## Forecasts Available Electronically

Forecasts from the most recent edition of this publication are also available on the IRS's web site. This site can be reached at www.irs.gov. Select the "Tax Stats" link, then "Products and Publications", and then "Projections" (under the Publications heading). IRS employees can also access this projection product on the IRWeb intranet site by selecting the "Commissioner" link, followed by "Research, Analysis and Statistics", then "Publications," and then "Projections and Forecasting documents."

## Distribution

If you are an IRS employee and would like to receive a printed copy of this document on a continual basis, please contact your local IMDDS coordinator and obtain the appropriate protocol for inclusion on the distribution list. All non-IRS customers, and IRS customers uncertain of their local IMDDS coordinator, can contact the Chief, Forecasting and Service Analysis on (202) 874-0607.

## Overview

This 2006 edition of IRS Document 6186, Calendar Year Return Projections for the United States and IRS Campuses, provides the most recent revisions to the number of tax returns to be filed for the United States and IRS processing campuses by major return categories for Calendar Year (CY) 2006 through 2013. Also contained in this document are projections of the number of returns to be filed for the United States by IRS examination class groupings. These projections provide a foundation for IRS workload estimates and resource requirements contained in IRS budget submissions and other major planning documents. The Office of Research staff within the IRS Research, Analysis and Statistics organization develops and updates these forecasts annually to reflect changes in filing patterns, statutory requirements, and administrative procedures. The updates also incorporate the current economic and demographic outlook. The projections in this document are based on information available as of early September 2006.

Enacted tax law changes and confirmed (or reasonably certain) administrative plans are reflected in these return projections. However, legislative or administrative initiatives simply under consideration generally are not used to update these return projections. In particular, the projections of electronically filed (e-file) returns contained in this publication are not goals, per se, and should not be interpreted as precluding an alternative e-file future.

## Data Sources and Projection Methodology

The reported actual volumes of returns filed in CY 2005 are based on returns processed and recorded on the IRS master files. With a few exceptions, these volumes are based on the same master file reporting systems as those used in the Internal Revenue Service Data Book (Publication 55B). However, master file counts were not available in a few instances. In these cases, tallies of actual filings were provided by program staff in the IRS operating divisions, typically from data capture systems located in the IRS processing campuses.

The forecasts presented in Document 6186 are based on various statistical models that capture and extrapolate historical filing trends, by each unique form type and medium of filing. Most models use time series extrapolation methods such as trended exponential smoothing approaches. However, some return types, particularly individual income tax filings, are based on regression models that use economic and demographic variables such as total employment and gross domestic product as key input factors. In these instances, forecasts of the economic and demographic data series used by Research staff as the predictor variables are provided by Global Insight, Inc. Also, where historical data are limited or non-existent, such as for new e-file products, the filing pattern for a comparable return type is applied. Customers interested in obtaining more detail on forecasting
methodologies are welcome to contact the applicable staff member listed on the inside front cover.

## Impact of Recent Legislative and Administrative Changes

As noted, the effects of enacted legislation and administrative plans are embedded in these projections. The more significant of these changes are discussed below.

## Reconfiguration of IRS Campus Processing Sites

IRS modernization efforts, built in part on the strong growth in electronic filing (efile), have resulted in a major redistribution and consolidation of returns processing operations among the traditional IRS submission processing campuses. In CY 2002, the IRS began processing most paper individual returns at eight campuses, and transitioning a large portion of paper business and exempt organization returns to two other processing sites, Ogden and Cincinnati. In CY 2004, IRS moved to a configuration where seven campuses handled all returns associated with individuals, and Ogden and Cincinnati handled virtually all of the business (and tax exempt) returns. IRS consolidation efforts have continued with the closure of the Memphis campus the end of June 2005 and with the Philadelphia campus scheduled to end its paper individual returns processing operations in mid-2007.

