Forecasts Available Electronically

Forecasts from the most recent edition of this publication are also available on the IRS's web site. This site can be reached at www.irs.gov. Select the "Tax Stats" link, then "Products and Publications", and then "Projections" (under the Publications heading). IRS employees can also access this projection product on the IRWeb intranet site by selecting the "Commissioner" link, followed by "Research, Analysis and Statistics", then "Publications," and then "Projections and Forecasting documents."

Distribution

If you are an IRS employee and would like to receive a printed copy of this document on a continual basis, please contact your local IMDDS coordinator and obtain the appropriate protocol for inclusion on the distribution list. All non-IRS customers, and IRS customers uncertain of their local IMDDS coordinator, can contact the Chief, Forecasting and Service Analysis on (202) 874-0607.

Overview

This 2008 edition of Document 6149 (*Calendar Year Return Projections by State*) provides state level forecasts of the number of tax returns to be filed in calendar years (CY) 2008 to 2015 by major form type and medium of filing. Internal Revenue Service (IRS) staff from the Office of Research, Analysis and Statistics prepare these projections annually to reflect changes in filing patterns, economic and demographic trends, legislative requirements and IRS administrative processes. These forecasts are primarily used for resource planning and analysis at the local level, including decisions about future workload realignment among the IRS processing campuses.

This publication supplements the forecasts previously released in *Calendar Year Return Projections for the United States and IRS Campuses*, Document 6186 (Rev. 11-2008) and *Calendar Year Projections of Individual Returns By Major Processing Categories*, Document 6187 (Rev. 10-2008). Discussion of the major trends, the legislative and administrative initiatives embedded in the projections, and other important caveats about these forecasts can be found in those other documents. These publications are available via the IRS website (www.irs.gov) as referenced in the inside front cover.

The projections presented in this document are based on various forecasting methodologies including regression models, time series techniques, growth rates and historical ratio methods. The projection method employed depends upon the form type, the availability of historical data and applicability of relevant economic and demographic forecasts. Typically, returns are forecasted first for the United States. States are forecasted next and adjusted to the U.S. "controls".

Telephone Excise Tax Refund (TETR)

The telephone excise tax was imposed on long-distance telephone calls starting in 1898. Over the years, due to changes in the billing models of many of the telecommunications companies, the requirements of the tax code no longer applied. As a result, the U.S. Treasury Department stopped collecting the federal excise tax for long-distance telephone service on August 1, 2006. In 2007, IRS implemented a program for taxpayers to receive refunds for the portion of their excise taxes collected on long-distance service billed between February 28, 2003 and August 1, 2006. Eligible individuals without tax filing requirements were directed to use Form 1040EZ-T (*Request for Refund of Federal Telephone Excise Tax*), a new form that was created expressly for this purpose. However, some of the people filing only to receive the telephone excise tax refund requested their TETR claims using the traditional Forms 1040, 1040A, or 1040EZ instead of using the simpler Form 1040 EZ-T. As a result, although the actual 2007 counts presented in this document do not include Form 1040 EZ-T returns, the reported volumes do include some marginal effects of the TETR claims, as shown by the greater than expected increase in the Form 1040 series in CY 2007. Taxpayers who subsequently wish to claim the TETR credit may file an amended tax return for 2006 by filing a Form 1040 X (*Amended U.S. Individual Income Tax*

Return). Those individuals who did not have a filing requirement in 2006 can also still use Form 1040 EZ-T to request the refund. It is expected that additional individuals will amend their returns to request TETR claims. The effect of the TETR spillover is also applicable to Form 990-T (Exempt Organization Business Income Tax Returns) filers, due to their rollover effect from tax period in 2007 to processing year 2008 as a natural spillover. There may also be some additional TETR volumes because of the overlap of tax and processing years for certain Form 990-T filers.

The Economic Stimulus Act of 2008

The Economic Stimulus Act of 2008 was signed into law in February 2008 as part of the overall effort to rejuvenate the US economy. The law provides tax rebates to qualifying low- and middle-income taxpayers with an estimated 130 million households expected to receive the economic stimulus payment in 2008. To be eligible for the payments, taxpayers must have a valid Social Security Number and either an income tax liability or qualifying income of at least \$3,000. Qualifying income includes earned income and certain benefits from Social Security, Veterans Affairs and/or Railroad Retirement. Eligible individuals can claim the economic stimulus payment by filing a federal tax return for TY 2007. As a result, the U.S. level return volumes Forms 1040, 1040A, and 1040EZ, including electronically filed returns, are estimated to increase by around 14.4 million returns above its baseline to roughly 152.7 million returns. The CY 2009 projections presented in this edition contains minor adjustments for residual spillover effects of the stimulus program as those individuals not eligible in 2008 still have an opportunity to claim the rebate in 2009.

