continues to be correct.

Exemption certificate. The following is an acceptable exemption certificate.

Date _____
The undersigned ("Buyer") hereby certifies that Buyer bought or will buy for use in a boat engaged in commercial fishing (Check the applicable type of certificate)
_____The (quantity)_____ of gasoline, or
_____ALL the gasoline it buys
at a price that does not include the excise tax from:
Name of seller: _____
Address of seller: _____

If the gasoline is not used as specified above, Buyer will so notify the person to whom Buyer gives this certificate. Buyer has not and will not claim a refund or credit under section 6421 of the Internal Revenue Code for the excise tax on this gasoline.

Buyer understands that Buyer or any other party may, for fraudulent use of this certificate, be subject to a fine or imprisonment, together with the costs of prosecution.

Name _____
Title _____
TIN _____
Address _____
Signature _____

Schedule C Example

Frank Carter is a sole proprietor who owns and operates a fishing boat. He uses the cash method of accounting and files his return on a calendar year basis. He keeps his business records with a single-entry bookkeeping system, similar to the sample record system illustrated in Publication 583.

Frank has two crew members, Bill Brown and Joe Green, who are considered self-employed for social security, Medicare, and federal income tax withholding purposes. After certain boat operating expenses are paid, the proceeds from the sale of the catch are divided 76% to Frank and 12% to each crew member.

Frank figures his net profit or loss from his fishing business by subtracting his fishing expenses from his gross income from fishing on Schedule C. He then reports the net profit or loss on line 12, Form 1040.

Schedule C (Form 1040)

First, Frank fills in the information required at the top of Schedule C. On line A, he enters "Fishing" and on line B, he enters 114110, the 6-digit business code for commercial fishing. He then completes items C through H.

Part I—Income

Frank figures his gross income from fishing in Part I.

Line 1. Frank had sales of \$60,288 for the year. This includes all the fish he caught and sold during the year. He enters his total sales on line 1.

Line 3. Because Frank did not have any returns and allowances to report on line 2, line 3 is the same as line 1.

Line 5. Because Frank did not have any cost of goods sold to report on line 4, line 5 is the same as line 3.

Line 6. Frank's entry of \$712 represents a \$612 patronage dividend he received from his local cooperative and a \$100 fuel tax credit he claimed on the 1998 Form 1040 he filed on March 2, 1999. The patronage dividend was reported to him on Form 1099-PATR, *Taxable Distributions Received From Cooperatives*.

Line 7. Frank's gross income from fishing includes his gross profit from line 5 and his other income from line 6.

Part II—Expenses

Frank enters his fishing expenses in Part II.

Line 10. Frank used his truck 80% for business during the year. He spent a total of \$505 for gas, oil, insurance, tags, repairs, and upkeep. He can deduct \$404 (80% × \$505) on line 10.

Line 13. Frank enters \$6,534 depreciation from Form 4562 (not shown).

Line 15. Frank's \$3,291 deduction is for insurance on his business property (80% of his truck insurance is included in line 10). The deduction is only for premiums that give him coverage for the year.

Line 16b. Frank had borrowed money to buy his fishing boat. The interest on this loan was \$800 for the year.

Line 20b. His rent for his mooring space was \$50 a month, or \$600 for the year.

Line 21. He spent \$3,600 for vessel repairs and \$993 for gear repairs for a total cost of \$4,593.

Line 22. He spent \$1,713 for galley supplies and \$4,751 for bait and ice for a total cost of \$6,464.

Line 23. Frank renewed his fishing license. He enters the \$35 state fee on this line.

Line 26. Frank paid his crew members total crew shares of \$10,992 for the year. He does not include any amount he paid to himself or withdrew from the business for his own use.

Line 27. Frank enters the total of his other fishing expenses on this line. These expenses are not included on lines 8–26. He lists the type and the amount of the expenses separately in Part V of page 2 (not shown) and carries the total entered on line 48 to line 27. His only entry on this line is the \$6,367 he spent on fuel for his fishing boat.

Line 28. Frank adds all his expenses listed in Part II and enters the total on this line.

Line 29. He subtracts his total expenses, \$40,080 (line 28) from his gross income from fishing, \$61,000 (line 7). Frank has a tentative profit of \$20,920.

Line 30. Frank did not use any part of his home for business, so he does not make an entry here.

Line 31. Frank has a net profit of \$20,920 (line 29 minus line 30). He enters his net profit here, on line 12 of Form 1040, and on line 2, Section A of Schedule SE (Form 1040), not shown.

How To Get More Information

You can order free publications and forms, ask tax questions, and get more information from the IRS in several ways. By selecting the method that is best for you, you will have quick and easy access to tax help.

Free tax services. To find out what services are available, get Publication 910, *Guide to Free Tax Services*. It contains a list of free tax publications and an index of tax topics. It also describes other free tax information services, including tax education and assistance programs and a list of TeleTax topics.

Personal computer. With your personal computer and modem, you can access the IRS on the Internet at www.irs.gov. While visiting our web site, you can select:

- *Frequently Asked Tax Questions* (located under *Taxpayer Help & Ed*) to find answers to questions you may have.
- *Forms & Pubs* to download forms and publications or search for forms and publications by topic or keyword.
- *Fill-in Forms* (located under *Forms & Pubs*) to enter information while the form is displayed and then print the completed form.
- *Tax Info For You* to view Internal Revenue Bulletins published in the last few years.
- *Tax Regs in English* to search regulations and the Internal Revenue Code (under *United States Code (USC)*).
- *Digital Dispatch* and *IRS Local News Net* (both located under *Tax Info For Business*) to receive our electronic newsletters on hot tax issues and news.
- *Small Business Corner* (located under *Tax Info For Business*) to get information on starting and operating a small business.

You can also reach us with your computer using File Transfer Protocol at [ftp.irs.gov](ftp://ftp.irs.gov).

TaxFax Service. Using the phone attached to your fax machine, you can receive forms and instructions by calling **703-368-9694**. Follow the directions from the prompts. When you order forms, enter the catalog number for the form you need. The items you request will be faxed to you.

Phone. Many services are available by phone.

- *Ordering forms, instructions, and publications.* Call **1-800-829-3676** to order current and prior year forms, instructions, and publications.
- *Asking tax questions.* Call the IRS with your tax questions at **1-800-829-1040**.
- *TTY/TDD equipment.* If you have access to TTY/TDD equipment, call **1-800-829-4059** to ask tax questions or to order forms and publications.
- *TeleTax topics.* Call **1-800-829-4477** to listen to pre-recorded messages covering various tax topics.

Evaluating the quality of our telephone services. To ensure that IRS representatives give accurate, courteous, and professional answers, we evaluate the quality of our telephone services in several ways.

- A second IRS representative sometimes monitors live telephone calls. That person only evaluates the IRS assistant and does not keep a record of any taxpayer's name or tax identification number.
- We sometimes record telephone calls to evaluate IRS assistants objectively. We hold these recordings no longer than one week and use them only to measure the quality of assistance.
- We value our customers' opinions. Throughout this year, we will be surveying our customers for their opinions on our service.

Walk-in. You can walk in to many post offices, libraries, and IRS offices to pick up certain forms, instructions, and publications. Also, some libraries and IRS offices have:

- An extensive collection of products available to print from a CD-ROM or photocopy from reproducible proofs.
- The Internal Revenue Code, regulations, Internal Revenue Bulletins, and Cumulative Bulletins available for research purposes.