On the electronic filing component, e-file campus volumes for CY 2007 are also based on approved IRS plans. Filing volumes for CY 2008 and beyond are based on the recently approved strategy to continue processing individual e-file returns at all five current individual e-file submission processing sites. Although the processing of paper returns at the Philadelphia Submission Processing Center will come to an end after its consolidation in June 2007, electronic returns, excluding International, will continue to be processed through the Philadelphia Access Location Number (ALN). The Ogden campus will have accountability for the e-file returns processed on Philadelphia's ALN as well as for the accounting function for the back end operations. Subsequent year consolidations of e-file processing sites will result in similar adjustments. The configurations of state to IRS processing campuses for paper and e-filed individual returns for CY 2005 through CY 2013 are presented in tables at the end of this document.

It is also important to note that campus level projections for calendars 2006 and 2007 are based on approved IRS campus alignment plans. The remaining forecasts for 2008 and beyond are based on "concept maps" provided by resource planning staff in the IRS submission processing function. These concept maps are subject to change, so customers are advised to keep this important caveat in mind if using the campus level projections beyond 2008.

In most instances, the campus where a taxpayer files their return depends upon the taxpayer's state, the form type, and the medium of filing (paper versus electronic). In addition, the state-to-processing campus alignments for individual paper returns differ by year, as do some of the alignments for electronically filed individual returns. There are also some subtleties about the distribution of returns filed
among the two business return campuses. In certain cases, the specific form type being filed, or the IRS-defined business operating division classification of a return (i.e., Small Business/Self-Employed, Tax Exempt/Government Entity, or Large and Mid-Sized Business), override the geographic criterion. Tables presented at the end of this document starting on page 25 list the various campus configurations reflected in the campus level projections contained in this edition of Document 6186.

## Telephone Excise Tax Refund (TETR)

In May, 2006, the Treasury Department announced that it would no longer collect taxes on the federal excise tax for long-distance telephone service. The Internal Revenue Service (IRS) will begin to issue refunds of collected taxes dating after February $28^{\text {th }}, 2003$. Taxpayers may obtain their refunds by either claiming standard amounts on their 2006 tax forms, to be filed in 2007, or they may file for the entire amount collected on long-distance service for the past three years on Form 8913. The standard amounts vary by household size whereby a one a household with one exemption would claim $\$ 30$, two exemptions would claim $\$ 40$, three exemptions would claim $\$ 50$ and four or more would claim $\$ 60$. Individuals who do not have a tax filing obligation and are due a refund may file Form 1040 EZ-T for their standard amount or Form 8913 for an itemized refund.

In CY 2007, the IRS estimates that over 157 million individuals will be eligible to receive the telephone excise tax refund. This includes approximately 22 million "new" filers who have no prior filing obligation but will now be eligible to make a claim and have their refunds processed. It is estimated that 49 percent of the 22 million new 1040 EZ-T filers will be done electronically and the remaining 51 percent will be filed on paper.

## New e-file Mandates

In January 2005, the IRS released temporary regulations which imposed e-file mandates for some large corporations and tax exempt organizations whose assets exceed certain thresholds. However, these e-file mandates only apply to those corporation and tax exempt entities that file at least 250 other returns with the IRS during a calendar year; which includes other tax returns such as Forms 941, as well as information returns such as Forms W-2, 1099-DIV and Schedules K-1. The efile mandates require corporations with total assets of at least $\$ 50$ million to e-file their Forms 1120 and 1120 S returns beginning in January, 2006. This e-file requirement is expanded to corporations with at least $\$ 10$ million in assets effective at the beginning of 2007. In total, about 13,000 Form 1120/1120S filers will fall under the e-file mandates for 2006, and around 30,000 for 2007.

Similarly, tax exempt organizations with $\$ 100$ million or more in assets in tax year 2005 will be required to file their Form 990 electronically, with this threshold lowered to $\$ 10$ million beginning in 2007. These e-file mandates are expected to impact an estimated 1,200 Form 990 filers in 2006 and around 10,000 by 2007. Also impacted in 2007, are private foundations and charitable trusts which will be
required to file their Form 990-PF electronically, regardless of their asset size. However, less than 100 Form 990-PF filers are likely to be impacted by the mandate. Corresponding adjustments have been made to the e-file forecasts for Forms 1120, 1120S, 990 and 990-PF in this edition of Document 6186 to account for the impact of these new e-file mandates.

