REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE

ON THE

OPERATIONS OF THE INTERNAL REVENUE SYSTEM

FOR THE

YEAR ENDING JUNE 30, 1866.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1866.

REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE,
Washington, November 30, 1866.

I have delayed the preparation of my annual report for the fiscal year 1866 somewhat past the time when required by law, in order to avail myself of the latest returns from the officers of the several collection districts, and to present so far as possible, some of the results of the law as amended by the act of July 13, which mainly took effect on the 1st of August last.

With the single exception of the relief of paraffine oil and crude petroleum from tax by the joint resolution of May 9, 1866, the receipts of the last fiscal year were from the law as amended by the act of March, 1865. For the first time, therefore, in the history of the office, the tabular statements comprised in its annual report substantially exhibit the proceeds, from various sources, of statutes existing through an entire year. Their aggregate amount is considerably in excess of the estimate at the date of my last report, and, as I have reason to believe, of the estimate of others who had given thought to the subject and were most sanguine of the successful operation of the law. This excess came largely from manufactures stimulated by the opening of southern markets, and from cotton, of which there was a greater supply than was anticipated. The amount itself is not far short of the revenue for the two years next preceding, and very considerably in excess of the British revenue for the year 1866 from customs, excise, stamps, property tax, and post office. Indeed, the entire revenues of the empire exceeded those of this office only in the sum of twenty-two million dollars.

It cannot be denied that the payment of this enormous tax has pressed heavily upon all classes of our citizens; but they have been encouraged by the remembrance that not only were the current expenses of the government defrayed thereby, but that the national debt, incurred for the preservation of the national life, was thus gradually wearing away.

The tabular statements which I herewith respectfully transmit, are abstracts of accounts kept in this office, as required by law, and which it is made the duty of the Secretary of the Treasury, annually, in the month of December, to lay before Congress.

They are—

Table A, showing the receipts by collectors from each specific source of revenue and the amounts refunded in each collection district, State, and Territory of the United States for the fiscal year ending June 30, 1866.

Table B, collections from banks, insurance, railroad, canal, and turnpike companies.

Table C, monthly receipts of internal revenue tax on salaries.

Table D, number and value of internal revenue stamps procured monthly by the Commissioner, and monthly receipts from purchasers of internal revenue stamps, the commissions allowed on the same, and the receipts from agents for the sale of stamps.

Table E, recapitulation of collections of internal revenue from all sources for the year ending June 30, 1866.

Table F, comparative table showing the territorial distribution of internal revenue from various sources in the United States.

Table G, the ratio of the receipts from specific sources to the aggregate of all collections for the years 1865 and 1866.

Table H, the ratio of the gross collections from the several sources of revenue to the aggregate collections, exclusive of the receipts from passports, salaries, stamps, United States marshals, special agents of the treasury, and the Solicitor of the Treasury, for the fiscal years ending June 30, 1864, 1865, and 1866, respectively.

Table I, total collections from each specific source of revenue for the fiscal years ending June 30, 1863, 1864, 1865, and 1866, respectively.

The proper accounting officers of the treasury will present, more in detail than I am able to do, the necessary account of expenditures.

I have thought it advisable to present a statement of the aggregate receipts of internal revenue for the past year, and of their principal sources, in connection with a like statement for the years 1864 and 1865, that comparisons may be made of the proceeds of different laws.

AGGREGATE RECEIPTS.

The aggregate receipts of internal revenue were for the year—

1864	$117,145,748 52
1865	211,129,529 17
1866	*310,906,984 17

These amounts include drawback upon goods exported and amounts refunded as erroneously assessed and collected, but are exclusive of the direct tax upon lands, and the duty upon the circulation and deposits of national banks. These amounts are as follows:

	Drawback.	Amount refunded.
1864	$687,431 99	$237,470 37
1865	698,655 36	422,734 36
1866	798,866 73	514,844 43

RECEIPTS FROM SPECIAL SOURCES.

The amounts received from several of the most important sources of revenue are herewith presented, with such explanatory remarks as are deemed necessary:

Banks, Trust Companies, and Savings Institutions.

	1864.	1865.	1866.
Dividends and additions to surplus	$1,577,010 73	$3,987,209 65	$4,186,023 72
Circulation	2,056,996 30	1,993,661 84	990,328 11
Deposits	780,723 52	2,043,841 08	2,099,635 83
Capital		903,367 98	374,074 11

During the year 1864 the tax upon dividends was three per centum, while in 1865 and 1866 it was five per centum.

* The discrepancy between these amounts and those reported from the office of the Secretary of the Treasury arises from the fact that the same receipts are not always entered upon the books of the two offices on the same day. Similar discrepancies from the same cause will be noticed elsewhere

The tax upon circulation and deposits was increased for the last two years. The diminution of the receipts is due to the conversion of the State banks into national associations, which pay the tax upon their capital, circulation, and deposits to the Treasurer of the United States.

Capital was first taxed by the act of June 30, 1864.

RAILROADS.

	1864.	1865.	1866.
Dividends	$927,393 38	$2,470,816 89	$2,205,804 45
Interest on bonds	596,859 09	847,683 61	1,255,916 98

The receipts for 1864 were from the tax at three per centum; those for the two subsequent years at five per centum. The law of June 30, 1864, first imposed a duty upon profits carried to the account of any fund, or used in construction; and the receipts from that source are included in the dividends of 1865 and 1866.

INSURANCE COMPANIES.

	1864.	1865.	1866.
Dividends and additions to surplus	$445,366 17	$764,658 38	$767,231 12
Premiums and assessments	523,582 42	961,502 99	1,169,722 23

The taxation of dividends of insurance companies during these three years was the same as that of banks.

The tax upon the gross receipts of premiums and assessments was one per centum for the year 1864; afterwards, it was one and one-half per centum.

SALARIES OF PERSONS EMPLOYED IN THE SERVICE OF THE UNITED STATES.

1864	$1,705,124 63
1865	2,826,333 37
1866	3,717,394 69

The tax was three per centum for the year 1864, subsequently five, and was uniformly imposed upon the excess of compensation above the rate of six hundred dollars per annum. The increase for the year 1866 above the previous year is in part due to the three months' extra pay allowed to those honorably discharged from the military and naval service, the late settlements of many disbursing officers, and the large amounts paid as prize money for vessels captured prior to, but adjudicated upon during, that year.

REVENUE STAMPS.

1864	$5,894,945 14
1865	11,162,392 14
1866	15,044,373 18

The receipts of 1865 were increased by additions to the stamp schedules under the act of 1864, and those of 1866 above those of 1865 by the use of stamps in the States prior to that time in rebellion. During the last year the sum of $1,702,442 63 has been received from the sale of one cent stamps, and that of $3,593,465 82 for stamps from special dies for matches, perfumery, cosmetics, medicines, and other proprietary articles. The double penalty imposed by law is a great security to its faithful observance. Because of the invalidity of an unstamped instrument, the party receiving it, and to whom it may be of value, is likely to insist upon the attachment of the appropriate stamp. It is this penalty upon the receiver which especially enforces the requirements of the statute. I believe they have been more generally regarded during the past year than in any one preceding.

ARTICLES IN SCHEDULE A.

1864	$520,283 35
1865	779,901 79
1866	1,692,791 65

Gold watches and piano-fortes were added to the schedule before the annual returns were made in 1865; and in 1866 $426,557 17 were received from the former, and from the latter $403,572 27. The receipts of the year 1865 were but slightly affected by the addition, as they include but a very small portion of the proceeds of the annual list of that year. The annual list of May, 1865, was mainly collected after June 30th, and increased the receipts of the fiscal year 1866.

LICENSES.

1864	$7,145,388 71
1865	12,598,681 25
1866	18,015,743 32

The increase of receipts in 1865 was due to the increased classes of persons subject to charge under the act of 1864; to the increase of the license duty upon several kinds of business, and to the reassessment of wholesale dealers under the same statute. The increase in 1866 arose especially from the operations of the law over that portion of the South from which, prior to that time, it had been shut out by the rebellion.

INCOME.

1864	$14,919,279 58
1865	20,567,350 26
1866	60,894,135 85

The annual list, so called, comprises schedule A, licenses, and income.

The receipts for the fiscal year 1864 were mainly from the annual assessments of 1863 upon the income of 1862. Receipts of 1865 were from the income of 1863, and those of 1866 largely from that of 1864.

Of the collections in 1864 $6,913,834 88 were from incomes taxed at five per centum, $7,930,070 77 at three per centum, and $75,373 93 at one and one-half per centum. Of those of 1865 $801,941 99 were returned at ten per centum, $9,934,758 55 at five per centum, $9,697,246 96 at three per centum, and $133,402 76 at one and one-half per centum. Of the receipts in the fiscal year 1866 $26,570,809 58 were at five per centum and $34,501,122 67 at ten per centum.

