

REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE

FOR THE

FISCAL YEAR ENDED JUNE 30, 1883.

With the compliments of

Walter Evans

Commissioner.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.

1883.

REPORT
OF
THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
Document No. 481,
Internal Revenue.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, October 30, 1883.

SIR: I have the honor to submit the annual report of the Commissioner of Internal Revenue for the fiscal year ended the 30th of June, 1883.

I also include certain additional information relative to the work of the Bureau during the months of July, August, and September of the present year, so that you may have before you a clear view of the present condition of the public business intrusted to my charge.

In the appendix to the bound volume of this report you will also find carefully prepared tabular statements as follows:

Table A, showing the receipts from each specific source of revenue, except adhesive stamps, and the amounts refunded in each collection district, State, and Territory of the United States, for the fiscal year ended June 30, 1883.

Table B, showing the number and value of internal-revenue stamps ordered monthly by the Commissioner and from the office of the Commissioner; the receipts from the sale of stamps and the commissions allowed thereon; also the number and value of stamps for special taxes, tobacco, cigars, cigarettes, snuff, distilled spirits, and fermented liquors, issued monthly to collectors during the fiscal year ended June 30, 1883.

Table C, showing the percentages of receipts from the several general sources of revenue in each state and Territory of the United States to the aggregate receipts from the same sources, by fiscal years, from July 1, 1863, to June 30, 1883.

Table D, showing the aggregate receipts from all sources in each collection district, State, and Territory of the United States, by fiscal years, from September 1, 1862, to June 30, 1883.

Table E, showing the receipts in the United States from each specific source of revenue, by fiscal years, from September 1, 1862, to June 30, 1883.

Table F, showing the ratio of receipts in the United States from specific sources of revenue to the aggregate receipts from all sources, by fiscal years, from July 1, 1863, to June 30, 1883.

Table G, showing the returns of distilled spirits, fermented liquors, manufactured tobacco, snuff, cigars, and cigarettes, under the several acts of legislation and by fiscal years, from September 1, 1862, to June 30, 1883.

Table H, showing the receipts from special taxes in each collection district, State, and Territory for the special-tax year ended April 30, 1883.

Table I. Abstract of reports of district attorneys concerning suits and prosecutions under the internal-revenue laws during the fiscal year ended June 30, 1883.

Table K. Abstract of seizures of property for violation of internal-revenue laws during the fiscal year ended June 30, 1883.

CONSOLIDATION OF COLLECTION DISTRICTS.

The President, by an executive order dated June 25, 1883, directed the consolidation of certain of the collection districts. The order was subsequently modified on different dates. As modified it has been fully carried into effect, except that in the State of Wisconsin (as to which the final order of modification was not made until the 13th day of October, 1883) Collector Irving M. Bean, of the new first district, to be composed of the first and third districts, has not as yet been put in charge. So soon as his new bond is approved the consolidated district will be formally transferred to him, and the executive order will have been fully executed. A few weeks at most will suffice for this.

Before the order of June 25, 1883, was issued there were one hundred and twenty-six collectors and collection districts. When the work of consolidation is completed in the Wisconsin district there will be only eighty-three collectors and collection districts, a reduction of forty-three.

The estimated annual saving to the Government by the reduction is \$125,000.

REDUCTION OF TAXATION.

The act of March 3, 1883, diminished the sources of internal revenue in several most important particulars. It abolished entirely all adhesive-stamps taxation, such as were imposed upon proprietary medicines, bank checks, friction matches, &c., the reduction taking effect July 1, 1883. The tax on bank deposits and capital ceased at the beginning of the present calendar year; and the taxation on tobacco, in all its forms, was decreased one-half on the 1st day of May last.

It is estimated that the aggregate amount of these reductions will not be less than \$43,000,000 per annum, including \$6,000,000 tax on the capital and deposits of national banks, paid directly to the Treasurer of the United States.

While this is so, it is also estimated that the increased revenue from distilled spirits for the current year will so augment receipts from that source as to make the aggregate receipts for this year at least \$120,000,000, should there be no further change in the internal-revenue laws.

COMPARATIVE RECEIPTS FOR THE LAST TWO FISCAL YEARS.

The total receipts from all sources of internal-revenue taxation for the fiscal year ended June 30, 1883, were \$144,553,344.86 as compared with \$146,523,273.72 for the year 1882, and \$135,229,912.30 for the year 1881.

The following statements will exhibit detailed information of the amount of internal revenue collected during the past year, and also for the first three months of the present fiscal year,* of the sources from

* Heretofore the report has been delayed so as to include statistics for the month of October in each year, but in view of section 196 of the Revised Statutes and your letter of the 10th ultimo, a different course is now pursued, and I include only the first three months of the current fiscal year.

whence the revenue is derived, of the States and districts in which the collections during the past year were made, the cost of collection, &c.

COST OF COLLECTION.

The cost of collection for the past fiscal year, distributed among the different items of appropriation, was approximately as follows:

For salaries and expenses of collectors, including pay of deputy collectors, clerks, &c.	\$1,974,000 00
For salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses	*2,288,667 12
For stamps, paper and dies	495,000 00
For expenses of detecting and punishing violations of internal-revenue laws	61,275 29
For salaries of officers, clerks, and employés in the office of Commissioner of Internal Revenue	294,792 47
Total	5,113,734 88

The total expenses (including the expenses of this office) will be found, on final adjustment, to be about 3½ per cent. on the amount collected.

GENERAL CONDITION OF THE SERVICE.

I am gratified to be able to state that the condition of the service is good. Indeed, in the main, it is excellent. In one or two localities there are some things to be corrected in the manner of administration, but these are not of very great moment, and it is thought all cause of complaint will soon disappear. I allude in this mainly to the fifth and sixth districts of North Carolina, where some abuses of long standing are, it is hoped, being gradually removed.

The thanks of the Commissioner are justly due to the officers of the internal revenue, generally, for their zeal and efficiency.

I should also express my high appreciation of the very valuable aid rendered this Bureau by many of the United States district attorneys and marshals throughout the country.

No extensive frauds are being perpetrated upon the Government by persons required to pay internal revenue taxes. While it is as impossible in this branch of the public service as in any other entirely to prevent violations and evasions of the law, still it is confidently believed

* This item is liable to be slightly increased by the payment of a few accounts not yet adjusted.

that these violations are neither very frequent nor very injurious to the revenue.

Evidence accumulates daily that even in those portions of the country where at one period it was not regarded as disreputable to resort to any device to defeat the collection of internal revenue, there is a healthy change of public sentiment, and it is not difficult to secure the conviction of the guilty.

I am well satisfied that no extensive organization exists, anywhere in the country, whose object is to defraud the Government of its internal revenue. While these general statements are true, it is equally true that not only have persons been guilty of misdemeanors, but they have not hesitated to commit the gravest crimes in resisting the internal revenue officers in their efforts to discharge their duties. A case in point was the murder of Deputy Collector Henry F. Walker, who was shot and killed by David Fraley in Stanley County, North Carolina, February 10, 1883, while attempting to seize a distillery illicitly operated. This office has used every exertion to aid the district attorney in prosecuting this case, and it is expected that when it comes to trial the result will be the conviction of the prisoner, Fraley, of willful murder.

STATUTE OF LIMITATIONS.

I respectfully suggest that Congress be requested to enact a statute fixing the limitation for the prosecution of offenses against the revenue laws at a much less period than five years, as now provided by law, except in cases where the accused places himself beyond the jurisdiction of the court of the district where the offense was committed. I am informed by judges of the United States district courts that in nearly every instance where a conviction has been secured the offense was committed within two years before the indictment was found. Cases older than two years are almost invariably lost by the Government. It is also very difficult in such cases to prevent abuses whereby the costs of prosecution are increased, and, ultimately, the ends of justice defeated. I am of the opinion that a shorter period of limitation would be much better in many ways and greatly lessen the expense of such prosecutions to the Government. Indeed, I have been strongly urged to recommend a proclamation of general amnesty to all persons who have retailed distilled spirits without the payment of a special tax, and to all persons who have operated small distilleries without registering the same, and complying with other laws and regulations. This view is urged by its advocates upon the ground that a large number of those thus engaged are desirous of abandoning their unlawful practices, but, having long been violators of the law, they see no special inducement to leave off if, at any time, they are to be arrested for what was done within five years.

These views are especially urged upon this office as applying to operations of small distillers in inaccessible mountain regions, in various States, where the quantity of spirits made is very small.

OPERATION OF THE INTERNAL-REVENUE LAWS IN THE INDIAN TERRITORY.

A question of much importance has come up since the 30th of June last, which I hope will not be regarded as out of place if mentioned here. It was, probably, best explained in a letter I had the honor to address you on September 10, 1883, the material parts of which I take

the liberty of embodying in this report, so that the subject may receive such recommendation or action as may be deemed advisable by you. That letter was as follows:

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, September 10, 1883.

SIR: Under date of July 28, 1883, John C. Carpenter, esq., collector of internal revenue for the district of Kansas, referred to this office, for action and instruction, a letter from his deputy, W. H. Guy, dated at Vinita, Indian Territory, July 27, 1883, in which it was stated, in substance, that while visiting the Indian Territory, on the 23d day of July, 1883, "to see if the internal-revenue laws were properly observed," he was grossly insulted by Mr. Overton, the governor of the Chickasaw Nation, at Tishomingo, the capital of that nation, being denounced and told by the governor that he should not collect another dollar of internal revenue in that nation. This was done in the presence of several persons, and threateningly repeated.

