Online Availability of Forecasts

Forecasts from the most recent edition of this publication may be found on the Internal Revenue Service's (IRS's) Website at www.irs.gov/statistics. Select "All Topics" in the "Products, Publications, & Papers" section. Under "Periodic Publications" select "Projections."

We thank our customers for their support as we continually seek to improve our products and services wherever possible. We welcome customer feedback at any time. Comments and suggestions regarding this publication can be directed to Timothy Castle, Chief, Servicewide Support Section, at (202) 803-9106.

David P. Paris
Acting Director, Statistics of Income Division

Overview

This update to IRS Publication 6186, *Calendar Year Return Projections for the United States and IRS Campuses: 2019–2026*, provides the most recent forecast for the number of tax returns to be filed for the United States and IRS processing campuses by major return categories for Calendar Years (CYs) 2019 through 2026. It also includes projections for the number of returns to be filed by IRS examination classes. These projections provide a foundation for IRS workload estimates and resource requirements contained in the IRS budget and other major planning documents. The Statistics of Income (SOI) Division staff within the IRS Research, Applied Analytics, and Statistics organization develops and updates these forecasts annually to reflect changes in filing patterns, statutory requirements, and administrative procedures. This update also incorporates current economic and demographic outlooks. These projections are based on the information available as of August 2019.

These tax return projections reflect enacted changes to tax laws and confirmed administrative plans. These projections do not include pending legislative or administrative initiatives under consideration.

Data Sources and Projection Methodology

The reported actual numbers of returns filed in CY 2018 are based on returns processed and recorded in the IRS Master Files. With few exceptions, these data are based on the same Master File reporting systems as those used for the *IRS Data Book* (Publication 55B). However, Master File counts were not available in some instances. In these cases, tallies of actual filings were provided by program staff in the IRS operating divisions, typically from data capture systems located at the IRS processing campuses.

The forecasts presented here are based on various statistical models that capture and extrapolate historical filing trends by unique form types and filing mediums. Most models use time series extrapolation methods, such as trended exponential smoothing. However, some return types, particularly individual income tax filings, are based on regression models using economic and demographic variables such as total employment and gross domestic product as key input factors. In these instances, forecasts of the economic and demographic data series used by the SOI staff as predictor variables were provided by IHS Markit. Also, where historical data were limited or nonexistent, such as for new e-file products, the filing pattern for a comparable return type was applied. Customers interested in obtaining more detail on forecasting methodologies are welcome to contact us. (See “Principal Contacts” on page iii for subject areas and contact information.)

Impact of Recent Legislative and Administrative Changes

As noted above, the effects of enacted legislation and administrative plans are embedded in these projections. The most significant changes are discussed below.

Tax Cuts and Jobs Act

The Tax Cuts and Jobs Act (TCJA), enacted on December 22, 2017, changed the way tax is calculated for both individual and business tax return filers. Most of the changes affecting these filers became effective January 2018. While some changes sunset at the end of 2025, others are permanent. Highlights of the new tax law changes include revised business expense deductions, increased standard deduction, removed personal exemptions, changed tax rates and brackets,

increased child tax credit, and limited or discontinued deductions. These changes have started to impact the tax return volume for many of the business form types.

Taxpayer First Act

The Taxpayer First Act (TFA), enacted on July 1, 2019, would make filing electronically a more widespread practice for business taxpayers. Two of the TFA provisions would directly affect the forecasts provided in this publication. First, the TFA lowers the thresholds needed for corporations and partnerships to file electronically starting in CY 2021. Second, the TFA makes electronic filing mandatory for exempt organizations (Form 990 series) and political organizations (Form 8872) starting in Calendar Year 2021, with a temporary waiver for small business filers. Both provisions would increase the number of electronic filings for the various forms and would either decrease, or eliminate all together, the amount of paper filings.

Reconfiguration of IRS Campus Processing Sites

IRS modernization efforts, built in part on the strong growth in electronic filing have, over the years, resulted in a major redistribution and consolidation of returns processing operations among the traditional IRS submission processing campuses. In CY 2002, the IRS began processing most paper-based individual tax returns at eight campuses and transitioned a large portion of paper-based business and exempt organization tax returns to the Ogden and Cincinnati Submission Processing Centers. IRS closed the Brookhaven, New York, Submission Processing Center in December 2003 and moved to a configuration where seven campuses handled all returns associated with individual tax returns. The Ogden and Cincinnati Submission Processing Centers handled virtually all the business (and tax exempt) tax returns. IRS consolidation efforts continued with the closure of the Memphis campus at the end of September 2005. The Philadelphia and Andover campuses ended their paper processing operations of individual tax returns in September 2007 and September 2009, respectively. The Atlanta campus ended paper processing in September 2011. The Austin, Fresno, and Kansas City campuses have processed all paper returns filed by individual taxpayers since 2012.

