Special Rules for Certain Foreign Business Entities

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations providing rules regarding the application of the general entity classification rules to certain foreign business entities, in particular providing a rule that terminates the grandfathered status of certain foreign business entities upon a 50 percent change of ownership and a special rule that clarifies and further modifies the rules relating to whether the classification of certain foreign eligible entities is relevant for Federal tax purposes.

EFFECTIVE DATES: These regulations are effective as of October 22, 2003.

SUPPLEMENTARY INFORMATION:

Background

On December 18, 1996, Treasury and IRS published in the **Federal Register** (61 FR 66584) final regulations relating to the classification of business entities under section

7701 (check-the-box regulations). On November 29, 1999, Treasury and the IRS published in the **Federal Register** (64 FR 66591) a notice of proposed rulemaking (REG-110385-99) proposing to amend §§301.7701-2 and 301.7701-3 of the current check-the-box regulations (proposed regulations). A public hearing on the proposed regulations was held on January 31, 2000. In addition, written comments were received. Most of the written and oral comments related to proposed §301.7701-3(h), which provided a rule that would have operated to change the classification of a foreign disregarded entity if a so-called “extraordinary transaction” occurred one day before or within one year after the election to treat the entity as disregarded. On June 26, 2003, Treasury and the IRS issued Notice 2003-46 (2003-28 IRB 53) announcing the intention to withdraw this extraordinary transaction rule of proposed §301.7701-3(h) and to finalize the remaining provisions of the proposed regulations.

With the publication of a notice of withdrawal elsewhere in this issue of the **Federal Register**, proposed §301.7701-3(h) is withdrawn. This Treasury decision adopts without substantive change the remaining provisions of the proposed regulations. The final regulations thus adopt the following provisions from the proposed regulations: (1) the rule that terminates the grandfathered status of certain foreign business entities when there has been a 50 percent change of ownership of such entity; (2) the provision clarifying that a foreign eligible entity with respect to which an entity classification election is made and which is not otherwise relevant for Federal tax purposes is deemed so relevant only on the effective date specified on a Form 8832, “Entity Classification Election”; and (3) the

modifications to the classification rules for certain foreign eligible entities that have never been relevant or are no longer relevant for Federal tax purposes.

Explanation of Provisions

A. Grandfathered Foreign Per Se Entities

The check-the-box regulations allow certain foreign business entities that were in existence and treated as partnerships prior to the date the check-the-box regulations were proposed (PS-43-95, 61 FR 21989) and that would otherwise be classified as per se corporations under ' 301.7701-2(b)(8)(i) to remain classified as partnerships if the conditions enumerated in ' 301.7701-2(d)(1) are satisfied. These rules also provide that the occurrence of certain events results in a termination of this grandfathered status. See §301.7701-2(d)(3)(i). The final regulations adopt the rule in the proposed regulations at §301.7701-2(d)(3)(i) that provides an additional event resulting in the termination of an entity's grandfathered status. Under this rule, an entity's grandfathered status is terminated on the date when one or more persons who were not owners of the entity as of November 29, 1999, own in the aggregate a 50 percent or greater interest in the entity. Consistent with the proposed regulations, the final regulations provide that this rule will apply as of the date the final regulations are published in the federal register; therefore, if persons that were not owners of a grandfathered entity on November 29, 1999, obtain a greater than 50 percent ownership interest between November 29, 1999, and October 22, 2003, the grandfathered entity will cease to have that status on October 22, 2003.

Several commentators requested clarification as to whether this rule takes into account changes in direct ownership only or also changes in indirect ownership, and they suggested that the rule should take into account only changes in direct ownership.

Treasury and the IRS believe that for purposes of grandfathered foreign per se entities a rule that took only direct changes of ownership into account could be easily circumvented in inappropriate cases. Therefore, this rule has not been modified in these final regulations.

Some commentators requested that the rule be limited to significant changes in ownership within a specified period of time. For example, one commentator suggested that the rule be limited to situations where persons obtained a 50 percent or greater ownership interest within a 12-month period. The final regulations do not adopt this suggestion because Treasury and the IRS believe that an entity should retain grandfathered status only if there have been no significant changes in the ownership of that entity.

B. Relevance of Classification

The check-the-box regulations provide that if the classification of a foreign eligible entity that was previously relevant for Federal tax purposes ceases to be relevant for 60 consecutive months and then subsequently becomes relevant again, the entity's classification at the start of the subsequent period of relevance will be determined under the default classification rules (60-month rule).

