FOREWORD

This publication makes available data compiled from Federal income tax returns, supplementing "Statistics of Income for 1936, Part 1." The data are a result of a special study which was sponsored and directed by the Division of Tax Research of the Treasury Department and financed by funds transferred by the Commissioner of Work Projects to the Department under authorization of the President. The study, under the direction of Mr. Roy Blough, Director of Tax Research, was conducted in Philadelphia, Pa., with Messrs. Thomas B. Rhodes and Earl D. Krickbaum in charge.

Section II of this volume presents data for 1936 on income, deductions, and tax of husbands and wives filing separate income tax returns. Section III analyzes the composition of individual incomes as reflected in the returns filed for 1936, showing among other things the extent to which incomes of different size are derived from particular sources singly or in combination. In Section I, already published, selected items of income, deductions, and tax reported by individuals for 1936 were classified by size of net income for the United States in aggregate, for sex and family relationship groups, and for geographic areas. In a subsequent volume it is planned to present tabulations relating to capital gains and losses.

The study was planned to meet the need of public and private research agencies for more comprehensive information on income characteristics as reflected in Federal income tax returns than is supplied by data regularly compiled by the Treasury Department, and to provide more complete income tax information for the Congress and the Treasury.

Among the several agencies which provided valuable assistance through the services of representatives who gave consideration to the nature and scope of the study were the Central Statistical Board, the Department of Agriculture, the Department of Commerce, the National Resources Committee, the Securities and Exchange Commission, the Work Projects Administration, and the National Bureau of Economic Research.

STATISTICS OF INCOME SUPPLEMENT FOR 1936SECTION II. INCOMES OF HUSBANDS AND WIVES FILING SEPARATE RETURNSRETURNS TABULATED

The tabulations in this section include, in general, information from duplicate returns filed for the taxable year 1936 as separate returns of husbands and wives or as community property returns, which could be matched into pairs for husband and wife. All returns for husbands and wives whose spouses filed returns in different States were excluded from the tabulations, since no attempt was made to match a return filed in one State with a return filed in another State. All returns of husbands and wives which could not be matched with returns of their spouses were likewise excluded. Such failure to match returns was due in part to the difficulty of determining the proper sex and family relationship class for returns with incomplete answers to questions 3, 4, and 5 (Form 1040) or questions 2 and 3 (Form 1040A), and in part to the use of different surnames by husbands and wives. The statutory requirements affecting filing of separate returns of husbands and wives under the Revenue Act of 1936 are given in the appendix of this volume, page X.

SEPARATE RETURNS OF HUSBANDS AND WIVES

Classification of returns by sex and family relationship was determined from information provided by the taxpayer on the face of the return and was based upon status at the end of the taxable year. The separate return classification was assigned to Form 1040 returns on which answers to questions "Were you married and living with husband or wife during your taxable year?" and "Is this a joint return of husband and wife?" were "Yes" and "No" respectively, and on which the name of the spouse filing a separate return and the collector's office to which it was sent were supplied. If the answers to the questions above were inconsistent or not sufficiently clear, the balance of the return was examined for further information as to marital status of the taxpayer. The separate return classification was assigned to Form 1040A returns on which answers to questions "Were you married and living with husband or wife during your taxable year?" and "Was a separate return filed by husband or wife?" were both in the affirmative. Reference was likewise made to question 8 (Form 1040) or question 6 (Form 1040A) pertaining to change of status during the year for determining sex and family relationship. (See facsimiles of Form 1040 and Form 1040A in the appendix of this volume, pages II and VI.)

If husband and wife elected to file separate returns, each was allowed to claim one-half of the personal exemption, or such exemption might, in accordance with an agreement entered into by them, be taken by either or divided between them in any proportion. If husband and wife both contributed to the support of a dependent, the credit of \$400 had to be taken by the one contributing the chief support and could not be divided between them.

COMMUNITY PROPERTY RETURNS

"Community property returns" are those designated as such by the taxpayers in the case of husband and wife domiciled in a so-called community property State and rendering separate income tax returns on the community income basis. In 1936, the community property States were: Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, and Washington. Community property returns were included in the present tabulation with other separate returns. In filing, each spouse was required to include on his or her return one-half of all community property income plus any separate income received.

CONTENT OF TABLES

The study of matched separate returns of husbands and wives is presented in two tables. Table 1 shows number of pairs of matched returns and, separately for husbands and wives, the amount of each selected source of income or loss, total income, total deductions, net income, and tax. The classification is by size of combined net income or combined net deficit of husband and wife excluding statutory net capital gains and losses, although the tabulated amounts of net income and net deficit include these items.

In Table 2, number of returns, combined net income, and tax reported by husbands and by wives are tabulated by net income or deficit classes of husbands excluding statutory net capital gains and losses, cross-classified by net income or deficit classes of wives excluding statutory net capital gains and losses.

Because of the definitions of net income and net deficit used in the present report for distributing returns by size classes, it must be recognized that returns or pairs of returns which showed statutory net capital gains or losses may appear, after exclusion of such gains and losses, in size classes other than those indicated by the amounts of statutory net income or deficit reported. This is most noticeable in cases where taxable returns appear in the net deficit classes.

DEFINITIONS OF ITEMS

(Item references are to facsimiles of Forms 1040 and 1040A in the appendix of this volume, pages II and VI)

Total Income

Total income is the sum of the positive items of income reported on the face of the return, including statutory net capital gain. It consists of all net positive amounts, after deductible expenses directly relating to each source of income have been subtracted from the gross amount, shown in items 1 through 11 of the Form 1040 return and items 1 through 5 of the Form 1040A return. It differs from item 12, Form 1040 or item 6, Form 1040A, in that the losses in income items, which have been tabulated as deductions in this report, commonly appear on the return as offsets against income in arriving at total income.

Total Deductions

Total deductions is the sum of all deduction items plus negative amounts of income reported on the face of the return. Total deductions comprises items 13 through 18 on Form 1040 and items 7 through 10 on Form 1040A, plus negative income items. The principal negative income items included are net losses from business or profession; net losses from partnerships, syndicates, pools, etc.; net losses from rents and royalties; and statutory net capital losses. The inclusion of these negative items in total deductions differentiates the latter figure from "Total deductions" reported by the taxpayer as item 19, Form 1040 or item 11, Form 1040A.

Personal exemption, credit for dependents, and credit for earned income are not included in total deductions, since these items constitute credits against net income for tax computation.

Net Income or Net Deficit

Net income or net deficit including statutory net capital gains and losses is tabulated from item 20, Form 1040 and item 12, Form 1040A. For each combined net income class in Table 1 the amount of net income for husbands or wives represents the difference between statutory net income and statutory net deficit reported on the returns of the respective spouses assigned to the class. For each net deficit class in Table 1 the amount of net deficit for husbands or wives represents the difference between statutory net deficit and statutory net income reported on returns of the respective spouses assigned to the class. In Table 2 the amount of combined net income or deficit represents the difference between combined statutory net income and combined statutory net deficit reported on the returns of the spouses for each class.

Total Tax

Total tax is the sum of the normal tax and the surtax as reported by the taxpayer on the return, item 30, Form 1040 and item 17, Form 1040A, prior to the allowance of credits for income taxes paid at the source and for income and profits taxes paid to foreign countries or United States possessions, and prior to the addition of penalties and interest in connection with delinquent tax payments. The amount of tax liability as reported on the returns is not precisely comparable with the amount of individual income tax collections during the calendar year in which the returns were filed. 1/

Salaries, Wages, Commissions, Fees, etc.

"Salaries, wages, commissions, fees, etc.," item 1, Forms 1040 and 1040A, is a net figure including all amounts reported by the taxpayer as compensation for personal service in the hire of others, either full-time or part-time. Deductible expenses reported as directly related to this source of income have been subtracted from the gross amount. Such earnings consist of cash payments and payments received other than in cash, the latter to be reported at fair market value. In the absence of proof to the contrary, a parent was assumed to have legal right to the earnings of a minor and such earnings were included under "Other income" on the return of the parent reporting them. For States where the earnings of a minor belong to the minor, it is not required that such earnings, regardless of amount, be included in the return of the parent. Minors whose incomes are large enough to meet filing requirements are required to submit returns like other individuals.

Tax-exempt compensation for personal services reported for 1936, such as salaries of most State officers and employees, was included in the tabulations under this item except where compensating deductions were shown. In these cases it was assumed that the items were shown for informational purposes only, and both items were deleted prior to tabulation.

