Systemic Advocacy Management System (SAMS)

"As an independent organization within the IRS, we help taxpayers solve problems with the IRS and recommend changes that will prevent the problems."

To this end, the National Taxpayer Advocate invites taxpayers, practitioners, professional organizations, and all interested Americans to help identify and recommend solutions to problems with the Internal Revenue Service and the tax code. You can do this by submitting advocacy issues to the Taxpayer Advocate Service through SAMS: our new, web-based method of receiving issues, suggestions and ideas, and using them to help reduce or eliminate the burdens facing taxpayers.

What is SAMS? SAMS is the Systemic Advocacy Management System; a database of issues and information submitted by IRS employees and the public.