Form 1040-SS(PR)

Form 1040-SS(PR) is being accepted electronically for refund-only claims for the Additional Child Tax Credit (ACTC) from residents of Puerto Rico as of 2008, tax year 2007. This has resulted in a significant increase of return counts for Form 1040-SS(PR) this year, as those filers who were previously electronically filing Form 1040 with Form 8812 to convert to filing Form 1040-SS(PR).

E-file Mandates

In January 2005, the IRS released temporary regulations which imposed e-file mandates for some large corporations and tax exempt organizations whose assets exceed certain thresholds. However, these e-file mandates only applied to those corporation and tax exempt entities that filed at least 250 other returns with the IRS during a calendar year. This condition includes other tax returns such as Forms 941, as well as information returns such as Forms W-2, 1099-DIV and Schedules K-1. The E-file mandates required corporations with total assets of at least \$50 million to E-file their Forms 1120 and 1120S returns beginning in January, 2006. This e-file requirement was

expanded to corporations with at least \$10 million in assets effective at the beginning of 2007. Similarly, tax exempt organizations with \$100 million or more in assets in tax year 2005 were required to file their Form 990 electronically, with this threshold lowered to \$10 million beginning in 2007. Also impacted in 2007 are private foundations and charitable trusts which will be required to file their Form 990-PF electronically, regardless of their asset size. Corresponding adjustments have been made to the e-file forecasts for Forms 1120, 1120S, 990 and 990PF in this edition of Document 6149 to account for the impact of these mandates.

Excise E-file Estimates

The American Jobs Creation Act of 2004 includes a mandate requiring Form 2290 (*Heavy Highway Vehicle Use Tax Return*) filers reporting 25 or more trucks to e-file beginning in July 2005. Although the implementation date for the e-file system was initially delayed, the IRS began providing e-file capabilities starting in August 2007. With the system in place, Form 2290, as well as Form 720 (*Quarterly Federal Excise Tax Return*), can now be electronically filed. This edition of Document 6186 includes forecasts of excise returns based on the latest confirmed implementation date in CY 2007.

Changes in Estate Tax

The estate tax and generation-skipping transfer (GST) taxes are scheduled to be repealed on January 1, 2010, under Title V of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). However, the estate tax repeal, and all other provisions of EGTRRA, are scheduled to sunset on December 31, 2010. If the sunset provision is not repealed in 2011, estate tax law would return to the law in place prior to the enactment of EGTRRA on June 7, 2001. Accordingly, the estate tax exclusion amount would have risen to \$1 million under the prior law. The estimates developed in this document reflect the provisions of EGTRRA.

New Form 944

In an effort to reduce taxpayer burden on small businesses, IRS offers Form 944 (Employer's Annual Federal Tax Return), which is an annualized version of Form 941 (Employer's Quarterly Federal Tax Return). Form 944 is available to business filers with annual employment tax liability of \$1,000 or less. Instead of filing quarterly Forms 941, eligible taxpayers are required to file Form 944 once a year. Consequently, as qualified taxpayers switch to filing Form 944, return volumes of Form 941 will drop. Around 313,000 Form 944 returns were filed in its first year. As a result, this edition of Document 6149 includes forecasts of the new Form 944, as well as the associated downward impact on Form 941 return volumes for both e-file and paper components.

Fiduciary (Form 1041) Returns

In January 2006, IRS released final regulations modifying the reporting requirements for Widely Held Fixed Investment Trusts (WHFITs). The regulation changes reporting requirements for Form 1041 filers, specifically, for non-mortgage widely held fixed investment trusts. In effect, a significant number of previous fiduciary Form 1041 filers will instead file an Information Reporting document (Form 1099-B). The impact of this regulation on e-filed 1041 returns is apparent starting this year, CY 2008.

New Form 990-N

Beginning in CY 2008, the Pension Protection Act of 2006 requires IRS to enforce small organizations with gross receipts of less than \$25,000 to file a new form 990-N, also known as the e-Postcard on an annual basis. If those organizations fail to file F990-N for three consecutive years, their tax-exempt status will be revoked. Form 990-N is only available in e-file format. This edition of Document 6149 reflects projections for the new form 990-N, listed below the exempt organization forms.

Changes in Form 990 series

The IRS has revised the requirement to file Form 990 series starting from tax year 2008 over a three-year period. The filers will be allowed to file the Form 990-EZ in lieu of the Form 990. For the 2008 tax year (returns filed in 2009), organizations with gross receipts less than \$1.0 million and total assets less than \$2.5 million may file the Form 990-EZ. For the 2009 tax year (returns filed in 2010), organizations with gross receipts less than \$500,000 and total assets less than \$1.25 million may file the Form 990-EZ. The Form 990-EZ filing thresholds will be adjusted permanently to gross receipts less than \$200,000 and total assets less than \$500,000 beginning with 2010 tax years.

