

Municipal Bonds, 2013

State and local governments across the United States and its territories issue municipal bonds to finance essential operations, facilities, infrastructure, and services for their constituents. SOI conducts annual studies on tax-exempt governmental bonds, tax-exempt private activity bonds, and tax credit bonds derived from Forms 8038-G, 8038, and 8038-TC filed by bond issuers.

Highlights of the Data

- Municipal bond issuance decreased from \$496.0 billion in 2012 to \$422.4 billion in 2013.
- Tax-exempt bond proceeds totaled nearly \$421.1 billion, or 99.7 percent of all municipal bonds proceeds in 2013.
- Tax-exempt governmental bonds issues raised \$339.7 billion in proceeds for public projects such as schools, transportation infrastructure, and utilities.
- Long-term governmental bonds totaled \$283.4 billion in 2013, of which \$144.8 billion financed new projects, while the remaining \$138.6 billion were used to refund prior governmental bond issues.
- The majority of long-term governmental bonds issued in 2013 were for the purpose of funding projects related to education, utilities, transportation, environment, and other purposes, for a total of \$267.4 billion.
- More than 2,700 tax-exempt private activity bonds were issued in 2013, for a total of \$81.4 billion in proceeds.
- Long-term private activity bonds totaled \$81.1 billion in 2013, of which \$37.6 billion financed new projects, while the remaining \$43.5 billion were used to refund prior private activity bond issues.