I have endeavored to ascertain the precise number of persons who were assessed for an income-tax in the annual list of 1866, but the assessors' reports, especially those of the Pacific slope and other remote districts, have not all been received.

The country is now divided into two hundred and forty collection districts. From one hundred and eighty-five of them the desired returns have been received.

Of the $39,953,440 51 collected in the United States up to November first—as reported to this office by the several collectors—$34,798,726 16, or nearly eighty-seven per centum of the entire amount, was assessed in these one hundred and eighty-five districts; and of the persons who were assessed in these districts 190,189 returned an income of less than one thousand dollars; 162,513 of more than one thousand and not more than five thousand dollars; and 31,009 of over five thousand dollars. These sums were all in excess of six hundred dollars exempt by law from taxation. This ratio will be changed somewhat when the full returns are in, as a greater proportion of the largest incomes are acquired in the older States.

The whole amount received from the tax upon incomes since the passage of the law of 1862, and including the collections during the present fiscal year, already reported to this office, is $164,865,018 05.

IRON AND STEEL IN THE VARIOUS FORMS WHICH ARE SPECIFICALLY NAMED IN THE LAW.

1864	$3,694,168 49
1865	9,218,808 63
1866	13,728,133 36

The tax upon these articles was increased at every session of Congress until the last, when it was very largely reduced. The increased receipts were due not more to the increase of production than to the additional number of articles made taxable and the increase of the duties upon those previously taxed.

REFINED PETROLEUM AND COAL OIL.

1864	$2,255,328 80
1865	3,047,212 77
1866	5,317,396 05

Refined petroleum paid ten cents per gallon, and distilled coal oil eight cents, until June 30, 1864, when the rates were respectively changed to twenty cents and fifteen cents.

The receipts from these articles, it will be seen, are rapidly advancing, indicating their largely increasing consumption.

CIGARS AND CHEROOTS.

1864	$1,255,424 79
1865	3,072,476 56
1866	3,474,438 94

During the year 1864 and for ten months of the year 1865 the receipts were from specific taxes, graduated by the different values of the cigars. These taxes were largely advanced in 1864, and by the act of March 3, 1865, a uniform rate was imposed of ten dollars per thousand. The receipts after May first of that year were almost entirely from that tax.

CHEWING AND SMOKING TOBACCO.

1864	$7,086,684 74
1865	8,017,020 63
1866	12,339,921 93

The tax upon smoking tobacco was increased from five to twenty-five cents per pound in June, 1864, and to thirty-five in March, 1865, except upon that made exclusively of stems, which remained at twenty-five cents.

Fine-cut chewing and plug mainly paid fifteen cents per pound, until June, 1864; after that, thirty-five, until March, 1865, when the tax was increased to forty cents.

The production of taxable tobacco in 1863 was 23,680,056 pounds; that of 1864 was 63,372,426 pounds, of which more than 10,000,000 pounds were returned in June, to avoid the additional duty under the new law then shortly to take effect; that of 1865 was 36,639,020 pounds; and that of 1866 35,748,351 pounds.

Large quantities of tobacco manufactured in the South before the war and during its progress were thrown upon the market during the past year, to the great derangement of trade and the embarrassment of regular manufacturers.

Regulations, so far as consistent with the law, were adopted by the department for the collection of the required duties when this tobacco came in competition with that which had paid the tax, but its sale and consumption in the South were permitted without charge. That manufactured and removed from the place of manufacture prior to September 1, 1862, was, of course, not anywhere subject to tax, and it was this which so seriously disturbed the interests of manufacturers. It has now, however, nearly, if not altogether, disappeared from the market, and most of the tobacco which is now consumed secures revenue to the government. I anticipate largely increased receipts from this source.

FERMENTED LIQUORS.

1864	$2,223,719 73
1865	3,657,181 06
1866	5,115,140 49

During the year 1865–'66 the tax was one dollar per barrel. The collections for ten months of the year 1864 were at the rate of sixty cents. This increase for the year 1866 came both from increased consumption and from improved thoroughness in the operation of the law.

DISTILLED SPIRITS.

1864	$28,431,797 83
1865	15,995,701 66
1866	29,198,578 15

In 1864 the tax was twenty cents per gallon, until March 7 of that year, when it was raised to sixty cents. From July 1, 1864, to January 1, 1865, it was one dollar and fifty cents, and afterwards two dollars.

Much of the consumption of 1865 was of spirits distilled in previous years, in anticipation of increased tax. The receipts during the several months of the last fiscal year were as follows:

July	$352,252 15
August	267,457 88
September	755,662 06
October	1,366,025 23
November	3,067,165 80
December	3,763,259 71
January	3,753,393 91
February	3,654,700 47
March	2,951,343 44
April	3,086,176 27
May	3,036,954 69
June	3,144,186 54

During the current fiscal year the receipts were in—

July	$3,015,598 30
August	2,597,645 50
September	3,054,227 50
October, (so far as reported)	2,502,943 32

These amounts are all exclusive of the tax upon spirits distilled from apples, peaches, and grapes. From this it appears that the total receipts from distilled spirits for the year from November 1, 1865, to November 1, 1866, were $37,627,595 45.

There is more uniformity in the monthly receipts than in the distillation of spirits—a fact which arises from the use of bonded warehouses, out of which the

wines are not withdrawn until the same are wanted for consumption, when the tax is paid.

There is probably no tax imposed by the law which is so largely evaded by those subject to its provisions as the tax upon distilled spirits. Nor is there any from the evasion of which so large loss inures to the government, unless it be that upon income.

It will be observed, however, that there has been a very considerable increase in the monthly receipts from spirits, arising, undoubtedly, from the fact that the stock which had accumulated in the hands of dealers has been consumed; that the demand is now, therefore, for production which pays duty, and that the new law has advantages which were wanting in the old one.

EXPENSE OF COLLECTING THE REVENUE.

The different ways in which accounts of the various internal revenue officers are adjusted and paid make it impossible to give a perfectly accurate statement of the expense of assessing and collecting the revenue for the year 1866. Many expenses incurred during the year were not paid until after its close, and large amounts were paid on account of expenses of previous years adjusted last year.

From an examination of the allowances made to the disbursing officers, the payments on account of this office, and the statements of assessors' compensation and expenses, made by the Fifth Auditor of the Treasury, the expenses of the past fiscal year appear to be as follows:

Assessors' compensation and expenses	$965,079 09
Assistant assessors' compensation	3,068,964 00
Collectors' compensation and expenses	2,161,710 14
Superintendents of exports and drawback	16,714 00
Revenue agents	35,455 79
Special agents assigned to this office	17,226 82
Revenue inspectors	121,078 70
Special revenue commission	22,080 60
Officers and clerks in this bureau	277,672 71
Stamps and cotton tags	177,089 55
Other incidental expenses of this office	40,093 02
Commission on sale of stamps	786,536 04
	7,689,700 46

This is less than two and one-half per centum of the total receipts, exclusive of drawback and sums refunded as erroneously collected. The percentage of expense is less than that for the previous year, because the receipts were largely increased without a corresponding increase in the cost of collection.

PROBABLE RECEIPTS FOR THE PRESENT FISCAL YEAR.

It is not easy to estimate with confidence the future revenue of a country so extended as ours, especially when it is drawn from so many and such various sources. The difficulty increases when different classes of business are seriously disturbed, as they must be, by the various influences which always affect them at the close of a great war. There is an uneven production of taxable articles; of some the production is stimulated, while of others it is retarded, or perhaps altogether destroyed. There are certain ascertainable data, however, which bear upon the subject, and I herewith submit a tabular statement of the receipts during the months of July, August, and September, of 1864, 1865, and

1866, as shown by the certificates of deposit which reached this office during those months respectively:

Receipts in—	1864.	1865.	1866.
July	$16,570,548 39	$21,693,470 75	$27,079,103 38
August	15,712,066 84	34,087,539 09	38,043,340 81
September	15,819,770 72	37,939,415 82	33,714,718 66
Total	48,102,385 95	93,720,425 66	98,837,162 85

In this connection the receipts from several large sources of revenue for the first quarter of the present fiscal year 1866 may be regarded as important. The returns are not fully received from all the collectors at the time of my writing. They are required monthly from each of the two hundred and forty collectors—in all, seven hundred and twenty for the quarter—and all but twenty-two are included in the following statement:

Receipts from—	July, Aug., and Sept., 1865.	July, Aug., and Sept., 1866.
Clothing, including boots and shoes and other articles of dress	$4,393,163 22	$2,854,461 19
Cloth and all textile or knitted fabrics made of cotton	2,429,243 52	2,578,039 95
Cloth and all textile or knitted fabrics made of wool	2,555,703 02	1,830,849 47
Raw cotton	3,093,597 24	1,506,546 68
Fermented liquors	1,225,377 19	1,585,002 89
Spirits distilled from apples, peaches, and grapes	51,233 71	72,913 81
Spirits distilled from other materials	1,342,871 19	8,667,471 30
Refined petroleum and coal oil	1,058,517 74	761,606 65
Cigars, cigarettes, and cheroots	623,789 31	1,060,641 95
Tobacco, smoking and chewing	2,014,756 15	3,325,178 07
Snuff	129,395 69	184,109 11
Other manufactures and productions not enumerated above	13,190,467 17	13,751,106 65
Gross receipts of railroad, insurance, express, and telegraph companies, &c	2,614,799 42	2,384,231 40
Legacies	122,546 49	245,368 75
Successions	16,653 88	104,345 60
Incomes over $600 and not over $5,000	17,309,231 85	15,252,846 78
Incomes over $600 and over $5,000	24,275,763 06	20,319,389 79
Stamps in all districts	3,010,135 37	3,908,472 07

The articles named in the free list of the act of July last were exempted from tax from and after the passage of the act, or the thirteenth day of that month. The reduction of tax upon other articles and objects of taxation which that law provided, took effect on the first day of August following. The taxes which accrued during August and September were respectively payable in the months of September and October. I have endeavored to secure from the several collectors their abstracts of collections during those months, in order to exhibit, as far as possible, the product of the new law for August and September—the first two months of its operation—in connection with that of the former statute during the same time last year. Seventy-nine of the four hundred and eighty abstracts due have not been received; but I am able to indicate very nearly what sum the total receipts will reach by giving, together with the receipts reported as compared with the receipts from the same districts last year, the total receipts from all the districts during September and October, 1865:

	Collections reported for September and October, 1866.	Collections from the same districts in September and October, 1865.	Total collections for September and October, 1865.
Clothing, including boots, shoes, gloves, hats, and other articles of dress	$1,714,351 64	$3,634,316 24	$3,785,185 74
Cloth and all textile fabrics of cotton	1,642,561 59	1,963,053 72	2,045,931 89
Cloth and all textile fabrics of wool	1,059,269 36	1,836,598 40	1,965,038 98
Raw cotton	1,044,809 38	2,420,713 22	3,308,391 91
Fermented liquors	1,078,271 56	789,060 43	898,698 99
Spirits distilled from apples, peaches, or grapes	59,890 26	12,681 87	14,315 40
Spirits distilled from other materials	5,557,170 82	1,383,252 62	2,121,687 29
Refined petroleum and coal oil	643,994 96	994,872 13	1,139,961 05
Cigars, cigarettes, and cheroots	562,570 44	481,045 79	567,581 75
Smoking and chewing tobacco	2,023,668 43	1,729,421 50	2,082,293 63
Snuff	150,518 79	114,115 43	118,752 05
Iron in its various forms and conditions	823,518 29	1,775,449 99	1,924,817 25
Leather	716,492 53	881,991 27	956,970 06
Other manufactures and productions not above enumerated	5,494,970 16	5,940,242 80	6,735,869 78
Total of manufactures and productions	22,572,058 21	23,956,815 41	27,665,495 77
Gross receipts of railroads, insurance companies, &c	1,003,898 17	1,771,537 25	1,956,662 05

The tax upon boots and shoes and most wearing apparel not exempted was reduced from six to two per centum. That upon cotton was increased from two cents to three cents per pound, but the receipts were less than last year because of the accumulated product of previous years, which was at that time brought to market. The tax upon refined petroleum and coal oil has been somewhat modified in its application, the heavier oils being exempted, and the tax upon some of the lighter being reduced from twenty to ten cents per gallon. The duty upon low-priced cigars has been reduced, and that upon those of greater value increased. The gross receipts from transportation of property are no longer subject to tax. It will be observed that the increased revenue for these two months from distilled spirits, fermented liquors, and tobacco, above that received for August and September, is nearly equivalent to the loss which resulted during the same period from the reduction of taxes upon other articles. The compensation will not be continued, however, and the receipts for the last three quarters of the present fiscal year will not equal by several millions of dollars the collections for the same time last year. From a careful consideration of all the facts in my possession, however, I believe that the receipts of the fiscal year 1867 will reach the sum of two hundred and eighty-five millions of dollars, ($285,000,000.)

CONCERNING CHANGES OF THE LAW.

Too much care cannot be exercised in the modifications and changes of revenue laws. They should be made only when required by a proper regard for the public welfare. A tax upon an article of production cannot be imposed, reduced, or removed without affecting values, and prejudicing largely the rights of holders or consumers. The smallest change will for a time work inequalities. Alterations even in the machinery of the law are always attended with embarrassments, and new obligations should never be laid upon tax-payers unless positively demanded for the necessary protection of themselves and the revenue from fraud.

Months are required by revenue officers, especially those remote from the central office, for learning the new requirements of a statute, and it cannot be expected that those whose attention is not devoted to its study and administra-

tion should earlier ascertain all that may be required of them. That ignorance is no defence for violation has become a maxim, yet it is believed it would be unjust, as it certainly would be impracticable, to administer the internal revenue laws, changed as they have been in some way at every session of Congress since their first enactment, without recognizing a difference in the obligations of the ignorant and of those educated in their requirements. It is for this reason that permanence in the letter as well as in the spirit of the statutes is desirable, so that fewer obstacles may interfere between its infringement and its penalty.

When longer experience, and a settled condition of the business of the country, shall have perfected the revenue laws so that they will require little or no modification, ignorance will not be urged even in extenuation, justice will be more fully satisfied, and the treasury receive more nearly its dues by holding the delinquent and the guilty to the fines, penalties, forfeitures and imprisonments of the statutes almost as invariably as to the payment of their taxes. Until then the guilty will sometimes escape, the ignorant not unfrequently suffer, and a majority of tax-payers bear more than what should be their distributive share of the public burden. Many of the suggestions I shall make, therefore, with reference to changes in the existing law, will look mainly to relief from those provisions whose advantage to the revenue I do not believe commensurate with their inconvenience and annoyance to the public.

CHANGE OF TIME FOR THE RETURN OF THE ANNUAL LIST.

The annual list includes the tax upon income, articles named in Schedule A, (carriages, gold watches, billiard tables, and gold and silver plate,) and the special tax upon persons engaged in trade or business. Returns for this list are required from the tax-payer on or before the first Monday of May in each year, and the taxes are payable on the 30th day of June following. For various reasons it seems desirable that the returns should be made at an earlier date. The amount of one's income, except in cases where regular books of account are kept, can ordinarily be more accurately determined nearer the close of the year during which it accrued. Many tax-payers, including a large majority of those engaged in agricultural pursuits, have more leisure at that time for the preparation of their returns; while many residents of cities, and indeed of the warmer portion of the country generally, desire to leave their districts for purposes of business or pleasure before the annual lists under the present law can pass to the collector from the hands of the assessor. In such cases no little annoyance and complaint have arisen, which the utmost vigilance of the revenue officers could not fully avoid.

The special tax is payable on the 1st of May, on or before which time the party subject to it is required to register his name, calling, &c., with the assistant assessor of his assessment district. The assistant assessor has afterwards to make his certificate to the assessor and collector, and the collector usually awaits the annual list from the assessor before commencing his collections. Yet the law provides that any one who shall carry on any business, or do any act mentioned in the statute for the doing of which a special tax is imposed, without payment thereof, or without producing his receipt for such payment when called upon by any internal revenue officer, shall for every such offence, besides being liable to the payment of the tax, be subject to imprisonment or fine. Peddlers, too, engaged in business without payment of this tax and producing such receipt, are liable to the forfeiture of all the property which they use or employ. It is not known that hardship has arisen by the too rigorous enforcement of the law; but wrong is liable to result, or the revenue be defrauded, by the exercise of clemency to those inclined to attempt to violate it altogether, because its precise requirements cannot be regarded. The law should not make its constant violation a necessity. I recommend, therefore, that returns for the annual list, including the registry for the special tax, be required on the first Monday of March in each year, and the tax be made payable on the thirtieth day of April following.

TEN PER CENTUM PENALTIES.

The addition of ten per centum as a penalty for the non-payment of the tax on or before a certain day is sometimes a severe hardship, from which there is no relief even in cases of sickness or accident. In some instances large manufacturers, punctual usually in their payments, from the failure of a mail or the unexpected absence of a clerk, have been subjected to the payment of several thousands of dollars.

