SOI BULLETIN A Quarterly Statistics of Income Report

Volume 34, Number 2

The *Statistics of Income (SOI) Bulletin* is issued quarterly by the Statistics of Income Division of the Internal Revenue Service. The report provides the earliest published annual financial statistics obtained from the various types of tax and information returns filed, as well as information from periodic or special analytical studies of particular interest to students of the U.S. tax system, tax policymakers, and tax administrators. Selected historical and other data tables, previously published in every issue of the *SOI Bulletin*, now are published only in the spring issue of the *Bulletin*. These tables are also available on SOI's pages of the IRS Web site (www.irs.gov/ statistics). Also, this is the first issue that will be published online only.

Information on the availability of supplemental data on the topics included in this issue, special tabulations undertaken on a reimbursable basis, or other SOI subjects, may be obtained by telephoning the SOI's Statistical Information Services (202-803-9285), or by writing to the Director, Statistics of Income Division RAS:S, Internal Revenue Service, 1111 Constitution Avenue, NW, K-Room 4112, Washington, D.C. 20224.

The SOI Bulletin is prepared under the direction of Wayne Kei, Chief, Communications and Data Dissemination Section. Paul Bastuscheck (layout and graphics), Clay Moulton (layout and graphics), Lisa Smith (layout and graphics editor), Camille Swick (layout and graphics), and Georgette Walsh (writer/ editor) are the editorial staff who prepare the manuscript. Jim Hobbs, Emily Gross, and Beth Kilss also made major contributions in the production of this issue. Views expressed in the articles are those of the authors and do not necessarily represent the views of the Treasury Department or the Internal Revenue Service.

NOTE: When using information from this report, cite the publication as follows—

Corporate Foreign Tax Credit, 2010

by Scott Luttrell

The foreign tax credit is the largest tax credit claimed by corporations; however, very few corporations claim this credit each year. While less than half of 1 percent (6,922) of all U.S. corporations reported a foreign tax credit for Tax Year 2010, the amount claimed (\$118.1 billion) reduced the tax liability for these corporations 43.6 percent. When other credits were added, the overall tax liability was reduced an additional 5 percent to 48.6 percent, or from \$270.6 billion to \$139.1 billion. Corporations claiming a foreign tax credit in 2010 reported \$470.4 billion in foreign-source taxable income. The Netherlands (7.6 percent), United Kingdom (7.1 percent), and Canada (6.7 percent) accounted for the largest shares of foreign source taxable income for the vear.

2

Unrelated Business Income Tax Returns, 2010 33

by Jael Jackson

Gross unrelated business income reported by tax-exempt organizations on Form 990-T for Tax Year 2010 totaled \$9.9 billion and represented a 13-percent increase from Tax Year 2009. Total unrelated business income tax liability increased even more, 28 percent, to \$341.3 million. As in previous years, charitable organizations, tax exempt under Internal Revenue Code section 501(c)(3), made up the most common Form 990-T filers, representing more than one-third (34.9 percent) of all organizations that filed the return for Tax Year 2010.

In the Next Issue

Articles on the following topics are tentatively planned for inclusion in the winter 2015 issue of the *Statistics of Income Bulletin*, scheduled to be published in March 2015:

- Sole Proprietorship Returns, 2012
- Foreign Recipients of U.S. Income, 2011
- Individual Tax Returns Filed by Dependents, 1987–2011

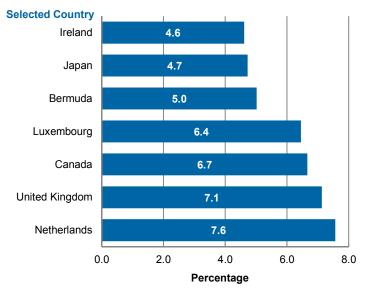

Corporate Foreign Tax Credit, 2010

by Scott Luttrell

he foreign tax credit is the largest tax credit claimed by corporations; however, very few corporations claim this credit each year. While less than half of 1 percent (6,922) of all U.S. corporations reported a foreign tax credit for Tax Year 2010, the amount claimed (\$118.1 billion) reduced the tax liability for these corporations 43.6 percent. When other credits were added, the overall tax liability was reduced an additional 5 percent to 48.6 percent, or from \$270.6 billion to \$139.1 billion. Corporations claiming a foreign tax credit in 2010 reported \$470.4 billion in foreign-source taxable income. The Netherlands (7.6 percent), United Kingdom (7.1 percent), and Canada (6.7 percent) accounted for the largest shares of foreignsource taxable income for the year (Figure A). These statistics are based on data compiled from Form 1120, U.S. Corporation Income Tax Returns, and Form 1118, Computation of Foreign Tax Credit—Corporations.¹

Figure A

U.S. Corporation Returns with a Foreign Tax Credit: Percentage of Foreign-Source Taxable Income, by Selected Country, Tax Year 2010

NOTE: Data for this figure are based on information reported on Form 1118, *Computation of Foreign Tax Credit – Corporations,* and related corporate tax forms.

Source: IRS, Statistics of Income Division, Corporate Foreign Tax Credit, November 2013.

Highlights

- The total foreign tax credit (\$118.1 billion) increased by more than 26 percent from 2009 to 2010.
- The foreign tax credit enabled corporations to reduce their U.S. income tax liability 43.6 percent.
- Less than half of one percent of corporations (excluding subchapter-S corporations) claimed a foreign tax credit, yet these corporations accounted for 75.5 percent of all U.S. income tax before credits.
- European countries accounted for 44 percent of foreign-source taxable income and almost 50 percent of current-year foreign taxes.
- Manufacturing companies claimed about two-thirds (67.5 percent) of all foreign tax credits.

2010 Summary Highlights

Corporations claiming a foreign tax credit for Tax Year 2010, reported income subject to U.S. tax of \$770.7 billion, an increase of 20.0 percent from 2009. About 61 percent (\$470.4 billion) of the income subject to U.S. tax came from foreign sources, up 33.5 percent from the previous year. Notably, the foreign-source taxable income of corporations claiming a foreign tax credit (6,922 corporations) accounted for 46 percent of worldwide taxable income reported by all corporations (1,686,171 corporations). Current-year foreign taxes paid by corporations claiming a foreign tax credit rose 22.6 percent in 2010 to \$128.0 billion.²

Corporations claimed \$118.1 billion in foreign tax credits for 2010, which is an increase of 26.2 percent from 2009. Foreign tax credits plus other credits enabled these corporations to reduce their U.S. income tax 48.6 percent, from \$270.6 billion to \$139.1 billion (Figure B).

Closer Look at Corporation Returns with a Foreign Tax Credit

The foreign tax credit is the largest credit claimed by corporations; however, relatively few corporations claim it each year. Less than half of 1 percent of corporations (excluding subchapter-S corporations) filing a tax return for 2010 claimed a foreign tax credit. While few in number, these corporations accounted

¹ These statistics exclude corporations filing Form 1120-S, U.S. Income Tax Return for an S Corporation.

² Taxable income (less loss) before adjustments: Table 1, Column 36.

for nearly 43 percent of total assets for the year. In addition, these corporations tallied 75.5 percent of all U.S. income tax before credits and 62.5 percent of U.S. income tax after credits.

Corporations claiming a foreign tax credit accounted for significant amounts of total interest, rents, royalties, and license fees, as well as various types of dividends. These corporations reported nearly 47 percent of all corporate interest earned in 2010; just 9.3 percent (\$57.1 billion) of that interest was foreign-earned interest. These corporations also reported more than 68 percent of all rents, royalties, and license fee income for the year; more than 71 percent (\$132.8 billion) of that rents, royalties, and license fee income was earned abroad. Corporations claiming a foreign tax credit accounted for more than 90 percent of foreign dividends earned.

Geographic Spotlight

Among geographic regions, European countries tallied the largest shares of foreign-source taxable income (44.0 percent) and current-year foreign taxes paid, accrued, and deemed paid (49.7 percent) in 2010. When looking at the share of total foreignsource taxable income, the Netherlands (7.6 percent), United Kingdom (7.1 percent), Canada (6.7 percent), Luxembourg (6.4 percent), Bermuda (5.0 percent), Japan (4.7 percent), and Ireland (4.6 percent) reported the largest shares, accounting for more than 42 percent. Foreign-source taxable income for each of these countries exceeded \$21 billion with the Netherlands reporting the highest amount (\$35.6 billion).

