Overview

The following Fall 2015 edition of IRS Publication 6292 provides the most recent revisions to the U.S. level projections of tax returns to be filed for fiscal years (FY) 2014 through 2022 by the major return categories, including selected detail by IRS business operating divisions. Office of Research staff, within the IRS Research, Analysis and Statistics organization prepare these projections semi-annually to incorporate changes in filing patterns, economic and demographic trends, legislative requirements, and IRS administrative processes. The projections are based on the information available as of early August 2015, including enacted tax law changes and confirmed administrative plans. Legislative or administrative initiatives under consideration are generally not used for projections due to the uncertain nature of their eventual outcome.

Data Sources and Projection Methodology

The reported actual values of returns filed in FY 2014 are based on returns processed and recorded on the IRS master files. In cases where master file return counts were not available, tallies of actual filings were supplied by program staff in the IRS operating divisions.

Depending on the properties of each filing category, the forecasting methods were selected to capture and extrapolate historical filing trends. In general, the projections are computed for the calendar year of filing and converted to the corresponding fiscal year based on the historical quarterly filing experience. These results are based on statistical models such as regression models incorporating key economic and demographic input variables provided by IHS Global Inc, time series techniques, growth rates and historical ratio methods. The projection method used depends on the form type, availability of historical data, and applicability of relevant economic and demographic forecasts. Customers interested in obtaining more detail on forecasting methodologies are welcome to contact the respective staff member listed on the inside front cover.

Summary of Significant Trends and Revisions

A summary of the major trends and other significant factors embedded in the return forecasts for this edition of Publication 6292 are noted below.

Trend in Grand Total Return Filings

As presented in Table 1, grand total return filings were 242.4 million in fiscal year 2014, an increase of 0.6 percent over FY 2013. After FY 2014, grand total return filings are projected to grow at an average annual rate of 1.3 percent, reaching 268.2 million by FY 2022. Within the steady increase in the grand total projection is a rather pronounced increase among selected e-file return volumes. In particular, electronic filings of forms 1065/B and 1120 series are expected to grow 8.3% and 7.6% annually in FY 2015 and at an average annual rate of 4.0% and 3.2% by FY 2022, respectively.

Detail by Business Operating Division

Table 2 presents estimates of selected return filings by IRS “Business Operating Divisions” (BODs). The selected returns include total individual income tax returns, corporation income tax returns, partnership returns, employment returns, excise returns, and exempt organization returns. As applicable, these volumes are broken out by their operating division components: “Wage and Investment” (W&I), “Small Business/Self Employed” (SB/SE), “Large Business and International” (LB&I) and “Tax Exempt/Government Entities” (TE/GE). Also included are the projected total filings of employee plans (EP) returns, including those processed by the Department of Labor, which comprise major return filings by taxpayers served by the TE/GE operating division.

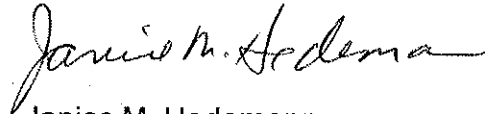

Track Record of Projection Accuracy

In an effort to measure the quality of our products and services, this section, along with Table 3, provides a brief analysis of the accuracy of prior projections. Using four years of actual data from 2011 through 2014, Table 3 presents the accuracy of our national level projections by major return categories. This analysis covers only the major return categories projected on a calendar year basis and serves as a general measure for gauging the overall reliability of our U.S. level return projections.

The table presents two measures of projection accuracy; the mean absolute percent error (MAPE) and the number of over-projections. The MAPE is computed as the average percent projection error regardless of whether they were over- or under-projections over the four projection cycles. The number of over-projections can show whether projections are consistently over- or under- projected. A value of two indicates balanced forecasts over the four cycles. The table groups these two measures by time horizon. The time horizon is determined by when the forecast was made and for what future year. For example, a forecast for 2014 made in 2011 would be part of the “3-years-ahead” time horizon.

Comments and Questions

We thank our customers for their support as we continually seek to improve our products and services wherever possible. We welcome customer feedback at any time. Comments and suggestions regarding this publication can be directed to Michael Sebastiani, Chief, Forecasting and Data Analysis Group at (202) 803-9155.

Office of Research, Forecasting and Data Analysis
2015

Table Notes

- Projected volumes are rounded to the nearest hundredth, therefore counts of 49 or fewer are rounded to zero. However, some forms can report zero filings because they are associated with only selected areas, or because their filing options were just established or recently eliminated.
- Actual and forecasted return counts for the major categories are based on IRS master file processing, as recorded in the electronic versions of the “Report of Returns Posted to the IRS Master Files.”