Plans were announced in September 2016 to further streamline the current 4-site configuration for individual paper returns processing and the current 2-site configuration for business returns processing. The Fresno Campus will cease submission processing operations in September 2021, followed by the Austin Campus in September 2024. The Cincinnati campus will cease processing operations after September 2019, leaving the Ogden campus to process most of the business tax returns. Submission processing workload from business e-file returns will be processed at the two end-state sites in Kansas City and Ogden after 2024.

The campus-level CY 2019 through CY 2026 volumes in this publication reflect our estimates, made in collaboration with Headquarters, Submission Processing, of how the workload might migrate from consolidating submission processing sites to the two end-state sites, Kansas City and Ogden. The alignments may change in future years based on updated return volume projections and other considerations. The current submission processing consolidation plan envisions that all individual tax returns will be processed in Kansas City and Ogden in CY 2025; the majority of business tax returns will be processed in Ogden. The alignments of e-filed returns to IRS campuses are shown in this publication as not changing from the current alignments. Individual e-filed returns will continue to be processed at all five individual e-file submission processing campuses in CY 2020 through CY 2026. In future publications, those alignments will likely change; however, the changes have not yet been determined.

Additional Discussion of Trends

In CY 2018, the share of total returns (individual and business tax returns) filed electronically was 71.0 percent. This percentage is projected to rise to 72.2 percent in CY 2019, and then steadily increase to 79.3 percent by 2026. Individual income tax returns make up over half of the grand total of return filings in any given year. For CY 2019, the projected share of the individual Form 1040 series returns that will be filed electronically is 89.3 percent; current forecasts project that this ratio will reach 93.0 percent by 2026. Readers interested in more detailed discussion of trends and issues in individual income tax return filings should refer to the 2019 update of IRS Publication 6187, *Calendar Year Projections of Individual Returns by Major Processing Categories* (<https://www.irs.gov/pub/irs-pdf/p6187.pdf>).

Accuracy of Prior Projections

To measure the quality of our products and services, this section, along with Table 11, provides a brief analysis of the accuracy of prior projections. Using 4 years of actual data from 2015 through 2018, Table 11 presents the accuracy of our national-level projections by major return categories. This analysis covers only the major return categories projected on a calendar-year basis and serves as a general measure for approximating the overall reliability of our U.S.-level return projections.

The table presents two measures of projection accuracy: (1) the mean absolute percent error (MAPE); and (2) the number of overprojections. The MAPE is computed as the average percentage projection error for the 4-year period, regardless of whether the projections were over or under actual filings in each of the four projection cycles. In addition, the number of overprojections can show whether projections are consistently overprojected or underprojected. A value of “2” indicates balanced forecasts over the four cycles.

The table groups these two measures by time horizon. The time horizon is determined based on the year a forecast was made and the year projected. For example, a forecast for 2017 made in 2014 would be part of the “3-years-ahead” time horizon.

Table 1. Historical Perspective by Calendar Year for United States: Total Number of Returns Filed, by Type of Return (in thousands)

n.a.—Not available.

NOTES: Detail may not add to total/subtotal because of rounding.

Figures include all returns filed from all filing media (paper, electronic and magnetic tape).

Table excludes Non-Master File accounts.

*Includes around 2 million returns from the marginal effects of Telephone Excise Tax Refund on the existing population, but excludes the approximately 800 thousand Forms 1040EZ-T.

** The Individual return volume includes around 15 million returns from the marginal impact of the 2008 Economic Stimulus Package.

Column Definitions:

(1) Sum of (2) through (21).

(2) New streamlined Form 1040, Forms 1040-NR, 1040-NR-EZ, 1040-PR, and 1040-SS; Forms 1040, 1040-A, and 1040-EZ in 2018 and prior years; 1040-C in 1991 and prior years; 1040-PC in 1992 through 2000.

(3) Number of Form 1040-ES vouchers.

(7) Forms 1120, 1120-A, 1120-F, 1120-H, 1120-S, 1120-L, 1120-PC, 1120-SF; Forms 1120-RIC and 1120-REIT in 1989 and subsequent years; Form 1120-SF replaced Form 1120-DF in 1994. Form 1120-POL in 2001 and prior years; Form 1120-FSC in 1989–2007; Form 1120-C was 990-C prior to 2006; Form 1120-ND from 2006.