These final regulations adopt the two rules in the proposed regulations that relate to the application of the 60-month rule. First, these final regulations adopt the rule providing that the classification of a foreign eligible entity that files an entity classification election is

deemed to be relevant for Federal tax purposes on the effective date of the election for purposes of the 60-month rule. Second, these final regulations adopt the rule providing that the classification of a foreign eligible entity whose classification has never been relevant for Federal tax purposes will initially be determined pursuant to the default classification provisions of ' 301.7701-3(b)(2) at the time the classification of the entity first becomes relevant.

Commentators generally agreed with and supported the approach taken in the proposed regulations with respect to the relevance issues, and several commentators requested that these provisions be retroactive when finalized. These final regulations do not adopt the suggestion that these provisions be applied retroactively because Treasury and the IRS believe that it is not in the interest of sound tax administration.

One commentator requested that the provisions be revised to clarify that it is the Federal tax classification of the foreign eligible entity, and not the entity itself, that is deemed to be relevant. Treasury and the IRS have adopted this clarifying change in these final regulations.

One commentator requested that the regulations clarify why the classification of a foreign eligible entity, not otherwise relevant, that files Form 8832, "Entity Classification Election", is deemed relevant only on the date the entity classification election is effective. The commentator neither suggested what the period of deemed relevance should be if not limited to one day nor suggested a principle for when the deemed relevance should terminate such that the 60-month rule would be triggered. In the interest of certainty and

administrability of the application of the 60-month rule, Treasury and the IRS have retained the limitation of deemed relevance to the day on which the entity's classification is effective.

One commentator requested further guidance on when and under what circumstances the classification of a foreign eligible entity that was previously relevant ceases to be relevant under the 60-month rule. Treasury and the IRS believe §301.7701-3(d)(1) and (3) provide sufficient guidance on when an entity's classification becomes relevant and, accordingly, when an entity's classification ceases to be relevant.

One commentator suggested that the regulations be revised to provide that an election by a non-relevant foreign entity to continue its current classification may be filed at any time within the 60-month period starting on the day after the date of the most recent election for that entity, and that such election will start a new 60-month period. Section 301.7701-3(c) provides that an eligible entity may elect to be classified other than as provided under the default classification rules of §301.7701-3(b), or to change its election. Allowing an eligible entity whose classification is not relevant to renew its election for purposes of the 60-month rule would frustrate the policies underlying that rule. Accordingly, the suggestion was not adopted.

One commentator requested clarification and examples regarding the determination of the classification of a foreign eligible entity whose classification was never relevant or whose classification has not been relevant for 60 months and therefore has lapsed under the 60-month rule. In either case (assuming in the latter case that no election

is made following the lapse of the classification), the entity's classification initially will be determined under the default classification rules of §301.7701-3(b)(2) when the classification of the entity becomes relevant. Under the general rules of §301.7701-3(c), an eligible entity may elect at such time to be classified other than as provided under the default classification rules, and may elect at some later time to change its classification. Treasury and the IRS do not believe at this time that further guidance or examples are needed to illustrate these general rules.

Special Analyses

It has been determined that this notice of proposed rulemaking is not a significant regulatory action as defined in Executive Order 12866. Therefore, a regulatory assessment is not required. It also has been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these final regulations, and because these regulations do not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Therefore, a Regulatory Flexibility Analysis is not required.

--(i) General rule. * * *

(ii) Deemed relevance--(A) General rule. For purposes of this section, except as provided in paragraph (d)(1)(ii)(B) of this section, the classification for Federal tax purposes of a foreign eligible entity that files Form 8832, "Entity Classification Election", shall be deemed to be relevant only on the date the entity classification election is effective.

(B) Exception. If the classification of a foreign eligible entity is relevant within the meaning of paragraph (d)(1)(i) of this section, then the rule in paragraph (d)(1)(ii)(A) of this section shall not apply.

(2) Entities the classification of which has never been relevant. If the classification of a foreign eligible entity has never been relevant (as defined in paragraph (d)(1) of this section), then the entity's classification will initially be determined pursuant to the provisions of paragraph (b)(2) of this section when the classification of the entity first becomes relevant (as defined in paragraph (d)(1)(i) of this section).

(3) Special rule when classification is no longer relevant.