Notes below are grouped by applicable table.

Table 1:

- “Grand Total” is the sum of “Total Primary Returns” and “Supplemental Documents.” The “Total Primary Returns” category is the sum of all forms shown on the tables, excluding “Supplemental Documents.”
- “Individual Income Tax, Total” is the sum of paper and electronic Forms 1040, 1040-A, 1040-EZ, 1040-NR, 1040-NR-EZ, 1040-PR 1040-SS and 1040-C.
- Various return categories, such as Form 1040-ES (Individual Estimated Tax) and other business and individual returns, include line items to account for alternative methods of tax filing. The “paper only” components can be derived by subtracting the electronic counts from their respective return totals.
- “Fiduciary, Form 1041” includes both paper and electronic Form 1041.
- “Fiduciary Estimated Tax, Form 1041-ES” is the Estimated Income Tax for Estate and Trust.
- “Partnership, Forms 1065/1065-B” includes both paper and electronic Forms 1065 and 1065-B.
- “Corporation Income Tax, Total” includes Forms 1120 (paper and electronic), 1120-F (paper and electronic), 1120-H, 1120-L, 1120-ND, 1120-PC, 1120-SF, 1120-FSC, 1120-REIT, 1120-RIC, and 1120-S (paper and electronic). Form 1120-POL volumes are reported separately under the forms for “Political Organizations.” Form 1120-IC-DISC is not included in these corporation projections.
- “Form 1120-C” is the U.S. Income Tax Return for Cooperative Associations.
- “Form 2553” is the Election (to file Form 1120-S) by a Small Business Corporation.

- “Form 1066” is the U.S. Real Estate Mortgage Investment Conduit (REMIC) Income Tax Return.
- “Estate” includes Forms 706, 706-NA, 706-GS(D), and 706-GS(T).
- “Gift, Form 709” is the United States Gift (and Generation-Skipping Transfer) Tax Return.
- “Employment Tax, Total” includes paper, and electronic Forms 940, 940- EZ, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 943-SS, 944, 945 and CT-1. CT-2 is excluded since the return counts were only available on the Non-Master File.
- “Form 1042” is the Annual Withholding Tax Return for U.S. Source Income of Foreign Persons. This form is assigned to the International area. It is sometimes considered an employment tax return, but listed separately here.
- “Exempt Organization, Total” includes Forms 990 (paper and electronic), 990-EZ (paper and electronic), 990-N (only available electronically), 990-PF (paper and electronic), 990-T, 4720, and 5227.
- “Form 1041-A” is the U.S. Information Return Trust Accumulation of Charitable Amounts Return.
- “Government Entities/Bonds” includes Forms 8038, 8038B, 8038CP, 8038G, 8038GC, 8038T, 8038TC, and 8328.
- “Political Organizations” includes both paper and electronic Forms 1120-POL, 8871 and 8872.
- “Excise, Total” includes Forms 11-C, 730, paper and electronic Forms 720, and 2290.
- “Form 5330” is the Return of Excise Taxes Related to Employee Benefit Plans.
- “Form 5500-EZ” is the Annual Return for One-Participant (Owners and Their Spouses) Retirement Plans.
- “Form 8752” is the Required Payment or Refund Under Section 7519.
- “Supplemental Documents” consist mainly of applications for extensions of time to file and amended tax returns, which include Forms 1040X, 4868 (both paper and electronic), 1120X, 5558, 7004 (both paper and electronic), and 8868 (both paper and electronic).

Table 2:

Individual filers classified as “Small Business/Self Employed” reflect those taxpayers filing a Form 1040 return with a Schedule C, Schedule F, Schedule E and/or Form 2106 attached, or with mailing addresses or forms considered “International.” All other individual filers are classified as “Wage and Investment.”

In general, corporation filers (Form 1120 series returns including Form 1120S) and partnership filers are classified as “Large Business and International” if their reported total assets are \$10 million or more. Corporation and partnership returns with assets below \$10 million are generally classified as “Small Business/Self Employed.” However, there are also some partnership and corporation returns classified as part of the “Tax Exempt/Government Entities” operating division.

Non-profit organizations, pension plan filers, tribal authorities, and governmental units comprise the “Tax Exempt/Government Entities” classification.

“Employee Plans” returns include paper and electronic Forms 5500, 5500EZ and 5500SF. Counts by operating division in this table are based primarily upon the IRS master file “BOD indicator.” This indicator is a single, point-in-time, taxpayer level identifier (in contrast to a return-by-return identifier).

Other Projection Publications