The Corporate Foreign Tax Credit

U.S. corporations are taxed on their worldwide incomes, regardless of the source. These corporations may be taxed on their foreign-source incomes by both the foreign jurisdiction in which the income is earned and the United States, resulting in double taxation of the foreign-source income. The U.S. adopted the foreign tax credit to alleviate this problem.

Under foreign tax credit provisions, the United States taxes worldwide income, but allows a credit against the U.S. tax liability on foreign-source income for the income taxes paid to foreign counties. Taxpayers report their foreign-source income and taxes and calculate their foreign tax credit on Form 1118, Computation of Foreign Tax Credit—Corporations. Corporations file a separate Form 1118 and a separate foreign tax credit is calculated by category of foreign-source income. The two primary categories are passive income and general limitation income. The foreign tax credit amount is limited to the U.S. tax rate multiplied by the foreign-source income. Any foreign taxes paid in excess of this "limitation" amount may be carried back 1 year or carried forward up to 10 years. Taxpayers also have the option of deducting foreign taxes from their foreign-source taxable incomes; however, most corporations elect to take the foreign tax credit because it offsets U.S. taxes dollar-for-dollar.

Industrial Sector Data

As in past years, manufacturing corporations accounted for the majority of the foreign-source taxable income (over 60 percent) reported for 2010, paid the most (62.1 percent) in current-year foreign taxes, and claimed the largest percentage (67.5 percent) of the foreign tax credit (Figure C). Service corporations accounted for the next largest percentage of the total foreign tax credit during 2010 (8.8 percent), followed by the mining sector (6.7 percent). In comparison, companies in the finance, insurance, real estate, and rental and leasing sector reported the second largest amount of foreign-source taxable income (11.6 percent).

Data Sources and Limitations

Internal Revenue Code section 901 specifies the provisions for the foreign tax credit. Corporations report the foreign income and taxes related to the credit on Form 1118, *Computation of Foreign Tax Credit—Corporations*, and file it with their corporate tax return. The statistics in this data release are based on information reported on Forms 1118 and related corporate tax forms for those corporation income tax returns with a foreign tax credit that were included in the 2010 Statistics of Income (SOI) sample of corporate returns with accounting periods ending between July 2010 and June 2011. SOI selected these returns after administrative processing, but prior to any amendments

[1] Foreign-source taxable income is also referred to as "Taxable income (less loss) before adjustments."

NOTE: Data for this figure are based on information reported on Form 1118, Computation of Foreign Tax Credit - Corporations, and related corporate tax forms.

Source: IRS, Statistics of Income Division, Corporate Foreign Tax Credit, November 2013.

or audit examination. The 2010 corporation income tax return sample included Forms 1120, 1120-F, 1120-L, 1120-PC, and 1120-REIT.³ The statistics in this data release do not include any foreign tax credit data filed specifically for the computation of the alternative minimum tax (AMT), even if the corporation reported both the regular and AMT foreign tax credits.

Small discrepancies exist between the more complete foreign tax credit data presented here and those published in *Statistics* of *Income*—2010, *Corporation Income Tax Returns*. Returns selected for the SOI sample that were received too late to be included in the corporation income tax statistics account for some of these differences. Also, for the foreign tax credit statistics, SOI requested additional data from some corporations that submitted preliminary data on their original returns because at the time of filing they lacked complete information.

Foreign income and taxes available for credit are understated to the extent that they were not reported on Form 1118 filed with Form 1120. This study includes credits carried forward from prior years and used in Tax Year 2010. However, because amended returns are not included in the sample, these statistics do not contain foreign taxes carried back to 2010 from subsequent tax years, or credits for foreign taxes from 2010 carried back to earlier years. In addition, SOI excluded corporations from the sample that reported foreign income and taxes, but could not claim a foreign tax credit because they did not have a U.S. tax liability. Finally, some corporations may have deducted their foreign taxes from their gross income rather than claim a foreign tax credit. SOI also excluded these deductions from the study.

Because SOI based these estimates on a sample, they are subject to sampling error. Coefficients of Variation (CVs) were used to measure the magnitude of this sampling error. The CV concept is defined in the section on sampling variability in the "SOI Sampling Methodology and Data Limitations," located at http://www.irs.gov/pub/irs-soi/sampling.pdf. The smaller the CV, the more reliable the estimate is judged to be. The CVs for corporations with foreign tax credits are shown by selected North American Industry Classification System (NAICS) divisions, and industrial sectors or groups (Figure D).

³ Other forms selected for the corporation income tax return sample included Form 1120-F, U.S. Income Tax Return of a Foreign Corporation, Form 1120-L, U.S. Life Insurance Company Income Tax Return, Form 1120-PC, U.S. Property and Casualty Insurance Company Income Tax Return, and Form 1120-REIT, U.S. Income Tax Return for Real Estate Investment Trusts.

Description of Tables 1 and 2

Table 1, columns 2 through 14, presents statistics on assets, receipts, income, and taxes reported on the basic corporation income tax returns for those corporations that claimed a foreign tax credit. Columns 15 through 53 present statistics from Form 1118, Computation of Foreign Tax Credit—Corporations. Although the amounts of oil and gas income and deductions (columns 22 and 35) are included in columns 15 through 21 and in columns 24 through 33, taxpayers report these amounts separately on Form 1118 (Schedule I, Reduction of Oil and Gas Extraction Taxes). The reason for this is that oil and gas extraction income is subject to special rules under Internal Revenue Code section 907, which effectively requires a separate limitation calculation for taxes related to this type of income. Foreign branch income (column 23) is also contained in the summary columns but reported separately on Form 1118 (Schedule F, Gross Income and Definitely Allocable Deductions for Foreign Branches). Table 2 includes foreign income, deductions, and taxes paid, accrued, or deemed paid from Form 1118, by selected geographic region and country.

Explanation of Selected Terms

Adjustments to taxable income—Foreign-source taxable income is adjusted, when applicable, by the allocation of current-year foreign losses, recharacterization of income due to prior-year loss allocations, and adjustments related to overall foreign losses, including recapture of prior overall foreign losses, and allocations of current-year U.S. losses. See Table 1, column 37.

Carryover of foreign taxes—Corporations can carry taxes paid in excess of the limitation back 1 year or forward up to 10 years.

Controlled foreign corporations (CFCs)—As defined in the Internal Revenue Code section 957(a), any foreign corporation in which U.S. shareholders own directly, indirectly, or constructively more than 50 percent of either the total combined voting power or total value of all stock on any day of the taxable year of the corporation.

Deemed dividends—Certain types of income earned by controlled foreign corporations (CFCs) are recognized under Subpart F of the Internal Revenue Service Code as a U.S.

corporation's current-year income, even if no income is actually received from the CFC in the current tax year. In such cases, the U.S. corporation is deemed to have received a pro-rata share of this income and is required to report it as a "deemed dividend" on Form 1118.

Dividend gross-up—U.S. corporations that satisfy ownership and other requirements are permitted to take an indirect foreign tax credit for taxes paid on profits from which dividends were distributed. Under Internal Revenue Code section 78, these taxes are "deemed paid" by U.S. corporations under Internal Revenue Code sections 902 and 960(a). Consequently, the dividend income is "grossed up" by the amount of taxes deemed paid on the income from which the dividend was paid.

Foreign-source taxable income—Gross income (less loss) less deductions from sources outside the United States, including U.S. possessions.

General limitation income—This separate limitation category contains all foreign income not included in any other separate limitation category.

Income re-sourced by bilateral tax treaty—This separate limitation category includes certain U.S.-source income that has been subject to tax in another country pursuant to a bilateral income tax treaty. To relieve double taxation, as appropriate, these items of income are reclassified by a treaty provision as arising from foreign sources. A separate foreign tax credit limitation has to be computed for each amount re-sourced by a tax treaty.

Passive income—This separate limitation category is comprised of dividends, interest, rents, royalties, annuities, and net capital gains, as well as commodity transactions not connected with the active conduct of a trade or business. Passive income subject to a foreign tax rate that exceeds the highest applicable U.S tax rate is excluded from this separate limitation category and included in general limitation income.

