General Instructions

Purpose of Form

Use Form 1125-A to calculate and deduct cost of goods sold for certain entities.

Who Must File

Filers of Form 1120, 1120-C, 1120-F, 1120S, 1065, or 1065-B, must complete and attach Form 1125-A if the applicable entity reports a deduction for cost of goods sold.

Inventories

Generally, inventories are required at the beginning and end of each tax year if the production, purchase, or sale of merchandise is an income-producing factor. See Regulations section 1.471-1. If inventories are required, you generally must use an accrual method of accounting for sales and purchases of inventory items.

Exception for certain taxpayers. If you are a qualifying taxpayer or a qualifying small business taxpayer (defined below), you can adopt or change your accounting method to account for inventoriable items in the same manner as materials and supplies that are not incidental.

Under this accounting method, inventory costs for raw materials purchased for use in producing finished goods and merchandise purchased for resale are deductible in the year the finished goods or merchandise are sold (but not before the year you paid for the raw materials or merchandise, if you are also using the cash method).

If you account for inventoriable items in the same manner as materials and supplies that are not incidental, you can currently deduct expenditures for direct labor and all indirect costs that would otherwise be included in inventory costs. See the instructions for lines 2 and 7.

For additional guidance on this method of accounting, see Pub. 538, Accounting Periods and Methods. For guidance on adopting or changing to this method of accounting, see Form 3115, Application for Change in Accounting Method, and its instructions.

Qualifying taxpayer. A qualifying taxpayer is a taxpayer that, (a) for each prior tax year ending after December 16, 1998, has average annual gross receipts of \$1 million or less for the 3 prior tax years, and (b) its business is not a tax shelter (as defined in section 448(d)(3)). See Rev. Proc. 2001-10, 2001-2 I.R.B. 272.

Qualifying small business taxpayer. A qualifying small business taxpayer is a taxpayer that, (a) for each prior tax year

ending on or after December 31, 2000, has average annual gross receipts of \$10 million or less for the 3 prior tax years, (b) whose principal business activity is not an ineligible activity, and (c) whose business is not a tax shelter (as defined in section 448(d)(3)). See Rev. Proc. 2002-28, 2002-18 I.R.B. 815.

Uniform capitalization rules. The uniform capitalization rules of section 263A generally require you to capitalize, or include in inventory, certain costs incurred in connection with the following.

- The production of real property and tangible personal property held in inventory or held for sale in the ordinary course of business.
- Real property or personal property (tangible and intangible) acquired for resale.
- The production of real property and tangible personal property by a corporation for use in its trade or business or in an activity engaged in for profit.

See the discussion on section 263A uniform capitalization rules in the instructions for your tax return before completing Form 1125-A. Also see Regulations sections 1.263A-1 through 1.263A-3. See Regulations section 1.263A-4 for rules for property produced in a farming business.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

Employers use Form 8882 to claim the credit for qualified childcare facility and resource and referral expenditures. The credit is part of the general business credit. You may claim the credit any time within 3 years from the due date of your return on either an original or amended return.

Taxpayers, other than partnerships, S corporations, estates, or trusts, whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on Form 3800.

How To Figure the Credit

The credit is 25% of the qualified childcare facility expenditures plus 10% of the qualified childcare resource and referral expenditures paid or incurred during the tax year. The credit is limited to \$150,000 per tax year.

Qualified childcare expenditures are amounts paid or incurred:

- To acquire, construct, rehabilitate, or expand property that:
 1. Is to be used as part of a qualified childcare facility of the taxpayer,
 2. Is depreciable (or amortizable) property, and
 3. Is not part of the principal residence of the taxpayer or any employee of the taxpayer;
- For the operating expenses of a qualified childcare facility of the taxpayer, including expenses for training of employees, scholarship programs, and providing

increased compensation to employees with higher levels of childcare training; or

- Under a contract with a qualified childcare facility to provide childcare services to employees of the taxpayer.

Note. Any expenses for childcare included in qualified childcare facility expenditures may not exceed the fair market value of such care.

A qualified childcare facility is a facility that meets the requirements of all applicable laws and regulations of the state or local government in which it is located, including the licensing of the facility as a childcare facility. The following conditions must also be met.

- The principal use of the facility must be to provide childcare (unless the facility is also the personal residence of the person operating the facility).
- Enrollment in the facility must be open to employees of the taxpayer during the tax year.
- If the facility is the principal trade or business of the taxpayer, at least 30% of the enrollees of the facility must be dependents of employees of the taxpayer.
- The use of the facility (or the eligibility to use the facility) must not discriminate in favor of highly compensated employees.