Embarrassment would often arise to collectors if they were clothed with power to add or omit the penalty at discretion, and I believe that a penalty of five per centum for neglect or refusal, and interest at the rate of twelve per centum per annum from the time the tax is payable, will be amply sufficient, while from its greater equity it will occasion less complaint.

SPECIAL TAX.

The special tax of the act of July 13, 1866, is a substitute for the license tax of the earlier laws. For evading its payment when due the law provides imprisonment not exceeding two years and a fine of not more than five hundred dollars, or both. Where the imprisonment is never visited, and the fine is made the nominal sum of one dollar only, as it is represented to this office it is in some judicial districts, regardless of circumstances, that which seems to have been considered by Congress as an offence worthy of special punishment does not bring upon the delinquent even the amount of the penalty imposed for failure to make a monthly return of manufactures.

I recommend that the imprisonment, except for violation by distillers, rectifiers, and manufacturers of tobacco, snuff, and cigars, and dealers in liquors, be abolished, and that the minimum fine for failure or evasion of payment be fixed at ten dollars. With this change, relief by positive enactment should be given certain classes of persons against whom it has never been deemed necessary or just to enforce the penal provisions of the statute.

Peddlers.—To those articles which persons are authorized to peddle without payment of special tax, I recommend the addition of fruits, vegetables, pies, cakes, and confectionery when sold by persons on foot, thus protecting many poor women and children striving to earn a livelihood, and who, in numerous instances, have been subjected to anxiety and cost.

Wholesale and retail dealers in liquor.—The law of 1862 discriminated between wholesale and retail dealers in liquors by the quantity of single sales. A sale of three gallons or more at one time constituted a person a wholesale dealer. The present statute provides an additional test, and any person whose annual sales, including sales of other merchandise, exceeds $25,000 is a wholesale liquor dealer.

The tax upon a retail dealer in liquor is twenty-five dollars; that of a wholesale dealer one hundred dollars or more. Many dealers whose aggregate sales are small may occasionally sell in quantities of more than three gallons. One such sale imposes an addition of seventy-five dollars. It is difficult for revenue officers to ascertain in such cases when such liability has occurred. It is burdensome for the dealer to pay the amount. The law often fails of its legitimate purpose, and I recommend its modification by striking out the limit in quantity, leaving only that of value or receipt.

Butchers.—Butchers are required to pay a special tax of ten dollars, and are not regarded as dealers. The repeal of the tax upon animals slaughtered has removed the reason for the measurable relief of butchers from special tax, and I

respectfully recommend that when their annual sales exceed the sum of $25,000 their tax should be increased precisely as that of dealers is increased.

Plumbers and gas-fitters.—These persons now pay ten dollars only, the same amount which is paid by retail dealers. I see no reason why they should not be taxed upon their sales as dealers are taxed, and as wholesale dealers when their annual sales exceed $25,000. Equality of taxation is greatly desired in revenue laws.

ASSISTANT ASSESSORS.

The proper and equal compensation of assistant assessors has always been attended with difficulties which are still perhaps insuperable. None of their expenses, except for stationery, blank books, and postage, prior to the act of July last, were paid out of the public treasury. The necessity for frequent absence from home on the part of the assistants in the country districts, and the increase of rentals in cities, induced Congress at its last session to authorize the addition of one dollar per day to their usual compensation when out of the towns of their residence, and such sum as the Commissioner shall approve, not exceeding three hundred dollars per annum, for office rent. Now, as several States of the Union, including most of those in the South, are not subdivided into towns or townships, one provision of the law cannot have universal application, and the allowance for rent, under whatever regulations prescribed, produces complaint, and is liable to many abuses. As a general rule, whatever can be fixed by statute should not be left to the discretion of an officer. The rent, as well as the one dollar per diem, in certain cases, was intended really for an increase of compensation. The uniform experience of assessors and of this office warrants me in recommending that the desired purpose be accomplished by a sufficient and uniform increase for every day's service, without any reimbursement for rent. Seventy-five cents, or even one dollar per diem, would add but little to the expenses of assessments, while it would avoid complaints, and perhaps insure as equable compensation as under the present law.

DISTILLED SPIRITS.

The provisions of law bearing upon the distillation of spirits were essentially defective prior to the act of July. They were insufficient, even in the hands of the most experienced and vigilant officers, to prevent frauds, either in large or small distilleries.

Great numbers of small stills, for the illicit manufacture of rum from molasses, were secreted in the garrets and cellars of the most populous cities, while many of the recognized and licensed distilleries were run by night, their proprietors keeping fraudulent accounts of their consumption of grain and other vegetable substances, and their production of spirits and the sale or removal thereof to bonded warehouses.

In every distillery, the daily production of which was one hundred gallons or more, assessors were instructed to place an assistant, whose duty should be to record the removals of all articles to and from the premises, and generally to see that all the requirements of the law were fully complied with. Collectors were urged to unusual watchfulness for the minor and unlicensed distilleries; and everything was done which was believed to be valuable, and which the law would authorize, to check the frauds, but without the desired success. The new law has more productive power than the old one. Its punitive provisions are more numerous and stringent, and the withdrawal of the spirits from the actual and exclusive possession of their owner, immediately upon their distillation, I have no doubt, will be of advantage to the government.

If in times of political excitement it were practicable to appoint men to the office of inspector for their incorruptibility and general fitness, men who love

honor more than money, rather than those who are pressed for place as a reward or an inducement for political effort, the appointment of an inspector to every distillery might be profitable to the government. It requires a man of tried integrity to resist the flattering temptations of a corrupt distiller. Ten thousand dollars adroitly and wickedly expended may hide the manufacture of a thousand barrels of wines, which should yield a hundred thousand dollars for the public revenues. If an inspector has forgotten his duty in a single instance, he is in the power of his purchaser for all subsequent transactions, becoming his constant protector, and his ready witness against the government.

Until some sort of metre is found which, while the still itself is under the locks and seals of the government, shall infallibly register the distillation for the inspection of two or more officers, each to be a check upon the other, trust must, more or less, be imposed in a single man. I recommend, however, such modification of the law as will authorize the collectors to interchange the inspectors of the several distilleries within their districts at pleasure, so that several persons may from time to time, and at irregular intervals, have charge of each distillery, thus to some extent testing the faithfulness of each other, while together they may prevent the consummation of frauds by the manufacturer.

The Secretary of the Treasury will not understand from what I have written that I mean to depreciate the usefulness or the reputation of those who are now employed in this important branch of the service. I only speak of the liability of their position to abuse; and because of the occasional discovery of corruption, and the painful rumors constantly received at the department, advise how their services may be made more profitable, and the credit of the honest be saved from sacrifice or suspicion. The government owes protection to its just distillers, and unless they are saved from constant loss by the low price of illicit whiskey their business will pass entirely into the hands of those striving to accumulate fortunes by robbing the national treasury.

The amended law imposed so many new obligations upon distillers that it was not deemed judicious to rigidly enforce all its provisions upon the 1st day of September, when the same took effect, nor immediately thereafter. Warehouses and cisterns of peculiar character were to be constructed; locks and inspectors to be furnished and appointed by the department. Some further time was found, indeed, to be necessary, both for the manufacturers and the government. The law is now, however, in practical and very general operation, and disregard of its provisions, whether fraud can be proven or not, will be rigorously dealt with. As was anticipated, its exactions seem for a time to multiply the number of illicit stills, seldom brought to light except upon discovery by detectives; but the renewed watchfulness of the local officers, and an amendment of the present law which will authorize the destruction of small stills in certain cases, will, it is hoped, measurably prevent their use, while the receipts from distilled spirits, now much larger than in years past, will be constantly increasing.

COTTON.

During the continuance of the rebellion it was of course impracticable to assess the tax upon cotton in the districts of its production. Its assessment, wherever found, was anomalous, but was necessary. At the last session of Congress no inconsiderable amount of time was spent by the committees having the subject in charge in devising a method of taxation which should be somewhat analogous, at least, to existing provisions for other taxable articles, and which should be safe for the government while it preserved the rights of producers and shippers. The plan adopted allows the unobstructed movement of cotton in any collection district of its production, but permits its removal from such district only upon payment of the tax, or under the permit of the assessor

upon the execution of such transportation bonds or other security, and in accordance with such regulations as shall be prescribed by the Commissioner of Internal Revenue, subject to the approval of the Secretary of the Treasury. It has not been deemed practicable to prescribe other security than transportation bonds, and no other has been proposed to the office.

The regulations of the department, issued at the time the law took effect, provided, as do those covering the shipment of distilled spirits, tobacco, and cigars, that the transportation bond should be given to the collector of the district in which the permit is to be issued and where the cotton is produced. The experience of revenue officers and tax-payers alike had proved this practice to be ordinarily the most convenient and desirable.

