Introduction and Changes in Law

This report contains complete individual income tax data for Tax Year 2013. The statistics are based on a stratified probability sample of individual income tax returns, selected before audit, which represents a population of almost 147.4 million Forms 1040, 1040A, and 1040EZ, including electronic returns, filed for Tax Year 2013.

Table A presents selected income and tax items for Tax Years 2009 through 2013 as they appear on the forms and provides the percentage change between 2012 and 2013 for each item. When comparing income and tax items from different years, it is important to consider any tax law changes, which may have affected the data. These tax law changes are explained further in this section. To assist year-to-year comparisons, Table A includes the items in both current dollars and

constant 1990 dollars, as adjusted by the U.S. Department of Labor's consumer price index (CPI-U).

For Tax Year 2013, the number of individual tax returns filed increased by 2.4 million, or 1.7 percent. Adjusted gross income (AGI) fell \$6.5 billion or 0.1 percent from 2012 to 2013, compared to an 8.7-percent increase from 2011 to 2012. A major factor in the decrease in AGI was the 22.1-percent decrease in net capital gain less loss (from Schedule D). Similar to AGI, taxable income decreased 0.1 percent from 2012 to 2013. While AGI and taxable income both decreased, total tax liability increased 4.8 percent. This increase was due to new tax rates, a new net investment income tax, and additional Medicare taxes.

This report is divided into six sections. Section 1 explains the requirements for filing and changes in the law for 2013. Section 2 describes the sample of individual income tax returns upon which the statistics are based. Section 3 contains tables of detailed aggregate statistics on individual tax returns. Section 4 provides explanations of the terms used in the tables. The tax forms appear in Section 5, and Section 6 contains a subject index.

Justin Bryan and Michael Parisi were responsible for the text and production of this report. This report was prepared under the direction of Michael Weber, Chief, Individual Research Section, Individual Statistics Branch.

Requirements for Filing

The filing requirements for Tax Year 2013 were based on gross income, marital status, age, and, to a lesser extent, dependency and blindness. Gross income included all income received in the form of money, goods, property, and services that was not expressly exempt from tax, including any income from sources outside the United States or from the sale of your main home (even if a taxpayer could have excluded part or all of it). Generally, a citizen or resident of the United States was required to file a tax return if gross income for the year was at least as much as the amount shown for the appropriate filing status in Figure 1. Figure 2 shows the filing requirements for taxpayers who could be claimed as a dependent by another person (such as a parent).

In addition to the general filing requirements, an individual was obligated to file a return for Tax Year 2013 if he or she:

- was liable for any of the following taxes:
 - Alternative minimum tax;
 - Additional tax on a qualified plan, including an individual retirement arrangement (IRA) or other

tax-favored account (unless only filing because taxpayer owed this tax, then taxpayer could have filed only Form 5329);

- Household employment taxes (unless only filing because taxpayer owed this tax, then taxpayer could have filed only Schedule H);
 - Social security or Medicare tax on unreported tip income;
 - Recapture of first-time homebuyer credit;
 - Uncollected social security, Medicare, or railroad retirement tax on reported tip income or group-term life insurance and additional taxes on health savings accounts;
 - Tax from the recapture of various credits, including investment credits, low-income housing credits or first-time homebuyer credit;
- received HSA, Archer MSA, or Medicare Advantage MSA distributions;

Figure 2. Filing Requirements for Children and Other Dependents

If someone (such as a parent) can claim the individual as a dependent, and any of the four conditions listed below applies, he or she must file a return.

In this chart unearned income includes taxable interest, ordinary dividends, and capital gain distributions. It also includes unemployment compensation, taxable social security benefits, pensions, annuities, and distributions of unearned income from a trust. Earned income includes wages, tips, professional fees, and taxable scholarship and fellowship grants. Gross income is the total of unearned and earned income.

1. Single dependents under 65 must file a return if:

- Earned income was more than \$6,100, or
- Unearned income was over \$1,000, or
- Gross income was more than the larger of (a) \$1,000 or (b) earned income (up to \$5,750) plus \$350.

2. Single dependents 65 or older or blind must file a return if:

- Earned income was more than \$7,600 (\$9,100 if 65 or older and blind), or
- Unearned income was more than \$2,500 (\$4,000 if 65 or older and blind), or
- Gross income was more than \$2,500 (\$4,000 if 65 or older and blind), or the total of earned income (up to \$5,750) plus \$1,850 (\$3,350 if 65 or older and blind), whichever is larger.

3. Married dependents under 65 must file a return if:

- Gross income was at least \$5 and spouse files a separate return and itemizes deductions.
- Earned income was more than \$6,100, or
- Unearned income was over \$1,000, or
- Gross income was more than the larger of \$1,000 or earned income (up to \$5,750) plus \$350.

4. Married dependents 65 or older or blind must file a return if:

- Earned income was more than \$7,300 (\$8,500 if 65 or older and blind), or
- Unearned income was more than \$2,200 (\$3,400 if 65 or older and blind), or
- Gross income was more than \$2,200 (\$3,400 if 65 or older and blind), or the total of earned income (up to \$5,750) plus \$1,550 (\$2,750 if 65 or older and blind), whichever is larger.
- Gross income was at least \$5 and spouse files a separate return and itemizes deductions.

3. had net earnings from self-employment of at least \$400; or
4. had wages of \$108.28 or more from a church or qualified church-controlled organization that was exempt from employer social security and Medicare taxes.

Data shown in this report include individuals who were not required to file tax returns, but did so for any of a number of reasons. For example, an individual might have filed a return to obtain a refund of tax withheld, or to claim the earned income credit.

Changes in Law, Inflationary Adjustments, or Administrative Procedures

Major changes in effect for Tax Year 2013 that influenced the Statistics of Income data are listed below. Section 4, Explanation of Terms, provides more detailed explanations and definitions of the terms used in this report.

Additional Medicare Tax

New for 2013 is a 0.9 percent additional Medicare Tax that was applied to Medicare wages, railroad retirement compensation, and self-employment income in excess of \$125,000 for married filing separately filers, \$250,000 for married filing jointly filers, and \$200,000 for single or head of household filers.

Adoption Credit

For Tax Year 2013, the maximum credit amount increased from \$12,650 to \$12,970. The credit began to phase out if a taxpayer had modified adjusted gross income in excess of \$194,580 and completely phased out for modified adjusted gross income of \$234,580 or more.

Alternative Minimum Tax

For Tax Year 2013, the maximum AMT exemption increased from \$78,750 to \$80,800 for a married couple filing a joint return, from \$50,600 to \$51,900 for single filers and heads of household, and from \$39,375 to \$40,400 for a married person filing separately. Also for 2013, the 26-percent tax rate applies to the first \$179,500 (\$89,750 if married filing separately). Previously, it applied to the first \$175,000 (\$87,500).

Archer Medical Savings Account (MSA) Deduction

For Tax Year 2013, the maximum deduction increased from \$2,047.50 (\$4,725.00 for a family) to \$2,080.00 (\$4,837.50 for a family).

Earned Income Credit

The maximum amount of the earned income credit increased, as did the amounts of earned income an individual could have and still claim the credit. The maximum credit for taxpayers with no qualifying children increased to \$487 in 2013 from \$475 in 2012. For these taxpayers, earned income and AGI had to be less than \$14,340 (\$19,680 if married filing jointly) to get any EIC. For taxpayers with one qualifying child, the maximum credit increased from \$3,169 to \$3,250 and, for taxpayers with two qualifying children, the maximum credit increased from \$5,236 to \$5,372. To be eligible for the credit, a taxpayer's earned income and AGI had to be less than \$37,870 (\$43,210 for married filing jointly) for one qualifying child, or less than \$43,038 (\$48,378 for married filing jointly) for two

qualifying children. The maximum credit for taxpayers with three or more qualifying children increased from \$5,891 to \$6,044. For these taxpayers, earned income and AGI had to be less than \$46,227 (\$51,567 if married filing jointly) to be eligible for the EIC. The maximum amount of investment income (interest, dividends, and capital gain income) a taxpayer could have and still claim the credit increased to \$3,300 for the year.

Education Credits

There were two education credits available: the Lifetime Learning credit; and the American Opportunity credit. The Lifetime Learning credits' AGI phaseout amounts were increased. The Lifetime Learning credits phased out for taxpayers with AGI between \$53,000 and \$63,000 (\$107,000 and \$127,000 for married filing jointly). The American Opportunity credit phased out for taxpayers with AGI between \$80,000 and \$90,000 (\$160,000 and \$180,000 if married filing jointly). The latter were the same as 2012.

Exemption Amount

For Tax Year 2013, the exemption amount increased \$100 to \$3,900 due to mandated indexing for inflation. The exemption amount was limited if the taxpayer's adjusted gross income was more than \$150,000 for married filing separately, \$250,000 for single, \$275,000 for head of household, and \$300,000 for married filing jointly. There was no such limitation in 2012.

Filing Status for Same-Sex Married Couples

If taxpayers had a same-sex spouse and were legally married in a State (or foreign country) that recognized same-sex marriage, the taxpayers generally had to use the married filing jointly or married filing separately filing status on their 2013 return, even if they lived in a State (or foreign country) that did not recognize same-sex marriage.

Foreign-Earned Income Exclusion

For 2013, the exclusion increased to \$97,600 from \$95,100 in 2012.

Foreign Housing Deduction

For 2013, the foreign housing deduction was limited to \$29,280 for most locations. In 2012, the deduction was limited to \$28,530.

Health Savings Account Deduction

A deduction for contributions to a health savings account was limited to \$3,250; \$6,450 for family coverage. This was an increase from \$3,100 (\$6,250 for family coverage) in 2012. These limits were \$1,000 higher if the taxpayer was age 55 or older (\$2,000 if both spouses were 55 or older).

Household Employment Tax

Taxpayers paying domestic employees more than \$1,800 annually, generally had to pay social security, Medicare and Federal unemployment (FUTA) taxes for these employees by filing Schedule H, Household Employment Taxes, with their income tax return. For 2013, the FUTA tax rate was 6.0 percent. Also for 2013, the rate for the employee portion of social security tax reverted back to 6.2 percent from 4.2 percent, while the employer portion remained at 6.2 percent. Beginning in 2013, taxpayers had to withhold a 0.9 percent Additional Medicare Tax from wages they paid to an employee in excess of \$200,000 in a calendar year. The Additional Medicare Tax was only imposed on the employee.

Individual Retirement Arrangement Deduction

For taxpayers covered by a retirement plan, the traditional IRA deduction phased out between \$95,000 and \$115,000 of modified AGI for married persons filing jointly and surviving spouses; and between \$59,000 and \$69,000 for single filers, heads of households, or married filing separately taxpayers living apart. This was up from \$92,000 and \$112,000 for married filing jointly or surviving spouses and \$58,000 and \$68,000 for single filers, heads of households, or married filing separately taxpayers living apart in 2012. If one spouse was an active participant in an employer plan but the other was not, the deduction for the IRA contribution of the spouse not covered by an employer plan phased out between modified AGI of \$178,000 and \$188,000, up from \$173,000 and \$183,000 in 2012. These were limited to the lesser of \$5,500 (\$5,000 in 2012), \$11,000 (\$10,000 in 2012) if married filing jointly, or the taxpayer's compensation for the year, were subject to an excise tax equal to 6 percent of the excess contribution. If any taxpayer was over age 50 these limits were \$1,000 higher per taxpayer.

Itemized Deductions

For 2013, a taxpayer could have had their itemized deductions limited if their adjusted gross income was more than \$150,000 for married filing separately filers, \$250,000 for single filers, \$275,000 for head of household filers, and \$300,000 for married filing jointly filers. Itemized deductions were not limited in 2012.

Medical and Dental Expenses Deduction

Beginning in 2013, a taxpayer could deduct only the part of medical and dental expenses that exceeded 10 percent of adjusted gross income (7.5 percent if either the taxpayer or the taxpayer's spouse was born before January 2, 1949, and thus age 65). Previously, this percentage was 7.5 percent for all taxpayers regardless of age.

Net Capital Gain and Qualified Dividends Tax Rate

The 15-percent maximum tax rate on net capital gain and qualified dividends increased to 20 percent for 2013 for certain high

taxable income taxpayers. To be subject to this higher rate, taxpayers' taxable income had to exceed \$225,000 for married filing separately filers, \$450,000 for married filing jointly filers, \$425,000 for head of household filers, and \$400,000 for single filers.

Net Investment Income Tax

New for 2013, taxpayers paid a net investment income tax of 3.8 percent on the smaller of (a) net investment income or (b) the excess of the taxpayer's modified adjusted gross income over \$125,000 for married filing separately filers, \$250,000 for married filing jointly filers, and \$200,000 for single or head of household filers.

Penalty Tax on Qualified Retirement Plans

Contributions to an IRA in excess of the legal limitation for the year, the lesser of \$5,500 (\$5,000 in 2012), \$11,000 (\$10,000 in 2012) if married filing jointly, or the taxpayer's compensation for the year, were subject to an excise tax equal to 6 percent of the excess contribution. If the taxpayer(s) were over age 50 these limits were \$1,000 higher per taxpayer.

Prior-Year Minimum Tax Credit

For 2013, the credit for prior-year minimum tax was no longer partly refundable.

Retirement Savings Contribution Credit

A taxpayer could take a credit for qualified retirement savings contributions if their adjusted gross income was less than or equal to \$29,500 if single, qualified widow(er) or married filing separately (\$44,250 if head of household, \$59,000 if married filing jointly). In 2012, AGI had to be less than \$28,750 (\$43,125 if head of household, \$57,500 if married filing jointly). For both years, the maximum credit was \$1,000 (\$2,000 for married filing jointly) and could be taken if AGI was less than or equal to \$17,750 (\$26,525 if head of household and \$35,500 for joint returns). These cutoffs for the maximum credit for 2012 were \$17,250 (\$25,875 and \$34,500, respectively).

Self-Employment Tax

Beginning in 2013, the self-employment tax rate reverted back to 15.3 percent from 13.3 percent. The Medicare portion of the self-employment tax remained at 2.9 percent, while the social security portion reverted back to 12.4 percent from 10.4 percent.

Social Security and Medicare Taxes

For 2013, the maximum wages subject to social security tax was \$113,700 up from \$110,100 for 2012. All wages were subject to Medicare tax. Beginning in 2013, the social security tax reverted back to 6.2 percent from 4.2 percent. The Medicare tax portion remained at 1.45 percent.

Standard Deduction

Due to normal inflationary adjustments, the standard deduction, which could be claimed by people who did not itemize deductions on Schedule A of Form 1040, was higher for 2013 than it was for 2012. The amount that could be claimed depended on filing status, whether the taxpayer was age 65 or older or blind, and whether the taxpayer could be claimed as a dependent by another person. For 2013, the standard deduction increased to \$12,200 for joint filers, up from \$11,900 for 2012. For single filers and married filing separate filers, the deduction amount increased to \$6,100, up from \$5,950. For head of household filers, the deduction was \$8,950, up from \$8,700.

Tax Rates

The highest tax rate for 2013 was 39.6 percent. In 2012, the highest tax rate was 35 percent. The new tax rate was for:

- Single returns with taxable income greater than \$400,000;
- Married filing jointly returns with taxable income greater than \$450,000;
- Married filing separately returns with taxable income greater than \$225,000; and
- Head of household returns with taxable income greater than \$425,000.

Section 2

Description of the Sample

This section describes the sample design and selection, the method of estimation, the sampling variability of the estimates, and the methodology of computing confidence intervals.

Domain of Study

The statistics in this report are estimates from a probability sample of unaudited Individual Income Tax Returns, Forms 1040, 1040A, and 1040EZ (including electronic returns) filed by U.S. citizens and residents during Calendar Year 2014.

All returns processed during 2014 were subjected to sampling except tentative and amended returns. Tentative returns were not subjected to sampling because the revised returns may have been sampled later, while amended returns were excluded because the original returns had already been subjected to sampling. A small percentage of returns were not identified as tentative or amended until after sampling. These returns, along with those that contained no income information or frivolous or fraudulent income information when recognized, were excluded from the estimates.

The estimates in this report are intended to represent all returns filed for Tax Year 2013. While most of the returns processed during Calendar Year 2014 were for Tax Year 2013, the remaining returns were mostly for prior years, and a few for noncalendar years ending during 2012 and 2013.

Sample Design and Selection

The sample design is a stratified probability sample in which the population of tax returns is classified into subpopulations, called strata, and a sample is randomly selected independently from each stratum. Strata are defined by:

1. Nontaxable (including no alternative minimum tax) with adjusted gross income or expanded income of \$200,000 or more.

2. High business receipts of \$50,000,000 or more.
3. Presence or absence of special forms or schedules (Form 2555; Form 1116; Form 1040, Schedule C; and Form 1040, Schedule F).
4. Indexed positive or negative income. Sixty variables are used to derive positive and negative incomes. These positive and negative income classes are deflated using the Chain-Type Price Index for the Gross Domestic Product to represent a base year of 1991. (See footnote 1 for details.)
5. Potential usefulness of the return for tax policy modeling. Thirty-two variables are used to determine how useful the return is for tax modeling purposes.

Table B shows the population and sample count for each stratum after collapsing some strata with the same sampling rates. (See references 1 and 2 for details.) The sampling rates range from 0.10 percent to 100 percent.

Tax data processed to the IRS Individual Master File at the Enterprise Computing Center at Martinsburg during Calendar Year 2014 were used to assign each taxpayer's record to the appropriate stratum, and to determine whether the record should be included in the sample. Records are selected for the sample either if they possess certain combinations of the four ending digits of the social security number, or if their ending five digits of an eleven-digit number generated by a mathematical transformation of the SSN is less than or equal to the stratum sampling rate times 100,000.

Data Capture and Cleaning

Data capture for the SOI sample begins with the designation of a sample of administrative records. While the sample was being selected, the process was continually monitored for sample selection and data collection errors. In addition, SOI selected a small subsample of returns to independently review, analyze, and process for a quality evaluation.

The administrative data and controlling information for each record designated for this sample was loaded onto an online database at the Cincinnati Submission Processing

Valerie Testa and Tracy Haines designed the sample and prepared the text and the tables in this section under the direction of Tammy Rib, Chief, Mathematical Statistics Section, Corporation Statistics Branch.

Center. Computer data for the selected administrative records were then used to identify inconsistencies, questionable values, and missing values, as well as any additional variables that an editor needed to extract for each record.

After the processing center completed its review, SOI further validated, tested, and balanced the data. Adjustments and imputations for selected fields based on prior-year data and other available information were used to make each record internally consistent. Finally, prior to publication, SOI reviewed all statistics and tables for accuracy and reasonableness in light of provisions of the tax law, taxpayer reporting variations and limitations, economic conditions, and comparability with other statistical series.

Some returns designated for the sample were not available for SOI processing because other areas of IRS needed the return at the same time. For Tax Year 2013, some 0.01 percent of the sample returns were unavailable.

Method of Estimation

SOI obtained the weights by dividing the population count of returns in a stratum by the number of sample returns for that stratum, then adjusted the weights to correct for misclassified returns. These weights were applied to the sample data to produce all of the estimates in this report.

Sampling Variability and Confidence Intervals

The sample used in this study is one of a large number of samples that could have been selected using the same sample design. The estimates calculated from these different samples would vary. The standard error (SE) of an estimate is a measure of the variation among the estimates from the possible samples and, thus, is a measure of the precision with which an estimate from a particular sample approximates the average of the estimates calculated from all possible samples.

The standard error may be expressed as a percentage of the value being estimated. This ratio is called the coefficient of variation (CV). Tables 1.4 CV, 2.1 CV, and 3.3 CV contain estimated CVs for the estimates included in Tables 1.4, 2.1, and 3.3 of this report.

The sample estimate and an estimate of its standard error permit the construction of interval estimates with prescribed confidence that the interval includes the population value. If all possible samples were selected under essentially the same conditions and an estimate and its estimated standard error were calculated from each sample, then:

1. About 68 percent of the intervals from one standard error below the estimate to one standard error above the estimate would include the population value. This is a 68-percent confidence interval.

2. About 95 percent of the intervals from two standard errors below the estimate to two standard errors above the estimate would include the population value. This is a 95-percent confidence interval.

For example, from Table 1.4, the estimate for State Income Tax Refunds, X, is \$27.849 billion, and its related coefficient of variation, CV(X), is 0.69 percent. The standard error of the estimate, SE(X), needed to construct the confidence interval estimate, is:

$$\begin{aligned} SE(X) &= X \cdot CV(X) \\ &= (\$27.849 \times 10^9) \cdot (0.0069) \\ &= \$0.192 \text{ billion} \end{aligned}$$

The p percent confidence interval is calculated using the formula:

$$X \pm z \cdot SE(X)$$

where z takes the value 1, 2, or 3 when p is 68, 95, or 99, respectively. Based on these data, the 68-percent confidence interval is from \$27.657 billion to \$28.041 billion, the 95-percent confidence interval is from \$27.465 billion to \$28.233 billion, and the 99-percent confidence interval is from \$27.273 billion to \$28.425 billion.

Table Presentation

Whenever a weighted frequency is less than 3, the estimate and its corresponding amount are combined or deleted in order to avoid disclosure of information for specific taxpayers. (The combined or deleted data, if any, are included in the corresponding column totals.) These combinations and deletions are indicated by a double asterisk (**). Estimates based on less than 10 sampled returns are considered to be unreliable. These estimates are noted by a single asterisk (*) to the left of the data unless all of the sampled returns are selected with certainty (at the 100-percent rate).

In the tables, a dash (-) in place of a frequency or an amount indicates that either no returns in the population had the characteristic or the characteristic was so rare that it did not appear on any of the sampled returns.

Footnote

- [1] Indexing of positive and negative income is done by dividing each by the ratio of the Chain-Type Price Index for the Gross Domestic Product for the fourth quarter of 2012 to the fourth quarter of the base year of 1991. The indices were calculated using the Gross Domestic Product (GDP) Chain-Type Price Index [4].

[1] This population includes an estimated 408,186 returns that were excluded from other tables in this report because they contained no income information or frivolous or fraudulent information when recognized or represented amended or tentative returns identified after sampling. The increase in this number for the current tax year was caused by additional processing for returns impacted by identity theft.

[2] A processing error caused 3,124 returns to be excluded from the sample prior to sample selection.

[3] Each population member is assigned a degree of interest based on how useful it is for tax modeling purposes. Degree of interest ranges from one (1) to four (4), with a one being assigned to returns that are the least interesting, and a four being assigned to those that are the most interesting. 'All' refers to income classes for which returns with all four degrees of interest are assigned.

[4] Positive and Negative income classes are divided by a Chain-Type Price Index for the Gross Domestic Product of 1.5156 to represent a base year of 1991.

Section 4

Explanation of Terms

The Explanation of Terms section is designed to clarify the statistical content of this report and should not be construed as an interpretation of the Internal Revenue Code, related regulations, procedures, or policies.

The explanation of terms relates to column or row titles used in one or more tables in this report. It provides the background or limitations necessary to interpret the related statistical tables. For each title, the line number of the tax form on which it is reported appears after the title. Definitions marked with the symbol Δ have been revised for 2013 to reflect changes in the law.

Additional Child Tax Credit

(Line 65, Form 1040)

See “Child Tax Credit.”

Additional Medicare Tax Δ

(Line 60a, and included in line 40, Form 1040)

New for 2013 is a 0.9 percent Additional Medicare Tax that was applied to Medicare wages, railroad retirement (RRTA) compensation, and self-employment income that were more than \$200,000 for single, head of household, or qualifying widow(er) (\$250,000 for married filing jointly, or \$125,000 for married filing separately). Medicare wages and self-employment were combined to determine if a taxpayer exceeded these thresholds; however, a self-employment loss was not considered for purposes of this tax. RRTA compensation was separately compared to this threshold. A taxpayer’s employer was responsible for withholding the 0.9 percent Additional Medicare Tax on Medicare wages or RRTA compensation paid in excess of \$200,000 regardless of a taxpayer’s filing status. If a taxpayer was married filing jointly and either the taxpayer or spouse had wages or RRTA compensation of more than \$200,000, the taxpayer may have been able to get a refund of the tax withheld. The Additional Medicare Tax was calculated on Form 8959 and added to Form 1040, line 62, as part of income tax withheld.

Additional Standard Deduction

(Line 39a, and included in line 40, Form 1040)

See “Standard Deduction.”

Additional Taxes

(Line 44b, Form 1040)

Taxes calculated on Form 4972, *Tax on Lump-Sum Distributions*, were reported here.

Adjusted Gross Income Less Deficit

(Line 37, Form 1040)

Adjusted gross income (AGI) is defined as total income (Line 22, Form 1040) minus statutory adjustments (lines 23 through 36, Form 1040). Total income included:

 - Limited exclusion of qualified foreign earned income;
 - Exclusion of part or all of the gain from sale of principal residence up to \$250,000 (\$500,000 on joint returns); and
- The following statutory adjustments (lines 23 through 36, Form 1040) were subtracted from total income to arrive at adjusted gross income (line 37, Form 1040):
- Educator expenses;
 - Certain business expenses of reservists, performing artists, and fee-basis government officials;
 - Health savings account deduction;
 - Moving expenses;
 - Deductible part of self-employment tax;

 - Contributions to section 501(c)(18)(D) pension plans;
 - Contributions by certain chaplains to section 403(b) plans;

- Attorney fees and court costs paid for actions involving certain unlawful discrimination claims, but only to the extent of gross income from such actions; and
- Attorney fees and court costs paid in connection with an award from the IRS for information provided that helped the IRS detect tax law violations but only to the amount of the award includable in gross income.

A deficit occurred if the allowable exclusions and deductions exceeded gross income, i.e., the amount on line 36 was greater than the amount on line 22 or if line 22 was negative due to negative business or other income.

Adjusted Gross Income or Loss

See “Adjusted Gross Income Less Deficit.”

Adjustments

See “Statutory Adjustments.”

Adoption Credit Δ

(Line 53c, Form 1040)

This credit was available to taxpayers who paid qualified adoption expenses in 2012 for an adoption that was not final at the end of 2012, or for qualified expenses paid in 2013 for an adoption that was final in or before 2013. The credit could have been as much as \$12,970 for each child. The credit began to phase out if a taxpayer had a modified adjusted gross income in excess of \$194,580, and was completely phased out for a modified adjusted gross income of \$234,580 or more. The adoption credit stopped being refundable at the end of 2011.

Alimony Paid

(Line 31a, Form 1040)

Payments made as alimony or separate maintenance counted as a deduction (an adjustment to total income) for the person paying them.

Alimony Received

(Line 11, Form 1040)

Payments received as alimony or separate maintenance were income to the person receiving them.

All Other Taxes Δ

(Lines 56, 57, 58, 59a, 59b, 60a, 60c, Form 1040)

In this report, this amount includes the sum of the self-employment tax; social security and Medicare taxes on tip income and wages; penalty tax on qualified retirement plans; household employment taxes; repayment of the first-time homebuyer credit; Additional Medicare Tax; additional taxes on health savings accounts; additional tax on Archer MSA distributions; additional tax on Medicare Advantage MSA distributions; tax from the recapture of the investment credit, the low-income

housing credit, the Indian employment credit, the new markets credit, credit for employer-provided child care facilities, alternative motor vehicle credit, the alternative fuel vehicle refueling credit, and the qualified plug-in electric drive motor vehicle credit; recapture of Federal mortgage subsidy; COBRA premium assistance; section 72 penalty taxes; other unspecified taxes, which included uncollected FICA (or social security) tax on tips; excess golden parachute payments; excise tax on stock compensation from an expatriated corporation; interest on the tax due from the sale of residential lots and timeshares; interest on the deferred tax on gain from certain installment sales; additional tax on recapture of a charitable deduction relating to a fractional interest in tangible personal property; look-back interest; repayment of ineligible advance payments of the health coverage tax credit; an additional tax on income or compensation from a nonqualified deferred compensation plan; any interest relating to distributions from stock of a section 1291 fund, and tax from recapture of education credits. In this report, the “other taxes” portion differs from Form 1040, which included the taxes listed above plus tax from Form 4970, *Tax on Accumulation Distribution of Trusts*, and tax from Form 8960, *Net Investment Tax*. These are instead included in “total income tax.” (See also “Taxable and Nontaxable Returns” and “Total Income Tax.”)

Alternative Fuel Vehicle Refueling Property Credit

(Line 53c, Form 1040)

Taxpayers could have claimed this credit for any nondepreciable alternative fuel vehicle refueling property placed in service during the tax year. Qualified alternative fuel vehicle refueling property is any property used to store or dispense an alternative fuel at the point where the fuel is delivered into a fuel tank of a motor vehicle propelled by the fuel. This credit was calculated on Form 8911.

Alternative Minimum Tax Δ

(Line 45, Form 1040)

The Revenue Act of 1978 established the alternative minimum tax (AMT) to ensure that a minimum amount of income tax was paid by taxpayers who might otherwise be able to legally reduce, or totally eliminate, their tax burdens. The AMT was levied on income, including benefits received in the form of deductions and exclusions, which reduced an individual's regular effective tax rate. These benefits, known as “alternative minimum tax preferences and adjustments,” resulted from the treatment that the tax law gave to particular income and expense items.

Alternative minimum taxable income (AMTI)(line 28, Form 6251) was defined as taxable income for ordinary income tax purposes adjusted for net operating losses from other tax years, plus adjustments and preferences. AMTI was then reduced by an exemption amount determined by filing status and

AMTI. If the return was filed jointly by a married couple or a surviving spouse, the maximum amount of the exemption was \$80,800. The maximum amount for a single or head of household taxpayer was \$51,900, and for a married couple filing separately, \$40,400. The AMT exclusion was phased out if AMTI exceeded certain levels. For single taxpayers, the phase-out began at \$115,400 and ended at \$323,000. For joint returns, the range was \$153,900 to \$477,100. For married couples filing separately, the range was \$76,950 to \$238,550.

If there was an amount remaining after subtracting the exemption, the first \$179,500 (the first \$89,750 if married filing separately) was taxed at a 26-percent rate; any excess was taxed at a 28-percent rate, except capital gains, which were taxed at the same rates under the AMT as under the regular income tax. This amount was then reduced by the recalculated AMT foreign tax credit and regular income tax before credits (line 44, Form 1040, minus the regular foreign tax credit, line 47, Form 1040) to arrive at the alternative minimum tax.

Personal credits (such as the child tax credit, child care credit, etc.) and certain eligible small business credits could be taken against the AMT.

Alternative Motor Vehicle Credit

(Included in line 53c, Form 1040)

Taxpayers could have used Form 8910 to claim a credit for an alternative motor vehicle put into service during the tax year. An alternative motor vehicle is a new qualified fuel-cell vehicle with at least four wheels.

American Opportunity Credit

(Line 66, Form 1040)

For these statistics, the American opportunity credit was divided into three parts: the amount used to offset income tax before credits; the amount used to offset all other taxes; and the refundable portion. (See also "Education Credits.")

Archer Medical Savings Account (MSA) Deduction Δ

(Included in line 36, Form 1040)

Certain taxpayers, who were covered only by a high-deductible health plan, were able to participate in the Archer medical savings account program. The taxpayer was allowed to take a deduction of up to \$2,080.00 (\$4,837.50 for a family) a year for contributions to a medical savings account. The Archer medical savings accounts were used to pay for medical expenses not reimbursable by medical insurance. Form 8853, *Archer MSAs and Long-Term Care Insurance Contracts*, was used for the medical savings accounts.

Basic Standard Deduction

(Included in line 40, Form 1040)

See "Standard Deduction."

Business or Profession Net Income or Loss Δ (Line 12, Form 1040)

This source of income or loss was reported by individuals who were sole proprietors of a nonfarm business, including self-employed members of a profession.

If two or more sole proprietorships were operated by the same taxpayer, the single amount of net income or loss included in the adjusted gross income represented the combined net income and loss from all sole proprietorships. The proprietor was required to exclude investment income from business profits and include it, instead, with the various types of investment income for which separate provisions were made on the individual income tax return.

Total expenses (line 28, Schedule C) were deducted from gross income (line 7, Schedule C) to arrive at a tentative profit or loss. Expenses for business use of the taxpayer's home (line 30, Schedule C) were then deducted to arrive at net income or loss. New for 2013, the IRS provided a simplified method to determine a taxpayer's expenses for business use of a home. Under the new method, taxpayer's were able to multiply the area (measured in square feet) used by \$5. Proprietor compensation was included in computing net income and not allowed as a business deduction. The deduction of net operating losses from previous years was not considered a business expense, but was offset against "Other Income" (line 21, Form 1040).

Business or Profession Net Income Less Loss

See "Business or Profession Net Income or Loss."

Cancellation of Debt

(Included in line 21, Form 1040)

Taxpayers had to report any nonbusiness debt that was cancelled or forgiven as income on Form 1040, line 21. Taxpayers also had to include any forgiven interest on the forgiven debt if the interest would not have been deductible. If the interest would have been deductible, taxpayers did not have to include it as income. Also, a taxpayer did not have to report forgiven debt as income if the forgiven amount was intended as a gift.

Capital Assets

See "Sales of Capital Assets, Net Gain or Loss."

Capital Construction Fund Reduction

(Included in line 43, Form 1040)

The Capital Construction Fund (CCF) is a special investment program administered by the National Marine Fisheries Service and the Internal Revenue Service. This program allows fishermen to defer paying income tax on certain income they invest in a CCF account and later use to acquire, build, or rebuild fishing vessels. This amount is subtracted from tax table income to calculate taxable income.

Capital Gain Distributions Reported on Form 1040 Δ

(Included in line 13, Form 1040)

Taxpayers who had capital gains strictly from capital gain distributions could enter the amount directly on line 13, Form 1040. These were treated as long-term capital gains and, therefore, were eligible for the new higher 20 percent capital gains tax rate if the taxpayer's taxable income exceeded certain levels. (See also "Sales of Capital Assets, Net Gain or Loss.")

Capital Gain Distributions Reported on Schedule D

(Line 13, Schedule D)

See "Sales of Capital Assets, Net Gain or Loss."

Capital Gains and Losses

See "Sales of Capital Assets, Net Gain or Loss."

Cash Contributions

(Line 16, Schedule A)

See "Contributions Deduction."

Casualty or Theft Loss Deduction, Nonbusiness

(Line 20, Schedule A)

Nonbusiness casualty and theft losses were deductible, as an itemized deduction, from adjusted gross income to the extent that the nonreimbursable net loss for each such casualty or theft exceeded \$100, and the combined amount for all net losses during the year exceeded 10 percent of adjusted gross income (claimed on Form 4684). (See also "Total Itemized Deductions.")

Casualty or Theft Loss of Income-Producing Property

(Included in line 28, Schedule A)

These were calculated using Form 4684, *Casualty and Thefts*, or Form 4797, *Sales of Business Property*, and then brought to Schedule A. (See "Miscellaneous Itemized Deductions.")

Certain Business Expenses of Reservists, Performing Artists, and Fee-Basis Government Officials

(Line 24, Form 1040)

Qualified business expenses were deductible for reservists, performing artists, and fee-basis State or local government officials, whether or not the taxpayer itemized deductions (claimed on Form 2106 or Form 2106-EZ).

Child Care Credit

(Line 48, Form 1040)

This credit could be claimed by taxpayers who, while employed or looking for work, incurred expenses for the care of dependent children under age 13, or disabled dependents of any age (claimed on Form 2441). Qualified expenses included those for services performed within the home by nondependent babysitters, maids, or cooks. Expenditures to care for children under the age of 13 or any other qualified individuals for out-of-home, noninstitutional care qualified for the child care credit. If the taxpayer omitted or used an invalid Social Security number or employer identification number (EIN) for the child care provider, the IRS used mathematical error procedures to change the child care credit.

The maximum amount of care-related expenses on which the credit could be based with one qualifying child or dependent, was the smaller of earned income or \$3,000; with more than one dependent, the credit was based on the smaller of earned income or \$6,000. For returns of married couples filing jointly, earned income refers to the earnings of the spouse with the lesser earned income. Exceptions were allowed if the spouse was disabled or a full-time student.

The credit was equal to 35 percent of eligible expenses for taxpayers with an adjusted gross income of \$15,000 or less. The credit was reduced by one percentage point for each \$2,000, or fraction thereof of adjusted gross income in excess of \$15,000, up to \$43,000. The credit remained at 20 percent of expenses for individuals with an adjusted gross income over \$43,000.

The amount of the credit which could be claimed was limited to income tax before credits, and any excess was not refundable.

Child Tax Credit

(Line 51, Form 1040)

A credit was allowed for each qualifying child under age 17. To be a qualifying child, the person had to be a son, daughter, stepchild, adopted child, qualifying foster child, brother, sister, stepbrother, stepsister, or a descendant of any of them (for example, grandchild, nephew, niece), for whom the taxpayer claimed a dependent exemption. The taxpayer could claim up to \$1,000 for each child meeting the AGI phase-out guidelines. The credit was phased out by \$50 for each \$1,000, or fraction thereof, that AGI exceeded: \$110,000 for taxpayers filing jointly; \$55,000 for married filing separately; and \$75,000 for single filers, heads of households, or widow(ers).

An additional child tax credit was refundable if the taxpayer met both the general requirements and some additional requirements (claimed on Schedule 8812). The additional child tax credit was not included in credits but as a payment instead (line 65, Form 1040). The credit limit based on earned income

was 15 percent of the taxpayer's earned income that exceeded \$3,000. Members of the U.S. Armed Forces, who served in a combat zone, had their nontaxable combat pay count as earned income in figuring this credit. For the statistics, this amount was broken down into the additional child tax credit to offset other taxes and the refundable amount.

Contributions Deduction

(Lines 16-19, Schedule A)

Taxpayers could deduct contributions to certain organizations that were religious, charitable, educational, scientific, or literary in purpose. Contributions could be in cash, property, or out-of-pocket expenses that a taxpayer paid in doing volunteer work for a qualified organization. Contributions were allowed as an itemized deduction on Schedule A. Cash contributions were generally limited to one-half of the taxpayer's AGI, while contributions of capital gain property were generally limited to 30 percent (20 percent in certain cases) of the taxpayer's AGI. Contributions which could not be deducted due to the AGI limitation could be carried over to future years (and brought over from previous years). For all charitable contributions of \$250 or more, a written acknowledgment from the qualified recipient organization was required. If other than cash contributions (i.e., clothing, cars, stock, etc.) was \$500 or more, Form 8283 had to be filed in order to itemize these.

Taxpayers were able to make a tax-free distribution from an Individual Retirement Account to certain charitable organizations if they were at least 70 ½ years old. However, the taxpayer could not take a charitable deduction on Schedule A for the same contribution.

Contributions Carryover from Prior Year

(Line 18, Schedule A)

See "Contributions Deduction."

Credit for Federal Tax on Gasoline and Special Fuels

(Line 70, Form 1040)

This refundable credit (claimed on Form 4136) was allowed for Federal excise taxes paid on gasoline and special fuels, such as gasohol and diesel fuel, provided the fuel was used for certain purposes (such as farm or nonhighway use in a trade or business), bought at a price that included the tax, and a refund of the tax was not requested or received. The credit could reduce unpaid total tax liability or be refunded.

Credit for the Elderly or Disabled

(Line 53c, Form 1040)

A credit (claimed on Schedule R) for the elderly or permanently and totally disabled was available to taxpayers age 65 or older (within certain income limitations), and to those taxpayers under age 65 who had retired with a permanent and total disability and received taxable income from a public or private

employer because of that disability. The income to which the credit could be applied was reduced by nontaxable amounts of social security and railroad retirement benefits, veterans' pensions, and any other pension, annuity, or disability benefits excluded from income under any other provisions of the law.

An individual was considered permanently and totally disabled when he or she could not engage in any substantial gainful activity because of a physical or mental condition which had lasted, or was expected to last at least 12 months, or was determined to be terminal.

The maximum credit available (\$1,125) was limited to total income tax with any excess not refundable and was reduced if the taxpayer's income exceeded certain levels. Generally, if a taxpayer's income was high enough to require reporting social security benefits as taxable income, the taxpayer could not take the credit.

Credit from Regulated Investment Companies

(Line 71a, Form 1040)

Taxpayers were required to include in total income any amounts which were allocated to them as undistributed long-term capital gains of regulated investment companies. If investment companies paid tax on the capital gain, taxpayers were entitled to claim a refundable credit (claimed on Form 2439) for their proportionate share of the tax paid. For these statistics, the credit from regulated investment companies was divided into three parts: the amount used to offset income tax before credits; the amount used to offset all other taxes; and the refundable portion.

Credit to 2014 Estimated Tax

(Line 75, Form 1040)

This amount was the part of the overpayment of 2013 tax that taxpayers specifically requested to be credited to their estimated tax for 2014. (See also "Overpayment" and "Estimated Tax Payments.")

Deductible Points

(Line 12, Schedule A)

See "Interest Paid Deduction."

Deductible Part of Self-Employment Tax Δ

(Line 27, Form 1040)

If a taxpayer had income from self-employment and owed self-employment tax, part of that tax was deductible for income tax purposes. The amount was subtracted as an adjustment to total income in the calculation of AGI. In 2011, the social security tax was reduced from 12.4 percent to 10.4 percent, and the calculation of this part of the self-employment adjustment increased from 50.0 percent to 59.6 percent. Starting in 2013, the social security tax increased back to 12.4 percent and the

self-employment adjustment reverted back to 50.0 percent. (See also “Self-Employment Tax.”)

Dividends Δ

(Lines 9a and 9b, Form 1040)

Ordinary dividend income consisted of distributions of money, stock, or other property received by taxpayers from domestic and foreign corporations, either directly or passed through estates, trusts, partnerships, or regulated investment companies. Ordinary dividends also included distributions from money market mutual funds. If ordinary dividends exceeded \$1,500, or the taxpayer received as a nominee ordinary dividends that actually belonged to someone else, the taxpayer had to fill out Schedule B to supply the details.

Ordinary dividends did not include nontaxable distributions of stock or stock rights, returns of capital, capital gains, or liquidation distributions. Taxpayers were also instructed to exclude amounts paid on deposits or withdrawable accounts in banks, mutual savings banks, cooperative banks, savings and loan associations, and credit unions, which were treated as interest income.

Qualified dividends are the ordinary dividends received in tax years beginning after 2002 that met certain conditions. These included: the dividend must have been paid by a U.S. corporation or a “qualified” foreign corporation; the stock ownership must have met certain holding period requirements; the dividends were not from certain institutions, such as mutual savings banks, cooperative banks, credit unions, tax-exempt organizations, or farmer cooperatives; and the dividends were not for any share of stock that was part of an employee stock ownership plan (ESOP). The maximum tax rate for qualified dividends increased 5 percent to 20 percent in 2013. Starting in 2008, the 5-percent tax rate for qualified dividends (generally taxpayers whose other income was taxed at the 10-percent or 15-percent rate) was reduced to zero. Also beginning in 2013, qualified dividends may have also been subject to the Net Investment Income Tax of 3.8 percent.

Domestic Production Activities Deduction

(Line 35, Form 1040)

A taxpayer could have deducted the lesser of 9 percent of qualified production activities or 50 percent of wages paid with some limitations (claimed on Form 8903). Activities included construction performed in the United States; engineering or architectural services performed in the United States; and any lease, rental license, sale, or exchange. Other deductible items included tangible personal property, qualified films and electricity, natural gas, or potable water that the taxpayer produced in the United States. However, if the business activity was oil-related, this deduction was limited to 6 percent.

Earned Income Credit Δ

(Line 64a, Form 1040)

The earned income credit (EIC) for 2013 was a maximum of \$487 for taxpayers with no qualifying children, \$3,250 for one qualifying child, \$5,372 for two qualifying children, and \$6,044 for taxpayers with three or more qualifying children. To be eligible for the credit with children, the taxpayers, other than married taxpayers filing jointly, must have had a qualifying child living with them for more than half the year, and have had earned income and adjusted gross income each less than \$37,870 (\$43,038 if two qualifying children and \$46,227 if three or more qualifying children). For married filing jointly, earned income and adjusted gross income had to be less than \$43,210 for one child, \$48,378 for two children and \$51,567 for three children or more. To be eligible for the credit without children, the taxpayer must have had earned income and adjusted gross income less than \$14,340 (\$19,680 for married filing jointly) and the taxpayer (or their spouse) must have been at least 25 years of age and less than 65 years old. The credit was generally based on earned income, consisting of wages, salaries, and other employee compensation, plus net earnings from self-employment. Members of the U.S. Armed Forces who served in a combat zone had certain pay excluded from their income. These taxpayers could have elected to include this pay in earned income when figuring the EIC. Taxpayers with investment income totaling more than \$3,300 were not eligible to receive the EIC. Investment income included interest income (taxable and tax-exempt), dividend income, plus interest and dividend income from Form 8814, and capital gain net income. As in previous years, taxpayers could not take the credit if their filing status was married filing separately, or if they claimed the foreign-earned income exclusion.

For this report, the earned income credit is divided into three parts: the amount used to offset income tax before credits (limited to the amount needed to reduce income tax after credits to zero); the amount used to offset all other taxes (limited to the amount needed to reduce total tax liability to zero); and the refundable portion.

Education Credits Δ

(Lines 49 and 66, Form 1040)

There were two credits available, the Lifetime Learning credit and the American Opportunity credit. A taxpayer was only able to claim one of the credits per student. The Lifetime

Learning credits were phased out for AGI between \$53,000 and \$63,000 (\$107,000 and \$127,000 for married filing jointly). The American Opportunity credit was phased out for AGI between \$80,000 and \$90,000 (\$160,000 and \$180,000 if married filing jointly). A taxpayer could not take any of the credits if they were claimed as a dependent on another return, married filing separately, or claimed a deduction for tuition and fees for the same student.

The Lifetime Learning credit could have been used for tuition and expenses for undergraduate, graduate, and professional degree courses. The credit could have been taken for an unlimited amount of time, as long as the taxpayer or dependents were enrolled in post-secondary education. The Lifetime Learning credit was a maximum of 20 percent of the first \$10,000 of eligible expenses, or \$2,000 per return.

The American Opportunity credit could have been used for tuition and expenses for undergraduate or other recognized education credential. The credit could only have been used for the first 4 years of post-secondary education, as long as the taxpayer or dependents were enrolled at least half time. The maximum credit per student was \$2,500 (100 percent of the first \$2,000 and 25 percent of the next \$2,000 of qualified education expenses). The credit was available for the first 4 years of postsecondary education and 40 percent of the credit (up to \$1,000) was refundable. (See also "American Opportunity Credit.")

Education IRA (Coverdell Education Savings Accounts)

Taxpayers could have made nondeductible contributions up to \$2,000 annually to an educational IRA for a child under age 18. The earnings and withdrawals were tax free to the extent that withdrawals did not exceed the beneficiary's qualified higher education expenses for the year. The educational IRA contribution was phased out for modified AGI between \$95,000 and \$110,000 (between \$190,000 and \$220,000 for taxpayers married filing jointly). (See also "Individual Retirement Arrangement Deductible Payments.")

Educator Expenses Deduction

(Line 23, Form 1040)

If a taxpayer was an eligible educator in kindergarten through grade 12 in 2013, a deduction of \$250 (\$500 for two educators filing jointly) qualified expenses may have been taken. This deduction could have been taken even if the taxpayer did not itemize deductions. Taxpayers may have been able to deduct expenses more than the \$250 limit on Schedule A, line 21.

Employee Business Expense

See "Unreimbursed Employee Business Expenses."

Estate and Trust Net Income or Loss

(Line 37, Schedule E, Part III)

This was the beneficiary's share of fiduciary income (with the exception of the items described below, which were reported separately) from any estate or trust. Income from estates or trusts included amounts required to be distributed, amounts credited to beneficiaries' accounts from current-year fiduciary income (whether or not actually distributed), and any other amounts which were properly paid, credited, or required to be distributed for that year.

Taxpayers excluded their share of dividends and gains or losses from sales of capital assets or other property, from estate or trust income. Such income (which usually makes up the largest portion of income from estates or trusts) was included on the tax return on the separate lines provided for these income types and was not separately identified for the statistics. A loss from an estate or trust was allocated to the beneficiary only upon settlement or termination of an estate or trust and was limited by the "passive loss" rules.

The columns labeled "net income" and "net loss" represent the sum of all income and losses reported from all estates or trusts, i.e., the net amount computed on a return-by-return basis.

Estate and Trust Net Income Less Loss

See "Estate or Trust Net Income or Loss."

Estimated Tax Payments

(Line 63, Form 1040)

This figure represents the total tax payments made for 2013 using Form 1040-ES, and any overpayment from the taxpayer's 2012 return that was applied to the 2013 estimated tax. Generally, individuals were required to make estimated tax payments if they expected to owe, after subtracting withholding and credits, at least \$1,000 in tax for 2013, and they expected withholding and credits to be less than the smaller of: (a) 90 percent of the tax shown on Form 1040 for 2013, or (b) 100 percent of the tax shown on Form 1040 for 2012 (110 percent of the tax shown on Form 1040 for 2012 for taxpayers with adjusted gross income greater than \$150,000 (\$75,000 for married filing separately)).

Excess Social Security Taxes Withheld Δ

(Line 69, Form 1040)

If a taxpayer earned more than \$113,700 in total wages from two or more employers in 2013, too much social security (FICA) or Railroad Retirement Tax Act (RRTA) tax may have been withheld from his or her wages. (There was no wage base limitation for Medicare tax; therefore, all covered wages were subject to Medicare tax.) Filers claimed credit for such overpayment on their income tax returns. Excess social

security, or RRTA taxes withheld could be taken as a credit toward payment of the taxpayer's income tax or be refunded. In the case of a joint return, the credit was computed separately for each taxpayer.

Exemptions Δ

(Lines 6 and 42, Form 1040)

In the computation of taxable income, a \$3,900 deduction was allowed for each exemption claimed. In general, an exemption was allowed for each taxpayer and dependent shown on a return. If an individual could be claimed as a dependent by another taxpayer also filed his or her own return, that individual could not claim his or her own exemption or any exemptions for dependents.

With few exceptions, an individual had to meet several requirements to qualify as a dependent for 2013:

- 1) The individual was related to the taxpayer (such as a son, daughter, or parent);
- 2) The individual was under age 19, or a full-time student under age 24, or any age and permanently and totally disabled;
- 3) The individual did not provide half of his or her support for 2013;
- 4) The individual lived with the taxpayer for more than half of 2013;
- 5) The individual met certain citizenship requirements, and
- 6) The individual did not file a joint return with his or her spouse.

New for 2013, if a taxpayer had an AGI above certain levels, then his or her personal exemption deduction may have been reduced or eliminated. For single taxpayers the phaseout began at \$250,000 and was completed at \$372,500; for married persons filing jointly and surviving spouses, the phaseout began at \$300,000 and was completed at \$422,500; for heads of households, the phaseout began at \$275,000 and was completed at \$397,500; and for married persons filing separately, the phaseout began at \$150,000 and was completed at \$211,250. These statistics classify exemptions as children at home, children away from home, parents, and other.

Farm Net Income or Loss

(Line 18, Form 1040)

This source of income or loss was reported by individuals who were sole proprietors of farms. When there were two or more farms operated by the same taxpayer, the single amount of profit or loss included in the adjusted gross income represented the combined profit and loss from all farming activities. Farm business total expenses (line 33, Schedule F) were

deducted from farm gross income (line 9, Schedule F) to arrive at farm net profit or loss.

Gains from certain sales of livestock and crops that qualified for capital gains treatment were excluded from farm net profit or loss and included in capital gains. Farm rental income was included in total rent net income or loss. (See also "Farm Rental Net Income or Loss.")

Farm Rental Net Income or Loss

(Line 40, Schedule E)

Taxpayers were required to report farm rental income and expenses separately from other farm profit or loss if they: a) received income based on crops or livestock produced by the tenant, and b) did not manage or operate the farm to any great extent. These income and expenses were reported on Form 4835 with net income less loss then reported on Schedule E. (See also "Total Rent and Royalty Income or Loss.")

Farm Rental Net Income Less Loss

See "Farm Rental Net Income or Loss."

Filing Status

See "Marital Filing Status."

First-Time Homebuyer Credit Repayment

(Line 59b, Form 1040)

Taxpayers claiming the first-time homebuyer credit for a home bought in 2008, generally had to begin repaying it on their 2010 return. In addition, taxpayers generally must repay any credit claimed for a home bought after 2008, if the taxpayer disposed of the home or it ceased to be their main home during the 36-month period, which began on the purchase date.

Foreign-Earned Income Exclusion Δ

(Included in line 21, Form 1040)

Qualified taxpayers could exclude from total income a certain amount of foreign-earned income and employer-provided foreign housing expenses if their home, for tax purposes, was in a foreign country (claimed on Forms 2555 or 2555-EZ). Taxpayers had to refigure their tax using the foreign-earned income worksheet. The refigured tax was based on nonexcluded income using the tax tables that would have applied had they not claimed the exclusion.

Qualifying individuals were limited to the lesser of a \$97,600 exclusion or their total foreign-earned income. Also, they could elect to exclude a portion of employer-provided foreign housing expenses. If the taxpayer elected to take both the foreign-earned income and foreign housing exclusions, the total amount of both exclusions was limited to the taxpayer's total foreign-earned income. The foreign-earned income exclusion was entered as a negative amount on this line by the taxpayer, but edited into a separate field during service center processing. The employer-provided foreign housing exclusion

was left as part of other income. (See also “Other Net Income or Net Loss.”)

Foreign Housing Deduction Δ

(Included in line 36, Form 1040)

Qualified taxpayers, who had foreign housing expenses that were not provided by their employer, were eligible to deduct these expenses from total income (claimed on Form 2555). This deduction was limited to \$29,280, with exceptions based on the location of the foreign housing. This deduction, together with the foreign-earned income exclusion, was limited to the total amount of foreign-earned income for 2013.

Foreign Tax Credit

(Line 47, Form 1040)

Individuals who paid income or excess profit taxes to a foreign country or U.S. possession could claim either this credit against Federal income tax liability, or take an itemized deduction for the amount of the foreign tax payment. Depending on the taxpayer's income and taxes, the foreign tax credit could be less than the amount of foreign tax paid. Qualifying foreign taxes paid in excess of the allowable amount for Tax Year 2013 could be carried back 1 year and then forward 10 years. If this credit was more than \$300 (\$600 for married filing a joint return), the taxpayer had to file Form 1116 to get this credit.

Forms 1040, 1040A, and 1040EZ

The individual income tax system utilizes three major forms to collect income and tax information: Forms 1040, 1040A, and 1040EZ. A variation of the basic forms is an electronically filed form. Returns of all types were included in the population of returns subjected to sampling and classified by the guidelines for filing a standard form (i.e., Forms 1040, 1040A, and 1040EZ) discussed below. For example, if a return was filed electronically that could have been a Form 1040EZ had it been filed on paper, it would have been considered a Form 1040EZ in the statistics. However, a paper return that could have been filed on a simpler form was classified by the form on which it was actually filed.

The forms represent different levels of complexity with regard to the information reported. The Form 1040EZ, for instance, could only be used if taxable income was less than \$100,000, nonwage income came from only a limited number of sources, and the taxpayer did not itemize deductions, have any dependents to claim, and had no adjustments to income. Form 1040A could only be used if taxable income was less than \$100,000, nonwage income came from only a limited number of sources, and the taxpayer did not itemize deductions. Form 1040 had to be used if taxable income was greater than \$100,000. In addition, the taxpayer had to file Form 1040 if he or she itemized deductions or had income (or losses) from a source not provided for on Form 1040A or 1040EZ, used certain tax provisions, or had certain tax credits not on Form

1040A or 1040EZ. (These forms can be found in Section 5, 2013 Forms.)

Form 8814

See “Parents’ Election To Report Child’s Interest and Dividends.”

Gambling Earnings

(Included in line 21, Form 1040)

Gambling earnings include proceeds from lotteries, raffles, etc., and are included in line 21, Form 1040. These gambling earnings were edited into a separate field during service center processing. Gambling losses were not allowed to offset winnings on line 21. Instead, gambling losses were an itemized deduction reported on Schedule A. (See also “Gambling Loss Deduction” and “Other Net Income or Net Loss.”)

Gambling Loss Deduction

(Included in line 28, Schedule A)

Gambling losses (to the extent of gambling winnings) were fully deductible for taxpayers who itemize deductions. (See also “Gambling Earnings,” “Total Itemized Deductions,” and “Miscellaneous Itemized Deductions.”)

General Business Credit

(Line 53a, Form 1040)

The general business credit consisted of the:

- investment credit;
- research credit;
- low-income housing credit;
- disabled access credit;
- renewable electricity production credit;
- Indian employment credit;
- orphan drug credit;
- new markets credit;
- small employer pension plan startup credit;
- employer-provided child care facilities and services credit;
- biodiesel fuels credit;
- low sulfur diesel fuel production credit;
- distilled spirits credit;
- nonconventional source fuel credit;

- energy efficient home credit;
- energy efficient appliance credit;
- alternative motor vehicle credit;
- alternative fuel vehicle refueling property credit;
- mine rescue team training credit;
- agricultural chemicals security credit;
- credit for employer differential wage payments;
- carbon dioxide sequestration credit;
- qualified plug-in electric drive motor vehicle credit;
- qualified plug-in electric vehicle credit;
- new hire retention credit, and
- credit from electing large partnerships.

Taxpayers claiming more than one of these credits were required to summarize them on Form 3800, *General Business Credit*. The general business credit was limited to 100 percent of the first \$25,000 (\$12,500 for a married couple filing separately) of tax liability and 25 percent of the excess over \$25,000. If the current-year general business credit exceeded the tax liability limitation, the excess amount could be carried back to the preceding tax year, then forward 20 years.

Starting in 2008, the general business credit was expanded to accommodate all general business credits allowed against the alternative minimum tax. These credits consisted of the:

- investment credit;
- work opportunity credit;
- alcohol and cellulosic biofuel fuels credit;
- low-income housing investment credit;
- renewable electricity, refined coal, and Indian coal production credit;
- credit for employer social security and Medicare taxes paid on certain employee tips;
- qualified railroad track maintenance credit, and
- credit for small employer health insurance premiums.

Starting in 2010, the Small Business Jobs Act of 2010 allowed general business credits for eligible small businesses to offset both the regular and alternative minimum tax (AMT). Such eligible small business credits determined in the first tax year in 2010 are carried back 5 years. For purposes of the statistics in this publication, an eligible small business is a sole proprietorship with average gross receipts (reduced by returns and

allowances) of less than \$50 million for the 3-tax-year period preceding the tax year of the credits.

General Sales Tax Deduction

See “Sales Tax Deduction.”

Health Coverage Credit (Formerly Health Insurance Credit)

(Line 71c, Form 1040)

A taxpayer who was an eligible trade adjustment assistance (TAA), alternate TAA, or Pension Benefit Guaranty Corporation pension recipient was able to take this credit (claimed on Form 8885). A taxpayer could not take the credit if he or she was covered under any employer-sponsored health plan. The credit was equal to 72.5 percent of the amount the taxpayer paid for qualified health insurance for 2013, minus any Archer medical savings account and health savings account (HSA) distributions used to pay the amount. For these statistics, the health coverage credit was divided into three parts: the amount used to offset income tax before credits; the amount used to offset all other taxes; and the refundable portion.

Health Savings Account Deduction Δ

(Line 25, Form 1040)

A deduction for contributions to a health savings account (HSA) was limited to \$3,250; \$6,450 for family coverage (claimed on Form 8889). These limits were \$1,000 higher if the taxpayer was age 55 or older. A taxpayer could not contribute to an HSA starting the first month that he or she was enrolled in Medicare. A taxpayer was able to exclude from income a qualified funding distribution made from an IRA to an HSA. This was a one-time distribution made directly by the trustee of the taxpayer's IRA to the HSA. In addition, an employer was able to make a rollover contribution to an employee's HSA from a qualified health flexible spending arrangement or a qualified health reimbursable arrangement.

Home Mortgage Interest Deduction

(Lines 10+11, Schedule A)

The total home mortgage interest deduction consists of interest paid to financial institutions on Schedule A, line 10, and interest paid to individuals on Schedule A, line 11. (See also “Interest Paid Deduction.”)

Home Mortgage Interest Paid to Financial Institutions

(Line 10, Schedule A)

See “Home Mortgage Interest Deduction.”

Home Mortgage Interest Paid to Individuals

(Line 11, Schedule A)

See “Home Mortgage Interest Deduction.”

Household Employment Tax Δ

(Line 59a, Form 1040)

Taxpayers paying domestic employees more than \$1,800 annually, generally had to pay social security, Medicare and Federal unemployment taxes for these employees by filing Schedule H, *Household Employment Taxes*, with their income tax return. For 2013, the FUTA tax rate was 6.0 percent. Also for 2013, the rate for the employee portion of social security tax increased to 6.2 percent, while the employer portion remained at 6.2 percent. Beginning in 2013, taxpayers had to withhold a 0.9 percent Additional Medicare Tax from wages they paid to an employee in excess of \$200,000 in a calendar year. The Additional Medicare Tax was only imposed on the employee.

Income Subject to Tax

See "Modified Taxable Income."

Income Tax After Credits

(Line 55 minus part or all of lines 64a, 66, 71a, and 71c, Form 1040)

To arrive at income tax after credits, taxpayers deducted total credits (line 54, Form 1040) from income tax before credits (line 46, Form 1040). For these statistics, tax was further reduced by the portion of the earned income credit, American opportunity credit, health coverage credit, and the regulated investment company credit, which did not result in a negative tax. The portion of the earned income credit, American opportunity credit, health coverage credit, and the regulated investment company credit were included in the total credits as "earned income credit used to offset income tax before credits," "American opportunity credit used to offset income tax before credits," "health coverage credit used to offset income tax before credits," and "regulated investment company credit used to offset income taxes before credits." Any tax remaining after subtraction of all credits, including the credits mentioned above, was tabulated as "income tax after credits."