The statement thus made and reported to the collector, has raised interesting questions and has caused me to very carefully consider whether the internal-revenue laws have any force in the Indian Territory, and especially whether *as the President has never attached it to a collection district*, a deputy collector has any authority to attempt or any protection while attempting to execute the law and collect internal-revenue taxes in the Indian Territory.

In 1870, Elias C. Boudinot, a Cherokee Indian, was conducting the manufacture of tobacco inside the boundary of the Cherokee Nation, without having complied with any of the requirements of the internal-revenue laws. Acting upon the assumption that the internal-revenue laws extended over the Indian Territory, Federal officers seized the establishment of Boudinot, and the tobacco found upon the premises, and the same were libeled in the district court of the United States for the western district of Arkansas, and upon the trial of the case, and the claim of Boudinot filed therein, it was adjudged that they were subject to seizure for violation of the laws of the United States, and the whole property was condemned and sold accordingly. The elaborate opinion of Caldwell, district judge, in that case, is reported in 13th Internal Revenue Record, page 91.

Upon an appeal to the Supreme Court, the judgment of the district court was affirmed, in the case of the Cherokee Tobacco (11 Wallace, 616). But in the opinion of the Supreme Court in the case of the United States vs. Forty-three Gallons of Whisky, and other Property, *et alia*, decided May 7, 1883, and reported in 29th Internal Revenue Record, page 188, the court held, among other things, that "the laws of Congress are always to be construed so as to conform to the provisions of a treaty, if it be possible to do so without violence to their language," and at the close of the opinion the court said that "the case of the Cherokee Tobacco Tax (11 Wallace, 616) cannot be treated as authority against the conclusion we have reached. The decision only disposed of that case, as three of the judges of the court did not sit in it, and two dissented from the judgment pronounced by the other four."

The opinion of the court in the case in 11 Wallace was probably further discredited by the act of Congress to permit Elias C. Boudinot, of the Cherokee Nation, to sue in the Court of Claims (approved June 4, 1880), in which it is recited that it manifestly appears that a wrong has been done to the said Elias C. Boudinot in consequence of the casual infraction of the treaty with the Cherokee Nation. Under that act Boudinot sued the United States in the Court of Claims and recovered the sum of \$3,272.25, the value of the property seized and sold under the judgment in the case of the Cherokee Tobacco, and expenses incurred in that litigation.

You will observe that the issue in the Cherokee Tobacco case was whether the internal-revenue laws as enacted by Congress abrogated the tenth article of the treaty with the Cherokee Nation of Indians (14 Stat. at L., 799), which reads as follows:

"Every Cherokee and freed person, resident in the Cherokee Nation, shall have the right to sell any products of his farm, including his or her live stock, or any merchandise or manufactured products, and to ship and drive the same to market without restraint, paying any tax which is now or may be levied by the United States on any quantity sold outside of the Indian Territory."

It was contended that section 3448 of the Revised Statutes, as now numbered, which reads as follows: "The internal-revenue laws imposing taxes on distilled spirits, fermented liquors, tobacco, snuff, and cigars, shall be held to extend to such articles produced anywhere within the exterior boundaries of the United States, whether the same be within a collection district or not," did, *pro tanto*, abrogate the treaty with the Cherokee Nation, and in 11 Wallace the court seemed so to hold.

However, in view of the almost explicit renunciation by the Supreme Court in the case cited from the 29th volume of the Internal Revenue Record, page 188, of the doctrine of the case of the Cherokee Tobacco (11 Wallace, 616), it seems to me, with all submission, that the correct doctrine is that the internal-revenue laws of

the United States should not be construed to extend over the *Indian Territory* unless the words of those laws very explicitly require such a construction.

The provisions of the treaty with the Chickasaw Nation are not, in terms, precisely the same as those of the treaty with the Cherokee Nation, yet, for the purposes of this letter I assume that they are substantially similar, and that there are similar treaty provisions with nearly if not quite all of the Indian tribes. The treaty with the Chickasaws may be found in the 14 Stats. at Large, page 779.

The power of Congress to legislate for the Indian Territory and tribes is probably no longer disputable any more than its power to abrogate or disregard a treaty with an Indian tribe (*Cherokee Nation vs. Georgia*, 5 Peters 17; *United States vs. Rodgers* (4 Howard, 572); *Johnson vs. McIntosh* (8 Wheaton, 574); *Mackey vs. Cox* (18 Howard, 103); *Worcester vs. State of Georgia* (6 Peters, 515); *United States vs. Holliday* (3 Wallace, 409); *United States vs. Forty-three Gallons Whisky* (93 U. S., 192).

But while this is so, it seems to me that nothing but the clearest expression of Congressional intention will authorize the construction of any law in such a way as to violate the solemn provisions of a treaty with any Indian tribe, nor does it seem to me that a less explicit expression by Congress should authorize the conclusion that it meant the provisions of the internal-revenue laws to extend over the *Indian Territory*. It is a well-understood rule of construction in England that while the general words of a statute may seem to embrace a British colony, the courts will limit the words to the United Kingdom unless the language expressly requires a different construction.

The Indian tribes have no voice in the making of our laws, but, on the contrary, have at least a *quasi* autonomy of their own, and it would seem that nothing short of express words should give our general laws any force in the Indian Territory.

It is true that the United States courts for the western district of Arkansas try and punish certain offenses committed in the Indian Territory, but this does not violate any treaty, and is pursuant to the plainest possible statutory provision. Furthermore, it would seem that the argument, that but for such construction as was adopted in the *Cherokee Tobacco* case, frauds could be easily committed, is one to be addressed to Congress rather than to the judicial or executive branches of the Government.

With these principles in view, if we are at liberty to construe the internal-revenue laws *in pari materia* with the provisions of the treaty with the Cherokee Nation, and with similar provisions in the treaties with other Indian tribes, very many difficulties do not seem to exist. Even without the annexation of the Indian Territory to any of the collection districts the Commissioner of Internal Revenue might, probably, make such regulations as would secure the collection of the proper taxes upon all articles manufactured in that Territory, which might be sold in the United States. This might be done under the provisions of section 3447 of the Revised Statutes, which reads as follows:

"Whenever the mode or time of assessing or collecting any tax which is imposed is not provided for, the Commissioner of Internal Revenue may establish the same by regulation. He may also make all such regulations, not otherwise provided for, as may have become necessary by reason of any alteration of law in relation to internal revenue."

We probably might, under the provision of this statute, provide a way for selling the necessary stamps to persons not Indians, who might attempt to manufacture tobacco, snuff, or cigars within the limits of the Indian Territory, and if the provisions of the law just quoted are not ample, Congress might be requested to legislate further upon the subject.

If, however, the President has the lawful power to attach the Indian Territory to a collection district, the internal-revenue laws might be given full operation in that Territory despite the irritation which this might produce, and we would strive to collect the revenue and keep the necessary watch over the Territory to prevent the United States being defrauded.

A difficult case to provide against, if the President has not the power to attach the Territory to a collection district, is where a citizen of the United States attempts to manufacture articles upon which internal-revenue taxes are levied, within the limits of the Indian Territory, and thereby avoid the payment of internal-revenue taxes. It would seem that there ought to be some way to prevent such an evasion of law as that, but in view of the state of legislation upon the subject, and of the apparently conflicting opinions of the Supreme Court, I deem it my duty to call your attention to the whole subject, so that if you should have any doubts upon the law you can ask the opinion of the Hon. Attorney-General regarding it.

I have the honor to append hereto a brief prepared in the office of the Solicitor for this Bureau which will enable you to find in a small compass a statement of the various statutory provisions, and an abstract of the decisions of the courts in the premises. It also embraces the orders made by my predecessors, under which the internal-revenue taxes in the Indian Territory have, to some extent, been collected.

In what I have said I have not been unmindful that the words of the statute (section 3448), which extend the Internal revenue laws to all articles named

therein "produced anywhere within the exterior boundaries of the United States" are those which have created the difficulties of construction, but there would seem to be other reasons aside from the rules of construction alluded to, and the improbability of an intention on the part of Congress to override a treaty stipulation, which might raise doubts as to whether Congress had in contemplation the *Indian Territory* in the use of such language.

Our own territories, some of which had not organized territorial governments, might be supposed to have originally suggested such general words. At all events, I cannot suppress a belief that Congress probably did not mean to exercise its power arbitrarily and set aside a treaty provision with a people weak, it is true, but with whom the Government had in fact dealt as having, at least, the power to make an agreement.

I believe it is not to be lightly assumed that Congress would arbitrarily destroy that agreement without the consent of the tribes and without giving them any notice.

The case of the *United States vs. Forty-three Gallons of Whisky* had been before the Supreme Court before it was there in 1883, and I venture to call your special attention to the first decision of that case and to the opinion of the court therein as reported in 93 U. S., 188.

Hoping that I have not exaggerated the importance of the subject-matter of this letter, and awaiting your advice in the premises,

I am, Mr. Secretary, very respectfully,

WALTER EVANS,
Commissioner.

HON. CHARLES J. FOLGER,
Secretary of the Treasury.

MISCELLANEOUS EXPENSES.

The act of Congress approved August 7, 1882, making provision for sundry civil expenses for the year ending June 30, 1883, required the Commissioner of Internal Revenue to make a detailed statement of all miscellaneous expenditures in the Bureau of Internal Revenue, for which appropriation was made in that act. In accordance with the aforesaid requirement, I submit the following detailed statement of miscellaneous expenses incurred:

Express on public money, &c.....	\$6,789 50
Stationery for internal-revenue officers.....	16,326 63
Internal Revenue Record for internal-revenue officers.....	2,410 70
Telegraphing.....	1,114 10
Compensation of United States attorneys in internal-revenue cases, under sections 827 and 838, Revised Statutes.....	5,033 49
Locks for distilleries.....	3,080 58
Hydrometers for use in gauging spirits.....	7,630 80
Gauging-rods for standard-tests, gauging, &c.....	115 50
Alcohol for scientific tests, and expenses.....	254 20
Expense of seizure and sales by collectors.....	143 10
Traveling expenses of clerks under special orders of the Department.....	1,279 20
Rent of offices leased by the Secretary of the Treasury in New York City for the collector of the second district.....	5,000 00
Dies for canceling tobacco stamps.....	686 30
Federal Reporter and Postal Guide.....	11 30
Total.....	49,875 49

REVENUE AGENTS' DIVISION.

