Section 1

Introduction and Changes in Law

Introduction

This report contains complete individual income tax data for Tax Year 2012. The statistics are based on a stratified probability sample of individual income tax returns, selected before audit, which represents a population of over 144.9 million Forms 1040, 1040A, and 1040EZ, including electronic returns, filed for Tax Year 2012.

Table A presents selected income and tax items for Tax Years 2008 through 2012 as they appear on the forms and provides the percentage change between 2011 and 2012 for each item. When comparing income and tax items from different years, it is important to consider any tax law changes, which may have affected the data. These tax law changes are explained further in this section. To assist year-to-year comparisons, Table A includes the items in both current dollars and constant 1990 dollars, as adjusted by the U.S. Department of Labor's consumer price index (CPI-U). For Tax Year 2012, the number of individual

Justin Bryan and Michael Parisi were responsible for the text and production of this report. This report was prepared under the direction of Michael Strudler, Chief, Individual Research Section, Individual Statistics Branch. tax returns filed decreased by 0.4 million, or 0.3 percent. Adjusted gross income (AGI) rose \$726.0 billion, or 8.7 percent from 2011 to 2012, compared to a 3.5-percent increase from 2010 to 2011. Total tax liability increased 13.0 percent to \$1.3 trillion. A few components of AGI showed decreases between 2011 and 2012. The most notable were unemployment compensation (down 22.9 percent), cancellation of debt (down 9.9 percent) and taxable interest (down 6.9 percent). Conversely, several components showed large increases for 2012. These included net capital gain less loss from Schedule D (up 65.4 percent), ordinary dividends (up 33.8 percent) and rents, royalties, partnerships, estates, trusts, etc. (up 26.2 percent).

This report is divided into six sections. Section 1 explains the requirements for filing and changes in the law for 2012. Section 2 describes the sample of individual income tax returns upon which the statistics are based. Section 3 contains tables of detailed aggregate statistics on individual tax returns. Section 4 provides explanations of the terms used in the tables. The tax forms appear in Section 5, and Section 6 contains a subject index.

Tax Years 2008-2012

| | Qualifying widow(er) with | under 65 | \$15,700 |
| | dependent child | 65 or older | \$16,850 |

Requirements for Filing

The filing requirements for Tax Year 2012 were based on gross income, marital status, age, and, to a lesser extent, dependency and blindness. Gross income included all income received in the form of money, property, and services that was not expressly exempt from tax. Generally, a citizen or resident of the United States was required to file a tax return if gross income for the year was at least as much as the amount shown for the appropriate filing status in Figure 1. Figure 2 shows the filing requirements for taxpayers who could be claimed as a dependent by another person (such as a parent).

In addition to the general filing requirements, an individual was obligated to file a return for Tax Year 2012 if he or she:

1. was liable for any of the following taxes:

• Alternative minimum tax;

- Additional tax on a qualified plan, including an individual retirement arrangement (IRA) or other tax-favored account (unless only filing because taxpayer owed this tax, then taxpayer could have filed only Form 5329);
- Household employment taxes (unless only filing because taxpayer owed this tax, then taxpayer could have filed only Schedule H);
- Social security or Medicare tax on unreported tip income;
- Uncollected social security, Medicare, or railroad retirement tax on reported tip income or group-term life insurance and additional taxes on health savings accounts;
- Tax from the recapture of various credits, including investment credits, low-income housing credits or first-time homebuyer credit;

Figure 2. Filing Requirements for Children and Other Dependents

If someone (such as a parent) can claim the individual as a dependent, and any of the four conditions listed below applies, he or she must file a return.

In this chart unearned income includes taxable interest, ordinary dividends, and capital gain distributions. Earned income includes wages, tips, and taxable scholarship and fellowship grants. Gross income is the total of unearned and earned income.

1. Single dependents under 65 must file a return if-

• Earned income was more than \$5,950, or

• Unearned income was over \$950, or

• Gross income was more than the larger of (a) \$950 or (b) earned income (up to \$5,650) plus \$300.

2. Single dependents 65 or older or blind must file a return if-

- Earned income was more than \$7,400 (\$8,850 if 65 or older and blind), or
- Unearned income was more than \$2,400 (\$3,850 if 65 or older and blind), or
- Gross income was more than \$2,400 (\$3,850 if 65 or older and blind), or the total of earned income (up to \$5,650) plus \$1,750 (\$3,200 if 65 or older and blind), whichever is larger.

3. Married dependents under 65 must file a return if-

- Gross income was at least \$5 and spouse files a separate return and itemizes deductions.
- Earned income was more than \$5,950, or
- Unearned income was over \$950, or
- Gross income was more than the larger of \$950 or earned income (up to \$5,650) plus \$300.

4. Married dependents 65 or older or blind must file a return if-

- Earned income was more than \$7,100 (\$8,250 if 65 or older and blind), or
- Unearned income was more than \$2,100 (\$3,250 if 65 or older and blind), or
- Gross income was more than \$2,100 (\$3,250 if 65 or older and blind), or the total of earned income (up to \$5,650) plus \$1,450 (\$2,600 if 65 or older and blind), whichever is larger.