Income Tax Before Credits

(Line 46, Form 1040)

This amount consisted of the tax liability on taxable income, computed by using the tax tables, tax rate schedules, Schedule D Tax worksheet, foreign-earned income worksheet, Schedule J, *Income Averaging for Farmers and Fishermen*, or Form 8615, plus Form(s) 8814 (line 44a), any additional taxes from Form 4972 (line 44b), 962 election (line 44c), and the alternative minimum tax (line 45). (See also "Tax Generated.")

Income Tax Withheld

(Line 62, Form 1040)

Income tax withheld included amounts deducted from salaries, wages, and tips, as reported on Form W-2; deducted from pensions, annuities, and certain gambling winnings as

reported on Forms 1099-R and W-2G; and withheld from distributions of profit-sharing, retirement plans, and individual retirement accounts, as reported on Form 1099-R.

In some cases, a backup withholding rate of 28 percent was required for interest, dividend, and royalty payments which, generally, were not subject to withholding.

Individual Retirement Arrangement (Deductible) Payments Δ

(Line 32, Form 1040)

An individual retirement arrangement (IRA) is a savings program that generally allows a taxpayer to set aside money for retirement. In addition to the traditional IRA, there were two other plans available: the education IRA and the Roth IRA. Information on these two IRAs can be found under their separate headings.

Taxpayers not covered by an employment retirement plan may have been able to deduct all contributions to a traditional IRA. For taxpayers covered by a retirement plan at work, the traditional IRA deduction phased out between \$95,000 and \$115,000 of modified AGI for married persons filing jointly and surviving spouses; between \$59,000 and \$69,000 for single filers, heads of households, or married filing separately taxpayers living apart; and between \$0 and \$10,000 for married filing separately taxpayers living together. If one spouse was an active participant in an employer plan, but the other was not, the deduction for the IRA contribution of the spouse not covered by an employer plan phased out between modified AGI of \$178,000 and \$188,000. Deductible contributions could be subtracted from the employee's total income in arriving at adjusted gross income.

Contributions to an IRA (whether or not it was deductible) were limited to the lesser of: (a) the individual's taxable compensation for the year, or (b) \$5,500 (\$6,500, if age 50 or older). Married couples filing a joint return could contribute up to \$5,500 (\$6,500, if age 50 or older) to each spouse's IRA, even if one spouse had minimal or no compensation. Therefore, the total combined IRA contributions could be up to \$11,000 (\$13,000, if age 50 or older) for a year.

Unless they were disabled, taxpayers could not start withdrawing funds from the traditional IRA account until they reached age 59½. After age 70½, taxpayers were required to begin withdrawals. Penalty taxes were assessed if the taxpayer failed to comply with these limitations. The additional tax on early withdrawals from a traditional IRA was eliminated if the distributions were used for qualified higher education expenses. This additional tax was also eliminated on distributions up to \$10,000 from traditional or Roth IRA's if the distributions were used to buy, build, or rebuild a qualified first home. A taxpayer was able to exclude from income, a qualified funding distribution made from an IRA to an HSA. Payments to an IRA for a particular taxable year had to be made no later

than the due date of the individual's return for that year. (See also "Roth IRA" and "Education IRA.")

Individual Retirement Arrangement Taxable Distributions

(Line 15b, Form 1040)

Any money or property received from a taxpayer's IRA account was considered a distribution and, generally, had to be included in the taxpayer's total income in the year received. Exempted from this rule were tax-free roll-over distributions from one retirement account to another, distributions where the payout represented previously taxed nondeductible IRA contributions, distributions from a Roth IRA, distributions made to the taxpayers HSA account, and distributions from an IRA made directly by the trustee to a qualified charitable organization if the taxpayer was at least 70½ when the distribution was made. If a taxpayer converted from a traditional IRA to a Roth IRA, the taxpayer was required to include in gross income the amount that would have been reported in income if a withdrawal from this IRA had been made. The taxpayer did not include in gross income any part of the conversion that was a nondeductible contribution in a traditional IRA.

Starting in 2010, the \$100,000 modified AGI limit on roll-overs and conversions from eligible retirement plans to Roth IRAs was eliminated. Also, married taxpayers filing separately were allowed to roll over or convert amounts to a Roth IRA.

Interest Paid Deduction

(Line 15, Schedule A, includes all lines 10-14)

The rules for deducting home mortgage interest for 2013 were: (1) if a taxpayer took out a mortgage before October 13, 1987, secured by the taxpayer's main or second home, all the interest was deductible, (2) if the taxpayer's mortgage was after October 13, 1987, and the funds were used to buy, build, or improve that home, all interest could be deducted if the total of all mortgages on the property was \$1 million or less (\$500,000 if married filing separately), and (3) taxpayers could deduct all of the interest on an additional \$100,000 (\$50,000 if married filing separately) of mortgages on their main or second home other than to buy, build, or improve that home.

Generally, investment interest (interest paid on money borrowed that is allocable to property held for investment) was fully deductible up to the amount of net investment income. Beginning in 1993, the net investment income that was to be compared to investment interest could not include any net capital gains that were taxed on the capital gains tax rates or qualified dividends. Interest relating to business, royalty, and rental income was deducted directly from these items and was not reflected in the interest paid statistics.

Taxpayers could deduct mortgage insurance premiums for mortgage insurance contracts issued after December 31, 2006. They also could include in interest deductible points, which were points not reported on Form 1098.

Limited Miscellaneous Deductions

(Lines 21-27, Schedule A)

Certain taxpayer expenses could be deducted on Schedule A, but were limited to the amount exceeding 2 percent of adjusted gross income. These included: unreimbursed employee business expenses (including qualifying educational expenses), tax preparation fees, expenses paid to produce or collect taxable income, and expenses paid to manage or protect property held for earning income (including safe deposit boxes).

Long-Term Loss Carryover

(Line 14, Schedule D)

Long-term capital losses from the prior-year Schedule D that are not included in taxable income are carried over to the current year. (See "Sales of Capital Assets, Net Gain or Loss.")

Marginal Tax Rates Δ

Marginal tax rate as cited in this publication is the highest statutory rate on taxable income. It includes ordinary tax rates and capital gains tax rates. This concept does not include the effects of AMT, Net Investment Income Tax, or tax credits. Also, for some taxpayers, the statutory marginal tax rate may differ from the effective marginal tax rate. For example, extra income received by certain taxpayers resulted in the phase-out of deductions, exemptions and credits (i.e., tuition and fees deduction, education credit, etc.). Therefore, an extra \$1 of income could have added more than \$1 of taxable income. While this taxpayer could face a statutory marginal tax rate of 39.6 percent, the effective marginal rate faced by the taxpayer would be somewhat higher. (See also "Tax Generated.")

Marital Filing Status Δ

(Lines 1-5, Form 1040)

The five marital filing status classifications were:

- (1) single person (not head of household or surviving spouses);
- (2) married person filing jointly;
- (3) married person filing separately;
- (4) head of household; and
- (5) surviving spouse.

Marital filing status was usually determined as of the last day of the tax year. The exception was if a spouse died during the tax year, the surviving spouse was considered married for the entire year. If a taxpayer was divorced during the tax year and did not remarry, the taxpayer was considered to be unmarried for the entire year. Surviving spouse status could only be used by those taxpayers, with a qualifying dependent, whose spouse died in 2011 or 2012. New for 2013, if a taxpayer had a same-sex spouse and had been legally married in a State (or foreign country) that recognized same-sex marriage, the taxpayer and his or her spouse generally had to use the married filing jointly or married filing separately filing status, even if the taxpayer and his or her spouse lived in a State (or foreign country) that did not recognize same-sex marriage.

Medical and Dental Expenses

(Line 1, Schedule A)

See “Medical and Dental Expenses Deduction.”

Medical and Dental Expenses Deduction Δ

(Lines 1-4, Schedule A)

Qualified medical expenses included nonreimbursed payments made for the diagnosis, treatment, or prevention of disease, or for medical or dental insurance. However, taxpayers who took the self-employed health insurance adjustment had to reduce their total premium deduction by the amount of the adjustment (see “Self-Employed Health Insurance”). In general, medical and dental expenses could be claimed as an itemized deduction to the extent that they exceeded 10.0 percent of adjusted gross income, up from 7.5 percent in 2012. However, also beginning in 2013, for taxpayers who were age 65 or over, the threshold remained at 7.5 percent of adjusted gross income. Amounts paid for medicine and drugs were deductible only if they were available by prescription only, or they were for insulin. Taxpayers could deduct costs for transportation to obtain medical care and also a maximum of \$50 per day for certain lodging expenses incurred while traveling to obtain medical care. Capture of data for these lines was limited to those taxpayers that had a value on line 4, medical and dental expenses deduction. (See also “Total Itemized Deductions.”)

Miscellaneous Deductions Other Than Gambling

(Included in line 28, Schedule A)

Other fully deductible expenses included such items as impairment-related work expenses for disabled persons, and amortizable bonds. (See also “Miscellaneous Itemized Deductions” and “Total Itemized Deductions.”)

Miscellaneous Deductions Subject to 2% AGI Limitation

(Lines 21-27, Schedule A)

See “Limited Miscellaneous Deductions” and “Miscellaneous Itemized Deductions.”

Miscellaneous Itemized Deductions

(Lines 21-28, Schedule A)

Miscellaneous itemized deductions were divided into two types. The first, such as employee business expenses, included those items that were limited to the amount exceeding 2 percent of adjusted gross income, while other deductions, such as gambling losses not in excess of gambling winnings, and casualty and theft losses of income-producing property were fully deductible. (See also “Gambling Loss Deduction,” “Limited Miscellaneous Deductions,” and “Miscellaneous Deductions Other Than Gambling.”)

Modified Taxable Income

“Modified taxable income” is the term used to describe “income subject to tax,” the actual base on which tax is computed for the statistics in Tables 3.4, 3.5, and 3.6. For most taxpayers filing current-year returns, modified taxable income is identical to “taxable income.” For those returns with a Form 8814, *Parents’ Election To Report Child’s Interest and Dividends*, attached, modified taxable income includes the sum of all children’s interest and dividend income taxed at a 10-percent rate, as well as the parent’s taxable income.

For prior-year returns included in the 2013 statistics, a modified taxable income was calculated by using the tax rate schedule for 2013 to impute a hypothetical taxable income amount necessary to yield the given amount of tax reported.

In most cases, a person who has no tax will have no modified taxable income. Since the tax rate schedule is used to generate the modified taxable income, it is possible for a person to have up to 4 dollars of taxable income but have no modified taxable income because the tax reported would be zero. The

exception is for certain taxpayers who only have income taxed at the long-term capital gains rates, and that income is less than the cutoff for the beginning of the 25-percent tax bracket. In this case, the taxpayer would have no tax and would have modified taxable income that was taxed at 0 percent.

Mortgage Interest Credit

(Line 53c, Form 1040)

Taxpayers could claim this credit only if they were issued a qualified Mortgage Credit Certificate (MCC) by a State or local governmental unit. This credit was calculated by using Form 8396, *Mortgage Interest Credit*.

Moving Expenses Adjustment

(Line 26, Form 1040)

Taxpayers deducted current-year qualified moving expenses in the calculation of adjusted gross income as a statutory adjustment. To qualify for this deduction, the new work place had to be at least 50 miles farther from the former residence than the former work place. Deductible expenses included those incurred to move household and personal goods, and travel including lodging en route to the new residence. Expenses no longer deductible included: meals while moving from the old residence to the new residence; travel expenses for pre-move house-hunting trips; expenses while occupying temporary quarters in the area of the new job; and qualified residence sale, purchase, and lease expenses. This adjustment was calculated using Form 3903, *Moving Expenses*.

Net Investment Income Tax Δ

(Lines 60b, Form 1040)

Beginning in 2013, taxpayers may have been subject to a Net Investment Income Tax (NIIT). The NIIT is 3.8 percent of the smaller of a taxpayer's net investment income or the excess of a taxpayer's modified adjusted gross income over \$200,000 if single or head of household (\$250,000 if married filing jointly or qualifying widow(er), or \$125,000 if married filing separately). For these statistics, the NIIT was excluded from "All Other Taxes," and instead included in "Total Income Tax." The NIIT was calculated on Form 8960, *Net Investment Income Tax—Individuals, Estates, and Trusts*.

Net Long-Term Gain or Loss from Sales of Capital Assets Δ

(Lines 8a-10, Schedule D)

These include gains or losses from sales of capital assets, such as stocks, bonds, mutual funds, etc., held more than 1 year. Starting in 2013, taxpayers could combine certain transactions on line 8a of Schedule D without completing Form 8949. Taxpayers must have received a Form 1099-B that shows basis was reported to the IRS and does not show a nondeductible wash sale loss in box 5, and the taxpayers did not need to make any adjustments to the basis or type of gain or loss reported on Form 1099-B or to their gain or loss. For all other transactions not summarized on line 8a, taxpayers had to report these on Form 8949, *Sales and Other Dispositions of Capital Assets*, into three categories: Transactions reported on Form 1099-B with basis reported to the IRS; transactions reported on Form 1099-B but basis not reported to the IRS; or transactions without a Form 1099-B. In addition to these three categories, taxpayers had to report the transactions net long-term sales price, cost or basis and adjustments to gain or loss on lines 8b through 10 of the Schedule D. See "Sales of Capital Assets, Net Gain or Loss," also "Net Long-Term Capital Gain or Loss."

Net Long-Term Sales Price

(Lines 8d-10d, Schedule D)

See "Sales of Capital Assets, Net Gain or Loss," also "Net Long-Term Capital Gain or Loss from Sales of Capital Assets."

Net Operating Loss

(Included in line 21, Form 1040)

Net operating loss was the excess loss of a business when taxable income for a prior year was less than zero. The loss could be applied to the AGI for the current year and carried forward up to 20 years. (See also “Other Net Income or Net Loss.”)

Net Short-Term Adjustment

(Lines 1g-3g, Schedule D)

- Short-term gain or loss from Forms 4684, 6781, and 8824

See “Sales of Capital Assets, Net Gain or Loss.”

Net Short-Term Gain or Loss from Partnership/S Corporation

(Line 5, Schedule D)

See “Sales of Capital Assets, Net Gain or Loss,” also “Net Short-Term Capital Gain or Loss.”

Net Short-Term Gain or Loss from Sales of Capital Assets Δ

(Lines 1a-3, Schedule D)

These include gains or losses from sales of capital assets, such as stock, bonds, mutual funds, etc., held less than 1 year. Starting in 2013, taxpayers could combine certain transactions on line 1a of Schedule D without completing Form 8949. A taxpayer must have received a Form 1099-B that shows basis was reported to the IRS and does not show a nondeductible

wash sale loss in box 5, and the taxpayer did not need to make any adjustments to the basis or type of gain or loss reported on Form 1099-B or to their gain or loss. For all other transactions not summarized on 1a, taxpayers had to report these on Form 8949, *Sales and Other Dispositions of Capital Assets*, into three categories: Transactions reported on Form 1099-B with basis reported to the IRS; transactions reported on Form 1099-B but basis not reported to the IRS; or transactions without a Form 1099-B. In addition to these three categories, taxpayers had to report the transactions’ net short-term sales price, cost or basis and adjustments to gain or loss on lines 1b through 3 of the Schedule D. See “Sales of Capital Assets, Net Gain or Loss,” also “Net Short-Term Capital Gain or Loss.”

Net Short-Term Sales Price

(Lines 1d-3d, Schedule D)

See “Sales of Capital Assets, Net Gain or Loss,” also “Net Short-Term Capital Gain or Loss from Sales of Capital Assets.”

Nondeductible Passive Losses

(calculated on Form 8582)

Nondeductible passive losses were calculated by subtracting deductible passive losses reported on Form 8582 (line 16) from total current-year passive losses (lines 1b+2a+3b) and were limited to zero.

Nontaxable Combat Pay Election

(Line 64b, Form 1040; line 4b, Schedule 8812)

For Tax Year 2013, members of the U.S. Armed Forces who served in a combat zone could have excluded certain pay from their income. The qualified taxpayer’s entitlement to the pay must have been fully accrued in a month during which they served in a combat zone or were hospitalized because of wounds, disease, or injury incurred while serving in the combat zone. However, this nontaxable pay was used to gain benefits for both the EIC and additional child tax credit purposes.

Nontaxable Returns

See “Taxable and Nontaxable Returns.”

Nonrefundable Education Credits

(Line 49, Form 1040)

See “Education Credits.”

One-Half of Self-Employment Tax

See “Deductible Part of Self-Employment Tax.”

Ordinary Dividends

(Line 9a, Form 1040)

See “Dividends.”

Other Adjustments

(Included in line 36, Form 1040)

See “Statutory Adjustments.”

Other Income Less Loss

See “Other Net Income or Net Loss.”

Other Net Income or Net Loss

(Line 21, Form 1040)

Included in other income were items such as taxable distributions from a Coverdell education savings account, distributions from qualified tuition programs (though some may be excluded if not more than the taxpayer’s qualified higher education expenses), taxable distributions from health savings accounts or Archer MSAs, prizes, awards, jury duty fees, Alaska permanent fund dividends, alternative trade adjustment assistance payments, reimbursements for medical expenses, real estate taxes, or home mortgage interest taken as a deduction in a previous year, children’s interest and nonqualified dividends from Form 8814, and any other income subject to tax for which no specific line was provided on the return form. Any foreign-earned income exclusions or “net operating loss” in an earlier year (that was carried forward and deducted for 2013) were entered as a negative amount on this line by the taxpayer but edited into separate fields during service center processing. However, any employer-provided foreign housing exclusions were included in other income (as a negative amount). Gambling earnings and cancellation of debt, which were entered on this line by the taxpayer, were also edited into a separate field during service center processing.

Other Limited Miscellaneous Deductions

(Line 23, Schedule A)

See “Limited Miscellaneous Deductions.”

Other Payments

(Line 71, Form 1040)

“Other Payments” is a residual category included in the total of “Tax Payments,” but not shown separately. (See also “Tax Payments,” “Credit from Regulated Investment Companies,” and “Health Coverage Credit” (formally known as “Health Insurance Credit”).)

Other Tax Credits

(Included in lines 53c and 54, Form 1040)

“Other tax credits” is a residual category in the statistics. It includes other miscellaneous credits that did not belong in any other category and were used to offset income tax before credits.

Other Taxes

(Line 60, Form 1040)

See “All Other Taxes,” “Additional Medicare Taxes,” and “Net Investment Income Tax.”

Other Taxes Deduction

(Line 8, Schedule A)

Other taxes consisted of any deductible tax other than State and local income taxes, real estate taxes and personal property taxes. One example is taxes paid to a foreign country or U.S. possession. (See also “Taxes Paid Deduction.”)

Other Than Cash Contributions

(Line 17, Schedule A)

See “Contributions Deduction.”

Overpayment

(Line 73, Form 1040)

An overpayment of tax occurred when “total tax payments” exceeded “total tax.” Overpayments included the amount of any “refundable portion,” of the refundable credits. An overpayment could be refunded or credited toward the estimated tax for the following year. (See also “Credit to 2014 Estimated Tax” and “Refund.”)

Overpayment Refunded

(Line 74a, Form 1040)

See “Overpayment” and “Refund.”

Parents’ Election To Report Child’s Interest and Dividends Δ

(calculated on Form 8814)

A parent could elect to report on his or her return income received by his or her child. If the election were made, the child was not required to file a return. A parent could make this election if the child:

- was under age 19 (or under 24 if full-time student) on January 1, 2014;
- had income only from interest and dividends, including Alaska permanent fund dividends and capital gain distributions;
- had gross income for 2013 that was more than \$1,000 but less than \$10,000;
- did not file a joint return;
- had no estimated tax payments for 2013;
- did not have any overpayment of tax shown on his or her 2012 return applied to the 2013 return; and
- had no Federal income tax withheld from his or her income (backup withholding).

If the parents were not filing a joint return, special rules applied to determine which parent could make the election. (See also “Modified Taxable Income” and “Other Net Income or Net Loss.”)

Partnership and S Corporation Net Income or Loss

(Line 32, Schedule E)

Partnerships and S Corporations (formerly Subchapter S Corporations) are not taxable entities; therefore, tax on their net profit or loss was levied, in general, directly on the members of the partnership or shareholders of the S Corporation. The profit or loss shown in the statistics was the taxpayer's share of the ordinary gain or loss of the enterprise, and certain payments made to the taxpayer for the use of capital or, for partnerships, as salary. Net long-term capital gains received from partnerships and S Corporations were reported on Schedule D.

If a return showed net income from one partnership or S Corporation and a net loss from another, the two were added together, and the return was tabulated by the net amount of income or loss in the appropriate column. Beginning in 1987, net income and net loss were reported separately for passive and nonpassive partnership and S Corporation activities. Passive losses were limited to the amount that could offset passive income.

Partnership and S Corporation Net Income Less Loss

See “Partnership and S Corporation Net Income or Loss.”

Passive-Activity Losses

Losses generated by any “flowthrough” business activity (such as partnerships or S Corporations for which profits and certain other amounts were passed directly through to the owners), in which the taxpayer did not “materially participate” (i.e., was not involved regularly and substantially in the operations of the activity) qualified as passive-activity losses. (See also “Nondeductible Passive Losses.”)

Payments to a Keogh Plan

(Line 28, Form 1040)

Self-employed individuals were allowed to contribute to a Keogh retirement plan or a simplified employment pension plan and to deduct all or part of such contributions in computing adjusted gross income. The deductible amount was based on net earnings from self-employment.

Payment with Request for Extension of Filing Time

(Line 68, Form 1040)

This payment was made when the taxpayer filed Form 4868, *Application for Automatic Extension of Time To File U.S. Individual Income Tax Return*. The extension granted the taxpayer additional time to file a tax return, but did not extend the time for paying the expected tax. Full payment of any tax due had to be made with the application for extension.

Penalty on Early Withdrawal of Savings

(Line 30, Form 1040)

Taxpayers who paid penalties for the premature withdrawal of funds from time savings accounts or deposits could deduct those penalties as an adjustment to total income.

Penalty Tax on Qualified Retirement Plans Δ

(Line 58, Form 1040)

If taxpayers withdrew any funds from an Individual Retirement Arrangement or qualified retirement plan before they were either age 59½ or disabled, they were subject to a penalty tax equal to 10 percent of the premature distribution. Any taxpayer who failed to withdraw the minimum required distribution after reaching age 70½ had to pay a 50-percent excise tax on the excess accumulation. Contributions to an IRA in excess of the legal limitation for the year (the lesser of \$5,500, \$11,000 if married filing jointly, or the taxpayer's compensation for the year) were subject to an excise tax equal to 6 percent of the excess contribution. If the taxpayer(s) were over 50 these limits were \$1,000 higher per taxpayer.

Pensions and Annuities

(Lines 16a and 16b, Form 1040)

Generally, pensions are periodic income received after retirement for past services with an employer, while annuities are income payable at stated intervals after payment of a specific premium. A taxpayer could acquire a pension or annuity either by purchase from a commercial organization (usually life insurance, endowment, or annuity contracts) or under a plan or contract connected with the taxpayer's employment. Those pensions or annuities obtained in connection with employment could be purchased entirely by the taxpayer, or financed in part (a contributory plan) or in whole (a noncontributory plan) through employer contributions.

Since a noncontributory plan was paid for entirely by an employer, the amount received by the employee was fully taxable. This fully taxable pension was reported on lines 16a and 16b. For the taxpayer who participated in a contributory retirement plan while employed, the amount received was only partially taxable. In general, the amount excludable from gross income, the nontaxable portion, represented the taxpayer's contributions under the plan, while the taxable portion represented the employer's contribution and earnings on the entire investment. The nontaxable contribution had to be amortized over the expected lifetime of the taxpayer.

The entire amount of pensions and annuities received for the year was reported on line 16a of Form 1040. The taxable portion was computed on a separate worksheet and entered on line 16b.

Personal Property Taxes Deduction

(Line 7, Schedule A)

Personal property tax could be included as a deduction if the tax was an annual tax based on value alone. (See also "Taxes Paid Deduction.")

Predetermined Estimated Tax Penalty

(Line 77, Form 1040)

If a return showed taxes of \$1,000 or more owed on line 76 (tax due at time of filing) and this amount was more than 10 percent of the total tax, the taxpayer could owe a penalty, unless tax payments in the current year equaled or exceeded prior-year tax liability. Also, taxpayers could owe a penalty if they underpaid their 2012 estimated tax liability for any payment period. Form 2210 was used to determine the amount of a penalty, if any.

For this report, the predetermined estimated tax penalty includes only the amount calculated by the taxpayer when the return was initially filed.

Prior-Year Minimum Tax Credit Δ

(Line 53b, Form 1040)

A minimum tax credit could be taken for 2013 by certain taxpayers who paid alternative minimum tax for 2012 or prior years. If all of the minimum tax credit (claimed on Form 8801) could not be used for 2013, the excess could be carried forward to later years. For 2013, a refundable credit was no longer available to taxpayers with a credit carryforward from earlier years.

Qualified Dividends

(Line 9b, Form 1040)

See "Dividends."

Qualified Electric Vehicle Credit

(Line 53c, Form 1040)

Taxpayers could have only claimed this credit if they had any qualified electric vehicle passive activity credits from prior years that were allowed for the current tax year. This credit was calculated first on Form 8582-CR and then on Form 8834.

Qualified Mortgage Insurance Premiums

(Line 13, Schedule A)

Taxpayers may have been able to treat mortgage insurance premiums paid in connection with home acquisition debt as home mortgage interest. Taxpayers could deduct mortgage insurance premiums for mortgage insurance contracts issued

after December 31, 2006. The deduction was phased out for taxpayers with AGI between \$100,000 and \$109,000 (\$50,000 and \$54,500 for married filing separately). This amount was reported on Schedule A, line 13.

Qualified Plug-In Electric Vehicle Credit

(Line 53c, Form 1040)

Taxpayers could have claimed this credit for any nondepreciable qualified plug-in electric vehicle placed in service during the tax year. A qualified plug-in electric vehicle is generally any vehicle that is propelled to a significant extent by an electric motor that draws electricity from a battery that can be recharged from an external source. This credit was calculated by using Form 8936. Starting in 2012, taxpayers could claim this credit for certain two- or three-wheeled vehicles or low-speed, four-wheeled plug-in electric vehicles.

Real Estate Taxes

(Line 6, Schedule A)

This amount included taxes paid on real estate that was owned and not used for business by the taxpayer. The real estate taxes could only be used as a deduction if the taxes were based on the assessed value of the property. Also, the assessment had to be made uniformly on property throughout the community, and the proceeds had to be used for general community or governmental purposes. (See also "Taxes Paid Deductions.")

Recapture Taxes

(Included in line 60c, Form 1040)

The investment tax credit provisions of the law included a recapture rule which required taxpayers to pay back some or all of any investment credit previously taken on property disposed of before the end of the useful life claimed in computing the credit. The law specified that if property qualifying for the credit was disposed of before the end of its useful life, the tax for the year of disposal was increased by the difference between the credit originally claimed and the credit that would have been allowed based on the shorter actual life. Tax credits could not be applied against this additional tax. Also, tax from recapture of an education credit, the low-income housing credit, the Indian employment credit, the new markets credit, credit for employer-provided child care facilities, alternative motor vehicle credit, the alternative fuel vehicle refueling credit and the qualified plug-in electric drive motor vehicle credit, recapture of Federal mortgage subsidy and COBRA premium assistance were reported here.

Refund

(Line 74a, Form 1040)

A tax refund included all overpayment of income taxes not applied by the taxpayer as a credit to the next year's estimated tax. (See also "Overpayment.")

Refundable Credits

Refundable credits were separated into three categories for their treatment on income tax for the statistics. The first category was the portion of the credit used to offset income tax before credits. If there was any unused credit amount after offsetting income tax, the next portion offset all other taxes. Any remaining amount, after offsetting all other taxes, was put into the last category called the refundable portion. A taxpayer claiming these credits could potentially have those credits broken down into one, two, or all three of these categories. For 2013, credits broken down this way included the EIC, American opportunity credit, health coverage credit, and regulated investment company credit.

Refund Credited to Next Year

(Line 75, Form 1040)

See "Credit to 2014 Estimated Tax."

Regular Tax Computation

Typically, the taxpayer, in determining the amount of "tax generated," first computed taxable income. Depending on marital status and size of taxable income, the taxpayer then used the tax table or applied the rates from one of four tax rate schedules to determine tax. Also, returns of taxpayers who had taxes computed by the Internal Revenue Service were classified under the regular tax computation method. If a taxpayer filed a Form 8615 or had any long-term capital gains, or qualified dividends taxed at a rate less than the tax tables, then they were not considered as regular tax computations.

Rent Net Income or Net Loss

(Line 21, Schedule E, columns A, B, C)

Rent net income or loss was determined by deducting from gross rent the amounts for depreciation, repairs, improvements, interest, taxes, commissions, advertising, utilities, insurance, janitorial services, and any other allowable expenses related to the rented property. In these statistics, total rental net loss includes passive losses that were not deductible in figuring AGI. (See also "Passive Activity Losses" and "Total Rent and Royalty Income or Loss in AGI.")

Rent Net Income Less Loss

See "Rent Net Income or Net Loss."

Residential Energy Credits

(Line 52, Form 1040)

The residential energy credit consisted of the nonbusiness energy property credit and the residential energy efficient property credit. For the nonbusiness energy property credit, taxpayers were able to take a credit of 10 percent of the costs paid or incurred in 2013 for qualified energy efficient improvements and residential energy property. Starting in 2011, the

nonbusiness credit was limited to a lifetime total of \$500. For the residential energy efficient property credit, taxpayers could have taken a credit of 30 percent of their costs of qualified solar electric property, solar water heating property, small wind energy property, geothermal heat pump property, and fuel cell property.

Retirement Savings Contribution Credit (Saver's Credit) Δ

(Line 50, Form 1040)

A taxpayer could take a credit of up to \$1,000 (\$2,000 if married filing jointly) for qualified retirement savings contributions, if their adjusted gross income was less than or equal to \$29,500 (\$44,250 if head of household, \$59,000 if married filing jointly). This credit was calculated by using Form 8880.

Roth IRA Δ

(Lines 16-25, Form 8606)

Similar to traditional IRAs, Roth IRAs were generally used for retirement. Unlike traditional IRAs, contributions to a Roth IRA were not deductible. However, qualified distributions from a Roth IRA were tax exempt. The contribution limit for Roth IRAs was the lesser of \$5,500 (\$6,500 if age 50 or older), \$11,000, (\$12,000, or \$13,000 depending whether none, one, or two of the taxpayers were age 50 or older and married filing jointly) or the individual's taxable compensation, unless the taxpayer contributed to both Roth and traditional IRAs. In that case, the contribution limit for Roth IRAs was reduced by all contributions (other than employer contributions) to traditional IRAs for the taxable year. The eligibility for Roth IRAs was phased out for joint filers with modified AGI between \$178,000 and \$188,000, married taxpayers filing separately and living with their spouses with modified AGI between \$0 and \$10,000, and all other filers (single, head of household, and married filing separately and not living with their spouse at any time during the year) with modified AGI between \$112,000 and \$127,000. Roth IRA contributions could be made after the taxpayer reached the age of 70½. Also, the minimum distribution rules did not apply to living taxpayers as they did for traditional IRAs.

Starting in 2010, all taxpayers (including married taxpayers filing separately) were eligible to make taxable rollovers of traditional IRAs to Roth IRAs without paying the 10-percent tax on early withdrawals. When a taxpayer converted an amount from a traditional IRA to a Roth IRA, they were required to include in gross income the amount that they would have reported in income if they had made a withdrawal from this IRA. The taxpayer did not include in gross income any part of the conversion that was a nondeductible contribution in a traditional IRA. (See also "Individual Retirement Arrangement Taxable Distributions.")

Royalty Net Income or Net Loss

(Line 21, Schedule E, columns A, B, C)

Net royalties consisted of gross royalties less deductions for depletion, depreciation, office rent, legal fees, clerical help, interest, taxes, and similar items. Gross royalties included revenues from oil, gas, and other mineral rights; revenue from patents; and revenue from literary, musical, or artistic works. Certain royalties received under a lease agreement on timber, coal, and domestic iron ore were eligible for capital gains or ordinary loss treatment under Internal Revenue Code section 1231. As a result of the separate computation, those royalties are reflected in the statistics for “sales of capital assets” and “sales of property other than capital assets.” (See also “Total Rent and Royalty Income or Loss.”)

Royalty Net Income Less Loss

See “Royalty Net Income or Net Loss.”

S Corporations

See “Partnership and S Corporation Net Income or Loss.”

Salaries and Wages

(Line 7, Form 1040)

Salaries and wages, as reported on the tax return, were amounts of compensation primarily for personal services. The following items were included:

- salaries;
- wages;
- commissions;
- bonuses;
- tips;
- fees;
- excess reimbursement of employee business expenses;
- moving expenses allowances;
- the difference between the fair market value of certain property and the discount price for which it was purchased by a taxpayer from his or her employer;
- severance pay;
- sick pay;
- the value of exercising a stock appreciation right;
- directors’ fees;
- vacation allowances;
- most disability payments;

- strike and lockout benefits;
- the value of certain nonmonetary payments for services (e.g., merchandise, accommodations, certain meals or lodging, certain stock purchase plans, or property);
- dependent care benefits;
- employer-provided adoption benefits; and
- scholarship and fellowship grants.

Identifiable amounts for any of these categories, which may have been reported by taxpayers as “other income,” are treated as salaries and wages for these statistics.

Sales of Capital Assets, Net Gain or Loss Δ

(Line 13, Form 1040)

In general, capital assets for tax purposes included all property held for personal use or investment. Examples include homes, furniture, automobiles, and stocks and bonds. Most assets used for business activities were specifically excluded from treatment as capital assets. (See also “Sales of Property Other Than Capital Assets, Net Gain or Loss.”)

The following concepts are used in the computation of net capital gain or loss for this report:

Long term or short term: If the holding period was 1 year or less, the asset was considered short term; otherwise, it was considered long term. All capital gain distributions (distributions from mutual funds on the profit of sale of stock or bonds to the taxpayer) were considered long term. Short-term capital gains were taxed at ordinary rates.

Net capital gain: If the combination of net short-term gain or loss and net long-term gain or loss resulted in a positive amount, the taxpayer had a net capital gain. The full amount of this gain, whether short term or long term, was included in adjusted gross income.

Net capital loss: If the combination of net short-term gain or loss and net long-term gain or loss resulted in a negative amount, the taxpayer showed a net capital loss. The amount of net capital loss included in adjusted gross income was limited to the smaller of the actual net capital loss or \$3,000 (\$1,500 for married persons filing separately). Any excess capital losses over the \$3,000 limit could be carried over to subsequent tax years. (See “Long-term Loss Carryover” and “Short-term Loss Carryover.”)

The maximum rate for most long-term net capital gains was increased to 20 percent for 2013 from 15 percent. For taxpayers between the 15-percent ordinary income bracket and the top ordinary income bracket of 39.6 percent, the capital gain rate was 15 percent and for taxpayers in the 15-percent ordinary income bracket or lower, the capital gain rate was 0 percent. Collectible gains and up to 50 percent of eligible gains on qualified small business stock were taxed at the 28-percent

rate. Gains from the sale of certain depreciable real property were taxed at a 25-percent rate. Therefore, the long-term capital gain tax rate could be 0 percent, 15 percent, 20 percent, 25 percent, or 28 percent. Taxpayers were generally able to exclude from income up to \$250,000 (\$500,000 for married couples filing a joint tax return) of the gain on the sale of their homes.

Sales of Capital Assets Reported on Schedule D

See “Sales of Capital Assets, Net Gain or Loss.”

Sales of Property Other Than Capital Assets, Net Gain Less Loss

(Line 14, Form 1040)

Property other than capital assets generally included property of a business nature, in contrast to personal or investment property, which were capital assets. Some types of property specifically included in this group were:

- (1) certain depreciable, depletable, and real business property;
- (2) accounts and notes receivable in the ordinary course of business generated from the sale of goods and services ordinarily held for sale by the business or includable in the inventory of the business;
- (3) certain copyrights, literary, musical, or artistic compositions, or similar properties; and
- (4) amounts resulting from certain “involuntary conversions,” including net losses from casualty and theft.

Taxpayers reported all gains and losses not treated as capital gains on Form 4797, *Sales of Business Property*.

Sales Tax Deduction

(Line 5b, Schedule A)

Taxpayers could have elected to deduct State and local general sales taxes instead of State and local income taxes as an itemized deduction on Schedule A. The taxpayer could have used either actual expenses or the optional State sales tax tables.

Saver's Credit

See “Retirement Savings Contribution Credit.”

Schedule D Capital Gain Distributions

(Line 13, Schedule D)

See “Sales of Capital Assets, Net Gain or Loss.”

Self-Employed Health Insurance Deduction

(Line 29, Form 1040)

Self-employed persons, or owners of more than 2 percent of outstanding stock of an S Corporation, if they were not eligible for health coverage under an employer-provided plan, were allowed to deduct, in the calculation of AGI, up to 100 percent of the amount paid for health insurance for themselves and their families.

Self-Employed SEP, SIMPLE, and Qualified Plans

See “Payments to a Keogh Plan.”

Self-Employment Tax Δ

(Line 56, Form 1040)

All net earnings greater than \$400 (\$108.28 for church employees) were subject to the self-employment tax. The ceiling for the social security tax on taxable self-employment income for 2013 was \$113,700. The limit did not apply for purposes of the Medicare tax.

Beginning in 2013, the self-employment tax rate reverted back to 15.3 percent from 13.3 percent. The Medicare portion of the self-employment tax remained at 2.9 percent, while the social security portion was increased to 12.4 percent from 10.4 percent. Also new for 2013, a 0.9 percent Additional Medicare Tax applied to self-employment income above \$200,000 for single, head of house or qualifying widow(er) (\$250,000 if married filing jointly or if married filing separately). (See also “Total Tax Liability.”)

Short-Term Loss Carryover

(Line 6, Schedule D)

These are short-term capital losses from the prior-year Schedule D that were carried over to the current year. (See “Sales of Capital Assets, Net Gain or Loss.”)

Size of Adjusted Gross Income

(Line 37, Form 1040)

The amount of adjusted gross income reported by the taxpayer on the return was the basis for classifying data by size of adjusted gross income. Returns without positive adjusted gross income, such as deficit returns or returns on which income and loss were equal, were classified as having “no adjusted gross income” and appear as a separate class in most basic tables. The absence of a class labeled “no adjusted gross income” indicates that any deficit or break-even returns in a table were included in the lowest income-size class. (See “Adjusted Gross Income Less Deficit.”)

Social Security and Medicare Taxes Δ

For 2013, the maximum wages subject to social security tax was \$113,700. All wages were subject to Medicare tax.

Beginning in 2013, the social security tax reverted back to 6.2 percent from 4.2 percent. The Medicare tax portion remained at 1.45 percent. Also new for 2013, a 0.9-percent Additional Medicare Tax applied to self-employment income above \$200,000 for single, head of house or qualifying widow(er) (\$250,000 if married filing jointly or if married filing separately).

Social Security and Medicare Tax on Unreported Tip Income

(Line 57a, Form 1040)

Cash tips amounting to \$20 or more received by the taxpayer in a month while working for any one employer were subject to withholding of income tax, social security tax (or the equivalent railroad retirement tax), and Medicare tax. If the employer was unable to withhold the social security and Medicare tax, the amount of uncollected social security tax on tips was indicated on the employee's Form W-2, and the employee was required to report the uncollected tax and pay it with the Form 1040. If the employee did not report the tips to the employer, the employee was required to compute the social security and Medicare tax on unreported tips on Form 4137 and attach it to Form 1040.

Social Security Benefits

(Lines 20a and 20b, Form 1040)

Social security benefits included any monthly benefit under Title II of the Social Security Act or the part of a "tier 1 railroad retirement benefit" that was equivalent to a social security benefit. Social security benefits were not taxable unless the taxpayer's total income (including tax-exempt interest) plus one-half of total social security benefits exceeded certain levels. The maximum taxable amount was up to 85 percent of the net social security benefits received. Social security benefits received were reported on Form 1040, line 20a, and the taxable portion was reported on line 20b. Taxpayers were required to report gross social security benefits on line 20a even if the taxpayer had no taxable social security benefits.

Standard Deduction Δ

(Included in line 40, Form 1040)

For 2013, the basic standard deduction was increased. Taxpayers who were age 65 or over or blind could claim an additional standard deduction amount of \$1,200 or \$1,500 based on filing status. Both the basic and additional standard deductions were determined by marital filing status, as shown below.

Single

Basic deduction of \$6,100;

Each taxpayer 65 or over or blind was allowed an additional \$1,500 deduction each for age and blindness.

Married filing jointly or surviving spouses

Basic deduction of \$12,200;

Each taxpayer 65 or over or blind was allowed an additional \$1,200 deduction each for age and blindness.

Married, filing separately

Basic deduction of \$6,100;

Each taxpayer 65 or over or blind was allowed an additional \$1,200 deduction each for age and blindness.

Head of Household

Basic deduction of \$8,950;

Each taxpayer 65 or over or blind was allowed an additional \$1,500 deduction each for age and blindness.

The basic standard deduction claimed by filers who were dependents of other taxpayers was the greater of \$1,000 or the dependent's earned income plus \$350 (but not more than the regular standard deduction amount).

In these statistics, the basic standard deduction is tabulated for all taxpayers who claimed it, including those who were 65 or over and/or blind. The "additional standard deduction" total includes only the additional amount that was taken by those taxpayers who were 65 or over and/or blind.

State and Local Income Taxes

(Line 5a, Schedule A)

State and local income taxes paid could be used as an itemized deduction if a taxpayer had State and local income taxes withheld from their salary during 2013; had paid State and local income taxes directly during 2013 for a prior year, or had made mandatory contributions to specific State disability funds. (See also "Taxes Paid Deduction.")

State and Local Taxes

(Line 5, Schedule A)

This is the total of State and Local Income Taxes or Sales Tax Deduction. The taxpayer could elect to use either, but not both.

State Income Tax Refund

(Line 10, Form 1040)

If a taxpayer received a refund, credit, or offset of State or local income taxes in 2013 that was paid or deducted before 2013, all or part of that amount had to be reported as income to the extent that an itemized deduction for State and local income taxes had previously resulted in a tax benefit.

Statutory Adjustments

(Lines 23-36, Form 1040)

Certain adjustments to total income were allowed as deductions in the calculation of adjusted gross income. For 2013, statutory adjustments included educator expenses, certain business expenses of reservists, performing artists, and fee-basis government officials, health savings account deduction, moving

expenses, the deductible part of self-employment tax, payments to a self-employed Keogh retirement plan or a simplified employee pension (SEP), the self-employed health insurance deduction, penalty on early withdrawal of savings, alimony paid, payments to an IRA, student loan interest deductions, tuition and fees deductions, deduction for certain domestic production activities, Archer MSA deductions, and the foreign housing deduction. Each of the above items is described separately in this section. In addition, statutory adjustments included: jury duty pay, deductible expenses related to income of personal property, the forestation/reforestation amortization deduction, the repayment of supplemental unemployment benefits under the Trade Act of 1974, contributions to section 501(c)(18)(D) pension plans, contributions by certain chaplains to section 403(b) plans, attorney fees and court costs paid for actions involving certain unlawful discrimination claims, and attorney fees and court costs paid in connection with an award from the IRS for information provided that helped the IRS detect tax law violations. If not listed separately, these amounts are included in the "Other Adjustments" category in the statistics.

Student Loan Interest Deduction

(Line 33, Form 1040)

For 2013, eligible taxpayers were allowed to deduct up to \$2,500 for interest paid on qualified higher educational loans. The deduction was phased out for taxpayers with modified AGI between \$60,000 to \$75,000 (\$125,000 to \$155,000 for taxpayers filing a joint return).

Tax Credits

See "Total Tax Credits."

Tax Due at Time of Filing

(Line 76, Form 1040)

"Tax due" was reported on returns on which total tax liability exceeded total tax payments.

Tax from Recomputing Prior-Year Investment Credit

(Included in line 60c, Form 1040)

See "Recapture Taxes."

Tax Generated Δ

This amount was the tax computed on modified taxable income. The tax rates for 2013 were 10, 15, 25, 28, 33, 35, and 39.6 percent. The 10-percent bracket applied to taxable income equal to or below \$8,925 for single filers and married persons filing separately; \$17,850 for joint filers or surviving spouses; and \$12,750 for heads of household. The 15-percent bracket applied to taxable income in excess of the 10-percent bracket ceiling and equal to or below \$36,250 for single filers and married persons filing separately; \$72,500 for joint filers

or surviving spouses; and \$48,600 for heads of household. The 25-percent tax bracket applied to taxable income in excess of the 15-percent bracket ceiling and equal to or below \$87,850 for single filers; \$146,400 for joint filers or surviving spouses; \$73,200 for married persons filing separately; and \$125,450 for heads of household. The 28-percent tax rate applied to taxable income in excess of the 25-percent tax bracket ceiling and equal to or below \$183,250 for single filers; \$223,050 for joint filers or surviving spouses; \$111,525 for married persons filing separately; and \$203,150 for heads of households. The 33-percent tax rate applied to taxable income in excess of the 28-percent tax bracket ceiling and equal to or below \$398,350 for single filers, joint filers, or surviving spouses and heads of households and \$199,175 for married persons filing separately. The 35-percent tax rate applied to taxable income in excess of the upper boundary for the 33-percent tax bracket ceiling equal to or below \$400,000 for single filers; \$450,000 for joint filers or surviving spouses; \$225,000 for married persons filing separately; and \$425,000 for heads of household. The 39.6-percent tax rate applied to taxable income in excess of the upper boundary for the 35-percent tax bracket. The tax generated at each of these tax rates is shown in Tables 3.4, 3.5, and 3.6.

If children under age 19, or under 24 if they were a full-time student, had investment (unearned) income that exceeded \$2,000, there were two methods of reporting this income. If the child filed his or her own return, the investment income that exceeded \$2,000 was taxed at the parents' rate on Form 8615 (the remaining investment income was taxed at the child's rate) and tabulated separately in Tables 3.4, 3.5, and 3.6. If the parents elected to report the child's investment income on their return, they attached a Form 8814. The investment income in excess of \$2,000 was included on either Form 1040, line 21, or in the case of capital gains distributions on either Form 1040, line 13, or Schedule D, line 13, or qualified dividends on Form 1040, line 9b. The remaining investment income in excess of the \$1,000 standard deduction was taxed at the child's rate, added to the parents' tax on Form 1040, line 44, and is also tabulated separately in Tables 3.4, 3.5, and 3.6.

On most returns, except those with additional taxes from special computations, "tax generated" equaled "income tax before credits." (See also "Modified Taxable Income.")

Tax Payments

(Lines 62, 63, 68, 69, 70, 71, and 72, Form 1040)

These payments were generally made before the return was filed and were applied against tax liability to determine any amount payable or refundable at the time of filing. They consisted of the following:

- (1) income tax withheld, including backup withholding;
- (2) estimated tax payments (including those from overpayment on 2012 return);

- (3) payment with request for extension of filing time;
- (4) excess social security, Medicare, or railroad retirement tax withheld;
- (5) credit for tax on certain gasoline, fuel, and oil; and
- (6) other payments.

Each of the above is described under a separate heading in this section.

Although the earned income credit, American opportunity credit, regulated investment company credit, and health coverage credit were included with tax payments on the tax return itself (lines 64a, 66, 71a, and 71c, Form 1040), for the statistics they are treated partly as a credit against income tax liability and partly as a refundable amount. (See also “Earned Income Credit,” “Education Credits,” “First-Time Homebuyer Credit,” “Adoption Credit,” “Health Coverage Credit,” and “Credit from Regulated Investment Companies.”) Also, the additional child credit (line 65) was included on the tax return as a payment but not treated that way for the statistics.

Tax Penalty

(Line 77, Form 1040)

See “Predetermined Estimated Tax Penalty.”

Tax Preparation Fees

(Line 22, Schedule A)

Tax preparation fees were included on Schedule A as a miscellaneous deduction, the total of which was subject to a 2-percent-of-AGI floor. The amounts reported in the statistics are prior to this floor. (See also “Limited Miscellaneous Deductions.”)

Tax Rates, Tax Rate Classes

See “Tax Generated.”

Tax Withheld

(Line 62, Form 1040)

See “Income Tax Withheld.”

Taxable and Nontaxable Returns Δ

The taxable and nontaxable classifications of a return for this report are determined by the presence of “total income tax.” Some returns classified as “nontaxable” may have had a liability for other taxes, such as self-employment tax, uncollected employee social security and Medicare tax on tips, tax from recomputing prior-year investment credit, penalty taxes on individual retirement accounts, Section 72 penalty taxes, household employment taxes, Additional Medicare Taxes, or golden parachute payments. These taxes, however, were disregarded for the purposes of this classification since

four of the above taxes were considered social security (rather than income) taxes, and the remaining ones were either based on prior year’s income or were penalty taxes. For 2013, Net Investment Income Tax from Form 8960 was added to income tax after credits to create income tax.

For this report, the earned income credit, American opportunity credit, first-time homebuyer credit, adoption credit, health coverage credit, and regulated investment company are treated first as an amount used to offset income tax before credits. Since they were refundable, they were subtracted from income tax (for the statistics) after reduction by all other statutory credits. As a result, some returns became nontaxable strictly because of the refundable credits and the refundable credits equaled or exceeded income tax before credits reduced by any other credits.

It should be noted that classification as taxable or nontaxable was based on each return as it was filed and does not reflect any changes resulting from audit or other enforcement activities. (See also “Total Income Tax.”)

Taxable Income

(Line 43, Form 1040)

Taxable income was derived by subtracting from adjusted gross income any exemption amount and either total itemized deductions or the standard deduction. (See “Modified Taxable Income.”)

Taxable Interest (Received)

(Line 8a, Form 1040)

This amount was the taxable portion of interest received from bonds, debentures, notes, mortgages, certain insurance policy proceeds, personal loans, bank deposits, savings deposits, tax refunds, and U.S. savings bonds. Also included as interest were “dividends” on deposits or withdrawable accounts in mutual savings banks, savings and loan associations, and credit unions. Interest on State or local government obligations remained tax exempt, but the total tax-exempt interest had to be reported on line 8b of Form 1040. It was not included in the taxpayer’s income for tax purposes. If taxable interest exceeded \$1,500, the taxpayer had to fill out Schedule B to supply the details for taxable interest. (See also “Tax-Exempt Interest.”)

Taxable IRA Distributions

(Line 15b, Form 1040)

See “Individual Retirement Arrangement Taxable Distributions.”

Taxable Net Capital Gain

(Line 16, Schedule D, included in line 13, Form 1040)

See “Sales of Capital Assets, Net Gain or Loss.”

Taxable Net Capital Loss

(Line 21, Schedule D, included in line 13, Form 1040)
See "Sales of Capital Assets, Net Gain or Loss."

Taxable Pensions and Annuities

(Line 16b, Form 1040)
See "Pensions and Annuities."

Taxable Social Security Benefits

(Line 20b, Form 1040)
See "Social Security Benefits."

Taxes from Special Computation

(Line 44, Form 1040)
Taxes from special computation are the additional taxes from lump-sum distributions on Form 4972, *Tax on Lump-Sum Distributions*.

Taxes Paid Deduction

(Lines 5-9, Schedule A)
Taxes allowed as an itemized deduction from adjusted gross income, included personal property taxes, State and local income taxes or general sales taxes, taxes paid to foreign countries or U.S. possessions (unless a foreign tax credit was claimed), and real estate taxes except those levied for improvements that tended to increase the value of the property. Mandatory employee contributions to a State disability fund and employee contributions to a State unemployment fund were also included. Federal taxes were not deductible. Taxes paid on business property were deducted separately on the schedules for business, rent, royalty, and farm income and are excluded from the "taxes paid" statistics in this report.

Tax-Exempt Interest

(Line 8b, Form 1040)
Tax-exempt interest included interest on certain State and municipal bonds, as well as any tax-exempt interest dividends from a mutual fund or other regulated investment company. This was an information reporting requirement and did not convert tax-exempt interest into taxable interest. It is included as income for certain programs, for example for the earned income credit or taxability of social security benefits.

Total Income

(Line 22, Form 1040)
Total income was the sum of the individual income items (Lines 7 through 21) before adjustments.

Total Income Tax Δ

(Line 55 + any Net Investment Income Tax on line 60b + any Form 4970 tax on line 60c - line 64a - line 66 - line 71a - line 71c, limited to zero, on Form 1040)

Total income tax was the sum of income tax after credits (including the subtraction of the earned income credit, American opportunity credit, health coverage credit, and regulated investment company credit) plus the Net Investment Income Tax from Form 8960 and the tax from Form 4970. It did not include any of the other taxes that made up total tax liability. Total income tax was the basis for classifying returns as taxable or nontaxable.

Total Itemized Deductions Δ

(Included in line 40, Form 1040)

Itemized deductions from adjusted gross income could be claimed for medical and dental expenses, certain taxes paid, interest paid, charitable contributions, casualty and theft losses, and miscellaneous deductions. Taxpayers could deduct mortgage insurance premiums for mortgage contracts issued after December 31, 2006. Itemized deductions were claimed only if they exceeded the total standard deduction, with three exceptions. First, if a taxpayer was married and filing separately, and his or her spouse itemized deductions, the spouse was required to itemize as well. Second, taxpayers in several States were required to itemize deductions on their Federal tax returns if they wished to itemize on their State returns. Third, if a taxpayer benefited for alternative minimum tax purposes, they might itemize even though the standard deduction was larger. The total amount of itemized deductions was tabulated only from returns showing positive adjusted gross income.

New for 2013, if a taxpayer had AGI in excess of \$250,000 if filing single, \$275,000 if head of household or \$300,000 if married filing jointly (\$150,000 if married filing separately), his or her itemized deductions may have been limited. The limitation did not apply to the deductions for medical and dental expenses, investment interest expenses, casualty or theft losses, and gambling losses. To arrive at allowable itemized deductions, total itemized deductions were reduced by the smaller of: a) 3 percent of the amount of AGI in excess of the filing thresholds or b) 80 percent of the nonexempt deductions. Therefore, total itemized deductions is the sum of the separate deductions cited above, less the itemized deduction limitation.

Total Miscellaneous Deductions

See "Miscellaneous Itemized Deductions."

Total Pensions and Annuities

(Line 16a, Form 1040)
See "Pensions and Annuities."

Total Rental and Royalty Net Income or Loss

(Line 26 plus lines 39 and 40, Schedule E)

This income concept consisted of all rent and royalty income and loss that was used in computing adjusted gross income, including farm rental income and suspended rental loss carryover from prior years. It excluded the portion of

rental losses that was not deductible in computing adjusted gross income due to the passive loss rules. Income or loss from real estate mortgage investment conduits were also included in this concept.

Total Social Security Benefits

(Line 20a, Form 1040)

See "Social Security Benefits."

Total Statutory Adjustments

(Line 36, Form 1040)

Total statutory adjustments was the sum of the individual adjustments to income (lines 23-36). (Note: foreign housing, Archer MSA, and other adjustments were reported on line 36.)

Total Tax Credits Δ

(Lines 54, 64a, 66, 71a, and 71c, Form 1040)

For this report, total tax credits consists of the following:

- (1) foreign tax credit;
- (2) child care credit;
- (3) education credits;
- (4) retirement savings contributions credit;
- (5) child tax credit;
- (6) mortgage interest credit;
- (7) residential energy credits;
- (8) general business credit;
- (9) minimum tax credit;
- (10) credit for the elderly and disabled;
- (11) adoption credit;
- (12) qualified plug-in electric drive motor vehicle credit;
- (13) qualified electric vehicle credit;
- (14) alternative motor vehicle credit;
- (15) alternative fuel vehicle refueling property credit;
- (16) other tax credits;
- (17) earned income credit (EIC) used to offset income tax before credits;
- (18) American opportunity credit used to offset income tax before credits;
- (19) health coverage credit used to offset income tax before credits; and

- (20) regulated investment company credit used to offset income tax before credits.

These amounts were deducted from income tax before credits to arrive at income tax after credits. For the statistics, the portion of the EIC, American opportunity credit, health coverage credit, and regulated investment company credit that did not result in a negative amount is tabulated as "earned income credit used to offset income tax before credits," "American opportunity credit used to offset income tax before credits," "health coverage credit used to offset income tax before credits," and "regulated investment company credit used to offset income tax before credits." Any remaining EIC, American opportunity credit, health coverage credit, and regulated investment company credit amount could be refunded or applied to other taxes, and are classified separately as "earned income credit refundable portion," "American opportunity credit refundable portion," "health coverage credit refundable portion," "regulated investment company credit refundable portion," and "refundable prior-year minimum tax credit refundable portion," or "earned income credit used to offset other taxes," "American opportunity credit used to offset other taxes," "health coverage credit used to offset other taxes," and "regulated investment company credit used to offset other taxes." All other credits were limited to the amount needed to offset income tax before credits and were not refundable (except the child tax credit) or used to offset any other taxes. See "Child Tax Credit."

Total Tax Liability Δ

(Line 61 modified by the earned income credit, additional child tax credit, American opportunity credit, health coverage credit, and regulated investment company credit, Form 1040)

Total tax liability was the sum of income tax after credits, self-employment tax, social security and Medicare tax on tip income and wages, penalty tax on qualified retirement plans, household employment taxes, repayment of the first-time homebuyer credit, Additional Medicare Taxes, Net Investment Income Tax, additional tax on HSA and MSA distributions, additional tax on Medicare Advantage MSA distributions, tax from recapturing prior-year investment credits, low-income housing credit, Indian employment credit, new markets credit, employer-provided child care facilities credit, alternative motor vehicle credit, alternative fuel vehicle refueling property credit, and the qualified plug-in electric drive motor vehicle credit, tax from recapture of Federal mortgage subsidy COBRA premium assistance, Section 72 penalty taxes, other unspecified taxes which included uncollected FICA (or social security) tax on tips, tax on golden parachute payments, Form 4970 tax, excise tax on insider stock compensation from an expatriated corporation, additional tax on income from a nonqualified deferred compensation plan, interest on tax due on installment income from sale of residential lots and timeshares, interest on the deferred tax gain from certain installment sales, additional tax on recapture of a charitable deduction relating to a fractional interest in tangible personal property, look-back interest,

repayment of ineligible advance payments of the health coverage tax credit, and the statistics included tax from recapture of education credits. These taxes were then reduced by the earned income credit used to offset all other taxes, additional child tax credit used to offset all other taxes, American opportunity credit used to offset all other taxes, health coverage credit used to offset all other taxes, and regulated investment company credit used to offset all other taxes, limited to zero.

Total Taxable IRA Distributions

See “Individual Retirement Arrangement Taxable Distributions.”

Total Unlimited Miscellaneous Deductions

(Line 28, Schedule A)

See “Miscellaneous Itemized Deductions,” “Gambling Loss Deduction,” and “Miscellaneous Deductions Other Than Gambling.”

Tuition and Fees Deduction

(Line 34, Form 1040)

A taxpayer was able to deduct up to \$4,000 of the qualified tuition and fees paid for themselves, a spouse, or dependents if the taxpayer’s modified AGI was under \$65,000 (\$130,000 if married filing jointly). A taxpayer was able to deduct up to \$2,000 if their AGI was higher than the limit but not more than \$80,000 (\$160,000 if married filing jointly). This deduction (calculated on Form 8917) could not be taken if the person could be claimed as a dependent on another taxpayer’s return or if they claimed the education credit for the same student.

Type of Tax Computation

(Line 44, Form 1040)

Tabulations in Table 3.1 include three methods of computing the tax on income subject to tax. These methods were:

- (1) Regular tax, as computed from the tax tables or tax rate schedules accompanying the Forms 1040, 1040A, or 1040EZ. Schedule J, *Income Averaging for Farmers and Fishermen*, foreign-earned income exclusion and 962 election returns are included with regular tax. (See also “Regular Tax Computation”);
- (2) Form 8615, used to compute the tax on investment income of children under 19, or under 24 if they were a student (see also Table 3.1A); and
- (3) Schedule D, Form 1040, used to compute the tax on long-term capital gains (in excess of short-term capital losses). These include returns with capital gain distributions reported on Form 1040 or qualified dividends, also. This tax could be at various rates--0, 15, 20, 25, or 28 percent.

Unemployment Compensation

(Line 19, Form 1040)

All unemployment compensation received was taxable. It did not include any supplemental unemployment benefits received from a company-financed supplemental unemployment benefit fund, which were included in salaries and wages.

Unreimbursed Employee Business Expenses

(Line 21, Schedule A)

This item, added together with most other miscellaneous itemized deductions, was subject to a floor of 2 percent of AGI. Unreimbursed employee business expenses included travel, transportation, meal, and entertainment costs incurred while based at or away from home in the performance of job duties. In most cases, 50 percent of meal and entertainment expenses were deductible, and were calculated on Form 2106, *Employee Business Expenses*. Many other expenses such as union dues, safety equipment, uniforms, protective clothing, and physical examinations were also deductible. Travel expenses away from home, which were paid or incurred, were not deductible if the period of temporary employment was more than 1 year. The amounts reported in the statistics were prior to the 2-percent floor. (See also “Limited Miscellaneous Itemized Deductions.”)

Certain Cash Contributions for Typhoon Haiyan Relief Efforts in the Philippines Can Be Deducted on Your 2013 Tax Return

A new law allows you to choose to deduct certain charitable contributions of money on your 2013 tax return instead of your 2014 return. The contributions must have been made after March 25, 2014, and before April 15, 2014, for the relief of victims in the Republic of the Philippines affected by the November 8, 2013, typhoon. Contributions of money include contributions made by cash, check, money order, credit card, charge card, debit card, or via cell phone.

The new law was enacted after the 2013 forms, instructions, and publications had already been printed. When preparing your 2013 tax return, you may complete the forms as if these contributions were made on December 31, 2013, instead of in 2014. To deduct your charitable contributions, you must itemize deductions on Schedule A (Form 1040) or Schedule A (Form 1040NR).

The contribution must be made to a qualified organization and meet all other requirements for charitable contribution deductions. However, if you made the contribution by phone or text message, a telephone bill showing the name of the donee organization, the date of the contribution, and the amount of the contribution will satisfy the recordkeeping requirement. Therefore, for example, if you made a \$10 charitable contribution by text message that was charged to your telephone or wireless account, a bill from your telecommunications company containing this information satisfies the recordkeeping requirement.