Section 901(j) income—This separate limitation category includes income and taxes paid to countries sanctioned by the United States. Internal Revenue Code section 901(j) denies credit for taxes paid or accrued to these countries. For 2010, countries subject to these restrictions included Cuba, Iran, North Korea, Sudan, and Syria. A separate limitation credit is computed for each Section 901(j) country for informational purposes.

Additional Tabular Data on Tax Stats

For additional Form 1118 tabular data, see the Corporate Foreign Tax Credit Statistics section of the Tax Stats Webpages at http://www.irs.gov/uac/SOI-Tax-Stats-Corporate-Foreign-Tax-Credit-Statistics. Income, deduction, and tax data items for corporations claiming a foreign tax credit are available annually beginning with Tax Year 2004. Data are available by major and selected minor industry, as well as by geographic region and country.

Scott Luttrell is an economist with the Special Studies Returns Analysis Section. This data release was prepared under the direction of Chris Carson, Chief.

Footnotes-

- * Data should be used with caution because of the small number of sample returns on which they were based.
- [1] Interest-Charge Domestic International Sales Corporation (IC-DISC) and Domestic International Sales Corporation (DISC).
- [2] Less than \$500
- [3] Includes adjustments and recapture of certain tax credits not included in column 11.

[4] In addition to the credits shown in columns 12 and 13, this is after reduction by other credits, such as the jobs credit and the investment credit, which are not shown separately in this table.

- [5] Included in gross income (less loss), columns 15-21. See notes below.
- [6] Column 30 exceeds the sum of columns 31 through 33 because some corporations do not file a Schedule H to support the not allocable deductions reported on Schedule A.
- [7] Included in deductions, columns 24-33. See notes below.
- [8] Includes reduction of taxes eligible for credit and high tax kickout.

[9] This calculation does not include the reduction for participation in an international boycott and certain other adjustments. Therefore; the amounts presented in this column may differ slightly than subtracting the foreign tax credit (column 12) from the limitation (column 42). The difference between the foreign tax credit limitation and the foreign tax credit is a measure of the U.S. tax owed on foreign source corporate income. The foreign tax credit limitation is the ratio of foreign source income (after deductions) to total taxable income from all sources multiplied by the total U.S. income tax against which the credit is allowed. A limitation of this measure of the U.S. tax owed on foreign source corporate income is that it relies on the definition of foreign source income contained in the tax code. Thus, it assumes that the allocation of expenses to foreign source income accurately reflects the cost of earning that income. Current law also allows expenses allocable to foreign source income to be deducted even when all of the income associated with those expenses is deferred. In that case, the computed residual U.S. tax would be zero, rather than negative. In addition, the definition of foreign source income tax may be considered domestic source income, such as certain income from sales of U.S. inventory property.

NOTES: Detail may not add to totals because of rounding. Columns 2 through 14 present statistics on assets, receipts, income, and taxes reported on Form 1120, U.S. Corporation Income Tax Return, series for corporations claiming a foreign tax credit. Columns 15 through 53 present statistics from Form 1118, Foreign Tax Credit – Corporations. Schedule references indicate the schedule of Form 1118 from which the data were obtained. Columns 15 through 34 present statistics on foreign income (i.e., income from sources outside the United States) and deductions reported primarily on Schedule A, Form 1118.

Although the amounts of oil and gas income and deductions (columns 22 and 35, respectively) are contained in the summary columns (i.e., columns 15 through 21 and 24 through 33), these amounts are also reported separately (on Schedule I) because oil and gas income is subject to special rules under Internal Revenue Code section 907, which may result in a reduction of foreign taxes available for credit. Foreign branch income and Code section 863(b) income (income partly within and partly without the United States) also are included in the summary amounts reported in columns 15 through 21.

Foreign branch income also is reported separately on Schedule F, shown in column 23. Total deductions not allocable to specific types of income (column 30) are equal to the sum of columns 31 through 33 (any differences are due to taxpayer reporting practices). Total foreign-source gross income (column 15) less total foreign deductions (column 24) is equal to foreign-source taxable income (less loss) before adjustments (column 36).

Adjustments to foreign-source taxable income (reported in column 37) include allocations of current-year U.S.-source losses and recapture of foreign losses, as well as other adjustments. These adjustments (reported on Schedule J) affect the numerator of the limitation fraction used to compute the foreign tax credit. The foreign-source taxable income (less loss) after adjustments (the numerator of the limitation fraction, which represents the ratio of foreign-source taxable income after adjustments to total (U.S. and foreign) taxable income after adjustments, is applied to the total U.S. tax against which the credit is allowed to determine any limitation on the foreign tax credit.

Statistics on foreign taxes are reported in columns 39 through 53. Data on foreign taxes paid, accrued, and deemed paid (through related foreign corporations or their subsidiaries) from Schedule B, Form 1118, are reported in columns 44 through 53. Total foreign taxes paid or accrued (column 45) are the sum of columns 46 through 52.

Total foreign taxes paid, accrued, and deemed paid (column 44) are equal to the sum of total taxes paid or accrued (column 45) and taxes deemed paid (column 53). Total foreign taxes paid, accrued, and deemed paid are then adjusted for certain items (e.g., reductions of foreign taxes under Code section 907 related to oil and gas income), which are reported in column 40, as well as carryovers of foreign taxes not credited in prior years, which are reported in column 41. Thus, total foreign taxes available for credit (column 39) are equal to total foreign taxes paid, accrued, and deemed paid (column 44) less certain foreign taxes (column 40), plus any carryover of prior-year foreign taxes (column 41).

* Data should be used with caution because of the small number of sample returns on which they are based.

[1] Total number of returns may not equal the sum of returns for specific areas or countries because a return could include two or more countries.

[2] Included in gross income (less loss), columns 2-8.

[3] Included in total deductions, column 11.

[4] Section 863 income refers to certain types of income, including certain cross-border sales and communication income, that are subject to special sourcing rules. The IRS does not require companies to source these types of income to specific countries.

[5] Regulated Investment Companies are investment companies, like mutual funds or real estate investment trusts, that are eligible to pass the taxes paid on capital gains, dividends and interest directly to their shareholders to avoid double taxation. The IRS does not require companies to source this income to specific countries.

NOTE: Detail may not add to totals because of rounding.

by Jael Jackson

ross unrelated business income reported by tax-exempt -organizations on Form 990-T for Tax Year 2010 totaled \$9.9 billion and represented a 13-percent increase from Tax Year 2009. Total unrelated business income tax liability increased even more, 28 percent, to \$341.3 million. As in previous years, charitable organizations, tax exempt under Internal Revenue Code section 501(c)(3), made up the most common Form 990-T filers, representing more than one-third (34.9 percent) of all organizations that filed the return for Tax Year 2010. These organizations reported 65 percent of all gross unrelated business income for the year, claimed nearly 67 percent of deductions, and accounted for a little more than half (58 percent) of all unrelated business income tax liability. Filers classified as corporations, whose returns comprised nearly 78 percent of all Tax Year 2010 Forms 990-T, reported the majority of gross unrelated business income, investment income, total deductions, and unrelated business income tax for the year.

Tax-exempt organizations generally operate for charitable or other beneficial purposes, with most income exempt from tax under the Internal Revenue Code (IRC). Tax-exempt organizations are permitted to engage in income-producing activities considered unrelated to their exempt purposes. However, to prevent potentially unfair competition between tax-exempt organizations and taxable for-profit entities, income derived from these unrelated activities is taxable. An organization that receives \$1,000 or more in gross unrelated business income in a tax year is required to file Form 990-T, *Exempt Organization Business Income Tax Return*, to determine the amount of unrelated business income tax liability.