Dividends

"Dividends," item 6 of Form 1040 and item 2 of Form 1040A, represents all taxable distributions received directly from domestic and foreign corporations. Dividends received through partnerships and fiduciaries are reported as income from those entities.

1/ For an enumeration of factors responsible for the difference, see "Statistics of Income for 1936, Part 1," pages 3 - 4.

Profit or Loss from Business or Profession

This item, item 2, Form 1040, consists of the net profit or loss of individual proprietorships engaged in the production or sale of goods, in business services, and in the professions. It represents total receipts less cost of goods sold and other business deductions, such as salaries (except salary paid to the proprietor or dependent minor children), interest on business indebtedness, taxes on business and business property, losses from fire or storm, bad debts arising from sales or services, depreciation, obsolescence, and depletion, rents, repairs, and other expenses accounted for in schedule A of Form 1040.

Income or Loss from Partnerships, Syndicates, Pools, etc.

"Income (or loss) from partnerships, syndicates, pools, etc.," item 7, Form 1040, represents the amounts of the distributive shares of the partners, including dividends and net capital gains and losses received through these entities. Taxable interest on obligations of the United States is segregated from the distributive shares and included in item 5, Form 1040, such interest being allowed as a credit against net income subject to normal tax.

The term "partnership" embraces any syndicate, group, pool, joint venture, or other unincorporated organization through or by means of which any business, financial operation, or venture is carried on but which is not a trust, an estate, or a corporation as defined by the Revenue Act of 1936.

Interest on Bank Deposits, Notes, Corporation Bonds, etc.

This item, item 3 plus item 4, Forms 1040 and 1040A, consists of all interest received on bank deposits, notes, corporation bonds, etc., but does not include taxable interest on Government obligations. The latter item, however, is reported separately and is included in total income.

Statutory Net Gain or Loss from Sales or Exchanges of Capital Assets
(Item 10, Form 1040)

The term "capital assets" as used in the Revenue Act of 1936, sec. 117 (b), "means property held by the taxpayer . . . but does not include stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory . . . if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business." The act imposed limitations on the amount of gain or loss to be taken into account in computing net income.

First, only certain percentages of the gain or loss recognized were taken into account for tax purposes, such percentages varying according to the length of time the capital assets had been held before disposition. The following table shows the various time periods and the corresponding percentages:

Period capital assets were held	Percent of gain or loss taken into account
1 year or less	100
Over 1 year but not over 2 years	80
Over 2 years but not over 5 years	60
Over 5 years but not over 10 years	40
Over 10 years	30

In addition, capital losses of each individual were allowed only to the extent of \$2,000 plus capital gains. In this connection husbands and wives were treated as separate taxpayers, and the allowance for losses of one spouse was computed without regard to the gains and losses of the other spouse. ^{1/} When excessive statutory capital losses were shown on a return, the amount was reduced in editing to the statutory limit and the excess was transferred to "Other deductions."

The amounts shown in Table 1 for statutory net capital gain and statutory net capital loss are the amounts reported on the returns, Form 1040, after application of the above statutory limitations. Table 1 presents in separate columns by net income and deficit classes, the sum of all statutory net capital gains for returns reporting such gains and the sum of all statutory net capital losses for returns reporting such losses. Net capital gains and losses received through partnerships and fiduciaries have been reported as income from those entities.

AVAILABILITY OF OTHER DATA

The tables in Section II provide data abstracted from more detailed tables available in a Source Book on file with the Treasury Department.

^{1/} For further description and for method of computing statutory net capital gains and losses, see facsimile of return Form 1040 in the appendix of this volume, pages II - V.

The classifications and the items tabulated in Table 1 in the Source Book are indicated in the table outline on the following page. Size classes for net incomes of \$30,000 and over and for net deficits of \$10,000 and over are more detailed than those provided herein. In the following outline the combinations made in the present section of net income classes of \$30,000 and over and of net deficit classes of \$10,000 and over from the Source Book tables are identified by the rulings setting off the grouped classes from adjacent classes above and below them. Items of income, deductions, and tax in Table 1 in the Source Book which likewise appear in Table 1 herein are underscored.

In Table 2 in the Source Book, the size classes shown in Table 1 are available separately for husbands and for wives. Also, in Table 2 totals of taxable and nontaxable returns are shown separately for each class with net income or net deficit of less than \$10,000.

Items tabulated for Table 2 in both the Source Book and this section include number of returns, combined net income or deficit, tax reported by husbands, and tax reported by wives.

The Source Book, in addition to showing a more complete tabulation of items and a more detailed size classification than are included in the published tables herein, presents data for each State of filing as well as for the United States in aggregate.

STATISTICS OF INCOME SUPPLEMENT FOR 1936

FOOTNOTES FOR TABLE 1

- 1/ "Total income" is the sum of the positive items of income reported on the face of the return, including statutory net capital gain. "Total deductions" is the sum of the deduction items reported on the face of the return plus negative amounts of income, including statutory net capital loss. The income items represent the net amounts by which gross receipts exceed the applicable deductions as reported in the schedules of the return.
- 2/ Net income or deficit including statutory net capital gain or loss is tabulated from item 20, Form 1040 and item 12, Form 1040A. For each combined net income class the amounts shown for husbands and for wives represent the aggregate statutory net income of the returns of the respective spouses with statutory net income, less the aggregate statutory net deficit of the returns of the respective spouses with statutory net deficit. Correspondingly, for each combined net deficit class the amounts shown represent the aggregate statutory net deficit of the returns of the respective spouses with statutory net deficit, less the aggregate statutory net income of the returns of the respective spouses with statutory net income. (See text, page v.)
- 3/ Total income tax is tabulated from item 30, Form 1040 and item 17, Form 1040A. (See text, page vi.)
- 4/ Consists of all taxable interest except taxable interest on Government obligations.
- 5/ For definition of statutory net gain or loss from sales or exchanges of capital assets, see text, page vii.
- a. Net income. The appearance of net income for husbands or wives in the combined net deficit classes is accounted for by the fact that returns reporting statutory net income may be classified as net deficit returns after exclusion of statutory net capital gains.

FOOTNOTES FOR TABLE 2

- 1/ Combined net income or deficit for husbands and wives including statutory net capital gains and losses is tabulated from item 20, Form 1040 and item 12, Form 1040A on the husband's return and on the wife's return. For each net income or deficit class in the table the amount shown represents the difference between (a) the sum of the combined statutory net incomes of the pairs of returns with such net incomes and (b) the sum of the combined statutory net deficits of the pairs of returns with such deficits.
- 2/ Total income tax is tabulated from item 30, Form 1040 and item 17, Form 1040A. (See text, page vi.) Since tax liability is based on statutory net income, it may attach to returns classified as deficit returns after exclusion of statutory net capital gain.
- a. Combined net deficit.

STATISTICS OF INCOME SUPPLEMENT FOR 1936SECTION III. PATTERNS OF INCOMERETURNS TABULATED

Each individual who filed a Federal income tax return for the income year 1936 was required to file an original and a duplicate. The tabulations in this section include information from all duplicate returns on Forms 1040 and 1040A with statutory net income filed for (a) the taxable year ended December 31, 1936, (b) fiscal years ended within the period July 1, 1936 through June 30, 1937, and (c) part-years the greater portion of which fell in the calendar year 1936. Returns with no statutory net income or with statutory deficit were excluded. All amended returns were tabulated, and where possible the corresponding superseded returns were excluded. Delinquent returns for the income year 1936 filed prior to January 1, 1938 were included, whereas all other delinquent returns were omitted from the tabulations.

In a few cases where duplicate returns were not readily available in the collectors' offices, original returns were obtained for transcription. For statutory requirements for filing returns, see appendix, page X.

EDITING OF RETURNS

Inasmuch as the duplicate returns used in this report in most cases did not incorporate revisions or adjustments made on the original returns as a result of preliminary office audit by the Bureau of Internal Revenue, they were edited prior to tabulation. The purpose of the general editing operation was to insure, so far as possible, the proper classification of the various items of income and deductions. Generally no attempt was made to determine the taxability of income items or the legality of deductions. The procedure was to accept information as reported by the individuals filing. However, in order to maintain uniformity of classification, all items which were obviously tax-exempt or non-deductible were transferred to the general categories of other income or other deductions. For one exception, in the case of tax-exempt public salaries, see "Salaries, wages, commissions, fees, etc.," page v.