The Taxpayer Advocate Service Is Here To Help You

What is the Taxpayer Advocate Service?

The Taxpayer Advocate Service (TAS) is your voice at the IRS. As an independent organization within the IRS, our job is to ensure that every taxpayer is treated fairly and that you know and understand your rights.

What can TAS do for you?

We can offer you free help with IRS problems that you can't resolve on your own. We know the tax process can be confusing, but the *worst thing you can do is nothing at all!* TAS can help if you can't resolve your tax problem and:

- Your problem is causing financial difficulties for you, your family, or your business.
- You face (or your business is facing) an immediate threat of adverse action.
- You've tried repeatedly to contact the IRS but no one has responded, or the IRS hasn't responded by the date promised.

If you qualify for our help, you'll be assigned to one advocate who'll be with you at every turn and will do everything possible to resolve your problem.

• TAS is an independent organization within the IRS. Our advocates know how to work with the IRS to get your problems resolved.

• Our services are free and tailored to meet your needs.

• We have offices in *every state, the District of Columbia, and Puerto Rico.*

• Our *online tax toolkit* can help you understand your rights and options in dealing with the IRS. Go to www.taxpayeradvocate.irs.gov/Individuals/Get-Tax-Help.

How can you reach us?

If you think TAS can help you, call your local advocate, whose number is in your phone book and on our website at www.irs.gov/advocate. You can also call us toll-free at 1-877-777-4778.

How else does TAS help taxpayers?

TAS also works to resolve large-scale, systemic problems that affect many taxpayers. If you know of one of these broad issues, please report it to us through our Systemic Advocacy Management System at www.irs.gov/sams.

Low Income Taxpayer Clinics Help Taxpayers

Low Income Taxpayer Clinics (LITCs) are independent from the IRS. Some serve individuals whose income is below a certain level and who need to resolve a tax problem. These clinics provide professional representation before the IRS or in court on audits, appeals, tax collection disputes, and other issues for free or for a small fee. Some clinics provide information about taxpayer rights and responsibilities in many different languages for individuals who speak English as a second language. For more information, and to find a clinic near you, read the LITC page on www.irs.gov/litc or IRS *Publication 4134, Low Income Taxpayer Clinic List*. You can also get this publication at your local IRS office or by calling 1-800-829-3676.

Suggestions for Improving the IRS

Taxpayer Advocacy Panel

Have a suggestion for improving the IRS and do not know who to contact? The Taxpayer Advocacy Panel (TAP) is a diverse group of citizen volunteers who listen to taxpayers' issues, and make suggestions for improving IRS service and customer satisfaction. The panel is demographically and geographically diverse, with at least one member from each state, the District of Columbia, and Puerto Rico. Contact TAP at www.improvetrs.org or 1-888-912-1227 (toll-free).

IRS e-file: It's Safe. It's Easy. It's Time.

Joining the more than 120 million Americans who already are using e-file is easy. Just ask your paid or volunteer tax preparer, use commercial software, or use Free File. IRS e-file is the safest, most secure way to transmit your tax return to the IRS. Since 1990, the IRS has processed more than 1 billion e-filed tax returns safely and securely. There's no paper return to be lost or stolen.

Most tax return preparers are now required to use IRS e-file. If you are asked if you want to e-file, just give it a try. IRS e-file is now the norm, not the exception. Most states also use electronic filing.

Free e-file Help Available Nationwide

Volunteers are available in communities nationwide providing free tax assistance to low to moderate income (generally under \$52,000 in adjusted gross income) and elderly taxpayers (age 60 and older). At selected sites, taxpayers can input and electronically file their own tax return with the assistance of an IRS-certified volunteer.

See *Free help with your tax return* near the end of these instructions for additional information or visit IRS.gov (keyword: VITA) for a VITA/ITCE site near you!

IRS.gov is the gateway to all electronic services offered by the IRS, as well as the spot to download forms if you should choose to file a paper return.

Make your tax payments electronically—it's easy.

Do you have a balance due or owe estimated taxes? You can pay electronically either online or by phone, using your bank account or a credit or debit card. If you e-file your return, you can also schedule your payment by Electronic Funds Withdrawal or by credit or debit card.

It's convenient! You control when your payment is submitted and processed, and receive confirmation of your payment.

It's secure! The IRS uses the latest encryption technology to transmit your payment, and does not store your bank information.

It's green! Electronic payments are paperless, so no check to write and no voucher to mail.

Visit www.irs.gov/ef-pay for more information or to make a payment.

A Special Note About the Affordable Care Act and Your 2014 Tax Return

The following information does not affect your 2013 tax return. However, when you file your 2014 tax return in 2015, you and your family will have to document that you had health care coverage throughout 2014. Under certain circumstances, you may be entitled to an exemption if you did not maintain coverage in 2014. Otherwise, you may need to make a payment with the 2014 return.

For more information on the payment or exemptions, visit www.irs.gov/aca.

If you currently have qualifying health care coverage, you will not need to do anything more than maintain that coverage throughout 2014. If you buy insurance through the Health Insurance Marketplace, you may be eligible for an advance payment of the Premium Tax Credit to help pay for your insurance coverage.

If you are receiving an advance payment of the Premium Tax Credit during 2014, you should report changes in your income or family size to your Marketplace. By reporting changes promptly, you can make adjustments that will help you get the correct amount. Receiving too much or too little in advance will affect your refund or balance due when you file your 2014 tax return in 2015.

Visit www.irs.gov/aca for information on the tax provisions of the Affordable Care Act and www.HHS.gov/aca for Marketplace information.

**Gross income means all income you received in the form of money, goods, property, and services that is not exempt from tax, including any income from sources outside the United States or from the sale of your main home (even if you can exclude part or all of it). Do not include any social security benefits unless (a) you are married filing a separate return and you lived with your spouse at any time in 2013 or (b) one-half of your social security benefits plus your other gross income and any tax-exempt interest is more than \$25,000 (\$32,000 if married filing jointly). If (a) or (b) applies, see the instructions for lines 20a and 20b to figure the taxable part of social security benefits you must include in gross income. Gross income includes gains, but not losses, reported on Form 8949 or Schedule D. Gross income from a business means, for example, the amount on Schedule C, line 7, or Schedule F, line 9. But, in figuring gross income, do not reduce your income by any losses, including any loss on Schedule C, line 7, or Schedule F, line 9.

***If you did not live with your spouse at the end of 2013 (or on the date your spouse died) and your gross income was at least \$3,900, you must file a return regardless of your age.

These rules apply to all U.S. citizens, regardless of where they live, and resident aliens.

Have you tried IRS e-file? It's the fastest way to get your refund and it's free if you are eligible. Visit IRS.gov for details.

2013. Do not use Form 8814 for such a child.

Resident aliens. These rules also apply if you were a resident alien. Also, you may qualify for certain tax treaty benefits. See Pub. 519 for details.

Nonresident aliens and dual-status aliens. These rules also apply if you were a nonresident alien or a dual-status alien and both of the following apply.

- You were married to a U.S. citizen or resident alien at the end of 2013.
 - You elected to be taxed as a resident alien.
- See Pub. 519 for details.

Specific rules apply to determine if you are a resident alien, nonresident alien, or dual-status alien. Most nonresident aliens and dual-status aliens have different filing requirements and may have to file Form 1040NR or Form 1040NR-EZ. Pub. 519 discusses these requirements and other information to help aliens comply with U.S. tax law.

When and Where Should You File?

File Form 1040 by April 15, 2014. If you file after this date, you may have to pay interest and penalties. See *Interest and Penalties*, later.

If you were serving in, or in support of, the U.S. Armed Forces in a designated combat zone or contingency operation, you may be able to file later. See Pub. 3 for details.

Filing instructions and addresses are at the end of these instructions.

What if You Cannot File on Time?

You can get an automatic 6-month extension if, no later than the date your return is due, you file Form 4868. For details, see Form 4868.

Filing Requirements

Do You Have To File?

Use Chart A, B, or C to see if you must file a return. U.S. citizens who lived in or had income from a U.S. possession should see Pub. 570. Residents of Puerto Rico can use TeleTax topic 901 to see if they must file.

Even if you do not otherwise have to file a return, you should file one to get a refund of any federal income tax withheld. You should also file if you are eligible for any of the following credits.

- Earned income credit.
- Additional child tax credit.
- American opportunity credit.
- Credit for federal tax on fuels.
- Health coverage tax credit.

See Pub. 501 for details. Also see Pub. 501 if you do not have to file but received a Form 1099-B (or substitute statement).

Premium Tax Credit. You do not need to file a 2013 federal tax return solely to establish eligibility or qualify for advance payment of the Premium Tax Credit. Visit www.irs.gov/aca for information on the tax provisions of the Affordable Care Act and www.HealthCare.gov for Marketplace information.

Exception for certain children under age 19 or full-time students. If certain conditions apply, you can elect to include on your return the income of a child who was under age 19 at the end of 2013 or was a full-time student under age 24 at the end of 2013. To do so, use Form 8814. If you make this election, your child does not have to file a return. For details, use TeleTax topic 553 or see Form 8814.

A child born on January 1, 1990, is considered to be age 24 at the end of

CAUTION An automatic 6-month extension to file does not extend the time to pay your tax. If you do not pay your tax by the original due date of your return, you will owe interest on the unpaid tax and may owe penalties. See Form 4868.

If you are a U.S. citizen or resident alien, you may qualify for an automatic extension of time to file without filing Form 4868. You qualify if, on the due date of your return, you meet one of the following conditions.

- You live outside the United States and Puerto Rico and your main place of business or post of duty is outside the United States and Puerto Rico.
- You are in military or naval service on duty outside the United States and Puerto Rico.

This extension gives you an extra 2 months to file and pay the tax, but interest will be charged from the original due date of the return on any unpaid tax. You must include a statement showing that you meet the requirements. If you are still unable to file your return by the end of the 2-month period, you can get an additional 4 months if, no later than June 16, 2014, you file Form 4868. This 4-month extension of time to file does not extend the time to pay your tax. See Form 4868.

TIP You may be able to file as head of household if you had a child living with you and you lived apart from your spouse during the last 6 months of 2013. See Married persons who live apart.

Line 4

Head of Household

This filing status is for unmarried individuals who provide a home for certain other persons. You are considered unmarried for this purpose if any of the following applies.

- You were legally separated according to your state law under a decree of divorce or separate maintenance at the end of 2013. But if, at the end of 2013, your divorce was not final (an interlocutory decree), you are considered married.
- You are married but lived apart from your spouse for the last 6 months of 2013 and you meet the other rules under *Married persons who live apart*.

• You are married to a nonresident alien at any time during the year and you do not choose to treat him or her as a resident alien.

Check the box on line 4 only if you are unmarried (or considered unmarried) and either *Test 1* or *Test 2* applies.

Test 1. You paid over half the cost of keeping up a home that was the main home for all of 2013 of your parent whom you can claim as a dependent, except under a multiple support agreement (see the line 6c instructions). Your parent did not have to live with you.

Test 2. You paid over half the cost of keeping up a home in which you lived and in which one of the following also lived for more than half of the year (if half or less, see *Exception to time lived with you*).

1. Any person whom you can claim as a dependent. But do not include:

- a. Your child whom you claim as your dependent because of the rule for *Children of divorced or separated parents* in the line 6c instructions.
- b. Any person who is your dependent only because he or she lived with you for all of 2013, or

any person who is your dependent only because he or she lived with you for all of 2013, or

file a joint return, you cannot choose to file separate returns for that year after the due date of the return.

Joint and several tax liability. If you file a joint return, both you and your spouse are generally responsible for the tax and interest or penalties due on the return. This means that if one spouse does not pay the tax due, the other may have to. Or, if one spouse does not report the correct tax, both spouses may be responsible for any additional taxes assessed by the IRS. You may want to file separately if:

- You believe your spouse is not reporting all of his or her income, or
- You do not want to be responsible for any taxes due if your spouse does not have enough tax withheld or does not pay enough estimated tax.

See the instructions for line 3. Also see *Innocent Spouse Relief* under *General Information*, later.

Nonresident aliens and dual-status aliens. Generally, a married couple cannot file a joint return if either spouse is a nonresident alien at any time during the year. However, if you were a nonresident alien or a dual-status alien and were married to a U.S. citizen or resident alien at the end of 2013, you can elect to be treated as a resident alien and file a joint return. See Pub. 519 for details.

Line 3

Married Filing Separately

If you are married and file a separate return, you generally report only your own income, exemptions, deductions, and credits. Generally, you are responsible only for the tax on your own income. Different rules apply to people in community property states; see Pub. 555.

However, you will usually pay more tax than if you use another filing status for which you qualify. Also, if you file a separate return, you cannot take the student loan interest deduction, the tuition and fees deduction, the education credits, or the earned income credit. You also cannot take the standard deduction if your spouse itemizes deductions.

Be sure to enter your spouse's SSN or ITIN on Form 1040. If your spouse does not have and is not required to have an SSN or ITIN, enter "NRA."

includes an individual married to a person of the same sex, if the couple is lawfully married under state (or foreign) law. However, individuals who have entered into a registered domestic partnership, civil union, or other similar relationship that is not considered a marriage under state (or foreign) law are not considered married for federal tax purposes. For more details, see Pub. 501.

TIP More than one filing status can apply to you. You can choose the one that will give you the lowest tax.

Line 1

Single

You can check the box on line 1 if any of the following was true on December 31, 2013.

- You were never married.
- You were legally separated according to your state law under a decree of divorce or separate maintenance. But, if, at the end of 2013, your divorce was not final (an interlocutory decree), you are considered married and cannot check the box on line 1.
- You were widowed before January 1, 2013, and did not remarry before the end of 2013. But if you have a dependent child, you may be able to use the qualifying widow(er) filing status. See the instructions for line 5.

Line 2

Married Filing Jointly

You can check the box on line 2 if any of the following apply.

- You were married at the end of 2013, even if you did not live with your spouse at the end of 2013.
- Your spouse died in 2013 and you did not remarry in 2013.
- You were married at the end of 2013, and your spouse died in 2014 before filing a 2013 return.

A married couple filing jointly report their combined income and deduct their combined allowable expenses on one return. They can file a joint return even if only one had income or if they did not live together all year. However, both persons must sign the return. Once you

Name and Address

Print or type the information in the spaces provided. If you are married filing a separate return, enter your spouse's name on line 3 instead of below your name.

TIP If you filed a joint return for 2012 and you are filing a joint return for 2013 with the same spouse, be sure to enter your names and SSNs in the same order as on your 2012 return.

Name Change

If you changed your name because of marriage, divorce, etc., be sure to report the change to the Social Security Administration (SSA) before filing your return. This prevents delays in processing your return and issuing refunds. It also safeguards your future social security benefits.

Address Change

If you plan to move after filing your return, use Form 8822 to notify the IRS of your new address.

P.O. Box

Enter your box number only if your post office does not deliver mail to your home.

Foreign Address

If you have a foreign address, enter the city name on the appropriate line. Do not enter any other information on that line, but also complete the spaces below that line. Do not abbreviate the country name. Follow the country's practice for entering the postal code and the name of the province, county, or state.

benefits or change your employment or immigration status under U.S. law.

Nonresident Alien Spouse

If your spouse is a nonresident alien, he or she must have either an SSN or an ITIN if:

- You file a joint return,
- You file a separate return and claim an exemption for your spouse, or
- Your spouse is filing a separate return.

Presidential Election Campaign Fund

This fund helps pay for Presidential election campaigns. The fund reduces candidates' dependence on large contributions from individuals and groups and places candidates on an equal financial footing in the general election. If you want \$3 to go to this fund, check the box. If you are filing a joint return, your spouse can also have \$3 go to the fund. If you check a box, your tax or refund will not change.

Filing Status

Check only the filing status that applies to you. The ones that will usually give you the lowest tax are listed last.

- Married filing separately.
- Single.
- Head of household.
- Married filing jointly or qualifying widow(er) with dependent child.

Same-sex marriage. For federal tax purposes, individuals of the same sex are considered married if they were lawfully married in a state (or foreign country) whose laws authorize the marriage of two individuals of the same sex, even if the state (or foreign country) in which they now live does not recognize same-sex marriage. The term "spouse"

Social Security Number (SSN)

An incorrect or missing SSN can increase your tax, reduce your refund, or delay your refund. To apply for an SSN, fill in Form SS-5 and return it, along with the appropriate evidence documents, to the Social Security Administration (SSA). You can get Form SS-5 online at www.socialsecurity.gov, from your local SSA office, or by calling the SSA at 1-800-772-1213. It usually takes about 2 weeks to get an SSN once the SSA has all the evidence and information it needs.

Check that both the name and SSN on your Forms 1040, W-2, and 1099 agree with your social security card. If they do not, certain deductions and credits on your Form 1040 may be reduced or disallowed and you may not receive credit for your social security earnings. If your Form W-2 shows an incorrect SSN or name, notify your employer or the form-issuing agent as soon as possible to make sure your earnings are credited to your social security record. If the name or SSN on your social security card is incorrect, call the SSA.

IRS Individual Taxpayer Identification Numbers (ITINs) for Aliens

If you are a nonresident or resident alien and you do not have and are not eligible to get an SSN, you must apply for an ITIN. For details on how to do so, see Form W-7 and its instructions. It takes 6 to 10 weeks to get an ITIN.

If you already have an ITIN, enter it wherever your SSN is requested on your tax return.

Note. An ITIN is for tax use only. It does not entitle you to social security

c. Any person you claimed as a dependent under a multiple support agreement. See the line 6c instructions.

2. Your unmarried qualifying child who is not your dependent.

3. Your married qualifying child who is not your dependent only because you can be claimed as a dependent on someone else's 2013 return.

4. Your qualifying child who, even though you are the custodial parent, is not your dependent because of the rule for *Children of divorced or separated parents* in the line 6c instructions.

If the child is not your dependent, enter the child's name on line 4. If you do not enter the name, it will take us longer to process your return.

Qualifying child. To find out if someone is your qualifying child, see Step 1 of the line 6c instructions.

Dependent. To find out if someone is your dependent, see the instructions for line 6c.

Exception to time lived with you. Temporary absences by you or the other person for special circumstances, such as school, vacation, business, medical care, military service, or detention in a juvenile facility, count as time lived in the home. Also see *Kidnapped child* in the line 6c instructions, if applicable.

If the person for whom you kept up a home was born or died in 2013, you still may be able to file as head of household. If the person is your qualifying child, the child must have lived with you for more than half the part of the year he or she was alive. If the person is anyone else, see Pub. 501.

Keeping up a home. To find out what is included in the cost of keeping up a home, see Pub. 501.

If you used payments you received under Temporary Assistance for Needy Families (TANF) or other public assistance programs to pay part of the cost of keeping up your home, you cannot count them as money you paid. However, you must include them in the total cost of keeping up your home to figure if you paid over half the cost.

Married persons who live apart. Even if you were not divorced or legally separated at the end of 2013, you are consid-

ered unmarried if all of the following apply.

- You lived apart from your spouse for the last 6 months of 2013. Temporary absences for special circumstances, such as for business, medical care, school, or military service, count as time lived in the home.
- You file a separate return from your spouse.
- You paid over half the cost of keeping up your home for 2013.
- Your home was the main home of your child, stepchild, or foster child for more than half of 2013 (if half or less, see *Exception to time lived with you*, earlier).
- You can claim this child as your dependent or could claim the child except that the child's other parent can claim him or her under the rule for *Children of divorced or separated parents* in the line 6c instructions.

Adopted child. An adopted child is always treated as your own child. An adopted child includes a child lawfully placed with you for legal adoption.

Foster child. A foster child is any child placed with you by an authorized placement agency or by judgment, decree, or other order of any court of competent jurisdiction.

Foster child. A foster child is any child placed with you by an authorized placement agency or by judgment, decree, or other order of any court of competent jurisdiction.

Line 5

Qualifying Widow(er) With Dependent Child

You can check the box on line 5 and use joint return tax rates for 2013 if all of the following apply.

- Your spouse died in 2011 or 2012 and you did not remarry before the end of 2013.
- You have a child or stepchild you can claim as a dependent. This does not include a foster child.
- This child lived in your home for all of 2013. If the child did not live with you for the required time, see *Exception to time lived with you*, later.
- You paid over half the cost of keeping up your home.
- You could have filed a joint return with your spouse the year he or she died, even if you did not actually do so.

If your spouse died in 2013, you cannot file as qualifying widow(er) with de-

pendent child. Instead, see the instructions for line 2.

Adopted child. An adopted child is always treated as your own child. An adopted child includes a child lawfully placed with you for legal adoption.

Dependent. To find out if someone is your dependent, see the instructions for line 6c.

Exception to time lived with you. Temporary absences by you or the child for special circumstances, such as school, vacation, business, medical care, military service, or detention in a juvenile facility, count as time lived in the home. Also see *Kidnapped child* in the line 6c instructions, if applicable.

A child is considered to have lived with you for all of 2013 if the child was born or died in 2013 and your home was the child's home for the entire time he or she was alive.

Keeping up a home. To find out what is included in the cost of keeping up a home, see Pub. 501.

If you used payments you received under Temporary Assistance for Needy Families (TANF) or other public assistance programs to pay part of the cost of keeping up your home, you cannot count them as money you paid. However, you must include them in the total cost of keeping up your home to figure if you paid over half the cost.

Exemptions

You usually can deduct \$3,900 on line 42 for each exemption you can take.

Line 6b

Spouse

Check the box on line 6b if either of the following applies.

1. Your filing status is married filing jointly and your spouse cannot be claimed as a dependent on another person's return.
2. You were married at the end of 2013, your filing status is married filing separately or head of household, and both of the following apply.
 - a. Your spouse had no income and is not filing a return.

b. Your spouse cannot be claimed as a dependent on another person's return.

If your filing status is head of household and you check the box on line 6b, enter the name of your spouse on the dotted line next to line 6b. Also, enter your spouse's social security number in

the space provided at the top of your return. If you became divorced or legally separated during 2013, you cannot take an exemption for your former spouse.

Death of your spouse. If your spouse died in 2013 and you did not remarry by the end of 2013, check the box on line 6b if you could have taken an exemption for your spouse on the date of death. For other filing instructions, see *Death of a Taxpayer* under *General Information*, later.

2013 Form 1040—Line 6c

Line 6c—Dependents**Dependents and Qualifying Child for Child Tax Credit**

Follow the steps below to find out if a person qualifies as your dependent, qualifies you to take the child tax credit, or both. If you have more than four dependents, check the box to the left of line 6c and include a statement showing the information required in columns (1) through (4).

Step 1 Do You Have a Qualifying Child?

A qualifying child is a child who is your...

Son, daughter, stepchild, foster child, brother, sister, stepbrother, stepsister, half brother, half sister, or a descendant of any of them (for example, your grandchild, niece, or nephew)

Under age 19 at the end of 2013 and younger than you (or your spouse, if filing jointly)

Under age 24 at the end of 2013, a student (defined later), and younger than you (or your spouse, if filing jointly)

Any age and permanently and totally disabled (defined later)

Who did not provide over half of his or her own support for 2013 (see Pub 501)

Who is not filing a joint return for 2013 or is filing a joint return for 2013 only to claim a refund of withheld income tax or estimated tax paid (see Pub. 501 for details and examples)

Who lived with you for more than half of 2013. If the child did not live with you for the required time, see *Exception to time lived with you, later*.

If the child meets the conditions to be a qualifying child of any other person (other than your spouse if filing jointly) for 2013, see Qualifying child of more than one person, later.

Step 4 Is Your Qualifying Relative Your Dependent?

A qualifying relative is a person who is your...

Son, daughter, stepchild, foster child, or a descendant of any of them (for example, your grandchild)

or

Brother, sister, half brother, half sister, or a son or daughter of any of them (for example, your niece or nephew)

or

Father, mother, or an ancestor or sibling of either of them (for example, your grandmother, grandfather, aunt, or uncle)

or

Stepbrother, stepsister, stepfather, stepmother, son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law

or

Any other person (other than your spouse) who lived with you all year as a member of your household if your relationship did not violate local law. If the person did not live with you for the required time, see *Exception to time lived with you, later*

Who was not a qualifying child (see Step 1) of any taxpayer for 2013. For this purpose, a person is not a taxpayer if he or she is not required to file a U.S. income tax return and either does not file such a return or files only to get a refund of withheld income tax or estimated tax paid. See Pub. 501 for details and examples

Who had gross income of less than \$3,900 in 2013. If the person was permanently and totally disabled, see *Exception to gross income test, later*

For whom you provided over half of his or her support in 2013. But see *Children of divorced or separated parents, Multiple support agreements, and Kidnapped child, later*.

2013 Form 1040—Line 6c

☐ Yes. Continue ☐ No. Go to Form 1040, line 7.

2. Was your qualifying relative a U.S. citizen, U.S. national, U.S. resident alien, or a resident of Canada or Mexico? (See Pub. 519 for the definition of a U.S. national or U.S. resident alien. If your qualifying relative was adopted, see *Exception to citizen test, later*.)

☐ Yes. Continue ☐ No. You cannot claim this person as a dependent.

3. Was your qualifying relative married?

☐ Yes. See *Married person, later*. ☐ No. Continue

4. Could you, or your spouse if filing jointly, be claimed as a dependent on someone else's 2013 tax return? See Steps 1, 2, and 4.

☐ Yes. You can claim this person as a dependent. Complete Form 1040, line 6c, columns (1) through (3). Do not check the box on Form 1040, line 6c, column (4). ☐ No. You cannot claim any dependents. Go to Form 1040, line 7.

Definitions and Special Rules

Adopted child. An adopted child is always treated as your own child. An adopted child includes a child lawfully placed with you for legal adoption.

Adoption taxpayer identification numbers (ATINs). If you have a dependent who was placed with you for legal adoption and you do not know his or her SSN, you must get an ATIN for the dependent from the IRS. See Form W-7A for details. If the dependent is not a U.S. citizen or resident alien, apply for an ITIN instead, using Form W-7.

Children of divorced or separated parents. A child will be treated as the qualifying child or qualifying relative of his or her noncustodial parent (defined later) if all of the following conditions apply.

1. The parents are divorced, legally separated, separated under a written separation agreement, or lived apart at all times during the last 6 months of 2013 (whether or not they are or were married).
2. The child received over half of his or her support for 2013 from the parents (and the rules on *Multiple support agreements, later*, do not apply). Support of a child received from a parent's spouse is treated as provided by the parent.
3. The child is in custody of one or both of the parents for more than half of 2013.
4. Either of the following applies.

-17-

Need more information or forms? Visit IRS.gov.

2013 Form 1040—Line 6c

a. The custodial parent signs Form 8332 or a substantially similar statement that he or she will not claim the child as a dependent for 2013, and the noncustodial parent includes a copy of the form or statement with his or her return. If the divorce decree or separation agreement went into effect after 1984 and before 2009, the noncustodial parent may be able to include certain pages from the decree or agreement instead of Form 8332. See *Post-1984 and pre-2009 decree or agreement* and *Post-2008 decree or agreement*.

b. A pre-1985 decree of divorce or separate maintenance or written separation agreement between the parents provides that the noncustodial parent can claim the child as a dependent, and the noncustodial parent provides at least \$600 for support of the child during 2013.

If conditions (1) through (4) apply, only the noncustodial parent can claim the child for purposes of the dependency exemption (line 6c) and the child tax credits (lines 51 and 65). However, this special rule does not apply to head of household filing status, the credit for child and dependent care expenses, the exclusion for dependent care benefits, the earned income credit, or the health coverage tax credit. See Pub. 501 for details.

Custodial and noncustodial parents. The custodial parent is the parent with whom the child lived for the greater number of nights in 2013. The noncustodial parent is the other parent. If the child was with each parent for an equal number of nights, the custodial parent is the parent with the higher adjusted gross income. See Pub. 501 for an exception for a parent who works at night, rules for a child who is emancipated under state law, and other details.

Post-1984 and pre-2009 decree or agreement. The decree or agreement must state all three of the following.

1. The noncustodial parent can claim the child as a dependent without regard to any condition, such as payment of support.
2. The other parent will not claim the child as a dependent.
3. The years for which the claim is released.

The noncustodial parent must include all of the following pages from the decree or agreement.

- Cover page (include the other parent's SSN on that page).
- The pages that include all the information identified in (1) through (3) above.
- Signature page with the other parent's signature and date of agreement.

 You must include the required information even if you filed it with your return in an earlier year.

Post-2008 decree or agreement. If the divorce decree or separation agreement went into effect after 2008, the noncustodial parent cannot include pages from the decree or agreement instead of Form 8332. The custodial parent must sign either Form 8332 or a substantially similar statement the only purpose of which is to release the custodial parent's claim to an exemption for a child, and the noncustodial parent must include a copy with his or her return. The form or statement must release the custodial parent's claim to the child without any conditions. For

example, the release must not depend on the noncustodial parent paying support.

Release of exemption revoked. A custodial parent who has revoked his or her previous release of a claim to exemption for a child must include a copy of the revocation with his or her return. For details, see Form 8332.

Exception to citizen test. If you are a U.S. citizen or U.S. national and your adopted child lived with you all year as a member of your household, that child meets the requirement to be a U.S. citizen in Step 2, question 1; Step 3, question 2; and Step 4, question 2.

Exception to gross income test. If your relative (including a person who lived with you all year as a member of your household) is permanently and totally disabled (defined later), certain income for services performed at a sheltered workshop may be excluded for this test. For details, see Pub. 501.

Exception to time lived with you. Temporary absences by you or the other person for special circumstances, such as school, vacation, business, medical care, military service, or detention in a juvenile facility, count as time the person lived with you. Also see *Children of divorced or separated parents*, earlier, or *Kidnapped child*, later.

If the person meets all other requirements to be your qualifying child but was born or died in 2013, the person is considered to have lived with you for more than half of 2013 if your home was this person's home for more than half the time he or she was alive in 2013.

Any other person is considered to have lived with you for all of 2013 if the person was born or died in 2013 and your home was this person's home for the entire time he or she was alive in 2013.

Foster child. A foster child is any child placed with you by an authorized placement agency or by judgment, decree, or other order of any court of competent jurisdiction.

Kidnapped child. If your child is presumed by law enforcement authorities to have been kidnapped by someone who is not a family member, you may be able to take the child into account in determining your eligibility for head of household or qualifying widow(er) filing status, the dependency exemption, the child tax credit, and the earned income credit (EIC). For details, see Pub. 501 (Pub. 596 for the EIC).

Married person. If the person is married and files a joint return, you cannot claim that person as your dependent. However, if the person is married but does not file a joint return or files a joint return only to claim a refund of withheld income tax or estimated tax paid, you may be able to claim him or her as a dependent. (See Pub. 501 for details and examples.) In that case, go to Step 2, question 3 (for a qualifying child) or Step 4, question 4 (for a qualifying relative).

Multiple support agreements. If no one person contributed over half of the support of your relative (or a person who lived with you all year as a member of your household) but you and another person(s) provided more than half of your relative's

support, special rules may apply that would treat you as having provided over half of the support. For details, see Pub. 501.

Permanently and totally disabled. A person is permanently and totally disabled if, at any time in 2013, the person cannot engage in any substantial gainful activity because of a physical or mental condition and a doctor has determined that this condition has lasted or can be expected to last continuously for at least a year or can be expected to lead to death.

Qualifying child of more than one person. Even if a child meets the conditions to be the qualifying child of more than one person, only one person can claim the child as a qualifying child for all of the following tax benefits, unless the special rule for *Children of divorced or separated parents*, described earlier, applies.

1. Dependency exemption (line 6c).
2. Child tax credits (lines 51 and 65).
3. Head of household filing status (line 4).
4. Credit for child and dependent care expenses (line 48).
5. Exclusion for dependent care benefits (Form 2441, Part III).
6. Earned income credit (lines 64a and 64b).

No other person can take any of the six tax benefits listed above unless he or she has a different qualifying child. If you and any other person can claim the child as a qualifying child, the following rules apply.

- If only one of the persons is the child's parent, the child is treated as the qualifying child of the parent.
- If the parents file a joint return together and can claim the child as a qualifying child, the child is treated as the qualifying child of the parents.

• If the parents do not file a joint return together but both parents claim the child as a qualifying child, the IRS will treat the child as the qualifying child of the parent with whom the child lived for the longer period of time in 2013. If the child lived with each parent for the same amount of time, the IRS will treat the child as the qualifying child of the parent who had the higher adjusted gross income (AGI) for 2013.

• If no parent can claim the child as a qualifying child, the child is treated as the qualifying child of the person who had the highest AGI for 2013.

- If a parent can claim the child as a qualifying child but no parent does so claim the child, the child is treated as the qualifying

ing child of the person who had the highest AGI for 2013, but only if that person's AGI is higher than the highest AGI of any parent of the child who can claim the child.

Example. Your daughter meets the conditions to be a qualifying child for both you and your mother. Your daughter does not meet the conditions to be a qualifying child of any other person, including her other parent. Under the rules just described, you can claim your daughter as a qualifying child for all of the six tax benefits just listed for which you otherwise qualify. Your mother cannot claim any of those six tax benefits unless she has a different qualifying child. However, if your mother's AGI is higher than yours and you do not claim your daughter as a qualifying child, your daughter is the qualifying child of your mother.

For more details and examples, see Pub. 501.

If you will be claiming the child as a qualifying child, go to Step 2. Otherwise, stop; you cannot claim any benefits based on this child.

Social security number. You must enter each dependent's social security number (SSN). Be sure the name and SSN entered agree with the dependent's social security card. Otherwise, at the time we process your return, we may disallow the exemption claimed for the dependent and reduce or disallow any other tax benefits (such as the child tax credit) based on that dependent. If the name or SSN on the dependent's social security card is not correct or you need to get an SSN for your dependent, contact the Social Security Administration. See *Social Security Number (SSN)*, earlier. If your dependent will not have a number by the date your return is due, see *What if You Cannot File on Time?* earlier.

If your dependent child was born and died in 2013 and you do not have an SSN for the child, enter "Died" in column (2) and include a copy of the child's birth certificate, death certificate, or hospital records. The document must show the child was born alive.

Student. A student is a child who during any part of 5 calendar months of 2013 was enrolled as a full-time student at a school, or took a full-time, on-farm training course given by a school or a state, county, or local government agency. A school includes a technical, trade, or mechanical school. It does not include an on-the-job training course, correspondence school, or school offering courses only through the Internet.

2013 Form 1040—Line 7

Income

Generally, you must report all income except income that is exempt from tax by law. For details, see the following instructions, especially the instructions for lines 7 through 21. Also see Pub. 525.

Foreign-Source Income

You must report unearned income, such as interest, dividends, and pensions, from sources outside the United States, unless exempt by law or a tax treaty. You must also report earned income, such as wages and tips, from sources outside the United States.

If you worked abroad, you may be able to exclude part or all of your foreign earned income. For details, see Pub. 54 and Form 2555 or 2555-EZ.

Foreign retirement plans. If you were a beneficiary of a foreign retirement plan, you may have to report the undistributed income earned in your plan. However, if you were the beneficiary of a Canadian registered retirement plan, see Form 8891 to find out if you can elect to defer tax on the undistributed income.

Report distributions from foreign pension plans on lines 16a and 16b.

Foreign accounts and trusts. You must complete Part III of Schedule B if you:

- Had a foreign account, or
- Received a distribution from, or were a grantor of, or a transferor to, a foreign trust.

If you had foreign financial assets in 2013, you may have to file Form 8938. See Form 8938 and its instructions.

Chapter 11 Bankruptcy Cases

If you are a debtor in a chapter 11 bankruptcy case, income taxable to the bankruptcy estate and reported on the estate's income tax return includes:

- Earnings from services you performed after the beginning of the case (both wages and self-employment income), and
- Income from property described in section 541 of title 11 of the U.S. Code that you either owned when the case began or that you acquired after the case

began and before the case was closed, dismissed, or converted to a case under a different chapter.

Because this income is taxable to the estate, do not include this income on your own individual income tax return. The only exception is for purposes of figuring your self-employment tax. For that purpose, you must take into account all your self-employment income for the year from services performed both before and after the beginning of the case.

Also, you (or the trustee, if one is appointed) must allocate between you and the bankruptcy estate the wages, salary, or other compensation and withheld income tax reported to you on Form W-2. A similar allocation is required for income and withheld income tax reported to you on Forms 1099. You must also include a statement that indicates you filed a chapter 11 case and that explains how income and withheld income tax reported to you on Forms W-2 and 1099 are allocated between you and the estate. For more details, including acceptable allocation methods, see Notice 2006-83, 2006-40 IRB 596, available at www.irs.gov/irb2006-40_IRB/ar12.html.

Community Property States

Community property states are Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, Washington, and Wisconsin. If you and your spouse lived in a community property state, you must usually follow state law to determine what is community income and what is separate income. For details, see Form 8958 and Pub. 555.

Nevada, Washington, and California domestic partners. A registered domestic partner in Nevada, Washington, or California generally must report half the combined community income of the individual and his or her domestic partner. See Form 8958 and Pub. 555.

Rounding Off to Whole Dollars

You can round off cents to whole dollars on your return and schedules. If you do round to whole dollars, you must round all amounts. To round, drop amounts under 50 cents and increase amounts from 50 to 99 cents to the next dollar. For ex-

- Scholarship and fellowship grants not reported on Form W-2. Also, enter "SCH" and the amount on the dotted line next to line 7. However, if you were a degree candidate, include on line 7 only the amounts you used for expenses other than tuition and course-related expenses. For example, amounts used for room, board, and travel must be reported on line 7.
- Excess salary deferrals. The amount deferred should be shown in box 12 of your Form W-2, and the "Retirement plan" box in box 13 should be checked. If the total amount you (or your spouse if filing jointly) deferred for 2013 under all plans was more than \$17,500 (excluding catch-up contributions as explained later), include the excess on line 7. This limit is (a) \$12,000 if you only have SIMPLE plans, or (b) \$20,500 for section 403(b) plans if you qualify for the 15-year rule in Pub. 571. Although designated Roth contributions are subject to this limit, do not include the excess attributable to such contributions on line 7. They are already included as income in box 1 of your Form W-2.

A higher limit may apply to participants in section 457(b) deferred compensation plans for the 3 years before retirement age. Contact your plan administrator for more information.

If you were age 50 or older at the end of 2013, your employer may have allowed an additional deferral (catch-up contributions) of up to \$5,500 (\$2,500 for section 401(k)(1) and SIMPLE plans). This additional deferral amount is not subject to the overall limit on elective deferrals.

You cannot deduct the amount deferred. It is not included as income in box 1 of your Form W-2.

Disability pensions shown on Form 1099-R if you have not reached the minimum retirement age set by your employer. But see *Insurance Premiums for Retired Public Safety Officers* in the instructions for lines 16a and 16b. Disability pensions received after you reach minimum retirement age and other payments shown on Form 1099-R (other than payments from an IRA*) are reported on lines 16a and 16b. Payments from

an IRA are reported on lines 15a and 15b.

- Corrective distributions from a retirement plan shown on Form 1099-R of excess salary deferrals and excess contributions (plus earnings). But do not include distributions from an IRA* on line 7. Instead, report distributions from an IRA on lines 15a and 15b.
- Wages from Form 8919, line 6.

**This includes a Roth, SEP, or SIMPLE IRA.*

Were You a Statutory Employee?

If you were, the "Statutory employee" box in box 13 of your Form W-2 should be checked. Statutory employees include full-time life insurance salespeople and certain agent or commission drivers, traveling salespeople, and homeworkers. If you have related business expenses to deduct, report the amount shown in box 1 of your Form W-2 on Schedule C or C-EZ along with your expenses.

Missing or Incorrect Form W-2?

Your employer is required to provide or send Form W-2 to you no later than January 31, 2014. If you do not receive it by early February, use TeleTax topic 154 to find out what to do. Even if you do not get a Form W-2, you must still report your earnings on line 7. If you lose your Form W-2 or it is incorrect, ask your employer for a new one.

Line 8a

Taxable Interest

Each payer should send you a Form 1099-INT or Form 1099-OID. Enter your total taxable interest income on line 8a. But you must fill in and attach Schedule B if the total is over \$1,500 or any of the other conditions listed at the beginning of the Schedule B instructions apply to you.

Interest credited in 2013 on deposits that you could not withdraw because of the bankruptcy or insolvency of the financial institution may not have to be included in your 2013 income. For details, see Pub. 550.

TIP If you get a 2013 Form 1099-INT for U.S. savings bond interest that includes amounts you reported before 2013, see Pub. 550.

Line 8b

Tax-Exempt Interest

If you received any tax-exempt interest, such as from municipal bonds, each payer should send you a Form 1099-INT. Your tax-exempt interest should be shown in box 8 of Form 1099-INT. Enter the total on line 8b. Also include on line 8b any exempt-interest dividends from a mutual fund or other regulated investment company. This amount should be shown in box 10 of Form 1099-DIV.

Do not include interest earned on your IRA, health savings account, Archer or Medicare Advantage MSA, or Coverdell education savings account.

Line 9a

Ordinary Dividends

Each payer should send you a Form 1099-DIV. Enter your total ordinary dividends on line 9a. This amount should be shown in box 1a of Form(s) 1099-DIV.

You must fill in and attach Schedule B if the total is over \$1,500 or you received, as a nominee, ordinary dividends that actually belong to someone else.

Nondividend Distributions

Some distributions are a return of your cost (or other basis). They will not be taxed until you recover your cost (or other basis). You must reduce your cost (or other basis) by these distributions. After you get back all of your cost (or other basis), you must report these distributions as capital gains on Form 8949. For details, see Pub. 550.

☐ Yes. Subtract line 5 from line 2

7. **Taxable part of your refund.** Enter the **smaller** of line 1 or line 6 here and on Form 1040, line 10 7.

2013 of an amount deducted or credit claimed in an earlier year.

3. The amount on your 2012 Form 1040, line 42, was more than the amount on your 2012 Form 1040, line 41.

4. You had taxable income on your 2012 Form 1040, line 43, but no tax on your 2012 Form 1040, line 44, because of the 0% tax rate on net capital gain and qualified dividends in certain situations.

5. Your 2012 state and local income tax refund is more than your 2012 state and local income tax deduction minus the amount you could have deducted as your 2012 state and local general sales taxes.

6. You made your last payment of 2012 estimated state or local income tax in 2013.

7. You owed alternative minimum tax in 2012.

10. You received a refund because of a jointly filed state or local income tax return, but you are not filing a joint 2013 Form 1040 with the same person.

your social security number. If you do not, you may have to pay a penalty. For more details, see Pub. 504.

Line 12

Business Income or (Loss)

If you operated a business or practiced your profession as a sole proprietor, report your income and expenses on Schedule C or C-EZ.

Line 13

Capital Gain or (Loss)

If you sold a capital asset, such as a stock or bond, you must complete and attach Form 8949 and Schedule D.

Line 11

Alimony Received

Enter amounts received as alimony or separate maintenance. You must let the person who made the payments know

ject to the 61-day holding period rule just described.

- Dividends on any share of stock to the extent that you are under an obligation (including a short sale) to make related payments with respect to positions in substantially similar or related property.
- Payments in lieu of dividends, but only if you know or have reason to know that the payments are not qualified dividends.

Example 1. You bought 5,000 shares of XYZ Corp. common stock on July 8, 2013. XYZ Corp. paid a cash dividend of 10 cents per share. The ex-dividend date was July 16, 2013. Your Form 1099-DIV from XYZ Corp. shows \$500 in box 1a (ordinary dividends) and in box 1b (qualified dividends). However, you sold the 5,000 shares on August 11, 2013. You held your shares of XYZ Corp. for only 34 days of the 121-day period (from July 9, 2013, through August 11, 2013). The 121-day period began on May 17, 2013 (60 days before the ex-dividend date), and ended on September 14, 2013. You have no qualified dividends from XYZ Corp. because you held the XYZ stock for less than 61 days.

Example 2. Assume the same facts as in Example 1 except that you bought the stock on July 15, 2013 (the day before the ex-dividend date), and you sold the stock on September 16, 2013. You held the stock for 63 days (from July 16, 2013, through September 16, 2013). The \$500 of qualified dividends shown in box 1b of Form 1099-DIV are all qualified dividends because you held the stock for 61 days of the 121-day period (from July 16, 2013, through September 14, 2013).

Example 3. You bought 10,000 shares of ABC Mutual Fund common stock on July 8, 2013. ABC Mutual Fund paid a cash dividend of 10 cents a share. The ex-dividend date was July 16, 2013. The ABC Mutual Fund advises you that the portion of the dividend eligible to be treated as qualified dividends equals 2 cents per share. Your Form 1099-DIV from ABC Mutual Fund shows total ordinary dividends of \$1,000 and qualified dividends of \$200. However, you sold the 10,000 shares on August 11, 2013. You have no qualified

dividends from ABC Mutual Fund because you held the stock for less than 61 days.

Exception. See **Itemized Deduction Recovers in Pub. 525** instead of using the State and Local Income Tax Refund Worksheet in these instructions if any of the following applies:

1. You received a refund in 2013 that is for a tax year other than 2012.
2. You received a refund other than an income tax refund, such as a general sales tax or real property tax refund, in 2013.

Tip Dividends on insurance policies are a partial return of the premiums you paid. Do not report them as dividends. Include them in income on line 21 only if they exceed the total of all net premiums you paid for the contract.

Line 9b

Qualified Dividends

Enter your total qualified dividends on line 9b. Qualified dividends are also included in the ordinary dividend total required to be shown on line 9a. Qualified dividends are eligible for a lower tax rate than other ordinary income. Generally, these dividends are shown in box 1b of Form(s) 1099-DIV. See Pub. 550 for the definition of qualified dividends if you received dividends not reported on Form 1099-DIV.

Exception. Some dividends may be reported as qualified dividends in box 1b of Form 1099-DIV but are not qualified dividends. These include:

- Dividends you received as a nominee. See the Schedule B instructions.
- Dividends you received on any share of stock that you held for less than 61 days during the 121-day period that began 60 days before the ex-dividend date. The ex-dividend date is the first date following the declaration of a dividend on which the purchaser of a stock is not entitled to receive the next dividend payment. When counting the number of days you held the stock, include the day you held the stock, but not the day you disposed of the stock but not the day you acquired it. See the examples that follow. Also, when counting the number of days you held the stock, you cannot count certain days during which your risk of loss was diminished. See Pub. 550 for more details.

• Dividends attributable to periods totaling more than 366 days that you received on any share of preferred stock held for less than 91 days during the 181-day period that began 90 days before the ex-dividend date. When counting the number of days you held the stock, you cannot count certain days during which your risk of loss was diminished. See Pub. 550 for more details. Preferred dividends attributable to periods totaling less than 367 days are sub-

dividends from ABC Mutual Fund because you held the ABC Mutual Fund stock for less than 61 days.

Tip Use the **Qualified Dividends and Capital Gain Tax Worksheet**, which appears in the **Instructions for Form 1040**, to figure your tax. See the instructions for line 44 for details.

Line 10

Taxable Refunds, Credits, or Offsets of State and Local Income Taxes

Tip None of your refund is taxable if, in the year you paid the tax, you either (a) did not itemize deductions, or (b) elected to deduct state and local general sales taxes instead of state and local income taxes.

If you received a refund, credit, or offset of state or local income taxes in 2013, you may be required to report this amount. If you did not receive a Form 1099-G, check with the government agency that made the payments to you. Your 2013 Form 1099-G may have been made available to you only in an electronic format, and you will need to get instructions from the agency to retrieve this document. Report any taxable refund you received even if you did not receive Form 1099-G.

If you chose to apply part or all of the refund to your 2013 estimated state or local income tax, the amount applied is treated as received in 2013. If the refund was for a tax you paid in 2012 and you deducted state and local income taxes on line 5 of your 2012 Schedule A, use the State and Local Income Tax Refund Worksheet in these instructions to see if any of your refund is taxable.

Exception. See **Itemized Deduction Recovers in Pub. 525** instead of using the State and Local Income Tax Refund Worksheet in these instructions if any of the following applies:

1. You received a refund in 2013 that is for a tax year other than 2012.
2. You received a refund other than an income tax refund, such as a general sales tax or real property tax refund, in 2013.

2013 Form 1040—Lines 16b and 19

CAUTION If you received U.S. Civil Service retirement benefits and you chose the alternative annuity option, see Pub. 721 to figure the taxable part of your annuity. Do not use the Simplified Method Worksheet in these instructions.

must be from a plan maintained by the employer from which you retired as a public safety officer. Also, the distribution must be made directly from the plan to the provider of the accident or health plan or long-term care insurance contract. You can exclude from income the smaller of the amount of the premiums or \$3,000. You can only make this election for amounts that would otherwise be included in your income.

An eligible retirement plan is a governmental plan that is a qualified trust or a section 403(a), 403(b), or 457(b) plan.

If you make this election, reduce the otherwise taxable amount of your pension or annuity by the amount excluded. The amount shown in box 2a of Form 1099-R does not reflect the exclusion. Report your total distributions on line 16a and the taxable amount on line 16b. Enter "PSO" next to line 16b.

If you are retired on disability and reporting your disability pension on line 7, include only the taxable amount on that line and enter "PSO" and the amount excluded on the dotted line next to line 7.

Simplified Method

You must use the Simplified Method if either of the following applies.

1. Your annuity starting date was after July 1, 1986, and you used this method last year to figure the taxable part.
2. Your annuity starting date was after November 18, 1996, and both of the following apply.
 - a. The payments are from a qualified employee plan, a qualified employee annuity, or a tax-sheltered annuity.
 - b. On your annuity starting date, either you were under age 75 or the number of years of guaranteed payments was fewer than 5. See Pub. 575 for the definition of guaranteed payments.

If you must use the Simplified Method, complete the Simplified Method Worksheet in these instructions to figure the taxable part of your pension or annuity. For more details on the Simplified Method, see Pub. 575 (or Pub. 721 for U.S. Civil Service retirement benefits).

Annuity Starting Date

Your annuity starting date is the later of the first day of the first period for which you received a payment or the date the plan's obligations became fixed.

Age (or Combined Ages) at Annuity Starting Date

If you are the retiree, use your age on the annuity starting date. If you are the survivor of a retiree, use the retiree's age on his or her annuity starting date. But if your annuity starting date was after 1997 and the payments are for your life and that of your beneficiary, use your combined ages on the annuity starting date.

If you are the beneficiary of an employee who died, see Pub. 575. If there is more than one beneficiary, see Pub. 575 or Pub. 721 to figure each beneficiary's taxable amount.

Cost

Your cost is generally your net investment in the plan as of the annuity starting date. It does not include pre-tax contributions. Your net investment should be shown in box 9b of Form 1099-R for the first year you received payments from the plan.

Rollovers

Generally, a qualified rollover is a tax-free distribution of cash or other assets from one retirement plan that is contributed to another plan within 60 days of receiving the distribution. However, a qualified rollover to a Roth IRA or a designated Roth account is generally not a tax-free distribution. Use lines 16a and 16b to report a qualified rollover, including a direct rollover, from one qualified employer's plan to another or to an IRA or SEP.

Enter on line 16a the distribution from Form 1099-R, box 1. From this amount, subtract any contributions (usually shown in box 5) that were taxable to

you when made. From that result, subtract the amount of the qualified rollover. Enter the remaining amount on line 16b. If the remaining amount is zero and you have no other distribution to report on line 16b, enter zero on line 16b. Also, enter "Rollover" next to line 16b.

See Pub. 575 for more details on rollovers, including special rules that apply to rollovers from designated Roth accounts, partial rollovers of property, and distributions under qualified domestic distributions orders.

Lump-Sum Distributions

If you received a lump-sum distribution from a profit-sharing or retirement plan, your Form 1099-R should have the "Total distribution" box in box 2b checked. You may owe an additional tax if you received an early distribution from a qualified retirement plan and the total amount was not rolled over in a qualified rollover. For details, see the instructions for line 58.

Enter the total distribution on line 16a and the taxable part on line 16b. For details, see Pub. 575.

TIP If you or the plan participant was born before January 2, 1936, you could pay less tax on the distribution. See Form 4972.

Line 19

Unemployment Compensation

You should receive a Form 1099-G showing in box 1 the total unemployment compensation paid to you in 2013. Report this amount on line 19. However, if you made contributions to a governmental unemployment compensation program or to a governmental paid family leave program and you are not itemizing deductions, reduce the amount you report on line 19 by those contributions.

If you received an overpayment of unemployment compensation in 2013 and you repaid any of it in 2013, subtract the amount you repaid from the total amount you received. Enter the result on line 19. Also, enter "Repaid" and the amount you repaid on the dotted line next to line 19. If, in 2013, you repaid unemployment compensation that you

included in gross income in an earlier year, you can deduct the amount repaid on Schedule A, line 23. But if you repaid more than \$3,000, see *Repayments* in Pub. 525 for details on how to report the repayment.

Lines 20a and 20b

Social Security Benefits

You should receive a Form SSA-1099 showing in box 3 the total social security benefits paid to you. Box 4 will show the amount of any benefits you repaid in 2013. If you received railroad retirement benefits treated as social security, you should receive a Form RRB-1099.

Use the Social Security Benefits Worksheet in these instructions to see if any of your benefits are taxable.

Exception. Do not use the Social Security Benefits Worksheet in these instructions if any of the following applies:

- You made contributions to a traditional IRA for 2013 and you or your spouse were covered by a retirement plan at work or through self-employment. Instead, use the worksheets in Pub. 590 to see if any of your social security benefits are taxable and to figure your IRA deduction.

- You repaid any benefits in 2013 and your total repayments (box 4) were more than your total benefits for 2013 (box 3). None of your benefits are taxable for 2013. Also, you may be able to take an itemized deduction or a credit for part of the excess repayments if they were for benefits you included in gross income in an earlier year. For more details, see Pub. 915.

- You file Form 2555, 2555-EZ, 4563, or 8815, or you exclude employer-provided adoption benefits or income from sources within Puerto Rico. Instead, use the worksheet in Pub. 915.

Line 21

Other Income

CAUTION Do not report on this line any income from self-employment or fees received as a notary public. Instead, you must use Schedule C, C-EZ, or F, even if you do not have any business expenses. Also, do not

report on line 21 any nonemployee compensation shown on Form 1099-MISC (unless it is not self-employment income, such as income from a hobby or a sporadic activity). Instead, see the instructions on Form 1099-MISC to find out where to report that income.

Taxable income. Use line 21 to report any taxable income not reported elsewhere on your return or other schedules. List the type and amount of income. If necessary, include a statement showing the required information. For more details, see *Miscellaneous Income* in Pub. 525.

Examples of income to report on line 21 include the following:

- Most prizes and awards.
- Jury duty pay. Also see the instructions for line 36.
- Alaska Permanent Fund dividends.
- Reimbursements or other amounts received for items deducted in an earlier year, such as medical expenses, real estate taxes, general sales taxes, or home mortgage interest. See *Recoveries* in Pub. 525 for details on how to figure the amount to report.

- Income from the rental of personal property if you engaged in the rental for profit but were not in the business of renting such property. Also see the instructions for line 36.
- Income from an activity not engaged in for profit. See Pub. 535.
- Taxable distributions from a Coverdell education savings account (ESA) or a qualified tuition program (QTP). Distributions from these accounts may be taxable if (a) they are more than the qualified higher education expenses of the designated beneficiary in 2013, and (b) they were not included in a qualified rollover. See Pub. 970. Nontaxable distributions from these accounts, including rollovers, do not have to be reported on Form 1040.

You may have to pay an additional tax if you received a taxable distribution from a Coverdell ESA or a QTP. See the instructions for Form 5329.

- Taxable distributions from a health savings account (HSA) or an Archer MSA. Distributions from these accounts may be taxable if (a) they are more than the unreimbursed qualified medical ex-

penses of the account beneficiary or account holder in 2013, and (b) they were not included in a qualified rollover. See Pub. 969.

You may have to pay an additional tax if you received a taxable distribution from an HSA or an Archer MSA. See the instructions for Form 8889 for HSAs or the instructions for Form 8853 for Archer MSAs.

- Amounts deemed to be income from an HSA because you did not remain an eligible individual during the testing period. See Form 8889, Part III.
- Gambling winnings, including lotteries, raffles, a lump-sum payment from the sale of a right to receive future lottery payments, etc. For details on gambling losses, see the instructions for Schedule A, line 28.

Attach Form(s) W-2G to Form 1040 if any federal income tax was withheld.

- Reemployment trade adjustment assistance (RTAA) payments. These payments should be shown in box 5 of Form 1099-G.
- Loss on certain corrective distributions of excess deferrals. See *Retirement Plan Contributions* in Pub. 525.
- Dividends on insurance policies if they exceed the total of all net premiums you paid for the contract.

- Recapture of a charitable contribution deduction relating to the contribution of a fractional interest in tangible personal property. See *Fractional Interest in Tangible Personal Property* in Pub. 526. Interest and an additional 10% tax apply to the amount of the recapture. See the instructions for line 60.
- Recapture of a charitable contribution deduction if the charitable organization disposes of the donated property within 3 years of the contribution. See *Recapture if no exempt use* in Pub. 526.

- Canceled debts. These amounts may be shown in box 2 of Form 1099-C. However, part or all of your income from the cancellation of debt may be nontaxable. See Pub. 4681 or go to IRS.gov and enter "canceled debt" or "foreclosure" in the search box.

- Taxable part of disaster relief payments. See Pub. 525 to figure the taxable part, if any. If any of your disaster relief payment is taxable, attach a state-

Self-Employed Health Insurance Deduction Worksheet—Line 29

Before you begin: ✓ If, during 2013, you were an eligible trade adjustment assistance (TAA) recipient, alternative TAA (ATAA) recipient, reemployment TAA (RTAA) recipient, or Pension Benefit Guaranty Corporation (PBGC) pension recipient, see the instructions for Form 8885 to figure the amount to enter on line 1 of this worksheet.

✓ Be sure you have read the **Exception** in the instructions for this line to see if you can use this worksheet instead of Pub. 535 to figure your deduction.

1. Enter the total amount paid in 2013 for health insurance coverage established under your business (or the S corporation in which you were a more-than-2% shareholder) for 2013 for you, your spouse, and your dependents. Your insurance can also cover your child who was under age 27 at the end of 2013, even if the child was not your dependent. But do not include amounts for any month you were eligible to participate in an employer-sponsored health plan or amounts paid from retirement plan distributions that were nontaxable because you are a retired public safety officer. **1.**
2. Enter your net profit* and any other earned income** from the business under which the insurance plan is established, minus any deductions on Form 1040, lines 27 and 28. Do not include Conservation Reserve Program payments exempt from self-employment tax. **2.**
3. **Self-employed health insurance deduction.** Enter the **smaller** of line 1 or line 2 here and on Form 1040, line 29. **Do not** include this amount in figuring any medical expense deduction on Schedule A. **3.**

*If you used either optional method to figure your net earnings from self-employment, do not enter your net profit. Instead, enter the amount from Schedule SE, Section B, line 4b.

****Earned income** includes net earnings and gains from the sale, transfer, or licensing of property you created. However, it does not include capital gain income. If you were a more-than-2% shareholder in the S corporation under which the insurance plan is established, earned income is your Medicare wages (box 5 of Form W-2) from that corporation.

who was under age 27 at the end of 2013, even if the child was not your dependent. A child includes your son, daughter, stepchild, adopted child, or foster child (defined in the line 6c instructions).

One of the following statements must be true.

- You were self-employed and had a net profit for the year reported on Schedule C, C-EZ, or F.
- You were a partner with net earnings from self-employment.
- You used one of the optional methods to figure your net earnings from self-employment on Schedule SE.
- You received wages in 2013 from an S corporation in which you were a more-than-2% shareholder. Health insurance premiums paid or reimbursed by the S corporation are shown as wages on Form W-2.

The insurance plan must be established under your business. Your personal services must have been a material income-producing factor in the business. If you are filing Schedule C, C-EZ, or F,

the policy can be either in your name or in the name of the business.

If you are a partner, the policy can be either in your name or in the name of the partnership. You can either pay the premiums yourself or your partnership can pay them and report them as guaranteed payments. If the policy is in your name and you pay the premiums yourself, the partnership must reimburse you and report the premiums as guaranteed payments.

If you are a more-than-2% shareholder in an S corporation, the policy can be either in your name or in the name of the S corporation. You can either pay the premiums yourself or the S corporation can pay them and report them as wages. If the policy is in your name and you pay the premiums yourself, the S corporation must reimburse you. You can deduct the premiums only if the S corporation reports the premiums paid or reimbursed as wages in box 1 of your Form W-2 in 2013 and you also report the premium payments or reimbursements as wages on Form 1040, line 7.

But if you were also eligible to participate in any subsidized health plan maintained by you or your spouse's employer for any month or part of a month in 2013, amounts paid for health insurance coverage for that month cannot be used to figure the deduction. Also, if you were eligible for any month or part of a month to participate in any subsidized health plan maintained by the employer of either your dependent or your child who was under age 27 at the end of 2013, do not use amounts paid for coverage for that month to figure the deduction.

Example. If you were eligible to participate in a subsidized health plan maintained by your spouse's employer from September 30 through December 31, you cannot use amounts paid for health insurance coverage for September through December to figure your deduction.

Medicare premiums you voluntarily pay to obtain insurance in your name that is similar to qualifying private health insurance can be used to figure

Line 25**Health Savings Account (HSA) Deduction**

You may be able to take this deduction if contributions (other than employer contributions, rollovers, and qualified HSA funding distributions from an IRA) were made to your HSA for 2013. See Form 8889.

Line 26**Moving Expenses**

If you moved in connection with your job or business or started a new job, you may be able to take this deduction. But your new workplace must be at least 50 miles farther from your old home than your old home was from your old workplace. If you had no former workplace, your new workplace must be at least 50 miles from your old home. Use Tele tax topic 455 or see Form 3903.

Line 27**Deductible Part of Self-Employment Tax**

If you were self-employed and owe self-employment tax, fill in Schedule SE to figure the amount of your deduction. If you completed Section A of Schedule SE, the deductible part of your self-employment tax is on line 6. If you completed Section B of Schedule SE, it is on line 13.

line 21. An eligible educator is a kindergarten through grade 12 teacher, instructor, counselor, principal, or aide who worked in a school for at least 900 hours during a school year.