Unrelated business income is produced from an activity that is conducted on a regular basis and is not directly related to an organization's tax-exempt mission. Income earned by an organization is treated as unrelated business income if it meets two basic requirements. First, the income is derived from a trade or business that is regularly carried on by the organization. Second, the income is earned from a trade or business that is not substantially related to the performance of the organization's exempt purpose or function. Even if profits from such activities are used by tax-exempt organizations to finance their exempt purposes, income that meets these two requirements generally is treated as unrelated business income. However, certain activities are excluded from taxation, such as business activities in which substantially all of the work is performed by volunteer labor, sales of merchandise that the organization received as a gift or contribution, and the operation of certain games of chance, as specified in the Internal Revenue Code.¹

For Tax Year 2010, some 43,184 tax-exempt organizations filed Form 990-T to report unrelated business income, nearly 2 percent more than filed the return for Tax Year 2009 (Figure A). Between Tax Years 2009 and 2010, both gross unrelated business income and reported deductions increased. Gross unrelated business income is the total of all unrelated business income prior to deductions. For Tax Year 2010, tax-exempt organizations reported a 13-percent increase in the total gross unrelated business income received (\$11.0 billion). In aggregate, deductions of \$10.8 billion offset this amount. After reducing their gross unrelated business income by allowable deductions, only about half of all organizations that were required to file Form 990-T for Tax Year 2010 reported unrelated business income

Highlights

- Over 43,000 tax-exempt organizations filed a Form 990-T with the IRS for Tax Year 2010.
- Over half of all organizations that filed Form 990-T did not report unrelated business income tax liability after subtracting deductions from gross unrelated business income.
- Charitable organizations, exempt under Internal Revenue Code section 501(c)(3) accounted for the most common Form 990-T filers.
- Organizations classified as 501(c)(3) accounted for nearly two-thirds (65 percent) of all unrelated business income, two-thirds (67 percent) of all deductions, and over half (58 percent) of all unrelated business income tax liability.

¹ See "Gross unrelated business income" in the Explanation of Selected Terms for additional information.

Figure A

Unrelated Business Income Tax Returns: Selected Items from Forms 990-T, Tax Years 2009 and 2010

[Money amounts are in thousands of dollars]

ltem	2009	2010	Percentage change	
	(1)	(2)	(3)	
Number of returns, total	42,469	43,184	1.7	
With gross unrelated business income of \$10,000 or less [1]	19,072	19,312	1.3	
With gross unrelated business income over \$10,000 [1]	23,397	23,872	2.0	
With unrelated business taxable income	19,368	19,874	2.6	
Without unrelated business taxable income [2]	23,101	23,310	0.9	
Gross unrelated business income	9,700,964	10,966,456	13.0	
Total deductions [3]	9,821,097	10,882,576	10.8	
Unrelated business taxable				
income (less deficit)	-120,133	83,880	[P]	
Unrelated business taxable income	930,795	1,217,989	30.9	
Deficit	1,050,928	1,134,109	7.9	
Unrelated business income tax	266,421	341,361	28.1	
Total tax	263,147	332,465	26.3	

[1] Organizations with gross unrelated business income (UBI) between \$1,000 (the filing threshold) and \$10,000 were not required to report itemized expenses and deductions, or to complete return schedules. Those with gross UBI over \$10,000 were required to fill out a more detailed "complete" return.

[2] Includes returns with deficits and returns with equal amounts of gross unrelated business income and total deductions.

[3] Includes both expenses and deductions reported on Form 990-T, lines 13(B), 29, 31, and 33. Excludes cost of sales and services, which was subtracted from gross receipts from sales and services in computing gross profit from sales and services. Gross profit from sales and services is a component of gross unrelated business income (upon which the filing requirement is based). Total cost of sales and services was \$2.4 billion for 2009 and \$2.5 billion for 2010.

[P] Percentage change is not provided if the current year data contains a postive value (income) compared to a prior year negative value (deficit).

NOTES: Detail may not add to totals because of rounding. See the Explanation of Selected Terms section of this article for definitions of gross unrelated business income, total deductions, unrelated business taxable income (less deficit), unrelated business income tax, and total tax.

SOURCE: IRS, Statistics of Income Division, Tax Exempt Organizations, Unrelated Business Income, February 2014.

tax liability. Tax-exempt organizations reported \$341.3 million in unrelated business income tax liability, a 28-percent increase from Tax Year 2009.

Total tax reported on Forms 990-T, the sum of unrelated business income tax and certain additional taxes less credits increased sharply in 2010, to \$332.4 million (Figure B). The additional taxes included \$4.5 million of alternative minimum tax, \$1.5 million of "proxy tax" on certain nondeductible lobbying and political expenditures, and \$0.46 million of "other" taxes.² To arrive at the total tax amount, total tax credits were subtracted from the sum of unrelated business income tax plus additional taxes. Total tax credits equaled \$17.7 million for Tax Year 2010, exceeding the amount of additional taxes reported. Tax credits included the foreign tax credit (\$10.9 million), general business credit (\$4.9 million), credit for prior-year minimum tax (\$1.6 million), and "other" credits (\$0.3 million).

While both total tax and gross unrelated business income increased in 2010, total tax pales in comparison, reflecting around 3 percent of the income received.

Composition of Filers

A variety of tax-exempt organizations file Form 990-T to report unrelated business income and the associated tax (Figure C). Charitable organizations tax-exempt under IRC section 501(c) (3) are the most common Form 990-T filers. Churches are tax exempt under IRC section 501(c)(3) but are not required to apply for exemption. However, churches are required to file Form 990-T if they received \$1,000 or more of gross income from business activities that are considered unrelated to their religious purposes.³

Organizations classified by the Internal Revenue Code as 501(c)(3) made up the most common Form 990-T filers, accounting for nearly 35 percent of returns filed for Tax Year 2010 (Figure D). Additionally, 501(c)(3) charitable organizations accounted for even higher percentages of gross unrelated business income, total unrelated business income tax, and other financial

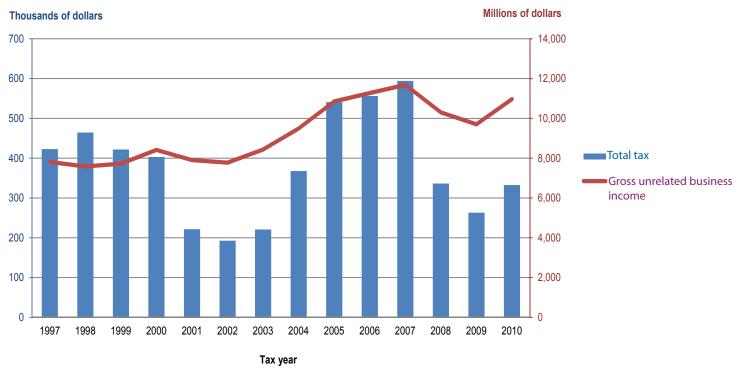

² A membership organization that was tax exempt under Internal Revenue Code sections 501(c)(4), 501(c)(5), or 501(c)(6) was liable for the proxy tax in cases where it did not notify its members of the entire amount of the shares of their dues that were allocated to the nondeductible lobbying and political expenditures. The proxy tax of \$1.4 million used in the total tax computation includes only proxy tax reported by Form 990-T filers with gross unrelated business income greater than the \$1,000 filing threshold. Filers that reported gross unrelated business income less than the \$1,000 filershold were not eligible for selection into the Statistics of Income (SOI) sample. Therefore, proxy tax reported by organizations that had no unrelated business income or those that had unrelated business income less than the filing threshold is not included.

³ Most tax-exempt organizations with receipts more than \$50,000 are required to file an annual Form 990, *Return of Organization Exempt From Income Tax*, or Form 990-EZ, *Short Form Return of Organization Exempt From Income Tax* (used by organizations with annual gross receipts of less than \$500,000 and total end-of-year assets of less than \$200,000). Private foundations, which are exempt under section 501(c)(3), file the information return Form 990-PF, *Return of Private Foundation or Section 4947(a)(1) Nonexempt Charitable Trust Treated as a Private Foundation*. Charitable remainder trusts, a type of Internal Revenue Code section 4947(a)(2) "split-interest trust," were required to report unrelated business income on Form 1041, *Estate and Trust Income Tax Return of Certain Excise Taxes Under Chapters 41 and 42 of the Internal Revenue Code*. Published statistical reports on charitable and other nonprofit organizations, private foundations, and split-interest trusts are available from the Tax Stats pages of the IRS Website at <u>http://www.irs.gov/taxstats</u> and are also available on the site in a "snapshot" page that provides data highlights and products.