CONTENT OF TABLES

After Forms 1040 and 1040A with net income were subjected to the above editing procedures, returns showing only one, only two,

or only three sources of income were classified for tabulation purposes by type and size of income items, and by size of total income, computed as the sum of the positive items of income reported on the face of the income tax return, including statutory net capital gain. Returns showing four or more sources of income were classified by types of the three principal sources of income and by size of the three principal sources combined as well as by size of total income. All returns were likewise classified by size of statutory net income.

The tabulations in this section include data concerning the number of sources from which taxpayers' incomes are derived, the types of income reported, and the relative importance of the various items of income with respect to size. In all tables, income items are arranged according to the sequence in which they occur on the income tax returns.

Tables 1, 2, and 3 classify returns with a specified number of income sources by size and type of income. Thus, Table 1 shows the number of returns in each total income class and in all classes combined with but one source of income, distributed by the particular source; Table 2 shows similarly the number with but two sources of income, distributed by the particular two sources combined; and Table 3 shows both the number with but three sources of income and the number with four or more sources of income, each distributed by the three principal sources combined. In addition each table records the total number of returns in each total income class and in all classes combined regardless of number of sources of income.

In Table 4, returns with four or more sources of income are classified by size of the three principal sources combined, for each of 120 possible combinations of three principal sources. In Table 3, the classification of such returns is by size of total income. The three principal sources on returns with four or more sources of income were selected on the basis of size of reported amounts.

Table 5 in this section contains a distribution of returns with two sources of income by size of each source for 21 selected combinations of two sources. Of the 21 combinations employed, 12 relate to two specific sources of income. Each of the remaining 9 combinations represents one specific source in combination with all other sources not separately combined with that specific source elsewhere in Table 5. Such grouped sources that are not separately designated are classified as "All other."

The importance of salaries, business income, dividend income, and partnership income when included in combination with other sources is shown in Table 6A - 6D. In section 6A of this table, all three-source returns with salaries are classified by size of

salaries, for each of the 36 possible combinations of three sources with salaries as one of the sources. Similar distributions are available in sections 6B - 6D for returns showing business income, dividend income, and partnership income, classified by size of each of those sources. Thus, three-source returns showing two or three of the above mentioned items of income are classified separately by size of each. Table 6A - 6D, in order to provide a basis for analysis of three-source returns in different income groups, shows data separately for returns with net income under \$5,000 and returns with net income of \$5,000 and over.

Table 7, likewise designed for returns with only three sources of income, presents, for each of the forty most frequently reported combinations of sources, the number of returns for each of the fifty most frequently reported size class combinations, size classes being separately designated for each specific source involved.

Table 8 is designed to show the relation between size of total income and net income. This table, available separately for returns with one, two, three, and four or more sources of income and in total for all returns with net income, is a distribution of returns cross-classifying 47 total income size classes by 47 statutory net income size classes.

DEFINITIONS OF INCOME ITEMS

(Item references are to facsimiles of Forms 1040 and 1040A in the appendix of this volume, pages II and VI)

Only positive items of income are included in tables presented in this section. All losses reported on individual returns from business or profession; partnerships, syndicates, pools, etc.; rents and royalties; or capital transactions are excluded.

Salaries, Wages, Commissions, Fees, etc.

"Salaries, wages, commissions, fees, etc.," item 1, Form 1040 and 1040A, is a net figure including all amounts reported by the taxpayer as compensation for personal service in the hire of others, either full-time or part-time. Deductible expenses reported as directly related to this source of income have been subtracted from the gross amount. Such earnings consist of cash payments and payments received other than in cash, the latter to be reported at fair market value. On joint returns the salaries of both spouses were included in item 1.

In the absence of proof to the contrary, a parent was assumed to have legal right to the earnings of a minor and such earnings were included on the return of the parent as other income. For

States where the earnings of a minor belong to the minor, it is not required that such earnings, regardless of amount, be included in the return of the parent. Minors whose incomes are large enough to meet filing requirements are required to submit returns like other individuals.

Tax-exempt compensation for personal services reported for 1936, such as salaries of most State officers and employees, was included in the tabulations under this item except where compensating deductions were shown. In these cases it was assumed that the items were shown for informational purposes only, and both items were deleted prior to tabulation.

Profit from Business or Profession

"Profit from business or profession," from item 2, Form 1040, consists of the net profit of individual proprietorships engaged in the production or sale of goods, in business services, and in the professions. It represents total receipts less cost of goods sold and other business deductions, such as salaries (except salary paid to the proprietor, his wife, or dependent minor children), interest on business indebtedness, taxes on business and business property, losses from fire or storm, bad debts arising from sales or services, depreciation, obsolescence, and depletion, rents, repairs, and other expenses accounted for in schedule A of Form 1040.

Interest on Bank Deposits, Notes, Corporation Bonds, etc.

This item, item 3 plus item 4, Forms 1040 and 1040A, consists of all interest received on bank deposits, notes, corporation bonds, etc., but does not include taxable interest on Government obligations, which is tabulated separately.

Taxable Interest on Government Obligations

"Taxable interest on Government obligations," item 5, Form 1040, consists of interest received from United States Savings Bonds and Treasury Bonds owned in excess of \$5,000, and interest received from obligations of instrumentalities of the United States (other than obligations issued under the Federal Farm Loan Act, or under such Act as amended), as reported in lines (e) and (f) respectively of column 6, schedule D, on page 2 of the return. It includes amounts of such taxable interest received through partnerships, estates, or trusts.

Dividends

"Dividends," item 6, Form 1040 and item 2, Form 1040A, represents all taxable distributions received directly from domestic and

foreign corporations. Dividends received through partnerships and fiduciaries are reported as income from those entities.

Income from Partnerships, Syndicates, Pools, etc.

"Income from partnerships, syndicates, pools, etc.," from item 7, Form 1040, represents the positive amounts of the distributive shares of the partners, including dividends and net capital gains and losses received through these entities. Taxable interest on obligations of the United States is segregated from the distributive shares and included in item 5, Form 1040, such interest being allowed as a credit against net income subject to normal tax.

The term "partnership" embraces any syndicate, group, pool, joint venture, or other unincorporated organization through or by means of which any business, financial operation, or venture is carried on but which is not a trust, an estate, or a corporation as defined by the Revenue Act of 1936.

Income from Fiduciaries

Item 8, Form 1040, represents income received as beneficiary of an estate or trust, including dividends and net capital gains and losses received through these entities. Taxable interest on obligations of the United States is segregated from fiduciary income and included in item 5, Form 1040, being allowed as a credit against net income subject to normal tax. Taxpayers filing Form 1040A returns were instructed to report fiduciary income as "Other income." All Form 1040A returns in which it was possible to determine the full amount of fiduciary income reported were transcribed to Forms 1040. Fiduciary income reported on Forms 1040A which were not transcribed was tabulated as "Other income."

Rents and Royalties

"Rents and royalties," from item 9, Form 1040, represents net positive amounts derived from rents and royalties, after deductible expenses such as depreciation, depletion, interest, taxes, fire insurance, fuel, light, labor, and other necessary expenses have been subtracted from gross income received from such sources.

Statutory Net Gain from Sales or Exchanges of Capital Assets (Item 10, Form 1040)

The term "capital assets" as used in the Revenue Act of 1936, sec. 117 (b), "means property held by the taxpayer . . . but does not include stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory . . . if on

hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business." The act imposed limitations on the amount of gain or loss to be taken into account in computing net income. Only certain percentages of the gains or losses recognized from transactions in the various assets held were taken into account for tax purposes, such percentages varying according to the length of time the capital assets had been held before disposition. The following table shows the various time periods and the corresponding percentages:

Period capital assets were held	Percent of gain or loss taken into account
1 year or less	100
Over 1 year but not over 2 years	80
Over 2 years but not over 5 years	60
Over 5 years but not over 10 years	40
Over 10 years	30

The amounts of capital gain shown in the tables represent statutory net capital gain for all holding periods combined as reported on the returns, Form 1040, after application of the above statutory limitations. They do not include amounts received through partnerships or fiduciaries, capital gains thus realized being included in the income reported from such entities. 1/

Other Income

"Other income," item 11 on Form 1040 and item 5 on Form 1040A, includes all taxable income derived by the taxpayer and not provided for in items 1 through 10 and items 1 through 4 on Form 1040 or Form 1040A respectively. As previously noted, it also includes such tax-exempt income as was reported by taxpayers and transferred in editing to other income. When Form 1040A returns showed as "Other income" items required to be reported on Form 1040, which is designed for "net incomes from salaries or wages of more than \$5,000 and incomes from business, profession, rents, or sale of property," the amounts for such items were allocated to their particular sources. Such allocation was likewise made for Form 1040 returns on which amounts which properly belonged in items 1 through 10 were reported in "Other income."