Qualified expenses include ordinary and necessary expenses paid in connection with books, supplies, equipment (including computer equipment, software, and services), and other materials used in the classroom. An ordinary expense is one that is common and accepted in your educational field. A necessary expense is one that is helpful and appropriate for your profession as an educator. An expense does not have to be required to be considered necessary.

Qualified expenses do not include expenses for home schooling or for non-athletic supplies for courses in health or physical education.

You must reduce your qualified expenses by the following amounts.

the deduction. Amounts paid for health insurance coverage from retirement plan distributions that were nontaxable because you are a retired public safety officer cannot be used to figure the deduction.

For more details, see Pub. 535.

If you qualify to take the deduction, use the Self-Employed Health Insurance Deduction Worksheet to figure the amount you can deduct.

Exception. Use Pub. 535 instead of the Self-Employed Health Insurance Deduction Worksheet in these instructions to figure your deduction if any of the following applies.

- You had more than one source of income subject to self-employment tax.
- You file Form 2555 or 2555-EZ.
- You are using amounts paid for qualified long-term care insurance to figure the deduction.

Line 30

Penalty on Early Withdrawal of Savings

The Form 1099-INT or Form 1099-ORD you received will show the amount of any penalty you were charged.

Lines 31a and 31b

Alimony Paid

If you made payments to or for your spouse or former spouse under a divorce or separation instrument, you may be able to take this deduction. Use TeleTax topic 452 or see Pub. 504.

Line 32

IRA Deduction

TIP If you made any nondeductible contributions to a traditional individual retirement arrangement (IRA) for 2013, you must report them on Form 8606.

If you made contributions to a traditional IRA for 2013, you may be able to take an IRA deduction. But you, or your spouse if filing a joint return, must have had earned income to do so. For IRA purposes, earned income includes alimony and separate maintenance payments reported on line 11. If you were a mem-

ber of the U.S. Armed Forces, earned income includes any nontaxable combat pay you received. If you were self-employed, earned income is generally your net earnings from self-employment, if your personal services were a material income-producing factor. For more details, see Pub. 590. A statement should be sent to you by June 2, 2014, that shows all contributions to your traditional IRA for 2013.

Use the IRA Deduction Worksheet to figure the amount, if any, of your IRA deduction. But read the following 11-item list before you fill in the worksheet.

1. If you were age 70½ or older at the end of 2013, you cannot deduct any contributions made to your traditional IRA for 2013 or treat them as nondeductible contributions.
2. You cannot deduct contributions to a Roth IRA. But you may be able to take the retirement savings contributions credit (saver's credit). See the instructions for line 50.
3. If you are filing a joint return and you or your spouse made contributions to both a traditional IRA and a Roth IRA for 2013, do not use the IRA Deduction Worksheet in these instructions. Instead, see Pub. 590 to figure the amount, if any, of your IRA deduction.
4. You cannot deduct elective deferrals to a 401(k) plan, 403(b) plan, section 457 plan, SIMPLE plan, or the Federal Thrift Savings Plan. These amounts are not included as income in box 1 of your Form W-2. But you may be able to take the retirement savings contributions credit. See the instructions for line 50.
5. If you made contributions to your IRA in 2013 that you deducted for 2012, do not include them in the worksheet.
6. If you received income from a nonqualified deferred compensation plan or nongovernmental section 457 plan that is included in box 1 of your Form W-2, or in box 7 of Form 1099-MISC, do not include that income on line 8 of the worksheet. The income should be shown in (a) box 11 of your Form W-2, (b) box 12 of your Form W-2 with code Z, or (c) box 15b of Form 1099-MISC. If it is not, contact your employer or the payer for the amount of the income.

7. You must file a joint return to deduct contributions to your spouse's IRA. Enter the total IRA deduction for you and your spouse on line 32.

8. Do not include qualified rollover contributions in figuring your deduction. Instead, see the instructions for lines 15a and 15b.

9. Do not include trustees' fees that were billed separately and paid by you for your IRA. These fees can be deducted only as an itemized deduction on Schedule A.

10. Do not include any repayments of qualified reservist distributions. You cannot deduct them. For information on how to report these repayments, see *Qualified reservist repayments* in Pub. 590.

11. If the total of your IRA deduction on line 32 plus any nondeductible contribution to your traditional IRAs shown on Form 8606 is less than your total traditional IRA contributions for 2013, see Pub. 590 for special rules.

TIP By April 1 of the year after the year in which you turn age 70½, you must start taking minimum required distributions from your traditional IRA. If you do not, you may have to pay a 50% additional tax on the amount that should have been distributed. For details, including how to figure the minimum required distribution, see Pub. 590.

Were You Covered by a Retirement Plan?

If you were covered by a retirement plan (qualified pension, profit-sharing (including 401(k)), annuity, SEP, SIMPLE, etc.) at work or through self-employment, your IRA deduction may be reduced or eliminated. But you can still make contributions to an IRA even if you cannot deduct them. In any case, the income earned on your IRA contributions is not taxed until it is paid to you.

The "Retirement plan" box in line 13 of your Form W-2 should be checked if you were covered by a plan at work even if you were not vested in the plan. You are also covered by a plan if you were self-employed and had a SEP, SIMPLE, or qualified retirement plan.

2013 Form 1040—Line 32

Married persons filing separately. If you were not covered by a retirement plan but your spouse was, you are considered covered by a plan unless you figure the amount, if any, of your IRA deduction.

If you were covered by a retirement plan and you file Form 2555, 2555-EZ, or 8815, or you exclude employer-provided adoption benefits, see Pub. 590 to figure the amount, if any, of your IRA deduction.

TIP You may be able to take the retirement savings contributions credit. See the line 50 instructions.

Line 33**Student Loan Interest Deduction**

You can take this deduction only if all of the following apply.

- You paid interest in 2013 on a qualified student loan (defined later).
- Your filing status is any status except married filing separately.

- Your modified adjusted gross income (AGI) is less than: \$75,000 if single, head of household, or qualifying widow(er); \$155,000 if married filing jointly. Use lines 2 through 4 of the worksheet below to figure your modified AGI.

- You, or your spouse if filing jointly, are not claimed as a dependent on someone else's (such as your parent's) 2013 tax return.

Use the worksheet in these instructions to figure your student loan interest deduction.

3. Any person you could have claimed as a dependent for the year the loan was taken out except that:

 - b. The person had gross income that was equal to or more than the exemption amount for that year (\$3,900 for 2013), or

- c. You, or your spouse if filing jointly, could be claimed as a dependent on someone else's return.

However, a loan is not a qualified student loan if (a) any of the proceeds were used for other purposes, or (b) the loan was from either a related person or a person who borrowed the proceeds under a qualified employer plan or a contract purchased under such a plan. For details, see Pub. 970.

Qualified higher education expenses. Qualified higher education expenses generally include tuition, fees, room and board, and related expenses such as books and supplies. The expenses must be for education in a degree, certificate, or similar program at an eligible educational institution. An eligible educational institution includes most colleges, universities, and certain vocational schools. For details, see Pub. 970.

If Form 1040, line 43, is zero, do not complete this worksheet.

1. Enter the amount from Form 1040, line 43 1.

3. Add lines 1 and 2 3.
4. **Tax on the amount on line 3.** Use the Tax Table, Tax Computation Worksheet, Qualified Dividends and Capital Gain Tax Worksheet*, Schedule D Tax Worksheet*, or Form 8615, whichever applies. See the instructions for line 44 to see which tax computation method applies. (Do not use a second Foreign Earned Income Tax Worksheet to figure the tax on this line) 4.
5. **Tax on the amount on line 2.** If the amount on line 2 is less than \$100,000, use the Tax Table to figure this tax. If the amount on line 2 is \$100,000 or more, use the Tax Computation Worksheet 5.
6. Subtract line 5 from line 4. Enter the result. If zero or less, enter -0-. Also include this amount on Form 1040, line 44 6.

If the result is more than zero, that amount is your capital gain excess.

If you do not have a capital gain excess, complete the rest of either of those worksheets according to the worksheet's instructions. Then complete lines 5 and 6 above.

If you have a capital gain excess, complete a second Qualified Dividends and Capital Gain Tax Worksheet or Schedule D Tax Worksheet (whichever applies) as instructed above but in its entirety and with the following additional modifications. Then complete lines 5 and 6 above. These modifications are to be made only for purposes of filling out the Foreign Earned Income Tax Worksheet above.

1. Reduce (but not below zero) the amount you would otherwise enter on line 3 of your Qualified Dividends and Capital Gain Tax Worksheet or line 9 of your Schedule D Tax Worksheet by your capital gain excess.

3. Reduce (but not below zero) the amount on your Schedule D (Form 1040), line 18, by your capital gain excess.

Line 63

2013 Estimated Tax Payments

Enter any estimated federal income tax payments you made for 2013. Include any overpayment that you applied to your 2013 estimated tax from:

- Your 2012 return, or
- An amended return (Form 1040X).

If you and your spouse paid joint estimated tax but are now filing separate income tax returns, you can divide the amount paid in any way you choose as

long as you both agree. If you cannot agree, you must divide the payments in proportion to each spouse's individual tax as shown on your separate returns for 2013. For an example of how to do this, see Pub. 505. You may want to attach an explanation of how you and your spouse divided the payments. Be sure to show both social security numbers (SSNs) in the space provided on the separate returns. If you or your spouse paid separate estimated tax but you are now filing a joint return, add the amounts you each paid. Follow these instructions even if your spouse died in 2013 or in 2014 before filing a 2013 return.

Divorced taxpayers. If you got divorced in 2013 and you made joint estimated tax payments with your former

spouse, enter your former spouse's SSN in the space provided on the front of Form 1040. If you were divorced and remarried in 2013, enter your present spouse's SSN in the space provided on the front of Form 1040. Also, under the heading *Payments* to the left of line 63, enter your former spouse's SSN, followed by "DIV."

Name change. If you changed your name because of marriage, divorce, etc., and you made estimated tax payments using your former name, attach a statement to the front of Form 1040. On the statement, explain all the payments you and your spouse made in 2013 and the name(s) and SSN(s) under which you made them.

Caution If you take the EIC even though you are not eligible and it is determined that your error is due to reckless or intentional disregard of the EIC rules, you will not be allowed to take the credit for 2 years even if you are otherwise eligible to do so. If you fraudulently take the EIC, you will not be allowed to take the credit for 10 years. See Form 8862, who must file, later. You may also have to pay penalties.

Adopted child. An adopted child is always treated as your own child. An adopted child includes a child lawfully placed with you for legal adoption.

Church employees. Determine how much of the amount on Form 1040, line 7, was also reported on Schedule SE, Section B, line 5a. Subtract that amount from the amount on Form 1040, line 7, and enter the result in the first space of Step 5, line 2 (instead of entering the actual amount from Form 1040, line 7). Be sure to answer "Yes" to question 3 in Step 5.

Clergy. The following instructions apply to ministers, members of religious orders who have not taken a vow of poverty, and Christian Science practitioners. If you are filing Schedule SE and the amount on line 2 of that schedule includes an amount that was also reported on Form 1040, line 7:

- Enter "Clergy" on the dotted line next to Form 1040, line 64a.
- Determine how much of the amount on Form 1040, line 7, was also reported on Schedule SE, Section A, line 2, or Section B, line 2.
- Subtract that amount from the amount on Form 1040, line 7. Enter the result in the first space of Step 5, line 2 (instead of entering the actual amount from Form 1040, line 7).
- Be sure to answer "Yes" to question 3 in Step 5.

Combat pay, nontaxable. If you were a member of the U.S. Armed Forces who served in a combat zone, certain pay is excluded from your income. See *Combat Zone Exclusion* in Pub. 3. You can elect to include this pay in your earned income when

2013 Form 1040—Lines 64a and 64b

figuring the EIC. The amount of your nontaxable combat pay should be shown in box 12 of Form(s) W-2 with code Q. If you are filing a joint return and both you and your spouse received nontaxable combat pay, you can each make your own election. In other words, if one of you makes the election, the other one can also make it but does not have to.

Credit figured by the IRS. To have the IRS figure your EIC:

1. Enter "EIC" on the dotted line next to Form 1040, line 64a.
2. Be sure you enter the nontaxable combat pay you elect to include in earned income on Form 1040, line 64b. See *Combat pay, nontaxable*, earlier.
3. If you have a qualifying child, complete and attach Schedule EIC. If your EIC for a year after 1996 was reduced or disallowed, see *Form 8862, who must file*, later.

Exception to time lived with you. Temporary absences by you or the child for special circumstances, such as school, vacation, business, medical care, military service, or detention in a juvenile facility, count as time the child lived with you. Also see *Kidnapped child* in the instructions for line 6c and *Members of the military*, later. A child is considered to have lived with you for more than half of 2013 if the child was born or died in 2013 and your home was this child's home for more than half the time he or she was alive in 2013.

Form 4797 filers. If the amount on Form 1040, line 13, includes an amount from Form 4797, you must use Worksheet 1 in Pub. 596 to see if you can take the EIC. Otherwise, stop; you cannot take the EIC.

Form 8862, who must file. You must file Form 8862 if your EIC for a year after 1996 was reduced or disallowed for any reason other than a math or clerical error. But do not file Form 8862 if either of the following applies.

- You filed Form 8862 for another year, the EIC was allowed for that year, and your EIC has not been reduced or disallowed again for any reason other than a math or clerical error.
- You are taking the EIC without a qualifying child and the only reason your EIC was reduced or disallowed in the other year was because it was determined that a child listed on Schedule EIC was not your qualifying child.

Also, do not file Form 8862 or take the credit for the:

- 2 years after the most recent tax year for which there was a final determination that your EIC claim was due to reckless or intentional disregard of the EIC rules, or
- 10 years after the most recent tax year for which there was a final determination that your EIC claim was due to fraud.

Foster child. A foster child is any child placed with you by an authorized placement agency or by judgment, decree, or other order of any court of competent jurisdiction. For more details on authorized placement agencies, see Pub. 596.

Married child. A child who was married at the end of 2013 is a qualifying child only if (a) you can claim him or her as your dependent on Form 1040, line 6c, or (b) you could have claimed him or her as your dependent except for the special rule for *Children of divorced or separated parents* in the instructions for line 6c.

not meet the conditions to be a qualifying child of any other person, including her other parent. Under the rules above, you can claim your daughter as a qualifying child for all of the six tax benefits listed here for which you otherwise qualify. Your mother cannot claim any of the six tax benefits listed here unless she has a different qualifying child. However, if your mother's AGI is higher than yours and you do not claim your daughter as a qualifying child, your daughter is the qualifying child of your mother.

For more details and examples, see Pub. 596.

If you will not be taking the EIC with a qualifying child, enter "No" on the dotted line next to line 64a. Otherwise, go to Step 3, question 1.

Social security number (SSN). For the EIC, a valid SSN is a number issued by the Social Security Administration unless "Not Valid for Employment" is printed on the social security card and the number was issued solely to allow the recipient of the SSN to apply for or receive a federally funded benefit. However, if "Valid for Work Only With DHS Authorization" is printed on your social security card, your SSN is valid for EIC purposes only as long as the DHS authorization is still valid.

To find out how to get an SSN, see *Social Security Number (SSN)* near the beginning of these instructions. If you will not

have an SSN by the date your return is due, see *What if You Cannot File on Time?*

Student. A student is a child who during any part of 5 calendar months of 2013 was enrolled as a full-time student at a school, or took a full-time, on-farm training course given by a school or a state, county, or local government agency. A school includes a technical, trade, or mechanical school. It does not include an on-the-job training course, correspondence school, or school offering courses only through the Internet.

Welfare benefits, effect of credit on. Any refund you receive as a result of taking the EIC cannot be counted as income when determining if you or anyone else is eligible for benefits or assistance, or how much you or anyone else can receive, under any federal program or under any state or local program financed in whole or in part with federal funds. These programs include Temporary Assistance for Needy Families (TANF), Medicaid, Supplemental Security Income (SSI), and Supplemental Nutrition Assistance Program (food stamps). In addition, when determining eligibility, the refund cannot be counted as a resource for at least 12 months after you receive it. Check with your local benefit coordinator to find out if your refund will affect your benefits.

IRA at a bank or other financial institution before you request direct deposit. Make sure your direct deposit will be accepted. You must also notify the trustee or custodian of your account of the year to which the deposit is to be applied (unless the trustee or custodian will not accept a deposit for 2013). If you do not, the trustee or custodian can assume the deposit is for the year during which you are filing the return. For example, if you file your 2013 return during 2014 and do not notify the trustee or custodian in advance, the trustee or custodian can assume the deposit to your IRA is for 2014. If you designate your deposit to be for 2013, you must verify that the deposit was actually made to the account by the due date of the return (without regard to extensions). If the deposit is not made by that date, the deposit is not an IRA contribution for 2013. In that case, you must file an amended 2013 return and reduce any IRA deduction and any retirement savings contributions credit you claimed.

You and your spouse, if filing jointly, each may be able to contribute up to \$5,500 (\$6,500 if age 50 or older at the end of 2013) to a traditional IRA or Roth IRA for 2013. To find the limits for 2014, see Pub. 590. You may owe a penalty if your contributions exceed these limits.

For more information on IRAs, see Pub. 590.

TreasuryDirect®. You can request a deposit of your refund (or part of it) to a TreasuryDirect® online account to buy U.S. Treasury marketable securities and savings bonds. For more information, go to www.publicdebt.treasury.gov/index.html.

Form 8888. You can have your refund directly deposited into more than one account or use it to buy up to \$5,000 in paper series I savings bonds. You do not need a TreasuryDirect® account to do this. For more information, see the Form 8888 instructions.

Line 74a

You cannot file Form 8888 to split your refund into more than one account or buy paper series I savings bonds if Form 8379 is filed with your return.

DIRECT DEPOSIT

Simple. Safe. Secure.

Fast Refunds! Choose direct deposit—a fast, simple, safe, secure way to have your refund deposited automatically to your checking or savings account, including an individual retirement arrangement (IRA). See the information about IRAs later.

If you want us to directly deposit the amount shown on line 74a to your checking or savings account, including an IRA, at a bank or other financial institution (such as a mutual fund, brokerage firm, or credit union) in the United States:

- Complete lines 74b through 74d (if you want your refund deposited to only one account), or
- Check the box on line 74a and attach Form 8888 if you want to split the direct deposit of your refund into more than one account or use all or part of your refund to buy paper series I savings bonds.

If you do not want your refund directly deposited to your account, do not check the box on line 74a. Draw a line through the boxes on lines 74b and 74d. We will send you a check instead.

Do not request a deposit of any part of your refund to an account that is not in your name, such as your tax preparer's account.

Why Use Direct Deposit?

- You get your refund faster by direct deposit than you do by check.
- Payment is more secure. There is no check that can get lost or stolen.
- It is more convenient. You do not have to make a trip to the bank to deposit your check.
- It saves tax dollars. It costs the government less to refund by direct deposit.

If you file a joint return and check the box on line 74a and attach Form 8888 or fill in lines 74b through 74d, your spouse may get at least part of the refund.

IRA. You can have your refund (or part of it) directly deposited to a traditional IRA, Roth IRA, or SEP-IRA, but not a SIMPLE IRA. You must establish the

ded to you if certain conditions apply and you complete Form 8379. For details, see the instructions for Form 8379.

Amount Refunded to You

If you want to check the status of your refund, see *Refund Information*, later. Just use the IRS2Go phone app or go to IRS.gov and click on *Where's My Refund?* Information about your return will generally be available within 24 hours after the IRS receives your e-filed return, or 4 weeks after you mail your payment return. If you filed Form 8379 with your return, wait 14 weeks (11 weeks if you filed electronically). Have your 2013 tax return handy so you can enter your social security number, your filing status, and the exact whole dollar amount of your refund.

Where's My Refund? includes a tracker that displays progress through three stages: (1) return received, (2) refund approved, and (3) refund sent. *Where's My Refund?* will provide an actual personalized refund date as soon as the IRS processes your tax return and approves your refund.

Effect of refund on benefits. Any refund you receive cannot be counted as income when determining if you or anyone else is eligible for benefits or assistance, or how much you or anyone else can receive, under any federal program or under any state or local program financed in whole or in part with federal funds. These programs include Temporary Assistance for Needy Families (TANF), Medicaid, Supplemental Security Income (SSI), and Supplemental Nutrition Assistance Program (food stamps). In addition, when determining eligibility, the refund cannot be counted as a resource for at least 12 months after you receive it. Check with your local benefit coordinator to find out if your refund will affect your benefits.

next to that box. See Pub. 525 for details about this credit.

If you made a tax payment that does not belong on any other line, include the payment on line 71. Check box d and enter "Tax" in the space next to that box.

If you check more than one box, enter the total of the line 71 credits and payments.

Line 73

Amount Overpaid

If line 73 is under \$1, we will send a refund only on written request.

If the amount you overpaid is large, you may want to decrease the amount of income tax withheld from your pay by filing a new Form W-4. See Income Tax Withholding and Estimated Tax Payments for 2014 under General Information, later.

Refund Offset

If you owe past-due federal tax, state income tax, state unemployment compensation debts, child support, spousal support, or certain federal non-tax debts, such as student loans, all or part of the overpayment on line 73 may be used (offset) to pay the past-due amount. Offsets for federal taxes are made by the IRS. All other offsets are made by the Treasury Department's Financial Management Service (FMS). For federal tax offsets, you will receive a notice from the IRS. For all other offsets, you will receive a notice from FMS. To find out if you may have an offset or if you have any questions about it, contact the agency to which you owe the debt.

Injured Spouse

If you file a joint return and your spouse has not paid past-due federal tax, state income tax, state unemployment compensation debts, child support, spousal support, or a federal non-tax debt, such as a student loan, part or all of the overpayment on line 73 may be used (offset) to pay the past-due amount. But your part of the overpayment may be refunded.

You may be able to deduct any credit or debit card convenience fees on your 2014 Schedule A.

Line 69

Excess Social Security and Tier 1 RRTA Tax Withheld

If you, or your spouse if filing a joint return, had more than one employer for 2013 and total wages of more than \$113,700, too much social security or tier 1 railroad retirement (RRTA) tax may have been withheld. You can take a credit on this line for the amount withheld in excess of \$7,049.40. But if any one employer withheld more than \$7,049.40, you cannot claim the excess on your return. The employer should adjust the overcollection, you can file a claim for refund using Form 843. Figure this amount separately for you and your spouse.

You cannot claim a refund for excess tier 2 RRTA tax on Form 1040. Instead, use Form 843.

For more details, see Pub. 505.

Additional Child Tax Credit

What Is the Additional Child Tax Credit?

This credit is for certain people who have at least one qualifying child for the child tax credit (as defined in Steps 1, 2, and 3 of the instructions for line 6c). The additional child tax credit may give you a refund even if you do not owe any tax.

Two Steps To Take the Additional Child Tax Credit!

Step 1. Be sure you figured the amount, if any, of your child tax credit. See the instructions for line 51.

Step 2. Read the TIP at the end of your Child Tax Credit Worksheet. Use Schedule 8812 to see if you can take the additional child tax credit, but only if you meet the condition given in that TIP.

Line 66

American Opportunity Credit

If you meet the requirements to claim an education credit (see the instructions for line 49), enter on line 66 the amount, if any, from Form 8863, line 8. To find out which education benefits you qualify for, go to www.irs.gov/uac/Am-L-Eligible-to-Claim-an-Education-Credit-2F.

The routing number must be nine digits. The first two digits must be 01 through 12 or 21 through 32. On the sample check shown here, the routing number is 250250025. Charles and Mary Ellen Keys would use that routing number unless their financial institution instructed them to use a different routing number for direct deposits.

Ask your financial institution for the correct routing number to enter on line 74b if:

- The routing number on a deposit slip is different from the routing number on your checks.
- Your deposit is to a savings account that does not allow you to write checks, or
- Your checks state they are payable through a financial institution different from the one at which you have your checking account.

Line 74c

Check the appropriate box for the type of account. Do not check more than one box. If the deposit is to an account such as an IRA, health savings account, brokerage account, or other similar account, ask your financial institution whether you should check the "Checking" or "Savings" box. You must check the correct box to ensure your deposit is accepted. For a TreasuryDirect® online account, check the "Savings" box.

Line 74d

The account number can be up to 17 characters (both numbers and letters). Include hyphens but omit spaces and special symbols. Enter the number from left to right and leave any unused boxes blank. On the sample check shown here, the account number is 2020202086. Do not include the check number.

If the direct deposit to your account(s) is different from the amount applied to your 2014 estimated tax. We will apply this amount to your account unless you include a statement requesting us to apply it to your spouse's account. Include your spouse's social security number in the statement.

Line 75**Applied to Your 2014 Estimated Tax**

Enter on line 75 the amount, if any, of the overpayment on line 73 you want applied to your 2014 estimated tax. We will apply this amount to your account unless you include a statement requesting us to apply it to your spouse's account. Include your spouse's social security number in the statement.

Line 76**Amount You Owe**

TIP To save interest and penalties, pay your taxes in full by April 15, 2014. You do not have to pay if line 76 is under \$1.

Include any estimated tax penalty from line 77 in the amount you enter on line 76.

You can pay online, by phone, or by check or money order. Do not include any estimated tax payment for 2014 in this payment. Instead, make the estimated tax payment separately.

Reasons Your Direct Deposit Request May Be Rejected

If any of the following apply, your direct deposit request will be rejected and a check will be sent instead.

- Any numbers or letters on lines 74b through 74d are crossed out or whitened out.
- Your financial institution(s) will not allow a joint refund to be deposited to an individual account. The IRS is not responsible if a financial institution rejects a direct deposit.
- You file your 2013 return after December 31, 2014.

CAUTION The IRS is not responsible for a lost refund if you enter the wrong account information. Check with your financial institution to get the correct routing and account numbers and to make sure your direct deposit will be accepted.

Amount You Owe

e-file IRS e-file offers two electronic payment options. With Electronic Funds Withdrawal, you can pay your current year balance due and also make up to four estimated tax payments. If you file early, you can schedule your payment for withdrawal from your account on a future date, up to and including the due date of the return. Or you can pay using a credit or debit card. Visit www.irs.gov/efile for details on both options.

or 2% of the check, whichever is more. However, if the amount of the check is less than \$25, the penalty equals the amount of the check. This penalty also applies to other forms of payment if the IRS does not receive the funds. Use TeleTax topic 206.

Pay Online

Paying online is convenient and secure and helps make sure we get your payments on time. You can pay using either of the following electronic payment methods.

- Direct transfer from your bank account.
 - Credit or debit card.
- To pay your taxes online or for more information, go to www.irs.gov/efile. Also see *Amount You Owe*, earlier, for information about the Electronic Funds Withdrawal payment option offered when e-filing your return.

Pay by Phone

Paying by phone is another safe and secure method of paying electronically. Use one of the following methods.

- Direct transfer from your bank account.
- Credit or debit card.

To pay by direct transfer from your bank account, call 1-800-555-4477 (English) or 1-800-244-4829 (Español). People who are deaf, hard of hearing, or have a speech disability and who have access to TTY/TDD equipment can call 1-800-733-4829.

To pay using a credit or debit card, you can call one of the following service providers. There is a convenience fee charged by these providers that varies by provider, card type, and payment amount.

Pay by Check or Money Order

Make your check or money order payable to "United States Treasury" for the full amount due. Do not send cash. Do not attach the payment to your return. Write "2013 Form 1040" and your name, address, daytime phone number, and social security number (SSN) on your payment. If you are filing a joint return, enter the SSN shown first on your tax return.

To help us process your payment, enter the amount on the right side of the check like this: \$ XXX.XX. Do not use dashes or lines (for example, do not enter "\$XXX-" or "\$XXXth").

Then, complete Form 1040-V following the instructions on that form and enclose it in the envelope with your tax return and payment.

TIP You may need to (a) increase the amount of income tax withheld from your pay by filing a new Form W-4, (b) increase the tax withheld from other income by filing Form W-4P or W-4I, or (c) make estimated tax payments for 2014. See Income Tax Withholding and Estimated Tax Payments for 2014 under General Information, later.

What If You Cannot Pay?

If you cannot pay the full amount shown on line 76 when you file, you can ask for:

- An installment agreement, or
- An extension of time to pay.

Installment agreement. Under an installment agreement, you can pay all or part of the tax you owe in monthly installments. However, even if your request to pay in installments is granted, you will be charged interest and may be charged a late payment penalty on the tax not paid by April 15, 2014. You must also pay a fee. To limit the interest and penalty charges, pay as much of the tax as possible when you file. But before

requesting an installment agreement, you should consider other less costly alternatives, such as a bank loan or credit card payment.

To ask for an installment agreement, you can apply online or use Form 9465. To apply online, go to IRS.gov and click on "Tools" and then "Online Payment Agreement."

Extension of time to pay. If paying the tax when it is due would cause you an undue hardship, you can ask for an extension of time to pay by filing Form 1127 by April 15, 2014. An extension generally will not be granted for more than 6 months. If you pay after April 15, 2014, you will be charged interest on the tax not paid by April 15, 2014. You must pay the tax before the extension runs out. If you do not, penalties may be imposed.

Line 77**Estimated Tax Penalty**

You may owe this penalty if:

- Line 76 is at least \$1,000 and it is more than 10% of the tax shown on your return, or
- You did not pay enough estimated tax by any of the due dates. This is true even if you are due a refund.

For most people, the "tax shown on your return" is the amount on your 2013 Form 1040, line 61, minus the total of any amounts shown on lines 64a, 65, 66, and 70 and Forms 8828, 4137, 5329 (Parts III through VIII only), 8883, and 8919. Also subtract from line 61 any tax on an excess parachute payment, any excess tax on insider stock compensation of an expatriated corporation, any uncollected social security and Medicare or RRTA tax on tips or group-term life insurance, any look-back interest due under section 167(g) or 460(b), and any write-in tax included on line 60 from Form 8883. When figuring the amount on line 61, include household employment taxes only if line 62 is more than zero or you would owe the penalty even if you did not include those taxes.

Exception. You will not owe the penalty if your 2012 tax return was for a tax year of 12 full months and either of the following applies.

-71-

Need more information or forms? Visit IRS.gov.

1. You had no tax shown on your 2012 return and you were a U.S. citizen or resident for all of 2012.

2. The total of lines 62, 63, and 69 on your 2013 return is at least 100% of the tax shown on your 2012 return (110% of that amount if you are not a farmer or fisherman, and your adjusted gross income (AGI) shown on your 2012 return was more than \$150,000 (more than \$75,000 if married filing separately for 2013)). Your estimated tax payments for 2013 must have been made on time and for the required amount.

TIP Because Form 2210 is completed, you can leave line 77 blank and the IRS will figure the penalty and send you a bill. We will not charge you interest on the penalty if you pay by the date specified on the bill. If your income varied during the year, the annualized income installment method may reduce the amount of your penalty. But you must file Form 2210 because the IRS cannot figure your penalty under this method. See the Instructions for Form 2210 for other situations in which you may be able to lower your penalty by filing Form 2210.

Third Party Designee

If you want to allow your preparer, a friend, a family member, or any other person you choose to discuss your 2013 tax return with the IRS, check the "Yes" box in the "Third Party Designee" area of your return. Also, enter the designee's name, phone number, and any five digits the designee chooses as his or her personal identification number (PIN).

If you check the "Yes" box, you, and your spouse if filing a joint return, are authorizing the IRS to call the designee to answer any questions that may arise during the processing of your return. You are also authorizing the designee to:

- Give the IRS any information that is missing from your return.
- Call the IRS for information about the processing of your return or the status of your refund or payment(s).
- Receive copies of notices or transcripts related to your return, upon request, and
- Respond to certain IRS notices about math errors, offsets, and return preparation.

You are not authorizing the designee to receive any refund check, bind you to anything (including any additional tax liability), or otherwise represent you before the IRS. If you want to expand the designee's authorization, see Pub. 947.

The authorization will automatically end no later than the due date (without regard to extensions) for filing your 2014 tax return. This is April 15, 2015, for most people.

Sign Your Return

Form 1040 is not considered a valid return unless you sign it. If you are filing a joint return, your spouse must also sign. If your spouse cannot sign the return, see Pub. 501. Be sure to date your return, and enter your occupation(s). If you have someone prepare your return, you are still responsible for the correctness of the return. If your return is signed by a representative for you, you must have a power of attorney attached that specifically authorizes the representative to sign your return. To do this, you can use Form 2848. If you are filing a joint return as a surviving spouse, see *Death of a Taxpayer*, later.

Court-Appointed Conservator, Guardian, or Other Fiduciary

If you are a court-appointed conservator, guardian, or other fiduciary for a mentally or physically incompetent individual who has to file Form 1040, sign your name for the individual and file Form 56.

Child's Return

If your child cannot sign the return, either parent can sign the child's name in the space provided. Then, enter "By (your signature), parent for minor child."

Daytime Phone Number

Providing your daytime phone number may help speed the processing of your return. We may have questions about items on your return, such as the earned income credit, credit for child and dependent care expenses, etc. If you answer our questions over the phone, we may be able to continue processing your return without mailing you a letter. If you are filing a joint return, you can enter either your or your spouse's daytime phone number.

Electronic Return Signatures!

To file your return electronically, you must sign the return electronically using a personal identification number (PIN). If you are filing online using software, you must use a Self-Select PIN. If you are filing electronically using a tax practitioner, you can use a Self-Select PIN or a Practitioner PIN.

Self-Select PIN. The Self-Select PIN method allows you to create your own PIN. If you are married filing jointly, you and your spouse will each need to create a PIN and enter these PINs as your electronic signatures.

A PIN is any combination of five digits you choose except five zeros. If you use a PIN, there is nothing to sign and nothing to mail—not even your Forms W-2.

To verify your identity, you will be prompted to enter your adjusted gross income (AGI) from your originally filed 2012 federal income tax return, if applicable. Do not use your AGI from an amended return (Form 1040X) or a math error correction made by IRS AGI is the amount shown on your 2012 Form 1040, line 38; Form 1040A, line 22; or Form 1040EZ, line 4. If you do not have your 2012 income tax return, call the IRS at 1-800-908-9946 to get a free transcript of your return or visit IRS.gov and click on "Order a Return or Account Transcript" (If you filed electronically last year, you may use your prior year PIN to verify your identity instead of your prior year AGI. The prior year PIN is the five digit PIN you used to electronically sign your 2012 return.) You will also be prompted to enter your date of birth (DOB).

CAUTION You cannot use the Self-Select PIN method if you are a first-time filer under age 16 at the end of 2013.

TIP If you cannot locate your prior year AGI or prior year PIN, use the Electronic Filing PIN Request. This can be found at IRS.gov. Click on "Request an Electronic Filing PIN." Or you can call 1-866-704-7388.

Practitioner PIN. The Practitioner PIN method allows you to authorize your tax practitioner to enter or generate your PIN. The practitioner can provide you with details.

Form 8453. You must send in a paper Form 8453 if you have to attach certain forms or other documents that cannot be electronically filed. For details, see Form 8453.

Identity Protection PIN

For 2013, if you received an Identity Protection Personal Identification Number (IP PIN) from the IRS, enter it in the IP PIN spaces provided below your daytime phone number. You must correctly enter all six numbers of your IP PIN. If you did not receive an IP PIN, leave these spaces blank.

CAUTION New IP PINs are issued every year. Enter the latest IP PIN you received. IP PINs for 2013 tax returns generally were sent in December 2013.

If you are filing a joint return and both taxpayers receive an IP PIN, only the taxpayer whose social security number (SSN) appears first on the tax return should enter his or her IP PIN. However,

if you are filing electronically, both taxpayers must enter their IP PINs.

If you need more information or answers to frequently asked questions on how to use the IP PIN, go to www.irs.gov/Individuals/Understanding-Your-CPIA-Notice. If you received an IP PIN but misplaced it, call 1-800-908-4490, extension 245.

Paid Preparer Must Sign Your Return

Generally, anyone you pay to prepare your return must sign it and include their Preparer Tax Identification Number (PTIN) in the space provided. The preparer must give you a copy of the return for your records. Someone who prepares your return but does not charge you should not sign your return.

Assemble Your Return

Assemble any schedules and forms behind Form 1040 in order of the "Attachment Sequence No." shown in the upper right corner of the schedule or form. If you have supporting statements, arrange them in the same order as the schedules or forms they support and attach them last. Do not attach correspondence or other items unless required to do so. Attach a copy of Forms W-2 and 2439 to the front of Form 1040. If you received a Form W-2c (a corrected Form W-2), attach a copy of your original Forms W-2 and any Forms W-2c. Also attach Forms W-2G and 1099-R to the front of Form 1040 if tax was withheld.

2013
Tax Table

See the instructions for line 44 to see if you must use the Tax Table below to figure your tax.

Example. Mr. and Mrs. Brown are filing a joint return. Their taxable income on Form 1040, line 43, is \$25,300. First, they find the \$25,300-25,350 taxable income line. Next, they find the column for married filing jointly and read down the column. The amount shown where the taxable income line and filing status column meet is \$2,906. This is the tax amount they should enter on Form 1040, line 44.

General Information

The IRS Mission. Provide America's taxpayers top quality service by helping them understand and meet their tax responsibilities and by applying the tax law with integrity and fairness to all.

Table for your filing status and the number of children you have.

- Remember to sign and date Form 1040 and enter your occupation(s).

• Attach your Form(s) W-2 and other required forms and schedules. Put all forms and schedules in the proper order. See *Assemble Your Return*, earlier.

- If you owe tax and are paying by check or money order, be sure to include all the required information on your payment. See the instructions for line 76 for details.

- Do not file more than one original return for the same year, even if you have not gotten your refund or have not heard from the IRS since you filed. Filing more than one original return for the same year, or sending in more than one copy of the same return (unless we ask you to do so), could delay your refund.

Income Tax Withholding and Estimated Tax Payments for 2014

If the amount you owe or the amount you overpaid is large, you may want to file a new Form W-4 with your employer to change the amount of income tax withheld from your 2014 pay. For details on how to complete Form W-4, see Pub. 505. If you have pension or annuity income, use Form W-4P. If you receive certain government payments (such as unemployment compensation or social security benefits), you can have tax withheld from those payments by giving the payer Form W-4V.

TIP You can use the IRS Withholding Calculator at www.irs.gov/individuals/irs-withholding-calculator, instead of Pub. 505 or the worksheets included with Form W-4 or W-4P, to determine whether you need to have your withholding increased or decreased.

In general, you do not have to make estimated tax payments if you expect that your 2014 Form 1040 will show a tax refund or a tax balance due of less than \$1,000. If your total estimated tax for 2014 is \$1,000 or more, see Form 1040-ES and Pub. 505 for a worksheet you can use to see if you have to make estimated tax payments. For more details, see Pub. 505.

What Are Your Rights as a Taxpayer?

You have the right to be treated fairly, professionally, promptly, and courteously by IRS employees. Our goal at the IRS is to protect your rights so that you will have the highest confidence in the integrity, efficiency, and fairness of our tax system. To ensure that you always receive such treatment, you should know about the many rights you have at each step of the tax process. For details, see Pub. 1.

Innocent Spouse Relief

Generally, both you and your spouse are each responsible for paying the full amount of tax, interest, and penalties on your joint return. However, you may qualify for relief from liability for tax on a joint return if (a) there is an understatement of tax because your spouse omitted income or claimed false deductions or credits, (b) you are divorced, separated, or no longer living with your spouse, or (c) given all the facts and circumstances, it would not be fair to hold you liable for the tax. Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information, such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN.
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter. For more information, see Pub. 4535.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, etc., contact the IRS Identity Protection Specialized Unit at 1-800-908-4490 or submit Form 14039.

Victims of identity theft who are experiencing economic harm or a systemic problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the National Taxpayer Advocate helpline at 1-877-777-4778. People who are deaf, hard of hearing, or have a speech disability and who have access to TTY/TDD equipment can call 1-800-829-4059. Deaf or hard-of-hearing individuals can also contact the IRS through relay services such as the Federal Relay Service available at www.frs.gov/fedrelay.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common form is sending an email to a

user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request detailed personal information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward the message to phishing@irs.gov. You may also report misuse of the IRS name, logo, forms, or other IRS property to the Treasury Inspector General for Tax Administration toll-free at 1-800-366-4484.

People who are deaf, hard of hearing, or have a speech disability and who have access to TTY/TDD equipment can call 1-800-877-8339. You can forward suspicious emails to the Federal Trade Commission at spam@ftc.gov or contact them at www.ftc.gov/idtheft or 1-877-IDTHEFT (1-877-438-4338). People who are deaf, hard of hearing, or have a speech disability and who have access to TTY/TDD equipment can call 1-866-653-4261.

Visit IRS.gov and enter "identity theft" in the search box to learn more about identity theft and how to reduce your risk.

How Do You Make a Gift To Reduce Debt Held By the Public?

If you wish to do so, make a check payable to "Bureau of the Fiscal Service." You can send it to: Bureau of the Fiscal Service, Attn: Dept G, P.O. Box 2188, Parkersburg, WV 26106-2188. Or you can enclose the check with your income tax return when you file. In the memo section of the check, make a note that it is a gift to reduce the debt held by the public. Do not add your gift to any tax you may owe. See the instructions for line 76 for details on how to pay any tax you owe. Go to www.publicdebt.treas.gov/index1.htm for information on how to make this type of gift online.

You may be able to deduct this gift on your 2014 tax return.

How Long Should Records Be Kept?

Keep a copy of your tax return, worksheets you used, and records of all items appearing on it (such as Forms W-2 and 1099) until the statute of limitations runs out for that return. Usually, this is 3 years from the date the return was due or filed or 2 years from the date the tax was paid, whichever is later. You should keep some records longer. For example, keep property records (including those on your home) as long as they are needed to figure the basis of the original or replacement property. For more details, see chapter 1 of Pub. 17.

Amended Return

File Form 1040X to change a return you already filed. Generally, Form 1040X must be filed within 3 years after the date the original return was filed or within 2 years after the date the tax was paid, whichever is later. But you may have more time to file Form 1040X if you live in a federally declared disaster area or you are physically or mentally unable to manage your financial affairs. See Pub. 556 for details.

Need a Copy of Your Tax Return?

If you need a copy of your tax return, use Form 4506. There is a fee for each return requested. See Form 4506 for the current fee. If your main home, principal place of business, or tax records are located in a federally declared disaster area, this fee will be waived. If you want a free transcript of your tax return or account:

- Use Form 4506-T or 4506T-EZ.
- Visit IRS.gov and click on "Order a Return or Account Transcript," or
- Call us at 1-800-908-9946.

Death of a Taxpayer

If a taxpayer died before filing a return for 2013, the taxpayer's spouse or personal representative may have to file and sign a return for that taxpayer. A personal representative can be an executor, ad-

However, if you got an IRS notice, mail the return to the address in the notice.

How To Get Tax Help

Whether it's help with a tax issue, preparing your tax return or a need for a free publication or form, get the help you need the way you want it: online, with a smart phone, or by calling or walking into an IRS office or volunteer site near you.

Free help with your tax return. You can get free help preparing your return nationwide from IRS-certified volunteers. The Volunteer Income Tax Assistance (VITA) program helps low-to-moderate income, elderly, people with disabilities, and limited English proficient taxpayers. The Tax Counseling for the Elderly (TCE) program helps taxpayers age 60 and older with their tax returns. Most VITA and TCE sites offer free electronic filing and all volunteers will let you know about credits and deductions you may be entitled to claim. In addition, some VITA and TCE sites provide taxpayers the opportunity to prepare their own return with help from an IRS-certified volunteer. To find the nearest VITA or TCE site, you can use the VITA Locator Tool on IRS.gov, download the IRS2Go app, or call 1-800-906-9887.

As part of the TCE program, AARP offers the Tax-Aide counseling program. To find the nearest AARP Tax-Aide site, visit AARP's website at www.aarp.org/money/taxaide or call 1-888-227-7669. For more information on these programs, go to IRS.gov and enter "VITA" in the search box.

Interest and Penalties

You do not have to figure the amount of any interest or penalties you may owe. Because figuring these amounts can be complicated, we will do it for you if you want. We will send you a bill for any amount due.

If you include interest or penalties (other than the estimated tax penalty) with your payment, identify and enter the amount in the bottom margin of Form 1040, page 2. Do not include interest or penalties (other than the estimated tax penalty) in the amount you owe on line 76.

Interest

We will charge you interest on taxes not paid by their due date, even if an extension of time to file is granted. We will also charge you interest on penalties imposed for failure to file, negligence, fraud, substantial valuation misstatements, substantial understatement of tax, and reportable transaction understatements. Interest is charged on the penalty from the due date of the return (including extensions).

Penalties

Late filing. If you do not file your return by the due date (including extensions), the penalty is usually 5% of the amount due for each month or part of a month your return is late, unless you

have a reasonable explanation. If you do, include it with your return. The penalty can be as much as 25% of the tax due. The penalty is 15% per month, up to a maximum of 75%, if the failure to file is fraudulent. If your return is more than 60 days late, the minimum penalty will be \$135 or the amount of any tax you owe, whichever is smaller.

Late payment of tax. If you pay your taxes late, the penalty is usually 1/2% of the unpaid amount for each month or part of a month the tax is not paid. The penalty can be as much as 25% of the unpaid amount. It applies to any unpaid tax on the return. This penalty is in addition to interest charges on late payments.

Frivolous return. In addition to any other penalties, the law imposes a penalty of \$5,000 for filing a frivolous return. A frivolous return is one that does not contain information needed to figure the correct tax or shows a substantially incorrect tax because you take a frivolous position or desire to delay or interfere with the tax laws. This includes altering or striking out the preprinted language above the space where you sign. For a list of positions identified as frivolous, see Notice 2010-33, 2010-17 I.R.B. 609, available at [www.irs.gov/irb/2010-17_IRB/ar13.html](#).

Other. Other penalties can be imposed for negligence, substantial understatement of tax, reportable transaction understatements, filing an erroneous refund claim, and fraud. Criminal penalties may be imposed for willful failure to file, tax evasion, making a false statement, or identity theft. See Pub. 17 for details on some of these penalties.

Disclosure, Privacy Act, and Paperwork Reduction Act Notice

The IRS Restructuring and Reform Act of 1998, the Privacy Act of 1974, and the Paperwork Reduction Act of 1980 require that when we ask you for information we must first tell you our legal right to ask for the information, why we are asking for it, and how it will be used. We must also tell you what could happen if we do not receive it and whether your response is voluntary, required to obtain a benefit, or mandatory under the law.

This notice applies to all papers you file with us, including this tax return. It also applies to any questions we need to ask you so we can complete, correct, or process your return; figure your tax; and collect tax, interest, or penalties.

Our legal right to ask for information is Internal Revenue Code sections 6001, 6011, and 6012(a), and their regulations. They say that you must file a return or statement with us for any tax you are liable for. Your response is mandatory under these sections. Code section 6109 requires you to provide your identifying number on the return. This is so we know who you are, and can process your return and other papers. You must fill in all parts of the tax form that apply to you. But you do not have to check the boxes for the Presidential Election Campaign Fund or for the third-party designee. You also do not have to provide your daytime phone number.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law.

We ask for tax return information to carry out the tax laws of the United States. We need it to figure and collect the right amount of tax.

If you do not file a return, do not provide the information we ask for, or provide fraudulent information, you may be charged penalties and be subject to criminal prosecution. We may also have to disallow the exemptions, exclusions, credits, deductions, or adjustments shown on the tax return. This could make the tax higher than it would be if you had filed a return.

Please keep this notice with your records. It may help you if we ask you for other information. If you have questions about the rules for filing and giving information, please call or visit any Internal Revenue Service office.

We Welcome Comments on Forms

We try to create forms and instructions that can be easily understood. Often this is difficult to do because our tax laws are very complex. For some people with income mostly from wages, filling in the forms is easy. For others who have businesses, pensions, stocks, rental income, or other investments, it is more difficult.

If you have suggestions for making these forms simpler, we would be happy to hear from you. You can send us comments from www.irs.gov/forms/pubs/, and then on "Comment on Tax Forms and Publications." Or you can send your comments to Internal Revenue Service, Tax Forms and Publications Division, 1111 Constitution Ave. NW, IR-6526, Washington, DC 20224. Do not send your return to this address. Instead, see the addresses at the end of these instructions.

Although we cannot respond individually to each comment received, we do appreciate your feedback and will consider your comments as we revise our tax forms and instructions.

Estimates of Taxpayer Burden

The following table shows burden estimates based on current statutory requirements as of November 2013, for taxpayers filing a 2013 Form 1040, 1040A, or 1040EZ tax return. Time spent and out-of-pocket costs are presented separately. Time burden is broken out by taxpayer activity, with recordkeeping representing the largest component. Out-of-pocket costs include any expenses incurred by taxpayers to prepare and submit their tax returns. Examples include tax return preparation and submission fees, postage and photocopying costs, and tax preparation software costs. While these estimates do not include burden associated with post-filing activities, IRS operational data indicate that electronically prepared and filed returns have fewer arithmetic errors, implying lower post-filing burden.

Reported time and cost burdens are national averages and do not necessarily reflect a "typical" case. Most taxpayers experience lower than average burden, with taxpayer burden varying considerably by taxpayer type. For instance, the estimated average time burden for all taxpayers filing a Form 1040, 1040A, or 1040EZ is 12 hours, with an average cost of \$210 per return. This average includes all associated forms and schedules, across all preparation methods and taxpayer activities. The average burden for taxpayers filing Form 1040 is about 15 hours and \$280; the average burden for taxpayers filing Form 1040A is about 7 hours and \$90;

and the average for Form 1040EZ filers is about \$400 and \$30.

Within each of these estimates there is significant variation in taxpayer activity. For example, nonbusiness taxpayers are expected to have an average burden of about 7 hours and \$120, while business taxpayers are expected to have an average burden of about 24 hours and \$430. Similarly, tax preparation fees and other out-of-pocket costs vary extensively depending on the tax situation of the taxpayer, the type of software or professional service used, and the geographic location.

Major Categories of Federal Income and Outlays for Fiscal Year 2012

Income and Outlays. These pie charts show the relative sizes of the major categories of federal income and outlays for fiscal year 2012.

On or before the first Monday in February of each year the President is required by law to submit to the Congress a budget proposal for the fiscal year that begins the following October. The budget plan sets forth the President's proposed receipts, spending, and the surplus or deficit for the Federal Government. The plan includes recommendations for new legislation as well as recommendations to change, eliminate, and add programs. After receipt of the President's proposal, the Congress reviews the proposal and makes changes. It first passes a budget resolution setting its own targets for receipts, outlays, and surplus or deficit. Next, individual spending and revenue bills that are consistent with the goals of the budget resolution are enacted.

In fiscal year 2012 (which began on October 1, 2011, and ended on September

30, 2012), Federal income was \$2.45 trillion and outlays were \$3.537 trillion, leaving a deficit of \$1.087 trillion.

Footnotes for Certain Federal Outlays

- 1. Social security, Medicare, and other retirement:** These programs provide income support for the retired and disabled and medical care for the elderly.
- 2. National defense, veterans, and foreign affairs:** About 19% of outlays were to equip, modernize, and pay our armed forces and to fund national defense activities; about 3% were for veterans benefits and services; and about 1% were for international activities, including military and economic assistance to foreign countries.
- 3. Physical, human, and community development:** These outlays were for agriculture; natural resources; environment; transportation; aid for elementary and secondary education and direct assistance to college students; job training; deposit insurance; commerce and housing credit; and community development; and space, energy, and general science programs.
- 4. Social programs:** About 14% of total outlays were for Medicaid, food stamps, temporary assistance for needy families, supplemental security income, and related programs; and the remaining outlays were for health research and public health programs, unemployment compensation, assisted housing, and social services.

Note. The percentages shown here exclude undistributed offsetting receipts, which were \$144 billion in fiscal year 2012. In the budget, these receipts are offset against spending in figuring the outlay totals shown above. These receipts are for the U.S. Government's share of its employee retirement programs, rent and royalties on the Outer Continental Shelf, and proceeds from the sale of assets.

Instructions for Form 8949
Sales and Other Dispositions of Capital Assets

Section references are to the Internal Revenue Code unless otherwise noted.

Future Developments

For the latest information about developments related to Form 8949 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/form8949.

What's New

Direct reporting on Schedule D. For 2013, you may be able to combine certain transactions and report the totals directly on Schedule D. If you choose to do that, you do not need to include these transactions on Form 8949. For additional information, see [Exception 3](#) under the instructions for line 1.

Estates and trusts. The use of Form 8949 by estates and trusts is new. Many transactions that, in previous years, would have been reported by estates and trusts on Schedule D or Schedule D-1 must be reported on Form 8949 if they have to be reported on a 2013 form.

General Instructions

File Form 8949 with the Schedule D for the return you are filing. This includes Schedule D of Forms 1040, 1041, 1065, 1065-B, 8865, 1120, 1120S, 1120-C, 1120-F, 1120-FSC, 1120-H, 1120-IC-DISC, 1120-L, 1120-ND, 1120-PC, 1120-POL, 1120-REIT, 1120-RIC, 1120-SF, and certain Forms 990-T.

Complete Form 8949 before you complete line 1b, 2, 3, 8b, 9, or 10 of Schedule D.

Purpose of Form

Use Form 8949 to report sales and exchanges of capital assets. Form 8949 allows you and the IRS to reconcile amounts that were reported to you and the IRS on Form 1099-B or 1099-S (or substitute statement) with the amounts you report on your return. If you received Form 1099-B or 1099-S (or substitute statement), always report the proceeds (sales price) shown on that form (or statement) in column (d) of Form 8949. If Form 1099-B (or substitute statement) shows that the cost or other basis was reported to the IRS, always report the basis shown on that form (or statement) in column (e). If any correction or adjustment to these amounts is needed, make it in

column (g). See [How To Complete Form 8949, Columns \(f\) and \(g\)](#), later, for details about these adjustments.

If all Forms 1099-B you received (and all substitute statements) show basis or reported to the IRS and if no correction or adjustment is needed, you may not need to file Form 8949. See [Exception 3](#) under the instructions for line 1.

Individuals. Individuals use Form 8949 to report:

- The sale or exchange of a capital asset not reported on another form or schedule.
- Gains from involuntary conversions (other than from casualty or theft) of capital assets not held for business or profit, and
- Nonbusiness bad debts.

If you are filing a joint return, complete as many copies of Form 8949 as you need to report all of your and your spouse's transactions. You and your spouse may list your transactions on separate forms or you may combine them. However, you must include on your Schedule D the totals from all Forms 8949 for both you and your spouse.

Corporations and partnerships.

Corporations and partnerships use Form 8949 to report:

- The sale or exchange of a capital asset not reported on another form or schedule.
- Nonbusiness bad debts, and
- Undistributed long-term capital gains from Form 2439.

Corporations also use Form 8949 to report their share of gain or (loss) from a partnership, estate, or trust.

For corporations and partnerships meeting certain criteria, an exception to some of the normal requirements for completing Form 8949 has been provided. See [Exception 2](#) under the instructions for line 1.

Estates and trusts. Estates and trusts use Form 8949 to report the sale or exchange of a capital asset not reported on another form or schedule.

Schedule D. Use Schedule D for the following purposes.

- To figure the overall gain or loss from transactions reported on Form 8949.
- To report a gain from Form 6252 or Part of Form 4797.
- To report a gain or loss from Form 4684, 6781, or 8824.
- To report capital gain distributions not reported directly on Form 1040, line 13 (or

effectively connected capital gain distributions not reported directly on Form 1040NR, line 14).

- To report a capital loss carryover from the previous tax year to the current tax year.
- To report your share of a gain or (loss) from a partnership, S corporation, estate, or trust. (However, corporations report this type of gain or (loss) on Form 8949.)
- To report transactions reported to you on a Form 1099-B (or substitute statement) showing basis was reported to the IRS and for which you have no adjustments, as explained under [Exception 3](#), later.

Individuals, estates, and trusts also use Schedule D to report undistributed long-term capital gains from Form 2439.

Additional information. See the instructions for the Schedule D you are filing for detailed information about the following.

- Other forms you may have to file.
- The definition of capital asset.
- Reporting capital gain distributions.
- Undistributed capital gains, the sale of a main home, the sale of capital assets held for personal use, or the sale of a partnership interest.
- Capital losses, nondeductible losses, and losses from wash sales.
- Traders in securities.
- Short sales.
- Gain or loss from options.
- Installment sales.
- Demutualization of life insurance companies.
- Exclusion or rollover of gain from the sale of qualified small business stock.
- Any other rollover of gain, such as gain from the sale of publicly traded securities.
- Exclusion of gain from the sale of DC Zone assets or qualified community assets.

- Certain other items that get special treatment.
- Special reporting rules for corporations, partnerships, estates, and trusts in certain situations.

For more information about reporting on Forms 6252, 4797, 4684, 6781, and 8824, see the instructions for those forms. See Pub. 544 and Pub. 550 for more details.

Box D. Report on a Part II with box D checked all long-term transactions reported to you on Form 1099-B (or substitute statement) with an amount shown for cost or other basis **unless** the statement indicates that amount was not reported to the IRS. If your statement shows cost or other basis but indicates it was not reported to the IRS (for example,

<p>basis). Reduce your cost (or other basis) by these distributions, but not below zero. After you have recovered your entire cost (or other basis), any later nondividend distribution is taxable as a capital gain.</p> <p>Enter the name of the payer of any taxable nondividend distributions in column (a) on a Part I with box C checked or Part II with box F checked (depending on how long you held the stock). Enter the taxable part of the distribution in columns (d) and (h). Each payer of a nondividend distribution should send you a Form 1099-DIV showing the amount of the distribution in box 3.</p> <p>Other gains or losses not known. If you have another gain or loss for which you do not know the sales price or basis (such as a long-term capital gain from Form 8621), enter a description of the gain or loss in column (a) on a Part I with box C checked or Part II with box F checked (depending on how long you held the property). If you have a gain, enter it in columns (d) and (h). If you have a loss, enter it in columns (e) and (h). Complete any other columns you can.</p> <p>Column (a)—Description of Property For stock, include the number of shares. You can use stock ticker symbols or abbreviations to describe the property as long as they are based on the descriptions of the property as shown on Form 1099-B or 1099-S (or substitute statement).</p> <p>If you inherited the property from someone who died in 2010 and the executor of the estate made the election to file Form 8939, also enter "INH-2010" in column (a).</p> <p>Column (b)—Date Acquired Enter in this column the date you acquired the property. Enter the trade date for stocks and bonds you purchased on an exchange or over-the-counter market. For the property delivered to the broker or lender to close the short sale. For property you previously elected to treat as having been sold and reacquired on January 1, 2001 (or January 2, 2001, for readily tradeable stock), enter the date of the deemed sale and reacquisition.</p> <p>Inherited property. Generally, if you disposed of property that you acquired by inheritance, report the sale or exchange on a Part I with the appropriate box checked (D, E, or F). Enter "INHERITED" in column (b).</p> <p>Stock acquired on various dates. If you sold a block of stock (or similar property) that you acquired through several different purchases, you may report the sale on one row and enter "VARIOUS" in column (b). However, you still must report the</p>	<p>short-term gain or (loss) on the sale on Part I and the long-term gain or (loss) on Part II.</p> <p>Column (c)—Date Sold or Disposed Enter in this column the date you sold or disposed of the property. Use the trade date for stocks and bonds traded on an exchange or over-the-counter market. For a short sale, enter the date you delivered the property to the broker or lender to close the short sale.</p> <p>Column (d)—Proceeds (Sales Price) Follow the instructions below that apply to your transaction(s).</p> <p>You did not receive a Form 1099-B or 1099-S (or substitute statement). If you did not receive a Form 1099-B or 1099-S (or substitute statement) for a transaction, enter in column (d) the net proceeds. The net proceeds equal the gross proceeds minus any selling expenses (such as broker's fees, commissions, and state and local transfer taxes). If you sold a call option and it was exercised, you must also adjust the sales price of the property sold under the option for any option premiums (as instructed in <i>Gain or Loss From Options</i> in the instructions for Schedule D (Form 1040)).</p> <p>You received a Form 1099-B or 1099-S (or substitute statement). If you received a Form 1099-B or 1099-S (or substitute statement) for a transaction, enter in column (d) the proceeds (sales price) shown on the form or statement you received. If there are any selling expenses or option premiums that are not reflected on the form or statement you received (by an adjustment to either the proceeds or basis shown), enter "E" in column (f) and the necessary adjustment in column (g). See the example under Column (g)—Adjustments to Gain or Loss, later.</p> <p>If the proceeds you received were more than shown on Form 1099-B or 1099-S (or substitute statement), enter the correct proceeds in column (d). This might happen if, for example, box 4 on Form 1099-S is checked.</p> <p>You should not have received a Form 1099-B (or substitute statement) for a transaction merely representing the return of your original investment in a nontransferable obligation, such as a savings bond or a certificate of deposit. 2013 Instructions for Schedule 8812

Child Tax Credit

Use Part I of Schedule 8812 to document that any child for whom you entered an ITIN on Form 1040, line 6c; Form 1040A, line 6c; or Form 1040NR, line 7c; and for whom you also checked the box in column 4 of that line, is a resident of the United States because the child meets the substantial presence test and is not otherwise treated as a nonresident alien.

Use Parts II–IV of Schedule 8812 to figure the additional child tax credit. The additional child tax credit may give you a refund even if you do not owe any tax.

Section references are to the Internal Revenue Code unless otherwise noted.

Future Developments

For the latest information about developments related to Schedule 8812 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/schedule8812.

General Instructions

Who Should Use Part I

You only need to complete Part I if you are claiming the child tax credit for a child identified by an IRS individual taxpayer identification number (ITIN). When completing Part I, only answer the questions with regard to children identified by an ITIN; you do not need to complete Part I of Schedule 8812 for any child that is identified by a social security number (SSN) or an IRS adoption taxpayer identification number (ATIN).