## Cessation of IRS TeleFile Programs

On August 16, 2005, the IRS officially discontinued its TeleFile programs for Forms 1040 EZ, 4868, and 941. Thus, the actual calendar year TeleFile returns included in this document for those mentioned form types represent the final year of published TeleFile data. Initial analysis of partial year information for filing year 2006, indicate that about 46 percent of previous TeleFile users switched to another electronic filing medium, such as on-line filing, while the remaining TeleFile users chose to file paper returns.

## Elimination of Form 2688

The IRS implemented new regulations this filing year (2006) that had the de facto effect of eliminating filings of Form 2688 (Application for Additional Extension of Time to File U.S. Individual Income Tax Return). In previous years, Forms 4868 (i.e., the "first extension") provided a four-month grace period, while Forms 2688 (i.e., the "second extension") supplied an additional two-month extension. The new regulations provide taxpayers an automatic six-month extension to file individual returns, if they file a Form 4868 (Application for Automatic Extension of Time to File a U.S. Income Tax Return). The effects of these two forms are combined into a single six-month automatic extension via Form 4868.

## Expansion of Form 7004

The projections in this publication reflect the expanded scope for Form 7004. Previously, this form was only used to request an extension to file a corporation income tax return (i.e., Form 1120 series). The new expanded Form 7004 will now be used to file extensions for not only corporate returns, but also for partnership (Form 1065) and fiduciary (Form 1041) returns. Year to date volumes indicate a lower CY 2006 estimate from the spring update. However, the forecast horizon for CY 2007 and on continues to reflect a substantial increase.

## Excise E-file Estimates

The American Jobs Creation Act of 2004 includes a mandate requiring Form 2290 (Heavy Highway Vehicle Use Tax Return) filers reporting 25 or more trucks to e-file beginning in July 2005. Although the implementation date for the e-file system was initially delayed, the IRS is scheduled to provide e-file capabilities starting in August 2007. Once the system is in place, Form 2290, as well as Form 720 (Quarterly Federal Excise Tax Return), can be electronically filed. This edition of Document 6186 includes forecasts of excise returns based on the latest confirmed implementation date which is due to begin in 2007.

## Changes in Estate Tax

The estate tax and generation-skipping transfer (GST) taxes are scheduled to be repealed on January 1, 2010, under Title V of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). However, the estate tax repeal, and all other provisions of EGTRRA, are scheduled to sunset on December 31, 2010. If the sunset provision is not repealed in 2011, estate tax law would return to the law in place prior to the enactment of EGTRRA on June 7, 2001. Accordingly, the estate tax exclusion amount would have risen to $\$ 1$ million under the prior law.

## New Form 944

In an effort to reduce taxpayer burden on small businesses, IRS plans to make Form 944, an annualized version of Form 941 (Employer's Quarterly Federal Tax Return), available to taxpayers starting in January 2007. Form 944 will be available to business filers with annual employment tax liability of $\$ 1,000$ or less. Instead of filing quarterly Form 941 returns, eligible taxpayers will be required to file Form 944 once a year. Consequently, as qualified taxpayers switch to filing Form 944, return volumes of Form 941 will drop, beginning in early 2006. Around 900,000 taxpayers are expected to switch to Form 944 in its first year. This edition of Document 6186 now reflects forecasts for the new Form 944, including its e-file and paper components. Forecasts of Form 941 return volumes both e-file and paper also include associated downward adjustments for the estimated impact of the new Form 944.

## Fiduciary (Form 1041) Returns

Regulatory changes beginning in CY 2008 for Widely Held Fixed Investment Trusts (WHFITs) is expected to significantly impact electronic filing volumes for Form 1041 fiduciary returns. A large number of filers will be required to shift from filing Form 1041 to filing Form 1099. This change in volume is estimated to impact approximately 800,000 Form 1041 e-filers transferring over to filing Form 1099. In this update of Document 6186, the effect is reported in the US and Ogden Campus tables, all occurring in the electronic component.