Unrelated Business Income Tax Returns: Gross Unrelated Business Income and Total Tax, Tax Years 1997–2010

[Total tax is in thousands of dollars; gross unrelated business income is in millions of dollars]

SOURCE: IRS, Statistics of Income Division, Tax Exempt Organizations, Unrelated Business Income, February 2014.

items for Tax Year 2010. Traditional Individual Retirement Accounts (IRAs), exempt under section 408(e) (18 percent), and social and recreational clubs, exempt under section 501(c)(7) (13 percent), accounted for the next-largest percentages of all Tax Year 2010 Forms 990-T filed.

While total number of returns filed has had some up and down fluctuations, the number of 501(c)(3) returns has steadily risen over the past few years with smaller variations (Figure E).

A look at selected financial items for Tax Year 2010, including gross unrelated business income and its components, the ratio of investment income to gross unrelated business income, total deductions, and unrelated business income tax, shows that charitable organizations accounted for 65 percent of the almost \$11.0 billion in gross unrelated business income reported for the year (Figure F). They claimed 67 percent of total deductions and reported 57 percent of total unrelated business income tax. Charitable organizations also reported 53 percent of total investment income for Tax Year 2010. However, investment income represented only a small percentage, about 15 percent, of gross unrelated business income reported by charitable organizations. Generally, organizations that were organized as taxexempt trusts derived larger percentages of their gross unrelated business income from investments. For example, traditional IRAs reported more than 96 percent of their gross unrelated business income as investment income.

Income Information, by Entity Type

A number of criteria, such as point of origination and membership status, contribute to a tax-exempt entity's choice of organizational structure. Organizations that hold funds in trust for beneficiaries are typically organized as trusts. For example, a voluntary employee beneficiary association (VEBA), exempt under Internal Revenue Code section 501(c)(9), provides a variety of supplemental employee benefits such as health, life, or accident insurance. However, for most groups, a corporate organizational structure is more beneficial, offering features such as liability protection and lower tax rates.

Generally, organizations are taxed based upon their structures and tax-exempt organizations' unrelated business taxable income is subject to the same tax rates as income reported by for-profit filers with similar organizational structures. Those classified as tax-exempt trusts pay taxes on their unrelated business income at the same rates as estate and trust filers, while all other exempt organizations classified as nonprofit corporations pay taxes at the corporate rate. Tax-exempt organizations that paid taxes at the corporate rate accounted for nearly 78 percent of all Forms 990-T filed for Tax Year 2010. Tax-exempt trusts accounted for the additional 22 percent of Forms 990-T filed

Figure C Types of Tax-Exempt Organizations Subject to the Unrelated Business Income Tax Provisions, by Internal Revenue Code Section

Code section	Description of organization	General nature of activities Fiduciary agent for accounts used in conjunction with high-deductible health insurance plans to save funds for future medical expenses				
220(e)	Archer Medical Savings Accounts (MSA)					
401(a)	Qualified pension, profit-sharing, or stock bonus plans	Fiduciary agent for pension, profit-sharing, or stock bonus plans				
408(e)	Traditional Individual Retirement Accounts (IRA)	Fiduciary agent for retirement funds				
408A	Roth Individual Retirement Accounts (IRA)	Fiduciary agent for retirement funds; subject to same rules as traditional IRA except contributions are not tax deductible and qualified distributions are tax free				
501(c)(2)	Title-holding corporations for exempt organizations	Holding title to property for exempt organizations				
(3)	Religious, educational, charitable, scientific, or literary organizations; organizations that test for public safety. Also, organizations that prevent cruelty to children or animals, or foster national or international amateur sports competition	Activities of a nature implied by the description of the class of organization				
(4)	Civic leagues, social welfare organizations, and local associations of employees	Promotion of community welfare and activities from which net earnings are devoted to charitable, educational, or recreational purposes				
(5)	Labor, agricultural, and horticultural organizations	Educational or instructive groups whose purpose is to improve conditions of work, products, and efficiency				
(6)	Business leagues, chambers of commerce, real estate boards, and like organizations	Improving conditions in one or more lines of business				
(7)	Social and recreational clubs	Pleasure, recreation, and social activities				
(8)	Fraternal beneficiary societies and associations	Lodges providing for payment of life, health, accident, or other insurance benefits to members				
(9)	Voluntary employees' beneficiary associations (including Federal employees' voluntary beneficiary associations formerly covered by section 501(c)(10))	Providing for payment of life, health, accident, or other insurance benefits to members				
(10)	Domestic fraternal beneficiary societies and associations	Lodges, societies, or associations devoting their net earnings to charitable, fraternal, and other specified purposes, without life, health, or accident insurance benefits to members				
(11)	Teachers' retirement fund associations	Fiduciary associations providing for payment of retirement benefits				
(12)	Benevolent life insurance associations, mutual ditch or irrigation companies, mutual or cooperative telephone companies, and like organizations	Activities of a mutually beneficial nature implied by the description of the class of organization				
(13)	Cemetery companies	Arranging for burials and incidental related activities				
(14)	State-chartered credit unions and mutual insurance or reserve funds	Providing loans to members or providing insurance of, or reserve funds for, shares or deposits in certain banks or loan associations				
(15)	Mutual insurance companies or associations other than life, if written premiums for the year do not exceed \$350,000	Providing insurance to members, substantially at cost				
(16)	Corporations organized to finance crop operations	Financing crop operations in conjunction with activities of a marketing or purchasing association				
(17)	Supplemental unemployment benefit trusts	Fiduciary agent for payment of supplemental unemployment compensation benefits				
(18)	Employee-funded pension trusts (created before June 25, 1959)	Providing for payments of benefits under a pension plan funded by employe				
(19)	Posts or organizations of past or present members of the armed forces	Providing services to veterans or their dependents; advocacy of veteran's issues; and promotion of patriotism and community service programs				
(21)	Black Lung Benefit Trusts	Providing funds to satisfy coal mine operators' liability for disability or death due to black lung disease				
(22)	Withdrawal liability payment funds	Providing funds to meet the liability of employers withdrawing from a multiple employer pension fund				
(23)	Associations of past and present members of the armed forces founded before 1880	Providing insurance and other benefits to veterans or their dependents				
(24)	Trusts described in section 4049 of the Employee Retirement Income Security Act of 1974	Providing funds for employee retirement income				
(25)	Title-holding corporations or trusts with no more than 35 shareholders or beneficiaries and only one class of stock or beneficial interest	Acquiring real property and remitting all income earned from such property one or more exempt organizations; pension, profit-sharing, or stock bonus plans; or governmental units				

Figure C—Continued

Types of Tax-Exempt Organizations Subject to the Unrelated Business Income Tax Provisions, by Internal Revenue Code Section— Continued

Code section	Description of organization	General nature of activities
(26)	State-sponsored high-risk health insurance plans	Providing coverage for medical care on a not-for-profit basis to residents with pre-existing medical conditions that resulted in denied or exorbitantly priced traditional medical care coverage
(27)	State-sponsored workers' compensation reinsurance plans	Pooled employers' funds providing reimbursements to employees for losses arising under workers' compensation acts; also, State-created, -operated, and -controlled organizations providing workers' compensation
529(a)	Qualified State tuition plans	State- and agency-maintained plans that allow individuals to purchase credits or certificates, or make contributions to an account, to pay for future
530(a)	Coverdell Education Savings Accounts	Fiduciary agent for accounts created for the purpose of paying qualified higher education expenses of a designated beneficiary

NOTES: Corporations that are organized under an Act of Congress, and are instrumentalities of the United States, described in section 501(c)(1) of the Internal Revenue Code, are not subject to unrelated business income taxation. Prepaid legal service funds, previously described in section 501(c)(20) of the Internal Revenue Code, were no longer tax exempt effective for tax years beginning after June 30, 1992.

[1] This category includes organizations described under sections 501(c)(2), 501(c)(8)-(18), 501(c)(2)-(27), as well as Archer Medical Savings Accounts, exempt under section 220(e); qualified pension, profit-sharing, or stock bonus plans, exempt under section 401(a); Roth Individual Retirement Arrangements, exempt under section 408A, State-sponsored qualified tuition plans, exempt under section 529(a); and Coverdell Education Savings Accounts, exempt under section 530(a). See Figure C for additional information on the types of organizations that are required to file Form 990-T.

