ATS Scenario 12

Form 94x On-Line Signature PIN Registration

Tulip Floors Inc.
00-3XXXXXX*

The information below identifies the contents of this scenario.

This form has no source PDF and is using the format that will be used in MeF.

Transmitters should use the following format for the EIN number when Submitting test submissions for the Form 94x On-Line Signature PIN Registration scenarios in ATS.

1) First three numbers should always be 00-3

2) The next 4 numbers should represent the date of the submission of the 94x PIN test submission in ATS in mmdd format (i.e., an October 3rd test submissions would be represented by)

3) The last 2 numbers should represent the approximate hour of the test submission in hh format using the military time format for hours after 12 pm (i.e., a submission in the 2 pm hour timeframe would be represented as 14 in the scenario).

For example, a transmitter submitting a test submission for the Form 94s On-Line Signature PIN Registration form in ATS on October 3rd at approximately 2:35 pm would use the following test EIN when submitting in ATS: 00-3100314.

Using this format should prevent transmitters from receiving the A94XPIN-003 error message (For the EIN, an active 94x PIN already exists or an application is still being processed) when submitting 94X.