## New Individual Examination Classes

New in 2007, individual examination classes are defined and illustrated differently than those reported in past editions of Document 6186. Examination classes now include Form 1040-SS/1040-PR, U.S. Self-Employment Tax Return (Including the Additional Child Tax Credit for Bona Fide Residents of Puerto Rico). Also new in this update are examination classes with associated Earned Income Tax Credit (EITC) returns, non-business returns with no associated EITC, non-farm business returns with no associated EITC returns, and farm businesses with no associated EITC returns. Finally, there is a new category for high income taxpayers. Table notes reported on page 11 will provide more detailed definitions by asset size.

## Additional Discussion of Trends and Issues in Individual Income Tax Returns

The share of total electronic volumes over the grand total comprises around 35 percent and steadily increases to 51 percent in 2013. Individual income tax returns make up over half of the grand total return filings in any given year. In CY 2006, the share of individual Form 1040 series filed electronically will surpass the 51 percent mark, and is forecasted to reach 72 percent by 2013. Readers interested in more detailed discussion of trends and issues in individual income tax returns filings should refer to the 2006 update of IRS Document 6187, Calendar Year Projections of Individual Returns by Major Processing Categories.

## Track Record of Projection Accuracy

In an effort to measure the quality of our products and services, this section, along with Table 14, provides a brief analysis of the accuracy of prior projections. Using four years of actual data from 2002 through 2005, Table 14 presents the accuracy of our national level projections by major return categories. This analysis covers only the major return categories projected on a calendar year basis and serves as a general measure for gauging the overall reliability of our U.S. level return projections. The return categories considered in Table 14 consist of the following: Grand Total, Total Primary Returns, Individual (income tax) Total, Individual Estimated Tax, Fiduciary, Partnership, Corporation, Employment, Exempt Organization, and Excise. When there was sufficient data on prior forecasts, we also included selected breakouts of "paper" volumes versus "e-file/magnetic tape" filings.

The table presents two measures of projection accuracy; the mean absolute percent error (MAPE), and the number of over-projections. We also include the latest actual filing volumes for 2005 to provide perspective on the volume of returns being projected. The MAPE is computed as the average percent projection error regardless of whether they were over- or under- projections over the four most recently applicable projection cycles. The associated number of over-projections can show whether we consistently over- or under- project. A value of two indicates balanced forecasts over the four cycles. The table groups these two measures by time horizon. The time horizon is determined by when the forecast was made and for what future year. For example, a forecast for 2002 made in 1999 would be part of the "3-years-ahead" time horizon. The table presents time horizons from one to five years ahead and factors in the most current four observations. As an example, for the "3-years-ahead" information, we use the forecasts made in 1999 for 2002, those made in 2000 for 2003, those made in 2001 for 2004, and those made in 2002 for 2005.

## Comments and Questions

We thank customers for their support as we continually seek to improve our products and services wherever possible. Comments and suggestions regarding this document can be directed to John Guyton, Chief, Forecasting and Service Analysis at (202) 874-0607. Questions concerning a specific tax return listed in this document may also be directed to the projections staff listed on the inside front cover. Finally, the tables contained in this document are also available electronically, as noted on the inside front cover.

Detail may not add due to rounding.
Figures include all returns filed from all filing media (paper, and electronic)
Column Definitions:
(2) Forms 1040, 1040-A 1040-EZ, 1040-NR, 1040-PR, and 1040-SS; 1040-C in 1991 and prior years; 1040-PC in 1992 through 2000. Form 1040-EZ-T is not included in the above volumes, refer to Table 1A
(3) Number of Form 1040-ES vouchers

(10) Projections reflect phaseout of estate tax filing requirements under the Economic Growth and Tax Relief Reconciliation Act of 2001 and the Act's current sunset provisions.

Estate volumes have been revised subsequent to the prior release of this document
(11) Gift volumes have been revised subsequent to the prior release of this document.
(12) Forms 940 , $940-\mathrm{PR}, 941,941-\mathrm{E}, 941-\mathrm{PR}, 941-\mathrm{SS}, 943,943-\mathrm{PR}, 944$, and CT-1; Form 940 EZ in 1990 and subsequent years; Form 945 in 1995 and subsequent years:

Forms 942 and 942 -PR in 1995 and prior. Form 944 begins in 2007, and Form CT-2 is not included.
(14) Forms $990,990-\mathrm{C}$ (will be replaced by $1120-\mathrm{C}$ in 2007), $990-\mathrm{PF}, 990-\mathrm{T}, 4720$, and 5227 ; Form $990-\mathrm{EZ}$ in 1990 and subsequent years;
(15) Forms $8038,8038-\mathrm{G}, 8038-\mathrm{GC}, 8038-\mathrm{T}$, and 8328 . Form $8038-\mathrm{R}$ is not included.
(16) Forms 1120-POL, 8871 and 8872.
(17) Forms 11-C, 720, 730, and 2290.
(19) Form 8752 was introduced in 1991
(20) Forms 5500, $5500-\mathrm{CR}$ and 5500 -EZ; Form $5500-\mathrm{C}$ and Form 5500-R in 1988 and prior year. IRS ceased processing EP returns in mid -2001, when the Dept. of Labor assumed full responsibility. (21) Forms 1040-X, 1120-X, 2688 (ceases in 2007), 4868 and 7004; Form 1041A in 1992 and prior years. Form 5558, 8868 in 2002 and subsequent years.

Table 1A. Calendar Year Projections of Form 1040-EZ-T Volumes
Generated by Telephone Excise Tax Refunds
by US and Processing IRS Campuses in 2007
$\left.\begin{array}{|l|r|r|r|}\hline \hline \text { Item } & & \\ \hline \text { Form 1040-EZ-T, Total } \\ \text { by Campus }\end{array} \quad \begin{array}{c}\text { Filed on Paper } \\ \text { by Campus }\end{array} \quad \begin{array}{c}\text { Filed Electronically } \\ \text { by Campus }\end{array}\right]$

Notes:
Form 1040-EZ-T will be used by taxpayers who chose the standard amount refund
See "Table Notes" for additional information
Detail may not add to total due to rounding.

Table 2. Total Number of Returns Filed by Type for United States

|  | Actual | Estimated |  |  | Projected |  |  |  |  |

${ }^{2}$ Includes non-farm business returns (with No EITC) (Sch. C Present and Sch. C Gross Receipts >= Sch. F Gross Receipts)
${ }^{3}$ Includes farm business returns (with No EITC) (Sch. F Present and Sch. F Gross Receipts >= Sch. C Gross Receipts)
${ }^{4}$ In CY 2008, filing requirements for Widely Held Fixed Investment Trust (WHFIT) will move from Form 1041 to Form 1099.
The shift of volumes due to the filing change will impact only the Form 1041 "Other" exam class.
${ }^{6} 1120$ Other includes the following forms: $1120-$ L/PC/SF/FSC/REIT/RIC
${ }^{\circledR 8}$ Estate and Gift volumes have been revised subsequent to the prior release of this document.

Table 14. Accuracy Measures for U.S. Forecasts of Major Return Categories Mean Absolute Percent Error (MAPE) and Number of Overprojections for the Four (4) Most Recent Projection Cycles

| Item | Calendar Year 2005 Actual * (thousands) | Projection Error on Forecasts for: |  |  |  |  |

* Some actuals shown in this table differ from official counts reported elsewhere

Office of Research, Projections and Forecasting Group because they exclude certain return series only recently projected and whose accuracy can not yet be evaluated.