It soon became apparent, however, that the lines of the collection districts, established without regard to the channels of trade, were shutting out whole counties from their natural markets for cotton, and imposing burdens upon small planters unwarranted by the advantage to the revenue, and so largely impeding shipments, too, as to be a source of annoyance to growers, transportation companies, and factors. Indeed, a large section of country was interested in the subject; for when the whole business and trade of a community is mainly based upon a single product, it cannot be otherwise than that its growth, movement, and sale should induce competition and rivalry between different localities.

To remedy the existing evils, it was at first proposed to request the President to exercise the authority with which he is clothed by law to change the lines of the collection districts. Such change, however, could furnish only partial relief, as each collection district must be confined to a single State, and an alteration of the lines so as to include less than all the cotton-growing States in a single district would only create new sources of complaint, or make the operations of the law apparently more arbitrary and unequal.

It was for this reason and the disposition prevailing among all the officers of the department to remove, so far as consistent with the law and the protection of the treasury, all obstacles to the ordinary and natural transfer of cotton, that in October last supplementary regulations were issued. These, it is believed, were fully authorized under the plan recommended by the committees and approved by Congress, giving discretionary power to the Secretary of the Treasury and the Commissioner of Internal Revenue upon all matters to which they relate. These regulations, in addition to the former and without their repeal, allow a continuing bond to be given in the receiving instead of the shipping district, and the removal of cotton under that bond upon the simple permit of the assessor. Security may now be given by the holder or the factor, and the cotton weighed and marked by the government officer in either district, at the choice of the party in interest.

From information received from various sources and different points in the South, I am happy to report that the proper and convenient assessment of tax upon cotton seems now to require few if any changes either of law or regulations.

CIGARS.

The tax of ten dollars per thousand upon all domestic cigars imposed by the act of March 3, 1865, was more uniformly paid than the tax under any previous law. Fewer cigars escaped taxation, and there was no opportunity for fraud when their full number was returned to the assessor.

The different qualities of tobacco, and the varying costs of manufacture in different parts of the country, induced a change at the last session of Congress in the mode of taxation, with which I believe neither the manufacturers nor the revenue officers are fully satisfied.

On cigars, the market value of which is not over eight dollars per thousand, the tax is now two dollars. When the market value is over eight dollars and

not over twelve, the tax is four dollars; and when the market value is over twelve dollars, the tax is four dollars, and in addition thereto twenty per centum ad valorem on the market value thereof.

It will be observed in the application of this law that if there were cigars of the market value of fifteen dollars, they would be subject to the specific tax of four dollars, and the ad valorem tax of three dollars, making seven dollars; leaving only eight dollars for the manufacturer, or the same he would receive should he sell them at twelve dollars per thousand. No advantage can accrue to any party but the government from sales at over twelve and less than fifteen dollars, and as a consequence there are no such sales. The tax bears very heavily, too, until the market value is very considerably above fifteen dollars, the government getting the major part of the excess until the value is twenty dollars or more. There is very great difficulty, too, in determining the "market value."

Upon other manufactures subject to an ad valorem tax, the basis of taxation is by law the "actual sales" made by the manufacturer. It is claimed that cigars are sold for more and sometimes for less than their "market value." On the other hand, it is certainly utterly impracticable for assistant assessors unacquainted with the prices and qualities of cigars, to ascertain what that market value is, and there follow therefore numberless frauds and great inequality of assessment. So much of the tax as is ad valorem should be levied upon the excess above twelve dollars, and it should not be upon the market value, but upon the value as estimated by actual sales.

In this connection I would also recommend, if the tax is to continue to be estimated by reference to value, that the privilege of removing cigars in bond be withdrawn. With the single exception of cigars, all articles which are removable in bond under the internal revenue laws are subject to specific taxes, so that the amount of duty can be unerringly ascertained by the use of the scale, the hydrometer, or the gauging rod. When cigars are placed in bond, it becomes necessary for a value to be placed upon them, and as the system under which bonded warehouses have been established did not contemplate the employment of competent appraisers, the result is constant dissatisfaction and complaint.

Were cigars of domestic manufacture exported in such quantities as to be an important element in our foreign trade, it would doubtless be well to adapt the bonded system in such wise as to remedy the evil; but since the 30th day of June, 1864, when a drawback ceased to be allowed upon cigars, the whole number of cigars exported has been but a fraction over two hundred and sixty thousand, upon which the tax was but $2,686 50. In view of this small amount of foreign trade, it would be far better to allow cigars to be exported for benefit of drawback, than to make the needed change in the bonded system.

Should the tax be made purely specific, as under the act of March 3, 1865, no difficulty will arise from continuing the practice of bonding.

SPIRITS OF TURPENTINE.

The tax upon this article is no inconsiderable portion of its value. A large part of that which is manufactured is for exportation, and the formalities of shipping for the benefit of drawback, and the procurement of evidence that the tax has been paid to collectors of interior districts, are oftentimes annoying and burdensome. The manufacture and exportation should be encouraged instead of retarded. I know of no reason why the same facilities should not be extended to persons engaged in this business as in that of the manufacture of tobacco, or the refining of coal oil, and I recommend that they be made subject to all the provisions of law in relation to bonds, warehouses, and drawbacks to which coal oil distillers are subject.

UNITED STATES DISTRICT ATTORNEYS.

It is the duty of the attorneys of the several judicial districts of the United States to report to the Solicitor of the Treasury from time to time the commencement of any suit by them in which the United States is a party, whether for fine, penalty, or forfeiture, and to keep him advised of proceedings in the same and their final disposition. Most of the statutes relating to this subject were enacted when no internal revenue laws were in force. Under the revenue laws it is made the duty of the collectors of the several districts to prosecute for the recovery of any sum or sums which may be forfeited, and they are generally regarded in the statutes and in practice as the prosecuting officers o the revenue service. They make their reports to this office, but when the suit is placed in the hands of the law officers of the government, their obligations are practically ended.

The Commissioner of Internal Revenue, under such regulations as the Secretary of the Treasury may prescribe, is authorized and empowered to compromise any case arising under the internal revenue laws, whether pending in court or otherwise. He is charged, too, by the law with the preparation of all instructions, regulations, and directions relating to the assessment and collection of the internal revenue taxes.

It is not my desire that more responsibility should be devolved upon this office, or more authority be given to it than what seems to be demanded by the best interests of the department; but when suits are commenced at the instance of the Commissioner through the collector, and may be by him compromised, it would seem appropriate that the several district attorneys should be required to make to him the same reports which they are now required to make to the Solicitor of the Treasury, and that he be authorized to give instructions to such officers during the progress of the causes.

The evident propriety of this has established its practice on the part of the Solicitor of the Treasury and the attorneys in the most important districts, at least so far as regards the conduct of these suits, but that this office should by law be entitled to have, and should have, in its possession as much information and authority relative to proceedings in the courts in its interest as it has in the assessment and collection of taxes, I do not suppose can be reasonably questioned. Uniformity and thoroughness cannot possibly otherwise be secured.

Now that a solicitor is authorized and employed in this office, it is no more than appropriate that a docket should be kept in it of all the internal revenue suits in the country, and that it should have upon its files, at all times accessible for reference, copies of all important judicial orders and decisions in reference to internal revenue laws or their administration.

I believe it advisable, also, that the Commissioner should be charged with the custody of all real estate purchased for the United States at sales upon distraint, or process from court, in suits under the internal revenue laws; for he alone has official information of all such purchases, at least in cases of distraint, and should be charged, too, with the sale of the same under the approval in every instance of the Secretary of the Treasury. I do not regard this as essential by any means, but it naturally follows from the change proposed with reference to the conduct of suits, and a knowledge of all the circumstances attending the purchase and of the results of the investigation of titles at that time must often prove of advantage in the sale.

STAMP DUTIES.

In my last annual report I referred to the decisions of the courts of several States in relation to the constitutionality of so much of the law as requires the

use of stamps upon writs or other process by which suits are commenced in a court of record. As none but a party to such suit can carry the question to the highest appellate court, it is uncertain when a final and authoritative decision will be reached. I cannot believe that the legal objections to the duty are well taken, but admit the propriety of exempting such proceedings, with few exceptions, because of other considerations.

It is ordinarily those who are aggrieved who seek the intervention of judicial tribunals, and application to them for relief from injury to person and estate should be unobstructed.

No stamps are now required upon affidavits in legal proceedings. It is claimed that all proceedings are legal which are not illegal, and it is practically impossible to limit the exemption to affidavits for use in proceedings in courts. The magistrate who subscribes the jurat has usually no interest in its validity, and as certain affidavits not well described are exempt, it follows that there is a general habit of failure to attach stamps to any affidavits. I respectfully recommend that all affidavits be expressly relieved.