New Corporation Examination Classes

Five new corporation examination classes have been added to the "Returns with Assets" category. Under this grouping, the old "250 Million or More" examination class is now further split into the following new examination classes by asset size: "\$250 Million Under \$500 Million", "\$500 Million Under \$1 Billion", "\$1 Billion Under \$5 Billion", "\$5 Billion Under \$20 Billion", and "\$20 Billion or More".

Additional Discussion of Trends and Issues in Individual Income Tax Returns

In CY 2007, the share of total electronic volumes over the grand total was around 38 percent; in CY 2008, this share is estimated to be 40 percent and steadily increases to 52 percent in 2015. Individual income tax returns make up over half of the grand total return filings in any given year. In CY 2007, the share of individual Form 1040 series filed electronically was 58 percent and is forecasted to reach 78 percent by 2015. The

projections of individual income tax returns include the marginal impact of the Alternative Minimum Tax and Extenders Tax Relief Act of 2008. In September 2008, H&R Block and Intuit announced that their desktop tax preparation software will include free federal e-filing, eliminating the additional fees for electronically filing Federal tax returns. The forecast presented in this update for the electronically filed Form 1040 series incorporates the estimated effect of this latest development. Readers interested in more detailed discussion of trends and issues in individual income tax returns filings should refer to the 2008 update of IRS Document 6187, *Calendar Year Projections of Individual Returns by Major Processing Categories*.

Track Record of Projection Accuracy

In an effort to measure the quality of our products and services, this section, along with Table 54, provides a brief analysis of the accuracy of prior projections. Using four years of actual data from 2004 through 2007, Table 54 presents the accuracy of our national level projections by major return categories. This analysis covers only the major return categories projected on a calendar year basis and serves as a general measure for gauging the overall reliability of our U.S. level return projections. The return categories considered in Table 54 consist of the following: Grand Total, Total Primary Returns, Individual (income tax) Total, Individual Estimated Tax, Fiduciary, Partnership, Corporation, Employment, Exempt Organization, and Excise. When there was sufficient data on prior forecasts, we also included selected breakouts of “paper” volumes versus “e-file/magnetic tape” filings.

The table presents two measures of projection accuracy; the mean absolute percent error (MAPE), and the number of over-projections. We also include the latest actual filing volumes for 2007 to provide perspective on the volume of returns being projected. The MAPE is computed as the average percent projection error regardless of whether they were over- or under- projections over the four most recently applicable projection cycles. The associated number of over-projections can show whether we consistently over- or under- project. A value of two indicates balanced forecasts over the four cycles. The table groups these two measures by time horizon. The time horizon is determined by when the forecast was made and for what future year. For example, a forecast for 2003 made in 2000 would be part of the “3-years-ahead” time horizon. The table presents time horizons from one to five years ahead and factors in the most current four observations. As an example, for the “3-years-ahead” information, we use the forecasts made in 2001 for 2004, those made in 2002 for 2005, those made in 2003 for 2006, and those made in 2004 for 2007.

Comments and Questions

We thank customers for their support as we continually seek to improve our products and services wherever possible. Comments and suggestions regarding this document can be directed to John Guyton, Chief, Forecasting and Service Analysis at (202) 874-0607. Questions concerning a specific tax return listed in this document may also be directed to the projections staff listed on the inside front cover. Finally, the tables contained in this document are also available electronically, as noted on the inside front cover.

Notes:

* The Forms 1040, 1040A, and 1040EZ Totals includes the marginal effects of the 2007 TETR and 2008 Economic Stimulus Package.

** Form 1120-A cannot be filed for tax years beginning after Dec. 31, 2006.

*** Form 1120-C includes Form 990-C.

**** 1120-ND return counts were estimated for CY 2007.

Table does not include approximately 2,500 Non-Masterfile counts.

Detail may not add to the subtotal/total due to rounding.

Excise Total	895					
MAPE		3.18%	4.55%	7.18%	8.07%	11.99%
Number of Overprojections		3	3	3	3	4

* Some actuals shown in this table differ from official counts reported elsewhere because they exclude certain return series only recently projected and whose accuracy can not yet be evaluated.

Table Notes

- Detail may not add to total due to rounding.
- Projected volumes are rounded to the nearest hundredth, therefore counts of 49 or fewer are rounded to zero. However, some forms can report zero filings because they are associated with only selected areas, or because their filing options were just established or recently eliminated.
- Actual and forecasted return counts for the major categories are based on IRS master file processing, as recorded in the electronic versions of the *Report of Returns Posted to the IRS Master Files*.
- Complete master file counts for calendar year 2007 were not available for the following forms and had to be supplied at the national level by operating division staff and secondary sources: Forms 1120-ND, 5558, CT-2, 990-N, 1041-A, as well as some of the high asset corporation examination class forms as detailed later.
- For CY 2007, the Internal Revenue Service issued refunds for the “Telephone Excise Tax Refund” (TETR) initiative. For filing year 2007 only, taxpayers can obtain their refunds via a 2006 tax form, Form 1040-EZ-T or they may file actual tax using Form 8913. This document further excludes any other Form 1040 series or Form 990-T returns filed only for purposes of claiming TETR.

