#### What's New

**Small business taxpayers.** For tax years beginning after December 31, 2017, the following apply.

• A small business taxpayer (defined below), can adopt or change its accounting method to account for inventories in the same manner as nonincidental material and supplies.

• A small business taxpayer is not required to capitalize costs under section 263A.

## **General Instructions**

#### **Purpose of Form**

Use Form 1125-A to calculate and deduct cost of goods sold for certain entities.

#### Who Must File

Filers of Form 1120, 1120-C, 1120-F, 1120S, or 1065, must complete and attach Form 1125-A if the applicable entity reports a deduction for cost of goods sold.

#### Inventories

Generally, inventories are required at the beginning and end of each tax year if the production, purchase, or sale of merchandise is an income-producing factor. See Regulations section 1.471-1. If inventories are required, you generally must use an accrual method of accounting for sales and purchases of inventory items. **Exception for certain taxpayers.** A small business taxpayer (defined below), can adopt or change its accounting method to account for inventories in the same manner as material and supplies that are non-incidental, or conform to its treatment of inventories in an applicable financial statement (as defined in section 451(b)(3)) (or the method of accounting used in its books and records prepared in accordance with its accounting procedures, if applicable financial statements are not used). See section 471(c)(1).

If you account for inventories in the same manner as nonincidental materials and supplies, inventory costs for raw materials purchased for use in producing finished goods and merchandise purchased for resale are deductible in the year the finished goods or merchandise are sold (but not before the year you paid for the raw materials or merchandise, if you are also using the cash method).

Under this accounting method, you can currently deduct expenditures for direct labor and all indirect costs that would otherwise be included in inventory costs. See the instructions for lines 2 and 7.

A small business taxpayer claiming exemption from the requirement to keep inventories is changing its method of accounting for purposes of section 481. For additional guidance on this method of accounting, see Pub. 538, Accounting Periods and Methods. For guidance on adopting or changing to this method of accounting, see Form 3115, Application for Change in Accounting Method, and its instructions. **Small business taxpayer.** A small business taxpayer is a taxpayer that (a) has average annual gross receipts of \$25 million or less (indexed for inflation) for the 3 preceding tax years, and (b) is not a tax shelter (as defined in section 448(d)(3)). See section 471(c).

**Uniform capitalization rules.** The uniform capitalization rules of section 263A generally require you to capitalize, or include in inventory, certain costs incurred in connection with the following.

• The production of real property and tangible personal property held in inventory or held for sale in the ordinary course of business.

• Real property or personal property (tangible and intangible) acquired for resale.

• The production of real property and tangible personal property by a corporation for use in its trade or business or in an activity engaged in for profit.

A small business taxpayer is not required to capitalize costs under section 263A. See section 263A(i).

See the discussion on section 263A uniform capitalization rules in the instructions for your tax return before completing Form 1125-A. Also see Regulations sections 1.263A-1 through 1.263A-3. See Regulations section 1.263A-4 for rules for property produced in a farming business. Form **1125-E**