1/ For further description and for method of computing statutory net capital gain, see facsimile of Form 1040 in the appendix of this volume, pages II - V.

Total Income

Total income is the sum of the positive items of income reported on the face of the return, including statutory net capital gain. It consists of all net positive amounts, after deductible expenses directly relating to each source of income have been subtracted from the gross amount, shown in items 1 through 11 of the Form 1040 return and items 1 through 5 of the Form 1040A return. It differs from item 12, Form 1040 or item 6, Form 1040A, in that the losses in income items, which have been treated as deductions for purposes of this section, commonly appear on the return as offsets against income in arriving at total income.

Statutory Net Income

In this section of the report, so far as returns are classified by size of net income, the classification is based upon statutory net income as reported in item 20, Form 1040 and item 12, Form 1040A.

AVAILABILITY OF OTHER DATA

The tables in this section provide data supplemented by more detailed tables available in a Source Book on file with the Treasury Department. All such tables in the Source Book are shown separately for returns with net income under \$5,000 and returns with net income of \$5,000 and over. Tables similar to Tables 1, 2, and 3 in this section, classifying returns by size of total income and by the source or combined sources of income reported, are included. Likewise, a table for two-source returns, classified by size of each source of income, is presented in the Source Book for all 45 possible combinations of two sources of income on such returns to supplement Table 5 in this section. A frequency distribution is further available in the Source Book showing, for all 120 possible combinations of three principal sources of income on returns with four or more sources, number of returns classified by size of total income and cross-classified by size of the three principal sources combined.

A complete table in the Source Book, from which Table 7 in this volume is derived, presents for each of the 120 possible combinations of three sources of income on three-source returns, a tabulation of frequencies for returns classified by all size class combinations of the three specific sources.

Tables are likewise available in the Source Book showing patterns of deductions separately for returns with net income under \$5,000 and returns with net income of \$5,000 and over. Such tables

classify returns with two, three, and four or more deductions by size of total income and by the deduction or combined deductions. Single-deduction returns are classified by size of each specific deduction; two-deduction returns are classified in the Source Book also by size of each deduction for all 36 possible combinations of two deductions on such returns; returns with four or more deductions are classified by size of total income and by size of the three principal deductions combined for each of the 84 possible combinations of three principal deductions on such returns. A table is available in the Source Book, corresponding to the table discussed above for patterns of income, which contains classification of three-deduction returns by all size class combinations of the three specific deductions for the 84 possible combinations of three deductions on such returns.

Also available in the Source Book are two general frequency tables, one classifying all returns reporting net income under \$5,000 by number of sources of income and by number of deductions, and the other, similar to Table 8 of this section, classifying all returns reporting net income under \$5,000 by size of total income and by size of statutory net income. Both of these tables are shown likewise for returns with net income of \$5,000 and over.

FOOTNOTES FOR TABLES 1-8

- 1/ For definitions of sources of income, see text, pages v - viii.
- 2/ Although "Other income" is treated in tables in this section as a single source of income, this item may comprise income derived from various sources.
- 3/ For returns with four or more sources of income, the three principal sources, determined on the basis of size of reported amounts, were selected for combination.
- 4/ For each specific source of income in Table 5, the classification "All other" used in combination with that source includes all other sources of income with the exception of those which are separately available elsewhere in the table in combination with the given source. For definitions of sources of income, see text, pages v - viii.
- 5/ Total income is defined to include only net positive items of income, and is not decreased by such negative income as business loss and net capital loss, whereas statutory net income is decreased by losses in income items as well as by general deductions.
 - a. No cases occur above this class.

INSTRUCTIONS

The Instructions Numbered 1 to 20 Correspond with the Item Numbers on the First Page of the Return

1. INCOME FROM SALARIES, WAGES, COMMISSIONS, ETC.

Enter as Item 1 on page 1 of the return, all salaries or other compensation credited by or received from outside sources. Use a separate line for each entry, giving the information requested.
Any amount claimed as a deduction for necessary expenses against salaries, etc., such as traveling expenses, while away from home in the pursuit of a trade or business, should be fully explained in Schedule F on page 2 of the return, or on an attached statement. Traveling expenses ordinarily include expenditures for railroad fares, meals, and lodging.

2. PROFIT (OR LOSS) FROM BUSINESS OR PROFESSION

If you owned a business, or practiced a profession on your own account, fill in Schedule A on page 2 of the return, and enter the net profit (or loss) as Item 2 on page 1 of the return.
This schedule should include income from: (a) Sale of merchandise or products of manufacturing, mining, construction, and agriculture; (b) Business service, such as hotel, restaurant, and garage service, amusements, laundering, storage, transportation, etc.; and (c) Professional service, such as dentistry, law, medicine. In general, report any income in the earning of which you incurred expenses for material, labor, supplies, etc.
Farmer's income schedule.—If you are a farmer and keep no books of account, or keep books on a cash basis, obtain from the Collector, and attach to this return, Form 1040F, Schedule of Farm Income and Expenses, and enter the net farm income as Item 2 on page 1 of this return. If your farm books of account are kept on an accrual basis, the filing of Form 1040F is optional.
Installment sale.—If the installment method is used, attach to the return a schedule showing separately for the years 1933, 1934, 1935, and 1936 the following: (a) Gross sales; (b) Cost of goods sold; (c) Gross profits; (d) Percentage of profits to gross sales; (e) Amount collected; and (f) Gross profit on amount collected. (See Section 44 of the Revenue Act of 1936.)
Kind of business.—Describe the business or profession in the space provided in Item 2, page 1, as "grocery", "retail clothing", "drug store", "laundry", "doctor", "lawyer", "farmer", etc.

Total receipts.—Enter on Line 1 of Schedule A the total receipts, less any discounts or allowances from the sale price or service charge.
Inventories.—If engaged in a trade or business in which the production, purchase, or sale of merchandise is an income-producing factor, inventories of merchandise on hand should be taken at the beginning and end of the taxable year, which may be valued at cost, or cost or market, whichever is lower.

Salaries.—Enter on Line 10 all salaries not included as "Labor" on Line 2, except compensation for services of yourself, your dependent minor children, or of husband or wife if a joint return is filed, which have been definitely accrued.
Interest.—Enter on Line 11 interest on business indebtedness. Do not include interest for yourself on capital invested in or advanced to the business.
Taxes.—Enter on Line 12 taxes on business property or for carrying on business. Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed, nor Federal income taxes, nor estate, inheritance, legacy, succession, and gift taxes.

Losses.—Enter on Line 13 losses incurred in the trade or business, if not compensated for by insurance or otherwise and not made good by repairs claimed as a deduction. Losses of business property arising from fire, storm, etc., should be explained in the table at the foot of page 2 of the return.
Bad debts.—Enter on Line 14 debts, or portions thereof, arising from sales or services that have been reflected in income, which have been definitely accrued but which are worthless and charged off within the year, or such reasonable amount as has been added to a reserve for bad debts within the year.
A debt previously charged off as bad, if subsequently collected, must be returned as income for the year in which collected.

Depreciation.—Enter on Line 15 the amount claimed as depreciation by reason of exhaustion, wear and tear of property used in the trade or business, or of obsolescence, as determined in the table at the foot of page 2 of this return. If obsolescence is claimed, explain why the useful life is less than the actual life.
The amount of depreciation on property acquired by purchase should be determined upon the basis of the original cost (not replacement cost) of the property and the probable number of years remaining of its expected useful life. Except if the property was purchased prior to March 1, 1913, it will be computed on the fair market value of such property as of that date or its original cost (less depreciation actually sustained before that date), whichever is greater. If the property was acquired in any other manner than by purchase, see Sections 23 (1), 23 (n), and 114 of the Revenue Act of 1936.

Use of a deduction is claimed on account of depletion of mines, oil or gas wells, or timber, see Section 29 (a), 23 (c), and 114 of the Revenue Act of 1936.
Do not claim any deduction for depreciation in the value of a building occupied by you as a dwelling, or property held for personal use, nor for land (exclusive of improvements thereon), nor on stocks, bonds, and securities.