If all the children for whom you checked the box in column 4 of line 6c on your Form 1040 or Form 1040A or column 4 of line 7c on your Form 1040NR are identified by an SSN or an ATIN, you do not need to complete Part I of Schedule 8812.

Who Should Use Parts II–IV

Parts II–IV are unrelated to Part I. Parts II–IV help you figure your additional child tax credit. Generally, you should only complete Parts II–IV if you are instructed to do so after completing the Child Tax Credit Worksheet in your tax return instructions or Publication 972.

If all your children are identified by an SSN or an ATIN and you are not claiming the additional child tax credit, you do not need to complete any part of Schedule 8812.

Substantial Presence Test (Part I)

In general, to be a qualifying child for purposes of the child tax credit and additional child tax credit, the child must be a citizen, national, or resident of the United States. Use Part I of Schedule 8812 to document that any child for whom an IRS Individual Taxpayer Identification Number (ITIN) was entered on Form 1040, line 6c; Form 1040A, line 6c; or Form 1040NR, line 7c; and for whom the box in column 4 of that line was also checked, meets the substantial presence test and is not otherwise treated as a nonresident alien.

Note. A child who is a lawful permanent resident of the United States is eligible to obtain a social security number (SSN). Use an SSN to identify the child even if you obtained an ITIN for the child before the child became a lawful permanent resident.

To meet the substantial presence test, a child identified with an ITIN generally must be physically present in the United States on at least:

1. 31 days during 2013; and
2. 183 days during the 3-year period that includes 2013, 2012, and 2011, counting:
 - a. All the days your child was present in 2013; and
 - b. 1/3 of the days your child was present in 2012; and
 - c. 1/6 of the days your child was present in 2011.

Not all days that your dependent is physically present in the United States count as days of presence for the substantial presence test. See Days of Presence in the United States in Pub. 519.

A child who is present in the United States for less than one-half of 2013 also must not have a closer connection to a foreign country. See Pub. 519 for more information. Also, see the chart, *Is Your Dependent (Identified by an ITIN) Considered a Resident of the United States Under the Substantial Presence Test*, later.

Additional Child Tax Credit (Parts II–IV)

If any of your dependents is a qualifying child for purposes of the child tax credit (whether identified by an ITIN or not), you may qualify for the additional child tax credit. Before completing Parts II–IV of Schedule 8812, complete the Child Tax Credit Worksheet that applies to you. See the instructions for Form 1040, line 51; Form 1040A, line 33; or Form 1040NR, line 48. If you meet the condition given in the TIP at the end of the Child Tax Credit Worksheet, complete Parts II–IV of this schedule to figure the amount of any additional child tax credit you can claim.

Effect of Credit on Welfare Benefits

Any refund you receive as a result of taking the additional child tax credit cannot be counted as income when determining if you or anyone else is eligible for benefits or assistance, or how much you or anyone else can receive, under any federal program or under any state or local program financed in whole or in part with federal funds. These programs include Temporary Assistance for Needy Families (TANF), Medicaid, Supplemental Security Income (SSI), and Supplemental

positive number on line 4. Also enter \$800 in column (g) of a Part I with box A checked at the top. Enter "B" in column (f). Enter \$1,000 in column (d) and \$900 in column (e). To figure your gain or loss, subtract \$900 from \$1,000. Combine the result, \$100, with the \$800 adjustment in column (g). Your gain is \$900 (\$100 + \$800). Enter \$900 in column (h).

Worksheet for Basis Adjustments in Column (g)

If the basis shown on Form 1099-B (or substitute statement) is not correct, do the following.

- If the basis was not reported to the IRS, enter the correct basis in column (e) and enter -0- in column (g) (unless you must make an adjustment for some other reason).
- If the basis was reported to the IRS, enter the reported basis shown on Form 1099-B (or substitute statement) in column (e) and use this worksheet to figure the adjustment to include in column (g).

1. Enter the cost or other basis shown on Form 1099-B (or substitute statement)	1.
2. Enter the correct cost or other basis	2.
3. If line 1 is larger than line 2, leave this line blank and go to line 4. If line 2 is larger than line 1, subtract line 1 from line 2. Enter the result here and in column (g) as a negative number (in parentheses)	3.
4. If line 1 is larger than line 2, subtract line 2 from line 1. Enter the result here and in column (g) as a positive number	4.

Line 2

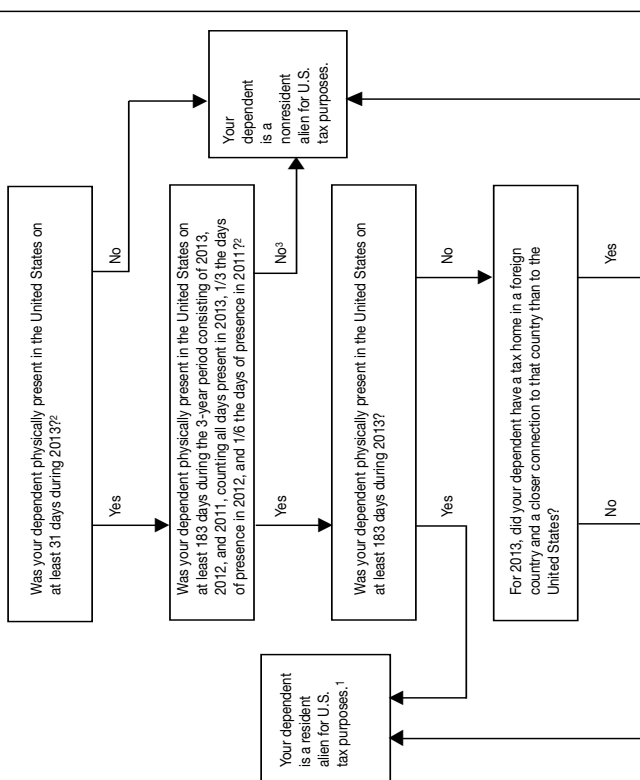

The total of the amounts in column (h) of line 2 of all your Forms 8949 should equal the amount you get by combining columns (d), (e), and (g) on the corresponding line 1b of Schedule D. The total of the

amounts in column (h) of line 2 of all your Forms 8949 with box A checked should equal the amount you get by combining columns (d), (e), and (g) on line 9 of Schedule D.

amounts in column (h) of line 2 of all your Forms 8949 with box E checked should equal the amount you get by combining columns (d), (e), and (g) on line 9 of Schedule D.

Is Your Dependent (Identified by an ITIN) Considered a Resident of the United States Under the Substantial Presence Test?

Start here to determine your dependent's status for 2013

¹ Despite meeting the substantial presence test, your dependent may still be considered a nonresident alien under an income tax treaty between the U.S. and your country. Check the provisions of the treaty carefully.

² See *Days of Presence in the United States* in Pub. 519 for days that do not count as days of presence in the United States.

³ If your dependent was present in the United States for at least 31 consecutive days in 2013 and meets the substantial presence test for 2014, see *First-Year Choice under Dual Status Aliens* in Pub. 519 to determine if your dependent may be considered to be a resident of the United States for part of 2013 under this rule. An individual may make an election for a child who is a dependent if the individual may make the election on his or her own behalf, the child qualifies to make the election, and the child is not required to file a United States income tax return for the year for which the election is effective.

Nutrition Assistance Program (food stamps). In addition, when determining eligibility, the refund cannot be counted as a resource for at least 12 months after you receive it. Check with your local benefits coordinator to find out if your refund will affect your benefits.

line for that dependent, you must determine if that dependent meets the substantial presence test and is not otherwise treated as a nonresident alien. Complete Line A for the first dependent listed on your Form 1040, line 6c; Form 1040A, line 6c; or Form 1040NR, line 7c, who has an ITIN and that you indicated qualified for the child tax credit by checking the box in column (4). Use a separate line for each additional child identified by an ITIN for whom you checked the box in column (4).

Specific Instructions

Part I

Lines A through D. If you identified any of your dependents using an ITIN on your Form 1040, line 6c; Form 1040A, line 6c; or Form 1040NR, line 7c; and you also checked the box in column (4) of that

If you only check "No" on any line in Part I, your child tax credit or additional child tax credit may be reduced or eliminated.

Child otherwise treated as a nonresident alien. Even if your child meets the substantial presence test, your child may still be treated as a nonresident alien due to a tax treaty or because the child has a closer connection to another country. See Pub. 519 for more details.

If you must complete Part I for a child and that child meets the substantial presence test, but is still treated as a nonresident alien, check the "No" box for that child.

Special circumstances. Even if your child does not meet the substantial presence test, your child may meet an exception or be treated as a resident of the United States in certain circumstances. If your child does not meet the substantial presence test, but one of the following special circumstances applies, check both the "Yes" and "No" boxes for that child.

- **First-year election.** If your child was present in the United States for at least 31 consecutive days in 2013 and meets the substantial presence test for 2014, your child may be considered a resident of the United States for part of 2013 if you make a valid election. See *First-Year Choice under Dual Status Aliens* in Pub. 519.
- **Child adopted by U.S. citizen or national.** A child legally adopted by you or lawfully placed with you for legal adoption is not required to meet the substantial presence test if you are a citizen or na-

tional of the United States, and, for your tax year, the child has the same main home as you and is a member of your household.

More than four children. If you must complete Part I for more than four children, check the box following Line D. Use page 1 of another Schedule 8812 and reletter Lines A-D in Part I as E-H. Complete the additional Part I of Schedule 8812 and attach it to your Schedule 8812.

2013 Instructions for Schedule A (Form 1040)

Itemized Deductions

Use Schedule A (Form 1040) to figure your itemized deductions. In most cases, your federal income tax will be less if you take the larger of your itemized deductions or your standard deduction.

If you itemize, you can deduct a part of your medical and dental expenses and unreimbursed employee business expenses, and amounts you paid for certain taxes, interest, contributions, and miscellaneous expenses. You can also deduct certain casualty and theft losses.

If you and your spouse paid expenses jointly and are filing separate returns for 2013, see Pub. 504 to figure the portion of joint expenses that you can claim as itemized deductions.

Do not include on Schedule A items deducted elsewhere, such as on Form 1040 or Schedule C, C-EZ, E, or F.

Examples of Medical and Dental Payments You Can Deduct

To the extent you were not reimbursed, you can deduct what you paid for:

- Insurance premiums for medical and dental care, including premiums for qualified long-term care insurance contracts as defined in Pub. 502. But see [Limit on long-term care premiums you can deduct](#), later.

Reduce the insurance premiums by any self-employed health insurance deduction you claimed on Form 1040, line 29. You cannot deduct insurance premiums paid with pretax dollars because the premiums are not included in box 1 of your Form(s) W-2. If you are a retired public safety officer, you cannot deduct any premiums you paid to the extent they were paid for with a tax-free distribution from your retirement plan.

Caution If, during 2013, you were an eligible trade adjustment assistance TAA (ATAA) recipient, alternative TAA (RTAA) recipient, or Pension Benefit Guaranty Corporation (PBGC) pension recipient, you must reduce your insurance premiums by any amounts used to figure the health coverage tax credit. See the instructions for [Line 1](#).

- Prescription medicines or insulin.

Medical and Dental Expenses

You generally can deduct only the part of your medical and dental expenses that exceeds 10% of the amount on Form 1040, line 38. However, if either you or your spouse was born before January 2, 1949, you can deduct the part of your medical and dental expenses that exceeds 7.5% of the amount on Form 1040, line 38. See the [instructions for line 3](#).

Pub. 502 discusses the types of expenses you can and cannot deduct. It also explains when you can deduct capital expenses and special care expenses for disabled persons.

Caution If you received a distribution from a health savings account or a medical savings account in 2013, see Pub. 969 to figure your deduction.

What's New

Medical and dental expenses. Beginning January 1, 2013, you can deduct only the part of your medical and dental expenses that exceeds 10% of your adjusted gross income (7.5% if either you or your spouse was born before January 2, 1949).

Limit on itemized deductions. Beginning January 1, 2013, itemized deductions for taxpayers with adjusted gross incomes above \$150,000 may be reduced. See the [instructions for line 29](#).

Standard mileage rates. The standard mileage rate allowed for operating expenses for a car when you use it for medical reasons is 24 cents per mile. The business standard mileage rate is 56.5 cents per mile. The 2013 rate for use of your vehicle to do volunteer work for certain charitable organizations remains at 14 cents per mile.

Ponzi-type investment schemes on Form 4684. There is a new Section C

1099-MISC may also show state and local income taxes withheld.

- State and local income taxes paid in 2013 for a prior year, such as taxes paid with your 2012 state or local income tax return. Do not include penalties or interest.
- State and local estimated tax payments made during 2013, including any part of a prior year refund that you chose to have credited to your 2013 state or local income taxes.
- Mandatory contributions you made to the California, New Jersey, or New York Nonoccupational Disability Benefit Fund, Rhode Island Temporary Disability Benefit Fund, or Washington State Supplemental Workmen's Compensation Fund.
- Mandatory contributions to the Alaska, California, New Jersey, or Pennsylvania state unemployment fund.
- Mandatory contributions to state family leave programs, such as the New Jersey Family Leave Insurance (FLI) program and the California Paid Family Leave program.

Do not reduce your deduction by any:

- State or local income tax refund or credit you expect to receive for 2013, or
- Refund of, or credit for, prior year state and local income taxes you actually received in 2013. Instead, see the instructions for Form 1040, line 10.

State and Local General Sales Taxes

If you elect to deduct state and local general sales taxes, you **must** check box b on line 5. To figure your deduction, you can use either your actual expenses or the optional sales tax tables.

Actual Expenses

Generally, you can deduct the actual state and local general sales taxes (including compensating use taxes) you paid in 2013 if the tax rate was the same as the general sales tax rate. However, sales taxes on food, clothing, medical supplies, and motor vehicles are deductible as a general sales tax even if the tax rate was less than the general sales tax rate. If you paid sales tax on a motor vehicle at a rate higher than the general sales tax rate, you can deduct only the amount of tax that you would have paid at the general sales tax rate on that vehicle. Motor vehicles include cars, motor-

Multiply line 2 by 10%. But, if either you or your spouse was born before January 2, 1949, multiply line 2 by 7.5%. The 7.5% rate applies whether you file a joint or separate return as long as one spouse was born before January 2, 1949.

Caution If you are claiming the 7.5% threshold amount for medical and dental expenses, make sure you check the appropriate box(es) on line 3(a) of Form 1040 for your situation. If your filing status is married filing separately or head of household, and you were not born before January 2, 1949, attach a statement to your return indicating that you are taking the 7.5% threshold because your spouse meets the requirements.

Taxes You Paid

Taxes You Cannot Deduct

- Federal income and most excise taxes.
- Social security, Medicare, federal unemployment (FUTA), and railroad retirement (RTTA) taxes.
- Customs duties.
- Federal estate and gift taxes. But see the instructions for Line 28.
- Certain state and local taxes, including: tax on gasoline, car inspection fees, assessments for sidewalks or other improvements to your property, tax you paid for someone else, and license fees (marriage, driver's, dog, etc.).

Line 5

Caution You can elect to deduct state and local general sales taxes instead of state and local income taxes. You cannot deduct both.

State and Local Income Taxes

If you elect to deduct state and local income taxes, you **must** check box a on line 5. Include on this line the state and local income taxes listed next.

- State and local income taxes withheld from your salary during 2013. Your Form(s) W-2 will show these amounts.
- Forms W-2G, 1099-G, 1099-R, and

• Any person you could have claimed as a dependent except that you, or your spouse if filing jointly, can be claimed as a dependent on someone else's 2013 return.

Example. You provided over half of your mother's support but cannot claim her as a dependent because she received wages of \$3,900 in 2013. You can include on line 1 any medical and dental expenses you paid in 2013 for your mother.

Insurance premiums for certain non-dependents. You may have a medical or dental insurance policy that also covers an individual who is not your dependent (for example, a nondependent child under age 27). You cannot deduct any premiums attributable to this individual, unless they are such a person described under *Whose medical and dental expenses can you include*, earlier. However, if you had family coverage when you added this individual to your policy and your premiums did not increase, you can enter on line 1 the full amount of your medical and dental insurance premiums. See Pub. 502 for more information.

Reimbursements. If your insurance company paid the provider directly for part of your expenses, and you paid only the amount that remained, include on line 1 only the amount you paid. If you received a reimbursement in 2013 for medical or dental expenses you paid in 2013, reduce your 2013 expenses by this amount. If you received a reimbursement in 2013 for prior year medical or dental expenses, do not reduce your 2013 expenses by this amount. But if you deducted the expenses in the earlier year and the deduction reduced your tax, you must include the reimbursement in income on Form 1040, line 21. See Pub. 502 for details on how to figure the amount to include.

Cafeteria plans. Do not include on line 1 insurance premiums paid by an employer-sponsored health insurance plan (cafeteria plan) unless the premiums are included in box 1 of your Form(s) W-2. Also, do not include any other medical and dental expenses paid by the plan unless the amount paid is included in box 1 of your Form(s) W-2.

Whose medical and dental expenses can you include? You can include medical and dental bills you paid in 2013 for anyone who was one of the following either when the services were provided or when you paid for them.

- Yourself and your spouse.
- All dependents you claim on your return.

- Any person you could have claimed as a dependent on your return except that person received \$3,900 or more of gross income or filed a joint return.

Caution If you were born before January 2, 1949, but not entitled to social security benefits, you can deduct premiums you voluntarily paid for Medicare A coverage.

• Travel your doctor told you to take for rest or a change.

- Funeral, burial, or cremation costs.

Line 1

Medical and Dental Expenses

Enter the total of your medical and dental expenses, after you reduce these expenses by any payments received from insurance or other sources. See *Reimbursements*, later.

TIP Do not forget to include insurance premiums you paid for medical and dental care. But if you claimed the self-employed health insurance deduction on Form 1040, line 29, reduce the premiums by the amount on line 29.

Caution If, during 2013, you were an eligible trade adjustment assistance (TAA) recipient, alternative TAA (ATAA) recipient, reemployment TAA (RTAA) recipient, or Pension Benefit Guaranty Corporation (PBGC) pension recipient, you must complete Form 8885 before completing Schedule A, line 1. When figuring the amount of insurance premiums you can deduct on Schedule A, do not include:

- Any amounts you included on Form 8885, line 4.
- Any qualified health insurance premiums you paid to "U.S. Treasury-HCTC," or
- Any health coverage tax credit advance payments shown in box 1 of Form 1099-H.

- Your child whom you do not claim as a dependent because of the rules for children of divorced or separated parents.

Deceased taxpayer. Certain medical expenses paid out of a deceased taxpayer's estate can be claimed on the deceased taxpayer's final return. See Pub. 502 for details.

Limit on long-term care premiums you can deduct. The amount you can deduct for qualified long-term care insurance contracts (as defined in Pub. 502) depends on the age, at the end of 2013, of the person for whom the premiums were paid. See the following chart for details.

IF the person was, at the end of 2013, age . . .	THEN the most you can deduct is . . .
40 or under	\$360
41–50	\$680

cycles, motor homes, recreational vehicles, sport utility vehicles, trucks, vans, and off-road vehicles. Also include any state and local general sales taxes paid for a leased motor vehicle. Do not include sales taxes paid on items used in your trade or business.

CAUTION You must keep your actual receipts showing general sales taxes paid to use this method.

Refund of general sales taxes. If you received a refund of state or local general sales taxes in 2013 for amounts paid in 2013, reduce your actual 2013 state and local general sales taxes by this amount. If you received a refund of state or local general sales taxes in 2013 for prior year purchases, do not reduce your 2013 state and local general sales taxes by this amount. But if you deducted your actual state and local general sales taxes in the earlier year and the deduction reduced your tax, you may have to include the refund in income on Form 1040, line 21. See *Recoveries* in Pub. 525 for details.

Optional Sales Tax Tables

Instead of using your actual expenses, you can use the 2013 Optional State and Certain Local Sales Tax Table and the 2013 Optional Local Sales Tax Tables for Certain Local Jurisdictions at the end of these instructions to figure your state and local general sales tax deduction. You may also be able to add the state and local general sales taxes paid on certain specified items.

To figure your state and local general sales tax deduction using the tables, complete the State and Local General Sales Tax Deduction Worksheet or use the Sales Tax Deduction Calculator on the IRS website at www.irs.gov/Individuals/Sales-Tax-Deduction-Calculator.

CAUTION If your filing status is married filing separately, both you and your spouse elect to deduct sales taxes, and your spouse elects to use the optional sales tax tables, you also must use the tables to figure your state and local general sales tax deduction.

Instructions for the State and Local General Sales Tax Deduction Worksheet

Line 1. If you lived in the same state for all of 2013, enter the applicable amount, based on your 2013 income and exemptions, from the 2013 Optional State and Certain Local Sales Tax Table for your state. Read down the "At least—But less than" columns for your state and find the line that includes your 2013 income. If married filing separately, do not include your spouse's income. Your 2013 income is the amount shown on your Form 1040, line 38, plus any non-taxable items, such as the following:

- Tax-exempt interest.
- Veterans' benefits.
- Nontaxable combat pay.
- Workers' compensation.
- Nontaxable part of social security and railroad retirement benefits.
- Nontaxable part of IRA, pension, or annuity distributions. Do not include rollovers.

The exemptions column refers to the number of exemptions claimed on Form 1040, line 6d.

What if you lived in more than one state? If you lived in more than one state during 2013, look up the table amount for each state using the rules stated earlier. If there is no table for your state, the table amount is considered to be zero. Multiply the table amount for each state you lived in by a fraction. The numerator of the fraction is the number of days you lived in the state during 2013 and the denominator is the total number of days in the year (365). Enter the total of the prorated table amounts for each state on line 1. However, if you also lived in a locality during 2013 that imposed a local general sales tax, do not enter the total on line 1. Instead, complete a separate worksheet for each state you lived in and enter the prorated amount for that state on line 1.

Example. You lived in State A from January 1 through August 31, 2013 (243 days), and in State B from September 1 through December 31, 2013 (122 days). The table amount for State A is \$500. The table amount for State B is \$400. You would figure your state general sales tax as follows.

State A: $\$500 \times 243/365 = \333
State B: $\$400 \times 122/365 = 134$
Total = \$467

If none of the localities in which you lived during 2013 imposed a local general sales tax, enter \$467 on line 1 of your worksheet. Otherwise, complete a separate worksheet for State A and State B. Enter \$333 on line 1 of the State A worksheet and \$134 on line 1 of the State B worksheet.

Line 2. If you checked the "No" box, enter -0- on line 2, and go to line 3. If you checked the "Yes" box and lived in the same locality for all of 2013, enter the applicable amount, based on your 2013 income and exemptions, from the 2013 Optional Local Sales Tax Tables for Certain Local Jurisdictions for your locality. Read down the "At least—But less than" columns for your locality and find the line that includes your 2013 income. See the instructions for line 1 of the worksheet to figure your 2013 income. The exemptions column refers to the number of exemptions claimed on Form 1040, line 6d.

What if you lived in more than one locality? If you lived in more than one locality during 2013, look up the table amount for each locality using the rules stated earlier. If there is no table for your locality, the table amount is considered to be zero. Multiply the table amount for each locality you lived in by a fraction. The numerator of the fraction is the number of days you lived in the locality during 2013 and the denominator is the total number of days in the year (365). If you lived in more than one locality in the same state and the local general sales tax rate was the same for each locality, enter the total of the prorated table amounts for each locality in that state on line 2. Otherwise, complete a separate worksheet for lines 2 through 6 for each locality and enter each prorated table amount on line 2 of the applicable worksheet.

Example. You lived in Locality 1 from January 1 through August 31, 2013 (243 days), and in Locality 2 from September 1 through December 31, 2013 (122 days). The table amount for Locality 1 is \$100. The table amount for Locality 2 is \$150. You would figure the amount to enter on line 2 as follows.

Note that this amount may not equal your local sales tax deduction, which is figured on line 6 of the worksheet.

Locality 1: $\$100 \times 243/365 = \67
Locality 2: $\$150 \times 122/365 = 50$
Total = \$117

State and Local General Sales Tax Deduction Worksheet—Line 5b

TIP Instead of using this worksheet, you can find your deduction by using the Sales Tax Deduction Calculator at IRS.gov.

Before you begin: See the instructions for line 1 of the worksheet if you:

- ☒ Lived in more than one state during 2013, or
- ☒ Had any nontaxable income in 2013.

1. Enter your state general sales taxes from the 2013 Optional State and Certain Local Sales Tax Table

Next, if, for all of 2013, you lived only in Connecticut, the District of Columbia, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Jersey, or Rhode Island, skip lines 2 through 5, enter -0- on line 6, and go to line 7. Otherwise, go to line 2.

2. Did you live in Alaska, Arizona, Arkansas, Colorado, Georgia, Illinois, Louisiana, Missouri, New York, North Carolina, South Carolina, Tennessee, Utah, Virginia, or West Virginia in 2013?

☐ No. Enter -0-

☐ Yes. Enter your base local general sales taxes from the 2013 Optional Local Sales Tax Tables for Certain Local Jurisdictions

3. Did your locality impose a local general sales tax in 2013? Residents of California and Nevada, see the instructions for line 3 of the worksheet.

☐ No. Skip lines 3 through 5, enter -0- on line 6, and go to line 7.

☐ Yes. Enter your local general sales tax rate, but omit the percentage sign. For example, if your local general sales tax rate was 2.5%, enter 2.5. If your local general sales tax rate changed or you lived in more than one locality in the same state during 2013, see the instructions for line 3 of the worksheet

4. Did you enter -0- on line 2 above?

☐ No. Skip lines 4 and 5 and go to line 6.

☐ Yes. Enter your state general sales tax rate (shown in the table heading for your state), but omit the percentage sign. For example, if your state general sales tax rate is 6%, enter 6.0

5. Divide line 3 by line 4. Enter the result as a decimal (rounded to at least three places)

6. Did you enter -0- on line 2 above?

☐ No. Multiply line 2 by line 3

☐ Yes. Multiply line 1 by line 5. If you lived in more than one locality in the same state during 2013, see the instructions for line 6 of the worksheet

7. Enter your state and local general sales taxes paid on specified items, if any. See the instructions for line 7 of the worksheet

8. Deduction for general sales taxes. Add lines 1, 6, and 7. Enter the result here and the total from all your state and local general sales tax deduction worksheets, if you completed more than one, on Schedule A, line 5. Be sure to check box b on that line

Keep for Your Records

Line 3. If you lived in California, check the "No" box if your combined state and local general sales tax rate is 7.5000%. Otherwise, check the "Yes" box and include on line 3 only the part of the

combined rate that is more than 7.5000%.

If you lived in Nevada, check the "No" box if your combined state and local general sales tax rate is 6.8500%. Otherwise, check the "Yes" box and include on line 3 only the part of the combined rate that is more than 6.8500%.

What if your local general sales tax rate changed during 2013? If you checked the "Yes" box and your local general sales tax rate changed during 2013, figure the rate to enter on line 3 as follows. Multiply each tax rate for the period it was in effect by a fraction. The numerator of the fraction is the number of days the rate was in effect during 2013, and the denominator is the total number of days in the year (365). Enter the total of the prorated tax rates on line 3.

Example. Locality 1 imposed a 1% local general sales tax from January 1 through September 30, 2013 (273 days). The rate increased to 1.75% for the period from October 1 through December 31, 2013 (92 days). You would enter "1.189" on line 3, figured as follows.

January 1 – September 30:	$1.00 \times 273/365 = 0.748$
October 1 – December 31:	$1.75 \times 92/365 = 0.441$
Total	$= 1.189$

What if you lived in more than one locality in the same state during 2013? Complete a separate worksheet for lines 2 through 6 for each locality in your state if you lived in more than one locality in the same state during 2013 and each locality did not have the same local general sales tax rate.

To figure the amount to enter on line 3 of the worksheet for each locality in which you lived (except a locality for which you used the 2013 Optional Local Sales Tax Tables for Certain Local Jurisdictions to figure your local general sales tax deduction), multiply the local general sales tax rate by a fraction. The numerator of the fraction is the number of days you lived in the locality during 2013, and the denominator is the total number of days in the year (365).

Example. You lived in Locality 1 from January 1 through August 31, 2013 (243 days), and in Locality 2 from Sep-

tember 1 through December 31, 2013 (122 days). The local general sales tax rate for Locality 1 is 1%. The rate for Locality 2 is 1.75%. You would enter "0.666" on line 3 for the Locality 1 worksheet and "0.585" for the Locality 2 worksheet, figured as follows.

Locality 1:	$1.00 \times 243/365 = 0.666$
Locality 2:	$1.75 \times 122/365 = 0.585$

Line 6. If you lived in more than one locality in the same state during 2013, you should have completed line 1 only on the first worksheet for that state and separate worksheets for lines 2 through 6 for any other locality within that state in which you lived during 2013. If you checked the "Yes" box on line 6 of any of those worksheets, multiply line 5 of that worksheet by the amount that you entered on line 1 for that state on the first worksheet.

Line 7. Enter on line 7 any state and local general sales taxes paid on the following specified items. If you are completing more than one worksheet, include the total for line 7 on only one of the worksheets.

1. A motor vehicle (including a car, motorcycle, motor home, recreational vehicle, sport utility vehicle, truck, van, and off-road vehicle). Also include any state and local general sales taxes paid for a leased motor vehicle. If the state sales tax rate on these items is higher than the general sales tax rate, only include the amount of tax you would have paid at the general sales tax rate.
2. An aircraft or boat, if the tax rate was the same as the general sales tax rate.
3. A home (including a mobile home or prefabricated home) or substantial addition to or major renovation of a home, but only if the tax rate was the same as the general sales tax rate and any of the following applies:
 - a. Your state or locality imposes a general sales tax directly on the sale of a home or on the cost of a substantial addition or major renovation.
 - b. You purchased the materials to build a home or substantial addition or to perform a major renovation and paid the sales tax directly.
 - c. Under your state law, your contractor is considered your agent in the

construction of the home or substantial addition or the performance of a major renovation. The contract must state that the contractor is authorized to act in your name and must follow your directions on construction decisions. In this case, you will be considered to have purchased any items subject to a sales tax and to have paid the sales tax directly.

Do not include sales taxes paid on items used in your trade or business. If you received a refund of state or local general sales taxes in 2013, see [Refund of general sales taxes](#), earlier.

Line 6

Real Estate Taxes

TIP If you are a homeowner who received assistance under a State Housing Finance Agency Hardest Hit Fund program or an Emergency Homeowners' Loan program, see Pub. 530 for the amount you can deduct on line 6.

Include taxes (state, local, or foreign) you paid on real estate you own that was not used for business, but only if the taxes are assessed uniformly at a like rate on all real property throughout the community, and the proceeds are used for general community or governmental purposes. Pub. 530 explains the deductions homeowners can take.

Do not include the following amounts on line 6.

- Itemized charges for services to specific property or persons (for example, a \$20 monthly charge per house for trash collection, a \$5 charge for every 1,000 gallons of water consumed, or a flat charge for mowing a lawn that had grown higher than permitted under a local ordinance).
- Charges for improvements that tend to increase the value of your property (for example, an assessment to build a new sidewalk). The cost of a property improvement is added to the basis of the property. However, a charge is deductible if it is used only to maintain an existing public facility in service (for example, a charge to repair an existing sidewalk, and any interest included in that charge).

If your mortgage payments include your real estate taxes, you can deduct

only the amount the mortgage company actually paid to the taxing authority in 2013.

If you sold your home in 2013, any real estate tax charged to the buyer should be shown on your settlement statement and in box 5 of any Form 1099-S you received. This amount is considered a refund of real estate taxes. See [Refunds and rebates](#), later. Any real estate taxes you paid at closing should be shown on your settlement statement.

TIP You must look at your real estate tax bill to decide if any nondeductible itemized charges, such as those listed earlier, are included in the bill. If your taxing authority (or lender) does not furnish you a copy of your real estate tax bill, ask for it.

Refunds and rebates. If you received a refund or rebate in 2013 of real estate taxes you paid in 2013, reduce your deduction by the amount of the refund or rebate. If you received a refund or rebate in 2013 of real estate taxes you paid in an earlier year, do not reduce your deduction by this amount. Instead, you must include the refund or rebate in income on Form 1040, line 21, if you deducted the real estate taxes in the earlier year and the deduction reduced your tax. See [Recoveries](#) in Pub. 525 for details on how to figure the amount to include in income.

Line 7

Personal Property Taxes

Enter the state and local personal property taxes you paid, but only if the taxes were based on value alone and were imposed on a yearly basis.

Example. You paid a yearly fee for the registration of your car. Part of the fee was based on the car's value and part was based on its weight. You can deduct only the part of the fee that was based on the car's value.

Line 8

Other Taxes

If you had any deductible tax not listed on line 5, 6, or 7, list the type and amount of tax. Enter only one total on line 8. Include on this line income tax

you paid to a foreign country or U.S. possession.

TIP You may want to take a credit for the foreign tax instead of a deduction. See the instructions for Form 1040, line 47, for details.

Interest You Paid

Whether your interest expense is treated as investment interest, personal interest, or business interest depends on how and when you used the loan proceeds. See Pub. 535 for details.

In general, if you paid interest in 2013 that applies to any period after 2013, you can deduct only amounts that apply for 2013.

Lines 10 and 11

Home Mortgage Interest

TIP If you are a homeowner who received assistance under a State Housing Finance Agency Hardest Hit Fund program or an Emergency Homeowners' Loan program, see Pub. 530 for the amount you can deduct on line 10 or 11.

A home mortgage is any loan that is secured by your main home or second home. It includes first and second mortgages, home equity loans, and refinanced mortgages.

A home can be a house, condominium, cooperative, mobile home, boat, or similar property. It must provide basic living accommodations including sleeping space, toilet, and cooking facilities.

Limit on home mortgage interest. If you took out any mortgages after October 13, 1987, your deduction may be limited. Any additional amounts borrowed after October 13, 1987, on a line-of-credit mortgage you had on that date are treated as a mortgage taken out after October 13, 1987. If you refinanced a mortgage you had on October 13, 1987, treat the new mortgage as taken out on or before October 13, 1987. But if you refinanced for more than the balance of the old mortgage, treat the excess as a mortgage taken out after October 13, 1987.

See Pub. 936 to figure your deduction if either (1) or (2) next applies. If you

had more than one home at the same time, the dollar amounts in (1) and (2) apply to the total mortgages on both homes.

1. You took out any mortgages after October 13, 1987, and used the proceeds for purposes other than to buy, build, or improve your home, and all of these mortgages totaled over \$100,000 at any time during 2013. The limit is \$50,000 if this type of mortgage is a home equity loan used to pay off credit card bills, buy a car, or pay tuition.

2. You took out any mortgages after October 13, 1987, and used the proceeds to buy, build, or improve your home, and these mortgages plus any mortgages you took out on or before October 13, 1987, totaled over \$1 million at any time during 2013. The limit is \$500,000 if married filing separately.

TIP If the total amount of all mortgages is more than the fair market value of the home, additional limits apply. See Pub. 936.

Line 10

Enter on line 10 mortgage interest and points reported to you on Form 1098. If your Form 1098 shows any refund of overpaid interest, do not reduce your deduction by the refund. Instead, see the instructions for Form 1040, line 21. If you and at least one other person (other than your spouse if filing jointly) were liable for and paid interest on the mortgage, and the interest was reported on the other person's Form 1098, report your share of the interest on line 11 (as explained in the line 11 instructions).

If you paid more interest to the recipient than is shown on Form 1098, see Pub. 936 to find out if you can deduct the additional interest. If you can, attach a statement to your paper return explaining the difference and enter "See attached" to the right of line 10.

TIP If you are claiming the mortgage interest credit (for holders of qualified mortgage credit certificates issued by state or local governmental units or agencies), subtract the amount shown on Form 8396, line 3, from the total deductible interest you paid on your home mortgage. Enter the result on line 10.

Line 11

If you paid home mortgage insurance interest and it was not reported to you on Form 1098, report your deductible mortgage interest on line 11.

If you paid home mortgage insurance interest to the person from whom you bought the home, write that person's name, identifying number, and address on the dotted lines next to line 11. If the recipient of your home mortgage interest payment(s) is an individual, the identifying number is his or her social security number (SSN). Otherwise, it is the employer identification number. You must also let the recipient know your SSN. If you do not show the required information about the recipient or let the recipient know your SSN, you may have to pay a \$50 penalty.

If you and at least one other person (other than your spouse if filing jointly) were liable for and paid interest on the mortgage, and the home mortgage interest paid was reported on the other person's Form 1098, attach a statement to your paper return listing the name and address of that person. To the right of line 11, enter "See attached."

Line 12**Points Not Reported on Form 1098**

Points are shown on your settlement statement. Points you paid only to borrow money are generally deductible over the life of the loan. See Pub. 936 to figure the amount you can deduct. Points paid for other purposes, such as for a lender's services, are not deductible.

Refinancing. Generally, you must deduct points you paid to refinance a mortgage over the life of the loan. This is true even if the new mortgage is secured by your main home.

If you used part of the proceeds to improve your main home, you may be able to deduct the part of the points related to the improvement in the year paid. See Pub. 936 for details.

Tip If you paid off a mortgage early, deduct any remaining points in the year you paid off the mortgage. However, if you refinanced your mortgage with the same lender, see Mortgage ending early in Pub. 936 for an exception.

Line 13**Mortgage Insurance Premiums**

Enter the qualified mortgage insurance premiums you paid under a mortgage insurance contract issued after December 31, 2006, in connection with home acquisition debt that was secured by your first or second home. Box 4 of Form 1098 may show the amount of premiums you paid in 2013. If you and at least one other person (other than your spouse if filing jointly) were liable for and paid the premiums in connection with the loan, and the premiums were reported on the other person's Form 1098, report your share of the premiums on line 13. See *Prepaid mortgage insurance premiums*, later, if you paid any premiums allocable to any period after 2013.

Qualified mortgage insurance is mortgage insurance provided by the Department of Veterans Affairs, the Federal Housing Administration, or the Rural Housing Service (or their successor organizations), and private mortgage insurance (as defined in section 2 of the Homeowners Protection Act of 1998 as in effect on December 20, 2006).

Mortgage insurance provided by the Department of Veterans Affairs and the Rural Housing Service is commonly known as a funding fee and guarantee fee respectively. These fees can be deducted fully in 2013 if the mortgage insurance contract was issued in 2013. Contact the mortgage insurance issuer to determine the deductible amount if it is not included in box 4 of Form 1098.

Prepaid mortgage insurance premiums. If you paid qualified mortgage insurance premiums that are allocable to periods after 2013, you must allocate them over the shorter of:

- The stated term of the mortgage, or
 - 84 months, beginning with the month the insurance was obtained.
- The premiums are treated as paid in the year to which they are allocated. If the

To verify an organization's charitable status, you can:

- Check with the organization to which you made the donation. The organization should be able to provide you with verification of its charitable status.
- Use our on-line search tool *Exempt Organizations Select Check* to see if an organization is eligible to receive tax-deductible contributions (Publication 78 data). You can access *Exempt Organizations Select Check* on IRS.gov. Click on "Tools," then on Exempt Organizations Select Check.
- Call our Tax Exempt/Government Entities Customer Account Services at 1-877-829-5500.

Examples of Qualified Charitable Organizations

- Churches, mosques, synagogues, temples, etc.
- Boy Scouts, Boys and Girls Clubs of America, CARE, Girl Scouts, Goodwill Industries, Red Cross, Salvation Army, United Way, etc.

Amounts You Can Deduct

Contributions can be in cash, property, or out-of-pocket expenses you paid to, did not receive any goods or services, a deduction described earlier. If you drove to and from the volunteer work, you can take the actual cost of gas and oil or 14 cents a mile. Add parking and tolls to the amount you claim under either method. But do not deduct any amounts that were repaid to you.

Gifts from which you benefit. If you made a gift and received a benefit in return, such as food, entertainment, or

- Fraternal orders, if the gifts will be used for the purposes listed under *Gifts to Charities*, earlier.
- Veterans' and certain cultural groups.
- Nonprofit hospitals, and organizations whose purpose is to find a cure for, or help people who have, arthritis, asthma, birth defects, cancer, cerebral palsy, cystic fibrosis, diabetes, heart disease, hemophilia, mental illness or retardation, multiple sclerosis, muscular dystrophy, tuberculosis, etc.

• Most nonprofit educational organizations, such as colleges, but only if your contribution is not a substitute for tuition or other enrollment fees.

- Federal, state, and local governments if the gifts are solely for public purposes.

merchandise, you can generally only deduct the amount that is more than the value of the benefit. But this rule does not apply to certain membership benefits provided in return for an annual payment of \$75 or less or to certain items or benefits of token value. For details, see Pub. 526.

Example. You paid \$70 to a charitable organization to attend a fund-raising dinner and the value of the dinner was \$40. You can deduct only \$30.

Gifts of \$250 or more. You can deduct a gift of \$250 or more only if you have a statement from the charitable organization showing the information in (1) and (2) next.

1. The amount of any money contributed and a description (but not value) of any property donated.
2. Whether the organization did or did not give you any goods or services in return for your contribution. If you did receive any goods or services, a description and estimate of the value must be included. If you received only intangible religious benefits (such as admission to a religious ceremony), the organization must state this, but it does not have to describe or value the benefit.

In figuring whether a gift is \$250 or more, do not combine separate donations. For example, if you gave your church \$25 each week for a total of

Mortgage Insurance Premiums Deduction Worksheet—Line 13

Before you begin: ✓ See the instructions for line 13 to see if you must use this worksheet to figure your deduction.

1. Enter the total premiums you paid in 2013 for qualified mortgage insurance for a contract issued after December 31, 2006	1.	
2. Enter the amount from Form 1040, line 38	2.	
3. Enter \$100,000 (\$50,000 if married filing separately)	3.	
4. Is the amount on line 2 more than the amount on line 3? <input type="checkbox"/> No. <input type="checkbox"/> Yes. Do not complete the rest of this worksheet.	4.	
5. Subtract line 3 from line 2. If the result is not a multiple of \$1,000 (\$500 if married filing separately), increase it to the next multiple of \$1,000 (\$500 if married filing separately). For example, increase \$425 to \$1,000, increase \$2,025 to \$3,000, or if married filing separately, increase \$425 to \$500, increase \$2,025 to \$2,500, etc. Divide line 4 by \$10,000 (\$5,000 if married filing separately). Enter the result as a decimal. If the result is 1.0 or more, enter 1.0	5.	
6. Multiply line 1 by line 5	6.	
7. Mortgage insurance premiums deduction. Subtract line 6 from line 1. Enter the result here and on Schedule A, line 13	7.	

\$1,300, treat each \$25 payment as a separate gift. If you made donations through payroll deductions, treat each deduction from each paycheck as a separate gift. See Pub. 526 if you made a separate gift of \$250 or more through payroll deduction.

TIP You must get the statement by the date you file your return or the due date (including extensions) for filing your return, whichever is earlier. Do not attach the statement to your return. Instead, keep it for your records.

Limit on the amount you can deduct. See Pub. 526 to figure the amount of your deduction if any of the following applies.

1. Your cash contributions or contributions of ordinary income property are more than 30% of the amount on Form 1040, line 38.

2. Your gifts of capital gain property are more than 20% of the amount on Form 1040, line 38.

3. You gave gifts of property that increased in value or gave gifts of the use of property.

Amounts You Cannot Deduct

- Travel expenses (including meals and lodging) while away from home, unless there was no significant element of personal pleasure, recreation, or vacation in the travel.
- Political contributions.
- Dues, fees, or bills paid to country clubs, lodges, fraternal orders, or similar groups.
- Cost of raffle, bingo, or lottery tickets. But you may be able to deduct these expenses on line 28. See the instructions for [Line 28](#) for more information on gambling losses.
- Value of your time or services.
- Value of blood given to a blood bank.

The transfer of a future interest in tangible personal property (generally, until the entire interest has been transferred).

- Gifts to individuals and groups that are run for personal profit.
- Gifts to foreign organizations. But you may be able to deduct gifts to certain U.S. organizations that transfer

funds to foreign charities and certain Canadian, Israeli, and Mexican charities. See Pub. 526 for details.

• Gifts to organizations engaged in certain political activities that are of direct financial interest to your trade or business. See section 170(f)(9).

- Gifts to groups whose purpose is to lobby for changes in the laws.
- Gifts to civic leagues, social and sports clubs, labor unions, and chambers of commerce.
- Value of benefits received in connection with a contribution to a charitable organization. See Pub. 526 for exceptions.
- Cost of tuition. But you may be able to deduct this as a job education expense on line 21; as a tuition and fees deduction on Form 1040, line 34; or take an education credit (see Form 8863).

Line 16

Gifts by Cash or Check
Enter on line 16 the total value of gifts you made in cash or by check (including out-of-pocket expenses).

Recordkeeping. For any contribution made in cash, regardless of the amount, you must maintain as a record of the contribution a bank record (such as a canceled check or credit card statement) or a written record from the charity. The written record must include the name of the charity, date, and amount of the contribution. If you made contributions through payroll deduction, see Pub. 526 for information on the records you must keep. Do not attach the record to your tax return. Instead, keep it with your other tax records.

Line 17
Other Than by Cash or Check
Enter on line 17 the total value of your contributions of property other than by cash or check. If you gave used items, such as clothing or furniture, deduct their fair market value at the time you gave them. Fair market value is what a willing buyer would pay a willing seller when neither has to buy or sell and both are aware of the conditions of the sale. For more details on determining the value of donated property, see Pub. 561.

If the amount of your deduction is more than \$500, you must complete and attach Form 8283. For this purpose, the "amount of your deduction" means your deduction before applying any income limits that could result in a carryover of contributions. If you deduct more than \$500 for a contribution of a motor vehicle, boat, or airplane, you must also attach a statement from the charitable organization to your paper return. The organization may use Form 1098-C to provide the required information. If you total a deduction is over \$5,000 (\$500 for certain contributions of clothing and household items (discussed next)), you may also have to get appraisals of the values of the donated property. See Form 8283 and its instructions for details.

Contributions of clothing and household items. A deduction for these contributions will be allowed only if the items are in good used condition or better. However, this rule does not apply to a contribution of any single item for which a deduction of more than \$500 is claimed and for which you include a qualified appraisal and Form 8283 with your tax return.

Recordkeeping. If you gave property, you should keep a receipt or written statement from the organization you gave the property to, or a reliable written record, that shows the organization's name and address, the date and location of the gift, and a description of the property. For each gift of property, you should also keep reliable written records that include:

- How you figured the property's value at the time you gave it. If the value was determined by an appraisal, keep a signed copy of the appraisal.
- The cost or other basis of the property if you must reduce it by any ordinary income or capital gain that would have resulted if the property had been sold at its fair market value.
- How you figured your deduction if you chose to reduce your deduction for gifts of capital gain property.
- Any conditions attached to the gift.

CAUTION If your total deduction for gifts of property is over \$500, you must complete and attach Form 8283. For this purpose, the "amount of your deduction" means your deduction before applying any income limits that could result in a carryover of contributions. If you deduct more than \$500 for a contribution of a motor vehicle, boat, or airplane, you must also attach a statement from the charitable organization to your paper return. The organization may use Form 1098-C to provide the required information. If you total a deduction is over \$5,000 (\$500 for certain contributions of clothing and household items (discussed next)), you may also have to get appraisals of the values of the donated property. See Form 8283 and its instructions for details.

Line 18

Carryover From Prior Year

Enter any carryover of contributions that you could not deduct in an earlier year because they exceeded your adjusted gross income limit. See Pub. 526 for details.

Casualty and Theft Losses

Line 20

Complete and attach Form 4684 to figure the amount of your loss to enter on line 20.

You may be able to deduct part or all of each loss caused by theft, vandalism, fire, storm, or similar causes; car, boat, and other accidents; and corrosive drywall. You may also be able to deduct money you had in a financial institution but lost because of the insolvency or bankruptcy of the institution.

You can deduct personal casualty or theft losses only to the extent that:

1. The amount of each separate casualty or theft loss is more than \$100, and
2. The total amount of all losses during the year (reduced by the \$100 limit discussed in (1)) is more than 10% of the amount on Form 1040, line 38.

Corrosive drywall losses. If you paid for repairs to your personal residence or household appliances because of corrosive drywall that was installed between 2001 and 2008, you may be able to deduct on line 20 those amounts paid. See Pub. 547 for details.

Use Schedule A, line 23, to deduct the costs of proving that you had a property loss. Examples of these costs are appraisal fees and photographs used to establish the amount of your loss.

Job Expenses and Certain Miscellaneous Deductions

You can deduct only the part of these expenses that exceeds 2% of the amount on Form 1040, line 38.

Use Schedule C (Form 1040) to report income or loss from a business you operated or a profession you practiced as a sole proprietor. An activity qualifies as a business if your primary purpose for engaging in the activity is for income or profit and you are involved in the activity with continuity and regularity. Also use Schedule C to report (a) wages and expenses you had as a statutory employee, (b) income and deductions of certain qualified joint ventures, and (c) certain income shown on Form 1099-MISC, Miscellaneous Income. See the *Instructions for Recipient* (back of Copy B of Form 1099-MISC) for the types of income to report on Schedule C.

Small businesses and statutory employees with business expenses of \$5,000 or less may be able to file Schedule C-EZ instead of Schedule C. See Schedule C-EZ for details.

- Form 4797 to report sales, exchanges, and involuntary conversions (not from a casualty or theft) of trade or business property.

federal highway motor vehicle use tax. See the Instructions for Form 2290 to find out if you must pay this tax and visit www.irs.gov/trucker for the most recent developments.

Information returns. You may have to file information returns for wages paid to employees, certain payments of fees and other nonemployee compensation, interest, rent, royalties, real estate transactions, annuities, and pensions. See [Line 1](#), later, and the 2013 General Instructions for Certain Information Returns for details and other payments that may require you to file a Form 1099.

If you received cash of more than \$10,000 in one or more related transactions in your trade or business, you may have to file Form 8300. For details, see Pub. 1544.

Qualified Joint Venture

If you and your spouse each materially participate (see [Material Participation](#), later, in the instructions for line G) as the only members of a jointly owned and operated business and you file a joint return for the tax year, you can elect to be treated as a qualified joint venture instead of a partnership. This election, in most cases, will not increase the total tax owed on the joint return, but it does give each of you credit for social security earnings on which retirement benefits are based and for Medicare coverage. By making the election, you will not be required to file Form 1065 for any year the election is in effect and will instead report the income and deductions directly on your joint return. If you and your spouse filed a Form 1065 for the year prior to the election, the partnership terminates at the end of the tax year immediately preceding the year the election takes effect.

Note. Mere joint ownership of property that is not a trade or business does not qualify for the election.

Making the election. To make this election, you must divide all items of income, gain, loss, deduction, and credit attributable to the business between you and your spouse in accordance with your respective interests in the venture. Each of you must file a separate Schedule C, C-EZ, or F. On each line of your separate Schedule C, C-EZ, or F, you must enter your share of the applicable in-

come, deduction, or loss. Each of you must also file a separate Schedule SE to pay self-employment tax, as applicable.

Once made, the election can be revoked only with the permission of the IRS. However, the election technically remains in effect only for as long as the spouses filing as a qualified joint venture continue to meet the requirements for filing the election. If the spouses fail to meet the qualified joint venture requirements for a year, a new election will be necessary for any future year in which the spouses meet the requirements to be treated as a qualified joint venture.

The election generally does not require that you and your spouse obtain an employer identification number (EIN) since you and your spouse will file as sole proprietors. However, you may need an EIN to file other returns such as employment or excise tax returns. To apply for an EIN, see the Instructions for Form SS-4.

For more information on qualified joint ventures, go to IRS.gov and enter "qualified joint venture" in the search box.

Rental real estate business. If you and your spouse make the election for your rental real estate business, you must each report your share of income and deductions on Schedule E. Rental real estate income generally is not included in net earnings from self-employment subject to self-employment tax and generally is subject to the passive loss limitation rules. Electing qualified joint venture status does not alter the application of the self-employment tax or the passive loss limitation rules.

Reportable Transaction Disclosure Statement
Use Form 8886 to disclose information for each reportable transaction in which you participated. Form 8886 must be filed for each tax year that your federal income tax liability is affected by your participation in the transaction. You may have to pay a penalty if you are required to file Form 8886 but do not do so. You may also have to pay interest and penalties on any reportable transaction understatements. The following are reportable transactions.

- Any listed transaction that is the same as or substantially similar to tax avoidance transactions identified by the IRS.

- Any listed transaction that is the same as or substantially similar to tax avoidance transactions identified by the IRS.

- Certain transactions for which you or a related party have contractual protection against disallowance of the tax benefits.

- Certain transactions resulting in a loss of at least \$2 million in any single tax year or \$4 million in any combination of tax years. (At least \$50,000 for a single tax year if the loss arose from a foreign currency transaction defined in section 988(c)(1), whether or not the loss flows through from an S corporation or partnership.)

- Certain transactions of interest entered into after November 1, 2006, that are the same or substantially similar to one of the types of transactions that the IRS has identified by published guidance as a transaction of interest.

See the Instructions for Form 8886 for more details.

Capital Construction Fund
Do not claim on Schedule C or C-EZ the deduction for amounts contributed to a capital construction fund set up under chapter 535 of title 46 of the United States Code. Instead, reduce the amount you would otherwise enter on Form 1040, line 43, by the amount of the deduction. Next to line 43, enter "CCF" and the amount of the deduction. For details, see Pub. 595.

Additional Information
See Pub. 334 for more information for small businesses.

Specific Instructions
Filers of Form 1041. Do not complete the block labeled "Social security number (SSN)." Instead, enter the employer identification number (EIN) issued to the estate or trust on line D.

Line A
Describe the business or professional activity that provided your principal source of income reported on line 1. If you owned more than one business, you must complete a separate Schedule C for each business. Give the general field or activity and the type of product or serv-

ice. If your general field or activity is wholesale or retail trade, or services connected with production (mining, construction, or manufacturing), also give the type of customer or client. For example, "wholesale sale of hardware to retailers" or "appraisal of real estate for lending institutions."

Line B
Enter on line B the six-digit code from the *Principal Business or Professional Activity Codes* chart at the end of these instructions.

Line D
Enter on line D the employer identification number (EIN) that was issued to you on Form SS-4. Do not enter your SSN on this line. Do not enter another taxpayer's EIN (for example, from any Forms 1099-MISC that you received). If you do not have an EIN, leave line D blank.

If you use the accrual method, report income when you earn it and deduct expenses when you incur them even if you do not pay them during the tax year. Accrual-basis taxpayers are put on a cash basis for deducting business expenses owed to a related cash-basis taxpayer. Other rules determine the timing of deductions based on economic performance. See Pub. 538.

To change your accounting method, you generally must file Form 3115. You also may have to make an adjustment to prevent amounts of income or expense from being duplicated or omitted. This is called a section 481(a) adjustment.

Example. You change to the cash method of accounting and choose to account for inventory items in the same manner as materials and supplies that are not incidental. You accrued sales in 2012 for which you received payment in 2013. You must report those sales in both years as a result of changing your accounting method and must make a section 481(a) adjustment to prevent duplication of income.

A net negative section 481(a) adjustment is taken into account entirely in the year of the change. A net positive section 481(a) adjustment is generally taken into account over a period of 4 years. Include any net positive section 481(a) adjustments on line 6. If the net section

Line G

If your business activity was not a rental activity and you met any of the material participation tests, explained next, or the exception for oil and gas applies (explained later), check the "Yes" box. Otherwise, check the "No" box. If you check the "No" box, this business is a passive activity. If you have a loss from this business, see [Limit on losses](#), later. If you have a profit from this business activity but have current year losses from other passive activities or you have prior year unallowed passive activity losses, see the Instructions for Form 8582.

Material participation. For purposes of the seven material participation tests listed later, participation generally includes any work you did in connection with an activity if you owned an interest in the activity at the time you did the work. The capacity in which you did the work does not matter. However, work is not treated as participation if it is work that an owner would not customarily do in the same type of activity and one of your main reasons for doing the work was to avoid the disallowance of losses or credits from the activity under the passive activity rules.

Work you did as an investor in an activity is not treated as participation unless you were directly involved in the day-to-day management or operations of the activity. Work done as an investor includes:

- Studying and reviewing financial statements or reports on the activity,
- Preparing or compiling summaries or analyses of the finances or operations of the activity for your own use, and
- Monitoring the finances or operations of the activity in a nonmanagerial capacity.

Participation by your spouse during the tax year in an activity you own can be counted as your participation in the activity. This rule applies even if your spouse did not own an interest in the activity and whether or not you and your spouse file a joint return. However, this rule does not apply for purposes of determining whether you and your spouse can elect to have your business treated as a qualified joint venture instead of a partnership (see [Qualified Joint Venture](#), earlier).

For purposes of the passive activity rules, you materially participated in the operation of this trade or business activity during 2013 if you met any of the following seven tests.

1. You participated in the activity for more than 500 hours during the tax year.
2. Your participation in the activity for the tax year was substantially all of the participation in the activity of all individuals (including individuals who did not own any interest in the activity) for the tax year.
3. You participated in the activity for more than 100 hours during the tax year, and you participated at least as much as any other person for the tax year. This includes individuals who did not own any interest in the activity.
4. The activity is a significant participation activity for the tax year, and you participated in all significant participation activities for more than 500 hours during the year. An activity is a "significant participation activity" if it involves the conduct of a trade or business, you participated in the activity for more than 100 hours during the tax year, and you did not materially participate under any of the material participation tests (other than this test 4).
5. You materially participated in the activity for any 5 of the prior 10 tax years.
6. The activity is a personal service activity in which you materially participated for any 3 prior tax years. A personal service activity is an activity that involves performing personal services in the fields of health, law, engineering, architecture, accounting, actuarial science, performing arts, consulting, or any other trade or business in which capital is not a material income-producing factor.

7. Based on all the facts and circumstances, you participated in the activity on a regular, continuous, and substantial basis for more than 100 hours during the tax year. Your participation in managing the activity does not count in determining if you meet this test if any person (except you) (a) received compensation for performing management services in connection with the activity, or (b) spent more hours during the tax year than you spent performing management services in connection with the activity (regardless of whether the person was compensated for the services).

Rental of property. Generally, a rental activity (such as long-term equipment leasing or rental real estate) is a passive activity even if you materially participated in the activity. However, if you materially participated in a rental real estate activity as a real estate professional, it is not a passive activity. Also, if you met any of the five exceptions listed under *Rental Activities* in the Instructions for Form 8582, the rental of the property is not treated as a rental activity and the material participation rules earlier apply. See *Activities That Are Not Passive Activities* in the Instructions for Form 8582 for the definition of a real estate professional.

Exception for oil and gas. If you are filing Schedule C to report income and deductions from an oil or gas well in which you own a working interest directly or through an entity that does not limit your liability, check the "Yes" box. The activity of owning a working interest is not a passive activity, regardless of your participation.

Limit on losses. Your loss may be limited if you checked the "No" box on line G. In this case, you may have a loss from a passive activity, and you may have to use Form 8582 to figure your allowable loss, if any, to enter on Schedule C, line 31.

You can deduct losses from passive activities in most cases only to the extent of income from passive activities. For details, see Pub. 925.

Line H

If you started or acquired this business in 2013, check the box on line H. Also check the box if you are reopening or restarting this business after temporarily

closing it, and you did not file a 2012 Schedule C or C-EZ for this business.

Line I

If you made any payment in 2013 that would require you to file any Forms 1099, check the "Yes" box. Otherwise, check the "No" box.

You may have to file information returns for wages paid to employees, certain payments of fees and other nonemployee compensation, interest, rents, royalties, real estate transactions, annuities, and pensions. You may also have to file an information return if you sold \$5,000 or more of consumer products to a person on a buy-sell, deposit-commission, or other similar basis for resale.

The Guide to Information Returns in the 2013 General Instructions for Certain Information Returns identifies which Forms 1099 must be filed, the amounts to report, and the due dates for the required Forms 1099.

Part I. Income

Except as otherwise provided in the Internal Revenue Code, gross income includes income from whatever source derived. In certain circumstances, however, gross income does not include extraterritorial income that is qualifying foreign trade income. Use Form 9873 to figure the extraterritorial income exclusion. Report it on Schedule C as explained in the Instructions for Form 9873.

If you were a debtor in a chapter 11 bankruptcy case during 2013, see *Chapter 11 Bankruptcy Cases* in the Instructions for Form 1040 (under *Income*) and the Instructions for Schedule SE (Form 1040).

Line 1

Enter gross receipts from your trade or business. Include amounts you received in your trade or business that were properly shown on Forms 1099-MISC. If the total amounts that were reported in box 7 of Forms 1099-MISC are more than the total you are reporting on line 1, attach a statement explaining the difference.

Statutory employees. If you received a Form W-2 and the "Statutory employee" box in box 13 of that form was checked, report your income and expenses related to that income on Schedule C or C-EZ. Enter your statutory employee income from box 1 of Form W-2 on line 1 of Schedule C or C-EZ and check the box on that line. Social security and Medicare tax should have been withheld from your earnings; as a result, you do not owe self-employment tax on these earnings. Statutory employees include full-time life insurance agents, certain agent or commission drivers and travel-salespersons, and certain homeworkers.

If you had both self-employment income and statutory employee income, you must file two Schedules C. You cannot use Schedule C-EZ or combine these amounts on a single Schedule C.

Qualified joint ventures should report rental real estate income tax on Schedule E. See [Qualified Joint Venture](#), earlier, and the Instructions for Schedule E.

Installment sales. Generally, the installment method cannot be used to report income from the sale of (a) personal property regularly sold under the installment method, or (b) real property held for resale to customers. But the installment method can be used to report income from sales of certain residential lots and timeshares if you elect to pay interest on the tax due on that income after the year of sale. See section 453(l)(2) (B) for details. If you make this election, include the interest in the total on Form 1040, line 60. Check box c and enter the amount of interest and "453(l)(3)" on the line next to that box.

If you use the installment method, attach a statement to your return. Show separately for 2013 and the 3 preceding years: gross sales, cost of goods sold, gross profit, percentage of gross profit to gross sales, amounts collected, and gross profit on amounts collected.