[2] Total investment income includes net capital gain income, combined partnership and S corporation income, unrelated debt-financed income, and investment income of Internal Revenue Code section 501(c)(7),(9), and (17) organizations. Other types of tax-exempt organizations' investment income ordinarily are not taxed, unless the investments were purchased with borrowed funds, i.e., debt-financed.

NOTES: Detail may not add to totals because of rounding. See the Explanation of Selected Terms section of this article for definitions of gross unrelated business income, total deductions, unrelated business taxable income (less deficit), unrelated business income tax, and total tax.

for the year, which is a slightly larger percentage than the previous year. Traditional IRAs, voluntary employees' beneficiary associations, pension, profit sharing, and stock bonus plans accounted for the majority of the 9,699 tax-exempt trusts that filed Form 990-T. These organizations represented more than 79 percent of all trusts that filed the return for the year.

Investment income has shown dramatic fluctuating over the last 10 years, with trusts and corporations continuously interchanging as the largest contributor (Figure G).

Generally, corporate filers report the majority of gross unrelated business income, total deductions, positive unrelated business taxable income, and unrelated business income tax. For Tax Year 2010, corporate filers reported \$10.0 billion in gross unrelated business income, \$10.2 billion in total deductions, and \$242.5 million in unrelated business income tax. Corporate filers reported a relatively modest increase, 10 percent, in gross unrelated business income between Tax Years 2009 and 2010. Trust filers reported a more significant increase of 50 percent. Investment income represented 87 percent of gross unrelated income reported by trusts, compared to less than 10 percent for corporations (Figure G). However, the amount reported, \$856.6 million in investment income, represents an increase of 50 percent over the previous year. Of the \$2.0 billion in investment income reported for Tax Year 2010, corporate filers reported the majority, \$1.1 billion.

Data Sources and Limitations

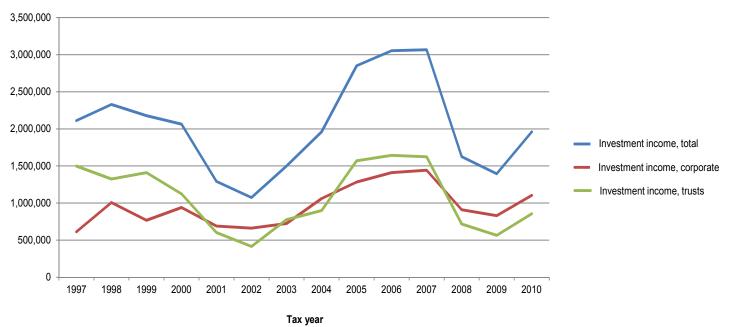

To report unrelated business income of \$1,000 (the filing threshold) or more for Tax Year 2010, the required reporting period for trusts, defined in Internal Revenue Code sections 220(e), 401(a), 408(e), 408A, and 530(a), was Calendar Year 2010, and the Form 990-T filing deadline was April 15, 2011. For all other organizations, the required reporting period was any accounting period beginning in Calendar Year 2010 and, thus, ending between December 2010 and November 2011, for full-year return filers. The associated required due dates for filing Tax Year 2010 Forms 990-T generally fell from May 2011 to April 2012, but the IRS routinely granted filing extensions beyond this period to many organizations. Corresponding to the required filing dates, the SOI Tax Year 2010 study sample was drawn from Forms 990-T processed by the IRS throughout Calendar Years 2011 and 2012. Because of the various accounting periods reported by organizations filing a Tax Year 2010 return, the financial activities covered in this article span the period January 2010 through November 2011, although 55 percent of Form 990-T filers had Calendar Year 2010 accounting periods.

SOI drew the sample from Tax Year 2010 Form 990-T records posted to the IRS Business Master File system during 2011 and 2012. Generally, SOI excluded returns filed after Calendar Year 2012 from the sample. However, in some cases,

Figure G

Unrelated Business Income Tax Returns: Investment Income for Tax-Exempt Corporate and Trust Entities, Tax Years 1997–2010 [In thousands of dollars]

Investment Income

SOI added large income-size case returns (over \$500,000 or more of gross unrelated business income) filed after the sampling period closed, before selecting a sample of 7,242 returns from a population of 43,370. After excluding returns that were selected for the sample but later rejected, the resulting sample size was 7,220 returns, and the estimated population size was 43,184. Rejected returns included those that had gross unrelated business income less than the \$1,000 filing threshold; were filed for a part-year 2010 accounting period and a full-year 2010 return was also filed; or were filed for a part-year accounting period that began in a year other than 2010.

The Statistics of Income (SOI) Form 990-T study incorporated a two-stage sample design consisting of a stratified random sample and a special "integrated" sample. SOI designed the stratified random sample to represent the entire population of Form 990-T filers reporting unrelated business income. It designed the integrated sample to gather information on "related" (tax exempt) and "unrelated" (taxable) income and expenses for IRC section 501(c)(3) nonprofit charitable organizations that filed both Form 990 (or Form 990-EZ) and Form 990-T. This integrated sampling program ensured that the SOI sample of Forms 990-T included any unrelated business income tax returns (with gross unrelated business income of \$1,000 or more) filed by organizations whose Form 990 or Form 990-EZ information returns were selected for the separate SOI sample of section 501(c)(3) nonprofit charitable organizations. Organizations exempt under other Code sections were not subjected to the integrated sampling program.

The Form 990-T returns were initially divided into strata, based on gross unrelated business income, and selected using Bernoulli sampling, with sample rates ranging from 3.65 percent to 100 percent. IRC section 501(c)(3) returns not selected randomly were then matched to returns in the Forms 990/990-EZ sample. These linked returns, along with any randomly selected Forms 990-T that also had counterparts in the Forms 990/990-EZ sample, formed the "integrated" IRC section 501(c) (3) portion of the Form 990-T sample.⁴

SOI obtained the information presented in this article from returns as originally filed with the Internal Revenue Service. The amount of total tax liability originally reported on Forms 990-T, as stated in these statistics, may not necessarily be the amount ultimately paid to IRS. Changes in tax liability assessments can be made after the original return is filed, either by the taxpayer on an amended return, by the IRS after examination, or through litigation. The data were subjected to comprehensive testing and correction procedures in order to improve statistical reliability and validity. In most cases, due to time constraints, changes made to the original return as a result of administrative processing, audit procedures, or a taxpayer amendment were not incorporated into the database.

Because the data are based on a sample, they are subject to sampling error. To use these statistics properly, the magnitude of the sampling error, measured by the coefficient of variation (CV), should be taken into account. Figure H shows CVs for selected financial data estimates derived from the Form 990-T stratified random sample. A discussion of the reliability of

Explanation of Selected Terms

This section provides definitions to help the reader understand the terms contained in the article and in Tables 1 through 7 at the end of this article. In some of the following explanations, taxexempt organizations are cited by the Internal Revenue Code section under which they are described. Figure C shows the various types of tax-exempt organizations subject to the unrelated business income tax provisions.

Charitable contributions—To the extent permissible under the Internal Revenue Code, a deduction was allowed for contributions or gifts actually paid within the tax year to, or for the use of, another entity that was a charitable or Governmental organization described in Code section 170(c). A tax-exempt corporation was allowed a deduction for charitable contributions up to 10 percent of its unrelated business taxable income computed without regard to the deduction for contributions. A taxexempt trust was generally allowed a deduction for charitable contributions under the rules applicable to individual taxpayers, except the limit on the deduction was determined in relation to unrelated business taxable income computed without regard to the contributions deduction, rather than in relation to adjusted gross income. Contributions in excess of the respective corporate or trust limitations may be carried over to the next 5 taxable vears, subject to certain rules. The contributions deduction was allowed whether or not the donated income was directly connected with the carrying on of a trade or business.

Cost of sales and services—Cost of sales and services may have included depreciation, salaries and wages, and certain other types of deductible items. For this reason, the total amount shown for some of the separately reported components of total deductions, such as "salaries and wages," may be understated. Cost of sales and services was subtracted from gross receipts from sales and services in computing gross profit (less loss) from sales and services, which is a component of gross unrelated business income.