Rent, repairs, and other expenses.—Enter on Line 16 rent on business property in which you have no equity, ordinary repairs to keep the property in a usable condition, and other necessary business expenses not classified above, such as heat, light, and fire insurance. Do not include rent for a dwelling occupied by you for residential purposes, the cost of business equipment or furniture, expenditures for replacements or permanent improvements to property, nor personal, living, or family expenses.

3. INTEREST ON BANK DEPOSITS, ETC.

Enter as Item 3 all interest received or credited to your account during the taxable year on bank deposits, notes, mortgages, and corporation bonds, except interest on bonds upon which a tax was paid at the source. Interest on bonds is considered income when due and payable.

4. INTEREST ON TAX-FREE COVENANT BONDS

Enter as Item 4 bond interest upon which a tax was paid at source. Such tax (2 percent of the interest earned in Item 4) may be claimed as a credit in Item 31 of the return.

5. INTEREST ON GOVERNMENT OBLIGATIONS, ETC.

Schedule D should be filled in if you own any of the obligations or securities enumerated in Column 1. Enter in Column 2 the principal amounts of the various obligations owned at the end of the year and enter in Column 3 all interest received or credited to your account during the year on these obligations, including your share of such interest received from a partnership, or an estate or trust.

Interest on all coupons falling due within the taxable year will be considered as income for the year, where the books are kept on a cash receipts and disbursements basis. If the books are kept on an accrual basis, report the actual amount of interest accrued on the obligations owned during the taxable year.
If the obligations enumerated on Line (e) are owned in excess of the exemption of \$5,000, or any on Line (f) are owned in any amount, Columns 5 and 6 should be filled in, and the total of the interest reported on Line (g) should be entered as Item 5 on page 1 of the return.
(See also Instruction 24, paragraph (d).)

6. DIVIDENDS

Enter as Item 6 the total of all dividends reported in Schedule E.

7 AND 8. INCOME FROM PARTNERSHIPS, SYNDICATES, POOLS, ETC., AND FIDUCIARIES

Enter as Item 7 your share of the profits (whether received or not) (or of the losses) of a partnership, syndicate, pool, etc., and as Item 8 income from an estate or trust, except that the share of taxable interest on obligations of the United States, etc., should be included in Schedule D. Include in Items 31 and 32, respectively, credits claimed for income tax paid at source, and foreign income taxes.

If the taxable year on the basis of which you file your return does not coincide with the annual accounting period of the partnership or fiduciary, then you should include in your return your distributive share of the net profits (or losses) for such accounting period ending within your taxable year.

9. INCOME FROM RENTS AND ROYALTIES

Fill in Schedule B, giving the information requested.
If you received property or crops in lieu of cash rent, report the income as though the rent had been received in cash. Crops received as rent on a crop-share basis should be reported as income for the year in which disposed of (unless your return shows income accrued).

Enter as depreciation the amount of exhaustion, wear and tear, or depletion sustained during the taxable year, and explain in the table at the foot of page 2. Other expenses, such as interest, taxes, fire insurance, fuel, light, labor, and other necessary expenses of this character should be itemized.

10. CAPITAL GAINS AND LOSSES

Report sales or exchanges of capital assets in Schedule C and enter the net amount of gain or loss to be taken into account in computing net income as Item 10. (CAPITAL LOSSES ARE ALLOWABLE ONLY TO THE EXTENT OF \$2,000 PLUS CAPITAL GAINS. THEREFORE, IF THE TOTAL AMOUNT OF CAPITAL LOSSES IS IN EXCESS OF THE TOTAL AMOUNT OF CAPITAL GAINS, THE NET AMOUNT TO BE ENTERED AS ITEM 10 MAY NOT EXCEED \$2,000.) Describe the property briefly, and state the price received or the fair market value of the property received in exchange. Expenses connected with the sale or exchange may be deducted in computing the profit or loss.

If the property sold or exchanged was acquired prior to March 1, 1913, the basis for determining GAIN is the cost or the fair market value as of March 1, 1913, adjusted as provided in Section 113 (b) of the Revenue Act of 1936, whichever is greater, but in determining LOSS the basis is cost so adjusted. (See Section 113 of the Revenue Act of 1936.) If the amount shown as cost is other than actual cash cost of the property sold or exchanged, full details must be furnished regarding the acquisition of the property.

Enter as depreciation the amount of exhaustion, wear and tear, obsolescence, or depletion which has been allowed (but not less than the amount allowable) in respect of such property since date of acquisition, or since March 1, 1913, if the property was acquired before that date. In addition, if the property was acquired before March 1, 1913, the cost shall be reduced by the depreciation actually sustained before that date.

Subsequent improvements in land expenditures for additions, improvements, and repairs made to restore the property or prolong its useful life. Do not deduct ordinary repairs, interest, or taxes in computing gain or loss.
No loss shall be recognized in any sale or other disposition of shares of stock or securities where you have acquired substantially identical stock or securities within 30 days before or after the date of such sale or disposition, unless you are engaged in the trade or business of buying and selling stocks and securities.

No deduction shall be allowed in respect of losses from sales or exchanges of property, directly or indirectly, (A) between members of a family, or (B) except in the case of distributions in liquidation, between an individual and a corporation in which such individual owns, directly or indirectly, more than 50 percent in value of the outstanding stock. For the purpose of this paragraph—(C) an individual shall be considered as owning the stock owned, directly or indirectly, by his family; and (D) the family of an individual shall include only his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants.

The provisions of the Revenue Act of 1936 relating to capital gains and losses are:

Sec. 117. (a) General rule.—In the case of a taxpayer, other than a corporation, only the following percentages of the gain or loss recognized upon the sale or exchange of a capital asset shall be taken into account in computing net income:

100 per centum if the capital asset has been held for not more than 1 year;
50 per centum if the capital asset has been held for more than 1 year but not for more than 2 years;
40 per centum if the capital asset has been held for more than 2 years but not for more than 5 years;
30 per centum if the capital asset has been held for more than 5 years but not for more than 10 years.

(b) Definition of capital assets.—For the purposes of this title, "capital assets" means property held by the taxpayer (whether or not connected with his trade or business) which does not include stock in trade, inventory, or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business.

(c) Determination of period for which held.—For the purpose of subsection (a)—
(1) In determining the period for which the taxpayer has held property received on an exchange there shall be included the period for which the taxpayer held the property exchanged if under the provisions of section 113 the property received has, for the purpose of determining gain or loss from a sale or exchange, the same basis in whole or in part in his hands as the property exchanged.

(2) In determining the period for which the taxpayer has held property which he has received by a sale or exchange, such property shall be included the period for which such property was held by any other person, if under the provisions of section 113, such property has, for the purpose of determining gain or loss from a sale or exchange, the same basis in whole or in part in his hands as it would have in the hands of such other person.

(3) In determining the period for which the taxpayer has held stock or securities received upon a distribution where the distributee is a partner in the partnership, or a shareholder in the corporation, under the provisions of section 112 (c) of the Revenue Act of 1926 or the Revenue Act of 1932, there shall be included the period for which he held the stock or securities in the distributing corporation prior to the receipt of the stock or securities upon such distribution.

(4) In determining the period for which the taxpayer has held stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nonapplicability (under section 113 of the Revenue Act of 1926 or the Revenue Act of 1932 or the Revenue Act of 1936) of the loss from the sale or other disposition of substantially identical stock or securities which he held the stock or securities the loss from the sale or other disposition of which was not deductible.

(5) Limitation on capital losses.—Losses from sales or exchanges of capital assets shall be allowed only to the extent of the capital gains from such sales or exchanges.

(6) Gains and losses from short sales, etc.—For the purpose of this title—
(a) Gains or losses from short sales of property shall be considered as gains or losses from sales or exchanges of capital assets.

(b) Gains or losses attributable to the failure to exercise privileges or options to buy or sell property shall be considered as gains or losses from sales or exchanges of capital assets held for one year or less.

(c) Retirement of bonds, etc.—For the purpose of this title, amounts received by the holder upon the retirement of bonds, debentures, notes, or certificates or other evidences of indebtedness issued by any corporation (including a political subdivision thereof), with interest coupons or in registered form, shall be considered as amounts received in exchange therefor.

Notwithstanding the provisions of Section 117 (a) above, 100 percent of the gain resulting to the distributee from distributions in liquidation of a corporation shall be taken into account in computing net income, except in the case of amounts distributed in complete liquidation of a corporation. (See Section 115 (c) of the Revenue Act of 1936.)