Qualified childcare resource and referral expenditures are amounts paid or incurred under a contract to provide childcare resource and referral services to employees of the taxpayer. The provision of the services (or the eligibility to use the services) must not discriminate in favor of highly compensated employees.

What's New

- The credit has been extended to cover eligible differential wage payments made after 2014.
- For tax years beginning after 2015, employers who are not eligible small business employers can claim this credit.

Purpose of Form

Use Form 8932 to claim the credit for eligible differential wage payments made to qualified employees after 2008. For tax years beginning before 2016, you must be an eligible small business employer (defined later) to claim the credit. The credit is 20% of up to \$20,000 of differential wage payments paid to each qualified employee during the tax year.

The credit for employer differential wage payments is part of the general business credit.

Partnerships, S corporations, cooperatives, estates, and trusts must file this form to claim the credit. All other taxpayers are not required to complete or file this form if their only source for this credit is a partnership, S corporation, cooperative, estate, or trust. Instead, they can report this credit directly on Form 3800, General Business Credit.

For details, see section 45P and Notice 2010-15, 2010-6 I.R.B. 390, available at www.irs.gov/irb/2010-06_IRB/ar09.html.

Definitions

Eligible Differential Wage Payments

Eligible differential wage payments are the total differential wage payments paid to the employee for the tax year, up to \$20,000.

Qualified Employee

A qualified employee is an employee of an eligible small business employer for the 91-day period immediately preceding the period for which any differential wage payment is made.

Differential Wage Payment

To be considered a differential wage payment, the payment must be paid after 2008 and meet both of the following requirements.

- The payment is made by an eligible small business employer to a qualified employee for any period during which the employee is performing service in the uniformed services of the United States while on active duty for a period of more than 30 days.
- The payment represents all or a portion of the wages the employee would have received from the employer if the employee were performing services for the employer.

Eligible Small Business Employer

An eligible small business employer means any taxpayer that:

- Employed on average fewer than 50 employees on business days during the tax year, and
- Under a **written plan** of the employer, provides eligible differential wage payments to **every** qualified employee of the employer.

Controlled Groups

All persons treated as a single employer under subsection (b), (c), (m), or (o) of section 414 are treated as a single employer.

Uniformed Services

Uniformed services means the Armed Forces; the Army National Guard and the Air National Guard when engaged in active duty for training, inactive duty training, or full-time National Guard duty; the commissioned corps of the Public Health Service; and any other category of persons designated by the President in time of war or national emergency.

Coordination With Other Credits

The amount of any research credit or orphan drug credit otherwise allowable for compensation paid to any employee is reduced by the credit for differential wage payments figured for that employee.

Future Developments

For the latest information about developments related to Form 8933 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/form8933.

Purpose of Form

Use Form 8933 to claim the carbon dioxide sequestration credit. The credit is allowed for qualified carbon dioxide that is captured and disposed of or captured, used, and disposed of by the taxpayer in secure geological storage. Only carbon dioxide captured and disposed of or used as a tertiary injectant within the United States or a U.S. possession is taken into account when figuring the credit. See *Definitions* below.

For the purposes of this form, a partner in a partnership that has made a valid section 761(a) election will be considered the taxpayer. Partnerships with valid section 761(a) elections aren't required to complete or file this form. Instead, the partner is required to complete and file this form in a manner commensurate with its undivided ownership interest in the qualified facility.

Taxpayers other than partnerships or S corporations whose only source of this credit is from those pass-through entities (other than a partnership with a valid 761(a) election) aren't required to complete or file this form. Instead, report this credit directly on line 1x of Form 3800, General Business Credit.

How To Figure the Credit

Generally, the credit is \$20 (adjusted for inflation) per metric ton for qualified carbon dioxide captured at a qualified facility, disposed of in secure geological storage, and not used as a tertiary injectant in a qualified enhanced oil or natural gas recovery project.

Generally, the credit is \$10 (adjusted for inflation) per metric ton for qualified carbon dioxide captured at a qualified facility, used as a tertiary injectant in a qualified enhanced oil or natural gas recovery project, and disposed of in secure geological storage.

For the purpose of calculating the credit, a metric ton of carbon dioxide includes only the contained weight of the carbon dioxide. The weight of any other substances, such as water or impurities, isn't included in the calculation.

Inflation Adjustment

For 2016, the \$20 and \$10 rates are adjusted for inflation.

The 2016 credit rates are:

- \$22.14 for qualified carbon dioxide captured at a qualified facility, disposed of in secure geological storage, and not used as a tertiary injectant in a qualified enhanced oil or natural gas recovery project; and
- \$11.07 for qualified carbon dioxide captured at a qualified facility, disposed of in secure geological storage, and used as a tertiary injectant in a qualified enhanced oil or natural gas recovery project.