Gross unrelated business income—This was the total gross unrelated business income prior to reduction by allowable deductions used in computing unrelated business taxable income. All organizations were required to report detailed sources of gross unrelated business income. The components of gross unrelated business income included: gross profit (less loss) from sales and services; capital gain net income; net gain (less loss) from sales of noncapital assets; net capital loss deduction (trusts only); and income (less loss) from partnerships and S corporations. It also included: rental income; unrelated debt-financed income; investment income (less loss) of Internal Revenue Code sections 501(c)(7), (9), and (17) organizations; income (annuities, interest, rents, and royalties) from controlled organizations; "exploited exempt activity" income, except advertising; advertising

income; and "other" income (less loss). (For an explanation of these sources of income, see the separate explanations of each component.)

A tax-exempt organization's income was treated as unrelated business income if it was from a trade or business that was regularly carried on by the organization and that was not substantially related to the performance of the organization's exempt purpose or function (other than that the organization needed the profits derived from the unrelated activity). The term "trade or business" generally comprised any activities carried on for the production of income from selling goods or performing services. These activities did not lose their identity as trades or businesses merely because they were carried on within a larger aggregate of similar activities or within a larger complex of other endeavors that may, or may not, have been related to the exempt purposes of the organization. Soliciting, selling, or publishing commercial advertising, for example, is identified as a trade or business, even though the advertising is published in an exempt organization's periodical that contains editorial material that is related to the organization's exempt purpose.

Investment income (less loss)-Only organizations exempt under Internal Revenue Code sections 501(c)(7), (9), and (17) reported this income. Investment income (less loss) included income, such as gross unrelated debt-financed income, gross income from the ownership or sale of securities, and set-asides deducted from investment income in previous years that were subsequently used for a purpose other than that for which a deduction was allowed. (See, also, the explanation of Set-asides.) All gross rents (except those that were exempt-function income) from investment property of sections 501(c)(7), (9), and (17) organizations were treated as unrelated business income and were reported as "rental income." Organizations exempt under sections other than 501(c)(7), (9), and (17) did not report "investment income (less loss)." Generally, these organizations' investment income (dividends, interest, rents, and annuities) and royalty income were not taxed as unrelated business income, unless it was income, other than dividends, from a controlled organization or debt-financed income, or the rents were of the type described in the explanation of rental income.

Other deductions—This included all types of unrelated business deductions that were not specifically required to be reported elsewhere on the tax return. Examples are fees for accounting, legal, consulting, or financial management services; insurance costs (if not for employee-related benefits); equipment costs; mailing costs; office expenses, such as janitorial services, supplies, or security services; rent; travel expenses; educational expenses; and utilities.

Other income (less loss)—This included all types of unrelated business income that were not specifically required to be reported elsewhere on the tax return. Examples are insurance benefit fees; member support fees; commissions; returned contributions that were deducted in prior years; income from insurance activities that was not properly set aside in prior years; recoveries of bad debts; and refunds of State or local government tax payments, if the payments were previously reported as a deduction. *Proxy tax*—This was a tax on certain nondeductible lobbying and political expenditures. A membership organization that was tax exempt under Internal Revenue Code sections 501(c)(4), 501(c)(5), or 501(c)(6) was liable for the proxy tax if the organization did not notify its members of the shares of their dues that were allocated to the nondeductible lobbying and political expenditures, or if the notice did not include the entire amount of dues that was allocated. The proxy tax was computed as 35 percent of the aggregate amount of nondeductible lobbying expenditures that was not included in the notices sent to the organization's members. The proxy tax was required to be reported on Form 990-T and was included in total tax; however, there was no connection between the proxy tax and the taxation of income from an organization's unrelated business activities.

Total deductions—Total deductions included both deductions reported on the main part of Form 990-T and expense items reported on any of six supporting schedules, which were also part of the tax form. It excluded the costs of sales and services, which the organization subtracted from gross receipts from sales and services in computing gross profit (less loss) from sales and services, a component of gross unrelated business income. (See the explanation of Cost of sales and services.)

Total tax—Total tax was unrelated business income tax less the foreign tax credit, general business credit, credit for prioryear minimum tax, and other allowable credits, plus the "proxy tax" on certain lobbying and political expenditures, the "alternative minimum tax," and "other" taxes.

Unrelated business activity-A business activity is considered unrelated if it does not contribute importantly (other than the production of funds) to accomplishing an organization's charitable, educational, or other purpose that is the basis for the organization's tax exemption. In determining whether activities contribute importantly to the accomplishment of an exempt purpose, the size, extent, and nature of the activities involved must be considered in relation to the size, extent, and nature of the exempt function that they intend to serve. To the extent an activity is conducted on a scale larger than is reasonably necessary to perform an exempt purpose, it does not contribute importantly to the accomplishment of the exempt purpose. The part of the activity that is more than needed to accomplish the exempt purpose is an unrelated trade or business. Whether an activity contributes importantly depends in each case on the facts involved. See IRS Publication 598, Tax on Unrelated Business Income of Exempt Organizations, for additional information on unrelated business income and tax.

The following is a case example from Publication 598. An American folk art museum operates a shop in the museum that sells reproductions of works in the museum's own collection and works from the collections of other art museums. In addition, the museum sells souvenir items of the city where the museum is located. The sale of the reproductions, regardless of which museum houses the original works, is considered to be "related" because it contributes importantly to the achievement of the museum's exempt educational purpose by making works of art familiar to a broader segment of the public, thereby enhancing the public's understanding and appreciation of art. However, the sale of souvenir items depicting the city in which the museum is located is considered to be "unrelated" because it has no causal relationship to art or to artistic endeavor, and, therefore, does not contribute importantly to the accomplishment of the museum's exempt educational purposes.

Unrelated business income—See definition of gross unrelated business income.

Unrelated business income tax—This was the tax imposed on unrelated business taxable income. It was determined based on the regular corporate or trust income tax rates that were in effect for the 2010 Tax Year, as shown in the following schedules. Trusts that were eligible for the maximum 28-percent tax rate on capital gain net income figured their tax based on Schedule D of Form 1041, U.S. Income Tax Return for Estates and Trusts.

Tax Rates for Corporations

Amount of unrelated business taxable income is:

			Of the amount
Over—	But not over—	Tax is:	over-
\$ 0	\$50,000	+ 15%	\$ 0
50,000	75,000	\$7,500 + 25%	50,000
75,000	100,000	13,750 + 34%	75,000

11,200	1, 905.50 + 33%	8,200
_	2,895.50 + 35%	11,200
	\$2,300 5,350 8,200	\$2,300 + 15% 5,350 \$345 + 25% 8,200 1,107.50 + 28% 11,200 1,905.50 + 33%

Unrelated business taxable income (less deficit)(referenced as Net unrelated business taxable income)—This was gross income derived from any unrelated trade or business regularly carried on by an exempt organization less deductions directly connected with carrying on the trade or business and less other allowable deductions not directly connected. On a return-by-return basis, the result of this computation was either positive (unrelated business taxable income), negative (deficit), or zero. Taxable income was subject to the unrelated business income tax.

Jael Jackson is an economist with the Special Studies Special Projects Section. This article was prepared under the direction of Melissa Ludlum, Chief.

d-Data deleted to avoid disclosure of information for specific taxpayers. However, data are included in appropriate totals.

[1] Excludes cost of sales and services, which was subtracted from gross receipts from sales and services in computing gross profit from sales and services. Gross profit from sales and services was a component of gross unrelated business income (UBI). Cost of sales and services can include amounts attributable to depreciation, salaries and wages, and certain other deductible items. For all exempt organizations reporting gross UBI, cost of sales and services was \$2.5 billion.

[2] Includes both expenses and deductions reported on Form 990-T, lines 13(B), 29, 31, and 33.

[3] Excludes data from 10,042 returns with equal amounts of gross UBI and total deductions.

[4] Includes data from returns with positive amounts of unrelated business taxable income only.

