Frequently Asked Questions

What is the purpose of this survey?

The purpose of this survey is to measure what it costs business taxpayers to comply with federal tax rules and regulations. For most establishments, these costs are a combination of time spent and out-of-pocket expenses. Please be assured that you will not be asked about the income or other financial details of your business' tax return.

This questionnaire relates to the activities associated with federal income tax compliance activities during the most recent tax year as well as the preparation and filing of your 2012 federal income tax return. It does NOT include any other tax returns (i.e., employment, excise, information returns, state and local, etc.) filed for the same period. This includes any filings completed in the 12 months leading up to the filing of your business's 2012 federal income tax return.

Who should complete this survey?

The individual most responsible for maintaining the financial records for your business or making the financial and tax-related decisions for your business should complete this questionnaire. You may need to consult with others in your organization to complete the survey and we encourage you to do so. This survey concerns the time and costs spent by your business, not the time and costs spent by your external service provider if you had one. Please do not forward this survey to your external service provider.

Why was my business selected for this survey?

Your business was randomly selected from the millions of businesses that filed a federal tax return in 2012. If you own more than one business, please look at the address label of this mailing to see which business was randomly selected to receive this survey.

What would the IRS like to know?

This survey includes questions regarding the following areas:

- Tax Preparation Methods and Activities
- Tax-Related Recordkeeping
- Gathering Materials, Learning About Tax Law, and Using IRS Taxpayer Services
- Time Spent on Tax-related Activities
- Fees Associated with Tax Compliance
- Demographics

How will my answers be used?

Please be assured that your responses will be used for research and aggregate reporting purposes only and will not be used for other non-statistical or non-research purposes such as direct enforcement activities.

Why should I participate?

While participation is voluntary, information about your business's tax preparation experience will help the IRS reduce taxpayer burden. We encourage you to take a few minutes of your time to participate. By doing so, you will make sure that businesses like yours are represented.

How long will this survey take?

Public reporting burden for this collection of information is estimated to average 15 to 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Who can I contact with questions?

Time Spent on Tax-Related Activities

As mentioned in the FAQs, the purpose of this survey is to measure what it costs business taxpayers to comply with federal tax rules and regulations. For most establishments, these costs are a combination of time spent and out-of-pocket expenses (e.g., fees paid to external service providers, software costs). In the remaining sections we will ask for estimates of these costs.

The next three questions focus on the time spent on activities related to filing your business's federal tax return.

Think about all the time your business spent on tax-related recordkeeping, tax planning, gathering tax-related materials, learning about tax law, using IRS or non-IRS resources, completing, reviewing, and submitting your 2012 federal tax return, and calculating and depositing estimated tax payments.

Please include:

- Time spent on your federal income tax return as well as any associated forms, schedules, and worksheets that you completed or filed
- Time throughout the tax year as well as the tax filing season
- Time spent corresponding with your external service provider(s)

Please do NOT include:

- Time spent by your external service provider(s)
- Time spent on state or local income tax returns
- Time spent on employment tax returns and payroll activities
- Time spent on excise tax
- Time spent on foreign tax
- Time spent on information returns
- Time spent on individual income tax returns for owners, partners, or shareholders
- Time spent on retirement & pension-related activities

7. How many **TOTAL** hours did your business spend performing tax reporting compliance-related activities for the 2012 tax year? (e.g., tax-related recordkeeping, tax planning, gathering tax-related materials, learning about tax law, using IRS or non-IRS resources, completing, reviewing, and submitting your business's 2012 federal income tax return, and calculating and depositing estimated tax payments)

We encourage you to consult your records or other employees in your business, if necessary. If these resources are unavailable, please provide your best, most accurate estimate.