The following statements will show the salaries and expenses of revenue agents, expenditures from the appropriation for the discovery of violations of internal revenue laws, illicit stills seized, persons arrested for illicit distilling, casualties to officers and employes in the internal-revenue service, and statement of ordnance and ordnance stores issued to collectors, also a brief statement of the work performed by agents.

Thirty-five revenue agents have been employed during the past year, one as chief of division in this office, twenty-one in charge of divisions,

four employed in examining collectors' accounts, and nine in assisting agents in charge of divisions.

Nine hundred and twenty-seven violations of law have been reported by revenue agents during the year, four hundred and forty-six persons have been arrested on their information, property to the value of \$91,401.16 has been reported by them for seizure, and for assessment for unpaid taxes, and penalties \$294,912.15 has been reported by them.

Thirty-seven railroad and income cases for collection of back taxes under laws repealed have been examined by agents under special assignment. The amount of taxes received from railroad cases during the last fiscal year, which had been examined and reported upon by agents in previous years, is \$161,042.07. But few of this class of cases now remain undisposed of. All the claims against railroad corporations, with one exception, are now in suit.

There has been expended from the appropriation for salaries and expenses of revenue agents during the year, as follows:

Aggregate salary of agents.....	\$83,997 00
Aggregate amount for traveling expenses.....	41,882 26
Stationery furnished agents.....	292 07
Transportation over Pacific railroads under orders from Treasury Department.....	1,223 55
Total.....	127,394 88

EXPENDITURES FOR THE DISCOVERY AND PUNISHMENT OF FRAUD.

In accordance with the provisions of the act making the appropriation, the following detailed statement of expenditures from the appropriation for detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws is submitted:

There has been generally throughout the country little disposition to evade the payment of internal-revenue taxes. On the contrary, there has been evinced by the great body of tax-payers a willing obedience to the laws. There has been no relaxation on the part of officers to secure the close and faithful collection of the taxes.

In portions of the country, notably in the more remote and sparsely-settled districts of the Southern States, within a few years, the production of and traffic in illicit spirits and tobacco have prevailed to a great extent. In some districts formidable combinations existed to resist the collection of taxes, and the authority of the Government was openly defied. The enforcement of the laws was attended with great difficulty, and not unfrequently with loss of life to the officers. The policy adopted to execute the laws firmly and vigorously, but impartially, and in as conciliatory a manner as possible, has brought about a better public sentiment, and a decided improvement in the condition of affairs in this respect in the localities referred to.

By reference to the reports of former years it will be seen that illicit distillation in the country has been greatly reduced within five years. The report of the last fiscal year encourages me to believe that by continuing the firm, energetic, and impartial enforcement of the laws which now prevails, with such leniency to offenders as circumstances may seem to justify, this great evil may be further reduced. It is too much to expect that it can ever be wholly eradicated.

Below will be found a statement of the number of stills seized and casualties to officers and employes engaged in the suppression of illicit distillation for the last five years:

	1878.	1879.	1880.	1881.	1882.
Stills seized	1,024	1,319	969	756	464
Officers and employes killed	8	7	3	1	4
Officers and employes wounded	17	19	7	9	1

The report for the last fiscal year, which is embraced in table on page 16, shows that 397 stills were seized, and that there was but one casualty to employes.

OFFERS IN COMPROMISE.

LEGACY AND SUCCESSION TAXES.

There were assessed and collected as legacy and succession taxes for the fiscal year \$22,918.83.

It is perhaps not unsafe to say that every dollar of it was collected upon information given by professional informers. The extra cost of this work was 10 per cent. of the amount collected paid to the informer, viz, \$2,291.88, and \$3,000 salary and expenses paid to a deputy collector specially appointed for the examination of these cases, making a total expenditure of \$5,291.88, or about 23 per cent. of the amount collected.

The act of July 14, 1870, which went into operation on the 1st of October, 1870, repealed this class of taxation, and the work of making collections at this late date of claims arising under the old law involves much that is exasperating, inquisitorial, and odious. It is very difficult, after the lapse of so many years, to ascertain the exact facts in any case, and in view of the complete settlement long ago of many estates much injustice and hardship is often possible. In consideration of these facts and the certainty that only small sums, if anything, can be collected, I have directed that the allowance for the employment of a special deputy collector for this class of cases shall cease on the 31st day of December next, and I shall, with your approval, offer no further inducements to informers in such cases. Should any just claims remain outstanding I shall endeavor to have them collected through the ordinary channels.

ESTIMATED EXPENSES FOR NEXT FISCAL YEAR.

I estimate the expenses of the Internal Revenue Service for the fiscal year ending June 30, 1885, as follows:

For salaries and expenses of collectors.....	\$1,850,000 00
For salaries and expenses of thirty-five revenue agents, for surveyors, for fees and expenses of gaugers, for salaries of storekeepers, and for miscellaneous expenses.....	2,300,000 00
For dies, paper, and stamps.....	475,000 00
For detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws, including payment for information and detection.....	75,000 00
For salaries of officers, clerks, and employes in the office of the Commissioner of Internal Revenue.....	299,190 00
Total.....	4,999,190 00

SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors for the fiscal year ending June 30, 1884, are based upon an estimate of their probable collections according to the following scale, with the qualification that if the actual collections should vary from the amounts estimated the salaries will be readjusted at the end of the fiscal year:

CONDITION OF THE OFFICE.

I take occasion to express my thanks to the officers and clerks of this Bureau for the gratifying manner in which their duties have been performed. The work of the office is in good condition, and well up to date, except with respect to claims for the redemption of stamps, growing out of the act of March 3, 1883. These claims have been filed in great numbers, and have been disposed of as rapidly as possible with the force at my command. The condition of this class of claims is shown under the appropriate head.

REDUCTION OF TAXATION.

The act of Congress entitled "An act to reduce internal-revenue taxation, and for other purposes" provided as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the taxes herein specified imposed by the laws now in force be, and the same are hereby, repealed, as hereinafter provided, namely: On capital and deposits of banks, bankers, and national banking associations, except such taxes as are now due and payable; and on and after the first day of July, eighteen hundred and eighty-three, the stamp tax on bank checks, drafts, orders, and vouchers, and the tax on matches, perfumery, medicinal preparations, and other articles imposed by Schedule A following section thirty-four hundred and thirty-seven of the Revised Statutes: *Provided*, That no drawback shall be allowed upon articles embraced in said schedule that shall be exported on and after the first day of July, eighteen hundred and eighty-three: *Provided further*, That on and after May fifteenth, eighteen hundred and eighty-three, matches may be removed by manufacturers thereof from the place of manufacture to warehouses within the United States without attaching thereto the stamps required by law, under such regulations as may be prescribed by the Commissioner of Internal Revenue.

SEC. 2. That on and after the first day of May, eighteen hundred and eighty-three, dealers in leaf tobacco shall annually pay twelve dollars; dealers in manufactured tobacco shall pay two dollars and forty cents; all manufacturers of tobacco shall pay six dollars; manufacturers of cigars shall pay six dollars; peddlers of tobacco, snuff, and cigars shall pay special taxes, as follows: Peddlers of the first class, as now defined by law, shall pay thirty dollars; peddlers of the second class shall pay fifteen dollars; peddlers of the third class shall pay seven dollars and twenty cents; and peddlers of the fourth class shall pay three dollars and sixty cents. Retail dealers in leaf tobacco shall pay two hundred and fifty dollars and thirty cents for each dollar on the amount of their monthly sales in excess of the rate of five hundred dollars per annum: *Provided*, That farmers and producers of tobacco may sell at the place of production tobacco of their own growth and raising at retail directly to consumers, to an amount not exceeding one hundred dollars annually.

SEC. 3. That hereafter the special tax of a dealer in manufactured tobacco shall not be required from any farmer, planter, or lumberman who furnishes such tobacco only as rations or supplies to his laborers or employees in the same manner as other supplies are furnished by him to them: *Provided*, That the aggregate of the supplies of tobacco so by him furnished shall not exceed in quantity one hundred pounds in any one special tax year; that is, from the first day of May in any year until the thirtieth day of April in the next year: *And provided further*, That such farmer, planter, or lumberman shall not be, at the time he is furnishing such supplies, engaged in the general business of selling dry goods, groceries, or other similar supplies in the manner of a merchant or storekeeper to others than his own employees or laborers.

SEC. 4. That on and after May first, eighteen hundred and eighty-three, the internal taxes on snuff, smoking, and manufactured tobacco, shall be eight cents per pound; and on cigars which shall be manufactured and sold or removed for consumption or sale on and after the first day of May, eighteen hundred and eighty-three, there shall be assessed and collected the following taxes, to be paid by the manufacturer thereof: On cigars of all descriptions, made of tobacco or any substitute therefor, three dollars per thousand; on cigarettes weighing not more than three pounds per thousand, fifty cents per thousand; on cigarettes weighing more than three pounds per thousand, three dollars per thousand: *Provided*, That on all original and unbroken factory packages of smoking and manufactured tobacco and snuff, cigars, cheroots, and cigarettes held by manufacturers or dealers at the time such reduction shall go into effect, upon which the tax has been paid, there shall be allowed a drawback or re-

bate of the full amount of the reduction, but the same shall not apply in any case where the claim has not been presented within sixty days following the date of the reduction; and such rebate to manufacturers may be paid in stamps at the reduced rate; and no claim shall be allowed or drawback paid for a less amount than ten dollars. It shall be the duty of the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, to adopt such rules and regulations and to prescribe and furnish such blanks and forms as may be necessary to carry this section into effect.