Line 6

Report on line 6 amounts from finance reserve income, scrap sales, bad debts you recovered, interest (such as on notes and accounts receivable), state gasoline

or fuel tax refunds you received in 2013, the amount of credit for biofuel claimed on line 2 of Form 6478, the amount of credit for biodiesel and renewable diesel fuels claimed on line 8 of Form 8864, credit for federal tax paid on fuels claimed on your 2012 Form 1040, prizes and awards related to your trade or business, and other kinds of miscellaneous business income. Include amounts you received in your trade or business as shown on Form 1099-PATR.

If the business use percentage of any listed property (defined in [Line 13](#), later) dropped to 50% or less in 2013, report on this line any recapture of excess depreciation, including any section 179 expense deduction. Use Part IV of Form 4797 to figure the recapture. Also, if the business use percentage drops to 50% or less on leased listed property (other than a vehicle), include on this line any inclusion amount. See chapter 5 of Pub. 946 to figure the amount.

Part II. Expenses

Capitalizing costs of property. If you produced real or tangible personal property or acquired property for resale, certain expenses attributable to the property generally must be included in inventory costs or capitalized. In addition to direct costs, producers of inventory property generally must also include part of certain indirect costs in their inventory. Purchasers of personal property acquired for resale must include part of certain direct costs in inventory only if the average annual gross receipts for the 3 prior tax years exceed \$10 million. Also, you must capitalize part of the indirect costs that benefit real or tangible personal property constructed for use in a trade or business, or noninventory property produced for sale to customers. Reduce the amounts on lines 8 through 26 and Part V by amounts capitalized. See Pub. 538 for a discussion of uniform capitalization rules.

Exception for certain producers. Producers who account for inventoryable items in the same manner as materials and supplies that are not incidental can currently deduct expenditures for direct labor and all indirect costs that would otherwise be included in inventory costs.

<p>• Schedule C, Part IV, or Schedule C-EZ, Part III, if: (a) you are claiming the standard mileage rate, you lease your vehicle, or your vehicle is fully depreciated, and (b) you are not required to file Form 4562 for any other reason. If you used more than one vehicle during the year, attach a statement with the information requested in Schedule C, Part IV, or Schedule C-EZ, Part III, for each additional vehicle.</p> <ul style="list-style-type: none"> • Form 4562, Part V, if you are claiming depreciation on your vehicle or you are required to file Form 4562 for any other reason (see Line 13, later). <p>When to attach Form 4562. Listed property does not include photographic, phonographic, communication, or video equipment used exclusively in your trade or business or at your regular business establishment. It also does not include any computer or peripheral equipment used exclusively at a regular business establishment and owned or leased by the person operating the establishment. For purposes of these exceptions, a portion of your home is treated as a regular business establishment only if that portion meets the requirements under section 280A(c)(1) for deducting expenses for the business use of your home.</p> <p>See Line 6, earlier, if the business use percentage of any listed property dropped to 50% or less in 2013.</p>	<p>ident and health plans, group-term life insurance, and dependent care assistance programs. - Taxes assessed to pay for improvements, such as paving and sewers.
- Taxes on your home or personal use property.

• State and local sales taxes on property purchased for use in your business. Instead, treat these taxes as part of the cost of the property.

- State and local sales taxes imposed on the buyer that you were required to collect and pay over to state or local governments. These taxes are not included in gross receipts or sales nor are they a deductible expense. However, if the state or local government allowed you to retain any part of the sales tax you collected, you must include that amount as income on line 6.
- Other taxes and license fees not related to your business.

Line 24a

Enter your expenses for lodging and transportation connected with overnight travel for business while away from your tax home. In most cases, your tax home is your main place of business, regardless of where you maintain your family home. You cannot deduct expenses paid or incurred in connection with employment away from home if that period of employment exceeds 1 year. Also, you cannot deduct travel expenses for your spouse, your dependent, or any other individual unless that person is your employee, the travel is for a *bona fide* business purpose, and the expenses would otherwise be deductible by that person.

Do not include expenses for meals and entertainment on this line. Instead, see [Line 24b](#), later.

Instead of keeping records of your actual incidental expenses, you can use an optional method for deducting incidental expenses only if you did not pay or incur meal expenses on a day you were traveling away from your tax home. The amount of the deduction is \$5 a day. Incidental expenses include fees and tips given to porters, baggage carriers, bellhops, hotel maids, stewards or stewardesses and others on ships, and hotel servants in foreign countries. They

do not include expenses for laundry, cleaning and pressing of clothing, lodging taxes, or the costs of telegrams or telephone calls. You cannot use this method on any day that you use the [standard meal allowance](#) (as explained in [Line 24b](#), later).

You cannot deduct expenses for attending a convention, seminar, or similar meeting held outside the North American area unless the meeting is directly related to your trade or business and it is as reasonable for the meeting to be held outside the North American area as within it. These rules apply to both employers and employees. Other rules apply to luxury water travel.

For details on travel expenses, see chapter 1 of Pub. 463.

Line 24b

Enter your total deductible business meal and entertainment expenses. This includes expenses for meals while traveling away from home for business and for meals that are business-related entertainment.

Deductible expenses. Business meal expenses are deductible only if they are (a) directly related to or associated with the active conduct of your trade or business, (b) not lavish or extravagant, and (c) incurred while you or your employee is present at the meal.

You cannot deduct any expense paid or incurred for a facility (such as a yacht or hunting lodge) used for any activity usually considered entertainment, amusement, or recreation.

Also, you cannot deduct membership dues for any club organized for business, pleasure, recreation, or other social purpose. This includes country clubs, golf and athletic clubs, airline and hotel clubs, and clubs operated to provide meals under conditions favorable to business discussion. But it does not include civic or public service organizations, professional organizations (such as bar and medical associations), business leagues, trade associations, chambers of commerce, boards of trade, and real estate boards, unless a principal purpose of the organization is to entertain, or provide entertainment facilities for, members or their guests.

There are exceptions to these rules as well as other rules that apply to skybox

rentals and tickets to entertainment events. See chapters 1 and 2 of Pub. 463.

Standard meal allowance. Instead of deducting the actual cost of your meals while traveling away from home, you can use the standard meal allowance for your daily meals and incidental expenses. Under this method, you deduct a specified amount, depending on where you travel, instead of keeping records of your actual meal expenses. However, you must still keep records to prove the time, place, and business purpose of your travel.

The standard meal allowance is the federal M&IE rate. You can find these rates on the Internet at www.gsa.gov. Click on "Per Diem Rates" for links to locations inside and outside the continental United States.

See chapter 1 of Pub. 463 for details on how to figure your deduction using the standard meal allowance, including special rules for partial days of travel.

Amount of deduction. In most cases, you can deduct only 50% of your business meal and entertainment expenses, including meals incurred while away from home on business. However, for individuals subject to the Department of Transportation (DOT) hours of service limits, that percentage is increased to 80% for business meals consumed during, or incident to, any period of duty for which those limits are in effect. Individuals subject to the DOT hours of service limits include the following.

- Certain air transportation workers (such as pilots, crew, dispatchers, mechanics, and control tower operators) who are under Federal Aviation Administration regulations.
- Interstate truck operators who are under DOT regulations.
- Certain merchant mariners who are under Coast Guard regulations.

However, you can fully deduct meals, incidentals, and entertainment furnished or reimbursed to an employee if you properly treat the expense as wages subject to withholding. You can also fully deduct meals, incidentals, and entertainment provided to a nonemployee to the extent the expenses are includable in the gross income of that person and reported on Form 1099-MISC. See Pub. 535 for details and other exceptions.

Daycare providers. If you qualify as a family daycare provider, you can use the standard meal and snack rates, instead of actual costs, to compute the deductible cost of meals and snacks provided to eligible children. See Pub. 587 for details, including recordkeeping requirements.

Line 25

Deduct utility expenses only for your trade or business.

Local telephone service. If you used your home phone for business, do not deduct the base rate (including taxes) of the first phone line into your residence. But you can deduct any additional costs you incurred for business that are more than the base rate of the first phone line. For example, if you had a second line, you can deduct the business percentage of the charges for that line, including the base rate charges.

Line 26

Enter the total salaries and wages for the tax year. Do not include salaries and wages deducted elsewhere on your return or amounts paid to yourself. Reduce your deduction by the amounts claimed on:

- Form 5884, Work Opportunity Credit, line 2;
- Form 8844, Empowerment Zone Employment Credit, line 2;
- Form 8845, Indian Employment Credit, line 4; and
- Form 8932, Credit for Employer Differential Wage Payments, line 2.

If you provided taxable fringe benefits to your employees, such as personal use of a car, do not deduct as wages the amount applicable to depreciation and other expenses claimed elsewhere.

In most cases, you are required to file Form W-2, Wage and Tax Statement, for each employee. See the General Instructions for Forms W-2 and W-3.

Line 30

Business use of your home. You may be able to deduct certain expenses for business use of your home, subject to limitations. To claim a deduction for business use of your home, you can use Form 8829 or you can elect to determine

the amount of the deduction using a simplified method.

For additional information about claiming this deduction, see Pub. 587.

If you are not using the simplified method to determine the amount of expenses you may deduct for business use of a home, do not complete the additional entry spaces on line 30 for total square footage of your home and of the part of the home used for business. Just include the amount from line 35 of your Form 8829 on line 30.

Simplified method. The simplified method is an alternative to the calculation, allocation, and substantiation of actual expenses. In most cases, you will figure your deduction by multiplying the area (measured in square feet) used regularly and exclusively for business, regularly for daycare, or regularly for storage of inventory or product samples, by \$5. The area you use to figure your deduction cannot exceed 300 square feet. You cannot use the simplified method to figure a deduction for rental use of your home.

Electing to use the simplified method. You choose whether or not to use the simplified method each taxable year. Make the election by using the simplified method to figure the deduction for the qualified business use of a home on a timely-filed, original federal income tax return for that year. An election for a taxable year, once made, is irrevocable. A change from using the simplified method in one year to actual expenses in a succeeding taxable year, or vice-versa, is not a change in method of accounting and does not require the consent of the Commissioner.

If you share your home with someone else who uses the home for a separate business that qualifies for this deduction, each of you may make your own election, but not for the same portion of the home.

If you conduct more than one business that qualifies for this deduction in your home, your election to use the simplified method applies to all your qualified business uses of your home. You are limited to a maximum of 300 square feet for all of the businesses you conduct in your home that qualify for this deduction.

tion. Allocate the actual square footage used (up to the maximum 300 square feet) among your qualified business uses in any reasonable manner you choose, but you may not allocate more square feet to a qualified business use than you actually use in that business.

If you used your home for more than one business, you may have used more than one home in your business (for example, you may have moved during the year). If you used more than one home for the same business during 2013, you may elect to use the simplified method for

Instructions for the Simplified Method Worksheet

Use this worksheet to figure the amount of expenses you may deduct for a qualified business use of a home if you are electing to use the simplified method for that home. If you are not electing to use the simplified method, use Form 8829.

Line 1. If all gross income from your trade or business is from this qualified business use of your home, figure your gross income limitation as follows.

A. Enter the amount from Schedule C, line 29	
B. Enter any gain derived from the business use of your home and shown on Form 8949 (and included on Schedule D) or Form 4797	
C. Add lines A and B	
D. Enter the loss (as a positive number) shown on Form 8949 (and included on Schedule D) or Form 4797 that are allocable to the business, but not allocable to the use of the home	
E. Gross income limitation. Subtract line D from line C. Enter the result here and on line 1	

If some of the income is from a place of business other than your home, you must first determine the part of your gross income (Schedule C, line 7, and gains from Form 8949, Schedule D, and Form 4797) from the business use of your home. In making this determination, consider the amount of time you spend at each location as well as other facts. After determining the part of your gross income from the business use of your home, subtract from that amount the total expenses shown on Schedule C, line 28, plus any losses shown on Form 8949 (and included in Schedule D) or Form 4797 that are allocable to the business in which you use your home but that are not allocable to the use of the home. Enter the result on line 1.

Note. If you had more than one home in which you conducted this business during the year, include only the income earned and the deductions attributable to that income during the period you owned the home for which you elected to use the simplified method.

Line 2. If you used the same area for the entire year, enter the smaller of the square feet you actually used and 300. If you and your spouse conducted the business as a qualified joint tenancy, split the square feet between you and your spouse in the same manner you split your other tax attributes. If you shared space with others, enter the number of square feet you used and the number of square feet each other person used. Do not enter more than 300 square feet on this line. Business use of the home. before entering an amount on this line. Do not enter more than 300 square feet on this line.

Line 3b. If your qualified business use is providing daycare, you may need to account for the time that you used the same part of your home for other purposes. If you used the part of your home exclusively and regularly for providing daycare, enter 1.0 on line 3b. If you did not use the part of your home exclusively for providing daycare, complete the Daycare Facility Worksheet to figure what number to enter on line 3b.

Line 6. Since you are using the simplified method this year, you cannot deduct the amounts you entered on lines 6a and 6b this year. If you file Form 8829 next year for your qualified business use of this home, you will be able to include these expenses when you figure your deduction.

Daycare Facility Worksheet (for simplified method)

Keep for Your Records

1. Multiply days used for daycare during the year by hours used per day	1.
2. Total hours available for use during the year. See Instructions for the Daycare Facility Worksheet	2.
3. Divide line 1 by line 2. Enter the result as a decimal amount here and on line 3b of the Simplified Method Worksheet	3.

Instructions for the Daycare Facility Worksheet

Use this worksheet to figure the percentage to use on line 3b of the Simplified Method Worksheet. If you do not use the area of your home exclusively for daycare, you must reduce the prescribed rate before figuring your deduction using the simplified method.

If you used at least 300 square feet for daycare regularly and exclusively during the year, then you do not need to complete this worksheet. This worksheet is only needed if you did not use the allowable area exclusively for daycare.

Line 1. Enter the total number of hours the facility was used for daycare during the year.

Example. Your home is used Monday through Friday for 12 hours per day for 250 days during the year. It is also used on 50 Saturdays for 8 hours a day. Enter 3,400 hours on line 4 (3,000 hours for weekdays plus 400 hours for Saturdays).

Line 2. If you used your home for daycare during the entire year, multiply 365 days (366 for a leap year) by 24 hours, and enter the result.

If you started or stopped using your home for daycare during the year, you must prorate the number of hours based on the number of days the home was available for daycare. Multiply 24 hours by the number of days available and enter that result.

only one home; you must file a Form 8829 to claim a business use of the home deduction for any additional home deduction.

Other requirements must still be met. You must still meet all the use requirements to claim a deduction for business use of the home. The simplified method is only an alternative to the calculation, allocation, and substantiation of actual expenses. The simplified method is not an alternative to the exclusivity and other tests that must be met in order to qualify for this deduction. For more information about qualifying business uses, see *Qualifying for a Deduction* in Pub. 587.

Depreciation of home. You cannot deduct any depreciation (including any additional first-year depreciation) or section 179 expense for the portion of your home that is used in a qualified business use if you figure the deduction for the simplified method. The depreciation deduction allowable for that portion of the home for that taxable year is deemed to be zero.

Using Form 8829. Use Form 8829 to figure and claim this deduction for a home if you are not or cannot use the simplified method for that home. For information about claiming this deduction using Form 8829, see the Instructions for Form 8829 and Pub. 587.

Using the simplified method. Use the Simplified Method Worksheet in these instructions to figure your deduction for a qualified business use of your home if you are electing to use the simplified method for that home.

Shared use (for simplified method only). If you share your home with someone else who uses the home for a separate business that also qualifies for this deduction, you may not include the same square feet to figure your deduction as the other person. You must allocate the shared space between you and the other person in a reasonable manner.

Example. Kristin and Lindsey are roommates. Kristin uses 300 square feet

You may not use the simplified method and also file Form 8829 for the same qualified business use of the same home.

the simplified method worksheet, or both.

Although you cannot deduct any depreciation or section 179 expense for the portion of your home that is a qualified business use because you elect to use the simplified method, you may still claim depreciation on other assets (for example, furniture and equipment) used in the qualified business use of your home.

Figuring your allowable expenses for business use of the home. You will figure the deduction using Form 8829 or

of their home for a qualified business use. Lindsey uses 200 square feet of their home for a separate qualified business use. The qualified business use share 100 square feet. In addition to the portion that they do not share, Kristin and Lindsey can both claim 50 of the 100 square feet or divide the 100 square feet between them in any reasonable manner. If divided evenly, Kristin could claim 250 square feet using the simplified method and Lindsey could claim 150 square feet.

Once you have determined your adjusted area, enter the result on line 2 of the Simplified Method Worksheet.

TIP You can use the *Area Adjustment Worksheet in Pub 567* to help you determine the adjusted area to enter on line 2 of the Simplified Method Worksheet.

Reporting your expenses for business use of the home. If you did not use the simplified method, include the amount from line 35 of Form 8829 on line 30 of the Schedule C you are filing for that business.

If you used the simplified method. If you elect to use the simplified method for the business use of a home, complete the additional entry spaces on line 30 of that home only. Include the amount from line 5 of the Simplified Method Worksheet on line 30.

If you itemize your deductions on Schedule A, you may deduct your mortgage interest, real estate taxes, and casualty losses on Schedule A as if you did not use your home for business. You cannot deduct any excess mortgage interest or excess casualty losses on Schedule C for this home.

Use Part II of Schedule C to deduct business expenses that are unrelated to the qualified business use of the home (for example, expenses for advertising, wages, or supplies, or depreciation of equipment or furniture).

Deduction figured on multiple forms. If you used more than one home for a business during the year, you may use a Form 8829 for each home or you may use the simplified method for one home and Form 8829 for any other home. Combine the amount you figured using the simplified method and the amounts you figured on your Forms 8829, and then enter the total on line 30 of the Schedule C you are filing for that business.

Line 31

Figuring your net profit or allowable loss. If your expenses (including the expenses you report on line 30) are more

than your gross income, do not enter your loss on line 31 until you have applied the excess farm loss rules, the at-risk rules, and the passive activity loss rules. To apply these rules, follow the instructions in *Excess farm loss rules, Line 32* in these instructions, and the Instructions for Form 8582. After applying those rules, the amount on line 31 will be your allowable loss, and it may be smaller than the amount you figured by subtracting line 30 from line 29.

If your gross income is more than your expenses (including the expenses you report on line 30), and you do not have prior year unallowed passive activity losses, subtract line 30 from line 29. The result is your net profit.

If your gross income is more than your expenses (including the expenses you report on line 30), and you have prior year unallowed passive activity losses, subtract line 30 from line 29. The result is your net profit.

If your gross income is more than your expenses (including the expenses you report on line 30), and you have prior year unallowed passive activity losses, do not enter your net profit on line 31 until you have figured the amount of prior year unallowed passive activity losses you may claim this year for this activity. Use Form 8582 to figure the amount of prior year unallowed passive activity losses you may include on line 31. Make sure to indicate that you are including prior year passive activity losses by entering "PAL" to the left of the entry space.

If you checked the "No" box on line G, see the Instructions for Form 8582; you may need to include information from this schedule on that form, even if you have a net profit.

Rental real estate activity. Unless you are a qualifying real estate professional, a rental real estate activity is a passive activity, even if you materially participated in the activity. If you have a loss, you may need to file Form 8582 to figure your allowable loss. See the Instructions for Form 8582.

Excess farm loss rules. If your Schedule C activity includes processing a farm commodity as part of your farming business, your deductible loss from that activity may be limited if you received certain subsidies. See the Instructions for Schedule F for a list of those subsidies. Use one of the worksheets in the Schedule F instructions to determine if you have an excess farm loss. See the

Instructions for Schedule F for more details on how to complete the worksheets.

You must figure and apply your excess farm loss before figuring any limitations to your loss due to the at-risk rules or the passive activity loss rules. Reduce your loss by your excess farm loss before applying the at-risk rules and passive activity loss rules.

Reporting your net profit or allowable loss. Once you have figured your net profit or allowable loss, report it as follows.

Individuals. Enter your net profit or allowable loss on line 31 and include it on Form 1040, line 12. Also, include your net profit or allowable loss on Schedule SE, line 2. However, if you are a statutory employee or notary public, see *Statutory employees or Notary public*, later.

Nonresident aliens. Enter your net profit or allowable loss on line 31 and include it on Form 1040NR, line 13. You should also include this amount on Schedule SE, line 2 if you are covered under the U.S. social security system due to an international social security agreement currently in effect. See the Instructions for Schedule SE (Form 1040) for information on international social security agreements. However, if you are a statutory employee or notary public, see *Statutory employees or Notary public*, later.

Trusts and estates. Enter the net profit or allowable loss on line 31 and include it on Form 1041, line 3.

Statutory employees. Enter your net profit or allowable loss on line 31 and include it on Form 1040, line 12, or on Form 1040NR, line 13. However, do not report this amount on Schedule SE, line 2. If you were a statutory employee and you are required to file Schedule SE because of other self-employment income, see the Instructions for Schedule SE.

Notary public. Do not enter your net profit from line 31 on Schedule SE, line 2, unless you are required to file Schedule SE because you have other self-employment income. See the Instructions for Schedule SE.

Community income. If you and your spouse had community income and are

filing separate returns, see the Instructions for Schedule SE before figuring self-employment tax.

Earned income credit. If you have a net profit on line 31, this amount is earned income and may qualify you for the earned income credit (EIC).

Caution To figure your EIC, use the instructions for Form 1040, lines 64a and 64b. Complete all applicable steps plus Worksheet B. If you are required to file Schedule SE, remember to enter one-half of your self-employment tax in Part I, line 1d, of Worksheet B.

Line 32

TIP You do not need to complete line 32 if line 7 is more than the total of lines 28 and 30.

At-risk rules. In most cases, if you have a business loss and amounts invested in the business for which you are not at risk, you must complete Form 6198 to figure your allowable loss. The at-risk rules generally limit the amount of loss (including loss on the disposition of assets) you can claim to the amount you could actually lose in the business.

Check box 32b if you have amounts invested in this business for which you are not at risk, such as the following.

- Nonrecourse loans used to finance the business, to acquire property used in the business, or to acquire the business that are not secured by your own property (other than property used in the business). However, there is an exception for certain nonrecourse financing borrowed by you in connection with holding real property.

- Cash, property, or borrowed amounts used in the business (or contributed to the business, or used to acquire the business) that are protected against loss by a guarantee, stop-loss agreement, or other similar arrangement (excluding casualty insurance and insurance against tort liability).

- Amounts borrowed for use in the business from a person who has an interest in the business, other than as a creditor, or who is related under section 465(b)(3)(C) to a person (other than you) having such an interest.

Figuring your allowable loss. Before determining your allowable loss, you must check box 32a or 32b to determine if the loss from your business activity is limited by the at-risk rules. Follow the instructions below that apply to your box 32 activity.

All investment is at risk. If all amounts are at risk in this business, check box 32a. If you answered "Yes" on line G, your remaining loss (after applying the excess farm loss rules) is your allowable loss. The at-risk rules and the passive activity loss rules do not apply. See *Line 31*, earlier, for how to report your allowable loss.

But if you answered "No" on line G, you may need to complete Form 8582 to figure your allowable loss to enter on line 31. See the Instructions for Form 8582 for details.

Some investment is not at risk. If some investment is not at risk, check box 32b; the at-risk rules apply to your loss. Be sure to attach Form 6198 to your return.

If you answered "Yes" on line G, complete Form 6198 to figure the allowable loss to enter on line 31. The passive activity loss rules do not apply. See *Line 31*, earlier for how to report your allowable loss.

But if you answered "No" on line G, the passive activity loss rules may apply. First complete Form 6198 to figure the amount of your profit or loss for the at-risk activity, which may include amounts reported on other forms and schedules, and the at-risk amount for the activity. Follow the Instructions for Form 6198 to determine how much of your Schedule C loss will be allowed.

After you figure the amount of your loss that is allowed under the at-risk rules, you may need to complete Form 8582 to figure the allowable loss to enter on line 31. See the Instructions for Form 8582 for details.

Caution If you checked box 32b because some investment is not at risk and you do not attach Form 6198, the processing of your return may be delayed.

At-risk loss deduction. Any loss from this business not allowed for 2013 only because of the at-risk rules is treated as a

items as non-incidental materials and supplies.

Additional information. For additional guidance on this method of accounting for inventoriable items, see the following.

- Pub. 538 discusses both exceptions.
- If you are a qualifying taxpayer, see Rev. Proc. 2001-10, on page 272 of Internal Revenue Bulletin 2001-2 at www.irs.gov/pub/irs-irb01-02.pdf.
- If you are a qualifying small business taxpayer, see Rev. Proc. 2002-28, on page 815 of Internal Revenue Bulletin 2002-18 at www.irs.gov/pub/irs-irb02-18.pdf.

CAUTION Certain direct and indirect expenses may have to be capitalized or included in inventory. See [Part II](#), earlier. See Pub. 538 for additional information.

Line 33

Your inventories can be valued at cost, the lower of cost or market, or any other method approved by the IRS. However, you are required to use cost if you are using the cash method of accounting.

Line 35

If you are changing your method of accounting beginning with 2013, refigure last year's closing inventory using your new method of accounting and enter the result on line 35. If there is a difference between last year's closing inventory and the refigured amount, attach an explanation and take it into account when figuring your section 481(a) adjustment. For details, see the [example](#) under [Line F](#), earlier.

Line 41

If you account for inventoriable items in the same manner as materials and supplies that are not incidental, enter on line 41 the portion of your raw materials and merchandise purchased for resale that is included on line 40 and was not sold during the year.

deduction allocable to the business in 2014.

More information. For details, see the Instructions for Form 6198 and Pub. 925.

Part III. Cost of Goods Sold

In most cases, if you engaged in a trade or business, in which the production, purchase, or sale of merchandise was an income-producing factor, you must take inventories into account at the beginning and end of your tax year.

Exception for certain taxpayers. If you are a qualifying taxpayer or a qualifying small business taxpayer (discussed next), you can account for inventoriable items in the same manner as materials and supplies that are not incidental. Under this accounting method, inventory costs for raw materials purchased for use in producing finished goods and merchandise purchased for resale are deductible in the year the finished goods or merchandise are sold (but not before the year you paid for the raw materials or merchandise, if you are also using the cash method). Enter amounts paid for all raw materials and merchandise during 2013 on line 36. The amount you can deduct for 2013 is figured on line 42.

Qualifying taxpayer. This is a taxpayer (a) whose average annual gross receipts for the 3 prior tax years are \$1 million or less, and (b) whose business is not a tax shelter (as defined in section 448(d)(3)).

Qualifying small business taxpayer. This is a taxpayer (a) whose average annual gross receipts for the 3 prior tax years are \$10 million or less, (b) whose business is not a tax shelter (as defined in section 448(d)(3)), and (c) whose principal business activity is not an ineligible activity as explained in Rev. Proc. 2002-28. You can find Rev. Proc. 2002-28 on page 815 of Internal Revenue Bulletin 2002-18 at www.irs.gov/pub/irs-irb02-18.pdf.

Changing accounting methods. File Form 3115 if you are a qualifying taxpayer or qualifying small business taxpayer and want to change to the cash method or to account for inventoriable

For a complete list, see the Instructions for Form 4562, Part VI.

At-risk loss deduction. Any loss from this business that was not allowed last year because of the at-risk rules is treated as a deduction allocable to this business in 2013.

Bad debts. Include debts and partial debts from sales or services that were included in income and are definitely known to be worthless. If you later collect a debt that you deducted as a bad debt, include it as income in the year collected. For details, see Pub. 535.

Business start-up costs. If your business began in 2013, you can elect to deduct up to \$5,000 of certain business start-up costs. The \$5,000 limit is reduced (but not below zero) by the amount by which your total start-up costs exceed \$50,000. Your remaining start-up costs can be amortized over a 180-month period, beginning with the month the business began.

For details, see chapters 7 and 8 of Pub. 535. For amortization that begins in 2013, you must complete and attach Form 4562.

Costs of making commercial buildings energy efficient. You may be able to deduct part or all of the cost of modifying existing commercial buildings to make them energy efficient. For details, see section 179D, Notice 2006-52, Notice 2008-40, and Notice 2012-26. Notice 2006-52, 2006-26 IRB 1175, is available at www.irs.gov/irb2006-26/IRB1175.

www.irs.gov/irb2008-40/IRB1725, is available at www.irs.gov/irb2008-14/IRB1847, is available at www.irs.gov/irb2012-17/IRB1847.

Deduction for removing barriers to individuals with disabilities and the elderly. You may be able to deduct up to \$15,000 of costs paid or incurred in 2013 to remove architectural or trans-

portation barriers to individuals with disabilities and the elderly. However, you cannot take both a credit (on Form 8826) and a deduction for the same expenditures.

Excess farm loss deduction. Any loss from this business activity, which includes processing a farm commodity as part of your farming business, that was not allowed last year because of the excess farm loss rules is treated as a deduction allocable to this business activity in 2013.

See the Instructions for Schedule F for a definition of farming business for this purpose and for more information about excess farm losses.

Forestation and reforestation costs. Reforestation costs are generally capital expenditures. However, for each qualified timber property, you can elect to expense up to \$10,000 (\$5,000 if married filing separately) of qualifying reforestation costs paid or incurred in 2013.

You can elect to amortize the remaining costs over 84 months. For amortization that begins in 2013, you must complete and attach Form 4562.

The amortization election does not apply to trusts, and the expense election does not apply to estates and trusts. For details on reforestation expenses, see chapters 7 and 8 of Pub. 535.

2013 Instructions for Schedule D

Capital Gains and Losses

These instructions explain how to complete Schedule D (Form 1040). Complete Form 8949 before you complete line 1b, 2, 3, 8b, 9, or 10 of Schedule D.

Use Schedule D:

- To figure the overall gain or loss from transactions reported on Form 8949,
- To report certain transactions you do not have to report on Form 8949,
- To report a gain from Form 2439 or 6252 or Part I of Form 4797,
- To report a gain or loss from Form 4684, 6781, or 8824,
- To report a gain or loss from a partnership, S corporation, estate or trust,
- To report capital gain distributions not reported directly on Form 1040, line 13 (or effectively connected capital gain distributions not reported directly on Form 1040NR, line 14), and
- To report a capital loss carryover from 2012 to 2013.

Additional information. See Pub. 544 and Pub. 550 for more details.

Section references are to the Internal Revenue Code unless otherwise noted.

Future Developments

For the latest information about developments related to Schedule D and its instructions, such as legislation enacted after they were published, go to www.irs.gov/scheduled.

What's New

Form 8949. For 2013, you can combine certain transactions and report the totals on line 1a or 8a of Schedule D without completing Form 8949. For additional information, see the instructions for *Lines 1a and 8a*.

Tax rate on net capital gain and qualified dividends. The maximum tax rate of 15% on net capital gain and qualified dividends has increased to 20% for some taxpayers. The Schedule D Tax Worksheet in these instructions reflects this new, higher rate.

General Instructions

Other Forms You May Have To File

Use Form 8949 to report the sale or exchange of a capital asset (defined later) not reported on another form or schedule. Complete all necessary pages of Form 8949 before you complete line 1b, 2, 3, 8b, 9, or 10 of Schedule D. See

Lines 1a and 8a, later, for more information about when Form 8949 is needed and when it is not.

Use Form 4797 to report the following:

- The sale or exchange of:
 - Property used in a trade or business;
 - Depreciable and amortizable property;
 - Oil, gas, geothermal, or other mineral property; and
- Section 126 property.

2. The involuntary conversion (other than from casualty or theft) of property used in a trade or business and capital assets held for business or profit.

3. The disposition of noncapital assets other than inventory or property held primarily for sale to customers in the ordinary course of your trade or business.

4. Ordinary loss on the sale, exchange, or worthlessness of small business investment company (section 1242) stock.

5. Ordinary loss on the sale, exchange, or worthlessness of small business (section 1244) stock.

6. Ordinary gain or loss on securities or commodities held in connection with your trading business, if you previously made a mark-to-market election. See *Traders in Securities*, later.

Use Form 4684 to report involuntary conversions of property due to casualty or theft.

Use Form 6781 to report gains and losses from section 1256 contracts and straddles.

Use Form 8824 to report like-kind exchanges. A like-kind exchange occurs when you exchange business or investment property for property of a like kind.

Capital Asset

Most property you own and use for personal purposes or investment is a capital asset. For example, your house, furniture, car, stocks, and bonds are capital assets. A capital asset is any property owned by you except the following:

- Stock in trade or other property included in inventory or held mainly for sale to customers. But see the *Tip* about certain musical compositions or copyrights, later.
- Accounts or notes receivable for services performed in the ordinary course of your trade or business, for services rendered as an employee, or from the sale of stock in trade or other property held mainly for sale to customers.
- Depreciable property used in your trade or business, even if it is fully depreciated.
- Real estate used in your trade or business.

instructions for Form 8949, and the following publications:

- Pub. 551, Basis of Assets.
- Pub. 550, Investment Income and Expenses (Including Capital Gains and Losses).

Short Term or Long Term

Report short-term gains or losses in Part I. Report long-term gains or losses in Part II. The holding period for short-term capital gains and losses is 1 year or less. The holding period for long-term capital gains and losses is more than 1 year.

For more information about holding periods, see the instructions for Form 8949.

Capital Gain Distributions

These distributions are paid by a mutual fund (or other regulated investment company) or real estate investment trust from its net realized long-term capital gains. Distributions of net realized short-term capital gains are not treated as capital gains. Instead, they are included on Form 1099-DIV as ordinary dividends.

Enter on Schedule D, line 13, the total capital gain distributions paid to you during the year, regardless of how long you held your investment. This amount is shown in box 2a of Form 1099-DIV.

If there is an amount in box 2b, include that amount on line 11 of the *Unrecaptured Section 1250 Gain Worksheet* in these instructions if you complete line 19 of Schedule D.

If there is an amount in box 2c, see *Exclusion of Gain on Qualified Small Business (QSB) Stock*, later.

If there is an amount in box 2d, include that amount on line 4 of the *28% Rate Gain Worksheet* in these instructions if you complete line 18 of Schedule D.

If you received capital gain distributions as a nominee (that is, they were paid to you but actually belong to someone else), report on Schedule D, line 13, only the amount that belongs to you. Attach a statement showing the full amount you received and the amount you received as a nominee. See the instructions for Schedule B to learn about the requirement for you to file Forms 1099-DIV and 1096.

Sale of Your Home

You may not need to report the sale or exchange of your main home. If you must report it, complete Form 8949 before Schedule D.

Report the sale or exchange of your main home on Form 8949 if:

- You cannot exclude all of your gain from income, or
- You received a Form 1099-S for the sale or exchange.

Any gain you cannot exclude is taxable. Generally, if you meet the two following tests, you can exclude up to \$250,000 of gain. If both you and your spouse meet these tests and you file a joint return, you can exclude up to \$500,000 of gain (but only one spouse needs to meet the ownership requirement in *Test 1*).

Test 1. During the 5-year period ending on the date you sold or exchanged your home, you owned it for 2 years or more (the ownership requirement) and lived in it as your main home for 2 years or more (the use requirement).

Test 2. You have not excluded gain on the sale or exchange of another main home during the 2-year period ending on the date of the sale or exchange of your home.

Reduced exclusion. Even if you do not meet one or both of the above two tests, you still can claim an exclusion if you sold or exchanged the home because of a change in place of employment, health, or certain unforeseen circumstances. In this case, the maximum amount of gain you can exclude is reduced. For more information, see Pub. 523.

Sale of home by surviving spouse. If your spouse died before the sale or exchange, you can still exclude up to \$500,000 of gain if:

- The sale or exchange is no later than 2 years after your spouse's death,
- Just before your spouse's death, both spouses met the use requirement of *Test 1*, at least one spouse met the ownership requirement of *Test 1*, and both spouses met *Test 2*, and
- You did not remarry before the sale or exchange.

Exceptions to Test 1. You can choose to have the 5-year test period for ownership and use in *Test 1* suspended during any period you or your spouse serve outside the United States as a Peace Corps volunteer or serve on qualified official

extended duty as a member of the uniformed services or Foreign Service of the United States, as an employee of the intelligence community, or outside the United States as an employee of the Peace Corps. This means you may be able to meet Test 1 even if, because of your service, you did not actually use the home as your main home for at least the required 2 years during the 5-year period ending on the date of sale.

Sale of home acquired in a like-kind exchange. You cannot exclude any gain if:

- You acquired your home in a like-kind exchange in which all or part of the gain was not recognized, and
- You sold or exchanged the home during the 5-year period beginning on the date you acquired it.

How to report the sale of your main home. If you have to report the sale or exchange, report it on Form 8949. If the gain or loss is short term, report it on Part I of Form 8949 with box C checked. If the gain or loss is long term, report it in Part II of Form 8949 with box F checked.

If you had a gain and can exclude part or all of it, enter "H" in column (f). Enter the exclusion as a negative number (in parentheses) in column (g). See the instructions for Form 8949, columns (f), (g), and (h). Complete all columns.

If you had a loss but have to report the sale or exchange because you got a Form 1099-S, see Nondeductible Losses, later, for instructions about how to report it.

More information. See Pub. 523 for additional details, including how to figure and report any taxable gain if:

- You (or your spouse if married) used any part of the home for business or rental purposes after May 6, 1997, or
- There was a period of time after 2008 when the home was not your main home.

Partnership Interests

A sale or other disposition of an interest in a partnership may result in ordinary income, collectibles gain (28% rate gain), or unrecaptured section 1250 gain. For details on 28% rate gain, see the instructions for line 18. For details on unrecaptured section 1250 gain, see the instructions for line 19.

Part II of this Form 8949 (depending on how long you owned the home).

Capital Losses

You can deduct capital losses up to the amount of your capital gains plus \$3,000 (\$1,500 if married filing separately). You may be able to use capital losses that exceed this limit in future years. For details, see the instructions for line 21. Be sure to report all of your capital gains and losses even if you cannot use all of your losses in 2013.

Nondeductible Losses

Do not deduct a loss from a sale or exchange between certain related parties. This includes a direct or indirect sale or exchange of property between any of the following:

- Members of a family.
- A corporation and an individual owning more than 50% of the corporation's stock (unless the loss is from a distribution in complete liquidation of a corporation).
- A grantor and a fiduciary of a trust.
- A fiduciary and a beneficiary of the same trust.
- A fiduciary and a fiduciary or beneficiary of another trust created by the same grantor.
- An executor of an estate and a beneficiary of that estate, unless the sale or exchange was to satisfy a pecuniary bequest (that is, a bequest of a sum of money).
- An individual and a tax-exempt organization controlled by the individual or the individual's family.

See Pub. 544 for more details on sales and exchanges between related parties.

Report a transaction that results in a nondeductible loss in Part I or Part II of Form 8949 (depending on how long you held the property). Unless you received a Form 1099-B for the sale or exchange, check box C at the top of Part I or box F at the top of Part II of this Form 8949 (depending on how long you owned the property). Complete all columns. Because the loss is not deductible, enter "L" in column (f). Enter the amount of the nondeductible loss as a positive number in column (g). Complete column (h). See the instructions for Form 8949, columns (f), (g), and (h).

Example 1. You sold land you held as an investment for 5 years to your brother for \$10,000. Your basis was \$15,000. On Part II of Form 8949, check box F at the top. Enter \$10,000 on Form 8949, Part II, column (d). Enter \$15,000 in column (e). Because the loss is not deductible, enter "L" in column (f) and \$15,000 in column (g). In column (h), enter -0- (\$10,000 - \$15,000) + \$5,000 (the difference between \$10,000 and \$15,000) in column (g). In column (h), enter -0- (\$10,000 - \$15,000) + \$5,000. If this is your only transaction on this Form 8949, enter \$10,000 on Schedule D, line 10, column (d). Enter \$15,000 in column (e) and \$5,000 in column (g). In column (h), enter -0- (\$10,000 - \$15,000) + \$5,000.

Example 2. You received a Form 1099-B showing proceeds (sales price) of \$1,000 and basis of \$5,000. Box 2b on Form 1099-B is checked, indicating that your loss of \$4,000 (\$1,000 - \$5,000) is not allowed. On the top of Form 8949, check box A or box B in Part I or box D or box E in Part II (whichever applies). Enter \$1,000 in column (d) and \$5,000 in column (e). Because the loss is not deductible, enter "L" in column (f) and \$4,000 (the difference between \$1,000 and \$5,000) in column (g). In column (h), enter -0- (\$1,000 - \$5,000) + \$4,000.

At-risk rules. If you disposed of (a) an asset used in an activity to which the at-risk rules apply or (b) any part of your interest in an activity to which the at-risk rules apply, and you have amounts in the activity for which you are not at risk, see the instructions for Form 6198.

Passive activity rules. If the loss is allowable under the at-risk rules, it then may be subject to the passive activity rules. See Form 8582 and its instructions for details on reporting capital gains and losses from a passive activity.

Items for Special Treatment

- Transactions by a securities dealer. See section 475 and Rev. Rul. 97-39, which begins on page 4 of Internal Revenue Bulletin 1997-39 at www.irs.gov/pub/irs-irb/97-39.pdf.
- Bonds and other debt instruments. See Pub. 550.

- Cash received in lieu of fractional shares of stock as a result of a stock split or stock dividend. See Pub. 550.
- Load charges to acquire stock in a regulated investment company (including a mutual fund), which may not be taken into account in determining gain or loss on certain dispositions of the stock if reinvestment rights were exercised. See Pub. 550.

If any portion of the constructive ownership transaction was open in any prior year, you may have to pay interest. See section 1260(b) for details, including how to figure the interest. Include the interest as an additional tax on Form 1040, line 60. Check box c and in the space next to that box, enter "Section 1260(b) interest" and the amount of the interest. If you are filing Form 1040NR, include the interest as an additional tax on line 59. Check box b and, in the space next to that box, enter "Section 1260(b) interest" and the amount of the interest. This interest is not deductible.
- Gain or loss from the disposition of stock or other securities in an investment club. See Pub. 550.

Wash Sales

A wash sale occurs when you sell or otherwise dispose of stock or securities (including a contract or option to acquire or sell stock or securities) at a loss and, within 30 days before or after the sale or disposition, you:

1. Buy substantially identical stock or securities,

- Gain on the sale of depreciable property to a more than 50%-owned entity or to a trust of which you are a beneficiary. See Pub. 544.
- Gain on the disposition of stock in an interest charge domestic international sales corporation. See section 995(c).

- Transfer of property to a partnership that would be treated as an investment company if it were incorporated. See Pub. 541.
- Sales of stock received under a qualified public utility dividend reinvestment plan. See Pub. 550.
- Transfer of appreciated property to a political organization. See section 84.
- Transfer of property by a U.S. person to a foreign estate or trust. See section 684.
- If you give up your U.S. citizenship, you may be treated as having sold all your property for its fair market value on the day before you gave up your citizenship. This also applies to long-term U.S. residents who cease to be lawful permanent residents. For details, see section 1260. If any portion of the constructive ownership transaction was open in any prior year, you may have to pay interest. See section 1260(b) for details, including how to figure the interest. Include the interest as an additional tax on Form 1040, line 60. Check box c and in the space next to that box, enter "Section 1260(b) interest" and the amount of the interest. If you are filing Form 1040NR, include the interest as an additional tax on line 59. Check box b and, in the space next to that box, enter "Section 1260(b) interest" and the amount of the interest. This interest is not deductible.
- Gain or loss from the disposition of stock or other securities in an investment club. See Pub. 550.

- If qualified dividends that you reported on Form 1040, line 9b, or Form 1040NR, line 10b, include extraordinary dividends, any loss on the sale or exchange of the stock is a long-term capital loss to the extent of the extraordinary dividends. An extraordinary dividend is a dividend that equals or exceeds 10% (5% in the case of preferred stock) of your basis in the stock.

- In general, no gain or loss is recognized on the transfer of property from an individual to a spouse or a former spouse if the transfer is incident to a divorce. See Pub. 504.
- Amounts received on the retirement of a debt instrument generally are treated as received in exchange for the debt instrument. See Pub. 550.
- Any loss on the disposition of converted wetland or highly erodible cropland that is first used for farming after March 1, 1986, is reported as a long-term capital loss on Form 8949, but any gain is reported as ordinary income on Form 4797.

- If qualified dividends that you reported on Form 1040, line 9b, or Form 1040NR, line 10b, include extraordinary dividends, any loss on the sale or exchange of the stock is a long-term capital loss to the extent of the extraordinary dividends. An extraordinary dividend is a dividend that equals or exceeds 10% (5% in the case of preferred stock) of your basis in the stock.

curities and not from dividends, interest, or capital appreciation.

- Your activity must be substantial.
- You must carry on the activity with continuity and regularity.

The following facts and circumstances should be considered in determining if your activity is a business.

- Typical holding periods for securities bought and sold.
- The frequency and dollar amount of your trades during the year.
- The extent to which you pursue the activity to produce income for a livelihood.
- The amount of time you devote to the activity.

You are considered an investor, and not a trader, if your activity does not meet the above definition of a business. It does not matter whether you call yourself a trader or a "day trader."

Like an investor, a trader generally must report each sale of securities (taking into account commissions and any other costs of acquiring or disposing of the securities) on Form 8949 unless one of the three exceptions described in the instructions to Form 8949 applies. However, if a trader previously made the mark-to-market election (explained next), each transaction is reported in Part II of Form 4797 instead of on Form 8949. Regardless of whether a trader reports his or her gains and losses on Form 8949 or Form 4797, the gain or loss from the disposition of securities is not taken into account when figuring net earnings from self-employment on Schedule SE. See the Instructions for Schedule SE for an exception that applies to section 1256 contracts.

The limitation on investment interest expense that applies to investors does not apply to interest paid or incurred in trading business. A trader reports interest expense and other expenses (excluding commissions and other costs of acquiring or disposing of securities) from a trading business on Schedule C (instead of Schedule A).

A trader also may hold securities for investment. The rules for investors generally will apply to those securities. Allocate interest and other expenses between your trading business and your investment securities.

Traders in Securities
You are a trader in securities if you are engaged in the business of buying and selling securities for your own account. To be engaged in business as a trader in securities, all of the following statements must be true.

- You must seek to profit from daily market movements in the prices of securities and not from dividends, interest, or capital appreciation.

2. Acquire substantially identical stock or securities in a fully taxable trade,
3. Enter into a contract or option to acquire substantially identical stock or securities, or
4. Acquire substantially identical stock or securities for your individual retirement arrangement (IRA) or Roth IRA.

You cannot deduct losses from wash sales unless the loss was incurred in the ordinary course of your business as a dealer in stock or securities. The basis of the substantially identical property (or contract or option to acquire such property) is its cost increased by the disallowed loss (except in the case of (4) above).

If you received a Form 1099-B (or substitute statement), box 5 of that form will show any nondeductible wash sale loss.

- The stock or securities sold were covered securities (defined in the instructions for Form 8949, column (e)), and
- The substantially identical stock or securities you bought had the same CUSIP number as the stock or securities you sold and were bought in the same account as the stock or securities you sold.

However, you cannot deduct a loss from a wash sale even if it is not reported on Form 1099-B (or substitute statement). For more details on wash sales, see Pub. 550.

Report a wash sale transaction in Part I or Part II (depending on how long you owned the stock or securities) of Form 8949 with the appropriate box checked. Complete all columns. Enter "W" in column (f). Enter as a positive number in column (g) the amount of the loss not allowed. See the instructions for Form 8949, columns (f), (g), and (h).

Mark-To-Market Election for Traders

A trader may make an election under section 475(f) to report all gains and losses from securities held in connection with a trading business as ordinary income (or loss), including those from securities held at the end of the year. Securities held at the end of the year are "marked-to-market" by treating them as if they were sold (and reacquired) for fair market value on the last business day of the year. Generally, the election must be made by the due date (not including extensions) of the tax return for the year prior to the year for which the election becomes effective. To be effective for 2013, the election must have been made by April 15, 2013.

Starting with the year the election becomes effective, a trader reports all gains and losses from securities held in connection with the trading business, including securities held at the end of the year, in Part II of Form 4797. If you previously made the election, see the instructions for Form 4797. For details on making the mark-to-market election for 2014, see Pub. 550 or Rev. Proc. 99-17, 1999-1 C.B. 503. You can find Rev. Proc. 99-17 starting on the bottom of page 52 of Internal Revenue Bulletin 1999-7 at www.irs.gov/pub/irs-irb/99-07.pdf.

If you hold securities for investment, you must identify them as such in your records on the day you acquired them (for example, by holding the securities in a separate brokerage account). Securities held for investment are not marked-to-market.

Short Sales

A short sale is a contract to sell property you borrowed for delivery to a buyer. At a later date, you either buy substantially identical property and deliver it to the lender or deliver property that you held but did not want to transfer at the time of the sale.

Example. You think the value of XYZ stock will drop. You borrow 10 shares from your broker and sell them for \$100. This is a short sale. You later buy 10 shares for \$80 and deliver them to your broker to close the short sale. Your gain is \$20 (\$100 - \$80).

Holding period. Usually, your holding period is the amount of time you actually held the property eventually delivered to the broker or lender to close the short sale. However, your gain when closing a short sale is short term if you (a) held substantially identical property for 1 year or less on the date of the short sale, or (b) acquired property substantially identical to the property sold short after the short sale but on or before the date you close the short sale. If you held substantially identical property for more than 1 year on the date of a short sale, any loss realized on the short sale is a long-term capital loss, even if the property used to close the short sale was held 1 year or less.

Reporting a short sale. Report any short sale on Form 8949 in the year it closes.

If a short sale closed in 2013 but you did not get a 2013 Form 1099-B (or substitute statement) for it because you entered into it before 2011, report it on Form 8949 in Part I with box C checked or Part II with box F checked (whichever applies). In column (a), enter (for example) "100 sh. XYZ Co.-2010 short sale closed." Fill in the other columns according to their instructions. Report the short sale the same way if you received a 2013 Form 1099-B (or substitute statement) that does not show proceeds (sales price).

Gain or Loss From Options

Report on Form 8949 gain or loss from the closing or expiration of an option that is not a section 1256 contract but is a capital asset in your hands. If an option you purchased expired, enter the expiration date in column (c) and enter "EXPIRED" in column (d). If an option that was granted (written) expired, enter the expiration date in column (b) and enter "EXPIRED" in column (e). Fill in the other columns according to their instructions. See Pub. 550 for details.

If a call option you sold was exercised and the option premium you received was not reflected in the proceeds (sales price) shown on the Form 1099-B (or substitute statement) you received, enter the premium as a positive number in column (g) of Form 8949. Enter "E" in column (f).

Example. For \$10, you sold Joe an option to buy one share of XYZ stock for \$80. Joe later exercised the option. The Form 1099-B you get shows the proceeds to be \$80. Enter \$80 in column (d) of Form 8949. Enter "E" in column (f) and \$10 in column (g). Complete the other columns according to the instructions.

Undistributed Capital Gains

Include on Schedule D, line 11, the amount from box 1a of Form 2439. This represents your share of the undistributed long-term capital gains of the regulated investment company (including a mutual fund) or real estate investment trust.

If there is an amount in box 1b, include that amount on line 11 of the Unrecaptured Section 1250 Gain Worksheet if you complete line 19 of Schedule D.

If there is an amount in box 1c, see Business (OSB) Stock, later.

If there is an amount in box 1d, include that amount on line 4 of the Rate Gain Worksheet if you complete line 18 of Schedule D.

Include on Form 1040, line 71, or Form 1040NR, line 67, the tax paid as shown in box 2 of Form 2439. Also check the box for Form 2439. Add to the basis of your stock the excess of the amount included in income over the amount of the credit for the tax paid. See Pub. 550 for details.

Installment Sales

If you sold property (other than publicly traded stocks or securities) at a gain and you will receive a payment in a tax year after the year of sale, you generally must report the sale on the installment method unless you elect not to. Use Form 6252 to report the sale on the installment method. Also use Form 6252 to report any payment received in 2013 from a sale made in an earlier year that you reported on the installment method.

To elect out of the installment method, report the full amount of the gain on Form 8949 on a timely filed return (including extensions) for the year of the sale. If your original return was filed on time, you can make the election on an amended return filed no later than 6

months after the due date of your return (excluding extensions). Write "Filed pursuant to section 301.9100-2" at the top of the amended return.

Demutualization of Life Insurance Companies

Demutualization of a life insurance company occurs when a mutual life insurance company changes to a stock company. If you were a policyholder or annuitant of the mutual company, you may have received either stock in the stock company or cash in exchange for your equity interest in the mutual company.

If the demutualization transaction qualifies as a tax-free reorganization, no gain or loss is recognized on the exchange of your equity interest in the mutual company for stock. The company can advise you if the transaction is a tax-free reorganization. Your holding period for the new stock includes the period you held an equity interest in the mutual company. If you received cash in exchange for your equity interest, you may have to recognize a capital gain. If you held the equity interest for more than 1 year, report the gain as a long-term capital gain in Part II of Form 8949. If you held the equity interest for 1 year or less, report the gain as a short-term capital gain in Part I of Form 8949. Be sure the appropriate box is checked at the top of Form 8949.

If the demutualization transaction does not qualify as a tax-free reorganization, you must recognize a capital gain or loss. If you held the equity interest for more than 1 year, report the gain or loss as a long-term capital gain or loss in Part II of Form 8949. If you held the equity interest for 1 year or less, report the gain or loss as a short-term capital gain or loss in Part I of Form 8949. Be sure the appropriate box is checked at the top of Form 8949. Your holding period for the new stock begins on the day after you received the stock.

Small Business (Section 1244) Stock

Report an ordinary loss from the sale, exchange, or worthlessness of small business (section 1244) stock on Form 4797. However, if the total loss is more than the maximum amount that can be

treated as an ordinary loss, also report the transaction on Form 8949 as follows.

1. In column (a), enter "Capital portion of section 1244 stock loss."
2. Complete columns (b) and (c) as you normally would.
3. In column (d), enter the entire sales price of the stock sold.
4. In column (e), enter the entire basis of the stock sold.
5. Enter "S" in column (f). See the instructions for Form 8949, columns (f), (g), and (h).
6. In column (g), enter the loss you claimed on Form 4797 for this transaction. Enter it as a positive number.
7. Complete column (h) according to its instructions.

Report the transaction in Part I or Part II of Form 8949 (depending on how long you held the stock) with the appropriate box checked.

Example. You sold section 1244 stock for \$1,000. Your basis was \$60,000. You had held the stock for 3 years. You can claim \$50,000 of your loss as an ordinary loss on Form 4797.

To claim the rest of the loss on Form 8949, check the appropriate box at the top. Enter \$1,000 on Form 8949, Part II, column (d). Enter \$60,000 in column (e). Enter "S" in column (f) and \$50,000 (the ordinary loss claimed on Form 4797) in column (g). In column (h), enter (\$9,000) (\$1,000 - \$60,000 + \$50,000). Put it in parentheses to show it is a negative amount.

Exclusion of Gain on Qualified Small Business (QSB) Stock

Section 1202 allows for an exclusion of up to 50% of the eligible gain on the sale or exchange of QSB stock. The section 1202 exclusion applies only to QSB stock held for more than 5 years. The exclusion can be up to 60% for certain empowerment zone business stock. See [Empowerment Zone Business Stock](#), later.

To be QSB stock, the stock must meet all of the following tests.

1. It must be stock in a C corporation (that is, not S corporation stock).
2. It must have been originally issued after August 10, 1993.

3. As of the date the stock was issued, the corporation was a domestic C corporation with total gross assets of \$50 million or less (a) at all times after August 9, 1993, and before the stock was issued, and (b) immediately after the stock was issued. Gross assets include those of any predecessor of the corporation. All corporations that are members of the same parent-subsidiary controlled group are treated as one corporation.
4. You must have acquired the stock at its original issue (either directly or through an underwriter), either in exchange for money or other property or as pay for services (other than as an underwriter) to the corporation. In certain cases, you may meet this test if you acquired the stock from another person who met the test (such as by gift or inheritance) or through a conversion or exchange of QSB stock you held.
5. During substantially all the time you held the stock:

- a. The corporation was a C corporation.
- b. At least 80% of the value of the corporation's assets were used in the active conduct of one or more qualified businesses (defined next), and
- c. The corporation was not a foreign corporation, DISC, former DISC, regulated investment company, real estate investment trust, REMIC, FASIT, cooperative, or a corporation that has made (or that has a subsidiary that has made) a section 936 election.

SSBIC. A specialized small business investment company (SSBIC) is treated as having met test 5b.

Definition of qualified business. A qualified business is any business that is not one of the following.

- A business involving services performed in the fields of health, law, engineering, architecture, accounting, actuarial science, performing arts, consulting, athletics, financial services, or brokerage services.
- A business whose principal asset is the reputation or skill of one or more employees.
- A banking, insurance, financing, leasing, investing, or similar business.

- A farming business (including the raising or harvesting of trees)
- A business involving the production of products for which percentage depletion can be claimed.
- A business of operating a hotel, motel, restaurant, or similar business.

For more details about limits and additional requirements that may apply, see Pub. 550 or section 1202.

Empowerment Zone Business Stock

You generally can exclude up to 60% of your gain if you meet the following additional requirements.

1. The stock you sold or exchanged was stock in a corporation that qualified as an empowerment zone business during substantially all of the time you held the stock.
2. You acquired the stock after December 21, 2000.

Requirement 1 will still be met if the corporation ceased to qualify after the 5-year period that began on the date you acquired the stock. However, the gain that qualifies for the 60% exclusion cannot be more than the gain you would have had if you had sold the stock on the date the corporation ceased to qualify.

For more information about empowerment zone businesses, see section 1397C.

Pass-Through Entities

If you held an interest in a pass-through entity (a partnership, S corporation, or mutual fund or other regulated investment company) that sold QSB stock, to qualify for the exclusion you must have held the interest on the date the pass-through entity acquired the QSB stock and at all times thereafter until the stock was sold.

How To Report

Report the sale or exchange of the QSB stock on Form 8949, Part II, with the appropriate box checked, as you would if you were not taking the exclusion. Then enter "Q" in column (f) and enter the amount of the excluded gain as a negative number in column (g). Put it in parentheses to show it is negative. See the instructions for Form 8949, columns (f), (g), and (h). Complete all remaining col-

umns. If you are completing line 18 of Schedule D, enter as a positive number the amount of your allowable exclusion on line 2 of the 28% Rate Gain Worksheet; if you excluded 60% of the gain, enter # of the exclusion.

Gain from Form 1099-DIV. If you received a Form 1099-DIV with a gain in box 2c, part or all of that gain (which is also included in box 2a) may be eligible for the section 1202 exclusion. In column (a) of Form 8949, Part II, enter the name of the corporation whose stock was sold. In column (f), enter "Q" and in column (g) enter the amount of the excluded gain as a negative number. See the instructions for Form 8949, columns (f), (g), and (h). If you are completing line 18 of Schedule D, enter as a positive number the amount of your allowable exclusion on line 2 of the 28% Rate Gain Worksheet; if you excluded 60% of the gain, enter # of the exclusion.

Gain from Form 2439. If you received a Form 2439 with a gain in box 1c, part or all of that gain (which is also included in box 1a) may be eligible for the section 1202 exclusion. In column (a) of Form 8949, Part II, enter the name of the corporation whose stock was sold. In column (f), enter "Q" and in column (g) enter the amount of the excluded gain as a negative number. See the instructions for Form 8949, columns (f), (g), and (h). If you are completing line 18 of Schedule D, enter as a positive number the amount of your allowable exclusion on line 2 of the 28% Rate Gain Worksheet; if you excluded 60% of the gain, enter # of the exclusion.

Gain from an installment sale of QSB stock. If all payments are not received in the year of sale, a sale of QSB stock that is not traded on an established securities market generally is treated as an installment sale and is reported on Form 6252. Figure the allowable section 1202 exclusion for the year by multiplying the total amount of the exclusion by a fraction, the numerator of which is the amount of eligible gain to be recognized for the tax year and the denominator of which is the total amount of eligible gain. In column (a) of Form 8949, Part II, enter the name of the corporation whose stock was sold. In column (f), enter "Q" and in column (g) enter the amount of the allowable exclusion for the year as a negative number. See the

instructions for Form 8949, columns (f), (g), and (h). If you are completing line 18 of Schedule D, enter as a positive number the amount of your allowable exclusion for the year on line 2 of the 28% Rate Gain Worksheet; if you excluded 60% of the gain, enter # of the allowable exclusion for the year.

Alternative minimum tax. You must enter 7% of your allowable exclusion for the year on line 13 of Form 6251.

Rollover of Gain From QSB Stock

If you sold QSB stock (defined earlier) that you held for more than 6 months, you can elect to postpone gain if you buy other QSB stock during the 60-day period that began on the date of the sale. A pass-through entity also can make the election to postpone gain. The benefit of the postponed gain applies to your share of the entity's postponed gain if you held an interest in the entity for the entire period the entity held the QSB stock. If a pass-through entity sold QSB stock held for more than 6 months and you held an interest in the entity for the entire period the entity held the stock, you also can elect to postpone gain if you, rather than the pass-through entity, buy the replacement QSB stock within the 60-day period to you by the partnership and Regulations section 1.1045-1.

You must recognize gain to the extent the sale proceeds are more than the cost of the replacement stock. Reduce the basis of the replacement stock by any postponed gain.

You must make the election no later than the due date (including extensions) for filing your tax return for the tax year in which the QSB stock was sold. If your original return was filed on time, you can make the election on an amended return filed no later than 6 months after the due date of your return (excluding extensions). Write "Filed pursuant to section 301.9100-2" at the top of the amended return.

To make the election, report the sale in Part I or Part II (depending on how long you, or the pass-through entity, if applicable, owned the stock) of Form 8949 as you would if you were not mak-

ing the election. Then enter "R" in column (f). Enter the amount of the postponed gain as a negative number in column (g). Put it in parentheses to show it is negative. See the instructions for Form 8949, columns (f), (g), and (h). Complete all remaining columns.

Exclusion of Gain From DC Zone Assets

If you sold or exchanged a District of Columbia Enterprise Zone (DC Zone) asset that you acquired after 1997 and held for more than 5 years, you may be able to exclude the amount of qualified capital gain that you would otherwise include in income. The exclusion applies to an interest in, or property of, certain businesses operating in the District of Columbia.

DC Zone asset. A DC Zone asset is any of the following.