Section 117 applies only to gains and losses upon the sale or exchange of capital assets and, therefore, has no application to loss of useful value upon the permanent abandonment of the use of property or loss sustained as the result of corporate stock or debts becoming worthless.

In the application of Section 117 a husband and wife, regardless of whether a joint return or separate returns are made, are considered to be separate taxpayers. Accordingly, the limitation under Section 117 (d) on the allowance of losses of one spouse from sales or exchanges of capital assets is in all cases to be computed without regard to gains and losses of the other spouse upon sales or exchanges of capital assets.

11. OTHER INCOME

Enter as Item 11 all other taxable income for which no space is provided on the return.

12. TOTAL INCOME

Enter as Item 12 the net amount of Items 1 to 11, inclusive, after deducting any expenses reported in Item 1, and losses in Items 2, 7, 9, and 10.

13. INTEREST PAID

Enter as Item 13 interest paid on personal indebtedness as distinguished from business indebtedness (which should be deducted under Schedule A or B). Do not include interest on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest upon which is wholly exempt from taxation.

14. TAXES PAID

Enter as Item 14 personal taxes and taxes paid on property not used in your business or profession, not including those assessed against local benefits of a business or profession, to increase the value of the property assessed. Do not include Federal income taxes, nor estate, inheritance, legacy, succession, and gift taxes, nor taxes imposed upon your interest as shareholder of a corporation which are paid by the corporation without reimbursement from you, nor income taxes claimed as a credit in Item 32. No deduction is allowable for any portion of foreign income and profits taxes if a credit is claimed in Item 32.
Any deduction on account of taxes should be explained in Schedule F.

15. LOSSES BY FIRE, STORM, ETC.

Enter as Item 15 losses of property not connected with your business or profession, sustained during the year if arising from fire, storm, shipwreck, or other casualty, or from theft, and if not compensated for by insurance or otherwise. (See Section 23 (c) of the Revenue Act of 1936.)
Explain losses claimed in the table provided on page 2 of the return.

16. BAD DEBTS

Enter as Item 16 all bad debts other than those claimed as a deduction in Schedule A. State in Schedule F, (a) of what the debts consisted, (b) when they were created, (c) when they became due, (d) what efforts were made to collect, and (e) how they were actually determined to be worthless.

17. CONTRIBUTIONS

Enter as Item 17 contributions or gifts made within the taxable year to any corporation, or trust, or community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, or any part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation. The amount claimed shall not exceed 15 percent of your net income computed without the benefit of this deduction. A fiduciary filing the return for an estate may claim, in lieu of this deduction, that provided in Section 162 of the Revenue Act of 1936. List organizations and amounts contributed to each in Schedule F.

18. OTHER DEDUCTIONS

Enter as Item 18 any other authorized deductions for which no space is provided on the return. Do not deduct losses incurred in transactions which were neither connected with your trade or business nor entered into for profit. If the return is filed for an estate in process of administration, there should be deducted the amount of any income paid or credited to a beneficiary. Any deduction claimed should be explained in Schedule F.

No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than interest. Items directly attributable to such exempt income shall be allocated thereto, and items directly attributable to any class of taxable income shall be allocated to such taxable income. A taxpayer receiving any exempt income, other than interest, or holding any property or engaging in any activity the income from which is exempt shall submit with his return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of items allocated to each such class (the amount allocated by apportionment being shown separately).

19. TOTAL DEDUCTIONS IN ITEMS 13 TO 18

Enter as Item 19 the total of Items 13 to 18, inclusive. This amount should not include any deduction claimed in Schedule A or B.

20. NET INCOME

Enter as Item 20 the net income, which is obtained by deducting Item 19 from Item 12. The net income shall be computed upon the basis of the taxable year in accordance with the method of accounting regularly employed in keeping your books, unless such method does not clearly reflect your income.

21. PERSONS REQUIRED TO MAKE A RETURN OF INCOME

An income tax return must be filed by every citizen of the United States whether residing at home or abroad, and every person residing in the United States though not a citizen thereof, whose gross income for the taxable year amounted to \$5,000 or whose net income amounted to—

- (a) \$1,000 if single or if married and not living with husband or wife;
- (b) \$2,500 if married and living with husband or wife;
- (c) More than the personal exemption if status of taxpayer changed.

If an individual is single and the net income, including that of dependent minors, if any, is \$1,000 or over, or if the gross income is \$5,000 or over, a return must be filed. If the combined net income of husband and wife, and dependent minor children, if any, is \$2,500 or over, or if their combined gross income is \$5,000 or over, all such income must be reported in a joint return, or in separate returns of husband and wife. In case the husband and wife elect to file separate returns and their combined net income is \$5,000 or over, each shall make a return on Form 1040.

In order for a joint return to be filed by a husband and wife, both spouses must have had some income or deductions in the year for which the return is filed and the return must include the income and deductions of both spouses. A joint return of husband and wife may be filed only if they were living together at the close of their taxable year.

If the net income of a decedent to the date of his death was \$1,000 or over, if unmarried, or in excess of the credit allowed him by Section 25 (b) (1) and (3) of the Revenue Act of 1936 (computed without regard to his status as a decedent of a family), if married and living with spouse, or if his gross income for the period was \$5,000 or over, the executor or administrator shall make a return for him on Form 1040 or 1040A.

Income of (a) estates of decedents before final settlement, (b) trusts, other than revocable trusts, whether created by will or deed, is taxed to the fiduciary as a single person, except that from the income of a decedent's estate there should be deducted any amount properly paid or credited to a beneficiary.

22. EARNED INCOME CREDIT, PERSONAL EXEMPTION, AND CREDIT FOR DEPENDENTS

For the purpose of the normal tax, but not for the surtax, there may be claimed a credit against net income of 10 percent of the amount of the earned net income, but not in excess of 10 percent of the amount of the entire net income. "Earned net income" means wages, salaries, professional fees, and other amounts received as compensation for personal services actually rendered, but does not include any amount not included in gross income, nor that part of the compensation derived by the taxpayer for personal services rendered by him to a corporation which represents a substantial earnings or profits therefrom that a reasonable allowance as compensation for the personal services actually rendered. In the case of a taxpayer engaged in a trade or business in which both personal services and capital are material income producing factors, a reasonable allowance as compensation for the personal services actually rendered by the taxpayer, not in excess of 20 percent of his share of the net profits of such trade or business, shall be considered as earned income. "Earned net income" means such deductions as are allowed by Section 23 of the Revenue Act of 1936 for the purpose of computing net income, and are properly allowable to or chargeable against earned income. "Earned net income" means the excess of the amount of the earned income over the sum of the exemptions. If the taxpayer's net income is not more than \$3,000, his entire net income shall be considered to be earned net income, and if his net income is more than \$3,000, his earned net income shall not be considered to be less than \$3,000. In no case shall the earned net income be considered to be more than \$1,000. The earned net income credit is allowed on each spouse in a joint return in the same amount as is allowable to each spouse in separate returns; however, the earned income, earned income deductions, earned net income, and net income of each spouse must be shown separately.

A single person, or a married person not living with husband or wife, may claim an exemption of \$1,000. A person who was the head of a family or was married and living with husband or wife during the entire taxable year, may claim an exemption of \$2,500. If husband and wife file separate returns, the exemption may be taken by either or divided between them.

A "head of a family" is an individual who actually supports and maintains in one household one or more individuals who are closely connected with him by blood relationship, relationship by marriage, or by adoption, and whose main source of family support and maintenance for these dependent individuals is based upon some moral or legal obligation.

In addition to the personal exemption, a credit of \$400 may be claimed for each person (other than husband or wife) under 18 years of age, or of self-support because mentally or physically defective, who received his or her chief support from the taxpayer during the taxable year. This credit can be claimed only by the person who furnishes the chief support, and cannot be divided between two individuals. Permit such credit in Schedule F, furnishing the name of each dependent, the relationship between taxpayer and dependent, and the reason for support if the dependent is not under 18 years of age.

If the status of the taxpayer, insofar as it affects the personal exemption or credit for dependents, changed during the taxable year, the personal exemption and credit shall be apportioned in accordance with the number of months each status applied. For the purpose of such apportionment, a fraction of a month or part of a month shall be disregarded unless it amounts to more than half a month, in which case it shall be considered a full month.

When a return is filed on this form for an estate in process of administration, or for a trust, an exemption of \$1,000 may be claimed.

