Subject: Lesson 8 (Levy Seizure Sale)

FYI, the discussion on section 6503 suspensions has been revised in the above-referenced lesson (the current one in the 2017 GL1 drive). Legal inaccuracies have been cleaned up and there is a beefed up discussion of how the suspension operates in jeopardy situations. It also has a practice tip (refer to DJ as the nominal CSED begins to run, even though our position is that there is a CSED extension).

Let me know if have any questions.