ALTERATION OF STAMPS FOR TOBACCO, SNUFF, CIGARS, CIGARETTES, AND SPECIAL TAXES.

The changes made by the act of March 3, 1883, in the rates of tax on tobacco, snuff, cigars, cigarettes, and in the special taxes imposed on manufacturers of tobacco and cigars and dealers therein, necessitated a change in all stamps used for the payment of such taxes.

In order to utilize the stock of stamps on hand in the vaults of this office, in process of printing at the Bureau of Engraving and Printing, and in the hands of collectors, Congress, at the request of late Commissioner Raum, made an appropriation of \$20,000, "for alteration of internal-revenue dies, plates, and stamps, and for providing blanks for rebate."

At the suggestion of Commissioner Raum, the honorable Secretary of the Treasury appointed a committee consisting of Messrs Charles H. Dow, chairman, Secretary's Office, J. R. Garrison, First Comptroller's Office, and V. N. Stiles, Fifth Auditor's Office, to supervise the count and imprinting of such internal-revenue stamps for tobacco, snuff, cigars, cigarettes, and special taxes in this office as it might be desirable to have imprinted for issue under the act of March 3, 1883.

A special force of about thirty persons was employed, placed under the direction of this committee, and work was commenced March 12, 1883, and continued with an intermission of about ten days until June 15.

The change in the stamps was made by impressing with hand stamping machines on each stamp and stub the words "Act of March 3, 1883."

In the case of special-tax stamps where the value is printed on each stamp, the impression included in addition to the words above mentioned the cancellation of the printed value and the insertion of the value as changed.

The cigar and cigarette stamps and the stamps for small packages of tobacco, commonly termed "strip stamps," were imprinted by the Bureau of Engraving and Printing, and the Government Printing Office.

The following is an abstract of the work performed under the direction of the committee by the Bureau of Engraving and Printing, and by the Government Printing Office.

REDEMPTION OF CHECK AND PROPRIETARY STAMPS AND CANCELLATION OF IMPRINTED CHECK-STAMPS.

The repeal of the stamp duty on checks and proprietary articles was necessarily followed by the presentation, under section 3426 Revised Statutes, and the act of March 1, 1879, which provided therefor, of a large quantity of stamps for redemption. Indeed the number was enormous.

The practice of using checks with stamps imprinted on them instead of adhesive check-stamps has been on the increase for several years. More than three-fourths of the check-stamps issued during the past three years having been thus imprinted. This practice resulted in a large accumulation of stamped checks and drafts throughout the country, nearly every bank having a supply of stamped drafts on hand for its own use and stamped checks for the use of its customers, and the checks, being lithographed, were more valuable than the stamps upon them. In order to save to the holders the value of this costly stationery, late Commissioner Raum issued Circular No. 259, under date of April 19, 1883, in which he promised, in cases where imprinted check-stamps were presented on or after July 1 and the claim for their redemption was found to be satisfactory, to cancel the stamps by imprinting across them the words "Stamp redeemed," and then to return the blank checks to their owners.

I am informed that Commissioner Raum expected the appropriation of \$20,000 for the alteration of tobacco stamps, &c., could be used for this work.

In answer to a large number of inquiries, and in order to facilitate the work of cancellation, Circular No. 265 was issued under date of June 1, 1883. In this circular the method of cancellation was described and provision was made for forwarding stamps for redemption at once.

It was intended to commence the work about June 5, but it was found that the \$20,000 appropriation for altering stamps, &c., was so worded that it could not be used for the cancellation of check-stamps. After considering the matter for nearly ten days, it was decided that the appropriation for the destruction of United States securities and stamps, which was included in the appropriation for labor and expenses of engraving and printing, could be used. Work was commenced under this decision June 15, with a force of about sixty persons specially employed for the purpose. At my suggestion a committee was appointed by the Secretary of the Treasury to verify the count of stamps after cancellation, and to certify to its correctness. The committee's certificate will be used as a voucher in the settlement of the accounts of the Commissioner of Internal Revenue. The number of stamps canceled by this force from June 15 to October 29 was 10,363,122, value \$207,262.44, the average being about 100,000 stamps for each working day.

From the start the work was beset with difficulties. In anticipation of a large demand, 15,000 blank claims had been provided; but the supply was exhausted in a few days, and, as the appropriation for printing for the Department for the year was also exhausted, it was nearly three weeks before a further supply could be procured.

During this time over 2,000 letters of inquiry and requests for blanks accumulated, which could not be answered satisfactorily until the blanks were received.

On receipt of a further supply of blanks these letters were assorted and answered; but as the extra force employed had had, with few exceptions, no previous experience in clerical duty, the work could not be done as rapidly and efficiently as was desirable.

The letters received concerning redemption averaged for a considera-

ble time 200 per day, the total number received from July 1 to date being nearly 13,000.

Early in July the receipts of stamps became so heavy and the drain on the appropriation was so great that it was decided to limit the time in which stamps would be received for cancellation to July 31. This decision was promulgated in Circular No. 267, issued July 10, and was communicated, as all previous steps in the work had been, to the Associated Press, and by them to the various papers throughout the country.

Immediately after the issuance of this circular the receipts of stamps increased until they amounted to an average of about three hundred packages per day. These packages varied in size from envelopes containing a score only of stamps, to boxes of several hundred pounds, the largest package received weighing 750 pounds and containing over 100,000 stamped checks.

It was necessary that each package received should be opened and a count and record made of the contents. As this was done by inexperienced hands and in haste, claims enclosed in packages were in many cases overlooked, and errors in names and in numbering packages were made. These errors have been a constant source of trouble and correspondence, and have caused delay in many cases in answering letters of inquiry.

It was also impossible to make a proper record of the packages as fast as received, and the record of packages received prior to August 1 was not entirely completed until August 15. The bulk of the stamps received was so great that the halls of the Treasury building had to be utilized for their storage and watchmen to be employed for their protection.

Delay was also occasioned by the fact that but two persons who had had previous experience were available for the work. Owing to the change in the tax on tobacco, snuff, cigars, cigarettes, and special taxes which rendered necessary the return of all such stamps in collectors' hands, and the consolidation of internal-revenue districts, which necessitated the closing of nearly all collectors' accounts, the regular force employed in the stamp division was already fully employed, and hence could not be drawn upon for help to any considerable extent. All matters connected with the examination of claims and correspondence concerning them had therefore to be conducted by these two persons, and the counting of the stamps prior to their cancellation had also to be supervised by them until such time as others connected with the extra force could be trained to take charge of some portions of the work.

Much trouble was also caused by defective claims. About one-half of the claims received were returned for correction, many of them several times. In other cases claimants were written to repeatedly before the evidence required to complete their claims could be obtained.

To recapitulate, delays were caused by—

1. Lack of any specific appropriation to cover the expenses of the work.
2. A much larger demand for blank claims than was anticipated.
3. The fact that no sufficient force of trained clerks was available and the work had to be done to a considerable extent by inexperienced persons.
4. Lack of space in which to store and handle the large number of packages received.
5. Carelessness on the part of claimants in the preparation of their claims.

In this connection it seems proper to state that most of the trouble with claims is caused by the necessity of ascertaining the date on

which stamps presented are purchased from the Government, as under the provision of section 17 of the act of March 1, 1879, no allowance can be made for stamps unless they are presented for redemption within three years after their purchase from the Government or a Government "stamp agent." This provision made the vexatious Form 81 absolutely necessary.

The number of packages received from June 10 to July 31, inclusive, was 4,618, containing about 12,770,869 stamps, value \$255,417.38.

Of this number there now remains on hand 1,698, containing 2,407,748 stamps of the value of \$48,154.96. As nearly as can be ascertained, about 1,000,000 of these stamps were presented for cancellation and return. The number of packages received from August 1 to date is about 1,800, supposed to contain about 5,000,000 stamps, value \$100,000. These cases have been recorded and numbered, and the claims for their redemption filed, but no action has been taken on them. The amount required for redeeming all these stamps received to date will be about \$350,000.

Circulars No. 259, 265, and 267 are as follows:

[Circular No. 259.]

REDEMPTION OF INTERNAL-REVENUE CHECK AND PROPRIETARY STAMPS.

1883.
DEPARTMENT No. 46.
INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, D. C., April 19, 1883.

In view of the repeal, on and after July 1, 1883, of all taxes payable by check and proprietary stamps, the following statutory provisions governing the redemption of such stamps, and the regulations made in pursuance thereof, are published for the benefit of all concerned:

Section 3426, Revised Statutes of the United States, as amended March 1, 1879, provides that—

"The Commissioner of Internal Revenue may, upon receipt of satisfactory evidence of the facts, make allowance for or redeem such of the stamps issued under the provisions of this title, or of any internal-revenue act, as may have been spoiled, destroyed, or rendered useless or unfit for the purpose intended, or for which the owner may have no use, or which, through mistake, may have been improperly or unnecessarily used, or where the rates or duties represented thereby have been excessive in amount, paid in error, or in any manner wrongfully collected; and such allowance or redemption shall be made either by giving other stamps in lieu of the stamps so allowed for, or redeemed, or by refunding the amount or value to the owner thereof, deducting therefrom, in case of repayment, the percentage, if any, allowed to the purchaser thereof; but no allowance or redemption shall be made in any case until the stamps so spoiled or rendered useless shall have been returned to the Commissioner of Internal Revenue, or until satisfactory proof has been made showing the reason why the same cannot be so returned."