23. COMPUTATION OF TAX

Surtax.—The surtax on any amount of surtax net income not shown in the table below is computed by adding to the surtax for the largest amount shown which is less than the income, the surtax upon the excess over that amount at the rate indicated in the table.

In the case of a bona fide sale of any oil or gas property, or any interest therein, the surtax on the profit shall not exceed 30 percent of the selling price. (See Section 105 of the Revenue Act of 1936.)

Income from a partnership or fiduciary having a different taxable year.—If the taxable year of a beneficiary is different from that of the estate or trust, the part of the estate or trust income to be included in computing his net income

shall be based upon the net income of the estate or trust for any taxable year of the estate or trust ending within his taxable year.

If the taxable year of a partner is different from that of the partnership, the distributive share of the net income of the partnership to be included in computing the net income of the partner for his taxable year shall be based upon the net income of the partnership for any taxable year of the partnership ending within the taxable year of the partner.

Income tax paid to a foreign country or U. S. possession.—If, in accordance with Section 131 (a) of the Revenue Act of 1936, a credit is claimed in Item 32 for income tax paid to a foreign country or a possession of the United States, the Form 1116 with your return with the receipts for such payments. In case credits is sought for taxes accrued, the form must have attached to it a certified copy of the return on which the tax was based, and the Commissioner may require a bond on Form 1117 for the payment of any tax found due if the tax when paid differs from the credit claimed.

24. ITEMS EXEMPT FROM TAX

The following items are exempt from Federal income tax, except where otherwise indicated, and should not be included in gross income:

- (a) Amounts received under all insurance contracts paid by reason of the death of the insured, whether or not the insured was the beneficiary of the insurance under an agreement to pay interest thereon, the interest payments shall be included in gross income;

INCOME

1. **Income from salaries, wages, etc.**—Enter as item 1 the total of all salaries, wages, or other compensation credited by or received from outside sources, as reported in Schedule A. Any amount claimed as a deduction for necessary expenses against salaries, etc., such as traveling expenses while away from home in connection with your occupation should be fully explained in Schedule A or in an attached statement. Traveling expenses ordinarily include expenditures for railroad fares, meals, and lodging.

2. **Dividends.**—Enter as item 2 the total of all dividends reported in Schedule B.

3. **Interest on bank deposits, etc.**—Enter as item 3 the total of all interest on bank deposits, notes, mortgages, corporation bonds, etc., reported in Schedule C. Interest on bonds is considered income when due and payable.

4. **Interest on tax-free covenant bonds.**—Enter as item 4 the total of all bond interest, reported in Schedule D, upon which a tax was paid at the source. Such tax (2 percent of the interest entered as item 4) may be claimed as a credit in item 18 of the return.

5. **Other income.**—Enter as item 5 the total of all other taxable income, reported in Schedule F, including income from an estate or trust.

6. **Total income.**—Enter as item 6 the total amount of items 1 to 5.

Schedule E should be filled in if you own any of the obligations specified in column 1. Enter in column 2 the principal amounts of the various obligations owned at the end of the year and enter in column 3 all interest received or credited to your account during the year on these obligations, including such interest received from an estate or trust.

DEDUCTIONS

7. **Contributions.**—Enter as item 7 the total contributions or gifts, reported in Schedule G, made within the taxable year to any corporation, or trust, or community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation. The total amount claimed shall not exceed 15 percent of your net income computed without the benefit of this deduction.

8. **Taxes paid.**—Enter as item 8 the amounts reported in Schedule H as personal taxes and taxes on property which were imposed upon and paid by you during the taxable year. Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed, nor Federal income taxes, nor estate, inheritance, legacy, succession, or gift taxes, nor taxes imposed upon your interest as a shareholder of a corporation which are paid by the corporation without reimbursement from you. No deduction is allowable for any portion of foreign income taxes if a credit is claimed in item 19.

9. **Interest paid.**—Enter as item 9 the amount reported in Schedule I as interest paid on personal indebtedness.

10. **Losses.**—Enter as item 10 the total amount reported in Schedule J as losses by fire, storm, shipwreck, or other casualty, or from theft, sustained during the taxable year and not compensated for by insurance or otherwise, and losses sustained as the result of stocks or bonds or debts becoming worthless.

Losses from wagering transactions are allowable only to the extent of the gains from such transactions.

No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than interest. Items directly attributable to such exempt income shall be allocated thereto, and items directly attributable to any

class of taxable income shall be allocated to such taxable income. A taxpayer receiving any exempt income, other than interest, or holding any property or engaging in any activity the income from which is exempt shall submit with his return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of items allocated to each such class (the amount allocated by apportionment being shown separately).

11. **Total deductions.**—Enter as item 11 the total of items 7 to 10.

COMPUTATION OF TAX

12. **Net income.**—Enter as item 12 the amount of net income, which is obtained by deducting item 11 from item 6.

13. **Earned income credit.**—Enter as item 13 the amount of earned income credit, which is 10 percent of the amount of your earned net income but not in excess of 10 percent of the amount of your entire net income.

“Earned income” means wages, salaries, professional fees, and other amounts received as compensation for personal services actually rendered, but does not include any amount not included in gross income, nor that part of the compensation derived by the taxpayer for personal services rendered by him to a corporation which represents a distribution of earnings or profits rather than a reasonable allowance as compensation for the personal services actually rendered.

“Earned income deductions” means such deductions as are allowed by section 23 of the Revenue Act of 1936 for the purpose of computing net income, and are properly allocable to or chargeable against earned income.

“Earned net income” means the excess of the amount of the earned income over the sum of the earned income deductions. If the taxpayer's net income is not more than \$3,000, his entire net income shall be considered to be earned net income, and if his net income is more than \$3,000, his earned net income shall not be considered to be less than \$3,000.

For the purpose of determining the 10 percent limitation the net income should include interest on an aggregate in excess of \$5,000 principal amount of United States Savings Bonds and Treasury Bonds; and interest on obligations of instrumentalities of the United States (other than obligations issued under the Federal Farm Loan Act, or under such Act as amended), reported in Schedule E.

The earned income credit allowable to each spouse in a joint return is the same as is allowable to each spouse in separate returns; however, the earned income, earned income deductions, earned net income, and net income of each spouse must be shown separately in the joint return.

14 and 15. **Personal exemption and credit for dependents.**—A single person, or a married person not living with husband or wife, may claim a personal exemption of \$1,000. A person who, during the entire taxable year, was the head of a family or was married and living with husband or wife, may claim an exemption of \$2,500. If husband and wife file separate returns, the personal exemption may be taken by either or divided between them.

A “head of a family” is an individual who actually supports and maintains in one household one or more individuals who are closely connected with him by blood relationship, relationship by marriage, or by adoption, and whose right to exercise family control and provide for these dependent individuals is based upon some moral or legal obligation.

In addition to the personal exemption, a credit of \$400 may be claimed for each person (other than husband or wife) under 18 years of age, or incapable of self-support because mentally or physically defective, who received his or her chief support from the taxpayer. This credit may be allowed only to the person who furnishes the chief support, and may not be divided between two individuals. Explain such credit in Schedule K, furnishing the name of each dependent, the relationship between taxpayer and dependent, and the reason for support if the dependent is not under 18 years of age.

If the status of the taxpayer, insofar as it affects the personal exemption or credit for dependents, changes during the taxable year, the personal exemption and credit shall be apportioned in accordance with the number of months before and after such change. For the purpose of such apportionment a fractional part of a month shall be disregarded unless it amounts to more than half a month, in which case it shall be considered as a month.

LIABILITY FOR FILING RETURN

16. An income tax return must be filed by every citizen of the United States whether residing at home or abroad, and every person residing in the United States, though not a citizen thereof, having a gross income for the calendar year 1936 of \$5,000 or over, or a net income for the same period of (a) \$1,000 or over, if single, or if married and not living with husband or wife, or (b) \$2,500 or over, if married and living with husband or wife, or (c) more than the personal exemption if the status of the taxpayer changes during the taxable year. If the combined net income of husband and wife, including that of dependent minor children, if any, is \$2,500 or over, or if their combined gross income is \$5,000 or over, either each must make a return or the income of each must be included in a single joint return.

In order for a joint return to be filed by a husband and wife, both spouses must have had some income or deductions in the year for which the return is filed, and the return must include the income and deductions of both spouses. A joint return of husband and wife may be filed only if they were living together at the close of their taxable year. (See Instruction 13 for information with respect to earned income credit in a joint return.)