(10) Projections reflect provisions of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010.

(12) Forms 940, 940-PR, 941, 941-E, 941-PR, 941-SS, 943, 943-PR, CT-1 and CT-2; Form 940-EZ in 1990 through 2006; Form 945 in 1995 and subsequent years; Forms 942 and 942-PR in 1995 and prior; Form 944 from 2007.

(14) Forms 990, 990-C, 990-PF, 990-T, 4720, and 5227; Form 990-EZ in 1990 and subsequent years; Excludes 990-C from 2006 when it changes to 1120-C; Includes Form 990-N from 2008 onwards.

(15) Forms 8038, 8038-G, 8038-GC, 8038-T, and 8328; Form 8038-CP from 2009; Forms 8038-B, 8038-TC from 2010.

(16) Forms 1120-POL, 8871 and 8872.

(17) Forms 11-C, 720, 730, and 2290; Form 8849 from 2008.

(19) Form 8752 was introduced in 1991.

(20) Forms 5500 and 5500-EZ; Form 5500-C and Form 5500-R in 1989 and prior years; Form 5500-SF from 2010; IRS and the Dept. of Labor share responsibility for processing employee plan returns.

(21) Forms 1040-X, 1120-X, 2688, 4868 and 7004; Form 1041-A in 1992 and prior years. Form 5558, 8868 in 2002 and subsequent years.

Estate \$20 Million or More, Taxable	1,055	1,200	1,100	800	800	700	700	700	700
Gift, Form 709, Total	244,570	245,800	247,000	248,300	249,500	250,700	252,000	253,200	254,500

[1] Does not include Forms 1040-PR/SS, 1040-NR, 1040-NR-EZ; Forms 1040, 1040-A, and 1040-EZ for Calendar Year 2018; beginning in Calendar Year 2019, a new, streamlined Form 1040 replaced Forms 1040, 1040-A, and 1040-EZ.

[2] Includes nonfarm business returns (with No EITC) (Schedule C Present and Schedule C Gross Receipts ≥ Schedule F Gross Receipts).

[3] Includes farm business returns (with No EITC) (Schedule F Present and Schedule F Gross Receipts ≥ Schedule C Gross Receipts).

[4] 1120 "Other" includes Forms 1120-C/FSC/L/ND/PC/REIT/RIC/SF.

NOTES: Detail may not add to total due to rounding.

Table does not contain Non-Master File counts.

*Some actuals shown in this table may differ from official counts reported elsewhere because they exclude certain return series only recently projected and whose accuracy cannot yet be evaluated.

SOURCE: Internal Revenue Service, Statistics of Income Division, 2019 Publication 6186.

Table Notes

- Detail may not add to total due to rounding.
- Projected volumes are rounded to the nearest 100, therefore counts of 49 or fewer are rounded to 0. However, some forms show zero filings because the data are associated either with selected areas only or recently established or eliminated filing options.
- Actual and forecasted return counts for the major categories are based on IRS Master File processing, as recorded in the electronic versions of the *Report of Returns Posted to the IRS Master Files*. The tax return counts presented in this document do not include Non-Master File accounts.
- Complete IRS Master File counts for CY 2018 were not available for Forms 8849 and 5558. IRS operating division staff members supplied these counts at the national level; some data were derived from secondary sources.

Notes for Tables 1–9

- “Grand Total” is the sum of “Total Primary Returns” and “Supplemental Documents, Total.” The “Total Primary Returns” category is the sum of all forms shown in the tables, excluding all “Supplemental Documents.”
- “Individual Income Tax, Total” includes both paper and electronic Forms 1040, 1040-A, 1040-EZ, 1040-NR, 1040NR-EZ, 1040-PR, 1040-SS and 1040-C. Starting with CY 2019, Forms 1040, 1040-A, and 1040-EZ were replaced with a new, streamlined Form 1040.
- “Forms 1040, 1040-A, 1040-EZ, Total” includes both paper and electronic Forms 1040, 1040-A, and 1040-EZ. Starting with CY 2019, these forms were replaced with a new, streamlined Form 1040.
- “Individual Estimated Tax, Form 1040-ES, Total” includes both paper and electronic Form 1040-ES. Various return categories, such as Form 1040-ES and other business and individual tax returns, include line items to account for alternative tax-filing methods. The “paper only” components can be derived by subtracting the electronic counts from their respective return totals.
- “Fiduciary, Form 1041, Total” includes both paper and electronic Form 1041.
- “Fiduciary Estimated Tax, Form 1041-ES” is the *Estimated Income Tax for Estate and Trust*.
- “Partnership, Forms 1065/1065-B, Total” includes both paper and electronic Forms 1065 and 1065-B.
- “Corporation Income Tax, Total” includes both paper and electronic Forms 1120, 1120-C, 1120-F, 1120-FSC, 1120-H, 1120-L, 1120-ND, 1120-PC, 1120-REIT, 1120-RIC, 1120-S, and 1120-SF. As a result of the Foreign Sales Corporation (FSC) Repeal and Extraterritorial Income Act of 2000, which repealed provisions in the U.S. Internal Revenue Code relating to the taxation of foreign sales corporations, the volume of Forms 1120-FSC is declining. Form 1120-POL volumes are reported separately under the forms for “Political Organizations.” Form 1120-IC-DISC is not included in these corporation projections.