Section 17 of the act of March 1, 1879, provides—

"That claims for allowance on account of stamps arising under section 3426 of the Revised Statutes * * * may be allowed, if presented within three years after the purchase of said stamps from the Government, or a Government agent for the sale of stamps, and not otherwise."

REGULATIONS.

1. Check or proprietary stamps presented for redemption should be addressed to "The Commissioner of Internal Revenue, Washington, D. C.," and must be forwarded at the risk and expense of the consignor.
2. The stamps should be accompanied by a claim, on Form 81, copies of which form will be furnished upon application to this office.
3. Claims may be sworn to or affidavits made before any internal-revenue officer authorized to administer oaths, without fee. Any other person administering an oath or affirmation must show, by seal or certificate from the proper authority, that he is qualified to do so. An officer in signing a jurat should give the title of his office.
4. Check and general proprietary stamps will be redeemed at their face value, less 5 per centum; private-die proprietary stamps at their face value, less 5 or 10 per centum, according to the rate of commission allowed on their purchase. Stamps may be exchanged for other check or proprietary stamps of equal value until July 1, 1883.
5. In cases where stamped checks or drafts are presented which have been filled up and signed, satisfactory evidence must be furnished that they have never been issued

or used in any manner whatsoever. If they have been passed to the payee, or indorsed, the stamps have no redeemable value.

6. In cases where claims for redemption of imprinted stamps are allowed prior to July 1, 1883, the blanks upon which the stamps are printed will, in accordance with a long-established rule of this office, be destroyed. In the case of such claims allowed on or after July 1, 1883, the blanks will be destroyed, unless the claimant shall specially request their return. Upon receipt of such a request, the word "Redeemed" will be impressed on the check or draft in letters $\frac{3}{8}$ of an inch in size, and the blanks, with the stamps so canceled, will be returned to the claimant by registered mail, free of expense, unless he shall otherwise direct, in which latter case they will be returned at his expense. In cases of rejected claims, stamps are always returned to claimants.

7. In cases where an allowance is asked for stamps destroyed, the facts in the case should be submitted to this office, and special instructions as to the evidence required will be given.

8. Stamps will only be redeemed when presented by a *bona fide* owner, or a duly authorized agent or representative of such owner. When a claim is made by a person acting as agent, executor, receiver, or in any other representative capacity, the authority of the representative to so act must be shown.

9. In view of the limitation imposed by statute upon the presentation of claims for redemption of stamps, it will be necessary to submit evidence with each claim as to the date on which the stamps for which redemption is asked were purchased from the Commissioner of Internal Revenue or a "stamp agent." Stamps imprinted on checks are not sold by stamp agents, and it is often impracticable to ascertain when they were purchased from the Commissioner. In such cases, evidence may be furnished as to the date on which the stamps were imprinted on the blanks. Information as to the date of imprinting can usually be obtained from the stationer who printed the checks. Full instructions concerning the form of affidavit required are printed on Form 81.

10. Claims will be acted on, as nearly as possible, in the order of their receipt, and in all cases as soon after their receipt as the condition of the public business will permit.

GREEN B. RAUM,
Commissioner.

[Circular No. 265.—Supplemental to Circular No. 259.]

REDEMPTION AND CANCELLATION OF STAMPS IMPRINTED ON CHECKS, DRAFTS, ETC.

1883.
DEPARTMENT No. 71.
INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, D. C., June 1, 1883.

Since the issue of Circular No. 259, dated April 19, 1883, many inquiries have been received concerning the instructions in paragraph 6, which provide, in the case of claims for redemption of stamps imprinted on checks, drafts, &c., allowed on or after July 1, 1883, that the stamps may be canceled and the blanks returned to the consignors upon receipt of a special request for such cancellation and return.

In answer to these inquiries, and in order to facilitate the work of cancellation, the following amended instructions are issued:

Imprinted stamps may be presented for redemption and cancellation at once, instead of waiting until July first. Such of the stamps received as are redeemed in June will be canceled and the blanks returned, if possible, in time to reach the owners July first.

Stamped blanks may be presented in sheets or bound in books, and will be returned in the same condition. Blanks which have been compressed into blocks or pads must be separated before presentation.

The cancellation of stamps will be as follows (the words "Stamp Redeemed" being in red ink):

Requests for cancellation in any form other than that indicated above, or in any place other than this office cannot be considered.

Claims for redemption of imprinted stamps should be made on Form 81—"Revised April, 1883," copies of which will be furnished upon application. Care should be exercised in the preparation of claims, as stamps will in no case be canceled until the claim for their redemption has been examined and found to be satisfactory.

Cases will be taken up for examination in the order of their receipt. If the claim in any case is complete, the stamps accompanying it will be ordered canceled at once. If the claim is incomplete, and it becomes necessary to call for additional evidence, the case will be laid aside and no further action will be taken until the additional evidence is received.

WALTER EVANS,
Commissioner.

[Circular No. 267.]

MODIFYING CIRCULAR NO. 259 AND SUPPLEMENT THERETO.

1883.
DEPARTMENT NO. 95.
INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, D. C., July 10, 1883.

In view of the fact that there was no specific appropriation made by Congress at its last session to meet the expense of the cancellation and return, after redemption, of stamps imprinted upon checks, drafts, &c., it becomes necessary to inform the public that such drafts, checks, and stamps will not be received for cancellation and return after redemption after the 31st day of July instant. All stamps imprinted upon drafts, checks, &c., received for redemption after that date, if redeemed, will be destroyed, together with the drafts or checks.

WALTER EVANS,
Commissioner.

This office has felt the full force of the enormous pressure of the work of cancelling and redeeming stamps. Parties sending in stamps, in many instances, imagined that the redemption was a cash transaction, wherein the money was given over the counter in exchange for stamps. Appreciating its importance to business men, the work on stamped checks sent in for cancellation and return has been vigorously pushed forward, and the greater portion of such check stamps have been imprinted and returned to owners.

Work on check stamps forwarded for redemption and destruction has also been energetically pressed, and the claims are being rapidly passed and forwarded to the Fifth Auditor of the Treasury for settlement. A large number of persons apparently unaware of the conditions prescribed in Circular No. 267 (although the utmost pains were taken to disseminate this circular through the newspaper press), sent in stamped checks for cancellation and return, after July 31, 1883, and are now anxious that this circular shall be modified so as to admit of their checks being imprinted and returned. It is, perhaps, a hardship that such persons should lose either the stamps or the checks thus forwarded, but the demand upon the appropriation of the Bureau of Engraving and Printing to pay the cost of this work has been so great, and that appropriation has been so depleted by this unexpected drain, that it is difficult to do otherwise than rigidly adhere to the requirements laid down in Circular No. 267. When the Chief of the Bureau of Engraving and Printing saw the dilemma in which this office was placed by the number of claims made under Circular No. 259, issued by my predecessor, and when it was found that the appropriation of \$20,000 above referred to was not available to pay for carrying out its promise, to relieve the great embarrassment of this Bureau which would result from abandoning the position taken in that circular, owing to the lack of funds to carry out its provisions, he consented to do the work, the First Comptroller being of the opinion that it could be done and lawfully paid for by him.

I desire to express the very grateful thanks of this office to the Chief of that Bureau for this aid, which, while it was a great favor to this

Bureau, was also of special benefit to the public. It is sincerely hoped that Congress will not hesitate to supply any deficiency resulting from this action of the Bureau of Engraving and Printing by an additional appropriation.

MANUFACTURE OF PAPER.

During the fiscal year there was manufactured by the Fairchild Paper Company, of Boston, Mass., under contract entered into September 19, 1882, 423,436 pounds of paper for (printing) internal-revenue stamps. The rates paid were 10 $\frac{3}{4}$ cents per pound for vegetable-sized, and 11 $\frac{3}{4}$ cents per pound for animal-sized paper.

The contract with this company has been continued for the manufacture of such paper as may be required during the current fiscal year, and orders have been given to this date (October 23, 1883) for 332,938 pounds.

Animal-sized paper was used exclusively for check and proprietary stamps, and, owing to the repeal of the stamp duty on checks and proprietary articles, will be no longer required.

PRODUCTION OF STAMPS.

During the last fiscal year all internal-revenue stamps have been produced by the Bureau of Engraving and Printing, except stamps imprinted upon bank checks, which have been supplied by the Graphic Company of New York City, and stamps upon foil wrappers for tobacco, which have been printed by Jno. J. Crooke & Co., of New York.

The contract with the Graphic Company was closed June 15, by reason of the repeal of the tax on bank checks.

TOBACCO.

The collections from tobacco for the fiscal year ended June 30, 1883, were \$42,104,249.79. In this amount are included taxes imposed upon imported manufactured tobacco, snuff, and cigars, in addition to customs duties, the taxes imposed on domestic manufactured tobacco, snuff, and cigars, the special taxes paid by manufacturers of tobacco, snuff, and cigars, the special taxes paid by dealers in leaf and dealers in manufactured tobacco, and it also includes the receipt of money for export stamps sold to exporters of tobacco.

The collections from the several sources above named for the last fiscal year are less than those of the fiscal year immediately preceding by the sum of \$5,287,739.12.

COMPARISON WITH PRECEDING YEAR.