- DC Zone business stock
- DC Zone partnership interest
- DC Zone business property.

Qualified capital gain. Qualified capital gain is any gain recognized on the sale or exchange of a DC Zone asset that is a capital asset or property used in a trade or business. It does not include any of the following gains.

- Gain treated as ordinary income under section 1245.
- Section 1250 gain figured as if section 1250 applied to all depreciation rather than the additional depreciation.
- Gain attributable to real property, or an intangible asset, that is not an integral part of a DC Zone business.
- Gain from a related-party transaction. See *Sales and Exchanges Between Related Persons* in chapter 2 of Pub. 544.

See section 1400B for more details.

How to report. Report the sale or exchange on Form 8949, Part II, as you would if you were not taking the exclusion. Then enter "X" in column (f). Enter the amount of the exclusion as a negative number in column (g). Put it in parentheses to show it is negative. See the instructions for Form 8949, columns (f), (g), and (h). Complete all remaining columns.

Exclusion of Gain From Qualified Community Assets

If you sold or exchanged a qualified community asset that you acquired after 2001 and before 2010 and held for more than 5 years, you may be able to exclude the qualified capital gain that you would otherwise include in income. The exclusion applies to an interest in, or property of, certain renewal community businesses.

Qualified community asset. A qualified community asset is any of the following.

- Qualified community stock.
- Qualified community partnership interest.
- Qualified community business property.

Qualified capital gain. Qualified capital gain is any gain recognized on the sale or exchange of a qualified community asset but does not include any of the following.

- Gain treated as ordinary income under section 1245.
- Section 1250 gain figured as if section 1250 applied to all depreciation rather than the additional depreciation.
- Gain attributable to real property, or an intangible asset, that is not an integral part of a qualified community business.
- Gain from a related-party transaction. See *Sales and Exchanges Between Related Persons* in chapter 2 of Pub. 544.

See section 1400F for more details and special rules.

How to report. Report the sale or exchange on Form 8949, Part II, with the appropriate box checked, as you would if you were not taking the exclusion. Then enter "X" in column (f) and enter the amount of the exclusion as a negative number in column (g). Put it in parentheses to show it is negative. See the instructions for Form 8949, columns (f), (g), and (h). Complete all remaining columns.

Rollover of Gain From Publicly Traded Securities

You can postpone all or part of any gain from the sale of publicly traded securities by buying common stock or a partnership interest in a specialized small business investment company during the

60-day period that began on the date of the sale. See Pub. 550. Also see the instructions for Form 8949, columns (f), (g), and (h).

Rollover of Gain From Stock Sold to ESOPs or Certain Cooperatives

You can postpone all or part of any gain from the sale of qualified securities, held for at least 3 years, to an employee stock ownership plan (ESOP) or eligible worker-owned cooperative, if you buy qualified replacement property. See Pub. 550. Also see the instructions for Form 8949, columns (f), (g), and (h).

Specific Instructions

Rounding Off to Whole Dollars

You can round off cents to whole dollars on your Schedule D. If you do round to whole dollars, you must round all amounts. To round, drop amounts under 50 cents and increase amounts from 50 to 99 cents to the next dollar. For example, \$1.39 becomes \$1 and \$2.50 becomes \$3.

If you have to add two or more amounts to figure the amount to enter on a line, include cents when adding the amounts and round off only the total.

Lines 1a and 8a—Transactions Not Reported on Form 8949

You can report on line 1a (for short-term transactions) or line 8a (for long-term transactions) the aggregate totals from any transactions (except sales of collectibles) for which:

- You received a Form 1099-B (or substitute statement) that shows basis was reported to the IRS and does not show a nondeductible wash sale loss in box 5, and
- You do not need to make any adjustments to the basis or type of gain or loss (short term or long term) reported on Form 1099-B (or substitute statement). See *How To Complete Form 8949, Columns (f) and (g)*, in the Form 8949 instructions for details about possible adjustments to your gain or loss.

If you choose to report these transactions on lines 1a and 8a, do not report them on Form 8949. You do not need to attach a statement to explain the entries on lines 1a and 8a and, if you *e-file* your return, you do not need to file Form 8453.

Figure gain or loss on each line. Subtract the cost or other basis in column (e) from the proceeds (sales price) in column (d). Enter the gain or loss in column (d). Enter negative amounts in parentheses.

Example 1 – basis reported to the IRS. You received a Form 1099-B reporting the sale of stock you held for 3 years. It shows proceeds (in box 2a) of \$6,000 and cost or other basis (in box 3) of \$2,000. Box 6b is checked, meaning that basis was reported to the IRS. You do not need to make any adjustments to the amounts reported on Form 1099-B or enter any codes. This was your only 2013 transaction. Instead of reporting this transaction on Form 8949, you can enter \$6,000 on Schedule D, line 8a, column (d), \$2,000 in column (e), and \$4,000 (\$6,000 – \$2,000) in column (f).

Example 2 – basis not reported to the IRS. You received a Form 1099-B showing proceeds (in box 2a) of \$6,000 and cost or other basis (in box 3) of \$2,000. Box 6b is not checked, meaning that basis was not reported to the IRS. Do not report this transaction on line 1a or line 8a. Instead, report the transaction on Form 8949. Complete all necessary pages of Form 8949 before completing line 1b, 2, 3, 8b, 9, or 10 of Schedule D.

Example 3 – adjustment. You received a Form 1099-B showing proceeds (in box 2a) of \$6,000 and cost or other basis (in box 3) of \$2,000. Box 6b is checked, meaning that basis was reported to the IRS. However, the basis shown in box 3 is incorrect. Do not report this transaction on line 1a or line 8a. Instead, report the transaction on Form 8949. See the instructions for Form 8949, columns (f), (g), and (h). Complete all necessary pages of Form 8949 before completing line 1b, 2, 3, 8b, 9, or 10 of Schedule D.

Lines 1b, 2, 3, 8b, 9, and 10, Column (h)—Transactions Reported on Form 8949

Figure gain or loss on each line. First, subtract the cost or other basis in column (e) from the proceeds (sales price) in column (d). Then combine the result with any adjustments in column (g). Enter the gain or loss in column (h). Enter negative amounts in parentheses.

Example 1 – gain. Column (d) is \$6,000 and column (e) is \$2,000. Enter \$4,000 in column (h).

Example 2 – loss. Column (d) is \$6,000 and column (e) is \$8,000. Enter (\$2,000) in column (h).

Example 3 – adjustment. Column (d) is \$6,000, column (e) is \$2,000, and column (g) is (\$1,000). Enter \$3,000 (\$6,000 – \$2,000 – \$1,000) in column (h).

Line 13

See *Capital Gain Distributions*, earlier.

Line 18

If you checked "Yes" on line 17, complete the *28% Rate Gain Worksheet* in these instructions if either of the following apply for 2013.

- You reported in Part II of Form 8949 a section 1202 exclusion from the eligible gain on qualified small business stock (see *Exclusion of Gain on Qualified Small Business (QSB) Stock*, earlier).
- You reported in Part II of Form 8949 a collectibles gain or (loss). A collectibles gain or (loss) is any long-term gain or deductible long-term loss from the sale or exchange of a collectible that is a capital asset.

Collectibles include works of art, rugs, antiques, metals (such as gold, silver, and platinum bullion), gems,

stamps, coins, alcoholic beverages, and certain other tangible property.

Include on the worksheet any gain (but not loss) from the sale or exchange of an interest in a partnership, S corporation, or trust held for more than 1 year and attributable to unrealized appreciation of collectibles. For details, see Regulations section 1.1(h)-1. Also, attach the statement required under Regulations section 1.1(h)-1(e).

Line 19

If you checked "Yes" on line 17, complete the *Unrecaptured Section 1250 Gain Worksheet* in these instructions if any of the following apply for 2013.

- You sold or otherwise disposed of section 1250 property (generally, real property that you depreciated) held more than 1 year.
- You received installment payments for section 1250 property held more than 1 year.

Capital Loss Carryover Worksheet—Lines 6 and 14

Use this worksheet to figure your capital loss carryovers from 2012 to 2013 if your 2012 Schedule D, line 21, is a loss and (a) that loss is a smaller loss than the loss on your 2012 Schedule D, line 16, or (b) the amount on your 2012 Form 1040, line 41 (or your 2012 Form 1040NR, line 39, if applicable) is less than zero. Otherwise, you do not have any carryovers.

If you and your spouse once filed a joint return and are filing separate returns for 2013, any capital loss carryover from the joint return can be deducted only on the return of the spouse who actually had the loss.

If you excluded canceled debt from income in 2013, see Pub. 4681.

1.	Enter the amount from your 2012 Form 1040, line 41, or your 2012 Form 1040NR, line 39. If a loss, enclose the amount in parentheses	1.	
2.	Enter the loss from your 2012 Schedule D, line 21, as a positive amount	2.	
3.	Combine lines 1 and 2. If zero or less, enter -0-	3.

8.	Short-term capital loss carryover for 2013. Subtract line 7 from line 5. If zero or less, enter -0-. If more than zero, also enter this amount on Schedule D, line 6	8.	
If line 15 of your 2012 Schedule D is a loss, go to line 9; otherwise, skip lines 9 through 13.			
9.	Enter the loss from your 2012 Schedule D, line 15, as a positive amount	9.	
10.	Enter any gain from your 2012 Schedule D, line 7. If a loss, enter -0-	10.

2013 Instructions for Schedule E (Form 1040)

Use Schedule E (Form 1040) to report income or loss from rental real estate, royalties, partnerships, S corporations, estates, trusts, and residual interests in REMICs.

You can attach your own schedule(s) to report income or loss from any of these sources. Use the same format as on Schedule E.

Enter separately on Schedule E the total income and the total loss for each part. Enter close loss figures in parentheses).

Supplemental Income and Loss

Section references are to the Internal Revenue Code unless otherwise noted.

Future Developments

For the latest information about developments related to Schedule E (Form 1040) and its instructions, such as legislation enacted after they were published, go to www.irs.gov/schedulee.

What's New

Standard mileage rate. The standard mileage rate for miles driven in connection with your rental activities is 56.5 cents per mile.

Net Investment Income Tax. Beginning in 2013, individuals, estates, and trusts may be subject to the Net Investment Income Tax (NIIT). NIIT is a 3.8% tax on the lesser of net investment income or the excess of modified adjusted gross income (MAGI) over the threshold amount. Net investment income may include rental and royalty income, income from partnerships, S corporations and trusts, and income from other passive activities reported on your Schedule E. Use Form 8960, Net Investment Income Tax, to figure this tax. For more information on NIIT, go to IRS.gov and enter "Net Investment Income Tax" in the search box.

Single-member limited liability company (LLC). In most cases, a single-member domestic LLC is not treated as a separate entity for federal income tax purposes. If you are the sole member of a domestic LLC, file Schedule E (or Schedule C, C-EZ, or F, if applicable). However, you can elect to treat a domestic

tic LLC as a corporation. See Form 8832 for details on the election and the tax treatment of a foreign LLC.

Information returns. You may have to file information returns for wages paid to employees, certain payments of fees and other nonemployee compensation, interest, rents, royalties, real estate transactions, annuities, and pensions. You generally use Form 1099-MISC, Miscellaneous Income, to report rents and payments of fees and other nonemployee compensation. For details, see [Line A](#), later, and the 2013 General Instructions for Certain Information Returns.

If you received cash of more than \$10,000 in one or more related transactions in your trade or business, you may have to file Form 8300. For details, see Pub. 1544.

Qualified Joint Venture

If you and your spouse each materially participate (see *Material participation* in the Instructions for Schedule C) as the only members of a jointly owned and operated rental real estate business and you file a joint return for the tax year, you can elect to be treated as a qualified joint venture instead of a partnership. This election, in most cases, will not increase the total tax owed on the joint return. By making the election, you will not be required to file Form 1065 for any year the election is in effect and will instead report the income and deductions directly on your joint return. If you and your spouse filed Form 1065 for the year prior to the election, the partnership terminates at the end of the tax year immediately preceding the year the election takes effect.

Note. Mere joint ownership of property that is not a trade or business does not qualify for the election.

Recordkeeping

You must keep records to support items reported on Schedule E in case the IRS has questions about them. If the IRS examines your tax return, you may be asked to explain the items reported. Good records will help you explain any item and arrive at the correct tax with a minimum of effort. If you do not have records, you may have to spend time getting statements and receipts from various sources. If you cannot produce the correct documents, you may have to pay additional tax and be subject to penalties.

- d. You have no current or prior year unallowed credits from passive activities; and
- e. Your **modified adjusted gross income** (defined later) is \$100,000 or less (\$50,000 or less if married filing separately).

Active participation. You can meet the active participation requirement without regular, continuous, and substantial involvement in real estate activities. But you must have participated in making management decisions or arranging for others to provide services (such as repairs) in a significant and *bona fide* sense. Such management decisions include:

- Approving new tenants,
- Deciding on rental terms,
- Approving capital or repair expenditures, and
- Other similar decisions.

You are not considered to actively participate if, at any time during the tax year, your interest (including your spouse's interest) in the activity was less than 10% by value of all interests in the activity. If you are a limited partner, you are also not treated as actively participating in a partnership's rental real estate activities.

Modified adjusted gross income. This is your adjusted gross income from Form 1040, line 38, or Form 1040NR, line 37, without taking into account:

- Any allowable passive activity loss,
- Rental real estate losses allowed for real estate professionals (see [Active ties of real estate professionals](#), earlier),
- Taxable social security or tier 1 railroad retirement benefits,
- Deductible contributions to a traditional IRA or certain other qualified retirement plans under section 219,
- The student loan interest deduction,
- The tuition and fees deduction,
- The domestic production activities deduction,
- The deduction for one-half of self-employment tax,
- The exclusion from income of interest from series EE and I U.S. savings bonds used to pay higher education expenses, and
- Any excluded amounts under an employer's adoption assistance program.

Income or Loss From Rental Real Estate and Royalties

Use Part I to report the following.

- Income and expenses from rental real estate (including personal property leased with real estate)
- Royalty income and expenses.
- For an estate or trust only, farm rental income and expenses based on crops or livestock produced by the tenant. Estates and trusts do **not** use Form 4835 or Schedule F (Form 1040) for this purpose.

If you own a part interest in a rental real estate property, report only your part of the income and expenses on Schedule E.

Complete lines 1 and 2 for each rental real estate property. For royalty properties, line 2 and the address portion on line 1 should be left blank and you should enter code "6" for royalty property.

If you have more than three rental real estate or royalty properties, complete and attach as many Schedules E as you need to list them. But answer lines A and B and fill in lines 23a through 26 on only one Schedule E. The figures on lines 23a through 26 on that Schedule E should be the combined totals for all properties reported on your Schedules E. If you are also using page 2 of Schedule E, use the same Schedule E on which you entered the combined totals for Part I.

Personal property. Do not use Schedule E to report income and expenses from the rental of personal property, such as equipment or vehicles. Instead, use Schedule C or C-EZ if you are in the business of renting personal property. You are in the business of renting personal property if the primary purpose for renting the property is income or profit and you are involved in the rental activity with continuity and regularity.

If your rental of personal property is not a business, see the instructions for Form 1040, lines 21 and 36, to find out how to report the income and expenses.

Extraterrestrial income exclusion. Except as otherwise provided in the Internal Revenue Code, gross income includes all income from whatever source

derived. Gross income, however, does not include extraterritorial income that is qualifying foreign trade income under certain circumstances. Use Form 8873 to figure the extraterritorial income exclusion. Report it on Schedule E as explained in the Instructions for Form 8873.

Chapter 11 bankruptcy cases. If you were a debtor in a chapter 11 bankruptcy case, see [Chapter 11 Bankruptcy Cases](#) under [Income](#) in the Instructions for Form 1040.

Line 1a

For rental real estate property only, show the street address, city or town, state, and ZIP code. If the property is located in a foreign country, enter the city, province or state, country, and postal code.

Line 1b

For the type of property, enter one of the codes listed under "Type of Property" in Part I of the form.

Self-rental. Enter code type "7" for self-rental if you rent property to a trade or business in which you materially participated. See [Rental of Property to a Nonpassive Activity](#) in Pub. 925 for details about the tax treatment of income from this type of rental property.

Other. Enter code type "8" if the property is not one of the other types listed on the form. Attach a statement to your return describing the property.

Line 2

If you rented out a dwelling unit that you also used for personal purposes during the year, you may not be able to deduct all the expenses for the rental. "Dwelling unit" (unit) means a house, apartment, condominium, or similar property.

For each property listed on line 1a, report the number of days in the year each property was rented at fair rental value and the number of days of personal use.

- A day of personal use is any day, or part of a day, that the unit was used by:
- You for personal purposes,
 - Any other person for personal purposes, if that person owns part of the unit (unless rented to that person under a "shared equity" financing agreement),

- Anyone in your family (or in the family of someone else who owns part of the unit), unless the unit is rented at a fair rental price to that person as his or her main home,
- Anyone who pays less than a fair rental price for the unit, or
- Anyone under an agreement that lets you use some other unit.

Do not count as personal use:

- Any day you spent working substantially full time repairing and maintaining the unit, even if family members used it for recreational purposes on that day, or
- Any days you used the unit as your main home before or after renting it or offering it for rent, if you rented or tried to rent it for at least 12 consecutive months (or for a period of less than 12 consecutive months at the end of which you sold or exchanged it).

Whether or not you can deduct expenses for the unit depends on whether or not you used the unit as a home in 2013. You used the unit as a home if your personal use of the unit was more than the greater of:

- 14 days, or
- 10% of the total days it was rented to others at a fair rental price.

If you did not use the unit as a home, you can deduct all your expenses for the rental part, subject to the [at-risk rules](#) and the [passive activity loss rules](#) explained earlier.

If you did use the unit as a home and rented the unit out for fewer than 15 days in 2013, do not report the rental income and do not deduct any rental expenses. If you itemize deductions on Schedule A, you can deduct allowable interest, taxes, and casualty losses.

If you did use the unit as a home and rented the unit out for 15 or more days in 2013, you may not be able to deduct all your rental expenses. You can deduct all the following expenses for the rental part on Schedule E:

- Mortgage interest.
- Real estate taxes.
- Casualty losses.
- Other rental expenses not related to your use of the unit as a home, such as advertising expenses and rental agents' fees.

If any income is left after deducting these expenses, you can deduct other expenses, including depreciation, up to the amount of remaining income. You can carry over to 2014 the amounts you cannot deduct.

Regardless of whether you used the unit as a home, expenses related to days of personal use do not qualify as rental expenses. You must allocate your expenses based on the number of days of personal use to total use of the property. For example, you used your property for personal use for 7 days and rented it for 63 days. In most cases, 10% (7÷70) of your expenses are not rental expenses and cannot be deducted on Schedule E.

See Pub. 527 for details.

QJV. Check the box for "QJV" if you owned the property as a member of a qualified joint venture reporting income not subject to self-employment tax. See [Qualified Joint Venture](#), earlier.

Line 3

If you received rental income from real estate (including personal property leased with real estate), report the income on line 3. Use a separate column (A, B, or C) for each rental property. Include income received for renting a room or other space.

If you received services or property instead of money as rent, report the fair market value of what you received as rental income on line 3.

If you provided significant services to the renter, such as maid service, report the rental activity on Schedule C or C-EZ, not on Schedule E. Significant services do not include the furnishing of heat and light, cleaning of public areas, trash collection, or similar services.

If you were a real estate dealer, include only the rent received from real estate (including personal property leased with this real estate) you held for the primary purpose of renting to produce income. Do not use Schedule E to report income and expenses from rentals of real estate you held for sale to customers in the ordinary course of your business as a real estate dealer. Instead use Schedule C or C-EZ for those rentals.

For more details on rental income, use TeleTax topic 414 (see *What is TeleTax?* in the Instructions for Form 1040), or see Pub. 527.

Rental income from farm production or crop shares. Report farm rental income and expenses on Form 4835 if:

- You are an individual,
- You received rental income based on crops or livestock produced by the tenant, and
- You did not materially participate in the management or operation of the farm.

Line 4

Report on line 4 royalties from oil, gas, or mineral properties (not including operating interests); copyrights; and patents. Use a separate column (A, B, or C) for each royalty property.

If you received \$10 or more in royalties during 2013, the payer should send you a Form 1099-MISC or similar statement by January 31, 2014, showing the amount you received. Report this amount on line 4.

If you are in business as a self-employed writer, inventor, artist, etc., report your royalty income and expenses on Schedule C or C-EZ.

You may be able to treat amounts received as "royalties" for the transfer of a patent or amounts received on the disposal of coal and iron ore as the sale of a capital asset. For details, see Pub. 544.

Enter on line 4 the gross amount of rent and royalty income, even if state or local taxes were withheld from oil or gas payments you received. Include taxes withheld by the producer on line 16.

General Instructions for Lines 5 Through 21

Enter your rental and royalty expenses for each property in the appropriate column. You can deduct all ordinary and necessary expenses, such as taxes, interest, repairs, insurance, management fees, agents' commissions, and depreciation.

Do not deduct the value of your own labor or amounts paid for capital improvements or capital improvements.

Enter your total expenses for mortgage interest (line 12), depreciation expenses and depletion (line 18), and total

pairs, insurance, tires, license plates, etc., and

- Show auto rental or lease payments on line 19 and depreciation on line 18.

If you claim any auto expenses (actual or the standard mileage rate), you must complete Part V of Form 4562 and attach Form 4562 to your tax return.

See Pub. 527 and Pub. 463 for details.

Line 10

Include on line 10 fees for tax advice and the preparation of tax forms related to your rental real estate or royalty properties.

Do not deduct legal fees paid or incurred to defend or protect title to property, to recover property, or to develop or improve property. Instead, you must capitalize these fees and add them to the property's basis.

Lines 12 and 13

In most cases, to determine the interest expense allocable to your rental activities, you must have records to show how the proceeds of each debt were used. Specific tracing rules apply for allocating debt proceeds and repayment. See Pub. 535 for details.

If you have a mortgage on your rental property, enter on line 12 the amount of interest you paid for 2013 to banks or other financial institutions.

Do not deduct prepaid interest when you paid it. You can deduct it only in the year to which it is properly allocable. Points, including loan origination fees, charged only for the use of money must be deducted over the life of the loan.

If you paid \$600 or more in interest on a mortgage during 2013, the recipient should send you a Form 1098 or similar statement by January 31, 2014, showing the total interest received from you.

If you paid more mortgage interest than is shown on your Form 1098 or similar statement, see Pub. 535 to find out if you can deduct part or all of the additional interest. If you can, enter the entire deductible amount on line 12. Attach a statement to your return explaining the difference. In the space to the left of line 12, enter "See attached."

Note. If the recipient was not a financial institution or you did not receive a Form 1098 from the recipient, report your deductible mortgage interest on line 13.

If you and at least one other person (other than your spouse if you file a joint return) were liable for and paid interest on the mortgage, and the other person received Form 1098, report your share of the deductible interest on line 13. Attach a statement to your return showing the name and address of the person who received Form 1098. On the dotted line next to line 13, enter "See attached."

Line 14

You can deduct the cost of repairs made to keep your property in good working condition. Repairs in most cases do not add significant value to the property or extend its life. Examples of repairs are fixing a broken lock or painting a room. Improvements that increase the value of the property or extend its life, such as replacing a roof or renovating a kitchen, must be capitalized and depreciated (that is, they cannot be deducted in full in the year they are paid or incurred). See [Line 18](#), later.

Line 17

You can deduct the cost of ordinary and necessary telephone calls related to your rental activities or royalty income (for example, calls to the renter). However, the base rate (including taxes and other charges) for local telephone service for the first telephone line into your residence is a personal expense and is not deductible.

Line 18

Depreciation is the annual deduction you must take to recover the cost or other basis of business or investment property having a useful life substantially beyond the tax year. Land is not depreciable.

Depreciation starts when you first use the property in your business or for the production of income. It ends when you deduct all your depreciable cost or other basis or no longer use the property in your business or for the production of income.

See the Instructions for Form 4562 to figure the amount of depreciation to enter on line 18.

You must complete and attach Form 4562 only if you are claiming:

- Depreciation on property first placed in service during 2013,
- Depreciation on listed property (defined in the Instructions for Form 4562), including a vehicle, regardless of the date it was placed in service, or
- A section 179 expense deduction or amortization of costs that began in 2013.

See Pub. 527 for more information on depreciation of residential rental property. See Pub. 946 for a more comprehensive guide to depreciation.

If you have an economic interest in mineral property, you may be able to take a deduction for depletion. Mineral property includes oil and gas wells, mines, and other natural deposits (including geothermal deposits). See Pub. 535 for details.

Separating cost of land and buildings. If you buy buildings and your cost includes the cost of the land on which they stand, you must divide the cost between the land and the buildings to figure the basis for depreciation of the buildings. The part of the cost that you allocate to each asset is the ratio of the fair market value of that asset to the fair market value of the whole property at the time you buy it.

If you are not certain of the fair market values of the land and the buildings, you can divide the cost between them based on their assessed values for real estate tax purposes.

Line 19

Enter on line 19 any ordinary and necessary expenses not listed on lines 5 through 18.

You may be able to deduct, on line 19, part or all of the cost of modifying existing commercial buildings to make them energy efficient. For details, see section 179D, Notice 2006-52. Notice 2008-40, and Notice 2012-26. You can find Notice 2006-52 on page 1175 of Internal Revenue Bulletin 2006-26 at [www.irs.gov/irb/2006-26_IRB/](#).

You can find Notice 2008-40 on page 725 of Internal Revenue Bulletin

in 2008-14 at [www.irs.gov/irb/2008-14_IRB/ar12.html](#). You can find Notice 2012-26 on page 847 of Internal Revenue Bulletin 2012-17 at [www.irs.gov/irb/2012-17_IRB/ar08.html](#).

Line 21

If you have amounts for which you are not at risk, use Form 6198 to determine the amount of your deductible loss. Enter that amount in the appropriate column of Schedule E, line 21. In the space to the left of line 21, enter "Form 6198."

Attach Form 6198 to your return. For details on the at-risk rules, see [At-Risk Rules](#), earlier.

Line 22

Do not complete line 22 if the amount on line 21 is from royalty properties.

If you have a rental real estate loss from a **passive activity** (defined earlier), the amount of loss you can deduct may be limited by the passive activity loss rules. You may need to complete Form 8582 to figure the amount of loss, if any, to enter on line 22. See the Instructions for Form 8582 to determine if your loss is limited.

If your rental real estate loss is not from a passive activity or you meet the **exception for certain rental real estate activities** (explained earlier), you do not have to complete Form 8582. Enter the loss from line 21 on line 22.

If you have an unallowed rental real estate loss from a prior year that after completing Form 8582 you can deduct this year, include that loss on line 22.

Parts II and III

If you need more space in Part II or III to list your income or losses, attach a continuation sheet using the same format as shown in Part II or III. However, be sure to complete the "Totals" columns for lines 29a and 29b, or lines 34a and 34b, as appropriate. If you also completed Part I on more than one Schedule E, use the same Schedule E on which you entered the combined totals in Part I.

Tax preference items. If you are a partner, a shareholder in an S

corporation, or a beneficiary of an estate or trust, you must take into account your share of preferences and adjustments from these entities for the alternative minimum tax on Form 6251 or Schedule I (Form 1041).

Part II

Income or Loss From Partnerships and S Corporations

If you are a member of a partnership or joint venture or a shareholder in an S corporation, use Part II to report your share of the partnership or S corporation income (even if not received) or loss.

Caution If you elected to be taxed as a qualified joint venture instead of a partnership, follow the reporting rules under [Qualified Joint Venture](#), earlier.

You should receive a Schedule K-1 from the partnership or S corporation. You should also receive a copy of the Partner's or Shareholder's Instructions for Schedule K-1. Your copy of Schedule K-1 and its instructions will tell you where on your return to report your share of the items. If you did not receive these instructions with your Schedule K-1, see the instructions for Form 1040 or Form 1040NR for how to get tax forms, instructions, and publications. Do not attach Schedules K-1 to your return. Keep them for your records.

If you are treating items on your tax return differently from the way the partnership (other than an electing large partnership) or S corporation reported them on its return, you may have to file Form 8082. If you are a partner in an electing large partnership, you must report the items shown on Schedule K-1 (Form 1065-B) on your tax return the same way the partnership reported the items on Schedule K-1.

Special rules that limit losses. Please note the following.

- If you have an interest in a partnership or S corporation that is involved in a farming business, your losses may be limited if the partnership accepted certain subsidies. You will be notified on the Schedule K-1 if the partnership or S corporation received one of these sub-

Domestic Partnerships

See the Schedule K-1 instructions before entering on your return other partnership items from a passive activity or income or loss from any publicly traded partnership.

You can deduct unreimbursed ordinary and necessary expenses you paid on behalf of the partnership if you were required to pay these expenses under the partnership agreement. See [Line 27](#), later, for how to report these expenses.

Report allowable interest expense paid or incurred from debt-financed acquisitions in Part II or on Schedule A depending on the type of expenditure to which the interest is allocated. See Pub. 535 for details.

If you claimed a credit for federal tax on gasoline or other fuels on your 2012 Form 1040 or Form 1040NR based on information received from the partnership, enter as income in column (g) or column (i), whichever applies, the amount of the credit claimed for 2012.

Part or all of your share of partnership income or loss from the operation of the business may be considered net earnings from self-employment that must be reported on Schedule SE. Enter the amount from Schedule K-1 (Form 1065), box 14, code A (or from Schedule K-1 (Form 1065-B), box 9 (code J1)), on Schedule SE, after you reduce this amount by any allowable expenses attributable to that income.

Foreign Partnerships

Follow the instructions below in addition to the instructions earlier for [Domestic Partnerships](#).

If you are a U.S. person, you may have received Forms 1099-B, 1099-DIV, and 1099-INT reporting your share of certain partnership income, because payors of income to the foreign partnership in most cases are required to allocate and report payments of that income directly to each of the partners of the foreign partnership. If you received both Schedule K-1 and Form 1099 for the same type and source of partnership income, report only the income shown on Schedule K-1 in accordance with its instructions.

If you are not a U.S. person, you may have received Forms 1042-S reporting

your share of certain partnership income, because payors of income to the foreign partnership in most cases are required to allocate and report payments of that income directly to each of the partners of the foreign partnership. If you received both Schedule K-1 and Form 1042-S for the same type and source of partnership income, report the income on your return as follows.

- For all income effectively connected with the conduct of a trade or business in the United States, report only the income shown on Schedule K-1 in accordance with its instructions.

- For all income **not** effectively connected with the conduct of a trade or business in the United States, report on page 4 of Form 1040NR only the income shown on Form 1042-S (if you are required to file Form 1040NR).

Requirement to file Form 8865. If you are a U.S. person, you may have to file Form 8865 if any of the following applies:

1. You controlled a foreign partnership that is, you owned more than a 50% direct or indirect interest in the partnership.
2. You owned at least a 10% direct or indirect interest in a foreign partnership while U.S. persons controlled that partnership.

3. You had an acquisition, disposition, or change in proportional interest of a foreign partnership that:
 - a. Increased your direct interest to at least 10% or reduced your direct interest of at least 10% to less than 10%, or
 - b. Changed your direct interest by at least a 10% interest.

4. You contributed property to a foreign partnership in exchange for a partnership interest if:
 - a. Immediately after the contribution, you owned, directly or indirectly, at least a 10% interest in the partnership, or
 - b. The value of the property you contributed, when added to the value of any other property you or any related person contributed to the partnership during the 12-month period ending on the date of transfer, exceeds \$100,000.

Also, you may have to file Form 8865 to report certain dispositions by a foreign partnership of property you pre-

viously contributed to that partnership if you were a partner at the time of the disposition.

For more details, including penalties for failing to file Form 8865, see Form 8865 and its separate instructions.

S Corporations

If you are a shareholder in an S corporation, your share of the corporation's aggregate losses and deductions (combined income, losses, and deductions) is in most cases limited to the adjusted basis of your corporate stock and any debt the corporation owes you. Any loss or deduction not allowed this year because of the basis limitation can be carried forward and deducted in a later year subject to the basis limitation for that year.

If you are claiming a deduction for your share of an aggregate loss, attach to your return a computation of the adjusted basis of your corporate stock of any debt the corporation owes you. See the Schedule K-1 instructions for details.

After applying the basis limitation, the deductible amount of your aggregate losses and deductions may be further reduced by the at-risk rules and the passive activity loss rules. See [At-Risk Rules](#) and [Passive Activity Loss Rules](#), earlier.

Distributions of prior year accumulated earnings and profits of S corporations are dividends and are reported on Form 1040, line 9a.

Interest expense relating to the acquisition of shares in an S corporation may be fully deductible on Schedule E. For details, see Pub. 535.

Your share of the net income of an S corporation is not subject to self-employment tax.

Line 27

If you answered "Yes" on line 27, follow the instructions below. If you fail to follow these instructions, the IRS may send you a notice of additional tax due because the amounts reported by the partnership or S corporation on Schedule K-1 do not match the amounts you reported on your tax return.

Losses Not Allowed in Prior Years Due to the At-Risk, Excess Farm Loss, or Basis Limitations

- Enter your total prior year unallowed losses that are now deductible on a separate line in column (h) of line 28. Do not combine these losses with, or net them against, any current year amounts from the partnership or S corporation.
- Enter "PYA" in column (a) of the same line.

Prior Year Unallowed Losses From a Passive Activity Not Reported on Form 8582

- Enter on a separate line in column (f) of line 28 your total prior year unallowed losses not reported on Form 8582. Such losses include prior year unallowed losses now deductible because you did not have an overall loss from all passive activities or you disposed of your entire interest in a passive activity in a fully taxable transaction. Do not combine these losses with, or net them against, any current year amounts from the partnership or S corporation.
- Enter "PYA" in column (a) of the same line.

Unreimbursed Partnership Expenses

- You can deduct unreimbursed ordinary and necessary partnership expenses you paid on behalf of the partnership on Schedule E, if you were required to pay these expenses under the partnership agreement (except amounts deductible only as itemized deductions, which you must enter on Schedule A).

- Enter unreimbursed partnership expenses from nonpassive activities on a separate line in column (h) of line 28. Do not combine these expenses with, or net them against, any other amounts from the partnership.
- If the expenses are from a passive activity and you are not required to file Form 8582, enter the expenses related to a passive activity on a separate line in column (i) of line 28. Do not combine these expenses with, or net them against, any other amounts from the partnership.
- Enter "UPE" in column (a) of the same line.

Line 28

For nonpassive income or loss (and passive income or losses for which you are not filing Form 8582), enter in the applicable column of line 28 your current year ordinary income or loss from the partnership or S corporation. Report each related item required to be reported on Schedule E (including items of income or loss stated separately on Schedule K-1) in the applicable column of a separate line following the line on which you reported the current year ordinary income or loss. Also enter a description of the related item (for example, depletion) in column (a) of the same line.

If you are required to file Form 8582, see the Instructions for Form 8582 before completing Schedule E.

Part III**Income or Loss From Estates and Trusts**

If you are a beneficiary of an estate or trust, use Part III to report your part of the income (even if not received) or loss. You should receive a Schedule K-1 (Form 1041) from the fiduciary. Your copy of Schedule K-1 and its instructions will tell you where on your return to report the items from Schedule K-1. Do not attach Schedule K-1 to your return. Keep it for your records.

If you are treating items on your tax return differently from the way the estate or trust reported them on its return, you may have to file Form 8082.

If you have estimated taxes credited to you from a trust (Form 1041, Schedule K-1, box 13, code A), enter "ES payment claimed" and the amount on the dotted line next to line 37. Do not include this amount in the total on line 37. Instead, enter the amount on Form 1040, line 63, or Form 1040NR, line 62.

A U.S. person who transferred property to a foreign trust may have to report the income received by the trust as a result of the transferred property if, during 2013, the trust had a U.S. beneficiary. See section 679. An individual who received a distribution from, or who was the grantor of or transferor to, a foreign trust must also complete Part III of

Schedule B (Form 1040A or 1040) and may have to file Form 3520. In addition, the owner of a foreign trust must ensure that the trust files an annual information return on Form 3520-A.

Part IV**Income or Loss From Real Estate Mortgage Investment Conduits (REMICs)**

If you are the holder of a residual interest in a REMIC, use Part IV to report your total share of the REMIC's taxable income or loss for each quarter included in your tax year. You should receive Schedule Q (Form 1066) and instructions from the REMIC for each quarter. Do not attach Schedule(s) Q to your return. Keep them for your records.

If you are treating REMIC items on your tax return differently from the way the REMIC reported them on its return, you may have to file Form 8082.

If you are the holder of a residual interest in more than one REMIC, attach a continuation sheet using the same format as in Part IV. Enter the combined totals of columns (d) and (e) on Schedule E, line 39. If you also completed Part I on more than one Schedule E, use the same Schedule E on which you entered the combined totals in Part I.

REMIC income or loss is not income or loss from a passive activity.

Note. If you are the holder of a regular interest in a REMIC, do not use Schedule E to report the income you received. Instead, report it on Form 1040, line 8a.

Column (c). Report the total of the amounts shown on Schedule(s) Q, line 2c. This is the smallest amount you are allowed to report as your taxable income (Form 1040, line 43). It is also the smallest amount you are allowed to report as your alternative minimum taxable income (AMTI) on Form 6251, line 28.

If the amount in column (c) is larger than your taxable income would otherwise be, enter the amount from column (c) on Form 1040, line 43. Similarly, if the amount in column (c) is larger than your AMTI would otherwise be, enter the amount from column (c) on Form

6251, line 28. Enter "Sch Q" on the dotted line to the left of this amount on Form 1040, line 43, and Form 6251, line 28, if applicable.

Note. These rules also apply to estates and trusts that hold a residual interest in a REMIC. Be sure to make the appropriate entries on the comparable lines on Form 1041.

Caution Do not include the amount shown in column (c) in the total on Schedule E, line 39.

Column (e). Report the total of the amounts shown on Schedule(s) Q, line 3b. If you itemize your deductions, include this amount on Schedule A (Form 1040), line 23.

Part V**Summary****Line 42**

You will not be charged a penalty for underpayment of estimated tax if:

1. Your gross farming or fishing income for 2012 or 2013 is at least two-thirds of your gross income, and
2. You file your 2013 tax return and pay the tax due by March 3, 2014.

Worksheet 1 — Excess farm loss from an interest in a partnership or S corporation involved in farming business(es)

In determining if you have an excess farm loss, do not take into account any deductions for losses arising by reason of fire, storm, or other casualty, or by reason of disease or drought, involving your farm business.

Note. When instructed in the worksheet below to enter an amount from line 30, 31, or 32 of Schedule E, include only the amount on that line that relates to farming businesses.

1. Enter the amount from your 2013 Schedule(s) E, line 31. If this amount is less than \$300,000 (\$150,000 if married filing separately), stop here; you do not have an excess farm loss in 2013. If more than \$300,000 (\$150,000 if married filing separately), continue to line 2.	1.	
2. Subtract \$300,000 (\$150,000 if married filing separately) from line 1.	2.	
3. Enter the amount from your 2013 Schedule(s) E, line 30.	3.	
4. Is line 3 greater than or equal to line 2? If yes, stop here; you do not have an excess farm loss in 2013. If no, continue to line 5.		
5. Enter your net gain/loss from the sale of farming business property reported on Form 4797.	5.	
6. Enter your net gain/loss from the sale of farming business property reported on Schedule D.	6.	
7. Combine line 5 and line 6. If zero or less, enter -0-	7.	
8. Add line 3 and line 7. Is this greater than or equal to line 2? If yes, stop here; you do not have an excess farm loss in 2013. If no, continue to line 9.	8.	
9. Enter the amount from your 2012 Schedule(s) E, line 32.	9.	
10. Enter your combined net gain/loss from the sale of farming business property reported on your 2012 Form 4797 and Schedule D. If zero or less, enter -0-	10.	
11. Enter the amount from your 2011 Schedule(s) E, line 32.	11.	
12. Enter your combined net gain/loss from the sale of farming business property reported on your 2011 Form 4797 and Schedule D. If zero or less, enter -0-	12.	
13. Enter the amount from your 2010 Schedule(s) E, line 32.	13.	
14. Enter your combined net gain/loss from the sale of farming business property reported on your 2010 Form 4797 and Schedule D. If zero or less, enter -0-	14.	
15. Enter the amount from your 2009 Schedule(s) E, line 32.	15.	
16. Enter your combined net gain/loss from the sale of farming business property reported on your 2009 Form 4797 and Schedule D. If zero or less, enter -0-	16.	
17. Enter the amount from your 2008 Schedule(s) E, line 32.	17.	
18. Enter your combined net gain/loss from the sale of farming business property reported on your 2008 Form 4797 and Schedule D. If zero or less, enter -0-	18.	
19. Combine lines 9 through 18. If zero or less, enter -0-	19.	
20. Enter the greater of line 19 or \$300,000 (\$150,000 if married filing separately).	20.	
21. Add line 8 and line 20.	21.	
22. Excess farm loss. Subtract line 1 from line 21. If zero or less, you have an excess farm loss that reduces the amount of loss you can deduct this year. If you have more than one farming business with an overall loss this year, allocate the excess farm loss amount on a <i>pro rata</i> basis among those farming businesses.	22.

General Instructions

Other Schedules and Forms You May Have To File

- Schedule E (Form 1040), Part I, to report rental income from pastureland based on a flat charge. However, report on Schedule F (Form 1040), line 8, pasture income received from taking care of someone else's livestock. Also use Schedule E (Form 1040), Part I, to report farm rental income and expenses of a trust or estate based on crops or livestock produced by a tenant.

- Schedule I (Form 1040) to figure your tax by averaging your farm income over the previous 3 years. Doing so may reduce your tax.

- Schedule SE (Form 1040) to pay self-employment tax on income from your farming business.

- Form 3800 to claim any general business credits.
- Form 4562 to claim depreciation (including the special allowance) on assets placed in service in 2013, to claim amortization that began in 2013, to make an election under section 179 to expense certain property, or to report information on vehicles and other listed property.

- Form 4684 to report a casualty or theft gain or loss involving farm business property, including purchased livestock held for draft, breeding, sport, or dairy purposes. See

Pub. 225 for more information on how to report various farm losses, such as losses due to death of livestock or damage to crops or other farm property.

- Form 4797 to report sales, exchanges, or involuntary conversions (other than from a casualty or theft) of certain farm property. Also use this form to report sales of livestock held for draft, breeding, sport, or dairy purposes.

- Form 4835 to report rental income based on crop or livestock shares produced by a tenant if you did not materially participate in the management or operation of a farm. This income is not subject to self-employment tax. See Pub. 225.

- Form 6198 to figure your allowable loss if you have a business loss and you have amounts invested in the business for which you are not at risk.
- Form 8582 to figure your allowable loss from passive activities.

- Form 8824 to report like-kind exchanges.
- Form 8903 to take a deduction for income from domestic production activities.

Single-member limited liability company (LLC). Generally, a single-member domestic LLC is not treated as a separate entity for federal income tax purposes. If you are the sole member of a domestic LLC engaged in the business of farming, file Schedule F (Form 1040). However, you can elect to treat a domestic LLC as a corporation. See Form 8832 for details on the election.

Heavy highway vehicle use tax. If you use certain highway trucks, truck-trailers, tractor-trailers, or buses in your farming business, you may have to pay a federal highway motor vehicle use tax. See the Instructions for Form 2290 to find out if you owe this tax and go to www.irs.gov/trucker for the latest developments.

Information returns. You may have to file information returns for wages paid to employees, certain payments of fees and other nonemployee compensation, interest, rents, royalties, real estate transactions, annuities, and pensions. For details, see [Line F](#), later, and the 2013 General Instructions for Certain Information Returns.

If you received cash of more than \$10,000 in one or more related transactions in your farming business, you may have to file Form 8300. For details, see Pub. 1544.

Reportable transaction disclosure statement. If you entered into a reportable transaction in 2013, you must file Form 8886

F-1

Cat. No. 17152R

Nov. 05, 2013

to disclose information if your federal income tax liability is affected by your participation in the transaction. You may have to pay a penalty if you are required to file Form 8886 but do not do so. You may also have to pay interest and penalties on any reportable transaction understatements. For more information on reportable transactions, see the Instructions for Form 8886.

Farm Owned and Operated By Spouses

If you and your spouse jointly own and operate a farm as an unincorporated business and share in the profits and losses, you can be taxed as a partnership and file Form 1065, or you each can file Schedule F (Form 1040) as a qualified joint venture.

Qualified Joint Venture

If you and your spouse each materially participate as the only members of a jointly owned and operated farm, and you file a joint return for the tax year, you can elect to be treated as a qualified joint venture instead of a partnership. This election in most cases will not increase the total tax owed on the joint return, but it does give each of you credit for social security earnings on which retirement benefits are based and for Medicare coverage without filing a partnership return. For an explanation of "material participation," see the instructions for Schedule C (Form 1040), line G, and [Line E](#), later, in these instructions.

Making the election. To make this election, you must divide all items of income, gain, loss, deduction, and credit attributable to the farming business between you and your spouse in accordance with your respective interests in the venture. Each of you must file a separate Schedule F (Form 1040). On each line of your separate Schedule F (Form 1040), you must enter your share of the applicable income, deduction, or loss. Each of you must also file a separate Schedule SE (Form 1040) to pay self-employment tax, as applicable.

As long as you remain qualified, your election cannot be revoked without IRS consent.

For more information on qualified joint ventures, go to IRS.gov and enter "qualified joint venture" in the search box.

Exception—Community Income

If you and your spouse wholly own an unincorporated farming business as community property under the community property laws of a state, foreign country, or U.S. possession, you can treat your wholly-owned, unincorporated business as a sole proprietorship, instead of a partnership. Any change in your reporting position will be treated as a conversion of the entity.

Report your income and deductions as follows.

- If only one spouse participates in the business, all of the income from that business is the self-employment earnings of the spouse who carried on the business.
- If both spouses participate, the income and deductions are allocated to the spouses based on their distributive shares.
- If either or both you and your spouse are partners in a partnership, see Pub. 541.
- If you and your spouse elected to treat the business as a qualifying joint venture, see [Qualified Joint Venture](#), earlier, for how to report income and deductions.

The only states with community property laws are Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, Washington, and Wisconsin.

Estimated Tax

If you had to make estimated tax payments for 2013, and you underpaid your estimated tax, you will not be charged a penalty if both of the following apply.

- Your gross farming or fishing income for 2012 or 2013 is at least two-thirds of your gross income, and
- You file your 2013 tax return and pay the tax due by March 3, 2014.

For details, see chapter 15 of Pub. 225.

Specific Instructions

Filers of Forms 1041, 1065, and 1065-B. Do not complete the block labeled "Social security number (SSN)." Instead, enter the employer identification number (EIN) issued to the estate, trust, or partnership on line D.

Line B

On line B, enter one of the 14 principal agricultural activity codes listed in Part IV on page 2 of Schedule F (Form 1040). Select the code that best describes the source of most of your income.

Line C

If you use the cash method, check the box for "Cash." Complete Schedule F (Form 1040), Parts I and II. In most cases, report income in the year in which you actually or constructively received it and deduct expenses in the year you paid them. However, if the payment of an expenditure creates an asset having a useful life that extends substantially beyond the close of the year, it may not be deductible or may be deductible only in part for the year of the payment. See chapter 2 of Pub. 225.

If you use an accrual method, check the box for "Accrual." Complete Schedule F (Form 1040), Parts II, III, and Part I, line 9. Generally, report income in the year in which you earned it and deduct expenses in the year you incurred them, even if you did not pay them in that year. Accrual basis taxpayers are put on a cash basis for deducting business expenses owed to a related cash-basis taxpayer. Other rules determine the timing of deductions based on economic performance. See Pub. 538.

Farming syndicates. Farming syndicates cannot use the cash method of accounting. A farming syndicate may be a partnership, LLC, S corporation, or any other enterprise other than a C corporation if:

- The interests in the business have at any time been offered for sale in a way that would require registration with any federal or state agency, or
- More than 35% of the losses during any tax year are allocable to limited partners or limited entrepreneurs. A limited partner is one who can lose only the amount invested or required to be invested in the partnership. A limited entrepreneur

is a person who does not take any active part in managing the business.

Line D

Enter on line D the employer identification number (EIN) that was issued to you on Form SS-4. Do not enter your SSN. Do not enter another taxpayer's EIN (for example, from any Forms 1099-MISC that you received). **If you do not have an EIN, leave line D blank.**

You need an EIN only if you have a qualified retirement plan or are required to file employment, excise, alcohol, tobacco, or firearms returns, or if you are a payer of gambling winnings. If you need an EIN, see the Instructions for Form SS-4.

Single-member LLCs. If you are a sole owner of an LLC that is not treated as a separate entity for federal income tax purposes, you may have an EIN that was issued to the LLC (and in the LLC's legal name) if you are required to file employment tax returns and certain excise tax returns. However, you should enter on line D **only the EIN issued to you and in your name as the sole proprietor of your farming business**. If you do not have such an EIN, leave line D blank. Do not enter on line D the EIN issued to the LLC.

Single-member limited liability companies (LLCs) with employees. Single-member LLCs that are disregarded as entities separate from their owner for federal tax purposes are required to file employment tax returns using the LLC's name and employer identification number (EIN) rather than the LLC owner's name and EIN. For more information, see the Instructions for Form SS-4.

Filers of Forms 1041, 1065, and 1065-B. Enter on line D the EIN issued to the estate, trust, or partnership.

Line E

Material participation. For the definition of material participation for purposes of the passive activity rules, see the instructions for Schedule C (Form 1040), line G. If you meet any of the material participation tests described in those instructions, check the "Yes" box.

If you are a retired or disabled farmer, you are treated as materially participating in a farming business if you materially participated 5 or more of the 8 years preceding your retirement or disability. Also, a surviving spouse is treated as materially participating in a farming activity if he or she actively manages the farm and the real property used for farming meets the estate tax rules for special valuation of farm property passed from a qualifying decedent.

Check the "No" box if you did not materially participate. If you checked "No" and you have a loss from this business, see [Limit on passive losses](#), next. If you have a profit from this business activity but have current year losses from other passive activities or prior year unallowed passive activity losses, see the Instructions for Form 8582.

Limit on passive losses. If you checked the "No" box and you have a loss from this business, you may have to use Form 8582 to figure your allowable loss, if any, to enter on Schedule F (Form 1040), line 34. In most cases, you can deduct losses

from passive activities only to the extent of income from passive activities. For details, see Pub. 925.

Line F

If you made any payments in 2013 that would require you to file any Forms 1099, check the "Yes" box. Otherwise, check the "No" box. See the 2013 General Instructions for Certain Information Returns if you are unsure whether you are required to file any Forms 1099. Also see the separate specific instructions for each Form 1099.

Generally, you must file Form 1099-MISC if you paid at least \$600 in rents, services, prizes, medical and health care payments, and other income payments. The Guide to Information Returns in the 2013 General Instructions for Certain Information Returns has more information, including the due dates for the various information returns.

Part I. Farm Income—Cash Method

In Part 1, show income received for items listed on lines 1 through 8. In most cases, include both the cash actually or constructively received and the fair market value of goods or other property received for these items. Income is constructively received when it is credited to your account or set aside for you to use. However, direct payments or counter-cycled payments received under the Food, Conservation, and Energy Act of 2008 are required to be included in income only in the year of actual receipt.

If you ran the farm yourself and received rents based on crop shares or farm production, report these rents as income on line 2.

Sales of livestock because of weather-related conditions. If you sold livestock because of drought, flood, or other weather-related conditions, you can elect to report the income from the sale in the year after the year of sale if all of the following apply.

- Your main business is farming.
- You can show that you sold the livestock only because of weather-related conditions.
- Your area qualified for federal aid.

See chapter 3 of Pub. 225 for details.

Chapter 11 bankruptcy. If you were a debtor in a chapter 11 bankruptcy case during 2013, see [Chapter 11 Bankruptcy Co-claims](#) in the Instructions for Form 1040 (under Income) and the Instructions for Schedule SE (Form 1040).

Forms 1099 or CCC-1099-G. If you received Forms 1099 or CCC-1099-G showing amounts paid to you, first determine if the amounts are to be included with farm income. Then use the following chart to determine where to report the income on Schedule F (Form 1040). Include the Form 1099 or CCC-1099-G amounts in the total amount reported on that line.

Part II. Farm Expenses

Do not deduct the following:

- Personal or living expenses (such as taxes, insurance, or repairs on your home) that do not produce farm income.
- Expenses of raising anything you or your family used.
- The value of animals you raised that died.
- Inventory losses.
- Personal losses.

If you were repaid for any part of an expense, you must subtract the amount you were repaid from the deduction.

Capitalizing costs of property. If you produced real or tangible personal property or acquired property for resale, certain expenses must be included in inventory costs or capitalized. These expenses include the direct costs of the property and the share of any indirect costs allocable to that property. However, these rules generally do not apply to expenses of:

1. Producing any plant that has a preproductive period of 2 years or less,
2. Raising animals, or
3. Replanting certain crops if they were lost or damaged by reason of freezing temperatures, disease, drought, pests, or casualty.

Exceptions (1) and (2) do not apply to tax shelters, farming syndicates, partnerships, or corporations required to use the accrual method of accounting under section 447 or 448(a)(3).

If you capitalize your expenses, do not reduce your deductions on lines 10 through 32e by the capitalized expenses. Instead, enter the total amount capitalized in parentheses on line 32f (to indicate a negative amount) and enter "363A" in the space to the left of the total. See [Preproductive period expenses](#), later, for details.

But you may be able to currently deduct rather than capitalize the expenses of producing a plant with a preproductive period of more than 2 years. See [Election to deduct certain preproductive period expenses](#), next.

Election to deduct certain preproductive period expenses. If the preproductive period of any plant you produce is more than 2 years, you can elect to currently deduct the expenses rather than capitalize them. But you cannot make this election for the costs of planting or growing citrus or almond groves incurred before the end of the fourth tax year beginning with the tax year you planted them in their permanent grove. You are treated as having made the election by deducting the preproductive period expenses in the first tax year for which you can make this election and by applying the special rules, discussed later.

In the case of a partnership or S corporation, the election must be made by the partner, shareholder, or member. This election cannot be made by tax shelters, farming syndicates, partnerships, or corporations required to use the accrual method of accounting under section 447 or 448(a)(3).

Enter on line 6d the amount, if any, of crop insurance proceeds you received in 2012 and elected to include in income for 2013.

Line 8

Enter on line 8 income not otherwise reportable on lines 1 through 7. This includes the following types of income.

- Illegal federal irrigation subsidies. See chapter 3 of Pub. 225.
- Bartering income.
- Income from cancellation of debt. In most cases, if a debt is canceled or forgiven, you must include the canceled amount in income. If a federal agency, financial institution, or credit union canceled or forgave a debt you owed of \$600 or more, it should send you a Form 1099-C, or similar statement, by January 31, 2014, showing the amount of debt canceled in 2013. However, you may be able to exclude the canceled debt from income. See Pub. 4681 for details.
- State gasoline or fuel tax refunds you received in 2013.
- The amount of credit for biofuel claimed on line 2 of Form 6478.
- The amount of credit for biodiesel and renewable diesel fuels claimed on line 8 of Form 8864.
- The amount of credit for federal tax paid on fuels claimed on your 2012 Form 1040. For information on including the credit in income, see chapter 2 of Pub. 510.
- Any recapture of excess depreciation on any listed property, including any section 179 expense deduction, if the business use percentage of that property decreased to 50% or less in 2013. Use Part IV of Form 4797 to figure the recapture. See the instructions for Schedule C (Form 1040), line 13, for the definition of listed property.
- The inclusion amount on leased listed property (other than vehicles) when the business use percentage drops to 50% or less. See chapter 5 of Pub. 946 to figure the amount.
- Any recapture of the deduction or credit for clean-fuel vehicle refueling property or alternative fuel vehicle refueling property used in your farming business. For details on how to figure recapture, see Regulations section 1.179A-1.
- Any income from breeding fees, or fees from renting teams, machinery, or land that is not reported on Schedule E (Form 1040) or Form 4835.
- The gain or loss on the sale of commodity futures contracts if the contracts were made to protect you from price changes. These are a form of business insurance and are considered hedges. If you had a loss in a closed futures contract, enclose the amount of the loss in parentheses.

For property acquired and hedging positions established, you must clearly identify on your books and records both the hedging transaction and the item(s) or aggregate risk being hedged.

Purchase or sales contracts are not true hedges if they offset losses that already occurred. If you bought or sold commodity futures with the hope of making a profit due to favorable price changes, report the profit or loss on Form 6781 instead of this line.

results from redemption of the commodity because you previously reported the CCC loan proceeds as income. You are treated as repurchasing the commodity for the amount of the loan repayment. However, if you did not report the CCC loan proceeds under the election, you must report the market gain on line 4b.

If you received a direct or counter-cyclical payment in 2013, your farm losses may be reduced. See [Excess farm loss rules](#) in Line 35, later, for more details.

Lines 5a Through 5c

Commodity Credit Corporation (CCC) loans. In most cases, you do not report CCC loan proceeds as income. However, if you pledge part or all of your production to secure a CCC loan, you can elect to report the loan proceeds as income in the year you receive them. If you make this election (or made the election in a prior year), report loan proceeds you received in 2013 on line 5a. Attach a statement to your return showing the details of the loan(s). See chapter 3 of Pub. 225.

Forfeited CCC loans. Include the full amount forfeited on line 5b, even if you reported the loan proceeds as income. This amount may be reported to you on Form 1099-A.

If you did not elect to report the loan proceeds as income, also include the forfeited amount on line 5c.

If you did elect to report the loan proceeds as income, you generally will not have an entry on line 5c. But if the amount forfeited is different from your basis in the commodity, you may have an entry on line 5c.

See chapter 3 of Pub. 225 for details on the tax consequences of electing to report CCC loan proceeds as income or forfeiting CCC loans.

If you received a CCC loan in 2013, your farm losses may be reduced. See [Excess farm loss rules](#) in Line 35, later, for more details.

Lines 6a Through 6d

In most cases, you must report crop insurance proceeds in the year you receive them. Federal crop disaster payments are treated as crop insurance proceeds. However, if 2013 was the year of damage, you can elect to include certain proceeds in income for 2014. To make this election, check the box on line 6c and attach a statement to your return. See chapter 3 of Pub. 225 for a description of the proceeds for which an election can be made and for what you must include in your statement.

If you elect to defer any eligible crop insurance proceeds, you must defer all such crop insurance proceeds (including federal crop disaster payments) from a single trade or business.

Enter on line 6a the total crop insurance proceeds you received in 2013, even if you elect to include them in income for 2014.

Enter on line 6b the taxable amount of the proceeds you received in 2013. Do not include proceeds you elect to include in income for 2014.

Form	Where to report
1099-PATR	Line 3a
1099-A	Line 5b
1099-MISC for crop insurance	Line 6a
1099-G or CCC-1099-G	Line 6a
• for disaster payments	Line 6a
• for other agricultural program payments	Line 4a

You may receive Form 1099-MISC for other types of income. In this case, report it on whichever line best describes the income. For example, if you receive a Form 1099-MISC for custom farming work, include this amount on line 7.

Lines 3a and 3b

If you received distributions from a cooperative in 2013, you should receive a Form 1099-PATR. On line 3a, show your total distributions from cooperatives. This includes patronage dividends, nonpatronage distributions, per-unit retain allocations, and redemptions of nonqualified written notices of allocation and per-unit retain certificates.

Show patronage dividends received in cash and the dollar amount of qualified written notices of allocation. If you received property as patronage dividends, report the fair market value of the property as income. Include cash advances received from a marketing cooperative. If you received per-unit retains in cash, show the amount of cash. If you received qualified per-unit retain certificates, show the stated dollar amount of the certificates.

Do not include as income on line 3b patronage dividends from buying personal or family items, capital assets, or depreciable assets. Enter these amounts on line 3a only. Because you do not report patronage dividends from these items as income, you must subtract the amount of the dividend from the cost or other basis of these items.

Lines 4a and 4b

Enter on line 4a the total of the following amounts.

- Direct payments.
- Counter-cyclical payments.
- Price support payments.
- Market gain from the repayment of a secured Commodity Credit Corporation (CCC) loan for less than the original loan amount.
- Diversion payments.
- Cost-share payments (sight drafts).
- Payments in the form of materials (such as fertilizer or lime) or services (such as grading or building dams).

These amounts are government payments you received and are usually reported to you on Form 1099-G. You may also receive Form CCC-1099-G from the Department of Agriculture showing the amounts and types of payments made to you.