Sales of real estate are taxed through the use of stamps upon deeds of conveyance. Mortgages for the security of the payment of any sum exceeding one hundred dollars pay duty in the same manner and to the same extent as conveyances.

It is the rule of this office, sustained by well considered English decisions, that where property is sold subject to mortgage, the stamp upon the deed of conveyance should be determined by the value of the premises unincumbered, this value being ascertained by adding the amount paid for the equity of redemption to the amount of the debt secured by the mortgage. I believe the law should be amended so that the tax upon such conveyances should be measured by the consideration, or the value of the property above the incumbrance.

Revenue stamps are required upon all deeds or other instruments whereby any land or other realty *sold* is conveyed from one party to another. Under the construction which this office has given the statute, supported, as in the case before referred to, by the English courts in their decisions upon similar language in the English statutes, deeds confirmatory alone of pre-existing titles, either in law or equity, and conveying no additional monetary interest, not being really of property *sold*, have not been subjected to stamp duty.

This office has no power, nor does it undertake, to adjust the conflicting rights to property of different parties, determining, as it does, only the claims of the government upon instruments employed for its conveyance. In many instances the property covered by the deeds is of great value, and it seems but just that the obligations of all persons, at least in future conveyances, should be clearly defined in a proper amendment to the statute.

A power of attorney to convey real estate is subject to a stamp duty of one dollar. A like instrument for any other purpose than that mentioned in the statute requires only a stamp of the value of fifty cents.

It is held that when a warrant of general authority is in such terms that it may be used for the conveyance of realty, it should pay the same duty as is required of an express power for that purpose. If it were otherwise, no special warrant would be employed. The required tax should be as clearly stated as possible in the stamp schedule itself, and as whatever conveyance is made under a power of attorney for that purpose is subject to the same duty as in other cases, I recommend that the tax upon the power be reduced to fifty cents.

Stamps, in any case, may be attached in the presence of the collector of the proper district to an unstamped instrument upon the payment of a penalty of fifty dollars and the price of the appropriate stamps, together with the interest, in certain cases, from the day when such stamps ought to have been affixed. When the stamp duty is small the penalty seems disproportionately large, and,

in many cases, innocent holders are subjected either to loss or to a penalty unreasonably severe. I believe the penalty could be safely graduated by the amount of delinquency, and that its payment should be by attachment of stamps representing its amount to the instrument whose defect is cured.

The law prohibiting the sale or exposure for sale of proprietary and other articles named in Schedule C, when unstamped, as in that schedule is required, has been so long in operation, and manufacturers and dealers now so thoroughly understand the obligations it imposes, that a more convenient and ready remedy than is now provided seems not inappropriate to prevent its frequent violation.

If assessors, in certain cases, were authorized to decree forfeiture of property exposed for sale in fraud of the law, and collectors to sell at auction after such decree, as in the case of peddlers doing business without license or payment of special tax, a more uniform observance of the law, would be secured without undue hardship upon tax-payers. Such authority would not certainly be liable to abuse if it could only be exercised for violations, after personal notice of liability.

REDUCING THE NUMBER OF TAXABLE ARTICLES.

Presuming that the necessities of the treasury will allow the gradual reduction of taxes, I would express my belief that in no other way can the same measure of relief be granted, both to the public and to revenue officers, as in the reduction of the number of taxable articles. The ad valorem tax of five per centum upon manufactures "not otherwise provided for," added to the tax upon those specially named in various parts of the law, is becoming a source of irritation and oppression. Taxation is the rule, but as early as practicable, should be made the exception. The sources of revenue, which ought to be few, may be counted by hundreds. Production should be encouraged, as it is the foundation of individual and national wealth. Whatever constitutes an element in the manufacture of another and a taxable article should itself be exempt from tax. It is the ultimate product alone which should be assessed, and then only from necessity. It is wiser, too, to levy a large tax upon a few articles than a small tax upon everything. It is less expensive and annoying. Experience is rapidly teaching this lesson, which we might have learned from the older nations. England and France, alike, derive almost their entire excise tax from four or five specified articles. It may not be practicable for us immediately to secure from so few sources the large amount which we now require through indirect taxation, but additions of such articles as Congress shall determine should be made to the list of those exempted as rapidly as the amount to be derived from such taxation can be safely reduced.

THE DIRECT TAX.

The collection of direct taxes in the States which were lately in insurrection, was continued through the last fiscal year and thereafter, until, under the authority of the 14th section of the act of July 28, 1866, it was suspended by the order of the Secretary of the Treasury, bearing date from the 3d day of August following.

No lands have been sold for unpaid taxes, since the suspension of such sales by the order of the Secretary of the Treasury, issued May 17, 1865.

The following is an abstract from the reports of the several commissioners, so far as received at this office, of their receipts and expenditures since June 30, 1865:

States.	Tax, interest, and penalties received.	Received from other sources, includ'g rents and deferred payments on time sales.	Expenditures
Virginia	$424,033 66	$185 51	$36,766 82
North Carolina	394,847 63	.....	16,064 56
South Carolina	137,207 93	45,172 52	11,565 74
Georgia	82,621 54	.....	10,608 42
Florida	3,206 08	3,052 33	10,087 65
Louisiana	213,334 12	.....	28,218 63
Texas	120,671 57	.....	*22,622 55
Tennessee	245,821 57	.....	19,856 54

* Partial.

In addition to the disbursements by the commissioners for South Carolina, as stated above, they have expended $10,606 04 in prosecuting the surveys of lands forfeited to the United States, and $8,813 92 for the support of schools established in accordance with instructions issued by the President, September 10, 1863, for the education of colored and indigent white children in St. Helena parish, South Carolina.

The death of one of the Texas commissioners, which recently occurred, has made it impracticable to obtain, at this time, a complete report of the transactions of the commission in that State.

No collections whatever have been made in Alabama.*

The authority conferred upon the Secretary of the Treasury by the act of July last, to suspend the further collection of the direct tax has been exercised, but still further legislation may be necessary to effect the full purpose of Congress in this behalf. The States lately in insurrection are not now authorized to assume the amount apportioned to them respectively, nor so much of the same as now remains unpaid. If it were intended that such assumption might follow the postponement of the collection of the tax, authority for it should be granted by amendment of the law. There seems to have been no urgent reason for such postponement, if, at its close, the collection thus interrupted and delayed is to be resumed. It would have been much easier to have completed the collection before suspension, when the officers were in commission and on active duty, and when the entire machinery of the districts, too, was in full operation, than to do the same work after a vacation of nearly eighteen months. Nor can it be supposed that Congress designed that the direct tax commissions, with their full clerical force, were to be kept in session during all this period.

Immediately after the order of suspension was issued, therefore, and as a preliminary step to closing the commissions, directions were sent to the several boards to prepare full and final accounts of all their proceedings.

The commissioners for North Carolina were the first to comply with these directions. Their accounts have been rendered to this office, accompanied by their resignations, which have been accepted, to take effect on the first of December.

The accounts of other commissions have since been received, and the services of all the boards in States where no sales of lands for unpaid taxes have been made will be shortly concluded. With the aid of appropriate legislation, the

* The reports of the Arkansas and Mississippi commissioners have not been received, although the commissioners for the former State have advised me that their report has been forwarded by mail.

same course can be taken with reference to the commissions in States where sales have been made.

Such duties in the adjustment of rights of redemption and other private rights, as now remain to be performed by the commissioners of direct tax, may be devolved upon some officer or officers of the Treasury Department in the city of Washington, the parties in interest being allowed, under the direction of such officer, to take evidence in the several States. This being done, no necessity will remain for a continuance in office of these several commissions, with the single exception of that of South Carolina. In that State, lands purchased by the United States at auction sales for taxes have been again sold to purchasers on a credit of several years, and special duties have been imposed upon the board by the act of July 16, 1866, relating specially to the Freedmen's Bureau.

The above suggestions are predicated upon the belief that Congress intends to allow the assumption of the unpaid taxes by the several States. If such privilege is to be denied them, or they prefer not to assume them, or if for any reason the collections are to be resumed, such legislation is unnecessary except to avoid the cost of the commissions until January 1, 1868, when active service is to be again commenced.

It has been brought to the notice of this office, more especially during the past year, that, from misapprehension of the law, considerable sums of money have been erroneously collected of taxpayers in the States lately in insurrection, which sums have been paid into the treasury of the United States. Claims for refunding these sums have in several instances been presented, but as they have been covered into the treasury no officer is authorized by law to make restitution. The Secretary of the Treasury, through this office, has given directions under which their precise amount will be ascertained, together with all the circumstances under which the same were paid. It is respectfully recommended that the law be so amended that the Secretary of the Treasury may refund such sums as he shall find to be due.