The above statement shows that the collections made during the fiscal year ended June 30, 1883, were less than those made during the fiscal year ended June 30, 1882. The decreases were—

From specific taxes:	
Tobacco and snuff	\$2,939,967 49
Cigars and cigarettes	1,393,232 59
From special taxes:	
Dealers in manufactured tobacco	860,723 28
Manufacturers of tobacco and cigars	50,025 26
Dealers in leaf tobacco	30,050 51
Peddlers of manufactured tobacco	8,061 59
From sales of export stamps	5,678 40
Total decrease of collections	\$5,287,739 12

PRODUCTION OF MANUFACTURED TOBACCO, CIGARS, ETC.

The production of tobacco, snuff, cigars, and cigarettes for the fiscal year ended June 30, 1883, as shown from the several quantities removed for consumption on payment of tax, together with the quantities removed in bond for export, is as follows:

	Pounds.
Tobacco taxed at 16 cents per pound	111,627,846
Tobacco taxed at 8 cents per pound	53,449,340
Snuff taxed at 16 cents per pound	3,915,913
Snuff taxed at 8 cents per pound	1,368,459

Total quantity removed for consumption	170,361,558
Tobacco and snuff removed for exportation	10,951,757

Total apparent production	181,313,313
Total apparent product, year ended June 30, 1882	172,153,816

Total increase of production	9,159,497
------------------------------------	-----------

Of this increase 9,036,957 pounds were removed for consumption, and 122,540 $\frac{1}{2}$ pounds were exported.

PRODUCTION OF CIGARS AND CIGARETTES.

Cigars and cheroots, taxed at \$6 per thousand	2,403,849,392
Cigars and cheroots, taxed at \$3 per thousand	824,039,600
Cigarettes, taxed at \$1.75 per thousand	487,473,743
Cigarettes, taxed at 50 cents per thousand	152,428,760
Cigarettes, taxed at \$6 per thousand	107,950
Cigarettes, taxed at \$3 per thousand	11,200
Cigars removed in bond for export	2,773,375
Cigarettes removed in bond for export	76,888,060

Total product for fiscal year 1883	3,947,572,080
Total product for fiscal year 1882	3,662,973,076

Total increase of production	284,599,004
------------------------------------	-------------

Of this increase 186,234,977 were cigars and 98,364,027 cigarettes.

IMPORTED CIGARS.

The cigars imported during the fiscal year ended June 30, 1883, as given by the Bureau of Statistics, were as follows:

	Pounds.
Aggregate in quantity	829,777
Of this quantity there were exported	55,584

Leaving to be withdrawn for consumption	774,193
Allowing 13 $\frac{1}{2}$ pounds to the thousand, as the weight of imported cigars, the number would be	57,347,629
Number of cigars withdrawn in 1882	54,190,889

Increase in number of cigars for the fiscal year 1883	3,156,740
---	-----------

REVIEW OF THE TOBACCO TAX.

The act of March 3, 1883, reduced the rates of tax on all manufactured tobacco, snuff, and cigars one-half, and on cigarettes weighing not more than three pounds per thousand, to two-sevenths of the previous rate. The same act reduced all special taxes imposed upon manufacturers of and dealers in tobacco under various forms fully 50 per cent. These rates became operative on and after May 1, 1883, so that nearly all the special taxes for the last fiscal year were collected at the reduced rates. During the last two months of the fiscal year, the taxes on tobacco, snuff, and cigars were collected at the reduced rates. All changes and prospective changes in the tax laws disturb the normal

condition of trade. It is therefore impossible to tell, until a law has been in operation for a sufficient length of time to counteract the influence of changes which materially affect prices and stimulate or retard business operations, what will be its effect on the revenues.

Supposing the tobacco, snuff, cigars, and cigarettes had all been taxed at the present rates, the aggregate receipts would have been as follows:

170,361,558 pounds tobacco and snuff at 8 cents per pound	\$13,628,924 64
3,227,888,992 cigars at \$3 per thousand	9,683,666 97
119,150 cigarettes at \$3 per thousand	357 45
639,902,503 cigarettes at 50 cents per thousand	319,951 25

Total receipts therefrom would have been	23,632,900 31
Actual receipts therefrom were	40,697,615 23

Difference would be	17,064,714 92
---------------------------	---------------

At the old rates the aggregate receipts on the same quantity of tobacco and snuff, and numbers of cigars and cigarettes, would have been \$47,745,727.50, and the difference would have been \$24,112,827.19 more than at the present rates of tax thereon.

The actual receipts from special taxes were \$1,405,758.56. Had the old rates continued the same number of persons employed in the different kinds of business would have paid special taxes aggregating \$2,525,999.73, or \$1,120,241.17 more than were paid.

These figures show that the reduction of tax rates made by the act of March 3, 1883, will, on the basis of last year's business, cause a reduction of revenue from tobacco during the next fiscal year of at least twenty-five million dollars.

DIRECT TAX.

I desire to call attention to the subject of the direct tax; and with a view of making some suggestions regarding the balance uncollected, I have the honor to report somewhat in detail regarding it.

The subject, I know, is not a new one, but it was left, many years ago, in some portions of the country, in so unsettled and unfinished a condition that even at this remote period there are complications and complex questions arising in connection with it which this office is called upon to consider; and my attention is directed to the fact that many were called upon to pay the tax, and many adjacent and in close proximity to them were not and have not been called upon to pay the amount charged against them. The amount uncollected exceeds three millions of dollars, as will be seen from the subjoined statements which I herewith submit, showing the amount apportioned to each State, Territory, and the District of Columbia under the act of Congress approved August 5, 1861, also showing the amount paid and unpaid in each, the amount realized from sales of lands for non-payment of the direct taxes charged against them, under the act of Congress approved June 7, 1862, and from resales or sales of lands which were bid in by the tax-commissioners and the titles to which became vested in the United States.

Congress, by acts approved July 1, 1862, and February 25, 1863, provided that the amounts apportioned to the then Territories of Nebraska, New Mexico, and Dakota, should be deducted from appropriations made by Congress for specified expenses of said Territories, but through some inadvertence those Territories were not credited with their respective quotas, except a part to Nebraska, amounting to \$4,281.60.

The appropriations from which the quotas of Nebraska and New Mexico were to be deducted were not all used; sufficient portions thereof seem to have been unused to satisfy the amounts apportioned to each, but have been carried to the surplus fund, which necessitates legislation by Congress to make them available.

The appropriation from which the quota of Dakota was to have been deducted appears to have been used, without crediting that Territory with any part of its quota; so that the entire amount apportioned to the three Territories named continues charged to them.

The amount remaining unpaid, as represented upon the first table, is .. \$455,228 47
The amount remaining uncollected in the eleven late insurrectionary States is..... 2,725,104 61

Total balance uncollected in all the States and Territories 3,180,333 08

Under the provisions of the act of Congress approved June 7, 1862, and the several amendments thereto, the *lands* in the eleven late insurrectionary States were charged with the direct tax apportioned to each of said States, under the act of August 5, 1861, and tax-commissioners were appointed in each of those States to assess and to collect said tax.

The tax-commissioners sold lands for non-payment of direct taxes in the States of Virginia, South Carolina, Florida, Tennessee, and Arkansas, and they struck off quite a quantity of lands in each of those States, except Arkansas, for the United States. The surplus proceeds

from sales, after deducting purchase-money refunded and the taxes, &c., chargeable, are as follows:

In Virginia.....	\$37,082 24
In South Carolina, not including the second sales.....	24,754 43
In Florida.....	35,478 86
In Tennessee.....	79,605 75
In Arkansas.....	14,376 92
Total.....	191,298 20
The proceeds in South Carolina under headings of resales.....	288,880 74
Total surplus, including second sales in South Carolina.....	480,178 94

The sales in Virginia occurred only in the counties of Alexandria, Accomack, and Northampton.

The sales in South Carolina occurred only in the parishes of Saint Helena and Saint Luke, upon the Sea Islands.

The sales in Florida occurred only at Saint Augustine and Fernandina.

The sales in Tennessee occurred only at Memphis.

The sales in Arkansas occurred only at Little Rock.

The records indicate that the direct-tax commissioners made assessments in about one-half of the counties in the eleven late insurrectionary States, and that they made collections in each of those States except Alabama.

The tax-commissioners were engaged in making assessments and collections in those States until Congress, by an act approved July 28, 1866, authorized a suspension of further collections in the eleven States referred to until January 1, 1868, and by act of Congress approved July 23, 1868, the suspension was further continued until January 1, 1869, since which date collections have not been resumed, nor has Congress taken any action further suspending the same. Congress did, however, provide, by an act approved March 26, 1867, section 3, "that the Secretary of the Treasury is hereby authorized and required to discontinue the employment of any officer or person employed under the acts for the collection of direct taxes in insurrectionary districts within the United States, whenever, in his judgment, their service is no longer needed; and he is hereby authorized to devolve upon any officer or officers of internal revenue in said districts any portion of the duties imposed by said acts, who shall perform such duties without additional compensation."

In regard to the other States which had not assumed the payment of the direct tax, Congress provided, by an act approved June 30, 1864, section 47, as follows: "That the officers who may be appointed under this act, except within those districts within any State or Territory which have been, or may be, otherwise especially provided for by law, shall be, and hereby are, authorized, in all cases where the payment of such tax shall not have been assumed by the State, to perform all the duties relating to or regarding the assessment and collection of any direct tax imposed or which may be imposed by law."

The services of the direct-tax commissioners and their employes in the eleven insurrectionary States were discontinued, and the duties necessary to be performed, such as taking charge of lands which had been acquired by the United States under the direct-tax laws, &c., have been devolved upon officers of internal revenue.