[5] Total tax is the regular unrelated business income tax after reduction by any tax credits (foreign tax credit, general business credit, prior-year minimum tax credit, and other allowable credits), plus the "alternative minimum tax," the "proxy" tax on nondeductible lobbying and political expenditures, and "other" taxes. The proxy tax was reported on Form 990-T and was included in total tax, but it had no connection to the tax on unrelated business income or an organization's involvement in unrelated business activities. For exempt organizations reporting gross UBI above the \$1,000 filing threshold, total proxy tax was \$1.5 million.
[6] Corporations that are organized under an Act of Congress and are instrumentalities of the United States, described in section 501(c)(1) of the Internal Revenue Code, are not subject to unrelated business income taxation.

[7] Prepaid legal service funds, previously described in section 501(c)(20) of the Internal Revenue Code, were no longer tax-exempt, beginning with tax years after June 30, 1992. Therefore, these organizations are not listed in this table.

NOTES: Detail may not add to totals because of rounding. For more complete descriptions of the types of tax-exempt organizations filing Form 990-T, by the Internal Revenue Code section describing them, see the Appendix to the most recent Unrelated Business Income Tax (UBIT) article listed under Publications and Papers on the Exempt Organizations' UBIT Statistics page of the IRS Website (http://www.irs.gov/uac/SOI-Tax-Statis-Exempt-Organizations'-Unrelated-Business-Income-(UBI)-Tax-Statistics).

[1] Excludes cost of sales and services, which was subtracted from gross receipts from sales and services in computing gross profit from sales and services. Gross profit from sales and services was a component of gross unrelated business income. Cost of sales and services can include amounts attributable to depreciation, salaries and wages, and certain other deductible items. For exempt organizations reporting positive unrelated business taxable income, cost of sales and services was \$9.0 million, 99 percent of which was attributable to tax-exempt corporations.

[2] Includes both expenses and deductions reported on Form 990-T, lines 13(B), 29, 31, and 33.

[3] Total tax is the regular unrelated business income tax after reduction by any tax credits (foreign tax credit, general business credit, prior-year minimum tax credit, and other allowable credits), plus the "alternative minimum tax," the "proxy" tax on nondeductible lobbying and political expenditures, and "other" taxes. The proxy tax was reported on Form 990-T and was included in total tax; however, it had no connection to the tax on unrelated business income or an organization's involvement in unrelated business activities. For exempt organizations reporting positive unrelated business taxable income, total proxy tax was \$1.5 million.

[4] The gross unrelated business income (UBI) brackets of "\$1,000 under \$10,001" and "\$10,001 under \$100,000" reflect the different filing requirements for organizations with gross UBI of \$10,000 or less (not required to report itemized expenses and deductions, or to complete return schedules) and all other Form 990-T filers (required to file a more detailed "complete" return). Organizations with gross UBI below \$1,000 were not required to file Form 990-T.

NOTE: Detail may not add to totals because of rounding.

* Estimate should be used with caution because of the small number of sample returns on which it is based.

d-Data were deleted to prevent disclosure of individual taxpayer data. However, the data are included in the appropriate totals.

[1] Excludes cost of sales and services, which was subtracted from gross receipts from sales and services in computing gross profit from sales and services. Gross profit from sales and services was a component of gross unrelated business income (UBI). Cost of sales and services can include amounts attributable to depreciation, salaries and wages, and certain other deductible items. For all exempt organizations reporting gross UBI, cost of sales and services was \$2.5 billion.

[2] Includes both expenses and deductions reported on Form 990-T, lines 13(B), 29, 31, and 33.

[3] Excludes data from 10,042 returns with equal amounts of gross UBI and total deductions.

[4] Includes data from returns with positive amounts of unrelated business taxable income only.

[5] Total tax is the regular unrelated business income tax after reduction by any tax credits (foreign tax credit, general business credit, prior-year minimum tax credit, and other allowable credits), plus the "alternative minimum tax," the "proxy" tax on nondeductible lobbying and political expenditures, and "other" taxes. The proxy tax was reported on Form 990-T and was included in total tax; however, it had no connection to the tax on unrelated business income or an organization's involvement in unrelated business activities. For exempt organizations reporting gross UBI above the \$1,000 filing threshold, total proxy tax was \$1.5 million.

[6] Section 501(c)(7) organizations are social and recreational clubs; section 501(c)(9) organizations are voluntary employees' beneficiary associations; and section 501(c)(17) organizations are supplemental unemployment benefit trusts. See Table 1 for separate data on each of these organizations.

NOTE: Detail may not add to totals because of rounding.

** Data in adjacent variable columns are combined to avoid disclosure of information about specific taxpayers.

[1] The gross unrelated business income (UBI) brackets of "\$1,000 under \$10,001" and "\$10,001 or more" reflect the different filing requirements for organizations with gross UBI of \$10,000 or less (not required to report itemized expenses and deductions, or to complete return schedules) and all other Form 990-T filers (required to file a more detailed "complete" return). Organizations with gross UBI below \$1,000 were not required to file Form 990-T.

[2] Property other than capital assets generally included property of a business nature, in contrast to personal property and investment property, which were capital assets.

[3] Income from real property and personal property leased with real property.

[4] Reported by Internal Revenue Code section 501(c)(7) social and recreational clubs, section 501(c)(9) voluntary employees' beneficiary associations, and section 501(c)(17) supplemental unemployment benefit trusts only. See Table 1 for separate data on each of these organizations.

[5] Annuities, interest, rents, and royalties.

NOTE: Detail may not add to totals because of rounding.

Interest	236	9,362	214	31,929	73	67,91			
Taxes and licenses paid deduction	755	25,364	658	43,647	207	50,07			
Depreciation	598	37,760	597	88,810	184	95,37			
Depletion	* 9	* 908	* 16	* 4,883	* 7	* 7,92			
Contributions to deferred compensation plans	159	1,393	135	5,526	25	10,58			
Contributions to employee benefit programs	518	54,351	604	101,366	185	144,21			
Net operating loss deduction	247	32,870	301	126,640	88	193,55			
Other deductions	1,049	355,036	1,033	1,046,181	302	2,307,20			
Deductions not directly connected with UBI	676	55,496	623	137,982	191	346,41			
Specific deduction	541	535	465	461	144	14			
Charitable contributions	** 185	** 24,833	190	16,346	87	73,61			
Set-asides [7]	**	**	29	39,602	12	141,37			
Excess exempt-activity expenses [8] * Estimate should be used with caution because of the small number of sample	158	30,129	174	81,573	50	131,28			

* Estimate should be used with caution because of the small number of sample returns on which it is based.

** Data in adjacent items are combined to avoid disclosure of information about specific taxpayers.

N/A-Not applicable.

[1] Organizations with gross UBI between \$1,000 (the filing threshold) and \$10,000 were required to report only totals for expenses and deductions (except for the specific deduction and net operating loss deduction, which all organizations reported separately). Organizations with gross UBI over \$10,000 were required to report each expense and deduction item separately, as shown in rows 14 through 39. [2] Excludes cost of sales and services, which was subtracted from gross receipts from sales and services in computing gross profit from sales and services.

Gross profit from sales and services was a component of gross unrelated business income (UBI). Cost of sales and services can include amounts attributable to depreciation, salaries and wages, and certain other deductible items. For all exempt organizations reporting gross UBI, cost of sales and services was \$2.5 billion.

[3] Includes both expenses and deductions reported on Form 990-T, lines 13(B), 29, 31, and 33.

[4] Excludes \$74.1 million of cost of sales and services reported by organizations with gross UBI of \$10,000 or less. See footnote 2 for explanation.

[5] Excludes \$2.4 billion of cost of sales and services reported by organizations with gross UBI over \$10,000. See footnote 2 for explanation.

[6] This deduction was required to be reported as a lump-sum total only and may have included component deductions that were of the same type shown elsewhere in this table. For example, if deductions "allocable to rental income" included depreciation, then that amount of depreciation would not be included in the separately reported item, "depreciation." Therefore, the total amount shown for some of the separately reported deductions may be understated.

[7] Reported by Internal Revenue Code section 501(c)(7) social and recreational clubs, section 501(c)(9) voluntary employees' beneficiary associations, and section 501(c)(17) supplemental unemployment benefit trusts only. See Table 1 for separate data on each of these organizations.

[8] Includes excess exempt-activity expenses from Form 990-T, Schedule I, and excess readership costs from Form 990-T, Schedule J.

NOTE: Detail may not add to totals because of rounding.