The State of Delaware is the only one, loyal during the war, except West Virginia, of which mention will be made hereafter, which did not assume its distributive share of the direct tax of twenty millions of dollars, apportioned to it under the act of August 5, 1861. The amount apportioned to Delaware was $74,683 33, and it was supposed that the same would be allowed when the State adjusted its military accounts with the general government. Upon the refusal of that State, however, during the late fiscal year to authorize the payment of the tax, the internal revenue officers of the district were instructed to proceed with its assessment and collection under the power conferred upon them by section forty-seven of the act of June 30, 1864. The assessment upon the lands of the State, commenced several months ago, has progressed so far that collections of the tax will very shortly be made.

The position of West Virginia with reference to the direct tax law is a peculiar one. The apportionment to Virginia of $937,550 53 was made before West Virginia was created out of a portion of that State; and while the direct tax commissioners have prosecuted their labors in Virginia in conformity with the act of 1861, West Virginia has not been authorized to assume her apportionment, nor, indeed, has its amount been properly determined. Its officers and its representatives in both branches of Congress have expressed their readiness to discharge their obligations whenever they are properly established. The apportionment should be made by act of Congress at its next session, and the privilege of its assumption by the State be given as in other cases.

INCOME TAX.

That portion of the law of 1864 which relates to income was but slightly touched by the act passed at the last session of Congress. Various amendments to it were adopted by the House of Representatives materially improving its symmetry and general requirements; but the impossibility of their passage in season for the annual assessment of the current year, and the pressure of more important business, induced the Senate to defer their consideration. They will probably be presented again during the coming winter in a new bill from the House.

Of these amendments the most important was, perhaps, the exemption from tax of one thousand dollars, instead of six hundred as is now provided. It was, of course, the purpose of the law to exempt so much of one's income as was demanded by his actual necessities. Six hundred dollars was believed to be the minimum expense of such at the time of the passage of the first law. Since then the internal tax upon commodities, the increase of customs duty, and the depreciation of the currency, have wrought an almost universal advance in prices, and I believe the same reason now exists for the increase of the amount of exemption which at first secured any exemption whatever.

Should this change be made, there should be a corresponding amendment to that portion of the law relating to the tax upon salaries of persons employed in the service of the general government.

In determining the amount of taxable income under the present law, profits and losses from transactions in real estate are considered only when its sale is in the same year with its purchase. This arbitrary rule is not made applicable to personal property, and, as there seems to be little reason for its existence at all, I believe it should be amended.

The present income law expires by limitation in 1870.

OTHER MODIFICATIONS OF THE LAW.

Various amendments, in addition to what I have suggested above, seem necessary in order to make clear and positive what is more or less involved and doubtful in several parts of the law, but their propriety can be more fully and satisfactorily presented to the attention of the appropriate committees of Congress when a revenue bill is before them than within the proper limits of this report.

The immense revenue of the last fiscal year was raised with probably less pressure upon the people than that of smaller amounts in previous years. Their enterprise and spirit of accumulation have prevented the depression of business which ordinarily attends heavy taxation. Their means for the ultimate extinction of the national debt are rapidly multiplying from the increase of population and the constant development of new sources of wealth. The reduction of taxes will stimulate production, and in a few years the national debt will cease to be an object of anxiety or even annoyance to a great and united people.

The unusual demands upon this office, arising from the extension of the revenue system over the South and the radical changes in some parts of the law from its recent amendments, have for a time largely increased its labors and responsibilities, and I cheerfully acknowledge my indebtedness to the honorable Secretary of the Treasury for his uniform support, and to the officers and clerks associated with me, who have faithfully and diligently discharged their duties.

I am, sir, with great respect, your obedient servant,

E. A. ROLLINS,
Commissioner.

HON. H. MCCULLOCH,
Secretary of the Treasury.

TABLE

SHOWING

THE RECEIPTS BY COLLECTORS

FROM

EACH SPECIFIC SOURCE OF REVENUE,

AND THE

AMOUNTS REFUNDED IN EACH COLLECTION DISTRICT, STATE, AND TERRITORY OF THE UNITED STATES,

FOR THE

FISCAL YEAR ENDING JUNE 30, 1866.

A.—*Table showing the receipts by collectors from each specific source of revenue, and the fiscal year ending*

	DISTRICTS.	MANUFACTURES AND PRODUCTIONS.						
		Barytes, sulphate of, per 100 pounds, 14 4-10 cents.	Bill-heads, cards, and circulars, printed, law blanks, conveyancers' blanks, and other printed forms, 6 per ct.	Books, magazines, pamphlets, reviews, and similar publications, printed, 5 per ct.	Boots and shoes, 6 per cent.	Brandy, distilled from grapes, per gallon, 50 cents.	Brass and copper, rolled, and yellow sheathing metal, in rods or sheets, and copper, zinc, and brass nails or rivets, 3 6-10 per cent.	Brass & copper, rolled, and yellow sheathing metal, in rods or sheets, on which a duty of 3 per ct. has not been previously paid, in the form of ingots, pigs, or bars, 6 per ct.

I.

COMPARATIVE STATEMENT

SHOWING THE

TOTAL COLLECTIONS FROM EACH SPECIFIC SOURCE OF REVENUE

FOR THE

FISCAL YEARS ENDING JUNE 30, 1863, 1864, 1865, AND 1866, RESPECTIVELY.

I.—*Comparative statement showing the total collections from each specific source of revenue for the fiscal years ending June 30, 1863, 1864, 1865, and 1866, respectively.*

[The articles and occupations marked with a †, against which no collections appear for the years 1863 and 1864, were taxed under the laws in force in those years, but were formerly reported under more general heads.]

No.	Articles and occupations.*	Collections for 1863.	Collections for 1864.	Collections for 1865.	Collections for 1866.
	MANUFACTURES AND PRODUCTIONS.				
1	Barytes, sulphate of	$9,873 43	$20,713 04	$20,388 62	$35,581 80
2	Bill-heads, cards, &c., printed			193,136 94	412,600 01

Articles in Schedule A 213, 215, 217, 219, 221, 223
Bank circulation and deposits 213, 215, 217, 219, 221, 223
Passports, &c 213, 215, 217, 219, 221, 223
Penalties, &c ..... 224—228
Total receipts by collectors and total amounts refunded in each collection district ..... 224—228
Receipts by collectors from each specific source of revenue, by States and Territories ..... 230—269
Manufactures and productions, by States and Territories ..... 230—249
Barytes, sulphate of 230
Bill-heads, cards, &c., printed 230
Books, magazines, &c., printed 230
Boots and shoes 230
Brandy distilled from grapes 230
Brass and copper, rolled, &c 230
no duty previously paid 230
Brick, draining tiles, &c 231
Bullion 231
Candles 231
Carriages and other vehicles 231
Cassia, ground 231
Chemical productions, uncompounded 231
Chocolate and cocoa, prepared 231
Cider-brandy and peach-brandy 231
Cigars and cheroots made wholly of tobacco, or of any substitutes therefor 232
Cigarettes, valued at not over $5 per 100 packages of 25 each 232
over $5 per 100 packages of 25 each 232
made wholly of tobacco, or of any substitutes therefor 232
Clocks, time-pieces, and clock movements 232
Cloth, and all woven, knit, or felted fabrics of materials other than cotton or wool 232
Cloth, painted, enamelled, &c 232
Clothing, or other articles of dress 233
Cloves and clove stems, ground 233
Coal, mineral 233
Coffee, ground 233
Confectionery, valued at not over 20 cents per pound 233
valued at over 20 cents, and not over 40 cents per pound 233
valued at over 40 cents per pound, or when sold otherwise than by the pound 233
Copper and lead in ingots, pigs, or bars, spelter and brass 233
Copper, manufactures of 234
Cotton fabrics, woven, knit, or felted, and all manufactures of cotton 234
Cotton, raw 234
Cutlery 234