The act of August 5, 1861, provides for an *annual* direct tax of \$20,000,000, and apportioned the same to the different States, Territo-

ries, and the District of Columbia, but subsequent legislation limited it to one levy.

This act, in section 53, provides that any State, Territory, or District may assume and pay its quota, in its own way, by and through its own officers; and that if any State, Territory, or the District of Columbia shall give notice, by the governor or other proper officer thereof, to the Secretary of the Treasury of the United States, on or before the second Tuesday of February next thereafter, of its intention to assume and pay, or to assess, collect, and pay into the Treasury of the United States, the direct tax imposed by this act, said State, Territory, or District shall be entitled to a deduction of fifteen per centum on such portion of its quota as shall have been actually paid into the Treasury of the United States on or before the last day of June in the year to which such payment relates, and of ten per centum on such part or parts of its quota as shall have been actually paid into the Treasury of the United States on or before the last day of September in the year to which such payment relates. The same section also provides that the amount apportioned to any State, Territory, or the District of Columbia may be paid in whole or in part by the release of such State, Territory, or District to the United States of "any liquidated and determined claim of such State, Territory, or District of equal amount against the United States," and that in such release the same abatement shall be allowed as would be allowed in case of payment of the direct tax in money.

A subsequent act, approved May 13, 1862, extends the provisions of section 53, above referred to, to war claims which may be presented on or before the 30th of July, 1862.

Section 52 of the act of August 5, 1861, provides for the collection of the direct tax, in case a State or Territory is in actual rebellion, &c., as soon as the authority of the United States therein is re-established.

Most of the States, and the District of Columbia, except the eleven insurrectionary States, assumed and paid the amounts apportioned to them.

By an act approved June 7, 1862, Congress provided for the collection of the direct tax apportioned to the insurrectionary States by and through United States direct-tax commissioners.

Sections 1 and 2 of that act provide that the direct tax shall be charged against each and every parcel of land in those States (not exempt by the laws of the State or of the United States), and that said tax, together with a penalty of fifty per centum, shall become a lien thereon, without any other or further proceeding whatever.

There are sixteen "school-farms" in South Carolina still owned by the United States and rented from year to year by the collector of internal revenue. These school-farms are lands which were bid in by the tax-commissioners for the United States, and were excepted from the sales made under the act of June 8, 1872. Each school-farm contains about 160 acres.

The rentals from them all average less than five hundred dollars per annum.

These rentals are invested in United States bonds, and the interest thereof is used for the support of public schools under the provisions of an act of Congress approved March 3, 1873.

The amount which has accumulated as a school-fund under the several direct-tax acts, and which has been invested in United States bonds, the interest of which is for the benefit of public schools in the parishes of Saint Helena and Saint Luke, South Carolina, is about \$56,515.35.

I would suggest that a recommendation be made to Congress to provide for the redemption of the "school-farms" in South Carolina, and for the sale of the same in case of failure to redeem.

Under the provisions of the acts of Congress approved June 7, 1862, as amended, and May 9, 1872, nearly one-half of the original purchase-money has already been returned to the purchasers, and this office is advised that suits are still pending in courts which involve the tax titles, and the result of which may necessitate the return of more of the purchase-money to the purchasers.

The tax commissioners established their offices in the different counties in each of the eleven States mentioned as far as practicable, fixed the amount of tax charged against each tract or lot of land, gave public notice of the same and of the time and place for receiving it. Many of the land owners came forward and paid the tax and penalty charged against their lands, and many did not; and the tax, penalty, &c., still continues charged against the lands on which they have not been paid.

When the tax commissioners discontinued their work, the assessment books and papers were turned over to this office, and are now on file in this Department.

In regard to the collection of the unpaid portion of the direct tax, I respectfully suggest that exacting a direct tax from one land owner and permitting the tax upon the land adjoining to remain unpaid, is not equitable. I would therefore respectfully recommend that measures be taken, as soon as practicable, to collect the balance of that tax, in compliance with existing provisions of law, unless Congress desires a further suspension or different methods than are already provided.

At the last session of Congress an appropriation was made to pay the amount for which lots and tracts of land were sold for direct taxes in excess of the tax penalty, interest, and costs charged against the same to the owners of said lots and tracts at the time they were so sold.

The appropriation was based upon an estimate made by this office to cover the sales made to private purchasers, where payments were actually made, and did not include the amounts at which the tax commissioners struck off lots and tracts of land for the United States, which aggregates \$77,561.18, or a surplus in excess of the taxes of \$60,572.42.

The amount appropriated was \$190,000. The amount of claims presented under this act is \$179,665.38, leaving a balance for claims not yet presented of \$10,334.62.

The number of claims presented under the appropriation is 293; the number of claims pending for payment to direct-tax purchasers on account of eviction under act of May 9, 1872, is 16, aggregating \$4,692.

The number of claims presented for payment of interest alleged to have been illegally collected (act of February 25, 1867), is 288, aggregating \$16,069.72.

The number of claims coming under the appropriation of \$190,000, disposed of forty-three, aggregating \$40,895.41, of which nineteen have been disallowed, aggregating \$29,214.50.

The number of letters received in this branch of the office, 299; the number of letters written in this branch of the office, 512.

SPIRITS WITHDRAWN FROM WAREHOUSES FOR SCIENTIFIC PURPOSES AND FOR THE USE OF THE UNITED STATES.

The quantity of alcohol withdrawn free of tax from distillery warehouses for the use of colleges and other institutions of learning in the preservation of specimens of natural history in their several museums, and for use in their chemical laboratories, and of spirits of various kinds for the use of the United States, amounted during the year to 28,725 gallons, or 14,677 gallons more than the quantity withdrawn during the previous year.

TRANSFERS OF SPIRITS FROM DISTILLERY WAREHOUSES TO MANUFACTURING WAREHOUSES.

The quantity of spirits transferred to manufacturing warehouses during the year was 203,938 gallons, or 9,384 gallons less than the quantity withdrawn for transfer to such warehouses during the fiscal year 1882. The falling off occurred as to alcohol and pure spirits. It is noted that bourbon and rye whiskies were transferred during the past year, no such spirits having been so transferred during the previous year.

† Cologne spirits.

DISTILLED SPIRITS ALLOWED FOR LOSS BY LEAKAGE OR EVAPORATION IN WAREHOUSES.

The quantity of spirits, 2,291,013 gallons, reported in the preceding table as lost by leakage or evaporation in warehouse, is that portion of the actual leakage in warehouse from packages withdrawn during the year, which has been allowed in accordance with the provisions of section 17 of the act of May 28, 1880.

The leakage allowed during June, 1880, was 75,834 gallons; the quantity allowed during the year ended June 30, 1881, was 811,466 gallons; that allowed during the year ended June 30, 1882, was 1,231,336 gallons, making the total allowance to July 1, 1883, 4,409,649 gallons.

The entire quantity of spirits withdrawn from distillery warehouses during the years 1881 and 1882 was as per original gauge 164,617,511 gallons.

The quantity allowed on account of leakage and evaporation in warehouse on this quantity was 2,042,802, or one and a quarter per cent. thereof nearly.

The entire quantity of spirits so withdrawn during the year 1883 was 83,291,190 gallons, and the quantity allowed for leakage in warehouse thereon was 2,291,013 gallons, as above stated, or two and seven-tenths per cent. thereof. This great increase in the percentage of leakage in warehouse may be due in part to frauds perpetrated by transferring small quantities of spirits from full packages to packages from which spirits have leaked in excess of the legal allowance. Such frauds have been discovered during the past year, and the guilty parties punished. But the great bulk of the increase is evidently due to the large increase in the withdrawals of old whisky.

Of this class are bourbon and rye whisky, the quantity of which withdrawn during the year 1883 was 21,896,135 gallons, or only 4,939,888 gallons less than the aggregate quantity withdrawn during the years 1881 and 1882.

It also appears upon comparison of tables furnished in this report with those given in the reports for the fiscal years 1881 and 1882 that while the quantity of spirits withdrawn during those years which were from two to three years old July 1, 1881, and July 1, 1882, respectively, was 4,342,763 gallons, the quantity of such spirits withdrawn during the year ended June 30, 1883, was 8,299,991 gallons.

DISTILLED SPIRITS LOST BY CASUALTY DURING THE YEAR.

The quantity of spirits, 184,770 gallons, reported in the preceding table as lost by casualty in distillery warehouses during the year ended June 30, 1883, is 72,246 gallons less than the quantity so lost during the next preceding year, or one gallon out of every eight hundred and eighty-seven gallons held on deposit in such warehouses during the year.

It also appears that the greater part, 170,357 gallons out of 184,770 gallons, was lost through one casualty by fire, which occurred at a warehouse in the twenty-second district of Pennsylvania.

* Bourbon whisky.

SPIRITS WITHDRAWN FROM WAREHOUSES FOR SCIENTIFIC PURPOSES AND FOR THE USE OF THE UNITED STATES.

The quantity of alcohol withdrawn free of tax from distillery warehouses for the use of colleges and other institutions of learning in the preservation of specimens of natural history in their several museums, and for use in their chemical laboratories, and of spirits of various kinds for the use of the United States, amounted during the year to 28,725 gallons, or 14,677 gallons more than the quantity withdrawn during the previous year.

TRANSFERS OF SPIRITS FROM DISTILLERY WAREHOUSES TO MANUFACTURING WAREHOUSES.

The quantity of spirits transferred to manufacturing warehouses during the year was 203,938 gallons, or 9,384 gallons less than the quantity withdrawn for transfer to such warehouses during the fiscal year 1882. The falling off occurred as to alcohol and pure spirits. It is noted that bourbon and rye whiskies were transferred during the past year, no such spirits having been so transferred during the previous year.

† Cologne spirits.