• Gross income was at least \$5 and spouse files a separate return and itemizes deductions.

- 2. received HSA, Archer MSA, or Medicare Advantage MSA distributions.
- 3. had net earnings from self-employment of at least \$400; or
- 4. had wages of \$108.28 or more from a church or qualified church-controlled organization that was exempt from employer social security and Medicare taxes.

Data shown in this report include individuals who were not required to file tax returns, but did so for any of a number of reasons. For example, an individual might have filed a return to obtain a refund of tax withheld, or to claim the earned income credit.

Changes in Law or Administrative Procedures

Major changes in effect for Tax Year 2012 that influenced the Statistics of Income data are listed below. Section 4, Explanation of Terms, provides more detailed explanations and definitions of the terms used in this report.

Adoption Credit

For Tax Year 2012, the maximum credit amount decreased from \$13,360 to \$12,650. The credit began to phase out if a taxpayer had modified adjusted gross income in excess of \$189,710 and completely phased out for modified adjusted gross income of \$229,710 or more. The adoption credit stopped being refundable at the end of 2011.

Alternative Minimum Tax

For Tax Year 2012, the alternative minimum tax exemption rose to \$78,750 for a married couple filing a joint return, up from \$74,450 in 2011, and to \$50,600 for singles and heads of household, up from \$48,450, and to \$39,375 from \$37,225 for a married person filing separately.

Earned Income Credit

The maximum amount of the earned income credit increased, as did the amounts of earned income an individual could have and still claim the credit. The maximum credit for taxpayers with no qualifying children increased to \$475 in 2012 from \$464 in 2011. For these taxpayers, earned income and AGI had to be less than \$13,980 (\$19,190 if married filing jointly) to get any EIC. For taxpayers with one qualifying child, the maximum credit increased \$75 to \$3,169, for taxpayers with two qualifying children, the maximum credit increased to \$5,236 from \$5,112, and for taxpayers with three or more qualifying children, the maximum credit increased to \$5,891 from \$5,751. To be eligible for the credit, a taxpayer's earned income and AGI had to be less than \$36,920 (\$42,130 for married filing jointly) for one qualifying child, less than \$41,952 (\$47,162 for married filing jointly) for two qualifying children, or less than

\$45,060 (\$50,270 for married filing jointly) for three or more qualifying children.

Exemption Amount

Indexing for inflation increased to \$3,800 the deduction for each exemption to which the taxpayer was entitled for 2012, an increase from the \$3,700 allowed for 2011.

Expired Tax Benefits

The first-time homebuyer credit expired for 2012. The District of Columbia first-time homebuyer credit cannot be claimed for homes bought after 2011. The adoption credit stopped being refundable at the end of 2011.

Health Savings Account Deduction

A deduction for contributions to a health savings account was limited to \$3,100; \$6,250 for family coverage. This was an increase from \$3,050 (\$6,150 if family coverage) in 2011. These limits were \$1,000 higher if the taxpayer was age 55 or older (\$2,000 if both spouses were 55 or older).

Household Employment Tax

Taxpayers paying domestic employees more than \$1,800, annually, up from \$1,700 in 2011, generally had to pay social security, Medicare and Federal unemployment taxes for these employees by filing Schedule H, *Household Employment Taxes*, with their income tax return.

Individual Retirement Arrangement Deduction

For taxpayers covered by a retirement plan, the traditional IRA deduction phased out between \$92,000 and \$112,000 of modified AGI for married persons filing jointly and surviving spouses; and between \$58,000 and \$68,000 for single filers, heads of households, or married filing separately taxpayers living apart. This was up from \$90,000 and \$110,000 for married filing jointly or surving spouses and \$56,000 and \$66,000 for single filers, heads of households, or married filing separately taxpayers living apart in 2011. If one spouse was an active participant in an employer plan but the other was not, the deduction for the IRA contribution of the spouse not covered by an employer plan phased out between modified AGI of \$173,000 and \$183,000, up from \$169,000 and \$179,000 in 2011.

Starting in 2010, all taxpayers (including married taxpayers filing separately) were eligible to make taxable rollovers of traditional IRAs to Roth IRAs without paying the 10-percent tax on early withdrawals. Half of the income realized from the rollover or conversion could have been included in income in Tax Year 2011 and the other half in Tax Year 2012. The taxpayer could also have elected to have all of the income included in Tax Year 2010.

Social Security Taxes

For 2012, the maximum wages subject to social security tax was \$110,100.

Standard Deduction

For married persons filing jointly or surviving spouses, the standard deduction was increased in 2012, from \$11,600 to \$11,900. For single filers and married person filing separately, the standard deduction rose from \$5,800 to \$5,950 and for heads of households from \$8,500 to \$8,700. The amount of the standard deduction for a dependent remained the greater of \$950 of the dependent's earned income plus \$300 for 2012. Taxpayers who were age 65 or over or blind could claim an additional standard deduction amount of \$1,150 or \$1,450 depending on marital status.