On line 4b, report only the taxable amount. For example, do not report the market gain shown on Form CCC-1099-G on line 4b if you elected to report CCC loan proceeds as income in the year received (see [Lines 5a Through 5c](#), next). No gain re-

Prepaid farm supplies include expenses for feed, seed, fertilizer, and similar farm supplies not used or consumed during the year.</p> <p>They also include the cost of poultry that would be allowable as a deduction in a later tax year if you were to:</p> <ol style="list-style-type: none"> Capitalize the cost of poultry bought for use in your farming business and deduct it ratably over the lesser of 12 months or the useful life of the poultry, and Deduct the cost of poultry bought for resale in the year you sell or otherwise dispose of it. <p>If the limit applies, you can deduct prepaid farm supplies that do not exceed 50% of your other deductible farm expenses in the year of payment. You can deduct the excess only in the year you use or consume the supplies (other than poultry, which is deductible as explained above). For details and exceptions to these rules, see chapter 4 of Pub. 225.</p> <p>Whether or not this 50% limit applies, your expenses for livestock feed paid during the year but consumed in a later year may be subject to the rules explained in the line 16 instructions.</p>	<p>Do not deduct depreciation, rent or lease payments, or your actual operating expenses.</p> <p>If you deduct actual expenses:</p> <ul style="list-style-type: none"> Include on line 10 the business portion of expenses for gasoline, oil, repairs, insurance, license plates, etc., and Show depreciation on line 14 and rent or lease payments on line 24a. <p>If you claim any car or truck expenses (actual or the standard mileage rate), you must provide the information requested on Form 4562, Part V. Be sure to attach Form 4562 to your return.</p> <p>For details, see chapter 4 of Pub. 463.</p>	<p>Line 11</p> <p>Do not include amounts paid for rental or lease of equipment you operated yourself. Instead, report those amounts on line 24a.</p> <p>Line 14</p> <p>You can deduct depreciation of buildings, improvements, cars and trucks, machinery, and other farm equipment of a permanent nature.</p> <p>Do not deduct depreciation on your home, furniture or other personal items, land, livestock you bought or raised for resale, or other property in your inventory.</p> <p>You can also elect under section 179 to expense a portion of the cost of certain property you bought in 2013 for use in your farming business. The section 179 election is made on Form 4562.</p> <p>For information about depreciation and the section 179 deduction, see Pub. 946 and chapter 7 of Pub. 225. For details on the special depreciation allowance, see chapter 3 of Pub. 946.</p> <p>See the Instructions for Form 4562 for information on when you must complete and attach Form 4562.</p> <p>Line 15</p> <p>Deduct contributions to employee benefit programs that are not an incidental part of a pension or profit-sharing plan included on line 23. Examples are accident and health plans, group-term life insurance, and dependent care assistance programs. If you made contributions on your behalf as a self-employed person to a dependent care assistance program, complete Form 2441, Parts I and III, to figure your deductible contributions to that program.</p> <p>Contributions you made on your behalf as a self-employed person to an accident and health plan or for group-term life insurance are not deductible on Schedule F (Form 1040). However, you may be able to deduct on Form 1040, line 29 (or on Form 1040NR, line 29), the amount you paid for health insurance on behalf of yourself, your spouse, and dependent(s) even if you do not itemize your deductions. See the instructions for Form 1040, line 29, or Form 1040NR, line 29, for details.</p> <p>You must reduce your line 15 deduction by the amount of any credit for small employer health insurance premiums determined on Form 8941. See Form 8941 and its instructions to determine which expenses are eligible for the credit.</p>	<p>Line 12</p> <p>Deductible conservation expenses generally are those that are paid to conserve soil and water for land used in farming, to prevent erosion of land used for farming, or for endangered species recovery. These expenses include (but are not limited to) costs for the following:</p> <ul style="list-style-type: none"> The treatment or movement of earth, such as leveling, grading, conditioning, terracing, contour furrowing, and the restoration of soil fertility. The construction, control, and protection of diversion channels, drainage ditches, irrigation ditches, earthen dams, watercourses, outlets, and ponds. The eradication of brush. The planting of windbreaks. The achievement of site-specific management actions recommended in recovery plans approved pursuant to the Endangered Species Act of 1973. <p>These expenses can be deducted only if they are consistent with a conservation plan approved by the Natural Resources Conservation Service of the Department of Agriculture or a recovery plan approved pursuant to the Endangered Species Act of 1973, for the area in which your land is located. If no plan exists, the expenses must be consistent with a plan of a comparable state agency. You cannot deduct the expenses if they were paid or incurred for land used in farming in a foreign country.</p> <p>Do not deduct expenses you paid or incurred to drain or fill wetlands, or to prepare land for center pivot irrigation systems.</p> <p>Your deduction cannot exceed 25% of your gross income from farming (excluding certain gains from selling assets such as farm machinery and land). If your conservation expenses are more than the limit, the excess can be carried forward and deducted in later tax years. However, the amount deductible for any one year cannot exceed the 25% gross income limit for that year.</p> <p>For details, see chapter 5 of Pub. 225.</p>	<p>Lines 21a and 21b</p> <p>Interest allocation rules. The tax treatment of interest expense differs depending on its type. For example, home mortgage interest and investment interest are treated differently. "Interest allocation" rules require you to allocate (classify) your interest expense so it is deducted (or capitalized) on the correct line of your return and receives the right tax treatment. These rules could affect how much interest you are allowed to deduct on Schedule F (Form 1040).</p> <p>In most cases, you allocate interest expense by tracing how the proceeds of the loan are used. See chapter 4 of Pub. 535 for details.</p> <p>If you paid interest on a debt secured by your main home and any of the proceeds from that debt were used in your farming business, see chapter 4 of Pub. 535 to figure the amount to include on lines 21a and 21b.</p> <p>How to report. If you have a mortgage on real property used in your farming business (other than your main home), enter on line 21a the interest you paid for 2013 to banks or other financial institutions for which you received a Form 1098 (or similar statement). If you did not receive a Form 1098, enter the interest on line 21b.</p> <p>If you paid more mortgage interest than is shown on Form 1098, see chapter 4 of Pub. 535 to find out if you can deduct the additional interest. If you can, include the amount on line 21a. Attach a statement to your return explaining the difference and enter "See attached" in the margin next to line 21a.</p> <p>If you and at least one other person (other than your spouse if you file a joint return) were liable for and paid interest on the mortgage and the other person received the Form 1098, include your share of the interest on line 21b. Attach a statement to your return showing the name and address of the person who received the Form 1098. In the margin next to line 21b, enter "See attached."</p> <p>Do not deduct interest you prepaid in 2013 for later years; include only the part that applies to 2013.</p>	<p>Line 16</p> <p>If you use the cash method, you cannot deduct when paid the cost of feed your livestock will consume in a later year unless all of the following apply:</p> <ul style="list-style-type: none"> The payment was for the purchase of feed rather than a deposit. The prepayment had a business purpose and was not made merely to avoid tax. Deducting the prepayment will not materially distort your income. <p>If all of the above apply, you can deduct the prepaid feed when paid, subject to the overall limit for Prepaid farm supplies.</p>	<p>Line 18</p> <p>Do not include the cost of transportation incurred in purchasing livestock held for resale as freight paid. Instead, add these costs to the cost of the livestock.</p> <p>Line 20</p> <p>Deduct on this line premiums paid for farm business insurance. Deduct on line 15 amounts paid for employee accident and health insurance. Amounts credited to a reserve for self-insurance or premiums paid for a policy that pays for your lost earnings due to sickness or disability are not deductible. For details, see chapter 6 of Pub. 535.</p>	<p>Line 13</p> <p>Enter amounts paid for custom hire or machine work (the machine operator furnished the equipment).</p>

Line 22

Enter the amounts you paid for farm labor. Do not include amounts paid to yourself. Reduce your deduction by the amounts claimed on:

- Form 5884, Work Opportunity Credit, line 2;
- Form 8844, Empowerment Zone Employment Credit, line 2;
- Form 8845, Indian Employment Credit, line 4; and
- Form 8932, Credit for Employer Differential Wage Payments, line 2.

Include the cost of boarding farm labor but not the value of any products they used from the farm. Include only what you paid household help to care for farm laborers.

If you provided taxable fringe benefits to your employees, such as personal use of a car, do not include in farm labor the amounts you depreciated or deducted elsewhere.

Line 23

Enter your deduction for contributions to employee pension, profit-sharing, or annuity plans. If the plan included you as a self-employed person, enter contributions made as an employer on your behalf on Form 1040, line 28 (or on Form 1040NR, line 28), not on Schedule F (Form 1040).

In most cases, you must file the applicable form listed next if you maintain a pension, profit-sharing, or other funded-deferred compensation plan. The filing requirement is not affected by whether or not the plan qualified under the Internal Revenue Code, or whether or not you claim a deduction for the current tax year. There is a penalty for failure to timely file these forms.

Form 5500-EZ. File this form if you have a one-participant retirement plan that meets certain requirements. A one-participant plan is a plan that covers only you (or you and your spouse).

Form 5500-SF. File this form electronically with the Department of Labor (at www.dol.gov) if you have a small plan (fewer than 100 participants in most cases) that meets certain requirements.

Form 5500. File this form electronically with the Department of Labor (at www.dol.gov) for a plan that does not meet the requirements for filing Form 5500-EZ or Form 5500-SF.

For details, see Pub. 560.

Lines 24a and 24b

If you rented or leased vehicles, machinery, or equipment, enter on line 24a the business portion of your rental cost. But if you leased a vehicle for a term of 30 days or more, you may have to reduce your deduction by an inclusion amount. See *Leasing a Car* in chapter 4 of Pub. 463 to figure this amount.

Enter on line 24b amounts paid to rent or lease other property such as pasture or farmland.

Line 25

Enter amounts you paid for incidental repairs and maintenance of farm buildings, machinery, and equipment that do not add to the property's value or appreciably prolong its life.

Do not deduct repairs or maintenance on your home.

Line 29

You can deduct the following taxes on this line.

- Real estate and personal property taxes on farm business assets.
- Social security and Medicare taxes you paid to match what you are required to withhold from farm employees' wages.
- Federal unemployment tax.
- Federal highway use tax.
- Contributions to state unemployment insurance fund or disability benefit fund if they are considered taxes under state law.

Do not deduct the following taxes on this line:

- Federal income taxes, including your self-employment tax. However, you can deduct one-half of self-employment tax on Form 1040, line 27 or Form 1040NR, line 27.
- Estate and gift taxes.
- Taxes assessed for improvements, such as paving and sewers.
- Taxes on your home or personal use property.
- State and local sales taxes on property purchased for use in your farming business. Instead, treat these taxes as part of the cost of the property.
- Other taxes not related to your farming business.

Line 30

Enter amounts you paid for gas, electricity, water, and other utilities for business use on the farm. Do not include personal utilities. You cannot deduct the base rate (including taxes) of the first telephone line into your residence, even if you use it for your farming business. But you can deduct expenses you paid for your farming business that are more than the cost of the base rate for the first phone line. For example, if you had a second phone line, you can deduct the business percentage of the charges for that line, including the base rate charges.

Lines 32a Through 32f

Include all ordinary and necessary farm expenses not deducted elsewhere on Schedule F (Form 1040), such as advertising, office supplies, etc. Do not include fines or penalties paid to a government for violating any law.

At-risk loss deduction. Any loss from this activity that was not allowed last year because of the at-risk rules is treated as a deduction allocable to this activity in 2013.

Bad debts. See chapter 10 of Pub. 535.

Business start-up costs. If your farming business began in 2013, you can elect to deduct up to \$5,000 of certain business start-up costs. The \$5,000 limit is reduced (but not below zero)

by the amount by which your start-up costs exceed \$50,000. Your remaining start-up costs can be amortized over a 180-month period, beginning with the month the farming business began. For details, see chapters 4 and 7 of Pub. 225. For amortization that begins in 2013, you must complete and attach Form 4562.

Business use of your home. You may be able to deduct certain expenses for business use of your home, subject to limitations. You may also be able to use a simplified method to figure your deduction. Use the appropriate worksheets in Pub. 587 to figure your allowable deduction. Do not use Form 8829.

Excess farm loss deduction. Any loss from this activity that was not allowed last year because of the excess farm loss rules is treated as a deduction allocable to this activity in 2013.

Forestation and reforestation costs. Reforestation costs are generally capital expenditures. However, for each qualified timber property, you can elect to expense up to \$10,000 (\$5,000 if married filing separately) of qualifying reforestation costs paid or incurred in 2013.

You can elect to amortize the remaining costs over 84 months. For amortization that begins in 2013, you must complete and attach Form 4562.

The amortization election does not apply to trusts, and the expense election does not apply to estates and trusts. For details on reforestation expenses, see chapters 4 and 7 of Pub. 225.

Legal and professional fees. You can include on this line fees charged by accountants and attorneys that are ordinary and necessary expenses directly related to your farming business. Include fees for tax advice and for the preparation of tax forms related to your farming business. Also include expenses incurred in resolving asserted tax deficiencies related to your farming business.

Tools. You can deduct the amount you paid for tools that have a short life or cost a small amount, such as shovels and rakes.

Travel, meals, and entertainment. In most cases, you can deduct expenses for farm business travel and 50% of your business meals and entertainment. But there are exceptions and limitations. See the instructions for Schedule C (Form 1040), lines 24a and 24b.

Preproductive period expenses. If you had preproductive period expenses in 2013 that you are capitalizing, enter the total of these expenses in parentheses on line 32f (to indicate a negative amount) and enter "263A" in the space to the left of the total.

For details, see *Capitalizing costs of property*, earlier, and *Uniform Capitalization Rules* in chapter 6 of Pub. 225.

Line 33

If line 32f is a negative amount, subtract it from the total of lines 10 through 32e. Enter the result on line 33.

Line 34

Figuring your net profit or allowable loss. If line 33 is more than line 9, do not enter your loss on line 34 until you have applied the excess farm loss rules, the at-risk rules, and the passive activity loss rules. To apply these rules, follow the instructions for lines 35 and 36, and the Instructions for Form 8582. After applying these rules, the amount on line 34 will be your allowable loss, and it may be smaller than the amount figured by subtracting line 33 from line 9.

If line 9 is more than line 33, and you do not have prior year unallowed passive activity losses, subtract line 33 from line 9. The result is your net profit.

If line 9 is more than line 33, and you have prior year unallowed passive activity losses, do not enter your net profit on line 34 until you have figured the amount of prior year unallowed passive activity losses you may claim this year for this activity. Use Form 8582 to figure the amount of prior year unallowed passive activity losses you may include on line 34. Make sure to indicate that you are including prior year passive activity losses by entering "PAL" to the left of the entry space.

If you checked the "No" box on line E, see the Instructions for Form 8582; you may need to include information from this schedule on that form, even if you have a net profit.

Partnerships. Subtract line 33 from line 9. If the amount is a loss, the partners may need to apply the excess farm loss rules, the at-risk rules, and the passive activity loss rules to determine the amount of their allowable loss.

Reporting your net profit or allowable loss. Once you have figured your net profit or allowable loss, report it as follows.

Individuals. Enter your net profit or allowable loss on line 34 and on Form 1040, line 18, and Schedule SE (Form 1040), line 1a.

Nonresident aliens. Enter the net profit or allowable loss on line 34 and on Form 1040NR, line 19. You should also enter this amount on Schedule SE (Form 1040), line 1a if you are covered under the U.S. social security system due to an international social security agreement currently in effect. See the Instructions for Schedule SE (Form 1040) for information on international social security agreements.

Partnerships. Enter the net profit or loss on line 34 and on Form 1065, line 5 (or Form 1065-B, line 7). Because the excess farm loss rules are applied at the partner level, the partnership will notify each partner on the Schedule K-1 if the partnership received one of the subsidies discussed later. Each partner should complete one of the excess farm loss worksheets to determine if there is an excess farm loss.

Trusts and estates. Enter the net profit or allowable loss on line 34 and on Form 1041, line 6.

Community income. If you and your spouse had community income and are filing separate returns, see the Instructions for Schedule SE (Form 1040) before figuring self-employment tax.

Earned income credit. If you have a net profit on line 34, this amount is earned income and may qualify you for the earned

- Any interest in a partnership or S corporation involved in a farming business.

Figuring your excess farm loss. To figure your excess farm loss, you can use one of the excess farm loss worksheets, later. You may need to adjust your income or deductions before figuring your excess farm loss.

If you file multiple copies of Schedule F (Form 1040), Schedule C (Form 1040), or Schedule E (Form 1040) as part of your farming businesses, you must combine the income, deductions, and net gain/loss for purposes of determining whether you have an excess farm loss on the worksheets. If you sold any property used in your farming businesses, you must include any gain or loss on the sale of that property (reported on Form 4797, Sales of Business Property, or Schedule D (Form 1040), Capital Gains and Losses). Be sure to include the gain or loss attributable to property used in your **farming business** (defined earlier). Do not include gain or loss attributable to property used in nonfarming businesses or nonbusiness property.

Activities reported on other forms. Because your farming business includes any trade or business of processing a farm commodity that is not incidental to your farm, you may have farming business activities that are reported on Schedule C (Form 1040) that you must also include when figuring your excess farm loss. Any losses from a farming business activity reported on Schedule C (Form 1040) may be limited by the excess farm loss rules.

Because your farming business includes your interest in a partnership or S corporation, you may have farming business activities that are reported on Schedule E (Form 1040) that you must also include when figuring your excess farm loss. Any losses from a farming business activity reported on Schedule E (Form 1040) may be limited by the excess farm loss rules.

Other deductions that must be included. Certain deductions, including the domestic production activities deduction under section 199 and the deduction for one-half of self-employment tax, may need to be included when determining your excess farm loss if the deductions are attributable to your **farming business** (defined earlier).

In particular, the deduction for one-half of self-employment tax will not be attributable to your farming business on Schedule F (Form 1040) or your business of processing a farm commodity on Schedule C (Form 1040) if the combined amounts on those schedules produce a loss. But the deduction for one-half of self-employment tax should be taken into account when the combined amounts on those schedules produce income (or the farm optional method on Schedule SE (Form 1040) is used) and there is a large loss on Schedule E (Form 1040) passed through from a partnership or S corporation.

Deductions that are not included. Any deduction for losses arising from fire, storm, or other casualty, or from disease or drought involving any farming business should not be included when determining your excess farm loss.

Coordination with at-risk and passive activity loss rules. You must calculate and apply your excess farm loss before calculating any limits due to the at-risk rules or the passive activity loss rules.

income credit if you meet certain conditions. See the instructions for Form 1040, lines 64a and 64b, for details.

Conservation Reserve Program (CRP) payments. If you received social security retirement or disability benefits in addition to CRP payments, the CRP payments are not subject to self-employment tax. You will deduct these payments from your net farm profit or loss on Schedule SE (Form 1040), line 1b. Do not make any adjustment on Schedule F (Form 1040).

Line 35

Answer line 35 with respect to your **farming business** (defined later), and not just for the farming activities reported on this Schedule F. You may also have reported farming activities on another Schedule F or on Form 4835.

Check the "Yes" box if you received one of the following subsidies in 2013.

- Any direct or counter-cyclical payments under title I of the Food, Conservation, and Energy Act of 2008 (or any payment you elected instead of this payment).
- Any Commodity Credit Corporation loan.

You are considered to have received one of these subsidies in 2013 if you are a partner or shareholder in a partnership or S corporation that received one of these subsidies during 2013. Check the "No" box if you did not receive one of these subsidies in 2013.

If you checked the "Yes" box, your farm loss may be reduced. You must apply the excess farm loss rules, discussed next.

TIP If you checked the "No" box, you do not have excess farm loss.

Excess farm loss rules. If you received one of the subsidies listed above, part of your loss may be excess farm loss. Excess farm loss is not an allowable loss. Instead, excess farm loss is carried forward to the next year and treated as a deduction.

Your excess farm loss for a year is the amount by which your total deductions from your farming businesses exceed your total gross income or gain from your farming businesses, plus a threshold amount. The threshold amount is the greater of \$300,000 (\$150,000 if your filing status is married filing separately) or your total net profit or loss from farming businesses for the last five years (2008-2012), including for each of those years any net gain from the sale of property used in your farming businesses.

Farming business defined. A farming business generally is the trade or business of farming, including operating a nursery or sod farm or raising or harvesting of trees bearing fruit, nuts, or other crops, or ornamental trees, such as evergreen trees, if they are cut within the first 6 years.

For purposes of calculating your excess farm loss for the year, a farm business also includes the following.

- A trade or business of processing a farm commodity, even if it is not incidental to your farm.
- Participating in a cooperative that processes a farm commodity.

Excess farm loss worksheets. You may complete one of these worksheets to determine if you have an excess farm loss in 2013. Do not attach these worksheets to your return; keep them for your records. You will need them next year when any excess farm loss may be deducted. Which worksheet you should use depends on the nature and extent of your farming business.

- Use **Worksheet 1** if your farming businesses include only profit or loss reported on one or more Schedules F (Form 1040).
- Use **Worksheet 2** if your farming businesses include Schedule F (Form 1040) and any Schedule C (Form 1040) activity of processing a farm commodity.
- Use **Worksheet 3** if your farming businesses include Schedule F (Form 1040) and a Schedule E (Form 1040) interest in a partnership or S corporation involved in a farming business.
- Use **Worksheet 4** if your farming businesses include Schedule F (Form 1040), Schedule C (Form 1040) activity of processing a farm commodity, a Schedule E (Form 1040) interest in a partnership or S corporation involved in a farming business, and farm rental income or loss reported on Form 4835.
- Use **Worksheet 5** if your farming business is limited to only farm rental income or loss reported on Form 4835.

Applying your excess farm loss. You must reduce your loss by the amount of your excess farm loss. Subtract line 33 from line 9 and reduce the number by your excess farm loss. Complete line 36 before entering an amount on line 34.

Example. Subtracting line 33 from line 9 results in (\$400,000). You have only one farming business and use Worksheet 1 to figure an excess farm loss of (\$100,000). Your allowable loss is reduced to (\$300,000). This will be the amount you enter on line 34 unless the at-risk or passive activity loss rules reduce it further.

Any loss from this activity not allowed for 2013 because of the excess farm loss rules is treated as a deduction allocable to the activity in 2014.

At-risk and passive activity loss rules. Use your loss reduced by the excess farm loss to calculate any further limitations due to the at-risk rules or passive activity loss rules.

More than one farming business. If you have more than one farming business with a loss this year, allocate the excess farm loss amount on a pro rata basis among those farming businesses. If you have more than one farming business, but only one has a loss, allocate all of the excess farm loss to the farming business with the loss. Do not allocate excess farm loss to a farming business that has a net profit.

Line 36

TIP You do not need to complete line 36 if line 9 is more than line 33.

At-risk rules. In most cases, if you have a loss from a farming activity and amounts invested in the activity for which you are not at risk, you must complete Form 6198 to figure your allowable loss. The at-risk rules generally limit the amount of loss

(including loss on the disposition of assets) you can claim to the amount you could actually lose in the activity.

Check box 36b if you have amounts invested in this activity which you are not at risk, such as the following.

- Nonrecourse loans used to finance the activity, to acquire property used in the activity, or to acquire the activity that are not secured by your own property (other than property used in the activity). However, there is an exception for certain nonrecourse financing borrowed by you in connection with holding real property.

- Cash property, or borrowed amounts used in the activity (or contributed to the activity, or used to acquire the activity) that are protected against loss by a guarantee, stop-loss agreement, or other similar arrangement (excluding casualty insurance and insurance against tort liability).

- Amounts borrowed for use in the activity from a person who has an interest in the activity, other than as a creditor, or who is related under section 465(b)(3)(C) to a person (other than you) having such an interest.

Figuring your allowable loss. Before determining your allowable loss, you must check box 36a or 36b to determine if your loss from farming is limited by the at-risk rules. Follow the instructions below that apply to your box 36 activity.

All investment is at risk. If all your investment amounts are at risk in this activity, check box 36a. If you also checked the "Yes" box on line E, your remaining loss (after applying the excess farm loss rules) is your allowable loss. The at-risk rules and the passive activity loss rules do not apply. See **Line 34**, earlier, for how to report your allowable loss.

But if you checked the "No" box on line E, you may need to complete Form 8582 to figure your allowable loss to enter on line 34. See the Instructions for Form 8582.

Some investment is not at risk. If some investment is not at risk, check box 36b; the at-risk rules apply to your loss. Be sure to attach Form 6198 to your return.

If you also checked the "Yes" box on line E, complete Form 6198 to determine the amount of your allowable loss. The passive activity loss rules do not apply. See **Line 34**, earlier, for how to report your allowable loss.

But if you checked the "No" box on line E, the passive activity loss rules may apply. First complete Form 6198 to figure the amount of your profit or loss for the at-risk activity, which may include amounts reported on other forms and schedules, and the at-risk amount for the activity. Follow the instructions and the Form 6198 to determine how much of your Schedule F loss will be allowed. After you figure the amount of your loss that is allowed under the at-risk rules, you may need to complete Form 8582 to figure the allowable loss to enter on line 34. See the Instructions for Form 8582 for details.

CAUTION If you checked box 36b because some investment is not at risk and you do not attach Form 6198, the processing of your return may be delayed.

At-risk loss deduction. Any loss from this activity not allowed for 2013 only because of the at-risk rules is treated as a deduction allocable to the activity in 2014.

More information. For details, see Pub. 925 and the Instructions for Form 6198.

Part III. Farm Income—Accrual Method

You may be required to use the accrual accounting method. If you use the accrual method, report farm income when you earn it, not when you receive it. In most cases, you must include animals and crops in your inventory if you use this method. See Pub. 225 for exceptions, inventory methods, how to change methods of accounting, and rules that require certain costs to be capitalized or included in inventory. For information about accounting periods, see Pub. 538, Accounting Periods and Methods.

Chapter 11 bankruptcy. If you were a debtor in a chapter 11 bankruptcy case during 2013, see *Chapter 11 Bankruptcy Cases* in the Instructions for Form 1040 (under *Income*) and the Instructions for Schedule SE (Form 1040).

Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the

2013 Instructions for Schedule R (Form 1040A or 1040)

Credit for the Elderly or the Disabled

Use Schedule R (Form 1040A or 1040) to figure the credit for the elderly or the disabled.

Future Developments. For the latest information about developments related to Schedule R (Form 1040A or Form 1040) and its instructions, such as legislation enacted after they were published, go to www.irs.gov/schedule.

Additional information. See Pub. 524 for more details.

Who Can Take the Credit

The credit is based on your filing status, age, and income. If you are married filing a joint return, it is also based on your spouse's age and income. You may be able to take this credit if either of the following applies.

1. You were age 65 or older at the end of 2013, or
2. You were under age 65 at the end of 2013 and you meet all of the following.
 - a. You were permanently and totally disabled on the date you retired. If you retired before 1977, you must have been permanently and totally disabled on January 1, 1976, or January 1, 1977.
 - b. You received taxable disability income for 2013.
 - c. On January 1, 2013, you had not reached mandatory retirement age (the age when your employer's retirement program would have required you to retire).

For the definition of permanent and total disability, see [What Is Permanent and Total Disability?](#). Later, also, see the instructions for [Part II, Statement of Permanent and Total Disability](#).

Age 65

You are considered age 65 on the day before your 65th birthday. As a result, if you were born on January 1, 1949, you are considered to be age 65 at the end of 2013.

Married Persons Filing Separate Returns

If your filing status is married filing separately and you lived with your spouse at any time during 2013, you cannot take the credit.

Nonresident Aliens

If you were a nonresident alien at any time during 2013, you may be able to take the credit only if your filing status is married filing jointly.

Income Limits

See [Income Limits for the Credit for the Elderly or the Disabled](#), later.

Want the IRS To Figure Your Credit?

If you can take the credit and you want us to figure it for you, check the box in Part I of Schedule R (Form 1040A or 1040) for your filing status and age. Fill in Part II and lines 11 and 13 of Part III if they apply to you. If you file Form 1040A, enter "CFE" in the space to the left of Form 1040A, line 30. If you file Form 1040, check box c on Form 1040, line 53, and enter "CFE" on the line next to that box. Attach Schedule R (Form 1040A or 1040) to your return.

What Is Permanent and Total Disability?

Disability?

A person is permanently and totally disabled if both 1 and 2 below apply.

1. He or she cannot engage in any substantial gainful activity because of a physical or mental condition.
2. A qualified physician determines that the condition has lasted or can be expected to last continuously for at least a year or can lead to death.

Examples 1 and 2, next, show situations in which the individuals are considered engaged in a substantial gainful activity. Example 3 shows a person who might not be considered engaged in a substantial gainful activity. In each example, the person was under age 65 at the end of the year.

Income Limits for the Credit for the Elderly or the Disabled

IF you are . . .	THEN you generally cannot take the credit if:
Single, head of household, or qualifying widow(er) with dependent child	The amount on Form 1040A, line 22, or Form 1040, line 38, is . . . \$17,500 or more
Married filing jointly and only one spouse is eligible for the credit	Or you received . . . \$5,000 or more of nontaxable social security or other nontaxable pensions, annuities, or disability income
Married filing jointly and both spouses are eligible for the credit	\$20,000 or more of nontaxable social security or other nontaxable pensions, annuities, or disability income
Married filing separately and you lived apart from your spouse for all of 2013	\$25,000 or more of nontaxable social security or other nontaxable pensions, annuities, or disability income
	\$3,750 or more of nontaxable social security or other nontaxable pensions, annuities, or disability income

Example 1. Sue retired on disability as a sales clerk. She now works as a full-time babysitter earning minimum wage. Although she does different work, Sue babysits on ordinary terms for the minimum wage. She cannot take the credit because she is engaged in a substantial gainful activity.

Example 2. Mary, the president of XYZ Corporation, retired on disability because of her terminal illness. On her doctor's advice, she works part time as a manager and is paid more than the minimum wage. Her employer sets her days and hours. Although Mary's illness is terminal and she works part time, the work is done at her employer's convenience. Mary is considered engaged in a substantial gainful activity and cannot take the credit.

Example 3. John, who retired on disability, took a job with a former employer on a trial basis. The purpose of the job was to see if John could do the work. The trial period lasted for some time during which John was paid at a rate equal to the minimum wage. But because of John's disability, he was given only light duties of a nonproductive, make-work nature. Unless the activity is both substantial and gainful, John is not engaged in a substantial gainful activity. The activity was gainful because John was paid at a rate at or above the minimum wage. However, the activity was not substantial because the duties were of a nonproductive, make-work nature. More facts are needed to determine if John is able to engage in a substantial gainful activity.

Disability Income

Generally, disability income is the total amount you were paid under your employer's accident and health plan or pension plan that is included in your income as wages or payments instead of wages for the time you were absent from work because of permanent and total disability. However, any payment you re-

of the statement, you do not have to get another statement for 2013. But you must check the box on line 2 in Part II to certify all three of the following.

1. You filed or got a physician's statement in an earlier year.
2. You were permanently and totally disabled during 2013.
3. You were unable to engage in any substantial gainful activity during 2013 because of your physical or mental condition.

If you checked box 4, 5, or 6 in Part I, enter in the space above the box on line 2 in Part II the first name(s) of the spouse(s) for whom the box is checked.

If the Department of Veterans Affairs (VA) certifies that you are permanently and totally disabled, you can use VA Form 21-0172 instead of the physician's statement. VA Form 21-0172 must be signed by a person authorized by the VA to do so. You can get this form from your local VA regional office.

Part III. Figure Your Credit

Line 11

If you checked box 2, 4, 5, 6, or 9 in Part I, use the following chart to complete line 11.

IF you checked . . .	THEN enter on line 11 . . .
Box 6	The total of \$5,000 plus the disability income you reported on Form 1040A or 1040 for the spouse who was under age 65.
Box 2, 4, or 9	The total amount of disability income you reported on Form 1040A or 1040.
Box 5	The total amount of disability income you reported on Form 1040A or 1040 for both you and your spouse.

Example 1. Bill, age 63, retired on permanent and total disability in 2013. He received \$4,000 of taxable disability income that he reports on Form 1040.

Credit Limit Worksheet—Line 21

Use this worksheet to figure your credit limit.

1. Enter the amount from Form 1040A, line 28; or Form 1040, line 46	1.
2. Enter the amount from Form 1040A, line 29; or Form 1040, lines 47 and 48	2.
3. Subtract line 2 from line 1. Enter this amount on Schedule R (Form 1040A or 1040), line 21. But if zero or less, STOP, you cannot take this credit.	3.

line 7. He is filing jointly with his wife who was age 67 in 2013, and he checked box 6 in Part I. On line 11, Bill enters \$9,000 (\$5,000 plus the \$4,000 of disability income he reports on Form 1040, line 7).

Example 2. John checked box 2 in Part I and enters \$5,000 on line 10. He received \$3,000 of taxable disability income, which he enters on line 11. John also enters \$3,000 on line 12 (the smaller of line 10 or line 11). The largest amount he can use to figure the credit is \$3,000.

Lines 13a Through 18

The amount on which you figure your credit can be reduced if you received certain types of nontaxable pensions, annuities, or disability income. The amount can also be reduced if your adjusted gross income is over a certain amount, depending on which box you checked in Part I.

Line 13a. Enter any social security benefits (before deduction of Medicare premiums) you (and your spouse if filing jointly) received for 2013 that are not taxable. Also, enter any tier 1 railroad retirement benefits treated as social security that are not taxable.

If any of your social security or equivalent railroad retirement benefits are taxable, the amount to enter on this line is generally the difference between the amounts entered on Form 1040A, line 14a and line 14b, or Form 1040, line 20a and line 20b.

CAUTION If your social security or equivalent railroad retirement benefits are reduced because of workers' compensation benefits, treat the workers' compensation benefits as social security benefits when completing Schedule R (Form 1040A or 1040), line 13a.

Line 13b. Enter the total of the following types of income that you (and your spouse if filing jointly) received for 2013.

- Veterans' pensions (but not military disability pensions).
- Any other pension, annuity, or disability benefit that is excluded from income under any provision of federal law other than the Internal Revenue Code. Do not include amounts that are treated as a return of your cost of a pension or annuity.

Keep for Your Records

2013 Instructions for Schedule SE (Form 1040)

Self-Employment Tax

Do not include on line 13b any pension, annuity, or similar allowance for personal injuries or sickness resulting from active service in the armed forces of any country, or in the National Oceanic and Atmospheric Administration or the Public Health Service. Also, do not include a disability annuity payable under section 808 of the Foreign Service Act of 1980.

Use Schedule SE (Form 1040) to figure the tax due on net earnings from self-employment. The Social Security Administration uses the information from Schedule SE to figure your benefits under the social security program. This tax applies no matter how old you are and even if you are already getting social security or Medicare benefits.

Additional information. See Pub. 225 or Pub. 334.

Section references are to the Internal Revenue Code unless otherwise noted.

Future Developments

For the latest information about developments related to Schedule SE (Form 1040) and its instructions, such as legislation enacted after they were published, go to www.irs.gov/schedulese.

What's New

Maximum income subject to social security tax. For 2013, the maximum amount of self-employment income subject to social security tax is \$113,700.

Additional Medicare Tax. For tax years beginning after 2012, a 0.9% Additional Medicare Tax applies to your Medicare wages. Railroad Retirement Tax Act (RRTA) compensation, and self-employment income above a threshold amount. Use Form 8959, Additional Medicare Tax, to figure this tax. For more information, see [Additional Medicare Tax](#), later.

General Instructions

Who Must File Schedule SE

You must file Schedule SE if:

- The amount on line 4 of Short Schedule SE or line 4c of Long Schedule SE is \$400 or more, or
- You had church employee income of \$108.28 or more. Income from services you performed as a minister or a member of a religious order is not church employee income. See [Employment of Churches and Church Organizations](#), later.

Note. Even if you had a loss or a small amount of income from self-employment, it may be to your benefit to file Schedule SE and use either "optional

method" in Part II of Long Schedule SE (discussed later).

Exception. If your only self-employment income was from earnings as a minister, member of a religious order, or Christian Science practitioner, see [Ministers and Members of Religious Orders](#).

Who Must Pay

Self-Employment (SE) Tax

Self-Employed Persons

You must pay SE tax if you had net earnings of \$400 or more as a self-employed person. If you are in business (farm or nonfarm) for yourself, you are self-employed.

You must also pay SE tax on your share of certain partnership income and your guaranteed payments. See [Partnership Income or Loss](#), later.

Employees of Churches and Church Organizations

If you had church employee income of \$108.28 or more, you must pay SE tax. Church employee income is wages you received as an employee (other than as a minister or member of a religious order) of a church or qualified church-controlled organization that has a certificate in effect electing an exemption from employer social security and Medicare taxes.

Ministers and Members of Religious Orders

In most cases, you must pay SE tax on salaries and other income for services you performed as a minister, a member of a religious order who has not taken a vow of poverty, or a Christian Science practitioner. But if you filed Form 4361 and received IRS approval, you will be exempt from paying SE tax on those net earnings. If you had no other income

subject to SE tax, enter "Exempt—Form 4361" on Form 1040, line 56, or Form 1040NR, line 54. However, if you had other earnings of \$400 or more subject to SE tax, see line A at the top of Long Schedule SE.

If you have ever filed Form 2031 to elect social security coverage on your earnings as a minister, you cannot revoke that election.

If you must pay SE tax, include this income on either Short or Long Schedule SE, line 2. But do not report it on Long Schedule SE, line 5a; it is not considered church employee income. Also, include on line 2:

- The rental value of a home or an allowance for a home furnished to you (including payments for utilities), and
- The value of meals and lodging provided to you, your spouse, and your dependents for your employer's convenience.

However, do not include on line 2:

- Retirement benefits you received from a church plan after retirement, or
- The rental value of a home or an allowance for a home furnished to you (including payments for utilities) after retirement.

If you were a duly ordained minister who was an employee of a church and you must pay SE tax, the unreimbursed business expenses that you incurred as a church employee are allowed only as an itemized deduction for income tax purposes. However, when figuring SE tax, subtract on line 2 the allowable expenses from your self-employment earnings and attach an explanation.

If you were a U.S. citizen or resident alien serving outside the United States as a minister or member of a religious order and you must pay SE tax, you can-

Warning 2031 to elect social security coverage on your earnings as a minister, you cannot revoke that election.

2. A physician determines that the disability has lasted or can be expected to last continuously for at least a year or can lead to death.

not reduce your net earnings by the foreign earned income exclusion or the foreign housing exclusion or deduction.

See Pub. 517 for details.

Members of Certain Religious Sects

If you have conscientious objections to social security insurance because of your membership in and belief in the teachings of a religious sect recognized as being in existence at all times since December 31, 1950, and which has provided a reasonable level of living for its dependent members, you are exempt from SE tax if you received IRS approval by filing Form 4029. In this case, do not file Schedule SE. Instead, enter "Exempt—Form 4029" on Form 1040, line 56, or Form 1040NR, line 54. See Pub. 517 for details.

U.S. Citizens Employed by Foreign Governments or International Organizations

You must pay SE tax on income you earned as a U.S. citizen employed by a foreign government (or, in certain cases, by a wholly owned instrumentality of a foreign government or an international organization under the International Organizations Immunities Act) for services performed in the United States, Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, or the U.S. Virgin Islands. Report income from this employment on either Short or Long Schedule SE, line 2. If you performed services elsewhere as an employee of a foreign government or an international organization, those earnings are exempt from SE tax.

Exception—Dual citizens. A person with dual U.S.-foreign citizenship is generally considered to be a U.S. citizen for social security purposes. However, if you are a U.S. citizen and also a citizen of a country with which the United States has a bilateral social security agreement, other than Canada or Italy, your work for the government of that foreign country is always exempt from foreign country social security taxes. For further information about these agreements, see the exception shown in the next section.

U.S. Citizens or Resident Aliens Living Outside the United States

If you are a self-employed U.S. citizen or resident alien living outside the United States, in most cases you must pay SE tax. You cannot reduce your foreign earnings from self-employment by your foreign earned income exclusion.

Exception. The United States has social security agreements with many countries to eliminate dual taxes under two social security systems. Under these agreements, you must generally pay social security and Medicare taxes to only the country you live in.

The United States now has social security agreements with the following countries: Australia, Austria, Belgium, Canada, Chile, Czech Republic, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Japan, Luxembourg, the Netherlands, Norway, Poland, Portugal, South Korea, Spain, Sweden, Switzerland, and the United Kingdom. Additional agreements are expected in the future.

If you have questions about international social security agreements, you can:

1. Visit the Social Security Administration's (SSA's) International Programs website at www.socialsecurity.gov/international;
2. Call the SSA's Office of International Programs at:
 - a. (410) 965-3322 for questions on benefits under agreements, or
 - b. (410) 965-7306 for questions on the coverage rules of the agreements, or
3. Write to:
 - a. Social Security Administration, Office of International Programs, P.O. Box 17741, Baltimore, MD 21235-7741 USA for information about an agreement, or
 - b. Social Security Administration, OIO—Totalization, P.O. Box 17769, Baltimore, MD 21235-7769 USA for information about a claim for benefits.

If your self-employment income is exempt from SE tax, you should get a statement from the appropriate agency of the foreign country verifying that your self-employment income is subject to social security coverage in that country. If the foreign country will not issue

the statement, contact the SSA at the address shown in (3a), earlier. Do not complete Schedule SE. Instead, attach a copy of the statement to Form 1040 and enter "Exempt, see attached statement" on Form 1040, line 56.

Nonresident Alien

If you are a self-employed nonresident alien living in the United States, you must pay SE tax if an international social security agreement in effect determines that you are covered under the U.S. social security system. See [Exception under U.S. Citizens or Resident Aliens Living Outside the United States](#), earlier, for information about international social security agreements. If your self-employment income is subject to SE tax, complete Schedule SE and file it with your Form 1040NR.

Chapter 11 Bankruptcy Cases

While you are a debtor in a chapter 11 bankruptcy case, your net profit or loss from self-employment (for example, from Schedule C or Schedule F) will not be included in your Form 1040 income. Instead, it will be included on the income tax return (Form 1041) of the bankruptcy estate. However, you (not the bankruptcy estate) are responsible for paying SE tax on your net earnings from self-employment.

Enter on the dotted line to the left of Schedule SE, line 3, "Chap. 11 bankruptcy income" and the amount of your net profit or (loss). Combine that amount with the total of lines 1a, 1b, and 2 (if any) and enter the result on line 3.

For other reporting requirements, see [Chapter 11 Bankruptcy Cases](#) in the Instructions for Form 1040.

More Than One Business

If you had two or more businesses, your net earnings from self-employment are the combined net earnings from all of your businesses. If you had a loss in one business, it reduces the income from another. Figure the combined SE tax on one Schedule SE.

Joint Returns

Show the name of the spouse with self-employment income on Schedule SE. If both spouses have self-employment income, each must file a separate

rate Schedule SE. However, if one spouse qualifies to use Short Schedule SE (front of form) and the other must use Long Schedule SE (back of form), both can use the same form. One spouse should complete the front and the other the back.

Include the total profits or losses from all businesses on Form 1040. Enter the combined SE tax on Form 1040, line 56.

Community Income

If any of the income from a business (including farming) is community income, then the income and deductions are reported based on the following:

- If only one spouse participates in the business, all of the income from that business is the self-employment earnings of the spouse who carried on the business.
- If both spouses participate, the income and deductions are allocated to the spouses based on their distributive shares.

• If either or both you and your spouse are partners in a partnership, see [Partnership Income or Loss](#), later.

• If you and your spouse elected to treat the business as a qualifying joint venture, see [Qualified Joint Ventures](#), later.

Married filing separately. If you and your spouse had community income and file separate returns, attach Schedule SE to the return of the spouse with the self-employment income. Also, attach Schedule(s) C, C-EZ, or F (showing the spouse's share of community income and expenses) to the return of each spouse.

If you are the spouse who carried on the business, you must include on Schedule SE, line 3, the net profit or (loss) reported on the other spouse's Schedule C, C-EZ, or F (except in those cases described later under [Income and Losses Not Included in Net Earnings From Self-Employment](#)). Enter on the dotted line to the left of Schedule SE, line 3, "Community income taxed to spouse" and the amount of any net profit or (loss) allocated to your spouse as community income. Combine that amount with the total of lines 1a, 1b, and 2 and enter the result on line 3.

If you are not the spouse who carried on the business and you had no other income subject to SE tax, enter "Exempt community income" on Form 1040, line 56, or Form 1040NR, line 54. Do not file Schedule SE unless you have other income subject to SE tax. For an exception to this income not being subject to SE tax, see item 3 under [Other Income and Losses Included in Net Earnings From Self-Employment](#), later.

come subject to SE tax, enter "Exempt community income" on Form 1040, line 56, or Form 1040NR, line 54. Do not file Schedule SE. However, if you had \$400 or more of other earnings subject to SE tax, include on Schedule SE, line 1a or 2, the net profit or (loss) from Schedule(s) C, C-EZ, or F allocated to you as community income. Also, enter on the dotted line to the left of Schedule SE, line 3, "Exempt community income" and the allocated amount. If that amount is a net profit, subtract it from the total of lines 1a, 1b, and 2 and enter the result on line 3. If that amount is a loss, treat it as a positive amount, add it to the total of lines 1a, 1b, and 2, and enter the result on line 3.

Community income included on Schedule(s) C, C-EZ, or F must be divided for income tax purposes based on the community property laws of your state. See Pub. 555 for more information.

Qualified Joint Ventures

If you and your spouse materially participate (see [Material Participation](#) in the 2013 Instructions for Schedule C) as the only members of a jointly owned and operated business, and you file a joint return for the tax year, you can make a joint election to be taxed as a qualified joint venture instead of a partnership.

To make this election, you must divide all items of income, gain, loss, deduction, and credit attributable to the business between you and your spouse in accordance with your respective interests in the venture. Each of you must file a separate Schedule C, C-EZ, or F. On each line of your separate Schedule C, C-EZ, or F, you must enter your share of the applicable income, deduction, or loss. Each of you also must file a separate Schedule SE to pay SE tax, as applicable.

For more information on qualified joint ventures, go to IRS.gov and enter "qualified joint venture" in the search box.

Rental real estate business. If you and your spouse make the election for your rental real estate business, the income generally is not subject to SE tax. To indicate that election, be sure to check the "QJ" box in Part I, line 2, of each Schedule E that the rental property is lis-

ted on. Do not file Schedule SE unless you have other income subject to SE tax. For an exception to this income not being subject to SE tax, see item 3 under [Other Income and Losses Included in Net Earnings From Self-Employment](#), later.

If the election is made for a farm rental business that is not included in self-employment, file two Forms 4853, Farm Rental Income and Expenses.

Fiscal Year Filers

If your tax year is a fiscal year, use the tax rate and earnings base that apply at the time the fiscal year begins. Do not prorate the tax or earnings base for a fiscal year that overlaps the date of a rate or earnings base change.

Line Instructions

Read the flowchart on page 1 of Schedule SE to see if you can use Section A—Short Schedule SE, or if you must use Section B—Long Schedule SE. For either section, you will need to know what your net earnings from self-employment are. To find out what is included as net earnings from self-employment, see [Net Earnings From Self-Employment](#), later.

Enter all negative amounts in parentheses.

You Have Only Church Employee Income Subject to SE Tax

If your only income subject to SE tax is church employee income (described earlier under [Employees of Churches and Church Organizations](#)), skip lines 1 through 4b. Enter -0- on line 4c and go to line 5a.

Note. Income from services you perform as a minister or member of a religious order is **not** church employee income.

amount of income from self-employment.

Earned income credit (EIC). Using the optional methods may qualify you to claim the EIC or give you a larger credit if your net earnings from self-employment (determined without using the optional methods) are less than \$4,640. Figure the EIC with and without using the optional methods to see if the optional methods will benefit you.

Additional child tax credit. Using the optional methods may qualify you to claim the additional child tax credit or give you a larger credit if your net earnings from self-employment (determined without using the optional methods) are less than \$4,640. Figure the additional child tax credit with and without using the optional methods to see if the optional methods will benefit you.

Child and dependent care credit. The optional methods may help you qualify for this credit or give you a larger credit if your net earnings from self-employment (determined without using the optional methods) are less than \$4,640. Figure this credit with and without using the optional methods to see if the optional methods will benefit you.

Self-employed health insurance deduction. The optional methods of computing net earnings from self-employment may be used to figure your self-employed health insurance deduction.

CAUTION *Using the optional methods may give you the benefits described above, but they may also increase your SE tax.*

Changing Your Method

You can change the method after you file your return. That is, you can change from the regular to the optional method or from the optional to the regular method. To do this, file Form 1040X.

Farm Optional Method

You may use this method to figure your net earnings from farm self-employment if your gross farm income was \$6,960 or less or your net farm profits were less than \$5,024. Net farm profits are:

- The total of the amounts from Schedule F (Form 1040), line 34, and Schedule K-1 (Form 1065), box 14, code A, minus

- The amount you would have entered on Schedule SE, line 1b, had you not used the optional method.

There is no limit on how many years you can use this method.

Under this method, report in Part II, line 15, two-thirds of your gross farm income, up to \$4,640, as your net earnings. This method can increase or decrease your net earnings from farm self-employment even if the farming business had a loss.

For a farm partnership, figure your share of gross income based on the partnership agreement. With guaranteed payments, your share of the partnership's gross income is your guaranteed payments plus your share of the gross income after it is reduced by all guaranteed payments made by the partnership. If you were a limited partner, include only guaranteed payments for services you actually rendered to or on behalf of the partnership.

Nonfarm Optional Method

You may be able to use this method to figure your net earnings from nonfarm self-employment if your net nonfarm profits were less than \$5,024 and also less than 72.189% of your gross nonfarm income. Net nonfarm profits are the total of the amounts from:

- Schedule C (Form 1040), line 31,
- Schedule C-EZ (Form 1040), line 3,

- Schedule K-1 (Form 1065), box 14, code A (from other than farm partnerships), and
- Schedule K-1 (Form 1065-B), box 9, code J1.

To use this method, you also must be regularly self-employed. You meet this requirement if your actual net earnings from self-employment were \$400 or more in 2 of the 3 years preceding the year you use the nonfarm optional method. The net earnings of \$400 or more could be from either farm or nonfarm earnings or both. The net earnings include your distributive share of partnership income or loss subject to SE tax.

Use of the nonfarm optional method from nonfarm self-employment is limited to 5 years. The 5 years do not have to be consecutive.

Under this method, report in Part II, line 17, two-thirds of your gross nonfarm income, up to the amount on line 16, as your net earnings. But you cannot report less than your actual net earnings from nonfarm self-employment.

Figure your share of gross income from a nonfarm partnership in the same manner as a farm partnership. See [Farm Optional Method](#) for details.

Using Both Optional Methods

If you can use both methods, you can report less than your total actual net earnings from farm and nonfarm self-employment, but you cannot report less than your actual net earnings from nonfarm self-employment alone.

If you use both methods to figure net earnings, you cannot report more than \$4,640 of net earnings from self-employment.

Form 1040EZ (2013)

Use this form if

- Your filing status is single or married filing jointly. If you are not sure about your filing status, see instructions.
- You (and your spouse if married filing jointly) were under age 65 and not blind at the end of 2013. If you were born on January 1, 1949, you are considered to be age 65 at the end of 2013.
- You do not claim any dependents. For information on dependents, see Pub. 501.
- Your taxable income (line 6) is less than \$100,000.
- You do not claim any adjustments to income. For information on adjustments to income, use the "Tax" topics listed under *Adjustments to Income* at www.irs.gov/itopics (see instructions).
- The only tax credit you can claim is the earned income credit (EIC). The credit may give you a refund even if you do not owe any tax. You do not need a qualifying child to claim the EIC. For information on credits, use the "Tax" topics listed under *Tax Credits* at www.irs.gov/itopics (see instructions). If you received a Form 1098-T or paid higher education expenses, you may be eligible for a tax credit or deduction that you must claim on Form 1040A or Form 1040. For more information on tax benefits for education, see Pub. 970.
- You had only wages, salaries, tips, taxable scholarship or fellowship grants, unemployment compensation, or Alaska Permanent Fund dividends, and your taxable interest was not over \$1,500. But if you earned tips, including allocated tips, that are not included in box 5 and box 7 of your Form W-2, you may not be able to use Form 1040EZ (see instructions). If you are planning to use Form 1040EZ for a child who received Alaska Permanent Fund dividends, see instructions.

Filing in your return

If you received a scholarship or fellowship grant or tax-exempt interest income, such as on municipal bonds, see the instructions before filing in the form. Also, see the instructions if you received a Form 1099-INT showing federal income tax withheld or if federal income tax was withheld from your unemployment compensation or Alaska Permanent Fund dividends.

For tips on how to avoid common mistakes, see instructions.

Remember, you must report all wages, salaries, and tips even if you do not get a Form W-2 from your employer. You must also report all your taxable interest, including interest from banks, savings and loans, credit unions, etc., even if you do not get a Form 1099-INT.

Instructions

Future developments. For the latest information about developments related to Schedule C-EZ (Form 1040) and its instructions, such as legislation enacted after they were published, go to www.irs.gov/sched/ceez.

Before you begin, see General Instructions in the 2014 Instructions for Schedule C.

You can use Schedule C-EZ instead of Schedule C if you operated a business or practiced a profession as a sole proprietorship or qualified joint venture, or you were a statutory employee and you have met all the requirements listed in Schedule C-EZ, Part I.

For more information on electing to be taxed as a qualified joint venture (including the possible social security benefits of this election), see *Qualified Joint Venture* in the instructions for Schedule C. You can also go to irs.gov and enter "qualified joint venture" in the search box.

Line A

Describe the business or professional activity that provided your principal source of income reported on line 1. Give the general field or activity and the type of product or service.

Line B

Enter the six-digit code that identifies your principal business or professional activity. See the instructions for Schedule C for the list of codes.

Line D

Enter on line D the employer identification number (EIN) that was issued to you and in your name as a sole proprietor. If you are filing Form 1041, enter the EIN issued to the estate or trust. Do not enter your SSN. Do not enter another taxpayer's EIN (for example, from any Forms 1099-MISC that you received), if you are the sole owner of a limited liability company (LLC), do not enter on line D the EIN issued to the LLC, if any, if you do not have an EIN, leave line D blank.

You need an EIN only if you have a qualified retirement plan or are required to file an employment, excise, alcohol, tobacco, or firearms tax return, are a payer of gambling winnings, or are filing Form 1041 for an estate or trust. If you need an EIN, see the instructions for Form SS-4.

Line E

Enter your business address. Show a street address instead of a box number. Include the suite or room number, if any.

Line F

See the instructions for line 1 in the instructions for Schedule C to help determine if you are required to file any Forms 1099.

Line 1

Enter gross receipts from your trade or business. Include amounts you received in your trade or business that were properly shown on Form 1099-MISC. If the total amounts that were reported on line 1, attach a statement explaining the difference. You must show all items of taxable income actually or constructively received during the year (in cash, property, or services). Income is constructively received when it is credited to your account or set aside for you to use. Do not offset this amount by any losses.

Line 2

Enter the total amount of all deductible business expenses you actually paid during the year. Examples of these expenses include advertising, car and truck expenses, commissions and fees, insurance, interest, legal and professional services, office expenses, rent or lease expenses, repairs and maintenance, supplies, taxes, travel, the allowable percentage of business meals and entertainment, and utilities (including telephone). For details, see the instructions for Schedule C, Parts II and V. You can use the optional worksheet below to record your expenses. Enter on lines b through f the type and amount of expenses not included on line a. If you claim car or truck expenses, be sure to complete Schedule C-EZ, Part III.

Line 3

Nonresident aliens using Form 1040NR should also enter the total on Schedule SE, line 2, if you are covered under the U.S. social security system due to an international social security agreement currently in effect. See the instructions for Schedule SE for information on international social security agreements.

If you converted your vehicle during the year from personal to business use (or vice versa), enter your commuting miles only for the period you drove your vehicle for business. For information on certain travel that is considered a business expense rather than commuting, see the instructions for Form 2106.

Schedule E Form 1040 2013

Purpose of Schedule

After you have figured your earned income credit (EIC), use Schedule EIC to give the IRS information about your qualifying child(ren).

To figure the amount of your credit or to have the IRS figure it for you, see the instructions for Form 1040A, lines 38a and 38b, or Form 1040, lines 64a and 64b.

Taking the EIC when not eligible. If you take the EIC even though you are not eligible and it is determined that your error is due to reckless or intentional disregard of the

EIC rules, you will not be allowed to take the credit for 2 years even if you are otherwise eligible to do so. If you fraudulently take the EIC, you will not be allowed to take the credit for 10 years. You may also have to pay penalties.

Future developments. For the latest information about developments related to Schedule EIC (Form 1040A or 1040) and its instructions, such as legislation enacted after they were published, go to www.irs.gov/scheduleic.

TIP You may also be able to take the additional child tax credit if your child was your dependent and under age 17 at the end of 2013. For more details, see the instructions for line 39 of Form 1040A or line 65 of Form 1040.

Qualifying Child

A qualifying child for the EIC is a child who is your . . .

Son, daughter, stepchild, foster child, brother, sister, stepbrother, stepsister, half brother, half sister, or a descendant of any of them (for example, your grandchild, niece, or nephew)

WAS . . .

Under age 19 at the end of 2013 and younger than you (or your spouse, if filing jointly)

or

Under age 24 at the end of 2013, a student, and younger than you (or your spouse, if filing jointly)

or

Any age and permanently and totally disabled

Who is not filing a joint return for 2013 or is filing a joint return for 2013 only to claim a refund of withheld income tax or estimated tax paid

Who lived with you in the United States for more than half of 2013. If the child did not live with you for the required time, see **Exception to time lived with you** in the instructions for Form 1040A, lines 38a and 38b, or Form 1040, lines 64a and 64b.

If the child was married or meets the conditions to be a qualifying child of another person (other than your spouse if filing a joint return), special rules apply. For details, see Married child or Qualifying child of more than one person in the instructions for Form 1040A, lines 38a and 38b, or Form 1040, lines 64a and 64b.

<p>General Instructions</p> <p>Future Developments</p> <p>For the latest information about developments related to Form 8814 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/form8814.</p> <p>Purpose of Form</p> <p>Use this form if you elect to report your child's income on your return. If you do, your child will not have to file a return. You can make this election if your child meets all of the following conditions.</p> <ul style="list-style-type: none"> • The child was under age 19 (or under age 24 if a full-time student) at the end of 2013. "Student" is defined below. • The child's only income was from interest and dividends, including capital gain distributions and Alaska Permanent Fund dividends. • The child's gross income for 2013 was less than \$10,000. • The child is required to file a 2013 return. • The child does not file a joint return for 2013. • There were no estimated tax payments for the child for 2013 (including any overpayment of tax from his or her 2012 return applied to 2013 estimated tax). • There was no federal income tax withheld from the child's income. <p>You must also qualify. See <i>Parents who qualify to make the election</i> below.</p> <p>Student. A student is a child who for some part of each of 5 calendar months during the year was enrolled as a full-time student at a school, or took a full-time, on-farm training course given by a school or a state, county, or local government agency. A school includes a technical, trade, or mechanical school. It does not include an on-the-job training course, correspondence school, or school offering courses only through the Internet.</p> <p>Certain January 1 birthdays. A child born on January 1, 1995 is considered to be age 19 at the end of 2013. You cannot make this election for such a child unless the child was a full-time student.</p> <p>A child born on January 1, 1990, is considered to be age 24 at the end of 2013. You cannot make this election for such a child.</p> <p>How to make the election. To make the election, complete and attach Form(s) 8814 to your tax return and file your return by the due date (including extensions). A separate Form 8814 must be filed for each child whose income you choose to report.</p> <p>Parents who qualify to make the election. You qualify to make this election if you file Form 1040 or Form 1040NR and any of the following apply.</p> <ul style="list-style-type: none"> • You are filing a joint return for 2013 with the child's other parent. • You and the child's other parent were married to each other but file separate returns for 2013 and you had the higher taxable income. • You were unmarried, treated as unmarried for federal income tax purposes, or separated from the child's other parent by a divorce or separate maintenance decree. The child must have lived with you for most of the year (you were the custodial parent). If you were the custodial parent and you remarried, you can make the election on a joint return with your new spouse. But if you and your new spouse do not file a joint return, you qualify to make the election only if you had higher taxable income than your new spouse. <p>Note. If you and the child's other parent were not married but lived together during the year with the child, you qualify to make the election only if you are the parent with the higher taxable income.</p> <p>Tax benefits you cannot take. If you elect to report your child's income on your return, you cannot take certain deductions that your child could take on his or her own return such as:</p> <ul style="list-style-type: none"> • Additional standard deduction of \$1,500 if the child is blind, • Penalty on early withdrawal of child's savings, and • Itemized deductions such as the child's investment expenses or charitable contributions. 	<p>If your child received qualified dividends or capital gain distributions, you may pay up to \$100 more tax if you make this election instead of filing a separate tax return for the child. This is because the tax rate on the child's income between \$1,000 and \$2,000 is 10% if you make this election. However, if you file a separate return for the child, the tax rate may be as low as 0% (zero percent) because of the preferential tax rates for qualified dividends and capital gain distributions.</p> <p>If any of the above apply to your child, first figure the tax on your child's income as if he or she is filing a return. Next, figure the tax as if you are electing to report your child's income on your return. Then, compare the methods to determine which results in the lower tax.</p> <p>Alternative minimum tax. If your child received tax-exempt interest (or exempt-interest dividends paid by a regulated investment company) from certain private activity bonds, you must take this into account in determining if you owe the alternative minimum tax. This type of interest should be shown in box 9 of Form 1099-INT. See Form 6251, <i>Alternative Minimum Tax—Individuals</i>, and its instructions for details.</p> <p>Net Investment Income Tax. For purposes of figuring any Net Investment Income Tax liability of the parents on Form 8960, the following rules apply.</p> <ol style="list-style-type: none"> 1. All income reported on line 12 is included in the parents' modified adjusted gross income, and 2. All net investment income included on line 12 (except for Alaska Permanent Fund dividends) is included in the parents' net investment income. <p>For more information on Net Investment Income Tax, go to www.irs.gov and enter "Net Investment Income Tax" in the search box.</p> <p>Investment interest expense. Your child's income (other than qualified dividends, Alaska Permanent Fund dividends, and capital gain distributions) that you report on your return is considered to be your investment income for purposes of figuring your investment interest expense deduction. If your child received qualified dividends, Alaska Permanent Fund dividends, or capital gain distributions, see Pub. 550, <i>Investment Income and Expenses</i>, to figure the amount you can treat as your investment income.</p> <p>Foreign accounts and trusts. You must complete Schedule B (Form 1040), Part III, and file it with your tax return if your child:</p> <ol style="list-style-type: none"> 1. Had a foreign financial account, or 2. Received a distribution from, or was the grantor of, or transferred to, a foreign trust. <p>Enter "Form 8814" on the dotted line next to line 7a or line 8, whichever applies. Complete line 7b if applicable.</p> <p>Note. If you file Form 8814 with your income tax return to report your child's foreign financial account, you have an interest in the assets from that account and may be required to file Form 8838, <i>Statement of Specified Foreign Financial Assets</i>. Check www.irs.gov/form8838 for details.</p> <p>Change of address. If your child filed a return for a previous year and the address shown on the last return filed is not your child's current address, be sure to notify the IRS, in writing, of the new address. To do this, use Form 8822, <i>Change of Address</i>.</p> <p>Additional information. See Pub. 929, <i>Tax Rules for Children and Dependents</i>, for more details.</p> <p>Line Instructions</p> <p>Name and social security number. If you are filing a joint return, enter both names but enter the social security number of the person whose name is shown first on the return.</p> <p>Line 1a. Enter all taxable interest income your child received in 2013.