DISTILLED SPIRITS ALLOWED FOR LOSS BY LEAKAGE OR EVAPORATION IN WAREHOUSES.

The quantity of spirits, 2,291,013 gallons, reported in the preceding table as lost by leakage or evaporation in warehouse, is that portion of the actual leakage in warehouse from packages withdrawn during the year, which has been allowed in accordance with the provisions of section 17 of the act of May 28, 1880.

The leakage allowed during June, 1880, was 75,834 gallons; the quantity allowed during the year ended June 30, 1881, was 811,466 gallons; that allowed during the year ended June 30, 1882, was 1,231,336 gallons, making the total allowance to July 1, 1883, 4,409,649 gallons.

The entire quantity of spirits withdrawn from distillery warehouses during the years 1881 and 1882 was as per original gauge 164,617,511 gallons.

The quantity allowed on account of leakage and evaporation in warehouse on this quantity was 2,042,802, or one and a quarter per cent. thereof nearly.

The entire quantity of spirits so withdrawn during the year 1883 was 83,291,190 gallons, and the quantity allowed for leakage in warehouse thereon was 2,291,013 gallons, as above stated, or two and seven-tenths per cent. thereof. This great increase in the percentage of leakage in warehouse may be due in part to frauds perpetrated by transferring small quantities of spirits from full packages to packages from which spirits have leaked in excess of the legal allowance. Such frauds have been discovered during the past year, and the guilty parties punished. But the great bulk of the increase is evidently due to the large increase in the withdrawals of old whisky.

Of this class are bourbon and rye whisky, the quantity of which withdrawn during the year 1883 was 21,896,135 gallons, or only 4,939,888 gallons less than the aggregate quantity withdrawn during the years 1881 and 1882.

It also appears upon comparison of tables furnished in this report with those given in the reports for the fiscal years 1881 and 1882 that while the quantity of spirits withdrawn during those years which were from two to three years old July 1, 1881, and July 1, 1882, respectively, was 4,342,763 gallons, the quantity of such spirits withdrawn during the year ended June 30, 1883, was 8,299,991 gallons.

DISTILLED SPIRITS LOST BY CASUALTY DURING THE YEAR.

The quantity of spirits, 184,770 gallons, reported in the preceding table as lost by casualty in distillery warehouses during the year ended June 30, 1883, is 72,246 gallons less than the quantity so lost during the next preceding year, or one gallon out of every eight hundred and eighty-seven gallons held on deposit in such warehouses during the year.

It also appears that the greater part, 170,357 gallons out of 184,770 gallons, was lost through one casualty by fire, which occurred at a warehouse in the twenty-second district of Pennsylvania.

DISTILLED SPIRITS IN THE UNITED STATES OCTOBER 1, 1883.

The quantity of distilled spirits in the United States, except what may be in customs bonded warehouses, on the first day of October, 1883, was nearly one hundred and sixteen million gallons, this quantity being distributed as follows:

	Gallons.
In distillery and special bonded warehouses	73,847,103
In hands of wholesale liquor dealers	13,921,482
In hands of retail liquor dealers	28,180,650
Total	115,949,235

In making the above computation the average stock of each retail liquor dealer in the United States is estimated at one hundred and fifty gallons.

OPERATIONS AT SPECIAL BONDED WAREHOUSES FOR STORAGE OF GRAPE BRANDY.

The following statement shows the quantity of grape brandy placed in special bonded warehouses, withdrawn therefrom, and remaining

therein at the beginning and close of the fiscal year ended June 30, 1883, in taxable gallons:

* Exported during the years 1864-'65, 1866, and 1867 under the provisions of section 171, act June 30, 1864.

By the act of March 3, 1883, section 1, all internal-revenue taxes on proprietary articles (perfumery, medicinal preparations, and other articles imposed by Schedule A, following section 3437 R. S.) were repealed; and, as provided in said act, no drawback of tax on such articles exported on and after the 1st day of July, 1883, has been allowed. At the time the act named took effect, however, there were many unadjusted claims covering articles of this description exported prior to July 1, 1883, and the amount so outstanding is estimated at about \$25,000, a portion of which has already been allowed during the current fiscal year.

In connection with the foregoing statement attention is called to the fact that while the law, §3244 R. S., authorizes the allowance of drawback on stills when exported, no appropriation has yet been made by Congress for the payment of such drawback. I have therefore to renew the recommendation made in my predecessor's reports for the years 1880, 1881, and 1882 that the necessary appropriation be made for the payment of such drawback, and, in so doing, I would call attention to the following suggestion on the subject which I find on pages CXXX and CXXXI of the last-named report:

While a number of claims covering stills have been allowed by this office during the past three years, and by the authority conferred by section 3244, yet the claimants in such cases have been unable to recover the amount of drawback so awarded them by this office, in consequence of the failure of Congress to make the necessary appropriation. While the amounts due these claimants are not large, the promise made by the law to this class of taxpayers should, nevertheless, be redeemed, and I urgently call attention to this matter, in order that the payment of these claims may be provided for.

Massachusetts	134,613 71	West Virginia	24,902 86
Michigan	71,291 47	Wisconsin	68,551 25
Minnesota	42,951 49	Wyoming	3,563 14
Mississippi	8,719 10	Total	4,828,803 04
Missouri	191,382 50		

The main increase of the assessments made in the last fiscal year over the assessments made during the year ended June 30, 1882, consists in the tax on distilled spirits and amount assessed on what is called Form 58.

The law provides three methods of collecting the tax on distilled spirits remaining in warehouse over three years, viz:

1. Suit on the warehousing bond,
2. Assessment of the tax, and
3. Proceeding by distraint.

Upon consultation with the honorable Secretary of the Treasury it was decided to adopt the second remedy, and \$1,473,045.30 were consequently assessed on spirits remaining in warehouse over the legal time of three years. This explains the increase of assessments on this item, and really leaves a decrease of \$13,576.88 assessed on spirits fraudulently removed or seized.

Among the assessments made on Form 58 are amounts collected in compromise. These collections were larger than in the previous year, the collections from this source during the last fiscal year being \$252,077.78, while in 1882 they were only \$211,524.68. This of course helped materially to swell the total amount assessed on Form 58.

The decrease of \$2,525,178.04 in the tax assessed on capital, and deposits of banks and bankers, as shown by the above table, is owing to the repeal of said tax by the act of March 3, 1883. Under an opinion of the honorable Attorney-General no taxes on this account were assessed for periods subsequent to November 30, 1882.

Of the tax on deficiency in the production of distilled spirits \$41,878.39 less were assessed last fiscal year than in the previous year. Section 6 of the act of March 1, 1879, as amended by section 8 of the act of May 28, 1880, authorizes the Commissioner to remit the assessment of this tax whenever he is satisfied by sufficient evidence that the deficiency was not caused by any want of diligence, or by any fraudulent purpose on the part of the distiller, but was caused by unavoidable accident or by a misunderstanding of the law or regulations. A large number of such cases therefore were disposed of in this manner, which otherwise would have been assessed.

In the fiscal year ending June 30, 1882, a large amount of 100 per centum penalties were assessed against banks and bankers on erroneous returns made by them. The United States Supreme Court having decided such assessments to be illegal, they were not made during the last fiscal year, which explains the decrease of \$113,003.79 in this item.

I have been urged to make recommendations upon many subjects, and the *precedents* would have justified my doing so where my judgment approved, but I could find no provision of *law* which authorized or directed such a course, nor does your letter of September 10, asking for this report, call for such a response. I have therefore yielded very little to a temptation of that kind, and shall reserve expressions of opinion upon the subjects presented to me until such expressions may be called for by the proper authority.

I have the honor to subscribe myself, very respectfully,
WALTER EVANS,
Commissioner.

Hon. CHARLES J. FOLGER,
Secretary of the Treasury.

* Balance of collections not reported prior to the final settlement of collector's account.

D.—APPENDIX showing the DIFFERENCES between the INTERNAL-REVENUE COLLECTIONS in the DISTRICTS, STATES, TERRITORIES, and YEARS BELOW NAMED, as REPORTED by COLLECTORS and PUBLISHED in the SEVERAL ANNUAL REPORTS OF THE COMMISSIONER, and the TRUE COLLECTIONS.

[NOTE.—These differences were mostly discovered at the final settlement of the accounts of such collectors as have retired from office after the reports for the years in which they occurred had been printed. Hence their appearance in this form.]

To ascertain the exact amount collected in any one of the following-named districts, States, or Territories prior to July 1, 1883, add to or subtract from, as the case may be, the collections for that district, State, or Territory, in the "total" column in Table D, the sum or sums entered opposite the same district, State, or Territory in this appendix. The result will be the aggregate amount collected.

On pages 130, 131, 132, and 133 the signs (+) and (—) are used to denote the amounts to be added and subtracted, respectively.]

*A part of the first proviso of section 59, act of July 20, 1868, reads as follows: "A tax of \$4 on each barrel, counting 40 gallons of proof spirits to the barrel, shall be assessed and collected from the owner of any distilled spirits which may be in bonded warehouse at the date of the taking effect of this act, to be paid whenever the same shall be withdrawn from such warehouse." This proviso, in effect, makes the tax 60 cents per gallon on 24,383,951 gallons in warehouse at the time of the passage of that act.

†Section 56 of act approved July 20, 1869, provided that all distilled spirits in bonded warehouse at the time of the passage of that act not withdrawn within nine months should be forfeited to the United States. The act of April 10, 1869, extended the time of the withdrawal of such spirits to June 30, 1869, but imposed a tax of 1 cent per gallon for each month after April 20, 1869. The receipts on account of this additional tax were \$51,695.27.
