FOOTNOTES AT BEGINNING AND END OF FILM

CORPORATION SOURCE BOOK OF STATISTICS OF INCOME, 1971

FOOTNOTES

* Indicates estimate is subject to high sampling variability and should therefore be used with caution.

Returns with and without net income

(1) Includes "Includable income of Controlled Foreign Corporations" and "Foreign dividend gross-up" (the equivalent of foreign taxes deemed paid by related foreign corporations in developed countries on the profits from which dividends were distributed).

(2) Line 66, plus line 67, less line 39.

(3) Includes surcharge, tax from recomputing prior year investment credit, and additional tax for tax preferences.

(4) Line 68, less line 79, plus line 83.

(-0) Less than $500 per return.

Returns with net income

(1) Includes "Includable income of Controlled Foreign Corporations" and "Foreign dividend gross-up" (the equivalent of foreign taxes deemed paid by related foreign corporations in developed countries on the profits from which dividends were distributed).

(3) Includes surcharge, tax from recomputing prior year investment credit, and additional tax for tax preferences.

(-0) Less than $500 per return.

NOTES

1. For 1971, size of total assets "over zero under $50,000" and "$50,000 under $100,000" have been combined into "over zero under $100,000."

2. Income subject to tax

For most corporations, income subject to tax consisted of net income less statutory special deductions. However, certain of these deductions (a) could exceed net income resulting in no income subject to tax and (b) could occur on returns without net income and therefore without income subject to tax. Other exceptions applied to life insurance companies, regulated investment companies, real estate investment trusts, and to Small Business Corporations electing to have net income taxed through shareholders. See "Income subject to tax" in Explanation of Terms, STATISTICS OF INCOME--1971, CORPORATION INCOME TAX RETURNS.

3. Income year 1971 covers corporation accounting periods ended July 1971 through June 1972.

4. Cost of property used for investment credit and Investment qualified for credit include, respectively, $333.5 million and $254.0 million reported on Form 1120S, Small Business Corporation Income Tax Returns. These amounts were allocated by Small Business Corporations to their shareholders for use in computing their investment credit.

5. See the report STATISTICS OF INCOME--1971, CORPORATION INCOME TAX RETURNS, for a discussion of these statistics including:

Changes in law
Description of the sample and limitations of the data
Explanation of terms
Facsimiles of corporation income tax return forms, 1971

6. The report may be obtained from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.
