Dear :

This responds to your ruling request, dated April 17, 2002, on your behalf of the Company, that certain educational benefits provided to employees of the Company are part of an educational assistance program described in section 127 of the Internal Revenue Code (the Code).

The Company established an Educational Assistance Plan (the Plan) that is intended to provide benefits under section 127 to all regularly employed full and part-time employees of the Company with six months of continuous service prior to the course or program start date. Full and part-time employees include all individuals working 20 or more hours per week on a regular basis who are in good standing with the Company and are not currently on unpaid leaves of absence (except individuals under the Family and Medical Leave Act, or military leave, who remain eligible for benefits). Employees who enroll in an educational course must maintain their status as full or part-time employees during the term of the course in order to remain eligible to participate in the Plan. The Company reserves the right to change or terminate the Plan without prior notice. If the Plan is terminated, all courses previously approved will be reimbursed, but the Company will not approve any more applications.

A participant desiring to receive benefit under the Plan must submit a written request to the Plan administrator at least 30 days prior to course registration. Upon completion of the course, the participant is required to provide original receipts for all items for which he or she seeks reimbursement. The amount reimbursed is reduced by any financial assistance, scholarship, or any other financial benefit derived from public or private programs that apply toward educational costs. The participant must also attain a grade of "C" or better in order to receive benefits under the Plan. If an application to participate in the Plan is denied, the Plan provides a procedure through which the participant may

PLR-124772-02

appeal the denial.

The Plan provides that during the calendar year, an employee is permitted to receive reimbursement for no more than two courses a semester, or five courses per year, up to the statutory dollar limitation of section 127(a)(2). This reimbursement covers educational assistance described in section 127(c)(1) and section 1.127-2(c) of the Income Tax Regulations.

The Plan provides that the Company shall contribute the amount required to pay educational benefits out of the general assets of the Company at the time the benefits are to be paid. There is no special fund out of which the benefits are paid, nor are participants required to make a contribution as a condition of receiving benefits.

The Plan states that not more than 5 percent of the benefits paid or incurred each year under the Plan for educational courses shall be attributable to principal (5 percent) shareholders or owners of the Company in accordance with section 127(b) of the Code.

You represent that the Company has provided reasonable notification of the availability and terms of the Plan to all eligible employees through e-mail, postings at bulletin boards and the Company's intranet website.

Based on the foregoing, you request rulings that all payments under the Plan are excluded from the gross income of participating employees under section 127(a) of the Code, and that all payments by the Company under the Plan are deductible by the Company under section 162(a) of the Code as ordinary and necessary business expenses.

Section 127(a) provides that the gross income of an employee does not include amounts paid or expenses incurred by the employer for educational assistance to the employee if the assistance is furnished pursuant to a program which is described in section 127(b).

Section 127(b)(1) requires a separate written plan of the employer for the exclusive benefit of the employees to provide such employees with educational assistance.

Section 127(b)(2) and section 1.127-2(e) of the regulations provide that the program shall benefit employees who qualify under a classification set up by the Secretary not to be discriminatory in favor of employees who are officers, owners, or highly compensated, or their spouses and dependents who are themselves employees. However, a program shall not be considered discriminatory because members of the prohibited group in fact utilize the program to a greater degree than eligible employees who are not within the prohibitive group; or, because with respect to a course of study for which benefits are otherwise available, successful completion of the course, attaining a particular course grade, or satisfying a reasonable condition subsequent (such as remaining employed for one year after completing the course) are required or considered in determining the availability of benefits.

PLR-124772-02

Section 127(b)(3) provides that not more than 5 percent of the amounts paid or incurred by the employer for educational assistance during the year may be provided for the class of individuals who are shareholders or owners (or their spouses or dependents), each of whom (on any day of the year) owns more than 5 percent of the stock or of the capital or profits interest in the employer.

Section 127(b)(4) provides that a program must not provide eligible employees with a choice between educational assistance and other remuneration includible in gross income.

Section 127(b)(5) states that a program referred to in section 127(b)(1) is not required to be funded.

Section 127(b)(6) requires that reasonable notification of the availability and terms of the program must be provided to eligible employees.

Based on the information submitted, representations made and authorities cited, we conclude that the Plan qualifies as an educational assistance program as described in section 127 of the Code. Payments made under the Plan are excluded from the gross income of the employees under section 127(a) of the Code, as employer-provided educational assistance. All payments by the Company under the Plan are deductible by the Company under section 162(a) of the Code as ordinary and necessary business expenses.

Except as expressly provided herein, no opinion is expressed or implied concerning the tax consequences of any aspect of any transaction or items discussed or referenced in this letter.

This ruling is directed only to the taxpayer requesting it. Section 6110(k)(3) of the Code provides that it may not be used or cited as precedent.

Sincerely,

Harry Beker