ITEMS EXEMPT FROM TAX

17. The following items are exempt from Federal income tax, except where otherwise indicated, and should not be included in gross income:

(a) Amounts received under a life insurance contract paid by reason of the death of the insured; whether in a single sum or in installments (but if such amounts are held by the insurer under an agreement to pay interest thereon, the interest payments shall be included in gross income);

(b) Amounts received (other than amounts paid by reason of the death of the insured and interest payments on such amounts and other than amounts received as annuities) under a life insurance or endowment contract, but if such amounts (when added to amounts received before the taxable year under such contract) exceed the aggregate premiums or consideration paid (whether or not paid during the taxable year) then the excess shall be included in gross income. Amounts received as an annuity under an annuity or endowment contract shall be included in gross income; except that there shall be excluded from gross income the excess of the amount received in the taxable year over an amount equal to 3 percent of the aggregate premiums or consideration paid for such annuity (whether or not paid during such year), until the aggregate amount excluded from gross income equals the aggregate premiums or consideration paid for such annuity;

(c) Gifts (not made as a consideration for service rendered) and money and property acquired by bequest, devise, or inheritance (but the income derived from such property is taxable and must be reported);

(d) Interest upon (1) the obligations of a State, Territory, or any political subdivision thereof, or the District of Columbia, or United States possessions; or (2) obligations issued under the provisions of the Federal Farm Loan Act or under such act as amended; or (3) the obligations of the United States; or (4) obligations of instrumentalities of the United States (other than obligations issued under Federal Farm Loan Act or under such Act as amended), such as Federal Farm Mortgage Corporation bonds, Home Owners' Loan Corporation bonds, etc. The interest on United States Savings

Bonds and Treasury Bonds, owned in excess of \$5,000, and on obligations of instrumentalities of the United States (other than obligations issued under Federal Farm Loan Act or under such Act as amended) is subject to surtax if the surtax net income is over \$4,000. Such interest should be reported in Schedule E;

(e) Amounts received through accident or health insurance or under workmen's compensation acts, as compensation for personal injuries or sickness, plus the amount of any damages received, whether by suit or agreement, on account of such injuries or sickness;

(f) The rental value of a dwelling house and appurtenances thereof furnished to a minister of the gospel as part of his compensation;

(g) Compensation paid by a State or political subdivision thereof to its officers or employees for services rendered in connection with the exercise of an essential governmental function; and

(h) Amounts received as earned income from sources without the United States (except amounts paid by the United States or any agency thereof) by an individual citizen of the United States who is a bona fide nonresident for more than 6 months during the taxable year. The taxpayer in such a case may not deduct from his gross income any amount properly allocable to or chargeable against the amount so excluded from his gross income.

GENERAL INFORMATION

18. **Affidavit.**—The oath will be administered without charge by any collector, deputy collector, or internal revenue agent. If an internal revenue officer is not available, the return should be sworn to before a person authorized to administer oaths, except an attorney or agent employed to represent the taxpayer before the Department in connection with his tax liability.

The affidavit must be executed by the person whose income is reported or by his legal representative or agent. The return may be made by an agent (1) if, by reason of illness, the person liable for the making of the return is unable to make it, or (2) if the taxpayer is unable to make the return by reason of continuous absence from the United States for a period of at least 60 days prior to the date prescribed by law for making the return. Whenever a return is made by an agent it must be accompanied by a power of attorney on Form 935, or, in the case of husband and wife, on Form 936 (copies of which may be obtained from the collector of internal revenue).

The joint return of husband and wife must be signed by both spouses and sworn to by the spouse preparing—filling in—the return. If the return is prepared by both spouses, or is prepared by neither spouse, then both spouses must swear to the return, except where one spouse acts for the other spouse under a power of attorney submitted on Form 936.

19. **Tax.**—The tax may be paid at time of filing the return, or in four equal installments, payable quarterly, provided each installment is paid on or before its respective due date. If any installment is not paid on the date fixed for payment, the whole amount of tax unpaid shall be paid upon notice and demand by the collector.

20. **Penalty for willful failure to make and file a return on time.**—Not more than \$10,000 or imprisonment for not more than 1 year, or both, together with the costs of prosecution, and, in addition, 5 to 25 percent of the amount of the tax.

21. **Penalty for willfully making a false or fraudulent return.**—Not more than \$10,000 or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

22. **FOR FAILURE TO FILE DUPLICATE INCOME TAX RETURN ON TIME THERE WILL BE ASSESSED \$5, WHICH WILL BE PAYABLE UPON NOTICE BY THE COLLECTOR.**

STATUTORY REQUIREMENTS FOR FILING RETURNS

All returns included in this report except those with fiscal years ended during the last half of the calendar year 1936 were filed under the provisions of the Revenue Act of 1936. Section 51 of this act provides for individual returns, in part as follows:

"(a) REQUIREMENT.--The following individuals shall each make under oath a return stating specifically the items of his gross income and the deductions and credits allowed under this title and such other information for the purpose of carrying out the provisions of this title as the Commissioner with the approval of the Secretary may by regulations prescribe--

"(1) Every individual having a net income for the taxable year of \$1,000 or over, if single, or if married and not living with husband or wife;

"(2) Every individual having a net income for the taxable year of \$2,500 or over, if married and living with husband or wife; and

"(3) Every individual having a gross income for the taxable year of \$5,000 or over, regardless of the amount of his net income.

"(b) HUSBAND AND WIFE.--If a husband and wife living together have an aggregate net income for the taxable year of \$2,500 or over, or an aggregate gross income for such year of \$5,000 or over--

"(1) Each shall make such a return, or

"(2) The income of each shall be included in a single joint return, in which case the tax shall be computed on the aggregate income."

In addition to the above requirements for filing, section 142 of the act provides for returns by fiduciaries, in part as follows:

"(a) REQUIREMENT OF RETURN.--Every fiduciary (except a receiver appointed by authority of law in possession of part only of the property of an individual) shall make under oath a return for any of the following individuals, estates, or trusts for which he acts, stating specifically the items of gross income thereof and the deductions and credits allowed under this title and such other

information for the purpose of carrying out the provisions of this title as the Commissioner with the approval of the Secretary may by regulations prescribe—

"(1) Every individual having a net income for the taxable year of \$1,000 or over, if single, or if married and not living with husband or wife;

"(2) Every individual having a net income for the taxable year of \$2,500 or over, if married and living with husband or wife;

"(3) Every individual having a gross income for the taxable year of \$5,000 or over, regardless of the amount of his net income;

"(4) Every estate or trust the net income of which for the taxable year is \$1,000 or over;

"(5) Every estate or trust the gross income of which for the taxable year is \$5,000 or over, regardless of the amount of the net income; and

"(6) Every estate or trust of which any beneficiary is a nonresident alien."

Regulations 94 relating to the Revenue Act of 1936 further provides that the returns filed by fiduciaries under section 142 (a) (1) - (3) shall be on Form 1040 or Form 1040A. In the case of returns for estates or trusts filed under section 142 (a) (4) - (6),

". . . a return is required on Form 1040 with respect to any taxable net income of the estate or trust computed in accordance with section 162 and a return on Form 1041 with respect to any income deducted under section 162 (b) or (c). If a portion of the income of the estate or trust is retained by the fiduciary and the remainder is distributable or distributed to beneficiaries, both Forms 1040 and 1041 will be required."

The reference to section 162 (b) and (c) pertains to the deductions allowed to estates or trusts for distributions to beneficiaries. Forms 1041, which were informational returns, were excluded from the tabulations, but all Forms 1040 and 1040A filed under the fiduciary requirements were included.

A number of returns were filed under circumstances which did not meet the specifications of the filing requirements outlined above. Such returns were in part filed by persons accustomed to

filing and desirous of making report for record purposes, or by persons unaware that their circumstances did not warrant the filing of returns. Furthermore, change of marital status during the year accounted for a large number of the returns filed for incomes below the indicated limits.

The few individual returns made for fiscal years ended during the last half of the calendar year 1936 were filed under the provisions of the Revenue Act of 1934, which contained the same filing requirements as the 1936 Act. The major statutory changes affecting returns under the Revenue Act of 1936 as compared with those under the Revenue Act of 1934 were the application of the normal tax to dividends received from domestic corporations and the increase in surtax rates applicable to surtax net incomes of over \$50,000. Only a small number of returns filed under the Revenue Act of 1934 are included in this report, and therefore the tabulations are not seriously affected by their inclusion.