Manufactures and productions, by States and Territories—Continued. Page.
Diamonds, emeralds, &c., and all other jewelry 234
Distilled spirits 234
Fermented liquors 235
Furs, when made up or manufactured 235
Furniture or other articles made of wood 235
Gas, monthly product not over 200,000 cubic feet 235
over 200,000 and not over 500,000 cubic feet 235
500,000 and not over 5,000,000 cubic feet 235
5,000,000 cubic feet 235
Ginger, ground 235
Glass, manufactures of 236
Gloves, mittens, &c., made from leather, on which a duty has been paid 236
Glue and cement, liquid 236
Glue and gelatine, solid 236
Gold, manufactures of 236
Gold foil 236
Gold leaf 236
Gunpowder, valued at not over 38 cents per pound 237
over 38 cents per pound 237
Gutta-percha 237
India-rubber 237
Iron, advanced beyond blooms, slabs, or loops, and not beyond bars 237
band, hoop, and sheet, not thinner than No. 18, wire-gauge 237
thinner than No. 18, wire-gauge 237
bars, rods, &c., made from iron on which a duty of $3 has been paid 237
blooms, slabs, or loops when made in forges or bloomeries 238
castings used for bridges or other permanent structures 238
exceeding ten pounds in weight for each casting 238
cut nails and spikes 238
pig 238
plate not less than ¼ of an inch in thickness 238
less than ¼ of an inch in thickness 239
railroad 239
rerolled 239
rivets, nuts, washers, and bolts 239
made from iron on which a duty has not been previously paid 239
stoves and hollow ware 239
advanced beyond pigs, blooms, &c., previous duties not having been paid 239
manufactures of 239
wrought railroad chairs, railroad, boat, and ship spikes, and tubes made of wrought iron 239
Lead sheet, lead pipes, and shot 240
on which a duty has not been previously paid 240
white 240
Leather of all descriptions, curried or finished 240
tanned in the rough 240
manufactures of 240
Lime, and Roman or water cement 240
Marble, and other monumental stones 241
Masts, spars, and vessel blocks 241
Molasses, produced from the sugar cane 241
sirup of, melado and cistern bottoms 241
Mustard, ground 241
Naphtha, known as gasoline of specific gravity exceeding 70° 241
Oils essential, of all descriptions 241
Oil, coal, illuminating, refined, and naphtha, &c., produced by the distillation of petroleum, &c 241
produced by the distillation of coal, asphaltum, or shale exclusively 241
lard, linseed, mustard-seed, and all animal or vegetable, &c 242
Paints and painters' colors 242
Paper of all descriptions 242
Pepper and pimento, ground 242

Manufactures and productions, by States and Territories—Continued. Page.

Petroleum, crude 242
Photographs or other sun-pictures 242
Piano-fortes, and other musical instruments 243
Pickles, preserved fruits, vegetables, meats, fish, and shell-fish, in cans, &c 243
Pins 243
Pottery-ware 243
Quicksilver produced from the ore 243
Repairs of engines, cars, carriages, &c 243
ships, steamboats, or other vessels 243
Sails, tents, shades, awnings, and bags 243
Saleratus and bicarbonate of soda 243
Salt 243
Screws, wood 244
Ships, and all other vessels or water-craft 244
Silk 244
Silver 244
Slate, freestone, sandstone, marble, and building-stone 244
Snuff 244
Soap, soft 244
castile, palm-oil, &c., valued at not over 5 cents per pound 245
over 5 cents per pound 245
fancy, scented, honey, cream, &c 245
Starch, made of potatoes 245
corn or wheat 245
rice or other materials 245
Steam engines, including locomotives and marine engines 245
Steel in ingots, bars, sheets, &c., valued at not over 7 cents per pound 246
over 7 cents and not over 11 cents per pound 246
over 11 cents per pound 246
rolled, and sheet, rod, &c., on which a duty has been previously paid 246
manufactures of 246
Stereotypers, lithographers, and engravers, productions of 246
Sugar, not above No. 12, Dutch standard in color, produced from the sugar-cane 246
above No. 12 and not above No. 18, Dutch standard in color, &c 247
above No. 18, Dutch standard in color, &c 247
Sugar refiners, on gross amount of sales of 247
Thread, yarn, and warps, sold before weaving 247
Tobacco, cavendish, plug, twist, &c 247
smoking, of all kinds not otherwise provided for 247
made exclusively of stems 247
fine-cut chewing 247
Tobacco, twisted by hand 247
Turpentine, spirits of 248
Umbrellas and parasols 248
Varnish or Japan 248
Water, artificial mineral, soda, and sarsaparilla 248
mineral or medicinal 248
Wine made of grapes 248
produced by being mixed with other spirits 249
Woolen fabrics, woven, knit, or felted, and all manufactures of wool 249
Zinc, oxide of 249
Materials not otherwise provided for 249
Total of manufactures and productions 249
Slaughtered animals, by States and Territories 249
Cattle and calves exceeding three months old 250
not exceeding three months old 250
Sheep and lambs 250
Sheep slaughtered for pelts 250
Swine 250
Total of slaughtered animals 250
Gross receipts, by States and Territories 250
Advertisements 251, 252
Bridges and toll-roads 251
Canals 251

Gross receipts, by States and Territories—Continued. Page.

Express companies 251
Ferries 251
Insurance companies 251
Lotteries 251
Railroads 251
Ships, barges, &c 251
Stage coaches, wagons, &c 252
Steamboats 252
Telegraph companies 252
Theatres, operas, circuses, museums, &c 252
Total of gross receipts 252
Sales, by States and Territories 252, 253
Auction sales 252
Brokers' sales of merchandise, produce, or other goods 252
sales and contracts for sales of stocks and bonds on par value thereof 253
sales of foreign exchange, promissory notes, or other securities 253

Total of sales 253
Licenses, by States and Territories ..... 253—262
Apothecaries 253
Architects and civil engineers 253
Assayers, annual assays not over $250,000 253
over $250,000, and not over $500,000 253
over $500,000 254
Auctioneers, annual sales not over $10,000 254
over $10,000 254
Bankers 254
Billiard-rooms 254
Brewers, annual manufacture less than 500 barrels 254
not less than 500 barrels 254
Bowling-alleys 255
Brokers, cattle 255
commercial 255
custom-house 255
insurance 255
land-warrant 255
pawn 255
produce 255
stock 255
substitute 256
Builders and contractors 256
Business, trade, or profession, not otherwise provided for 256
Butchers who sell butchers' meat at retail 256
annual sales not over $1,000, and persons who sell fish and shell-fish, &c 256
Circuses 256
Claim agents 256
Common carriers 257
Confectioners 257
Conveyancers 257
Dealers, wholesale 257
retail 257
wholesale liquor 257
retail liquor 257
Dentists 257
Distillers of coal oil 258
Distillers of spirituous liquors 258
annual manufacture less than 300 barrels 258
apples, grapes, and peaches, annual manufacture less than 150 barrels 258
Eating-houses 258
Exhibitions not otherwise provided for 258
Gift-enterprises 258
Horse-dealers 259
Hotels 259
steamers and vessels boarding passenger 259

Licenses, by States and Territories—Continued. Page.

Insurance agents, domestic 259
foreign 259
Intelligence-office keepers 259
Jugglers 259
Lawyers 259

any other degree of collateral consanguinity, stranger in blood, or body politic or corporate 264
Successions, lineal issue or ancestor 264
brother or sister, or descendant of same 264
uncle or aunt, or descendant of same 264
great uncle or aunt, or descendant of same 265
any other degree of collateral consanguinity, or stranger in blood 265
Total of legacies and successions 265
Articles in Schedule A, by States and Territories ..... 265—267
Billiard tables, kept for use 265
Carriages, including harness, kept for use, valued at $50 and not over $100 265
over $100 and not over $200 265
$200 and not over $300 265
$300 and not over $500 266
$500 266
Piano-fortes, and other parlor musical instruments kept for use, valued at not less than $100 and not over $200 266
Piano-fortes, &c., kept for use, valued at over $200 and not over $400 266
Piano-fortes, &c., kept for use, valued at over $400 26

Articles in Schedule A, by States and Territories—Continued. Page.

Plate of gold, kept for use 266
silver, kept for use 266
Watches, gold, kept for use, not over $100 in value 267
over $100 in value 267
Yach's, pleasure or racing boats, measuring 10 tons or less 267
over 10 and not over 20 tons 267
20 and not over 40 tons 267
40 and not over 80 tons 267
80 and not over 110 tons 267
110 tons 267
Distilled spirits, first proof, imported prior to March 7, 1864 267
Total of articles in Schedule A 267
Bank circulation and deposits, by States and Territories 268
Bank deposits, per month 268
capital, per month 268
circulation, per month 268
circulation exceeding 90 per cent. of capital 268
circulation exceeding average of six months preceding July 1, 1864 268
Total of bank circulation and deposits 268
Passports, &c., by States and Territories 269
Passports 269
Substitutes furnished by brokers 269
Total of passports, &c 269
Penalties, &c., by States and Territories 269
Unassessed penalties 269
United States moiety of penalties recovered by suits 269
Penalties received on compromises 269
Interest 269
Total of penalties, &c 269
Recapitulation of receipts by collectors from each general source of revenue, and the amounts refunded, by States and Territories ..... 270—274
Manufactures and productions 270
Slaughtered animals 270