## Table Notes

Detail may not add to total due to rounding.
Projections are based on counts of returns filed as recorded in the Reports of Returns Posted to the IRS Master Files, with a few exceptions. In particular, complete master file counts for calendar year 2005 were not available for the following forms and had to be supplied by operating division staff from secondary sources: Forms 5558, 8871 and 8872, as well as Form 4868 Tele-File volumes.
"Grand Total" is the sum of "Primary Total" and "Supplemental Documents."
"Total Primary Returns" is the sum of all returns, excluding "Supplemental Documents."
"Individual Total" is the sum of paper and electronic Forms 1040, 1040-A, 1040-EZ, 1040-NR, 1040-PR, and 1040-SS.
"Forms 1040, 1040-A, 1040-EZ" is the sum of the paper and electronic Forms 1040, 1040-A, and 1040-EZ.
"Form 1040-EZ-T" is generated by the Telephone Excise Tax Refund and is only available for 2007. Refer to Table 1A for more information on 1040-EZ-T.
"Individual Estimated Tax, (Form 1040-ES)" includes both paper and electronic Form 1040-ES.
"Fiduciary, (Form 1041), Total" includes paper and electronic Form 1041.
"Fiduciary Estimated Tax, (Form 1041-ES)" is the Estimated Income Tax for Estate and Trust.
"Partnership, (Form 1065/1065-B)" includes both paper and electronic Forms 1065 and 1065-B.
"Corporation, Total" includes Forms 1120/1120-A (both paper and electronic), 1120-F, 1120-H, 1120-L, 1120-PC, 1120-SF, 1120-FSC, 1120-REIT, 1120-RIC, and $1120-\mathrm{S}$ (both paper and electronic). As a result of the Foreign Sales Corporation (FSC) Repeal and Extraterritorial Income Act of 2000 which repeals provisions in the U.S. Internal Revenue Code relating to taxation of foreign sales corporations, the volume of Forms 1120-FSC is declining with no returns expected after 2006. Also, Form 1120 POL volumes are reported separately under the forms for "Political Organizations." Forms 1120-ND and 1120-IC-DISC are not included in these corporation projections.
"Form 2553" is the Election (to file Form 1120-S) by a Small Business corporation.
"Form 1066" is the U.S. Real Estate Mortgage Investment Conduit (REMIC) Income Tax Return.
"Estate" includes Forms 706, 706-NA, 706-GS(D), and 706-GS(T).
"Form 709" is the U.S. Gift (and Generation-Skipping Transfer) Tax Return.
"Employment Tax" includes paper, magnetic tape and electronic Forms 940, 940EZ, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 943-SS, 944, 945, and CT-1. Form CT-2 is not included in "Employment Tax".
"Form 1042" is the Annual Withholding Tax Return for U.S. Source Income of Foreign Persons. It is sometimes considered an employment tax return, but listed separately here.
"Exempt Organization" includes Forms 990, 990-EZ, 990-PF, 990-T, 4720, and 5227.
"Form 990-C" is the Farmer's Cooperative Association Income Tax Return. This form will become obsolete and replaced by Form 1120-C in 2007.
"Government Entities /Bonds" includes Forms 8038, 8038-G, 8038-GC, 8038-T and 8328.
"Political Organizations" includes Forms 1120-POL, 8871 and 8872.
"Excise, Total" includes Forms 11-C, 720, 730, and 2290.
"Form 5330" is the Return of Excise Taxes Related to Employee Benefit Plans.
"Form 8752" is the Required Payment or Refund Under Section 7519.
"Supplemental Documents" consist mainly of applications for extensions of time to file and amended tax returns, which include Forms 1040-X, 4868, 1120-X, 5558, 7004 , and 8868.

Return volumes presented in Table 13 reflect additional detail for certain form types by "examination class." The examination classes are defined by IRS staff and are used for internal compliance planning purposes. While most of the examination class categories are self explanatory, a few required a bit more clarification as follows.

New examination class definitions for Individual Forms "Forms 1040, 1040A and 1040EZ":

- Earned Income Tax Credit (EITC) returns with TPI (total positive income and reflects total income excluding losses) less than \$200,000 and Schedule C/F with TGR (total gross receipts) <\$25,000 and over \$25,000.
- Non-business returns (with no EITC) with 1)TPI <\$200,000 and no Schedule C, E, F, or Form 2106 and 2) TPI <\$200,000 with only Schedule E or Form 2106.
- All non-farm business returns (with no EITC) with 1) TPI<\$200,000 and Schedule C/F present with TGR $<\$ 25,000,2$ ) TGR at $\$ 25,000$ or below $\$ 100,000,3)$ TGR at $\$ 100,000$ or below $\$ 200,000$, and 4) TGR $\$ 200,000$ or more.
- Farm business returns with no EITC, Schedule F present with TGR greater than Schedule C TGR (if any), and TPI must be less than \$200,000
- High income taxpayers is a new category broken out by 1) no Schedule C or F, but TPI>=\$200,000 or under $\$ 1,000,000,2$ ) Schedule C or F returns present with $\mathrm{TPI}>=\$ 200,000$ or under $\$ 1,000,000,3) \mathrm{TPI}>=\$ 1,000,000$.
