We plan to make this change in a future schema release. In the meantime, since Form 5713 Schedule C Line 5a(2) will not allow a RatioType, we ask that you leave Line 5a(2) blank. 1120, Sch K, line 4		Business Rule F1120-109 invoking because FOREIGNUS is not recognized	Form 1120, Schedule K, Line 4. If the taxpayer answers Yes to Q.4 - Is the corporation a subsidiary in an affiliated group or a parent-subsiary controlled group AND the parent is a Foreign Corporation without an EIN, the following guideline should be used in completing the EIN and Name of the "parent" corporation. EIN - use the EIN of the taxpayer answering the Questions. Name/Name control - Use F and the "parent's name/name control (no spaces). For example, if the Parent's Name is ABC Corp and the name control is ABCC, change the name for this line to F-ABC Corp which will then have a Name Control of F-AB. This will ensure that the EIN and Name/Name control being used do not cause a business rule to fire and the return to reject.	For TY2005 continue to use workaround.
