				Known Issues and Solution for TY2019 AATS Scenarios **Forms 1094-B/1095-B, 1094-C/1095-C**			
Item #	**Date Added**	**Form**	**Scenario**	**Description of the Problem**	**Temporary Solution(s)**	**Status**	**Date Resolved**
1	9/17/2020	1095-B 1095-C	Error data file	For errors in the Covered Individual Group, the error data file Xpath shows "instance" instead of "1". Example of 109495C error data file: <ns2:XpathContent>/Form109495CTransmittalUpstream/Form1094CUpstreamDetail/Form1095CUpstreamDetail/CoveredIndividualGrp**[instance]**/SSN</ns2:XpathContent>	As a workaround, please replace "Instance" in the xpath with "1". The defect appears only in the first instance of the Covered Individual Group on Forms 1095-B and 1095-C. This will be corrected for AATS TY2020. <ns2:XpathContent>/Form109495CTransmittalUpstream/Form1094CUpstreamDetail/Form1095CUpstreamDetail/CoveredIndividualGrp**[1]**/SSN</ns2:XpathContent>