Notes below are grouped by applicable tables.

Tables 1 ~ 53

- “Grand Total” is the sum of “Total Primary Returns” and “Supplemental Documents.” The “Total Primary Returns” category is the sum of all forms shown on the tables, excluding “Supplemental Documents.”
- “Individual, Total” is the sum of paper and electronic Forms 1040, 1040-A, 1040-EZ, 1040-NR, 1040-PR, and 1040-SS.
- “Forms 1040, 1040-A, and 1040-EZ” is the sum of paper and electronic Forms 1040, 1040-A, and 1040-EZ.
- The last category in the “Individual, Total” section includes the following: Form 1040-NR (*U.S. Nonresident Alien Income Tax Return*); Form 1040-PR (*U.S. Self-Employment Tax Return--Puerto Rico*); and Form 1040-SS (*U.S. Self-Employment Tax Return--Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands [CNMI]*). These forms are assigned to the International area.

- Form 1040-EZ-T is excluded from the forecasts.
- Various return categories, such as Form 1040-ES (*Individual Estimated Tax*) and other business and individual returns, include line items to account for alternative methods of tax filing (electronic and/or magnetic tape). However, due to space constraints most “paper only” breakouts were omitted in the states tables. The “paper only” components can be derived by subtracting the electronic and/or magnetic tape counts from their respective return totals.
- “Fiduciary, Form 1041, Total” includes both paper and electronic Form 1041.
- “Fiduciary Estimated Tax, Form 1041-ES” is the *Estimated Income Tax for Estate and Trust*.
- “Partnership, Forms 1065/1065-B, Total” includes both paper and electronic Forms 1065 and 1065-B.
- “Corporation, Total” includes Forms 1120/1120-A (paper and electronic), 1120-F, 1120-H, 1120-L, 1120-ND, 1120-PC, 1120-SF, 1120-FSC, 1120-REIT, 1120-RIC, and 1120-S (paper and electronic). As a result of the Foreign Sales Corporation (FSC) Repeal and Extraterritorial Income Act of 2000 which repeals provisions in the U.S. Internal Revenue Code relating to taxation of foreign sales corporations, the volume of Forms 1120-FSC is declining with no returns expected after 2006. Also, Form 1120-POL volumes are reported separately under the forms for “Political Organizations.” Form 1120-IC-DISC is not included in these corporation projections.
- “Form 2553” is the *Election (to file Form 1120-S) by a Small Business Corporation*.
- “Form 1066” is the *U.S. Real Estate Mortgage Investment Conduit (REMIC) Income Tax Return*.
- “Estate, Total” includes Forms 706, 706-NA, 706-GS(D), and 706-GS(T).
- “Gift, Form 709” is the *United States Gift (and Generation-Skipping Transfer) Tax Return*.
- “Employment, Total” includes paper, magnetic tape and electronic Forms 940, 940-EZ, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 943-SS, 944, 945, and CT-1. Form CT-2 is not included in “Employment, Total.”
- “Form 1042” is the *Annual Withholding Tax Return for U.S. Source Income of Foreign Persons*. This form is assigned to the International area. It is sometimes considered an employment tax return, but listed separately here.

- “Exempt Organizations, Total” includes Forms 990 (paper and electronic), 990-EZ (paper and electronic), 990-PF (paper and electronic), 990-T, 4720, and 5227. In Tables 2 ~ 53, only the total (paper and electronic) for Forms 990, 990-EZ, and 990-PF is shown.
- “Form 1120-C” is the *U.S. Income Tax Return for Cooperative Associations*. This form replaced Form 990-C starting from CY 2007.
- “Government Entities/Bonds, Total” includes Forms 8038, 8038-G, 8038-GC, 8038-T and 8328.
- “Political Organizations, Total” includes both paper and electronic Forms 1120-POL, 8871 and 8872.
- “Excise, Total” includes Forms 11-C, 730, paper and electronic Forms 720, 2290.
- “Form 5330” is the *Return of Excise Taxes Related to Employee Benefit Plans*.
- “Form 8752” is the *Required Payment or Refund Under Section 7519*.
- “Supplemental Documents” consist mainly of applications for extensions of time to file and amended tax returns, and include Forms 1040-X, 4868 (both paper and electronic), 2688 (paper and electronic), 1120-X, 5558, 7004 (paper and electronic), and 8868 (total and electronic)