- “Form 2553” is the *Election (to file Form 1120-S) by a Small Business Corporation*.
- “Form 1066” is the *U.S. Real Estate Mortgage Investment Conduit (REMIC) Income Tax Return*.
- “Estate, Total” includes Forms 706, 706-NA, 706-GS(D), and 706-GS(T).
- “Gift, Form 709” is the *U.S. Gift (and Generation-Skipping Transfer) Tax Return*.
- “Employment Tax, Total” includes both paper and electronic Forms 940, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 943-SS, 944, 944-PR, 944-SS, 945, and CT-1. Form CT-2 returns are excluded.
- “Form 1042” is the *Annual Withholding Tax Return for U.S. Source Income of Foreign Persons*. It is sometimes considered an employment tax return but listed separately here. This form is assigned to the International area.
- “Exempt Organizations, Total” includes both paper and electronic Forms 990, 990-EZ, 990-N (only available electronically starting in CY 2008), 990-PF, 990-T, 4720, and 5227. Beginning in Calendar Year 2021, the Form 990 series must be filed electronically. Temporary waivers will be available for small business filers.
- “Government Entities/Bonds, Total” includes paper Forms 8038, 8038-B, 8038-CP, 8038-G, 8038-GC, 8038-T, 8038-TC, and 8328.
- “Political Organizations, Total” includes both paper and electronic Forms 1120-POL, and 8872 and Form 8871 (only available electronically). Beginning in Calendar Year 2021, Form 8872 must be filed electronically. Temporary waivers will be available for small business filers.
- “Excise, Total” includes both paper and electronic Forms 11-C, 720, 730, 2290, and 8849.
- “Form 5330” is the *Return of Excise Taxes Related to Employee Benefit Plans*.
- “Form 5500-EZ” is the *Annual Return for One-Participant (Owners and Their Spouses) Retirement Plan*.
- “Form 8752” is the *Required Payment or Refund Under Section 7519*.
- “Supplemental Documents” consist mainly of applications for extensions of time to file amended tax returns, which include both paper and electronic Forms 1040-X, 1120-X, 4868, 5558, 7004, and 8868.

Notes for Table 10

- Return volumes presented in Table 10 reflect additional detail for certain form types by “examination class,” as defined by IRS staff who use them for internal compliance planning purposes. While most of the examination class categories are self-explanatory, a few require a bit more clarification.
 - Examination class definitions for Individual “Forms 1040, 1040-A. and 1040-EZ”:
 - Earned Income Tax Credit (EITC) returns with Total Positive Income (TPI) reflects total income less than \$200,000 excluding losses and Schedule C/F with Total Gross Receipts (TGR) less than \$25,000 and \$25,000 or more.

- Nonbusiness returns (with no EITC) having 1) TPI less than \$200,000 and no Schedule C, E, F, or Form 2106 and 2) TPI less than \$200,000 with only Schedule E or Form 2106.
- All nonfarm business returns (no EITC) and TPI less than \$200,000 and Schedule C/F present with 1) TGR less than \$25,000, 2) TGR at \$25,000 or under \$100,000, 3) TGR at \$100,000 or under \$200,000, and 4) TGR \$200,000 or more.
- Farm business returns with no EITC, Schedule F present with TGR greater than Schedule C TGR (if any) and TPI less than \$200,000.
- High income taxpayers is a new category broken out by 1) no Schedule C or F but with TPI \$200,000 or more and less than \$1,000,000, 2) Schedule C or F returns present with TPI \$200,000 or more and less than \$1,000,000, and 3) TPI \$1,000,000 or more.
